§ 802.1 *New Case Docket.* Whenever any case is certified to the Board, or whenever the Board assumes jurisdiction of any case on its own motion, the Executive Secretary shall place such case on the New Case Docket. Unless otherwise determined by the Standing Committee on New Cases, the cases shall be put on the New Case Docket in the order of the time of certification or assumption of jurisdiction.*

*§§ 802.1 through 802.10, inclusive, issued under the authority contained in E.O. 9017, 7 F.R. 237.

§ 802.2 *Notice of jurisdiction.* Whenever any case is put on the New Case Docket, the Executive Secretary shall notify the parties and shall keep the parties advised of the procedure to be followed, and in the event that there is a strike or lockout in progress at the time such notice shall contain a request that the strike or lockout be discontinued and that the parties restore the status quo existing before the strike or lockout occurred or the dispute arose, pending the determination of the case by the Board.*

§ 802.3 *Procedure of Standing Committee on New Cases.* All new cases shall be put on the New Case Docket and be referred immediately to the Standing Committee on New Cases which shall consider the case and dispose of it in accordance with the following rules and principles:

(a) If the Committee is in doubt as to the power of the Board to dispose of the case under the Executive Order of the President, it shall refer the case to the next meeting of the Board.

(b) If the Committee finds that the dispute is one for which procedures for adjustment or settlement are otherwise provided and those procedures have not been exhausted; or that direct collective bargaining has not been resorted to: or that procedures provided in a collective bargaining agreement have not been resorted to, or that the services of the Commissioners of Conciliation of the Department of Labor have not been used, it shall refer the case to the next meeting of the Board.

(c) If the Committee finds that the case is one in which the Board has power to act, and that the parties have exhausted all the existing procedures for settling the dispute and that such dispute might be settled by mediation, it shall recommend to the Board that the dispute be put on the Mediation Docket.

(d) If the Committee finds that the dispute is of such a nature that mediation would not be appropriate, the Committee shall recommend to the Board that the case be put on the Board Docket.

(e) If the Committee finds from the character of the dispute that it will be necessary to conduct investigations or examinations prior to either the mediation of the dispute or the consideration of the dispute by the Board, the Committee shall recommend to the Chairman the designation of an investigator or examiner to investigate the dispute and report to the Board.*

§ 802.4 *Notice to the parties.* Whenever any case is placed on the Mediation Docket or the Board Docket or Board Hearing Docket, the Executive Secretary shall notify the parties of the time and place of the mediation or hearing before the Board.*

§ 802.5 *Appointment of mediators.* The usual procedure of the Board in mediation shall be mediation by tripartite panels designated by the Chairman from the Associate Members. The Chairman may, however, appoint one or more mediators without regard to this rule in any case where the parties have agreed. On any tri-partite mediation panel the representatives of employers and employees shall be equal.*

§ 802.6 *Statement of position by the parties.* The parties to a dispute which has been set for mediation shall prepare a brief and concise statement in writing of their position. Such statement should where practicable be submitted to the Executive Secretary of the Board, at least three (3) days in advance of the date set for the mediation.*

§ 802.7 *Reference to voluntary arbitration.* If settlement of the dispute is not brought about by mediation the mediators shall try to induce the parties to submit the dispute to arbitration either by an arbiter of their own choosing or by an arbiter selected in some manner that is agreeable to the parties.*

§ 802.8 *Report by mediators to the Board.* If the mediator or mediators are unable to settle any dispute by agreement or voluntary arbitration, a report shall be made to the Board setting forth findings of facts and recommendations for settlement of the dispute. Such report shall be transmitted to the Executive Secretary who shall thereupon transfer such case to the Board Docket.*

§ 802.9 *Executive sessions.* At an Executive Session of the Board, the Board shall consider in order all cases on the Board Docket and shall dispose of them in accordance with the following principles:

(a) If the Board approves the findings and recommendations of the mediators or mediator, it shall thereupon render a decision of the Board based upon such findings and recommendations.

(b) If the Board determines that it is necessary to make further investigation of facts with respect to any particular case, it shall recommend to the Chairman that an investigator or examiner be designated to make such investigation and report to the Board.

(c) If the Board determines that the case is of such character that it is desirable to have the parties to the dispute appear before the Board, it shall place such case upon the Hearing Docket of the Board.*

§ 802.10 *Hearings before the Board.* The Board shall consider all cases put upon the Hearing Docket at Hearing Sessions. In the oral presentation of the case to the Board the parties shall be allowed an equal amount of time, not exceeding forty-five (45) minutes, unless the Board determines in advance that a longer time is necessary.*

GEORGE KIRSTEIN,
Executive Secretary.

CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1303—ZINC

PRICE SCHEDULE NO. 81—PRIMARY SLAB ZINC

The Office of Price Administration, being charged with the maintenance of price stability and the prevention of undue price rises and price dislocations, has determined that the establishment of maximum prices for primary slab zinc is essential in order to accomplish these purposes and is in the interest of national defense and the national welfare.

The present supply of zinc does not suffice to meet both military and essential civilian needs. The combination of increased demand and insufficient supply threatens the stability of the price of zinc, any increase in which is reflected in the cost of the war effort and tends to contribute to an inflationary spiral. Primary producers, recognizing the importance of these factors to the national welfare, have cooperated with the Office of Price Administration in preventing increases in slab zinc prices charged by them. However, because of the stringency of the supply situation, zinc sales have taken place during recent months at prices considerably in excess of those approved by the Office of Price Administration.

After careful investigation and consultation, it has been determined that the maximum prices set forth herein are fair and reasonable.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1303.51 *Maximum prices on sales of primary slab zinc.* On and after January 29, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer primary slab zinc, and no person shall buy, offer to buy, or accept delivery of primary slab zinc, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1303.59: *Provided, however,* That sales of primary slab zinc, resulting from production in excess of any quota established by the War Production Board and the Office of Price Administration, made to Metals Reserve Company shall be excepted from the terms of this Schedule.*

*§§ 1303.51 to 1303.59, inclusive, issued pursuant to the authority contained in E.O. Nos. 8734, 8875; 6 F.R. 1917, 4483.

§ 1303.52 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid or offered.*

§ 1303.53 *Evasion.* (a) The Price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery or transfer of primary slab zinc, alone or in conjunction with any other material, or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying-

agreement or other trade understanding, or otherwise.

(b) Any purchase, sale, delivery or transfer of primary slab zinc in quantities less than requested by the buyer in order to enable the seller to obtain a higher less-than-carload-lot differential shall be considered to be an evasion of this Schedule, *Provided*, That the buyer is willing to accept delivery of the requested quantity in a single shipment.

(c) (1) Any agreement or transaction entered into after January 29, 1942, in connection with which any ore or other material containing zinc is processed or treated on toll to obtain primary slab zinc therefrom shall be considered to be an evasion of this Schedule unless such agreement or transaction has first been approved in writing by the Office of Price Administration.

(2) Any such agreement entered into on or before January 29, 1942, and not completed on that date, may be completed at contract prices provided that (i) full details of such agreement, and such other pertinent information as may be requested, are reported by each party thereto to the Office of Price Administration on or before February 28, 1942, and (ii) such agreement shall be completed on or before April 1, 1942, or such later date as may be permitted upon application made to the Office of Price Administration.*

§ 1303.54 *Records and reports.* Every person making purchases or sales of primary slab zinc after January 29, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of (a) each such purchase or sale showing the date thereof, the name and address of the buyer and the seller, the price paid or received, and the quantity in pounds or tons of each kind or grade purchased or sold; and (b) the quantity in pounds or tons of primary slab zinc (1) on hand, and (2) on order, as of the close of each calendar month.

Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1303.55 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government, both state and federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county, and local governments by calling to the attention of the proper authorities, failures to comply with this Schedule, which may be regarded as grounds for the revocation of licenses and permits; and (d) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand, or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation or manipulation of prices of primary slab zinc, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1303.56 *Modification of the Price Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That no application under this section will be considered unless filed by persons complying with this Schedule and all other Schedules issued by the Office of Price Administration.*

§ 1303.57 *Definitions.* When used in this Schedule, the term:

(a) "On toll" means under an arrangement whereby a servicing charge is paid for processing or servicing ore or other material containing zinc;

(b) "Person" means an individual, partnership, association, corporation, or other business entity;

(c) "Point of shipment" means the point from which the seller ships to the buyer. This is usually the seller's plant, warehouse, or yard, but, where the material is shipped directly to the buyer from some point other than the seller's plant, warehouse, or yard, such other point is the point of shipment;

(d) "Primary slab zinc" means the kinds and grades of primary slab zinc set forth in Appendix A, § 1303.59, of this Schedule; and

(e) "Producer" means any person who produces slab zinc from ore or concentrates, even though other material is mixed therewith.*

§ 1303.58 *Effective date of the Schedule.* This Schedule shall become effective January 29, 1942.*

§ 1303.59 *Appendix A; maximum prices for primary slab zinc.*

(a) *Base prices.*

Grade	Base price, per pound
Prime Western	8.25 cents
Selected	8.35 cents
Brass Special	8.50 cents
Intermediate	8.75 cents
High Grade	9.25 cents
Special High Grade	9.25 cents

(b) *Sold or shipped, delivered, or carried away in carload lots.* The term "Base Price" referred to in this section means the price listed in paragraph (a) of this section for the respective grade of slab zinc.

Grade	Maximum price, per pound (delivered, buyer's receiving point)
Prime Western	Base Price plus carload freight from E. St. Louis to buyer's receiving point.
Selected	Base Price plus carload freight from E. St. Louis to buyer's receiving point.
Brass Special	Base Price plus carload freight from E. St. Louis to buyer's receiving point.
Intermediate	Base Price plus carload freight from E. St. Louis to buyer's receiving point.
High Grade	Base Price.
Special High Grade.	Base Price.

(c) *Sold and shipped, delivered or carried away in less than carload lots.* The term "base price" referred to in this section means the price listed in paragraph (a) of this section for the respective grade of slab zinc.

(1) *Sales by producers of primary slab zinc.*

For sales in lots of:	Maximum price per pound (f. o. b. point of shipment)	
	Prime western selected brass special intermediate	High grade special high grade
20,000 lbs. and less than a carload	Base price plus .15¢ plus carload freight from E. St. Louis to point of shipment.	Base price plus .15¢.
10,000 lbs. and less than 20,000 lbs.	Base price plus .25¢ plus carload freight from E. St. Louis to point of shipment.	Base price plus .25¢.
2,000 lbs. and less than 10,000 lbs.	Base price plus .40¢ plus carload freight from E. St. Louis to point of shipment.	Base price plus .40¢.
Less than 2,000 lbs.	Base price plus .50¢ plus carload freight from E. St. Louis to point of shipment.	Base price plus .50¢.

(2) *Sales by all persons except producers.*

For sales in lots of:	Maximum price per pound (f. o. b. point of shipment)	
	Prime western selected brass special intermediate	High grade special high grade
20,000 lbs. and less than a carload	Base price plus .65¢ plus carload freight from E. St. Louis to point of shipment.	Base price plus .65¢.
10,000 lbs. and less than 20,000 lbs.	Base price plus .75¢ plus carload freight from E. St. Louis to point of shipment.	Base price plus .75¢.
2,000 lbs. and less than 10,000 lbs.	Base price plus 1.00¢ plus carload freight from E. St. Louis to point of shipment.	Base price plus 1.00¢.
Less than 2,000 lbs.	Base price plus 1.50¢ plus carload freight from E. St. Louis to point of shipment.	Base price plus 1.50¢.

(d) *Export sales.* Persons desiring to make sales of primary slab zinc for export to foreign countries at prices in excess of the maximum prices established by this Schedule shall file with the Office of Price Administration prior to the execution of such sales complete and accurate records of the name and address of the purchaser, the quantity, in pounds or tons, on order, the grade or grades ordered, the price or prices to be paid, the terms of shipment, the date of shipment, from whom said zinc has been purchased and the price paid therefor, the export commission desired, and all other relevant factors.

(e) *Specifications.* The above grades of primary slab zinc are to be determined in accordance with the following specifications of the *American Society for Testing Materials*, which provide that the zinc be made from ore or other material by a process of distillation, or by electrolysis, and not produced by "sweating" or remelting of secondary zinc, in six grades as follows:

Maximum impurities—percent

Grade	Lead	Iron	Cadmium	Total not over
Special High Grade[1]	0.007	0.005	0.005	0.010
High Grade[1]	0.07	0.02	0.07	0.10
Intermediate[1]	0.20	0.03	0.50	0.50
Brass Special[1]	0.60	0.03	0.50	1.00
Selected[1]	0.80	0.04	0.75	1.25
Prime Western	1.60	0.06	-------	-------

[1] It shall be free from aluminum.

Primary slab zinc which fails to meet such standards should be sold at normal differentials below the established maximum prices. When, however, a producer makes primary slab zinc to conform with individual specifications, other than those set forth above, required by an individual customer or customers, such producer shall submit to the Office of Price Administration, not later than March 1, 1942, for determination of the maximum price that may be charged in each particular instance, complete and accurate records of the name and address of the buyer, the required specifications, the quantity, in pounds or tons, on order, and all other information that may be requested by the Office of Price Administration in determining said maximum price.

(f) *Terms of Sale.* The maximum prices set forth in paragraph (c) of this section are f. o. b. point of shipment. Primary slab zinc may, however, be sold, offered for sale, delivered, or transferred in less than carload lots at prices delivered buyer's receiving point. In such cases, whenever the total delivered price exceeds the maximum f. o. b. point of shipment price fixed by this Schedule, in all price quotations (1) the transportation charge must be shown as a separate item and (2) the price f. o. b. point of shipment, obtained by subtracting the transportation charge from the total delivered price, must not exceed the maximum f. o. b. point of shipment price set forth in this Schedule.

Whenever delivery is made in the seller's conveyance, the transportation charge shall not exceed the charge which would be applicable on an identical shipment from the same point of shipment to the same receiving point at the lowest available commercial transportation rate. In such cases, the transportation charge must be shown as a separate item in all price quotations.

When used in this Schedule, the term "point of shipment" means the point from which the seller ships to the buyer. This is usually the seller's plant, warehouse, or yard, but, where the material is shipped directly to the buyer from some point other than the seller's plant, warehouse, or yard, such other point is the point of shipment.*

Issued this 28th day of January 1942.

PART 1347—PAPER AND PAPER PRODUCTS

AMENDMENT NO. 5 TO PRICE SCHEDULE NO. 32[1]—PAPERBOARD SOLD EAST OF THE ROCKY MOUNTAINS

Section 1347.64, Appendix D, is hereby amended to read as follows:

§ 1347.64 *Appendix D; wholesale distributor allowance.* In the event that a purchaser of paperboard shall purchase from a wholesale distributor, as defined in § 1347.59 (j) hereof, paperboard owned by such wholesale distributor but not manufactured by him, and

(a) If sale of the same type and quantity of paperboard has been made to the same or a similar purchaser in the period between October 1, 1940 and September 30, 1941, inclusive, such purchaser may pay such wholesale distibutor and such wholesale distributor may charge such purchaser, not more than the maximum price established by Appendices A, B, or C of this Schedule for the type and quantity of paperboard sold plus a wholesale distributor's allowance not to exceed the regular allowance customarily charged by the wholesale distributor to the same or a similar purchaser for the type of sale and paperboard involved in the period between October 1, 1940, and September 30, 1941, inclusive.

(b) If sale of the same type and quantity of paperboard has not been made to the same or a similar purchaser in the period between October 1, 1940, and September 30, 1941, inclusive, application must be made to the Office of Price Administration for approval of the wholesale distributor's allowance prior to the issuance of any invoice. When submitting such allowance for approval, the wholesale distributor shall submit under oath all relevant facts, including:

(1) The length of time that the wholesale distributor has been engaged in the purchase and resale of the products of other producers or converters of paper, paper products, or paperboard;

(2) The average monthly gross sales of all paper or paperboard during the period October 1, 1940, to September 30, 1941, inclusive;

(3) A full description of the type of paperboard to be sold, including name and location of producer and cost per ton to the applicant:

(4) The amount of paperboard in tons covered by the sale in question;

(5) The amount of the total sale involved in dollars;

(6) The wholesale distributor's allowance per ton received by the applicant in three or more sales of similar paperboard, setting forth the tonnages sold, cost to applicant, and sale price;

(7) Whether the particular paperboard is sold from the applicant's warehouse, or direct from the producer; and

(8) The name and location of purchaser, and information concerning previous sales to such person, including wholesale distributor's allowance, if any. (Executive Orders Nos. 8734, 8875; 6 F.R. 1917, 4483)

This amendment No. 5 shall become effective January 30, 1942. Issued this 29th day of January 1942.

JANUARY 28, 1942.

Section 43.27 (*Connections to sides of vessels below the freeboard deck*) is amended to read as follows:

§ 43.27 *Connections to sides of vessels below the freeboard deck.* Discharges led through the vessel's sides from spaces below the freeboard deck are to be fitted with sufficient and accessible means for preventing water from passing inboard. Each separate discharge may have an automatic nonreturn valve with a positive means of closing it from a position above the freeboard deck, or two automatic nonreturn valves without positive means of closing, provided the upper valve is situated so that it is always accessible for examination under service conditions. The positive-action valve is to be readily accessible and is to be provided with means for showing whether the valve is open or closed.

Conditional upon the type and the location of the inboard ends of such openings, similar provisions may be prescribed by the assigning authority as to discharge from spaces within inclosed superstructures.

Where scuppers are fitted in superstructures not fitted with class 1 closing appliances, they are to have efficient means for preventing the accidental admission of water below the freeboard deck.

On vessels whose keels are laid on or after June 15, 1941, cast iron is not to be used for any connection to the vessel's sides if located below the freeboard deck, nor are cast iron valves to be secured to sea chests.

Vessels constructed with cast iron valves and cast iron sea chests, where it is not practicable to replace the cast iron with more ductile material, reinforcing with concrete or other approved material in conjunction with structural bracing will be fitted in a manner satisfactory to the Bureau of Marine Inspection and Navigation. SUBCHAPTER O—REGULATIONS APPLICABLE TO CERTAIN VESSELS AND SHIPPING DURING EMERGENCY

[Order No. 207]

PART 153—BOATS, RAFTS, AND LIFESAVING APPLIANCES; REGULATIONS DURING EMERGENCY

Emergency Regulations—Amendments

Pursuant to the authority of R. S. 4405, as amended (46 U.S.C. 375), the Board of Supervising Inspectors, Bureau of Marine Inspection and Navigation, convened in the conference room, No. 1851, Department of Commerce, Washington, D. C., on January 21, 1942, at which session, after public hearings, the following regulations and amendments were adopted:

Section 153.2 is amended to read as follows:

§ 153.2 *Additional lifesaving equipment on ocean and coastwise vessels.* Ocean and coastwise vessels shall, during the emergency, be provided with additional lifesaving appliances as follows:

(a) *Passenger vessels*—(1) *Life rafts.* Every such passenger vessel shall be equipped with a sufficient number of approved life rafts to accommodate at least 25 percent of all persons on board, in addition to the lifeboats and buoyant apparatus required by Subchapter G of this chapter. Such rafts shall be of not less than 15-person capacity each. (This requirement shall be complied with as early as practicable but in no case later than March 1, 1942.)

(2) *Life preservers.* Every such passenger vessel shall, in addition to having on board a life preserver for each person allowed to be carried, be provided with life preservers stowed on the boat deck for at least 25 percent of the total number of such persons. These life preservers shall be stowed in chests so as to be readily accessible and in such a manner as to float free of the vessel. The covers of the chests shall be of the "lift-off" type to insure release of the life preservers. (Effective immediately.)

(3) *Ladders.* Every such cargo vessel and tank ship shall be provided with suitable ladders to enable persons to descend to lifeboats and life rafts, one such ladder to be provided for each set of boat davits. These ladders shall be kept ready and convenient for use on the boat deck and shall reach to the vessel's light load water line. (This requirement shall be complied with as early as practicable but in no case later than March 1, 1942.)

(c) *Towing vessels, manned barges, and miscellaneous craft*—(1) *Life rafts.* Such towing vessels, manned barges, and miscellaneous craft shall carry sufficient lifeboats to accommodate all persons on board, and every such towing vessel, manned barge, and miscellaneous craft shall, in addition to the lifeboatage required, be equipped with sufficient approved life rafts to accommodate all persons on board. Each such life raft shall not have a greater capacity than 15 persons nor a less capacity than 5 persons. (This requirement shall be complied with as early as practicable, but in no case later than March 1, 1942.)

(2) *Life preservers.* Every such towing vessel, manned barge, and miscellaneous craft shall, in addition to having a life preserver for each person allowed to be carried, be provided with life preservers stowed on the boat deck, or upon permost deck, for at least 25 percent of the total number of such persons. These life preservers shall be stowed in chests so as to be readily accessible and in such a manner as to float free of the vessel. The covers of the chests shall be of the "lift-off" type to insure release of the life preservers. (Effective immediately.)

PETITION OF DISTRICT BOARD NO. 11 FOR THE ESTABLISHMENT OF A PROVISION IN THE SCHEDULE OF EFFECTIVE MINIMUM PRICES FOR DISTRICT NO. 11, FOR ALL SHIPMENTS EXCEPT TRUCK, PERMITTING THE ABSORPTION OF THE ES&N RAILWAY SWITCHING CHARGE APPLICABLE ON SHIPMENTS FROM THE STAR HILL NO. 2 MINE (MINE INDEX NO. 81) OF THE BOONVILLE COAL SALES CORPORATION, A CODE MEMBER IN DISTRICT NO. 11

NOTICE OF AND ORDER FOR HEARING

A petition, pursuant to the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party;

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on March 3, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in room 502 will advise as to the room where such hearing will be held.

It is further ordered, That W. A. Cuff or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before February 26, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 11 requesting a temporary and final order modifying the Schedule of Effective Minimum Prices for District No. 11, For All Shipments Except Truck, by establishing a provision granting permission to the Star Hill No. 2 Mine (Mine Index No. 81) of Boonville Coal Sales Corporation to absorb the ES&N Railway switching charge of $8.80 per car applicable on (1) shipments from Mine Index No. 81 to all destinations except those located on or reached via the C&EI, CI&L, CCC&StL, IC, and Penna. Railroads, and (2) shipments of locomotive fuel from Mine Index No. 81 for use by the Southern Railway so as to permit delivery at all destinations at the same price as other mines located in the Boonville Subdistrict.

[Docket No. B-187]

IN THE MATTER OF PHILIP SCHULTHEIS, JR., CODE MEMBER, DEFENDANT

NOTICE OF AND ORDER FOR HEARING

A complaint dated January 13, 1942, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, having been duly filed on January 15, 1942, by Bituminous Coal Producers Board for District No. 11, a District Board, complainant, with the Bituminous Coal Division alleging willful violation by the defendant of the Bituminous Coal Code or rules and regulations thereunder;

It is ordered, That a hearing in respect to the subject matter of such complaint be held on March 6, 1942, at 10 a. m., at a hearing room of the Bituminous Coal Division at the Post Office Building, Terre Haute, Indiana.

It is further ordered, That Edward J. Hayes or any other officer or officers of the Bituminous Coal Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other

duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said defendant and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Bituminous Coal Division at its Washington office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the defendant; and that any defendant failing to file an answer within such period, unless otherwise ordered, shall be deemed to have admitted the allegations of the complaint herein and to have consented to the entry of an appropriate order on the basis of the facts alleged.

All persons are hereby notified, that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

The matter concerned herewith is in regard to the complaint filed by said complainant, alleging willful violation by the above-named defendant of the Bituminous Coal Code or rules and regulations thereunder as follows: that Phillip Schulthies, Jr., Ferdinand, Indiana, code member, whose code membership became effective as of February 14, 1940, operator of the Lambert Mine, Mine Index No. 892, located in Spencer County, Indiana, District No. 11.

(1) Sold to Arthur Hicks, French Lick, Indiana, approximately 150 tons of 1¼" x 0 screenings (Size Group 14) produced by said code member at his Lambert Mine, at a price of approximately 50 cents per ton f. o. b. the mine, whereas the effective minimum price established for said coal was $1.40 per net ton f. o. b. the mine as set forth in Supplement No. 2 to the Schedule of Effective Minimum Prices for District No. 11 for Truck Shipments.

(2) That during the period July 1, 1941 to October 31, 1941, inclusive, the aforementioned code member failed to maintain proper records of the sale of said coal referred to in paragraph (1) hereof, as required by Order No. 313, dated February 24, 1941.

Notice is also hereby given that upon determination that the defendant has committed any one or more of the violations as alleged in the complaint, an order may be entered either revoking the code membership of the defendant or directing the defendant to cease and desist from violating the Code and regulations made thereunder.

Dated: January 28, 1942.

[Docket No. A-854]

PETITION OF REPUBLIC COAL COMPANY, A PRODUCER IN DISTRICT NO. 4, FOR REVISION OF EFFECTIVE MINIMUM PRICES OF COAL IN SIZE GROUP 8, PURSUANT TO SECTION 4 II (d) OF THE BITUMINOUS COAL ACT OF 1937

NOTICE OF AND ORDER FOR HEARING TO SHOW CAUSE WHY PETITION SHOULD NOT BE DISMISSED

Republic Coal Company filed an original petition in the above-entitled matter on January 7, 1941, praying for the revision of the effective price classifications and minimum prices established for the coals of Republic Coal Company Mine, Mine Index No. 1948, in District No. 4, in Size Group No. 8.

Although the petitioner was notified by registered mail and by publication in the FEDERAL REGISTER that a hearing in the above-entitled matter was scheduled to be held at a hearing room of the Division on February 21, 1941, at 10 o'clock in the forenoon of that day at Washington, D. C., it failed to appear at the above-mentioned hearing. Nor has the petitioner since indicated that it has any further interest in the above-entitled matter.

Now, therefore, it is ordered, That petitioner show cause why the above-entitled proceeding should not be dismissed, without prejudice, at a hearing before Charles O. Fowler or any other officer of the Division duly designated to preside at such hearing on February 24, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. The Chief of the Records Section in Room 502 will advise as to the room in which such hearing will be held. The dismissal of the proceeding pursuant to this Order, however, shall be without prejudice to the right of petitioner to file a petition with the Division in regard to the same matters pursuant to the Rules and Regulations of the Division in proceedings instituted pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

Dated: January 28, 1942.

[Docket No. A-1252]

PETITION OF ONTARIO GAS COAL COMPANY FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF ITS TIDEWATER NO. 1 MINE, MINE INDEX NO. 289, IN DISTRICT NO. 7

NOTICE OF AND ORDER FOR HEARING AND GRANTING TEMPORARY RELIEF

A petition, pursuant to the Bituminous Coal Act of 1937, was duly filed with this Division by the above-named party, requesting the establishment of price classifications and minimum prices for the coals of its Tidewater No. 1 Mine, Mine Index No. 289, in District No. 7.

The petition alleges that the coals of the said mine, although produced in the same vicinity and seam as the coals of the Robious Mine, Mine Index No. 703, in District No. 7, are analytically superior to the coals of the latter mine. For the coals of the said Mine Index No. 289 the petition proposes a minimum price of 186 cents per net ton in Size Group 8 for rail shipments only to within the switching limits of Richmond, Virginia, in Market Area 100, and minimum prices of 475, 410, 440, 375, and 200 cents per net ton in Size Groups 1 to 5, inclusive, respectively, for truck shipments.

The proposed minimum prices for the coals of the said mine for truck shipments are substantially higher than those heretofore established for any other mines in District No. 7 for truck shipments. Moreover, the proposed minimum price for the coals of the said mine in Size Group No. 8 for rail shipments to Richmond, Virginia, in Market Area 100, and in all sizes for truck shipments differ substantially from the customary minimum price relationships for other coals for rail shipments to Richmond, Virginia, and for truck shipments. Accordingly, it appears that the necessity for the proposed price classifications and minimum prices should be clearly shown at a hearing.

It appears that a reasonable showing of necessity has been made for the granting of temporary relief, that no petitions of intervention have been filed with the Division in the above-entitled matter, opposing the granting of temporary relief, and that the granting of temporary relief is necessary in order to effectuate the purposes of the Act. It further appears, however, that, pending a hearing, the minimum prices hereinafter established for truck shipments should not be higher than the highest minimum prices heretofore established for coals produced in District No. 7, and that the minimum prices for rail shipments are proper.

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on February 26, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Floyd McGown or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before February 21, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of interveners or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of Ontario Gas Coal Company for the establishment of price classifications and minimum prices for the coals of its Tidewater No. 1 Mine, Mine Index No. 289, in District No. 7; and, more particularly, for the establishment for the coals of the said mine of a minimum price of 186 cents per net ton in Size Group No. 8 for rail shipments only to within the switching limits of Richmond, Virginia, in Market Area 100, and for minimum prices of 475, 410, 440, 375, and 200 cents per net ton in Size Groups 1 to 5, inclusive, respectively, for truck shipments.

It is further ordered, That pending final disposition of the above-entitled matter, temporary relief be, and it hereby is, granted as follows: Commencing forthwith, the Schedules of Effective Minimum Prices for District No. 7 For All Shipments Except Truck and For Truck Shipments are supplemented to include the price classifications and minimum prices set forth in the Schedules marked "Temporary Supplement R" and "Temporary Supplement T", annexed hereto and hereby made a part hereof.[1]

Notice is hereby given that applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

Dated: January 27, 1942.

[Docket No. A-1230]

PETITION OF DISTRICT BOARD NO. 4 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAN MINES IN DISTRICT NO. 4

[Docket No. A-1230 Part II]

PETITION OF DISTRICT BOARD NO. 4 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF MINE INDEX NOS. 2155, 2954, 1244, 2968, 2969, 267, 827, 1270, 1271, AND 1314, IN DISTRICT NO. 4, FOR ALL SHIPMENTS EXCEPT TRUCK

MEMORANDUM OPINION AND ORDER SEVERING DOCKET NO. A-1230 PART II FROM DOCKET NO. A-1230, ORDER GRANTING TEMPORARY RELIEF IN DOCKET NO. A-1230 PART II AND NOTICE OF AND ORDER FOR HEARING IN DOCKET NO. A-1230 PART II

The original petition in the above-entitled matter, which was filed with this Division, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requests the issuance of orders establishing temporary and permanent price classifications and minimum prices for the coals of certain mines in District No. 4.

As the Acting Director found in an Order issued in Docket No. A-1230, a reasonable showing of necessity has been made for the granting of the relief prayed for by petitioner except as to the establishment of permanent price classifications and minimum prices for the coals of Mine Index Nos. 2155, 2954, 1244, 2968, 2969, 267, 827, 1270, 1271, and 1314, in District No. 4, for all shipments except truck, and except as to certain other matters noted in the said Order. With respect to the establishment of permanent price classifications and minimum prices for the coals of the said mine index numbers, the Acting Director is of the opinion that a hearing should be held in view of the circumstances involved.

The petition proposes that two shipping points be established for the Black Hawk Mine, Mine Index No. 2155, the Carson Mine, Mine Index No. 2954, the James Darst Mine, Mine Index No. 1244, the Harrison No. 2 Mine, Mine Index No. 2968, the Harrison No. 3 Mine, Mine Index No. 2969, the Romine Mine, Mine Index No. 267, the Plummer Hill Mine, Mine Index No. 827, Mine Index No. 1270, of Charles Schuler, the Shuler Mine, Mine Index No. 1271, and Mine Index No. 1314, of A. R. Smith & Co., for all shipments except truck. While it appears that an adequate showing of necessity has been made that temporary relief be granted, establishing temporary price classifications and minimum prices for the coals of the above-named mines for all shipments except truck from one shipping point, it does not appear that the original petitioner has set forth sufficient facts to warrant the establishment of additional shipping points for the coals of these mines for all shipments except truck, without a hearing. Except as to Mine Index No. 267, the shipping points hereinafter temporarily established for the coals of the said mines are those which appear to be the nearer to such mines and appropriate, therefore, for the granting of temporary relief.

The petition proposed that Pomeroy and Hobson, Ohio, on Chesapeake & Ohio Railroad and New York Central Railroad, respectively, be established as the rail shipping points for the coals of Mine Index No. 267 of Leading Creek Coal Company. It does not appear from the records of the Division that this code member has arranged to make such shipments from Hobson. Accordingly, Pomeroy, Ohio, on Chesapeake & Ohio Railroad has been temporarily established as the shipping point for the coals of Mine Index No. 267, pending a hearing.

Now, therefore, it is ordered, That the portion of Docket No. A-1230 relating to the coals of the Black Hawk Mine, Mine Index No. 2155, the Carson Mine, Mine Index No. 2954, the James Darst Mine, Mine Index No. 1244, the Harrison No. 2 Mine, Mine Index No. 2968, the Harrison No. 3 Mine, Mine Index No. 2969, the Romine Mine, Mine Index No. 267, the Plummer Hill Mine, Mine Index No. 827, Mine Index No. 1270, of Charles Schuler, the Shuler Mine, Mine Index No. 1271, and Mine Index No. 1314, of A. R. Smith & Co., for all shipments except truck, be, and the same hereby is, severed from the remainder of Docket No. A-1230 and designated as Docket No. A-1230 Part II.

It is further ordered, That a hearing in Docket No. A-1230 Part II under the applicable provisions of said Act and the rules of the Division be held on February 25, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That D. C. McCurtain, or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other rec-

ords deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before February 20, 1942.

All persons are hereby notified that the hearing in Docket No. A–1230 Part II and any orders entered therein may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of interveners or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 4 for the establishment of price classifications and minimum prices for the coals of the Black Hawk Mine, Mine Index No. 2158, the Carson Mine, Mine Index No. 2064, the James Darst Mine, Mine Index No. 1244, the Harrison No. 2 Mine, Mine Index No. 2068, the Harrison No. 3 Mine, Mine Index No. 2069, the Romine Mine, Mine Index No. 267, the Plummer Hill Mine, Mine Index No. 627, Mine Index No. 1270, of Charles Schuler, the Schuler Mine, Mine Index No. 1271, and Mine Index No. 1314, of A. R. Smith & Co., for all shipments except truck.

It is further ordered, That, pending final disposition of Docket No. A–1230 Part II, temporary relief is granted as follows: Commencing forthwith, Price Schedule No. 1 for District No. 4, For All Shipments Except Truck, is supplemented to include the price classifications and minimum prices set forth in the Schedule marked "Temporary Supplement R", annexed hereto and hereby made a part hereof.[1]

Notice is hereby given that applications to stay, terminate or modify the temporary relief granted herein may be filed pursuant to the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

[Docket No. A–1124]

PETITION OF DISTRICT BOARD NO. 17 FOR REVISION OF THE PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS PRODUCED AT MINE INDEX NOS. 281 AND 291 IN DISTRICT NO. 17

ORDER TERMINATING PROCEEDING

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, filed with this Division by the District Board No. 17 in the above-named docket, requested termination of certain temporary relief granted by the Order of the Director entered May 28, 1941, in Docket No. A–598. That relief was a temporary increase in the minimum prices for the coal produced at the Hunter Mine (Mine Index No. 281) and at the McGinley Mine (Mine Index No. 291) in District No. 17.

The issues raised by the original petition involved matters concerning which a public hearing had already been held in Docket No. A–598 and the final determination of which was under consideration by the Director when the petition was filed in this docket. After filing its petition, District Board No. 17 filed in this docket and in Docket No. A–598 a motion requesting leave to withdraw its original petition and to refile it, together with an accompanying affidavit, in Docket No. A–598 for incorporation in the record of the latter docket. In that motion, it also requested termination of the temporary relief granted in the Director's Order of May 28, 1941, in Docket No. A–598 so far as that relief pertained to Mine Index Nos. 281 and 291, and it prayed that the price classifications and minimum prices for the coals of those mines be finally established at the same levels at which they existed prior to the Order of May 28, 1941.

The above-described motion of District Board No. 17 was considered in Docket No. A–598 and the substance of the relief requested in the motion was granted in the Acting Director's final Order of January 1, 1942, in that docket.

It now appearing that the issues raised in the original petition in Docket No. A–1124 have been finally determined and that the substance of the relief therein requested has heretofore been granted;

It is ordered, That the proceeding in Docket No. A–1124 be, and the same hereby is, terminated.

Dated: January 27, 1942.

[Docket No. A–778]

PETITION OF WALLACE COAL COMPANY FOR TEMPORARY REVISION OF MINIMUM PRICES ESTABLISHED FOR RAILROAD LOCOMOTIVE FUEL, MINE INDEX NO. 182, DISTRICT NO. 10, PURSUANT TO SECTION 4 II (d) OF THE BITUMINOUS COAL ACT OF 1937

ORDER TO SHOW CAUSE WHY PETITION SHOULD NOT BE DISMISSED

An original petition having been filed in the above-entitled matter requesting the Bituminous Coal Division to issue a temporary order which would permit the petitioner to deliver coal from its New Bruce Mine (Mine Index No. 182) having a minimum size of 2 inches to the Missouri Pacific System, for use in its locomotives, at a minimum f. o. b. mine price of $1.70 until the petitioner procures and installs crushing equipment, but not to exceed a period of sixty (60) days; and

It appearing that the petitioner herein has no further interest in the proceedings, since it has procured and installed crushing equipment;

Now, therefore, it is ordered, That the petitioner be required to show cause why this proceeding should not be dismissed at a hearing before W. A. Shipman or any other officer of the Division duly designated to preside at such hearing on February 25, 1942, at 10 a. m. in the forenoon of that day, at a hearing room of the Division in Washington, D. C., at which time the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

Dated: January 27, 1942.

[Docket No. 1811–FD]

IN THE MATTER OF MILLER BROS., DEFENDANT

CEASE AND DESIST ORDER

District Board 22 having filed a complaint with the Bituminous Coal Division on July 23, 1941, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, alleging that Miller Bros., a code member in District 22, wilfully violated the Bituminous Coal Code and the effective minimum prices established thereunder, as follows:

That the defendant, with full knowledge of the requirements contained in the Schedule of Effective Minimum Prices for District 22 for Truck Shipments, and with intent to violate the same, and in violation thereof, sold for shipment by truck 2" and smaller lump coal produced by the defendant at its Miller Bros. Mine (Mine Index No. 201) located in Subdistrict No. 6 of District 22, at prices of $4.00 and $4.25 per net ton when the established minimum price applicable thereto is $4.50 per net ton f. o. b. the mine;

Pursuant to an Order of the Director and after notice to all interested persons, a hearing having been held in this matter on November 15, 1941, before Scott A. Dahlquist, a duly designated Examiner of the Division, at a hearing room thereof in Billings, Montana;

All parties having joined in waiving the preparation and filing of a report by the Examiner; the record of the proceeding thereupon having been submitted to the undersigned for consideration; the undersigned having made Findings of Fact, Conclusions of Law and having rendered an Opinion, which are filed herewith;

Now, therefore, it is ordered, That the defendant, Miller Bros., its officers, representatives, agents, servants, employees, or attorneys, and all persons acting or claiming to act in its behalf or interest, or in behalf or interest of Carl Miller or Edward Miller, the partners composing Miller Bros., cease and desist and are hereby permanently enjoined and restrained from violating the Code by selling or offering to sell coal produced by the defendant at less than the applicable minimum prices established therefor contrary to the Bituminous Coal Act or any rule and regulations promulgated thereunder, the Bituminous Coal Code, the Schedule of Effective Minimum Prices for District 22 for Truck Shipments, and the Marketing Rules and Regulations.

It is further ordered, That if the defendant fails or neglects to comply with this Order, the Division may forthwith apply to the Circuit Court of Appeals of the United States within any circuit where such defendant carries on business or the United States Circuit Court of Appeals for the District of Columbia for the enforcement hereof, or take other appropriate action.

Dated: January 28, 1942.

DEPARTMENT OF LABOR.

Wage and Hour Division.

NOTICE OF HEARING[1] ON MINIMUM WAGE RECOMMENDATION OF INDUSTRY COMMITTEE NO. 39 FOR THE TEXTILE INDUSTRY

Whereas the Administrator of the Wage and Hour Division of the United States Department of Labor, acting pursuant to section 5 (b) of the Fair Labor Standards Act of 1938, on January 5, 1942, by Administrative Order No. 136, appointed Industry Committee No. 39 for the Textile Industry, composed of an equal number of representatives of the public, employers in the industry and employees in the industry, such representatives having been appointed with due regard to the geographical regions in which the industry is carried on; and

Whereas Industry Committee No. 39, on January 22, 1942, recommended a minimum wage rate for the Textile Industry and duly adopted a report containing such recommendation and reasons therefor and filed such report with the Administrator on January 22, 1942, pursuant to section 8 (d) of the act and § 511.19 of the regulations issued under the act; and

Whereas the Administrator is required by section 8 (d) of the act, after due notice to interested persons and giving them an opportunity to be heard, to approve and carry into effect by order the recommendation of Industry Committee No. 39 if he finds that the recommendation is made in accordance with law and is supported by the evidence adduced at the hearing before him, and taking into consideration the same factors as are required to be considered by the Industry Committee, will carry out the purposes of section 8 of the act; and, if he finds otherwise, to disapprove such recommendation;

Now, therefore, notice is hereby given that:

I. The recommendation of Industry Committee No. 39 is as follows:

Wages at a rate of not less than forty cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the Textile Industry (as defined in Administrative Order No. 136) who is engaged in commerce or in the production of goods for commerce.

II. The definition of the Textile Industry as set forth in Administrative Order No. 136, signed January 5, 1942, is as follows:

2. For the purpose of this order the term "textile industry" means:

(a) The manufacturing or processing of yarn or thread and all processes preparatory thereto, and the manufacturing, bleaching, dyeing, printing and other finishing of woven fabrics (other than carpets and rugs containing any wool) from cotton, flax, jute, other vegetable fiber, silk, grass, or any synthetic fiber, or from mixtures of these fibers; or from such mixtures of these fibers with wool or animal fiber (other than silk) as are specified in clauses (g) and (h); except the chemical manufacturing of synthetic fiber and such related processing of yarn as is conducted in establishments manufacturing synthetic fiber;

(b) The manufacturing of batting, wadding, or filling and the processing of waste from the fibers enumerated in clause (a);

(c) The manufacturing, bleaching, dyeing, or other finishing of pile fabrics or cords (except carpets and rugs containing any wool) from any fiber or yarn;

(d) The processing of any textile fabric, included in this definition of this industry, into any of the following products: bags; bandages and surgical gauze; bath mats and related articles; bedspreads; blankets; diapers; dish-cloths; scrubbing cloths and wash-cloths; sheets and pillow cases; table-cloths; luncheloths and napkins; towels; window curtains; shoe laces and similar laces;

(e) The manufacturing or finishing of braid, net or lace from any fiber or yarn;

(f) The manufacturing of cordage, rope or twine from any fiber or yarn including the manufacturing of paper yarn and twine;

(g) The manufacturing, or processing of yarn (except carpet yarn containing any carpet wool) or thread by systems other than the woolen system from mixtures of wool or animal fiber (other than silk) with any of the fibers designated in clause (a), containing not more than 45 percent by weight of wool or animal fiber (other than silk);

(h) The manufacturing, bleaching, dyeing, printing or other finishing of woven fabrics (other than carpets and rugs) from mixtures of wool or animal fiber (other than silk) containing not more than 25 percent by weight of wool or animal fiber (other than silk), with any of the fibers designated in clause (a), with a margin of tolerance of 2 percent to meet the exigencies of manufacture;

(i) The manufacturing, dyeing, finishing or processing of rugs or carpets from grass, paper, or from any yarn or fiber except yarn containing any wool but not including the manufacturing by hand of such products.

3. The definition of the textile industry covers all occupations in the industry which are necessary to the production of the articles specified in the definition, including clerical, maintenance, shipping and selling occupations: *Provided, however*, That this definition does not include employees of an independent wholesaler or employees of a manufacturer who are engaged exclusively in marketing and distributing products of the industry which have been purchased for resale: *And provided further*, That where an employee covered by this definition is employed during the same workweek at two or more different minimum rates of pay, he shall be paid the highest of such rates for such workweek unless records concerning his employment are kept by his employer in accordance with applicable regulations of the Wage and Hour Division.

III. The full text of the report and recommendation of Industry Committee No. 39, together with any dissenting statements which may be filed by a member subsequent to the date of this notice, are and will be available for inspection by any person between the hours of 9:00 a. m. and 4:30 p. m. at the following offices of the United States Department of Labor, Wage and Hour Division:

Copies of the Committee's report and recommendation may be obtained by any person upon request addressed to the Administrator of the Wage and Hour Division, Department of Labor, Washington, D. C.

IV. A public hearing will be held on February 20, 1942, before Major Robert N. Campbell, Presiding Officer, at 10:00 a. m. in Room 3114 of the United States Department of Labor Building at Washington, D. C. for the purpose of taking evidence on the following question:

Whether the recommendation of Industry Committee No. 39 shall be approved or disapproved.

V. Any interested person, supporting or opposing the recommendation of Industry Committee No. 39, may appear at the aforesaid hearing to offer evidence, either on his own behalf or on behalf of any other person: *Provided*, That not later than February 14, 1942, any such person shall file with the Administrator at Washington, D. C., a notice of his intent to appear which shall contain the following information:

1. The name and address of the person appearing.
2. If such person is appearing in a representative capacity, the name and address of the person or persons whom he is representing.
3. Whether such person proposes to appear for or against the recommendation of Industry Committee No. 39.
4. The approximate length of time requested for his presentation.

Such notice may be mailed to the Administrator, Wage and Hour Division, United States Department of Labor, Washington, D. C., and shall be deemed filed upon receipt thereof.

VI. Any person interested in supporting or opposing the recommendation of Industry Committee No. 39 may secure further information concerning the aforesaid hearing by inquiry directed to the Administrator, Wage and Hour Division, United State Department of Labor, Washington, D. C., or by consulting with attorneys representing the Administrator who will be available for that purpose at the offices of the Wage and Hour Division in Washington, D. C.

VII. Copies of the following documents relating to the Textile Industry will be made available upon request for inspection by any interested person who intends to appear at the aforesaid hearing:

Mimeographed release G–67, issued by the Bureau of Labor Statistics of the U. S. Department of Labor, entitled *Report and Recommendations* of Industry Committee No. 12 for the Carpet and Rug Industry.

Mimeographed release G–144, issued by the Bureau of Labor Statistics of the U. S. Department of Labor, entitled *Report and Recommendation* of Industry Committee No. 25 for the Textile Industry.

Mimeographed release G–132, issued by the Bureau of Labor Statistics of the U. S. Department of Labor, entitled *Findings and Opinion of the Administrator* in connection with the Recommendation of Industry Committee No. 12 for the Carpet and Rug Industry.

Report entitled *Some Basic Information on the Textile Industry, April 1941*, prepared by the Research and Statistics Branch of the Wage and Hour Division, U. S. Department of Labor.

Report on the Carpet and Rug Industry, July 1940, prepared by the Research and Statistics Branch of the Wage and Hour Division, U. S. Department of Labor.

Mimeographed release G–173; issued by the Bureau of Labor Statistics of the U. S. Department of Labor, entitled *Findings and Opinion of the Administrator* in connection with the Recommendation of Industry Committee No. 25 for the Textile Industry.

VIII. The hearing will be conducted in accordance with the following rules, subject, however, to such subsequent modifications by the Administrator or the Presiding Officer as are deemed appropriate:

1. The hearings shall be stenographically reported and a transcript made which will be available to any person at prescribed rates upon request addressed to the Administrator, Wage and Hour Division, Department of Labor, Washington, D. C.

2. In order to maintain orderly and expeditious procedure, each person filing a Notice to Appear shall be notified, if practicable, of the approximate day and the place at which he may offer evidence at the hearing. If such person does not appear at the time set in the notice he will not be permitted to offer evidence at any other time except by special permission of the presiding officer.

3. At the discretion of the presiding officer the hearing may be continued from day to day, or adjourned to a later date, or to a different place, by announcement thereof at the hearing by the presiding officer, or by other appropriate notice.

4. At any stage of the hearing, the presiding officer may call for further evidence upon any matter. After the presiding officer has closed the hearing before him, no further evidence shall be taken, except at the request of the Administrator, unless provision has been made at the hearing for the later receipt of such evidence. In the event that the Administrator shall cause the hearing to be reopened for the purpose of receiving further evidence, due and reasonable notice of the time and place fixed for such taking of testimony shall be given to all persons who have filed a notice of intention to appear at the hearing.

5. All evidence must be presented under oath or affirmation.

6. Written documents or exhibits, except as otherwise permitted by the presiding officer, must be offered in evidence by a person who is prepared to testify as to the authenticity and trustworthiness thereof, and who shall, at the time of offering the documentary exhibit, make a brief statement as to the contents and manner of preparation thereof.

7. Written documents and exhibits shall be tendered in duplicate and the persons preparing the same shall be prepared to supply additional copies if such are ordered by the presiding officer. When evidence is embraced in a document containing matter not intended to be put in evidence, such a document will not be received, but the person offering the same may present to the presiding officer the original document together with two copies of those portions of the document intended to be put in evidence. Upon presentation of such copies in proper form the copies will be received in evidence.

8. Subpoenas requiring the attendance of witnesses or the presentation of a document from any place in the United States at any designated place of hearing may be issued by the Administrator at his discretion, and any person appearing in the proceeding may apply in writing for the issuance by the Administrator of the subpoena. Such application shall be timely and shall identify exactly the witness or document and state fully the nature of the evidence proposed to be secured.

9. Witnesses summoned by the Administrator shall be paid the same fees and mileage as are paid witnesses in the courts of the United States. Witness fees and mileage shall be paid by the party at whose instance witnesses appear, and the Administrator before issuing subpoena may require a deposit of an amount adequate to cover the fees and mileage involved.

10. The rules of evidence prevailing in the courts of law or equity shall not be controlling.

11. The presiding officer may, at his discretion, permit any person appearing in the proceeding to cross-examine any witness offered by another person insofar as is practicable, and to object to the admission or exclusion of evidence by the presiding officer. Requests for permission to cross-examine a witness offered by another person and objections to the admission or exclusion of evidence shall be stated briefly with the reasons for such request or the ground of objection relied on. Such requests or objections shall become a part of the record, but this record shall not include argument thereon except as ordered by the presiding officer. Objections to the approval of the Committee's recommendation and to the promulgation of a wage order based upon such approval must be made at the hearing before the presiding officer.

12. Before the close of the hearing, the presiding officer shall receive written requests from persons appearing in the proceeding for permission to make oral arguments before the Administrator upon the matter in issue. These requests will be forwarded to the Administrator by the presiding officer with the record of the proceedings. If the Administrator, in his discretion, allows the request, he shall give such notice thereof as he deems suitable to all persons appearing in the proceedings, and shall designate the time and place at which the oral arguments shall be heard. If such requests are allowed, all persons appearing at the hearing will be given opportunity to present oral argument.

13. Briefs (12 copies) may be submitted to the Administrator following the close of the hearing, by any persons appearing therein. Notice of the final dates for filing such briefs shall be given by the Administrator in such manner as shall be deemed suitable by him.

14. On the close of the hearing the presiding officer shall forthwith file a complete record of the proceedings with the Administrator. The presiding officer shall not file an intermediate report unless so directed by the Administrator. If a report is filed, it shall be advisory only and have no binding effect upon the Administrator.

15. No order issued as a result of the hearing will take effect until after due notice is given of the issuance thereof by publication in the FEDERAL REGISTER.

Signed at Washington, D. C., this 29th day of January 1942.

THOMAS W. HOLLAND,
Administrator.

SUBPART E—1942

Proclamation of Results of Cotton Referendum, 1942–1943 Marketing Year[1]

By virtue of the authority vested in the Secretary of Agriculture by section 347 of the Agricultural Adjustment Act of 1938, as amended, the following proclamation is hereby issued:

§ 722.403 *Results of cotton referendum.* (a) In the referendum of farmers who were engaged in production of the 1941 crop of cotton, conducted by the Secretary of Agriculture on December 13, 1941, to determine whether such farmers were in favor of or opposed to marketing quotas for cotton for the marketing year beginning August 1, 1942 the total number of votes cast were 840,881 and of the total number of votes so cast 789,662 votes, or 93.9 percent, were in favor of, and 51,219 votes, or 6.1 percent, were opposed to, such marketing quotas.

(b) The national marketing quota for cotton for the marketing year beginning August 1, 1942, proclaimed by the Secretary of Agriculture on October 28, 1941, will be in effect for such year. (Section 347 of the Act, 52 Stat. 59; 7 U.S.C., Sup., 1347)

Done at Washington, D. C., this 29th day of January 1942. Witness my hand and the seal of the Department of Agriculture.

CHAPTER VIII—SUGAR DIVISION OF THE AGRICULTURAL ADJUSTMENT ADMINISTRATION

PART 802—SUGAR DETERMINATIONS

DETERMINATION OF PROPORTIONATE SHARES FOR SUGARCANE PRODUCERS IN PUERTO RICO FOR THE CROP YEAR 1941–42, PURSUANT TO THE SUGAR ACT OF 1937, AS AMENDED

Whereas section 302 of the Sugar Act of 1937, as amended, provides in part as follows:

(a) The amount of sugar or liquid sugar with respect to which payment may be made shall be the amount of sugar or liquid sugar commercially recoverable, as determined by the Secretary, from the sugar beets or sugarcane grown on the farm and marketed (or processed by the producer) not in excess of the proportionate share for the farm, as determined by the Secretary, of the quantity of sugar beets or sugarcane for the extraction of sugar or liquid sugar required to be processed to enable the producing area in which the crop of sugar beets or sugarcane is grown to meet the quota (and provide a normal carryover inventory) estimated by the Secretary for such area for the calendar year during which the larger part of the sugar or liquid sugar from such crop normally would be marketed.

(b) In determining the proportionate shares with respect to a farm, the Secretary may take into consideration the past production on the farm of sugar beets and sugarcane marketed (or processed) for the extraction of sugar or liquid sugar and the ability to produce such sugar beets or sugarcane, and the Secretary shall, insofar as practicable, protect the interests of new producers and small producers and the interests of producers who are cash tenants, share-tenants, adherent planters, or share-croppers;

and

Whereas subsection (c) of section 301 of said act provides as one of the conditions for payment to producers of sugar beets and sugarcane, as follows:

(c) That there shall not have been marketed (or processed) an amount (in terms of planted acreage, weight, or recoverable sugar content) of sugar beets or sugarcane grown on the farm and used for the production of sugar or liquid sugar to be marketed in, or so as to compete with or otherwise directly affect interstate or foreign commerce. excess of the proportionate share for the farm, as determined by the Secretary pursuant to the provisions of section 302, of the total quantity of sugar beets or sugarcane required to be processed to enable the area in which such sugar beets or sugarcane are produced to meet the quota (and provide a normal carryover inventory) as estimated by the Secretary for such area for the calendar year during which the larger part of the sugar or liquid sugar from such crop normally would be marketed;

and

Whereas the quantity of sugar required to be produced from the 1941–42 crop of sugarcane in Puerto Rico to enable that area to meet its quota (and provide a normal carryover inventory) for the calendar year 1942 is estimated to be 1,203,624 short tons, raw value, and the total of the 1941 bases has been computed at 925,564 short tons, raw value:

Now, therefore, the following determination is hereby issued:

§ 802.46c *Proportionate shares for sugarcane producers in Puerto Rico for the crop year 1941–42*—(a) *Farm proportionate share.* The proportionate share for each farm in Puerto Rico for the 1941–42 crop shall be the amount of sugar, raw value, commercially recoverable from sugarcane grown on the farm and marketed (or processed by the producer) for the extraction of sugar during the crop year 1941–42: *Provided, however,* That payment shall be limited to the amount of sugar calculated for the farm as follows:

(1) For any farm except as provided in subparagraph (2) hereof, the amount of sugar obtained by multiplying the 1941 base for such farm by the fraction $\frac{1,203,624}{925,564}$ and converting the result to raw value. The 1941 base for any such farm shall be the 1940–41 proportionate share for the farm, (in terms of sugar, 96° basis) or 9 tons of sugar, whichever is greater.

(2) For any farm purchased or leased by the producer from or through the Puerto Rico Reconstruction Administration or the Farm Security Administration, the sugar commercially recoverable from three planted acres of sugarcane.

(b) *Tenant and sharecropper protection.* The provisions of this determination are subject to the following conditions:

(1) That no change shall have been made in the leasing or cropping agreements for the purpose of, or which shall have the effect of, diverting to any producer, any payments to which tenants or sharecroppers would be entitled if the 1940–41 leasing or cropping agreements were in effect.

(2) That there shall have been no interference by any producer with contracts heretofore entered into by tenants or sharecroppers for the sale of their sugarcane.

(c) *Designation of agent.* The Chief, or the Acting Chief, of the Sugar Division of the Agricultural Adjustment Administration, and the Officer in Charge of the San Juan office of the Agricultural Adjustment Administration, or the Acting Officer in Charge thereof, are hereby designated to act, jointly or severally, as agents of the Secretary of Agriculture in administering the provisions of this section. PART 821—SUGAR QUOTAS

SUGAR CONSUMPTION REQUIREMENTS FOR THE CALENDAR YEAR 1942 FOR THE TERRITORY OF HAWAII AND FOR PUERTO RICO

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1937, as amended, I, Paul H. Appleby, Acting Secretary of Agriculture, in order to carry out the powers vested in me by the said act, do hereby make, prescribe, publish, and give public notice of these regulations, which shall have the force and effect of law and shall remain in force and effect until amended or superseded by orders or regulations hereafter made by the Secretary of Agriculture.

§ 821.331 *Consumption requirements and quotas*—(a) *Original consumption requirements.* It is hereby determined, pursuant to section 203 of the Sugar Act of 1937 (hereinafter referred to as the "act"), as amended, that the amount of sugar needed to meet the requirements of consumers in the Territory of Hawaii for the calendar year 1942 is 39,124 short tons of sugar, raw value, and that the amount of sugar needed to meet the requirements of consumers in Puerto Rico for the calendar year 1942 is 83,782 short tons of sugar, raw value.

(b) *Original local consumption quotas.* There are hereby established, pursuant to section 203 of the said act, for local consumption in the Territory of Hawaii and in Puerto Rico, for the calendar year 1942, the following quotas:

Area:	Quotas in terms of short tons, raw value
Hawaii	39,124
Puerto Rico	83,782

(Sec. 203, 50 Stat. 905; 7 U.S.C. 1113)

§ 821.332 *Restrictions on marketing.* For the calendar year 1942, all persons are hereby forbidden, pursuant to section 209 of the said act, from marketing in the Territory of Hawaii or in Puerto Rico, for consumption therein, any sugar or liquid sugar after the quota for the year has been filled. (Sec. 209, 50 Stat. 906; 7 U.S.C. 1119)

Done at Washington, D. C., this 29th day of January 1942. Witness my hand and the seal of the Department of Agriculture.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

IN THE MATTER OF SURE LABORATORIES

§ 3.6 (n 2) *Advertising falsely or misleadingly—Nature—Product*—§ 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product:* § 3.6 (x) *Advertising falsely or misleadingly—Results.* In connection with offer, etc., of respondent's "Sure", or any other substantially similar preparation, and among other things, as in order set forth, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means, to induce, etc., directly or indirectly, purchase in commerce, etc., of said preparation, which advertisements represent, directly or through inference (1) that respondent's preparation is a neutralizing agent or a breath purifier; (2) that respondent's preparation will destroy or arrest the causes of unpleasant breath, or have any effect upon such causes; and (3) that respondent's preparation has any effect upon unpleasant breath odors other than that of a perfume in temporarily masking such breath odors; prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Sup. IV, sec. 45b) [Cease and desist order, Sure Laboratories, Docket 3948, January 26, 1942]

§ 3.6 (g) *Advertising falsely or misleadingly—Earnings:* § 3.72 (c) *Offering deceptive inducements to purchase—Earnings:* § 3.80 (c) *Securing agents or representatives falsely or misleadingly—Earnings.* In connection with offer, etc., of respondent's "Sure", or any other substantially similar preparation, and among other things, as in order set forth, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means, to induce, etc., directly or indirectly, purchase in commerce, etc., of said preparation, which advertisements represent, directly or through inference (1) that the possible earnings or profits of agents, salesmen, representatives, or distributors for any given period of time is any specified sum of money which is not a true representation of the average net earnings or profits consistently made by a substantial number of respondent's full-time active agents, salesmen, representatives, or distributors in the ordinary course of business under normal conditions and circumstances; (2) that the earnings or profits of any agent, salesman, representative, or distributor for any given period of time is any specified sum of money which has not, in fact, been consistently earned, net, by such agent, salesman, representative, or distributor in the ordinary course of business and under normal conditions and circumstances; and (3) that any specified sum of money greatly in excess of the average earnings of other agents, salesmen, representatives, or distributors of respondent has been earned by any specified representative, unless such representation is immediately accompanied by a statement to the effect that such earnings are exceptional and unusual; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112, 15 U.S.C., Sup. IV, sec. 45b) [Cease and desist order, Sure Laboratories, Docket 3948, January 26, 1942]

In the Matter of Fannie P. Fox, an Individual, Trading and Doing Business Under the Name of Sure Laboratories

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 26th day of January, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of the respondent, testimony and other evidence taken before trial examiners of the Commission theretofore duly designated by it, in support of the allegations of said complaint and in opposition thereto, report of the trial examiners upon the evidence and exceptions filed thereto, and briefs filed in support of the complaint and in opposition thereto; and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered that the respondent Fannie P. Fox, an individual, trading and doing business under the name of Sure Laboratories, or trading under any other name, her representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of her preparation known as "Sure," or any other preparation of substantially similar composition or possessing substantially similar properties, whether sold under the same name or under any other name, do forthwith cease and desist from, directly or indirectly,

(1) Disseminating, or causing to be disseminated, any advertisement by means of United States mails, or by any means in commerce as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents, directly or through inference,

(a) That respondent's preparation is a neutralizing agent or a breath purifier;

(b) That respondent's preparation will destroy or arrest the causes of unpleasant breath, or have any effect upon such causes;

(c) That respondent's preparation has any effect upon unpleasant breath odors other than that of a perfume in temporarily masking such breath odors;

(d) That the possible earnings or profits of agents, salesmen, representatives, or distributors for any given period of time is any specified sum of money which is not a true representation of the average net earnings or profits consistently made by a substantial number of respondent's full-time active agents, salesmen, representatives, or distributors in the ordinary course of business under normal conditions and circumstances;

(e) That the earnings or profits of any agent, salesman, representative, or distributor for any given period of time is any specified sum of money which has not, in fact, been consistently earned, net, by such agent, salesman, representative, or distributor in the ordinary course of business and under normal conditions and circumstances;

(f) That any specified sum of money greatly in excess of the average earnings of other agents, salesmen, representatives, or distributors of respondent has been earned by any specified representative, unless such representation is immediately accompanied by a statement to the effect that such earnings are exceptional and unusual;

(2) Disseminating, or causing to be disseminated, any advertisement, by any means, for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase in commerce as "commerce" is defined in the Federal Trade Commission Act, of respondent's preparation, which advertisement contains any of the representations prohibited in paragraph (1) hereof and respective subdivisions thereof.

It is further ordered, That the respondent shall, within sixty (60) days after service upon her of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which she has complied with this order.

By the Commission.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

IN THE MATTER OF OLD COLONY KNITTING MILLS, INC., ET AL.

§ 3.66 (a 7) *Misbranding or mislabeling—Composition:* § 3.66 (k) *Misbranding or mislabeling—Source or origin—Place—Foreign, in general:* § 3.69 (b) *Misrepresenting oneself and goods—Goods—Composition:* § 3.69 (b) *Misrepresenting oneself and goods—Goods—Source or origin—Place—Foreign, in general.* Using, in connection with offer, etc., in commerce, of any yarn, garment or fabric made of wool or simulated wool, the word "Shetland, either alone or in conjunction with any other word or words, to designate or describe any such yarn, garment, or fabric which is not the wool of, or made from, the wool of, Shetland sheep grown on the Shetland Islands or the contiguous mainland of Scotland, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Sup. IV, sec. 45b) [Cease and desist order, Old Colony Knitting Mills, Inc., et al., Docket 4236, January 27, 1942]

In the Matter of Old Colony Knitting Mills, Inc., a Corporation, and Maine Spinning Company, a Corporation

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 27th day of January, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the

answers of respondents, testimony and other evidence in support of the allegations of said complaint and in opposition thereto taken before an examiner of the Commission theretofore duly designated by it, report of the trial examiner and exceptions thereto, briefs in support of the complaint and in opposition thereto, and oral arguments of counsel, and the Commission having made its findings as to the facts and its conclusion that said respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That respondent Old Colony Knitting Mills, Inc., a corporation, and respondent Maine Spinning Company, a corporation, their respective officers, representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, or any yarn, garment, or fabric made of wool or simulating wool, do forthwith cease and desist from using the word "Shetland", either alone or in conjunction with any other word or words, to designate or describe any such yarn, garment, or fabric which is not the wool of, or made from the wool of, Shetland sheep grown on the Shetland Islands or the contiguous mainland of Scotland.

It is further ordered, That respondents shall, within sixty (60) days after the service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

It is further ordered, That the motion of respondent Maine Spinning Company to dismiss the complaint herein, or in the alternative to dismiss the complaint as to it, which motion was denied without prejudice to respondent's right to renew the same at the time of final argument and which motion was duly renewed, be, and the same hereby is, denied.

By the Commission.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

IN THE MATTER OF VICTOR HAT COMPANY

§ 3.69 (b) *Misrepresenting oneself and goods—Goods—Composition:* § 3.69 (b) *Misrepresenting oneself and goods—Goods—Old, secondhand or reconstructed as new—Old and used as unused or new:* § 3.71 (a) *Neglecting, unfairly or deceptively, to make material disclosure—Composition:* § 3.71 (c) *Neglecting, unfairly or deceptively, to make material disclosure—Old and used as unused or new.* Representing, in connection with offer, etc., of hats, (1) that hats composed in whole or in part of used or second-hand materials are new or are composed of new materials by failure to stamp in some conspicuous place on the exposed surface of the inside of the hat in conspicuous and legible terms which can not be removed or obliterated without mutilating the hat itself, a statement that said products are composed of second-hand or used materials, or, (2) in any manner that hats made in whole or in part from old, used or second-hand materials are new or are composed of new materials, prohibited; subject to the provision, however, as respects former prohibition that if substantial bands, placed similarly to sweat bands in men's hats, are attached to said hats, then and in that event such statement may be stamped upon such bands, and subject to further provision in said connection, however, that said stampings are of such nature that they can not be removed or obliterated without mutilating the band and the band itself can not be removed without rendering the hat unserviceable. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Sup. IV, sec. 45b) [Cease and desist order, Victor Hat Company, Docket 4629, January 26, 1942]

In the Matter of Frank Gorr, Individually, and Trading as Victor Hat Company

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 26th day of January, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of respondent, in which answer respondent admits all the material allegations of fact set forth in said complaint, and states that he waives all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, Frank Gorr, individually, and trading as Victor Hat Company, or trading under any other name or names, his representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of hats in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Representing that hats composed in whole or in part of used or second-hand materials are new or are composed of new materials by failure to stamp in some conspicuous place on the exposed surface of the inside of the hat in conspicuous and legible terms which can not be removed or obliterated without mutilating the hat itself, a statement that said products are composed of second-hand or used materials: *Provided*, That if substantial bands, placed similarly to sweat bands in men's hats, are attached to said hats, then and in that event such statement may be stamped upon such bands: *Provided further*, That said stampings are of such nature that they can not be removed or obliterated without mutilating the band and the band itself can not be removed without rendering the hat unserviceable.

(2) Representing in any manner that hats made in whole or in part from old, used or second-hand materials are new or are composed of new materials.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

PART 27—REGULATIONS UNDER TRADING WITH THE ENEMY ACT

COMMUNICATIONS OUTSIDE THE MAILS

Amendments to Regulations Under Section 3 (c) of the Trading With the Enemy Act, Approved October 6, 1917, and Section XI of Executive Order No. 2729–A, Dated October 12, 1917

JANUARY 26, 1942.

T.D. 50525 (6 F.R. 6404), dated December 11, 1941, as amended by T.D. 50529 (6 F.R. 6453), dated December 15, 1941, is hereby further amended as follows:

Paragraph (1) is amended by adding at the end thereof the following:

* * * If it appear that any letter or other tangible form of communication is being brought into the United States without intention to evade or violate the law, and that the effect of bringing such letter or other form of communication into the United States would not be inimical to the interests of our Government or in the interests of its enemies, the collector of customs may license the bringing of such letter or other form of communication into the United States, in which case there shall be placed thereon the words "Examined and Passed", with the date, the name of the port, and the initials of the collector or other authorized officer; and such letter or other form of communication may then be released, provided there are affixed thereto the appropriate United States postage stamps if the transmittal of the letter or other communication outside the mails is of such nature that the laws of the United States require the use of such stamps. Any person to whom a license is refused by a collector of customs may appeal from such decision to the Secretary of the Treasury, through the Commissioner of Customs, stating all the facts relied upon to show that the decision of the collector should be reversed: (Secs. 3, 5, 40 Stat. 412, 415; secs. XI, XIII, E.O. 2729–A, October 12, 1917; T.D. 50536, approved by the President on December 26, 1941)

Paragraph (2) is amended by substituting for the proviso in the fourth sentence the following:

* * * *Provided*, There are affixed thereto the appropriate United States postage stamps if the transmittal of the letter or other communication outside the mails is of such nature that the laws of the United States require the use of such stamps. * * * (Secs. 3, 5, 40 Stat. 412, 415; secs. XI, XIII, E.O. 2729–A, October 12, 1917; T.D. 50536, approved by the President on December 26, 1941)

* * * * *

Paragraph (9) is amended to read as follows:

(9) Each collector of customs shall report to the Commissioner of Customs on Monday of each week the number of communications licensed during the preceding week, and such other information as the Commissioner may from time to time require. (Secs. 3, 5, 40 Stat. 412, 415; secs. XI, XIII, E.O. 2729–A, October 12, 1917; T.D. 50536, approved by the President on December 26, 1941)

PART 1058—DIPHENYLAMINE

General Preference Order No. M–75 To Direct the Use and Distribution of Diphenylamine

Whereas, the national defense requirements have created a shortage of Diphenylamine, as hereinafter defined, for defense, for private account and for export, and it is necessary, in the public interest and to promote the defense of the United States, to conserve the supply and direct the distribution thereof;

Now, therefore, it is hereby ordered, That:

§ 1058.1 *General Preference Order M–75*—(a) *Definitions.* For the purposes of this Order:

(1) "Diphenylamine" means phenyl aniline from whatever source derived.

(2) "Producer" means any person engaged in the production of Diphenylamine and includes any person who has Diphenylamine produced for him pursuant to toll agreement.

(3) "Distributor" means any person who has purchased or purchases Diphenylamine for purposes of resale.

(b) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(c) *Restrictions on deliveries.* On and after February 1, 1942, no deliveries of Diphenylamine shall be made by any Producer or Distributor, except as may be specifically directed by the Director of Industry Operations; and no person shall accept delivery of Diphenylamine made in violation of the foregoing clause. At the beginning of each calendar month, the Director of Industry Operations will issue to all Producers and Distributors specific directions covering deliveries of Diphenylamine which may be made by such Producers or Distributors during such month. Such directions will be made to insure the satisfaction of all defense requirements and to provide an adequate supply for essential civilian uses, and they may be made at the discretion of the Director of Industry Operations without regard to any preference rating assigned to particular contracts or orders.

(d) *Intra-company transactions.* The prohibitions or restrictions contained in this Order with respect to deliveries shall, in the absence of a contrary direction, apply not only to deliveries to other persons, including affiliates and subsidiaries, but also to deliveries from one branch, division or section of a single enterprise to another branch, division or section of the same or any other enterprise owned or controlled by the same person.

(e) *Reports.* Reports shall be made by Producers and Distributers at such times, on such forms and with respect to such matters as shall be prescribed by the Chemicals Branch of the War Production Board. In addition, persons who order or receive Diphenylamine from a Producer or Distributor shall furnish to the Chemicals Branch of the War Production Board information with respect to requirements and use of such material at such times and on such forms as the said Chemicals Branch shall prescribe. All persons shall furnish such other and further information as the Chemicals Branch may deem necessary for the orderly and effective operation of this Order. Applications for making and accepting delivery of Diphenylamine shall be made on Forms PD–262, 266 (with respect to acceptance of delivery of Diphenylamine), and 263 (with respect to making deliveries of Diphenylamine).

(f) *Notification of customers.* Producers and Distributors shall, as soon as practicable, notify each of their regular customers of the requirements of this Order, but the failure to give such notice shall not excuse any person from the obligation of complying with the terms of this Order.

(g) *Violations or false statements.* Any person who violates this Order, or who wilfully falsifies any records which he is required to keep by the terms of this Order, or by the Director of Industry Operations, or otherwise wilfully furnishes false information to the Director of Industry Operations, or the War Production Board may be deprived of priorities

assistance or may be prohibited by the Director of Industry Operations from obtaining further deliveries of materials subject to allocation. The Director of Industry Operations may also take any other action deemed appropriate, including the making of a recommendation for prosecution under Section 35 (A) of the Criminal Code (18 U.S.C. 80).

(h) *Appeals.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of Diphenylamine conserved, or that compliance with this Order would disrupt or impair a program of conversion from nondefense to defense work, may appeal to the War Production Board, Reference M-75, attention Chemicals Branch, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(i) *Effective date.* This Order shall take effect immediately and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1306—IRON AND STEEL

AMENDMENT NO. 2 TO PRICE SCHEDULE NO. 43 [1]—USED STEEL BARRELS OR DRUMS

Section 1306.204 is hereby revoked and §§ 1306.201, 1306.208 and 1306.210 are hereby amended to read as follows:

§ 1306.201 *Maximum prices for used steel barrels or drums.* On and after December 1, 1941, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer, used steel barrels or drums, and no person shall buy, offer to buy, or accept delivery of used steel barrels or drums at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1306.210.

§ 1306.208 *Definitions.* When used in this Schedule, the term:

(a) "Person" includes an individual, partnership, association, corporation, or other business entity, as well as executors, trustees in bankruptcy, receivers, and other court-appointed officers;

(b) "User" means a person who uses a drum as a container for the shipment or storage of goods;

(c) "Drum" means a steel barrel or drum of a capacity of 14 to 16 gallons, inclusive, or 29 to 33 gallons, inclusive, or 50 to 58 gallons, inclusive;

(d) "Raw used drum" means a drum which has been emptied but which is not a reconditioned drum;

(e) "Reconditioned drum" means a raw used drum which has been both washed and painted, and also subjected to any and all other process or processes necessary to make the raw used drum fit for reuse as a container, *except that,* in the case of a raw used drum, which is galvanized, painting is not necessary to constitute such galvanized drum a "reconditioned drum" within the meaning of this Schedule.

§ 1306.210 *Appendix A; maximum prices for used steel barrels or drums—*(a) *Maximum prices for reconditioned drums.* The maximum prices for a reconditioned drum, delivered to the purchaser, shall be as follows:

14 to 16 gallons, inclusive	$1.45
29 to 33 gallons, inclusive	1.85
50 to 58 gallons, inclusive	2.25

Additional charges. Charges per drum in addition to the above may be made as follows:

(1) Where a reconditioned drum is delivered in excess of 50 miles from the shipping point, the lower of the following alternative charges may be added:

(i) Actual cost of transportation from the shipping point, or

(ii) For each 75 miles or fraction thereof in excess of 50 miles from the shipping point:

14 to 16 gallons, inclusive	5 cents
29 to 33 gallons, inclusive	7½ cents
50 to 58 gallons, inclusive	10 cents

(2) Where a raw used drum is reconditioned and delivered in the States of California, Washington and Oregon:

14 to 16 gallons, inclusive	15 cents
29 to 33 gallons, inclusive	25 cents
50 to 58 gallons, inclusive	50 cents

(3) Where a drum which is lined has been reconditioned so that it is suitable for use as a food container without any further reconditioning process and is sold for use as a food container:

14 to 16 gallons, inclusive	15 cents
29 to 33 gallons, inclusive	20 cents
50 to 58 gallons, inclusive	25 cents

(b) *Maximum prices for raw used drums purchased direct from the person who empties the drums.* The maximum price for a raw used drum purchased direct from the person who empties the drum, f. o. b. the place where the drum is emptied, shall be as follows:

14 to 16 gallons, inclusive	$ .75
29 to 33 gallons, inclusive	1.00
50 to 58 gallons, inclusive	1.25

provided that a charge per drum in addition to the above may be made where the raw used drum is purchased and delivered in the States of California, Washington and Oregon as follows:

14 to 16 gallons, inclusive	10 cents
29 to 33 gallons, inclusive	20 cents
50 to 58 gallons, inclusive	40 cents

(c) *Maximum prices for raw used drums other than in paragraph* (b). The maximum prices for a raw used drum, delivered to the purchaser, other than those purchased direct from the person who empties the drum, shall be as follows:

14 to 16 gallons, inclusive	$1.00
29 to 33 gallons, inclusive	1.30
50 to 58 gallons, inclusive	1.60

(1) *Provided,* That where a raw used drum is picked up by the purchaser a deduction shall be made from the above as follows:

14 to 16 gallons, inclusive	5 cents
29 to 33 gallons, inclusive	7½ cents
50 to 58 gallons, inclusive	10 cents

and (2) *Provided further,* That a charge per drum in addition may be made where the raw used drum is purchased and either delivered or picked up in the States of California, Washington and Oregon as follows:

14 to 16 gallons, inclusive	10 cents
29 to 33 gallons, inclusive	20 cents
50 to 58 gallons, inclusive	40 cents

This amendment No. 2 shall become effective February 2, 1942. Issued this 30th day of January 1942.

LEON HENDERSON,
Administrator.

PART 1316—COTTON TEXTILES

AMENDMENT NO. 8 TO PRICE SCHEDULE NO. 11 [1]—FINE COTTON GREY GOODS

Section 1316.7 (a) is hereby amended to read as follows:

§ 1316.7 *Reports.* (a) On or before January 10, 1942, and on or before the 10th day of each month thereafter, every manufacturer of fine cotton goods (including manufacturers of fine cotton goods not subject to the maximum prices established herein) shall submit to the Office of Price Administration, Washington, D. C., a report on Form 111:6 setting forth in the detail required by the Form all the constructions (including fancy weaves) of fine cotton goods, other than the constructions and weaves for which maximum prices are established in Appendix A, manufactured or sold by such person in quantities in excess of 15,000 yards during the preceding calendar month, and the highest prices at which each such construction was sold, both for immediate and future delivery, during such month. Copies of Form 111:6 can be procured from the Office of Price Administration.

PART 1336—RADIO, X-RAY, AND COMMUNICATION APPARATUS

PRICE SCHEDULE NO. 83—RADIO RECEIVERS AND PHONOGRAPHS

Radio constitutes an important factor in defense. Besides serving as a source of news and of entertainment vital to morale, it furnishes the principal channel through which civilian defense authorities are enabled to disseminate directions and intelligence necessary to the public safety.

During 1941, wholesale and retail prices of radio equipment for domestic use have increased substantially. Demand for radio equipment, at an all-time high during 1941, is likely to be accentuated by the nation's entry into war. Supply is seriously threatened by shortages of critical materials needed for the production of armaments, and by the prospect that much of the industry's capacity will be diverted to the manufacture of radio materials for the armed forces of this country and its allies. These conditions create danger of further increases to unwarranted levels and require the application of effective controls.

In order to prevent nullification of the Schedule, limited restrictions are imposed upon model changes, as a temporary measure. These restrictions, in their present form, expire on December 31, 1942.

Electrical phonographs employ many of the same components as radios and are frequently combined with radios in a combination unit. They are subject to similar price influences and are, therefore, included in this Schedule.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1336.51 *Maximum prices for radio receiving sets and phonographs.* On and after February 9, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no manufacturer shall sell, offer to sell, deliver or transfer any radio receiving set or phonograph at a price higher than the maximum price.

(a) *Current models offered for sale on or before October 15, 1941.* The maximum price, exclusive of federal excise tax, for any current model of radio receiving set or phonograph offered during the period July 15, 1941, to October 15, 1941, inclusive for sale during such period shall be the highest net price, f. o. b. seller's point of shipment and exclusive of federal excise tax, at which such model was billed by the manufacturer for a delivery made during such period or, if there was no such billing, the highest net price, exclusive of federal excise tax, at any time quoted in writing by the manufacturer for a delivery during such period to the same person or a person of the same general class.

(b) *Current models first offered for sale after October 15, 1941.* The maximum price, exclusive of federal excise tax, for any current model of radio receiving set or phonograph first offered after October 15, 1941 for sale after such date shall be (1) until the Office of Price Administration has approved a price on the basis of a report to it in accordance with § 1336.54 (a) the highest net price f. o. b. seller's point of shipment, and exclusive of federal excise tax, at which such model was billed by the manufacturer for a delivery made before February 9, 1942, (or, if there was no such billing, the highest net price, exclusive of federal excise tax, at any time quoted in writing by the manufacturer for a delivery prior to February 9, 1942) to the same person or a person of the same general class, and (2) after such approval, shall be such approved price.

(c) *Cost-plus contracts*—(1) *Completion of outstanding cost-plus contracts.* The maximum price for any radio receiving set or phonograph delivered by the manufacturer after February 9, 1942, in order to complete a cost-plus contract outstanding on such date shall be determined by the terms of such contract.

(2) *Future cost-plus contracts.* On and after February 9, 1942, no radio receiving set or phonograph shall be sold, delivered, or transferred under a cost-plus contract not outstanding on such date until the manufacturer has submitted a copy of such contract to the Office of Price Administration, and the Office of Price Administration has approved such contract in writing. No such cost-plus contract will be approved unless (i) it is in writing and (ii) expires on a definite date stipulated therein or after delivery thereunder of a specified number of units.

(d) *Discontinued models.* A manufacturer who has at any time discontinued sale of any model may thereafter restore such model to his line and sell, offer for sale, transfer or deliver it at a maximum price no higher than the price in effect at the date of discontinuance, provided such price was not in violation of this Schedule.

(e) *Other models.* The maximum price for any model other than a model referred to in paragraphs (a), (b), (c) and (d) of this section shall be the price provided for such model in § 1336.53 hereof.*

*§§ 1336.51 to 1336.62, inclusive, issued pursuant to authority contained in E. O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1336.52 *Less than maximum prices.* Lower prices than those set forth in this Schedule may be charged, demanded, paid or offered.*

§ 1336.53 *Limitation of model changes and maximum prices for new models.* Between February 9, 1942, and December 31, 1942, inclusive, regardless of the terms of any contract of sale or purchase, or other commitment, no manufacturer shall sell, offer to sell, deliver or transfer any model of radio receiving set or phonograph other than a model referred to in paragraphs (a), (b), (c) and (d) of § 1336.51 except as provided in paragraphs (a), (b), (c) and (d) of this Section.

(a) *Replacement type models.* Ten days before first offering it for sale, a manufacturer wishing to offer for sale a model replacing or similar to any other model in his line at that time, shall submit to the Office of Price Administration an application on Form 183:1 for permission to take such action, containing (1) the specifications and description (including catalog, if any) of such model and (2) satisfactory evidence that the specifications of such model do not differ from those of such other model in a manner tending to degrade quality. Ten days after the mailing of such application, the manufacturer may sell, offer for sale, deliver or transfer such model at a price no higher than the maximum price for such other model.

(b) *Models in process.* A manufacturer wishing to offer for sale a model in process on the effective date of this Schedule, which because of design and specifications cannot qualify under paragraph (a) hereof, shall submit to the Office of Price Administration an application on Form 183:2 for permission to take such action, containing (1) satisfactory evidence (i) that the model cannot qualify under paragraph (a) hereof, (ii) that the design and specifications of the model were completed before the effective date of this Schedule, (iii) that firm commitments for parts or cabinet of such model were made by the manufacturer prior to the effective date of this Schedule, and (iv) that any of such parts or cabinet are usable by such manufacturer only in such model, and (2) the specifications and description (including catalog, if any) and the proposed maximum price for such model. If the Office of Price Administration approves the application, the manufacturer may sell, offer for sale, deliver or transfer such model at a price no higher than the maximum price stipulated in such approval.

(c) *Models using new developments.* A manufacturer wishing to offer for sale a model embodying a new technical development shall submit to the Office of Price Administration an application on Form 183:3 for permission to take such action, containing (1) the specifications

and description (including catalog, if any) and proposed maximum price for such model, and (2) satisfactory evidence that such model embodies a new technical development. If the Office of Price Administration approves the application, the manufacturer may sell, offer for sale, deliver or transfer such model at a price no higher than the maximum price stipulated in such approval.

(d) *Necessary substitutions.* Manufacturers may change the specifications of any model, provided such change does not increase the price thereof, if (1) the material previously used is (i) unavailable or prohibitive in cost or (ii) its use in radio receiving sets or phonographs is so restricted by a priority or allocation order or other regulation of a federal agency as to require the proposed change, or (iii) the proposed change will result in substantial conservation of strategic materials, and (2) the change is calculated to preserve quality.

(e) A manufacturer may at any time change the cabinet finish of any model or may add to his line at any time a model differing from an existing model only in respect of cabinet finish, provided the price is not thereby increased over the price of the existing model.*

§ 1336.54 *Reports*—(a) *Current models.* On or before March 15, 1942, every manufacturer shall submit to the Office of Price Administration on Form 183:4 (1) the maximum prices, as determined by paragraph (a) of § 1336.51 hereof, the general specifications and description in effect on October 15, 1941, for each current model offered for sale during the period from July 15, 1941, to October 15, 1941, inclusive, and (2) the maximum prices, as determined by paragraph (b) of § 1336.51 hereof, and the general specifications and description in effect on the effective date of this Schedule for each current model first offered for sale after October 15, 1941. If the general specifications and description of any model are set forth in a catalog, a manufacturer may submit such catalog to the Office of Price Administration in lieu of any other specifications and description of such model.

(b) *Substitutions of component parts.* Not later than March 15, 1942, every manufacturer shall submit a report to the Office of Price Administration on Form 183:5 describing all substitutions of component parts made in any model between February 9, 1942, and February 28, 1942, inclusive, pursuant to § 1336.53 (d); and not later than the 10th day of May, July, September and November, 1942, and January 1943, shall submit a similar report covering two months immediately preceding the month in which each such report is made.

(c) *Changes of cabinet finish.* Within 10 days after taking any action authorized by § 1336.53 (e), every manufacturer shall submit to the Office of Price Administration on Form 183:6 a report describing the action taken.

(d) *Cost-plus contracts.* On or before March 15, 1942, every manufacturer shall submit to the Office of Price Administration a copy of each of his cost-plus contracts for the sale of radio receiving sets and phonographs, outstanding on February 9, 1942. Any such contract which is not in writing shall be reduced to writing before March 15, 1942.

(e) *Discontinued models.* (1) On or before March 15, 1942, every manufacturer who has discontinued sale of any model of radio receiving set or phonograph offered for sale during the period from July 15, 1941, to January 31, 1942, inclusive, shall submit to the Office of Price Administration a report on Form 183:7 containing identification of such model, the date of and reason for discontinuing production thereof, and the total number of completed units thereof produced during such period. A model shall be deemed discontinued when notice of discontinuance is given by the manufacturer to his customers.

(2) Within 30 days after any manufacturer discontinues sale of any model of radio receiving set or phonograph after January 31, 1942, he shall submit to the Office of Price Administration a report on Form 183:7 containing identification of such model, the date and reason for discontinuing production thereof, and the total number of completed units produced from July 15, 1941, to the date of discontinuance.

(f) *Monthly output of radio receiving sets and phonographs.* On or before March 15, 1942, and on or before the 10th day of each month thereafter every manufacturer shall submit to the Office of Price Administration on Form 183:8 a report setting forth the total number of completed units of each model of radio receiving set and phonograph produced by him in the preceding month. Such report shall refer to the model number or other appropriate designation of each such model. If a report containing such information is required to be submitted to any other federal agency, a copy thereof may be filed with the Office of Price Administration at the time it is filed with such other agency instead of a separate report on Form 183:8.

(g) *Other reports.* Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1336.55 *Evasion.* The limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with the manufacture of radio receiving sets or phonographs by deterioration of quality, or in connection with a purchase, sale, delivery or transfer of any radio receiving set or phonograph alone or in conjunction with any other article, or by way of any commission, service, transportation, or other charge or by tying-agreement or other trade understanding, or by making rebates, discounts or other terms and conditions of sale less favorable to the purchaser than those available or in effect on October 15, 1941, or by any other means.*

§ 1336.56 *Records.* Every manufacturer making sales of radio receiving sets or phonographs on or after February 9, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such sale, showing the date thereof, the name and address of the buyer, the name and number or other designation of each unit, the price received therefor and the quantity of each unit sold.*

§ 1336.57 *Affirmations of compliance.* On or before April 1, 1942, and quarterly thereafter, every manufacturer who is required to keep records of sales under § 1336.56 hereof shall submit to the Office of Price Administration, an affirmation of compliance on Form 183:9, containing a sworn statement that during such period all such sales were made at prices in compliance with this Schedule or with any exception therefrom or modification thereof. Copies of Form 183:9 can be procured from the Office of Price Administration, or, provided that no change is made in the style and content of the Form and that it is reproduced on 8 x 10½ inch paper, they may be prepared by persons required to submit affirmations of compliance hereunder.*

§ 1336.58 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government, both state and federal, are fully exerted in order to protect the public interest and the interest of those persons who comply with this Schedule; and (c) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the receipt or demand of prices higher than the maximum prices or of any evasion or effort to evade the provisions hereof, or of speculation, or manipulation of prices of radio receiving sets or phonographs or of the hoarding or accumulation or unnecessary inventories thereof are urged to communicate with the Office of Price Administration.*

§ 1336.59 *Modification of Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That, no application under this Section will be considered unless filed by persons complying with this Schedule.*

§ 1336.60 *Definitions.* (a) When used in this Schedule, the term:

(1) "Person" means an individual, partnership, association, corporation, or other business entity.

(2) "Manufacturer" means any person regularly engaged in the manufacture or assembly of radio receiving sets or phonographs.

(3) "Radio receiving set" means any of the following, alone or in combination with a record-playing device: home receiving sets, portable receiving sets, automobile receiving sets, television receiving sets, facsimile receiving sets.

(4) "Phonograph" means any device for the playing of records by the use of electrical amplification.

(5) "Model" means any radio receiving set or phonograph sold as a distinct item.

(6) "Current model" means any model offered for sale by the manufacturer during the period July 15, 1941, to February 9, 1942, inclusive.

(7) "Net price" means the amount billed or quoted for a sale, after deducting all discounts and allowances.

(8) "Net price exclusive of federal excise tax" means (i) if such price is billed or quoted separately from the tax, the price as so billed or quoted; and (ii) if such price as billed or quoted includes the tax, such price less the amount of the tax.

(9) "Cost-plus contract" means an agreement providing for (i) a price equal to the manufacturer's cost plus a stated percentage or fixed fee, or (ii) a specified price which is subject to adjustments covering variances from the manufacturer's cost estimates.

(b) The definitions set forth in subparagraphs (3) and (4) of this § 1336.60 shall not include any equipment primarily designed for commercial, police, or military use or for use in the navy or merchant marine.*

§ 1336.61 This Schedule shall not be deemed to authorize the taking of any action prohibited by order of any other federal agency.*

§ 1336.62 *Effective date of this Schedule.* This Schedule shall become effective February 9, 1942.*

Issued this 30th day of January, 1942.

PART 1336—RADIO, X-RAY, AND COMMUNICATION APPARATUS

PRICE SCHEDULE NO. 84—RADIO, RECEIVER AND PHONOGRAPH PARTS

Radio constitutes an important factor in defense. Besides serving as a source of news and of entertainment vital to morale, it furnishes the principal channel through which civilian defense authorities are enabled to disseminate directions and intelligence necessary to the public safety.

During 1941, prices of parts for radios for domestic use have increased substantially and such increases have in many instances caused advances in prices of radio receiving sets. Demand for radio equipment, at an all-time high during 1941, is likely to be accentuated by the nation's entry into war. Supply of radio parts is seriously threatened by shortages of critical materials needed for the production of armaments and by the prospect that much of the industry's capacity will be diverted to the production of radio materials for the armed forces of this country and its allies. These conditions create danger of further increases to unwarranted levels and require the application of suitable controls.

The various branches of the industry may be found to require separate treatment after full economic data is at hand. Pending completion of a comprehensive study, it is essential to stabilize the price structure on a temporary basis.

Electrical phonographs employ many of the same parts as radios, and are frequently combined with radios in a combination unit. Phonograph parts are thus subject to price influences similar to those which affect radio parts, and are, therefore, included in this Schedule.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§1336.101 *Maximum prices for radio receiving set and phonograph parts.* On and after February 9, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no manufacturer shall sell, offer to sell, deliver or transfer any radio or phonograph part at a price higher than the maximum price.

(a) *Parts sold and offered for sale between July 15, 1941, and October 15, 1941.* The maximum price, exclusive of federal excise tax, for any part offered during the period between July 15, 1941, and October 15, 1941, inclusive, for sale during such period, shall be the highest net price f. o. b. seller's point of shipment and exclusive of federal excise tax, at which such part was billed by the manufacturer for delivery during such period, or if there was no such billing, the highest net price, exclusive of federal excise tax, at any time quoted in writing by the manufacturer for a delivery during such period to the same person or a person of the same general class.

(b) *New parts offered before October 15, 1941, for sale thereafter.* The maximum price, exclusive of federal excise tax, for a part offered before October 15, 1941, to be delivered for the first time after such date, shall be the highest net price f. o. b. seller's point of shipment and exclusive of federal excise tax, quoted in writing by the manufacturer for such part before October 15, 1941.

(c) *Parts first offered for sale between October 16, 1941, and February 9, 1942.* The maximum price, exclusive of federal excise tax, for any part offered for the first time during the period between October 16, 1941, and February 9, 1942, inclusive, for sale during or after such period, shall be (1) until the Office of Price Administration has approved a price on the basis of a report to it in accordance with § 1336.103 (a), the highest net price f. o. b. seller's point of shipment, and exclusive of federal excise tax, at which such part was billed by the manufacturer for a delivery made on or before February 9, 1942, (or, if there was no such billing, the highest net price, exclusive of federal excise tax, at any time quoted in writing by the manufacturer for a delivery of such part to the same person or a person of the same general class, and (2) after such approval, shall be such approved price.

(d) *Parts first offered for sale after February 9, 1942.* The maximum price, exclusive of federal excise tax, for any part offered for the first time after February 9, 1942, for sale after such date shall be the price approved by the Office of Price Administration on the basis of a report to it in accordance with § 1336.103 (b).

(e) *Parts sold pursuant to cost-plus contracts*—(1) *Completion of outstanding cost-plus contracts.* The maximum price for any part delivered by the manufacturer after February 9, 1942, in order to complete a cost-plus contract outstanding on such date shall be determined by the terms of such contract.

(2) *Future cost-plus contracts.* After February 9, 1942, no part shall be sold, delivered, or transferred under a cost-plus contract not outstanding on such date until the manufacturer has submitted such contract to the Office of Price Administration, and the Office of Price Administration has approved such contract in writing. No such contract will be approved unless it (i) is in writing, and (ii) expires on a definite date stipulated therein or after delivery thereunder of a specified number of units.*

*§§ 1336.101 to 1336.110, inclusive, issued pursuant to authority contained in E.O. Nos. 8734, 8875, 6 F.R., 1917, 4483.

§ 1336.102 *Less than maximum prices.* Lower prices than those set forth in this Schedule may be charged, demanded, paid or offered.*

§ 1336.103 *Reports*—(a) *Parts offered for sale before February 9, 1942.* On or before March 15, 1942, every manufacturer shall submit to the Office of Price Administration (1) his maximum prices, as determined by paragraphs (a) and (b) and sub-paragraph (c) (1) of § 1336.101, for all parts referred to in such paragraphs; and (2) all lists, catalogues or other materials describing or identifying such parts.

(b) *Parts first offered for sale after February 9, 1942.* A manufacturer wishing to obtain approval of the maximum price for a part referred to in § 1336.101 (d) shall submit to the Office of Price Administration an application for such approval containing a description of such part and stating the proposed price therefor. If within ten days after the mailing of such application, it has not been disapproved by the Office of Price Administration, the manufacturer may sell, offer for sale, deliver or transfer such part at the proposed price.

(c) *Cost-plus contracts.* On or before March 15, 1942, every manufacturer shall submit to the Office of Price Administration a copy of each of his cost-plus contracts for the sale of parts, outstanding on February 9, 1942. Any such contract which is not in writing shall be reduced to writing before March 15, 1942.

(d) *Other reports.* Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1336.104 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with the manufacture of radio or phonograph parts by deterioration of quality or in connection with a purchase, sale, delivery

and phonographs, outstanding on Feb- | ber or other designation of each unit, | set or phonograph sold as a distinct item.

or transfer of any radio or phonograph part alone or in conjunction with any other article or by subdividing and selling separately the components of an assembled unit, or by way of any service, transportation, or other charge or by tying-agreement or other trade understanding, or by making rebates, discounts or other terms and conditions of sale less favorable to the purchaser than those available or in effect on October 15, 1941, or by any other means.*

§ 1336.105 *Records.* Every manufacturer making sales of radio or phonograph parts on or after February 9, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each sale showing the date thereof, the name and address of the buyer, the name, the number or other designation of each unit, the price received for each unit, and the quantity sold.*

§ 1336.106 *Affirmations of compliance.* On or before April 1, 1942, and quarterly thereafter, every manufacturer who is required to keep records of sales under Section 1336.105 hereof shall submit to the Office of Price Administration an affirmation of compliance on Form 184:1, containing a sworn statement that during such period all such sales were made at prices in compliance with this Schedule or with any exception therefrom or modification thereof. Copies of Form 184:1 can be procured from the Office of Price Administration, or, provided that no change is made in the style and content of the Form and that it is reproduced on 8 x 10½ inch paper, they may may be prepared by persons required to submit affirmations of compliance hereunder.*

§ 1336.107 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government, both state and federal, are fully exerted in order to protect the public interest and the interest of those persons who comply with this Schedule; and (c) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the receipt or demand of prices higher than the maximum prices or of any evasion or effort to evade the provisions hereof, or of speculation, or manipulation of prices of radio or phonograph parts, or of the hoarding or accumulation of unnecessary inventories thereof are urged to communicate with the Office of Price Administration.*

§ 1336.108 *Modification of Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That, no application under this Section will be considered unless filed by persons complying with this Schedule.*

§ 1336.109 *Definitions.* (a) When used in this Schedule, the term:

(1) "Person" means an individual, partnership, association, corporation, or other business entity;

(2) "Manufacturer" means any person regularly engaged in the manufacture and sale of radio or phonograph parts;

(3) "Part" means any component, except a cabinet, of a radio receiving set or phonograph, whether such component is a separate unit or an assembly or combination of two or more units; including (particularly but not exclusively) parts built to the specifications of an individual purchaser.

(4) "Radio receiving set" means any of the following, alone or in combination with a record-playing device: home receiving sets, portable receiving sets, automobile receiving sets, television receiving sets, facsimile receiving sets;

(5) "Phonograph" means any device for the playing of records by the use of electrical amplification;

(6) "Net price" means the amount billed or quoted for a sale, after deducting all discounts;

(7) "Net price exclusive of federal excise tax" means (i) if such price is billed or quoted separately from the tax, the price as so billed or quoted; and (2) if such price as billed or quoted includes the tax, such price less the amount of the tax;

(8) "Cost-plus contract means an agreement providing for (i) a price equal to the manufacturer's cost plus a stated percentage or fixed fee, or (ii) a specified price which is subject to adjustments covering variances from the manufacturer's cost estimates.*

(b) The definitions set forth in subparagraphs (3), (4), and (5) of this section shall not include any equipment primarily designed for commercial, police, or military use or for use in the navy or merchant marine.*

§ 1336.110 *Effective date of this Schedule.* This Schedule shall become effective February 9, 1942.*

Issued this 30th day of January, 1942.

PART 1349—ELECTRICAL GENERATION, TRANSMISSION, CONVERSION AND DISTRIBUTION APPARATUS

PRICE SCHEDULE NO. 82—WIRE, CABLE AND CABLE ACCESSORIES

The production of wire and cable products is essential both to this country's war program and to its civilian economy. Wire, cable and cable accessories are integral parts of every communication and power distribution system, ranging from far-flung utility operations to the more localized requirements of battleships, airplanes and tanks. Since January 1, 1941, prices of many types of wire and cable have been increased between five and twenty-five percent. On October 29, 1941, therefore, manufacturers of these products were requested not to increase prices over the level prevailing on October 15, 1941, pending a further study of the industry.

After numerous conferences with representative members of the industry and a study of costs and other factors relevant to the production and sale of wire and cable products, it has been decided that the prices in effect on October, 15, 1941, with the modifications contained herein, are fair and equitable and that the informal request should be supplanted by a formal Price Schedule.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1349.1 *Maximum prices for wire, cable and cable accessories.* (a) On and after January 29, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, except as provided in paragraph (c) below, no manufacturer shall sell, offer to sell, deliver or transfer wire, cable or cable accessories and no person shall buy, offer to buy, or accept delivery of wire, cable or cable accessories at prices higher than the maximum prices set forth in Appendices A and B hereof, incorporated herein as §§ 1349.10 and 1349.11.*

*§§ 1349.1 to 1349.11 inclusive, issued pursuant to authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

(b) On and after January 29, 1942, regardless of the terms of any contract or other commitment, except as provided in paragraph (c) below, no person shall make a charge for rolling bars into rods or drawing wire therefrom in excess of the net charge made for similar operations on October 15, 1941, or on the latest date prior thereto on which such operation was performed.

(c) The provisions of this section shall not apply to any contract entered into by a manufacturer prior to November 1, 1941, nor to any contract entered into by the Army, Navy, Defense Plant Corporation, Maritime Commission, Panama Canal or the Procurement Division of the Treasury Department or any other agency of the United States prior to the effective date of this Schedule.

(d) Nothing in this section shall prevent the inclusion in any contract for the sale of wire, cable or cable accessories of a provision for price adjustment to be applied only to those deliveries called for and made more than nine months after the date on which the contract is entered into: *Provided*, That the contract also contains a provision that the final prices, after all adjustments, will in no case exceed the maximum prices established by the Office of Price Administration at the dates of delivery. Any other form of price adjustment provision, whether contractual or set forth in a manufacturer's price list or discount sheet, purporting to establish automatic or other adjustment of the price of wire, cable or cable accessories, in the event of an increase in any cost or for any other reason shall be deemed a violation of this Schedule and of no effect.*

§ 1349.2 *Less than maximum prices.* Lower prices than the maximum prices established by this Schedule may be charged, demanded, paid or offered.*

§ 1349.3 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery or transfer of wire, cable or cable accessories, or the rolling of bars into rods or the drawing of wire therefrom: (a) by way of any commission, service, transportation or other charge; (b) by way of any change in customary terms or conditions of sales or services, discounts, premiums, warranties or other privileges; (c) by tying-agreements or other trade understanding; or (d) by any other means, as a result of which the net price received by the manufacturer of such wire, cable or cable accessories will exceed the net price which would have been received by the manufacturer if such wire, cable or cable accessories had been sold or such operations had been performed on October 15, 1941.*

§ 1349.4 *Records and reports.* (a) Every manufacturer of wire, cable, or cable accessories making any sale after January 29, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such sale, showing (1) the date thereof, (2) the name and address of the buyer, (3) the price on the date of sale, (4) the net price received, and (5) the quantity and description of the wire, cable or cable accessories sold.

(b) Every person rolling bars into rods or drawing wire therefrom, after January 29, 1942, for a manufacturer of wire, cable or cable accessories, where bars or rods are furnished by such manufacturer, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such transaction, showing (1) the date thereof, (2) the name and address of the manufacturer for whom the operation was performed, (3) the net charge, and (4) description of the size, quality and quantity of wire drawn or bars rolled.

(c) On or before February 20, 1942, every manufacturer of wire, cable or cable accessories shall file with the Office of Price Administration, Washington, D. C., if it has not already done so, price lists and discount sheets setting forth prices and all extra charges, discounts and allowances applicable on October 15, 1941 to wire, cable and cable accessories offered for sale by such manufacturer.*

(d) If the maximum prices of wire, cable or cable accessories are to be determined in accordance with the provisions of Appendix B hereof, incorporated herein as § 1349.11, the manufacturer shall submit to the Office of Price Administration, Washington, D. C., the specifications of such wire, cable or cable accessories, the proposed price, price or cost estimate sheets employing costs existing on October 15, 1941, the proposed billing date, a statement that the procedures and standards employed in estimating costs and determining prices are the same as those employed on October 15, 1941, and the increase, if any, based on lead content, all certified by an authorized agent of the manufacturer having knowledge of the facts. Such information shall be submitted by mail postmarked not less than twenty days before the proposed date of billing of such wire, cable or cable accessories, and such price shall be the maximum price unless an objection is made by the Office of Price Administration by mail postmarked not less than five days before such proposed billing date.

(e) Every manufacturer of wire, cable or cable accessories shall file with the Office of Price Administration, Washington, D. C., any price lists or discount sheets issued subsequent to October 15, 1941, immediately after issuance and shall submit such information in the form of price data, cost data, profit and loss statements and balance sheets in such form and at such times as may be required by the Office of Price Administration.*

§ 1349.5 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see: (a) that the Congress and the public are fully informed thereof, (b) that the powers of Government, both state and federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule, (c) that full advantage will be taken of the various political subdivisions of state, county and local governments by calling to the attention of the proper authorities, failures to comply with this Schedule, (d) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule, and (e) that the War Production Board is requested to direct the withholding of priority ratings and the allocation of materials to any person failing to comply with this Schedule.

Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation, or of manipulation of prices of wire, cable or cable accessories are urged to communicate with the Office of Price Administration.*

§ 1349.6 *Modification of the Price Schedule.* Persons claiming hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof, or exception therefrom: *Provided*, That no application under this section will be considered unless filed by persons complying with this Schedule.*

§ 1349.7 *Products subject to the Schedule.* The term: (a) "wire, cable and cable accessories" means:

(1) *Rods* which shall include hot rolled black or cleaned rods for electrical uses.

Any copper, copperclad or copper alloy wire or assembly of wires used for conducting electricity, including the following types:

(2) *Bare wire* which shall include all sizes and shapes of bare and metallic coated wire in solid or stranded form.

(3) *Weatherproof wire* which shall include bare wire over which either two or three cotton braids or the equivalent have been applied in any form and saturated with a weather resistant or heat resistant compound.

(4) *Magnet wire* which shall include all sizes and shapes, whether round, flats or squares, of bare copper wire insulated with enamel, paper, silk and silk substitutes, cotton, asbestos, glass, Formex and combinations of these and similar materials, including high frequency or "Litz" wires, as commonly used in the winding of coils employed for electrical purposes.

(5) *Non-metallic sheathed cable* which shall include an assembly of one or more rubber insulated conductors, each of which may be fibrous covered or protected by a non-metallic armor, with or without an uninsulated ground wire, the entire assembly enclosed in a fibrous sheath, treated with moisture-resistant and flame-resistant finishes, such as Romex or Durax.

(6) *Paper power cable* which shall include solid or fluid types of cable, exclusive of communication cable, in which the conductor is insulated with paper and enclosed in a metallic sheath with or without fibrous or metallic armor coverings to be used for the transmission and distribution of electrical energy.

(7) *Rubber sheathed cord and cable* which shall include a stranded insulated conductor or conductors encased in a rubber or synthetic jacket applied or cured under pressure.

(8) *Rubber power cable* which shall include all types of rubber or synthetic insulated or jacketed, single or multiple conductor cables, exclusive of building wire, finished with a rubber or synthetic jacket, fibrous coverings or metallic sheath, with or without metallic armor including all types of Parkway and Service Entrance Cable but excluding building wire.

(9) *Building wire* which shall include single or multiple conductor rubber or synthetic insulated wires and cables, protected with metallic or non-metallic coverings as used for interior electrical wiring, including wire for use in armored cable.

(10) *Asbestos insulated power cable* which shall include wires and cables insulated with either impregnated asbestos or combinations of impregnated asbestos and other insulating materials, such as varnished cambric, rubber, and synthetics, with all types and kinds of finishes and outer coverings.

(11) *Varnished cambric insulated power cable* which shall include single and multiple conductors, insulated with all types of varnished cambric or combination rubber and varnished cambric, paper and varnished cambric and paper, rubber and varnished cambric, protected with metallic and non-metallic coverings.

(12) *Telephone and telegraph wire* which shall include single or multiple conductor rubber or synthetic insulated assemblies with or without a fibrous or metallic protective covering suitable for service conditions encountered in inside and outside communication circuits.

(13) *Telephone, telegraph or signal cable* which shall include paper or other fibrous insulated conductors in lead or lead-alloy sheath with or without non-metallic or metallic armor.

(14) *Special purpose communication or signal wire and cable* which shall include single or multiple conductors, rubber or synthetic insulated, with or without a fibrous or metallic protective covering.

(15) *Armored conductors* which shall include assemblies of one or more conductors, each insulated with a rubber or synthetic compound and covered with fibrous covering, the single or multiple conductor assemblies having an overall fibrous or lead covering enclosed in a metal armor of galvanized steel or other corrosion resistant metal strip of semi-interlocking construction, such as BX cable.

(16) *Shipboard cable* which shall include copper conductors insulated with rubber, asbestos, varnished cambric, synthetic material or other fibrous covering or any combination of such coverings and with or without a wire braid armor.

(17) *Flexible cord and cord sets—Flexible cords* which shall include single and multiple conductor wires consisting of flexible stranded bare wire, insulated with impregnated cotton, impregnated asbestos, rubber compounds or synthetics and finished with fibrous coverings, rubber or synthetic jackets suitable for use in the wiring of electric fixtures and as power supply for portable electrical appliances.

Cord sets which shall include any item or assembly of items of flexible cords cut to specified length or cut and equipped with soldered ends, eyelets, plugs, switches, or other similar appurtenances for use with electrical appliances or other electrical apparatus.

(18) *Cable accessories* which shall include (1) cable end sealing devices or parts thereof, including devices commonly known as potheads; cable terminals, cable terminators, and bells and junction boxes; (2) unit packages for splicing cable of one or more conductors and (3) miscellaneous materials used with joints for splicing cables of one or more conductors applicable to all cables of the solid insulated type for underground, aerial or submarine use.*

§ 1349.8 *Definitions.* When used in this Schedule the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity.

(b) "Manufacturer" means any person engaged in one or more operations in the manufacture or fabrication of wire, cable or cable accessories resulting in the production of a finished form of wire, cable or cable accessory.

(c) "Net price" means the manufacturer's price after adjustment for all applicable extra charges, discounts, or other allowances.

(d) "Extra charges" mean any additions to the price of wire, cable or cable accessories, whether or not specified in the price lists or discount sheets of a manufacturer, and, without limiting the generality of the term, includes cutting charges, freight charges or differentials, winding charges, charges for limited quantity, charges for reels, and charges for special specifications.

(e) "Discounts or other allowances" mean any deductions from the price of wire, cable or cable accessories, whether or not specified in the price lists or discount sheets of a manufacturer, and, without limiting the generality of the term, includes discounts based upon whether the purchaser is a wholesaler, jobber, dealer or contractor, the quantity and reel allowances.

(f) "Rolling bars into rods or drawing wire therefrom" includes any operation in the manufacture of rods from bars or of bare wire from bars or rods.

(g) "Net charge" means the toll charge made for rolling bars into rods or drawing wire therefrom, after adjustment for all applicable extra charges, discounts or other allowances.*

§ 1349.9 *Effective date of the Schedule.* This Schedule shall become effective on January 29, 1942.*

Issued this 29th day of January 1942.

LEON HENDERSON,
Administrator.

§ 1349.10 *Appendix A; maximum prices for wire, cable and cable accessories listed in price sheets.* (a) For all types of wire, cable and cable accessories listed in § 1349.7 hereof, except Weatherproof Wire, the prices of which can be determined from prices listed or methods of computation provided in price sheets in effect on October 15, 1941, maximum prices shall be the net prices of the manufacturer thereof on October 15, 1941. Maximum prices for any such wire, cable or cable accessories containing lead shall be the prices provided in the preceding sentence plus an amount equal to the number of pounds of lead contained on any such wire, cable or cable accessories multiplied by $0.00325.

(b) Maximum prices for Weatherproof Wire shall be computed by applying the terms and conditions contained in each manufacturer's price list in effect on October 15, 1941, to a base price of 17.5 cents per pound for solid, soft drawn, weatherproof copper wire and cable, shipped in less than carload lots.*

§ 1349.11 *Appendix B; maximum prices for wire, cable and cable accessories not covered by § 1349.10, Appendix A.* Maximum prices for wire, cable and cable accessories not covered by Appendix A hereof, incorporated herein as § 1349.10, including new products, shall be the net prices the manufacturer thereof would have charged on October 15, 1941 if such prices had been calculated upon costs existing on such date and by the use of procedures and standards employed in estimating costs and determining prices on such date. Maximum prices for any such wire, cable or cable accessories containing lead shall be the prices provided in the preceding sentence plus an amount equal to the number of pounds of lead contained on any such wire, cable or cable accessories multiplied by $0.00325.*

DEPARTMENT OF LABOR.

Wage and Hour Division.

NOTICE OF HEARING ON MINIMUM WAGE RECOMMENDATION OF THE INDUSTRY COMMITTEE FOR THE RAILROAD AND PROPERTY MOTOR CARRIER INDUSTRY OF PUERTO RICO [1]

Whereas by Administrative Order No. 134,[2] dated December 9, 1941, the Administrator of the Wage and Hour Division, United States Department of Labor, acting pursuant to section 5 (c) of the Fair Labor Standards Act of 1938, as amended, appointed an Industry Committee for the Railroad and Property Motor Carrier Industry of Puerto Rico, composed of residents of such island and residents of the United States outside of Puerto Rico, said administrative order directing the committee to proceed to investigate conditions in the Railroad and Property Motor Carrier Industry of Puerto Rico and recommend to the Administrator minimum wage rates for all employees thereof who, within the meaning of said Act, are "engaged in commerce or in the production of goods for commerce," except employees exempted by virtue of the provisions of section 13 (a) and employees coming under the provisions of section 14; and

Whereas the Industry Committee on January 20, 1942, recommended a minimum wage rate for the Railroad and Property Motor Carrier Industry of Puerto Rico and duly adopted a report containing said recommendation and on January 26, 1942, filed its report with the Administrator in accordance with section 8 (d) of the Act and § 511.19 of the regulations issued under the Act; and

Whereas the Administrator is required by section 8 (d) of the Act, after giving due notice and an opportunity to be heard to interested persons, to approve and carry into effect by order the recommendation of the Industry Committee if he finds that the recommendation is made in accordance with law, is supported by the evidence adduced at the hearing before him and, taking into consideration the same factors as are required to be considered by the industry committee, will carry out the purposes of the Act; and, if he finds otherwise, to disapprove such recommendation;

Now, therefore, notice is hereby given:

I. The Industry Committee for the Railroad and Property Motor Carrier Industry of Puerto Rico has made the following recommendation for the minimum wage rate to be paid to employees in the Railroad and Property Motor Carrier Industry of Puerto Rico:

Wages at a rate of not less than 20 cents per hour shall be paid by every employer to each of his employees who is engaged in commerce or in the production of goods for commerce in the Railroad and Property Motor Carrier Industry of Puerto Rico, as defined in Administrative Order No. 134 dated December 9, 1941.

II. The definition of the Railroad and Property Motor Carrier Industry of Puerto Rico as set forth in Administrative Order No. 134 is as follows:

The industry carried on in Puerto Rico by (1) any railroad carrier under public franchise which holds itself out to the general public to engage in the transportation for compensation of passengers and property in commerce, or, of passengers and property necessary to the production of goods for commerce, and which furnishes transportation service for passengers in an amount not less than $25,000 annually or which derives at least ten percent of its total operating revenues from passenger transportation service; (2) any railway express company which holds itself out to the general public to engage in the transportation for compensation of property in commerce or of property necessary to the production of goods for commerce; (3) any trucking firm or company which holds itself out to the general public to engage in the transportation for compensation of property in commerce or of property necessary to the production of goods for commerce: *Provided*, That (a) it is not directly or indirectly owned or controlled by a company primarily engaged in manufacturing, processing, wholesaling or other non-transportation activity, and (b) it does not perform any transportation functions for such company. The term "firm" or "company" means an individual, partnership, association, corporation or business trust.

IV. A public hearing for the purpose of taking evidence on the question of whether the recommendation of the Industry Committee for the Railroad and Property Motor Carrier Industry of Puerto Rico shall be approved or disapproved pursuant to section 8 of the Act, will be held on February 24, 1942, at 10:00 a. m., in Room 3229, United States Department of Labor Building, 14th Street and Constitution Avenue, N. W., Washington, D. C., before Major Robert N. Campbell as presiding officer.

V. Any interested person supporting or opposing the recommendation of the Industry Committee for the Railroad and Property Motor Carrier Industry of Puerto Rico may appear at the hearing to offer evidence either on his own behalf or on behalf of any other person, if not later than February 20, 1942, he files with the Administrator by mail or otherwise at Washington, D. C., a notice of his intent to appear, which shall contain the following information:

1. The name and address of the person appearing.

2. If such person is appearing in a representative capacity, the name and address of the person or persons he is representing.

3. Whether such person proposes to appear for or against the recommendations of the committee.

4. The approximate length of time requested for his presentation.

VI. Any interested person may secure further information concerning the aforesaid hearing by inquiry directed to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington, D. C., or by consulting with attorneys representing the Administrator who will be available for that purpose at the office of the Wage and Hour Division in Washington, D. C.

VII. Copies of the following document will be available for inspection by any interested person between the hours of 9:00 a. m. and 4:30 p. m. at the offices of the Wage and Hour Division enumerated in paragraph III above:

Bulletin, Serial No. R-1294 entitled *Living Conditions of Workers in Puerto Rico*, a reprint from the Monthly Labor Review, April, 1941 of the Bureau of Labor Statistics, United States Department of Labor.

The record made at the public hearing before the Industry Committee for the Railroad and Property Motor Carrier Industry of Puerto Rico may be examined by any interested person at the offices of the Wage and Hour Division, United States Department of Labor, in Washington, D. C., and in San Juan, Puerto Rico, and may be obtained at prescribed rates from the official reporter of the Wage and Hour Division, United States Department of Labor, Washington, D. C. The foregoing report and record will be offered in evidence at the public hearing herein referred to.

VIII. The hearing will be conducted in accordance with the following rules of procedure subject to such subsequent modification by the Administrator or the presiding officer as are deemed appropriate:

1. The hearing shall be stenographically reported and a transcript made which shall be available at prescribed rates to any person upon request made to the official reporter of the Wage and Hour Division, United States Department of Labor, Washington, D. C.

2. In order to maintain orderly and expeditious procedure, each person filing a Notice to Appear shall be notified, if practicable, of the approximate day and the place at which he may offer evidence at the hearing. If such person does not appear at the time set in the notice he will not be permitted to offer evidence at any other time except by special permission of the presiding officer.

3. At the discretion of the presiding officer, the hearing may be continued from day to day, or adjourned to a later date, or to a different place, by announcement thereof at the hearing by the presiding officer, or by other appropriate notice.

4. At any stage of the hearing, the presiding officer may call for further evidence upon any matter. After the presiding officer has closed the hearing before him, no further evidence shall be taken, except at the request of the Administrator, unless provision has been made at the hearing for the later receipt of such evidence. In the event that the Administrator shall cause the hearing to be reopened for the purpose of receiving further evidence, due and reasonable notice of the time and place fixed for such further taking of testimony shall be given to all persons who have filed a notice of intention to appear at the hearing.

5. All evidence must be presented under oath or affirmation.

6. Written documents or exhibits, except as otherwise permitted by the presiding officer, must be offered in evidence by a person who is prepared to testify as to the authenticity and trustworthiness thereof, and shall, at the time of offering the documentary exhibit, make a brief statement as to the contents and manner of preparation thereof.

7. Written documents and exhibits shall be tendered in duplicate and the persons preparing the same shall be prepared to supply additional copies if such are ordered by the presiding officer. Where evidence is embraced in a document containing matter not intended to be put in evidence, such a document will not be received, but the person offering the same may present to the presiding officer the original document, together with two copies of those portions of the document intended to be put in evidence. Upon presentation of such copies in proper form the copies will be received in evidence.

8. Subpoenas requiring the attendance of witnesses or the presentation of a document from any place in the United States at any designated place of hearing may be issued by the Administrator at his discretion, and any person appearing in the proceeding may apply in writing for the issuance by the Administrator of the subpoena. Such applications shall be timely and shall identify exactly the witness or document and state fully the nature of the evidence proposed to be secured.

9. Witnesses summoned by the Administrator shall be paid the same fees and mileage as are paid witnesses in the courts of the United States. Witness fees and mileage shall be paid by the party at whose instance witnesses appear, and the Administrator before issuing subpoena may require a deposit of an amount adequate to cover the fees and mileage involved.

10. The rules of evidence prevailing in courts of law or equity shall not be controlling.

11. The presiding officer may, at his discretion, permit any person appearing in the proceeding to cross-examine any witness offered by another person in so far as is practicable, and to object to the admission or exclusion of evidence by the presiding officer. Requests for permission to cross-examine a witness offered by another person and objections to the admission or exclusion of evidence shall be stated briefly with the reasons for such request or the ground of objection relied on. Such requests or objections shall become a part of the record, but the record shall not include argument thereon except as ordered by the presiding officer. Objections to the approval of the committee's recommendation and to the promulgation of a wage order based upon such approval must be made at the hearing before the presiding officer.

12. Before the close of the hearing the presiding officer shall receive written requests from persons appearing in the proceeding for permission to make oral arguments before the Administrator upon the matter in issue. These requests will be forwarded to the Administrator by the presiding officer with the record of the proceedings. If the Administrator, in his discretion allows the request, he shall give such notice thereof as he deems suitable to all persons appearing in the proceeding, and shall designate the time and place at which the oral arguments shall be heard. If such requests are allowed, all persons appearing at the hearing will be given opportunity to present oral argument.

13. Briefs (12 copies) may be submitted to the Administrator following the close of the hearings, by any persons appearing therein. Notice of the final dates for filing such briefs shall be given by the Administrator in such manner as shall be deemed suitable by him.

14. On the close of the hearing the presiding officer shall forthwith file a complete record of the proceedings with the Administrator. The presiding officer shall not file an intermediate report unless so directed by the Administrator. If a report is filed, it shall be advisory only and have no binding effect upon the Administrator.

15. No order issued as a result of the hearing will take effect until after due notice is given of the issuance thereof by publication in the FEDERAL REGISTER.

Signed at Washington, D. C., this 29 day of January, 1942.

THOMAS W. HOLLAND,
Administrator.

[F. R. Doc. 42-844; Filed, January 30, 1942; 11:36 a. m.]

PRIMA FACIE DETERMINATION IN THE MATTER OF THE EXEMPTION OF THE MINING OF SAPPHIRES FROM SURFACE OR OPEN-CUTS FROM THE MAXIMUM HOURS PROVISIONS OF THE FAIR LABOR STANDARDS ACT OF 1938 AS AN INDUSTRY OF A SEASONAL NATURE WITHIN THE MEANING OF SECTION 7 (b) (3) OF THE ACT AND PART 526, AS AMENDED, OF THE REGULATIONS ISSUED THEREUNDER

Whereas, an application has been filed by the American Gem Mines, Philipsburg, Montana, for the exemption of the mining of sapphires from surface or open-cuts from the maximum hours provisions of the Fair Labor Standards Act as an industry of a seasonal nature within the meaning of section 7 (b) (3) of the act and Part 526, as amended, of the regulations issued thereunder; and

Whereas, it appears from said application and upon further investigation that:

1. All or practically all of the sapphires produced in the United States are mined from surface or open-cuts in the State of Montana by hydraulic methods.

2. The mining of sapphires from surface or open-cuts by methods employing hydraulicking is characterized by annually recurrent cessation of operations caused by freezing temperatures and water shortage.

3. Except for maintenance, repair and sales work, the mining of sapphires from surface or open-cuts by methods employing hydraulicking in the State of Montana ceases completely at regularly recurring times of the year for a period of approximately six months or more because due to climatic or other natural conditions the materials employed by the industry are not available in the form in which they are handled or processed.

Now, therefore, upon consideration of the facts stated in the said application, and upon further investigation, the Administrator hereby determines that a *prima facie* case has been shown for the granting of an exemption as an industry of a seasonal nature pursuant to section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526, as amended, of the regulations issued thereunder, to the mining of sapphires from surface or open-cuts by methods employing hydraulicking in the State of Montana.

In accordance with the procedure established by § 526.5 (b) (ii) of the regulations, the Administrator for fifteen days following the publication of this determination will receive objection to the granting of the exemption and request for hearing from any interested person. Upon receipt of objection and request for hearing the Administrator will set the application for the hearing before himself or an authorized representative.

If no objection and request for hearing is received within fifteen days, the Administrator will make a finding upon the *prima facie* case shown upon the application.

This application may be examined at Room 5307, United States Department of Labor Building, Washington, D. C.

Signed at Washington, D. C., this 12th day of January 1942.

THOMAS W. HOLLAND,
Administrator.

ORDER CONSOLIDATING PROCEEDINGS AND NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 28th day of January, A. D. 1942.

Applications having been duly filed with the Commission by the above-entitled parties for an order, pursuant to section 6 (b) of the Investment Company Act of 1940, exempting the applicants from the provisions of that Act; and

It appearing to the Commission that said applications present questions of law and fact common to each of said applications;

It is ordered, That the proceedings on the applications of the above named parties be and the same hereby are consolidated;

It is further ordered, That a hearing on these matters be held on February 9, 1942, at 10:00 o'clock in the forenoon of that day, at the Securities and Exchange Commission Building, 1778 Pennsylvania Avenue NW., Washington, D. C. On that day, the hearing room clerk in Room 1102 will advise the interested parties where such hearing will be held.

It is further ordered, That Charles S. Lobingier, Esquire, or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing. The officer so designated is hereby authorized to exercise all powers granted to the Commission under sections 41 and 42 (b) of the Act and to trial examiners under the Commission's Rules of Practice.

Notice of such hearing is hereby given to the applicants and to any other person whose participation in such proceedings may be in the public interest or for the protection of investors.

IN THE MATTER OF ARKANSAS-MISSOURI POWER CORPORATION

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 28th day of January, A. D. 1942.

Notice is hereby given that a supplemental declaration and/or application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above named party; and

Notice is further given that any interested person may, not later than February 16, 1942, at 4:30 P. M., E. S. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such supplemental declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D. C.

All interested persons are referred to said supplemental declaration or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed which are summarized below:

Arkansas-Missouri Power Corporation, a subsidiary of John E. Dwyer, Trustee of Inland Power & Light Corporation, a registered holding company, has negotiated with Harris Trust and Savings Bank (Chicago, Illinois) a reduction, effective January 23, 1942, from 3½% to 2¾% in the interest rate payable on $180,000 principal amount of unsecured 3½% Serial Notes due July 23, 1942–January 23, 1945. The consideration for said reduction in interest rate was the payment on or about January 23, 1942, of the $30,000 3½% Serial Note maturing July 23, 1945, which note has been paid.

Under date of July 18, 1940, the Commission permitted the original declaration herein, as amended, to become effective with respect to the issue and sale by the Company (among other securities) of $300,000 principal amount of the subject notes to the said Harris Trust and Savings Bank, Chicago, Illinois, said notes being payable in ten semi-annual installments of $30,000 each in the years 1941–1945. The Company has paid at maturity $90,000 principal amount of said notes, in addition to the $30,000 note maturing July 23, 1945, mentioned above.

By the Commission.

[File No. 70-489]

IN THE MATTER OF THE LACLEDE GAS LIGHT COMPANY

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 30th day of January, A. D. 1942.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by The Laclede Gas Light Company, a subsidiary of Ogden Corporation, which is a registered holding company. All interested persons are referred to said document, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

The Laclede Gas Light Company will offer to the holders of its outstanding and unpledged Refunding and Extension Mortgage 5% Gold Bonds, in the principal amount of $10,000,000, which were originally due April 1, 1934, but of which the major portion have been extended to April 1, 1942, to further extend said Bonds to April 1, 1947, interest on said Bonds to be payable after April 1, 1942 at a rate not in excess of 5% per annum.

The Laclede Gas Light Company also will offer to the holders of its outstanding Collateral Trust 6% notes, Series A and B, in the principal amount of $3,000,000 due August 1, 1942, to extend said Notes to August 1, 1947, interest on said Notes to be payable after August 1, 1942 at a rate not in excess of 6% per annum.

The declaration or application recites that the company considers section 6 (b) of said Act as being applicable to such transactions.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to said matters, that said declaration shall not become effective nor said application be granted except pursuant to further order of this Commission;

It is ordered, That a hearing on such matters under the applicable provisions of said Act and rules of the Commission thereunder be held on February 12, 1942 at 10:00 o'clock, A. M., at the office of the Securities and Exchange Commission, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing-room clerk in Room 1102 will advise as to the room where such hearing will be held. At such hearing, cause shall be shown why such declaration or application (or both) shall become effective or shall be granted. Notice is hereby given of said hearing to the above-named declarants and applicants and to all interested persons, said notice to be given to said declarants and applicants by registered mail and to all other persons by publication in the FEDERAL REGISTER.

It is further ordered, That James G. Ewell or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the scope of issues presented by said declaration or application (or both) otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

1. Whether the proposed extensions of said outstanding Bonds and Notes of The Laclede Gas Light Company are entitled to exemption from the provisions of section 6 (a) of said Act under the provisions of section 6 (b) of said Act.

2. Whether it is appropriate in the public interest or for the protection of investors or consumers to impose terms and conditions upon said transactions.

3. Whether all actions proposed to be taken comply with the requirements of said Act and the rules, regulations, and orders promulgated thereunder.

By the Commission.

The President

EXECUTIVE ORDER

EXEMPTING CERTAIN OFFICERS AND EMPLOYEES IN THE EXECUTIVE BRANCH OF THE GOVERNMENT FROM AUTOMATIC SEPARATION FROM THE SERVICE

WHEREAS the act approved January 24, 1942, entitled, "An Act to amend further the Civil Service Retirement Act, approved May 29, 1930, as amended" (Public Law 411, 77th Congress), extends the provisions of the Civil Service Retirement Act, as amended, to certain officers and employees of the Executive branch of the Government not theretofore subject to the provisions thereof; and

WHEREAS, in my judgment, the public interest requires that certain officers and employees of the Executive branch of the Government hereinafter described, be exempted from automatic separation from the service as provided below:

NOW, THEREFORE, by virtue of and pursuant to the authority vested in me by section 204 of the act of June 30, 1932, 47 Stat. 382, 404 (U.S.C., title 5, sec. 715a), it is hereby ordered as follows:

1. All officers and employees in the Executive branch of the Government appointed by the President are hereby exempted from automatic separation from the service for an indefinite period of time not extending beyond the duration of their appointment or term of service.

2. All officers and employees in the Executive branch of the Government not within the scope of section 1 hereof who have reached or shall reach prior to April 1, 1942, the retirement age prescribed for automatic separation from the service and are not now exempted therefrom by Executive order, are hereby exempted from automatic separation from the service until April 30, 1942: *Provided*, That the head of the department or agency concerned may, in his discretion, require the retirement of any such officer or employee at the end of any month prior to April 1942, except that the date of retirement shall be fixed so as to permit the allowance of any annual leave (accumulated or current) to which such officer or employee may be entitled.

PART 942—MILK IN NEW ORLEANS, LOUISIANA, MARKETING AREA [1]

AMENDMENT NO. 3 TO THE ORDER [2] REGULATING THE HANDLING OF MILK IN THE NEW ORLEANS, LOUISIANA, MARKETING AREA [3]

H. A. Wallace, Secretary of Agriculture of the United States of America, issued, effective October 1, 1939, Order No. 42 regulating the handling of milk in the New Orleans, Louisiana, marketing area, and Grover B. Hill, Acting Secretary of Agriculture, issued, effective May 1, 1940, amendment No. 1 to said order, and Claude R. Wickard, Secretary of Agriculture issued, effective April 1, 1941, amendment No. 2 to said order.

[1] See also Department of Agriculture, Surplus Marketing Administration, *infra*.

[2] 4 F.R. 4079, 5 F.R. 1592, 6 F.R. 1648.

[3] Amendment to §§ 942.1, 942.4, 942.5, and 942.8 issued under the authority contained in 48 Stat. 31, 670, 675 (1933); 49 Stat. 750 (1935); 50 Stat. 246 (1937), 7 U.S.C. and Supp. 601 et seq.

Grover B. Hill, Acting Secretary of Agriculture, tentatively approved on February 12, 1941, the marketing agreement, as amended, regulating the handling of milk in the New Orleans, Louisiana, marketing area.

There being reason to believe that the issuance of an amendment to said tentatively approved marketing agreement, as amended, and to said order, as amended, would tend to effectuate the declared policy of the act, notice was given of a hearing which was held in New Orleans, Louisiana, beginning on October 29, 1941, on a proposal to amend the tentatively approved marketing agreement, as amended, and the order, as amended, regulating the handling of milk in the New Orleans, Louisiana, marketing area, at which time and place all interested parties were afforded an opportunity to be heard upon such proposals.

After such hearing, handlers of more than fifty percent of the volume of milk covered by such order, as amended, which is marketed within the New Orleans, Louisiana, marketing area, refused or failed to sign a tentatively approved marketing agreement, as amended, regulating the handling of milk in the same manner as the said order as hereby amended.

The requirements of section 8c (9) of the act have been complied with.

It is found (§ 942.0) upon the evidence introduced at the above-mentioned public hearing, such findings being in addition to the findings made upon the evidence introduced at the original hearings on the order and on amendments Nos. 1 and 2 to the order, and being in addition to the other findings made prior to or at the time of the original issuance of the order and of amendments Nos. 1 and 2 to the order (which findings are hereby ratified and affirmed save only as such findings are in conflict with the findings hereinafter set forth):

§ 942.0 *Findings.* * * *

* * * * *

(m) That prices calculated to give milk produced for sale in the marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to Secs. 2 and 8e, 50 Stat. 246; 7 U.S.C. 602, 608e, are not reasonable in view of the available supplies of feeds, the price of feeds, and other economic conditions which affect the supply of and demand for such milk and that the minimum prices set forth in this amendment to said order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and that the fixing of such prices does not have for its purpose the maintenance of prices to producers above the levels which are declared in the act to be the policy of Congress to establish;

(n) That the order, as amended, and as hereby amended, regulates the handling of milk in the same manner as a marketing agreement, as amended, upon which a hearing has been held; and

(o) That the issuance of this amendment No. 3 to the order and all of its terms and conditions, tends to effectuate the declared policy of the act.

It is hereby ordered that the order, as amended, regulating the handling of milk in the New Orleans, Louisiana, marketing area, be and it hereby is amended as follows:

1. Delete § 942.1 (a) (7) and substitute therefore the following:

The term "handler" means any person, irrespective of whether such person is a producer, wherever located or operating, who engages in such handling of milk which is disposed of as milk, cream, or ice cream mix in the marketing area as is in the current of interstate commerce, or which directly burdens, obstructs, or affects interstate commerce in milk and its products. This definition shall not be deemed to include an association of producers whose only disposition of milk within the marketing area is to handlers.

2. Delete § 942.1 (a) (8).

3. Renumber § 942.1 (a) (9) and § 942.1 (a) (10) as § 942.1 (a) (8) and § 942.1 (a) (9), respectively.

4. Delete § 942.4 (c) and substitute therefor the following:

§ 942.4 *Classification of milk.*

* * * * * *

(c) *Interhandler and nonhandler transfers of milk.* Milk, including skim milk, disposed of by a handler to another handler or by a handler to a person who is not a handler, but who distributes milk or manufactures milk products, shall be classified by the market administrator as Class I milk: *Provided*, That if a different classification is agreed upon in written reports furnished to the market administrator by the selling handler and the purchaser, the milk, or skim milk, shall be classified according to such reports, subject to verification by the market administrator: *And provided further*, That in no event shall the amount so reported in any class be greater than the total amount of milk disposed of in such class by the purchaser.

Milk, including skim milk, received by a handler from a plant operated by an association of producers shall be ratably apportioned among the receiving handler's Class I, Class II, and Class III milk, after excluding the receipts of milk from handlers.

5. Delete § 942.5 (a) (1) and substitute therefor the following:

§ 942.5 *Minimum prices.* * * *

* * * * *

(1) Class I milk—$3.00 per hundredweight for the delivery periods of January, February, March, and April, 1942, and $2.40 per hundredweight for each delivery period thereafter: *Provided*, That with respect to Class I milk disposed of under a program approved by the Secretary for the sale or disposition of milk to low-income consumers, including persons on relief, the price shall be $2.53 per hundredweight for the delivery periods of January, February, March, and April, 1942, and $1.93 per hundredweight for each delivery period thereafter.

6. Delete § 942.5 (a) (2) and substitute therefor the following:

(2) Class II milk—$2.33 per hundredweight for the delivery periods of January, February, March, and April, 1942, and $1.85 per hundredweight for each delivery period thereafter.

7. Delete § 942.5 (b) (2) and substitute therefor the following:

(2) The minimum price of milk received from producers and new producers at a plant in the marketing area and disposed of as Class I milk shall be the minimum price for Class I milk provided in paragraph (a) of this section, plus 28 cents.

8. Delete § 942.5 (b) (3) and substitute therefor the following:

(3) The minimum price of milk received from producers and new producers at a plant in the marketing area and disposed of as Class II milk shall be the minimum price for Class II milk provided in paragraph (a) of this section, plus 20 cents.

9. Delete § 942.5 (c).

10. Delete from § 942.8 (a) the figure "$1.85" and substitute therefor the figure "$2.00."

11. Delete from § 942.8 (a) the figure "$0.75" and substitute therefor the figure "$1.00."

12. Delete § 942.8 (b) (3) and substitute therefor the following:

(3) To an association of producers, with respect to milk which it causes to be delivered to a handler from producers and new producers who have signed membership agreements or other contracts with the association, which agreements or contracts expressly authorize the association to collect the amount due such producers and new producers for their milk, and pursuant to which authorization the association is collecting payment for milk on behalf of its producers and new producers, or expressly assumes such responsibility by some authorized act of the board of directors, or of the membership in accordance with its bylaws, the total amount of money which such handler is obligated to pay for milk received from such producers and new producers, calculated as follows: (a) multiply the volume of milk received from such producers by not less than the uniform price computed pursuant to § 942.7 (a), (b) multiply the volume of milk received from such new producers by the Class III price, and (c) add together the resulting amounts.

To an association of producers, with respect to milk received at a plant operated by such association and subsequently transferred to the plant of such handler, a total amount of money calculated as follows: (a) multiply the amount of milk in each class so received, as computed pursuant to § 942.4 (c) and (d) by the respective class prices for milk, and add together the resulting amounts.

13. Delete § 942.6 (f).

It is hereby determined that an emergency exists which requires a shorter period of notice than that specified in the General Regulations, Series A, No. 1, as amended, of the Agricultural Adjustment Administration, United States Department of Agriculture, and that the notice herewith given is reasonable under the circumstances.

Issued at Washington, D. C., this 30th day of January 1942 to become effective on and after this 1st day of February 1942. Witness my hand and the official seal of the Department of Agriculture.

[SEAL] GROVER B. HILL,

15.13 Censorship of articles for publication.
15.14 Photographic censorship.
15.15 Signal and mail service.
15.16 Relief from appointment.
15.17 Discipline.
15.18 Visiting correspondent.

§ 15.1 *General.* The Army recognizes that correspondents perform an undoubted public function in the dissemination of news concerning the operations of the Army in time of war. Correspondents accompanying troops in the field occupy a dual and delicate position, being under the necessity of truthfully disclosing to the people the facts concerning the operations of the Army, and at the same time of refraining from disclosing those things which, though true, would be disastrous to us if known to the enemy. It is apparent that this important function can only be properly performed under reasonable rules and regulations.* [Par. 1]

* §§ 15.1 to 15.18, inclusive, issued under the authority contained in R.S. 161; sec. 1, 41 Stat. 787; 5 U.S.C. 22, 10 U.S.C. 1473.

§ 15.2 *Definition.* The term "correspondent" as used in this manual includes journalists, feature writers, radio commentators, motion picture photographers, and still picture photographers accredited by the War Department to a theater of operations or a base command within or without the territorial limits of the United States in time of war. Correspondents are classed as "accredited" and "visiting." The regulations in this part pertain principally to the former. See § 15.18 for instructions concerning visiting correspondents.* [Par. 2]

§ 15.3 *Status of correspondents.* (a) Correspondents in time of war accompanying the armies of the United States, both within and without the territorial jurisdiction of the United States, although not in the military service, are subject to military law (par. (d), 2nd Article of War) and are under the control of the commander of the Army force which they accompany.

[1] §§ 15.1 to 15.18 are added. The regulations contained in these sections are also contained in Basic Field Manual 30-26, W. D., January 21, 1942, the particular paragraphs appearing in brackets at the end of sections.

(b) They are not entitled to the benefits provided by laws enacted exclusively for persons in the military service and they are subject to the provisions of the Selective Training and Service Act of 1940, and regulations prescribed thereunder.

(c) In the event of capture by enemy forces they are entitled to be treated as prisoners of war, provided they are in possession of a certificate from the military authorities of the armed forces which they are accompanying. (Geneva Conference, July 27, 1929, Title VII, Art. 81)

(d) Correspondents will not exercise command, be placed in a position of authority over military personnel, nor will they be armed. They are under the same restrictions as other military personnel as regards the settlement of accounts, compliance with standing orders, and the conducting of themselves with dignity and decorum.

(e) A correspondent becomes subject to military law from the time at which he commences to accompany troops or personnel who are on active service. This will generally be upon his arrival at the field force to which he is accredited, but may commence earlier if he travels to the field force via Government transportation.* [Par. 3]

§ 15.4 *Privileges.* (a) Correspondents will be given the same privileges as commissioned officers in the matter of accommodations, transportation, and messing facilities. All courtesies extended them in such matters must be without expense to the Government.

(b) Every reasonable facility and all possible assistance will be given correspondents to permit them to perform efficiently and intelligently their work of keeping the public informed of the activities of our forces within the limits dictated by military necessities.

(c) So far as the exigencies of the service permit, correspondents will receive, without charge, the same medical treatment as that accorded officers.

(d) Correspondents are free to converse with troops whenever they wish to do so, subject to the approval of the officer present with the troops in question. They are requested and expected, however, to refrain from conversing with troops at work or on guard, or from discussing subjects or soliciting answers to matters which are clearly secret.* [Par. 4]

§ 15.5 *Application.* (a) Application to accompany U. S. Army forces in the field will be submitted by the individual or by the agency concerned to the Director, War Department Bureau of Public Relations, Washington, D. C.

(b) The application will state the name and address of the individual; qualifications and past experience in his field of work, including names of former agencies for which he worked; citizenship and place and date of birth; general health condition; the particular force it is desired he accompany; and any other pertinent information which will assist in the consideration of his application.* [Par. 5]

§ 15.6 *Limit on number.* (a) The number of correspondents which will be accredited to a particular field force will be within the quota set by the War Department and based upon the recommendation of the force commander as determined by the size of the force, the distance from the usual media of news dissemination, and the availability of accommodations within the command or adjacent communities.

(b) Representation with any one field force will be limited to one correspondent each from press associations, publications, radio, news, and picture syndicates; sole exception to this ruling will be the accrediting of a two man crew in the case of news reels. The War Department objective being the widest possible distribution of information to the American people, preferences in the consideration of applications will be given to agencies representing the largest possible news or picture dissemination.

(c) In view of the importance of the work of correspondents in the field, and the necessary limitations as to the numbers or correspondents accredited to the field forces in any one theater of operations, the War Department will accredit only experienced newspaper men; all other conditions being equal, preference will be given to newspaper men with past military experience or past experience in the coverage of large maneuvers.

(d) No officer, enlisted man, or civilian employee of the military forces serving in the theater of operations will be permitted to be a correspondent for any publication without the written permission of the theater or base commander. Correspondents will not use military titles in signing dispatches.* [Par. 6]

§ 15.7 *Agreement.* Before final acceptance a correspondent will be required to sign an agreement, in triplicate, as follows:

WAR DEPARTMENT

AGREEMENT

In connection with authority granted by the War Department to me, the undersigned, to accompany _____ for
(Name of field force)
the purpose of securing news or story material, still or motion pictures, or to engage in radio broadcasting, I subscribe to the following conditions:

1. That, as a civilian accredited to the Army of the United States within or without the territorial limits of the United States, I am subject to the Articles of War and all regulations for the Government of the Army issued pursuant to law.

2. That, I will govern my movements and actions in accordance with the instructions of the War Department and the commanding officer of the Army unit to which I am accredited, which includes the submitting for the purposes of censorship all statements, written material, and all photography intended for publication or release either while with the Army or after my return, if the interviews, written matter, or photography are based on my observations made during the period or pertain to the places visited under this authority.

3. That, I waive all claims against the United States for losses, damages, or injuries which may be suffered as a result of this authority.

4. That, this authority is for the period _____ to _____ and subject to revocation at any time.

(Grade and organization)

This form will be executed in triplicate.* [Par. 7]

§ 15.8 *Credentials.* (a) When an application for appointment as a correspondent is approved, the applicant will be furnished credentials and a Correspondent's Identification Card by the director of the War Department Bureau of Public Relations. The card identifies him as an accredited correspondent.

(b) Correspondents will produce their identification cards whenever called for by any officer, warrant officer, or enlisted man in the execution of his duty. Failure to do so will subject the correspondent to arrest or detention.

(c) In addition to the War Department credentials, the particular field force commander may issue a pass or credentials with regulations governing their use.* [Par. 8]

§ 15.9 *Uniform.* (a) The proper uniform for accredited correspondents is that of an officer, but less all insignia of grade or arm or service, and without black and gold piping on field caps, officers' hat cords, or officers' insignia on the garrison cap if worn.

(b) The uniform includes the wearing of the official brassard on the left arm. The brassard is a green cloth band, 4 inches wide, with the appropriate word, "Correspondent," "Photographer," "Radio Commentator," "Correspondent Chauffeur," "Photographer Chauffeur," "Radio News Chauffeur," "Correspondent Messenger," "Photographer Messenger," or "Radio News Messenger," in white block letters 1¼ inches in height. This will be furnished by the War Department Bureau of Public Relations at the time of appointment.

(c) Articles of special clothing and equipment which are issued to officers and enlisted men in cold climates may be issued to correspondents. These articles must be turned in prior to departure from the theater of operations or base command.

(d) Accredited correspondents will not wear civilian clothing while serving with the field force.* [Par. 9]

§ 15.10 *Transportation.* (a) Government transportation may be given accredited correspondents with the accommodations of an officer whenever such transportation—water, troop train, air, or automobile—is available and essential military personnel is not displaced or inconvenienced.

(b) The baggage of correspondents will be moved with that of the headquarters to which attached. Its weight will be within the limits prescribed by the commander concerned.* [Par. 10]

§ 15.11 *Reporting upon arrival.* (a) Upon arrival in the theater of operations or base command to which accredited, correspondents will report to the intelligence officer of the command, presenting their credentials. It is the intelligence officer, or his assistant in charge of public relations, who will exercise control of correspondents in the name of the field force commander, and it is to him correspondents should turn for assistance and guidance, or to register complaints if believed justified.

(b) All correspondents are officially attached to the headquarters of the field force commander. They may, however, at their own request be placed on duty with a subordinate headquarters nearer to the scene of action. All changes of their base of operations will be done only upon the approval of the field force commander and contingent upon the availability of accommodations at the unit they wish to accompany.* [Par. 11]

§ 15.12 *Filing of material.* (a) All dispatches will be delivered, in duplicate, to the intelligence officer, or his assistant, for censorship prior to filing or mailing. In the process of censorship no changes will be made by the censor in dispatches except through deletion. Correspondents, unless the occasion is unusual, will be permitted to see their dispatches after being censored in the event they desire to make a revision, or to note the objectionable portions for future avoidance, or to recheck on wordage for cable charges.

(b) Copy must be submitted for censorship on all broadcast interviews or news broadcasts.* [Par. 12]

§ 15.13 *Censorship of articles for publication*—(a) *General.* In general, articles may be released for publication to the public provided—

(1) They are accurate in statement and implication.

(2) They do not supply military information to the enemy.

(3) They will not injure the morale of our forces, the people at home, or our allies.

(4) They will not embarrass the United States, its allies, or neutral countries.

(b) *Time element.* Intelligence officers charged with the censorship of articles for publication will take into consideration the time interval between the occurrence of events reported and the publication of the article concerning these events. If events are reported by cable, telegraph, or radio very shortly after their occurrence, the closest supervision will be necessary. If, on the other hand, the articles are forwarded by mail for printing in magazines or books, the time interval may be such as to render the information contained in the articles of little value to the enemy. Censorship regulations will be applied after consideration of this time element.

(c) *Specific rules governing censorship of articles for publication.* (1) The identity of organizations in the combat zone and in the communications zone will be announced only in official communiqués. When announced, they will

never be associated with the name of a place.

(2) The name of an individual may be used whenever an article is materially helped by its use.

(3) Officers will not be quoted directly or indirectly nor anonymously on military matters except as specifically authorized by the theater commander.

(4) Within the combat zone no sector will be said to have any American troops in it until the enemy has established this as a fact.

(5) No town or village in the combat zone will be identified as holding American or allied forces except as an essential part of a story of an engagement and after the fact.

(6) No base port or communication center or other point of a line of communication will be mentioned by name or description as having anything to do with the activities of our forces.

(7) Ship or rail movements, real or possible, will not be discussed, except as authorized by official communiqués.

(8) Plans of the Army, real or possible, will not be discussed.

(9) Numbers of troops as a total or as classes will not be discussed except as authorized by official communiqués.

(10) The effect of enemy fire or bombardment will not be discussed except as authorized in official communiqués.

(11) Articles for publication in the theater of operations or in allied countries or in neutral countries contiguous to the theater will be scrutinized carefully to make sure they do not hold possibilities of danger which the same stories printed in the United States would not hold. This applies not only to military information, which would thus be in the hands of the enemy within the day of writing, but also to an emphasis on small exploits which it may be extremely desirable to print in the United States but quite undesirable in the theater.

(12) Exaggerations of our activities accomplished or contemplated are prohibited.

(13) References to numbers of our own casualties will be based on the statements in official communiques. Individual dead or wounded may be mentioned by name only when it is reasonably certain that the facts are correct and that some definite good end, such as offering examples of heroism, will be served by printing them. Mention by name will be allowed not earlier than 24 hours after the official cablegram announcement of such individual casualties has been sent to the War Department.* [Par. 13]

§ 15.14 *Photographic censorship*—(a) *Still pictures.* (1) All photographic negatives taken by official or accredited civilian photographers may be processed in the Signal Corps field laboratory or in such other laboratory installations as the theater commander may designate. Photographs will then be censored by a representative of G–2.

(2) No negatives or prints will be released except by authority of the theater commander. Such released prints or negatives will bear the censorship stamp and will be accompanied by suitable captions. A record of all such releases will be kept.

(3) Negatives and prints of accredited commercial correspondents not released by the censor will become the property of the United States Government, and will be forwarded through channels to the Military Intelligence Division, War Department General Staff, Washington, D. C., accompanied by full information sheet as to captions and the agency which took the photographs.

(4) Films or prints which cannot be processed locally, such as color film, will be delivered to a representative of G–2 marked, "Undeveloped film. Do not open." This will be forwarded by the fastest practicable means to the Military Intelligence Division, War Department General Staff, Washington, D. C.

(5) Regardless of the number of accredited correspondents any one agency has in the field, photographs from theaters of operation by newspaper photographers will be "rotoed." Photographs from theaters of operation of weekly magazine photographers will be rotoed.

(b) *Motion pictures.* (1) All exposed and undeveloped negative together with the dope sheets of accredited cameramen will be turned over to a representative of G–2 marked, "Unexposed film. Do not open."

(2) G–2 will forward this negative by the fastest practicable means to the Military Intelligence Division, War Department General Staff, Washington, D. C.

(3) In certain tropical climates where motion picture film deteriorates rapidly, it may be processed under the supervision of G–2 and the developed negative forwarded as directed in (2) above.

(4) By agreement between the War Department and the newsreel companies, all newsreel film from the theaters of operation will be rotoed by the Bureau of Public Relations, War Department, Washington, D. C.

(c) Writers accredited as correspondents will not be permitted to take photographs. Photographers accredited as correspondents will not be permitted to file stories.

(d) For the privileges of "exclusive" photographs, see § 15.18.

§ 15.15 *Signal and mail service.* (a) The signal system will be open to correspondents' dispatches, after censoring, when such use does not interfere with military needs. Dispatches will be sent in the order of filing. The intelligence officer under whom the correspondent serves is authorized to limit the number of words or otherwise to make an equitable adjustment of the use of the signal system among the correspondents when the system is inadequate to carry the complete text of all dispatches submitted. If commercial cable or telegraph facilities are available, credit cards may be useful.

(b) All mail, including personal letters, will be through the established censorship system. The use of blue envelopes" for the censoring of personal mail by the base censor is authorized, but these may not be used to mail photographs or dispatches for publication to avoid censoring by the immediate headquarters under which the correspondent serves.* [Par. 15]

§ 15.16 *Relief from appointment.* (a) An accredited correspondent will not leave the theater of operations or base command without the written permission of the commander.

(b) If serving with troops beyond the territorial limits of the United States, relief does not become effective until arrival in the United States, if the journey is made by Government transportation.

(c) Upon termination of appointment as a correspondent, either on the application of the individual or his employer, by the request of the commander concerned, or by the expiration of the period of the appointment, the individual will surrender his credentials to the War Department Bureau of Public Relations and will cease wearing the official uniform of a correspondent.* [Par. 16]

§ 15.17 *Discipline.* (a) A correspondent will be suspended from all privileges for the distortion of his dispatches *in the office of the publication which he represents*, and also for the use of words or expressions conveying a hidden meaning which would tend to mislead or deceive the censor and cause the approval by him of otherwise objectionable dispatches.

(b) In the presence of the enemy he will conform to the actions of the troops, and will not jeopardize the safety of the command or compromise the scheme of maneuver in progress.

(c) He may be subject to disciplinary action because of an intentional violation of these and other regulations, either in letter or in spirit, and in extreme cases of offense, where investigation proves the circumstances warrant, the correspondent may be placed in arrest to await deportation or trial by a court martial.* [Par. 17]

§ 15.18. *Visiting correspondent.* (a) A visiting correspondent, as differentiated from an accredited correspondent, is one who has permission from the Commander in Chief or the Secretary of War to visit the field force for the purpose of securing information or photographic material for publication *after* return from the visit.

(b) Visiting correspondents will be limited to a specific itinerary as outlined in their letter of authorization, and will be accompanied ordinarily by a conducting officer. When not so accompanied, they will carry a letter from the intelligence officer of the field force. They are treated more in the nature of visitors than correspondents. They will comply with the regulations governing accredited correspondents, with the following modifications:

(1) They will not be required to wear the prescribed uniform but will wear the proper brassard.

(2) As a measure of protection to the accredited correspondents serving with the field forces, visiting correspondents will not be permitted to mail or file dispatches or photographs intended for publication or release *during* the period of their visit. So-called "spot" news will be reserved for the accredited correspondents.

(3) Visiting photographers will have exclusive right to their photographs and may not be required to "roto."* [Par. 18]

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

PART 249—FORMS, SECURITIES AND EXCHANGE ACT OF 1934

AMENDMENTS TO AND RESCISSION OF CERTAIN FORMS FOR FILING ANNUAL REPORTS UNDER THE ACT

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Securities Exchange Act of 1934, particularly sections 13, 15 (d) and 23 (a) thereof, (Sec. 13, 48 Stat. 894; 15 U.S.C. 78m; sec. 15 (d), 48 Stat. 895; sec. 3, 49 Stat. 1377; 15 U.S.C. 78c: sec. 23, 48 Stat. 901; sec. 8, 49 Stat. 1379; 15 U.S.C. 78w) and deeming such action necessary and appropriate in the public interest and for the protection of investors, and necessary for the execution of the functions vested in it by the said Act, hereby takes the following action:

I. *Amendment No. 1 to Form 15–K*

The rule as to the use of Form 15–K for Incorporated Investment Companies, contained in the Instruction Book for Form 15–K, is amended to read as follows:

This form is to be used for annual reports of corporations engaged either directly or through subsidiaries primarily in the business of investing and reinvesting or trading in securities for the purpose of revenue and for profit, and not in general for the purpose or with the effect of exercising control, except that this form shall not be used by any corporation for which Form N–30A–1 is prescribed.

II. *Rescission of Form 17–K*

Form 17–K and the instruction book therefor are hereby rescinded.

III. *Amendment No. 1 to Form 2–MD*

The rule as to the use of Form 2–MD for investment trusts having securities registered on Form C–1, contained in the Instruction Book for Form 2–MD, is amended to read as follows:

This form is to be used for annual reports pursuant to section 15 (d) of the Securities Exchange Act of 1934 (Sec. 15, 48 Stat. 895; sec. 3, 49 Stat. 1377; 15 U.S.C. 78o) relating to securities of unincorporated investment trusts of the fixed or restricted management type having a depositor or sponsor but not

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 322.7 (*Alphabetical list of code members*) is amended by adding thereto Supplement R–I, § 322.9 (*Special prices*—(c) *Railroad fuel*) is amended by adding thereto Supplement R–II, § 322.8 (*General prices*) is amended by adding thereto Supplement R–III and § 322.23 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

The original petitioner proposed a minimum price of 230 cents per net ton for the coals of Mine Index No. 2304 in Size Group 4 for truck shipments. Since it appears that a minimum price of 235 in Size Group 4 for comparable and analogous coals, and since the petition does not allege any facts in support of the requested price differential for the

Size Group 4 coals of the said mine, a minimum price of 235 cents per net ton has been established by the Order herein for the coals of the said mine.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: January 21, 1942.

DAN H. WHEELER,
[SEAL] *Acting Director.*

having a board of directors or persons performing similar functions, except that this form shall not be used by any trust for which Form N-30A-1 is prescribed.

Effective January 29, 1942.

By the Commission.

CHAPTER III—BITUMINOUS COAL DIVISION

[Docket No. A–1257]

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT NO. 2

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 2 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 2

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices and for changes in rail shipping points and freight origin group numbers for the coals of certain mines in District No. 2; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

TEMPORARY AND CONDITIONALLY FINAL EFFECTIVE MINIMUM PRICES FOR DISTRICT NO. 2

Note: The material contained in these supplements is to be read in the light of the classifications, prices, instructions, exceptions and other provisions contained in Part 322, Minimum Price Schedule for District No. 2 and supplements thereto.

[Docket No. A–1232]

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT NO. 8

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 8 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES AND FOR CHANGES IN RAIL SHIPPING POINTS FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 8

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices and for changes in rail shipping points and freight origin group numbers for the coals of certain mines in District No. 8; and

It appearing that a reasonabe showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 328.11 (*Alphabetical list of code members*) is amended by adding thereto Supplement R–I, § 328.21 (*Alphabetical list of code members*) is amended by adding thereto Supplement R–II, § 328.34 (*General prices for high volatile coals in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T–I, and § 328.42 (*General prices for low volatile coals*) is amended by adding thereto Supplement T–II, which supplements are hereinafter set forth and hereby made a part hereof; and, commencing forthwith, the shipping points and freight origin group numbers appearing in the said Supplement R–I for Mine Index Nos. 2329 and 3382 are effective in place of the shipping points and freight origin group numbers heretofore established for these mines.

The original petitioner proposed a minimum price of $1.60 per net ton for the coals of the Wood & Coleman Mine, Mine Index No. 5135, of Wood & Coleman Coal Co., in District No. 8, in Size Group No. 8 for truck shipments. It appears, however, that a minimum price of $1.65 per net ton has heretofore been established for comparable and analogous coals in Size Group No. 8 for truck shipments. Since the petition does not allege any facts in support of the requested price differential, a minimum price of $1.65 per net ton is established herein for the coals of the said mine in Size Group No. 8 for truck shipments.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: January 20, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

TEMPORARY AND CONDITIONALLY FINAL EFFECTIVE MINIMUM PRICES FOR DISTRICT No. 8

NOTE: The material contained in these supplements is to be read in the light of the classifi cations, prices, instructions, exceptions and other provisions contained in Part 328, Minimum Price Schedule for District No. 8 and supplements thereto.

PART 330—MINIMUM PRICE SCHEDULE, DISTRICT NO. 10

ORDER CONCERNING FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD 10 FOR THE ESTABLISHMENT OF MINIMUM PRICES FOR THE COALS OF THE QUALITY MINE (MINE INDEX NO. 1468) OF RAY MORGAN (F. C. MORGAN COAL COMPANY), A CODE MEMBER IN DISTRICT 10, FOR ALL SHIPMENTS EXCEPT TRUCK

This proceeding having been instituted upon a petition filed with the Bituminous Coal Division by District Board 10 on April 18, 1941 pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, praying for price classifications and minimum prices for all shipments except truck, for the coals of the Quality Mine (Mine Index No. 1468) of Ray Morgan, doing business as F. C. Morgan Coal Company;

Temporary relief having been granted by an Order of October 30, 1941, 6 F.R. 5860;

A hearing having been held, pursuant to an Order of the Director, and after due notice to all interested persons on December 10, 1941, before W. A. Shipman, a duly designated Examiner of the Division, at a hearing room thereof, Washington, D. C., at which District Board 10 appeared, and all persons were afforded an opportunity to be present and participate fully in the hearing;

The Examiner's Report having been waived and the matter having been thereupon submitted to the undersigned; the undersigned having made Findings of Fact, Conclusions of Law and rendered an Opinion in this matter, which are filed herewith and in which it was concluded that the requested relief be granted;

Now, therefore, it is ordered, That, § 330.2 (*Mine index numbers*) is amended by adding thereto Supplement R–I, § 330.10 (*Special prices*—(a) *Railroad locomotive fuel prices*) is amended by adding thereto Supplement R–II, and § 330.25 amended by adding thereto Supplement (*General prices in cents per net ton for shipment into all market areas*) is T, which supplements are hereinafter set forth and hereby made a part hereof.

Dated: January 17, 1942.

[SEAL] DAN H. WHEELER, *Acting Director.*

PART 330—MINIMUM PRICE SCHEDULE, DISTRICT NO. 10

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 10 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 10 FOR TRUCK SHIPMENT

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 10 for truck shipment; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith § 330.25 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplement is hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: January 15, 1942.

PART 332—MINIMUM PRICE SCHEDULE, DISTRICT NO. 12

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 12 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 12

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 12.

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith § 332.24 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplement is hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposiiton to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

No relief is granted herein for the coals of Mine Index Nos. 586, 41 and 625 for the reason that price classifications and minimum prices applicable to the coals of these mines have already been established under previous owners: Mine Index No. 586 of Louis Lennie (Lennie Coal Company), previous owner Dunsmoor Coal Company (Charles Dunsmoor); Mine Index No. 41 of the Wholesale Coal Company (John O. Hall), previous owner Mike Onder; Mine Index No. 625 of the W. M. P. Coal Company (Charles Blazevich), previous owner W. M. P. Coal Company (Thomas McLeod).

Part 335—Minimum Price Schedule, District No. 15

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 15 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 15

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 15; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith § 335.5 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 335.24 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

No relief is granted herein for the coals of the Morris Mine, operated by Morris Bros. (J. R. Morris), for the reason that the coals of that mine were classified and priced for truck shipment by the Order dated January 28, 1941 in Docket No. A-548, under the name of Fernetti Mine (Mine Index No. 1320) of code member Aldon Fernetti.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: January 16, 1942.

The following price classification and minimum prices shall be inserted in Price Schedule No. 1 for District No. 23:

§ 343.4 *Code member price index*—Supplement R-I. Insert the following listing in proper alphabetical order:

Producer	Mine	Mine index No.	County	Shipping point	Subdistrict price group	Prices: Railroad	Prices: FOG No.	Prices: Rail	Prices: Truck
Consolidated Coal Mines, Inc.	Cedar Mountain #2.	160	King	Cedar Mountain.	F	NP	40	§ 343.5	§ 343.21

[Docket No. A-1216]

PART 343—MINIMUM PRICE SCHEDULE, DISTRICT NO. 23

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 23 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF THE CEDAR MOUNTAIN #2 MINE (MINE INDEX NO. 160) IN DISTRICT NO. 23

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of Cedar Mountain #2 Mine (Mine Index No. 160), in District No. 23; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith § 343.4 (*Code member price index*) is amended by adding thereto Supplement R-I, § 343.5 (*General prices; minimum prices for shipment via rail transportation*) is amended by adding thereto Supplement R-II, and § 343.21 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

The original petition identifies the mine of the Consolidated Coal Mines, Inc., for the coals of which mine price classifications and minimum prices are requested, as the Cedar Mountain Mine, Seam "A." Since this code number also operates the Cedar Mountain Mine (Mine Index No. 8) in District No. 23, it is deemed advisable, for the purpose of identification, to designate the new mine as the Cedar Mountain No. 2 Mine rather than as the Cedar Mountain Mine, Seam "A." Accordingly, the price classifications and minimum prices established by this Order are set forth in the attached

§ 343.5 *General prices; minimum prices for shipment via rail transportation*—Supplement R-II. The Cedar Mountain #2 mine of Consolidated Coal Mines, Inc., shall take the minimum f. o. b. mine prices in cents per net ton for shipments by rail transportation into market areas shown under Subdistrict "F" for Cedar Mountain Mines Company in Price Schedule No. 1 for District No. 23, as amended.

§ 343.21 *General prices*—Supplement T. Insert the following code member name, mine name and county under Subdistrict "F", and the following prices:

Code member mine name	County	Size groups: 2	3	4	5	7	8	9	10	11	12	13	14	15	16	22	24

PART 604—CIVILIAN EMPLOYEES

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 604[2] in the following respects:

1. By changing the title of § 604.2 in the table of contents and at the heading of said section to read: "Certain employees exempt from civil service rules."

2. By deleting § 604.31 and substituting therefor the following:

§ 604.31 *Appointment and tenure.* (a) Each board of appeal may have one clerical assistant employed on either a full-time or part-time basis and may have one or more additional clerical or other assistants.

(b) No clerical assistant shall be employed in a classification grade higher than CAF-4, the entrance salary for which is $1,800 per annum, and no additional clerical assistants shall be employed in a classification grade higher than CAF-2, the entrance salary rate for which is $1,440 per annum, except upon specific authority of the Director of Selective Service pursuant to the recommendation of the State Director of Selective Service. These classification grades are maximum only, and shall be used only when the volume of work and the degree of responsibility assigned justifies such grades. Clerical or other assistants required for temporary, intermittent, or part-time service shall be employed under the provisions of § 604.2.

(c) Each board of appeal shall determine, by a majority vote, the individual or individuals to be employed, and the chairman of the board of appeal shall act as the appointing officer. Each board of appeal may designate, by a majority vote, one of the persons employed as the clerk of the board of appeal.

3. By deleting paragraphs (a), (d), and (e) of § 604.75 and substituting therefor the following:

§ 604.75 *Forms to be completed for each person selected for appointment.* (a) Before entering upon his duties, each person selected for appointment to a position as a civilian employee in the Selective Service System shall execute the following forms:

(1) The Oath of Office portion of Form 21. (The Waiver of Pay or Compensation portion of Form 21 shall not be executed.)

(2) Personal Affidavit (Standard Form No. 47).

PART 615—ASSIGNMENT OF ORDER NUMBERS

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 615,[2] in the following respects:

1. By inserting "(Form 1)" after the words "white Registration Card" in the first sentence of § 615.21 (5).

2. By deleting § 615.31 (e) and substituting therefor the following:

§ 615.31 *Procedure.*

• • • • •

(e) Order numbers must be assigned in sequence. No order number shall be skipped. Serial numbers on the Third National Master List (Form 174) which are not held by any registrant are simply crossed off and ignored. It is suggested that in assigning order numbers, the local board enter the order numbers opposite the applicable serial numbers on the applicable national master list. 54 Stat. 885; 50 U.S.C., Sup. 301–318, inclusive; E.O. PART 623—CLASSIFICATION PROCEDURE

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 623,[1] § 623.21, by deleting paragraph (b) thereof and substituting therefor the following:

§ 623.21 *Consideration of classes not requiring physical examination.*

• • • • •

(b) If the registrant is not classified in Class I–C, the local board shall next determine whether, under the provisions of § 622.61, the registrant is morally unfit for any military service, and if it finds that he is, he shall be classified in Class IV–F. No consideration will be given at this time to whether the registrant should be classified in Class IV–F by reason of being physically or mentally unfit. This determination will be made only after receiving the Report of Physical Examination and Induction (Form 221) from the local board examining physician. (*See* § 623.51.) * * * * *

(e) *Maximum prices for exports of iron or steel products.* (1) The maximum prices which may be charged by any person for iron or steel products sold for export to any place outside the territorial limits of the United States, shall be the maximum prices, as established by this Schedule (§§ 1306.151 to 1306.161 inclusive) and Price Schedule No. 6, f. o. b. inland carrier or warehouse at port of exportation: *Provided,* (i) That if such a sale is made by an export agent, as defined hereinabove, an amount may be added not in excess of 5% of the maximum domestic price as established in this Schedule.

(ii) That if such a sale is made by an export merchant, as defined hereinabove, an amount may be added not in excess of 10% of the maximum domestic price as established in this Schedule.

(iii) Other export merchants who customarily incur additional foreign costs or expenses in excess of those borne by the export merchant, as defined hereinabove, may apply to the Office of Price Administration for exception, stating reasons why an additional amount should be allowed. The application shall be in the form of an application for relief.

(2) The maximum export price as set forth above in subdivision (ii) shall include and shall not be increased by reason

PART 1306—IRON AND STEEL

AMENDMENT NO. 3 TO PRICE SCHEDULE NO. 43 [1]—USED STEEL BARRELS OR DRUMS

Two new §§ 1306.211 and 1306.212 are hereby added as set forth below:

§ 1306.211 *Appendix B — exceptions.* The following persons have been granted an exception under § 1306.207 of this Schedule permitting them to make a charge in addition to the maximum prices in Appendix A for drums which are furnished by such persons with a new Heresite lining:

Acme Barrel Co., 2300 W. Thirteenth St., Chicago, Illinois, by letter dated Dec. 16, 1941.

Newark Steel Drum Co., 1200 W. Blanche St., Linden, N. J., by letter dated December 16, 1941.

All action taken in reliance upon the terms of any exception shall be at the risk of the person acting until and unless official notification has been received by such person pursuant to such application. Persons interested may secure the terms of an exception on application to the Office of Price Administration.

§ 1306.212 *Geographical application.* The provisions of this Schedule shall apply only to sales, offers to sell or deliveries of drums moving within, into or out of one of the 48 states of the United States or the District of Columbia. (Executive Orders Nos. 8734, 8875, 6 F.R. 1917, 4483)

This amendment No. 3 shall become effective February 7, 1942.

Issued this 2nd day of February 1942.

PART 1306—IRON AND STEEL

AMENDMENT NO. 1 [2] TO PRICE SCHEDULE NO. 46 [3]—RELAYING RAILS

Section 1306.254 is hereby revoked, §§ 1306.251, 1306.255, 1306.258 and 1306.260 are hereby amended and one new § 1306.261 is added as set forth below:

§ 1306.251 *Maximum prices for relaying rail.* On and after December 2, 1941, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer relaying rail, and no person shall buy, offer to buy, or accept delivery of relaying rail, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1306.260.

§ 1306.255 *Records and reports.* (a) Every person making purchases or sales of relaying rails after January 1, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of (1) each such purchase or sale, showing the date thereof, the name and address of the buyer or the seller, the shipping point price paid or received, transportation charges, if any, and the quantity and weight purchased or sold, and (2) the quantity of relaying rail (i) on hand, and (ii) on order, as of the close of each calendar month.

Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.

(b) *Purchases of relaying rail in excess of 100 gross tons.* Every person other than the consumer, making a purchase of used rail, in quantities in excess of 100 gross tons, not later than 15 days following the purchase shall file with the Office of Price Administration either (1) a certificate from an established, independent inspection bureau, or (2) an affidavit by such purchaser, stating the estimated division of such rail among relaying, rerolling, and scrap rails, as well as such further documents as may be required by the Office of Price Administration: *Provided*, That the rails so purchased shall be subject to any inspection and classification as to quality which may be made by the Office of Price Administration.

(c) *Sales of relaying rail of 25 gross tons or more.* Every seller making a sale to a consumer of relaying rails in quantities of 25 tons or more, shall file with the Office of Price Administration, not later than 15 days after such sale an affidavit from the consumer stating that such rails are to be used for relaying purposes, the quantity, weight per yard, source, shipping point price and delivered price of the shipment.

§ 1306.258 *Definitions.* When used in this Schedule, the term:

(a) "Person" includes an individual, partnership, association, corporation, or other business entity, as well as executors, trustees in bankruptcy, receivers, and other court-appointed officers;

(b) "Relaying rail" means rail, (1) which weighed 35 lbs. or more per yard when new, (2) which is suitable for relaying and (3) which has been submitted to all reconditioning processes, if any, necessary to render it fit for reuse as rail;

(c) "Shipping point" means on board the means of transportation to the buyer, whether truck, freight car, barge, or ship.*

§ 1306.260 *Appendix A; maximum prices for relaying rail—(a) maximum prices for relaying rail originating from Class I railroads.* The maximum price of relaying rail originating from Class I railroads and Class I switching or terminal companies shall be $28.00 per gross ton f. o. b. any station on the selling railroad at the option of the buyer: *Provided*, That when such rail is purchased by dealers or jobbers, such dealers or jobbers may sell, except as provided in paragraph (c) below, such rail at a maximum price of $30.00 per gross ton f. o. b. shipping point.

(b) *Maximum price for relaying rail originating from sources other than Class I railroads and Class I switching or terminal companies.* The maximum price, f. o. b. shipping point, for relaying rail other than rail originating from Class I railroads and Class I switching or terminal companies, shall be $30.00 per gross ton minus the lowest railroad freight charge for transporting such rail from the shipping point to the basing point nearest freightwise to the shipping point: *Provided*, That the shipping point price need in no case be less than $24.00 per gross ton.

The following cities shall be deemed basing points:

Birmingham, Ala.
Boston, Mass.
Buffalo, N. Y.
Chicago, Ill.
Cincinnati, Ohio.
Cleveland, Ohio.
Denver, Colo.
Detroit, Mich.
Houston, Tex.
Kansas City, Mo.
Los Angeles, Calif.
Minneapolis, Minn.
Norfolk, Va.
Philadelphia, Pa.
Pittsburgh, Pa.
Portland, Oreg.
St. Louis, Mo.
San Francisco, Calif.
Savannah, Ga.
Seattle, Wash.

(c) *Maximum prices for relaying rail sold from warehouses.* (1) The maximum price of relaying rail which has been shipped to recognized relaying rail warehouses equipped with machinery for reconditioning and there unloaded, when sold from such warehouse, shall be $32.00 per gross ton f. o. b. warehouse for quantities of one carload or more; $2.00 cwt. f. o. b. warehouse for less than carload quantities of 5 tons or more; and $2.25 cwt. f. o. b. warehouse for quantities of less than 5 tons. There may be added to such maximum price, charges for extras, where furnished pursuant to the purchaser's specifications, as follows: (i) 15¢ per cwt. for cutting to lengths of 10 to 15 feet, inclusive, together with such drilling as may be necessary; (ii) 20¢ per cwt. for cutting to lengths of less than 10 feet together with such drilling as may be necessary; (iii) 5¢ per cwt. for bonding; (iv) 10¢ for cwt. for special drilling.

(2) Any person desiring to sell relaying rail pursuant to paragraph (c) herein must file, on or before December 10, 1941, with the Office of Price Administration, a statement indicating that he operates a recognized warehouse equipped with machinery for reconditioning. A storage point or yard, not customarily operated as a warehouse, is not a warehouse within the meaning of this paragraph.

(d) *Commissions.* Where a purchaser employs the services of an agent in the purchase of relaying rails, and such agent has no beneficial interest in the seller as an employee or otherwise, the purchaser may pay such agent a commission not exceeding $1.00 per gross ton. Where such a commission is paid the amount thereof may be added to the maximum prices set forth in subdivisions (a), (b) and (c) above.

§ 1306.261 *Geographical application.* The provisions of this Schedule shall apply only to sales, offers to sell or deliveries of relaying rails moving within, into or out of one of the 48 States of the United States or the District of Columbia.

Issued this 2d day of February 1942.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

AMENDMENT NO. 1 TO PRICE SCHEDULE NO. 63 [1]—RETAIL PRICES FOR NEW RUBBER TIRES AND TUBES

Section 1315.110 is amended by striking a word in paragraph (b), adding a new subparagraph (3) to paragraph (i) and adding a new paragraph (m);

Section 1315.111 is amended by substituting three brand names in paragraph (b), adding a new subparagraph (3) to paragraph (i) and adding a new paragraph (m); as set forth below:

§ 1315.110 *Appendix A; maximum retail prices for manufacturers' brands of new rubber tires and tubes.* * * *

Paragraph (b) is amended by striking the word "Streamline" from the line reading "The Armstrong Rubber Company, Streamline, Heatmaster."

* * * * *

(i) * * *

(3) If for any particular size of a brand, line, level, quality or weight of tire or tube for which no maximum price is specifically fixed herein, there is no corresponding size on the consumer list price in effect November 25, 1941 for the brand of this manufacturer for which a maximum price is specifically fixed herein, the maximum price for such size of such brand for which no maximum price is specifically fixed shall be determined by using the 6:00 x 16 size in the calculations called for in subparagraphs (1) and (2) above, and maintaining the same relationship between such other size and the 6:00 x 16 size of the brand for which no maximum price is specifically fixed as existed between such sizes on the November 25, 1941 consumer list price for such brand.

* * * * *

(m) Notwithstanding any other provision of this Schedule (§§ 1315.101–1315.111), the maximum retail prices for all brands of passenger car tires owned by the following manufacturers, shall be as follows:

(1) The Armstrong Rubber Company: Maximum prices for the "Streamline" brand of passenger car tires for all sizes listed in paragraph (a) shall be the prices listed in paragraph (a), with other sizes determined according to the method set forth in paragraph (f). Maximum prices for the 6:00 x 16, (4 ply) "Air Coaster" and "Standard" brands of passenger-car tires shall be $12.90 and $10.05 respectively. Other sizes and plies of these brands shall remain in the same percentage relationship to these prices as they bore on the Armstrong Rubber Company's Consumer Price List in effect on November 25, 1941.

§ 1315.111 Appendix B; *maximum retail prices for private brands of new rubber tires and tubes.* * * *

Paragraph (b) is amended by substituting "Co-op Heavy Duty Regular Deluxe First Line" for "Heavy Duty Regular Deluxe First Line" as the *brand of passenger-car tire* and "Co-op Heavy Service Truck and Bus Balloon Deluxe Ribbed Cotton" for "Heavy Service Truck and Bus Balloon Deluxe Ribbed Cotton" as the *brand of truck tire* for the Indiana Farm Bureau Cooperative Association, Incorporated, and by substituting "Mile Master Deluxe" for "Statesman" as the *brand of passenger-car tire* for the Richmond Rubber Company.

* * * * *

(i) * * *

(3) If for any particular size of a brand, line, level, quality or weight of tire or tube for which no maximum price is specifically fixed herein, there is no corresponding size on the consumer list price in effect November 25, 1941 for the brand of this distributor for which a maximum price is specifically fixed herein, the maximum price for such size of such brand for which no maximum price is specifically fixed shall be determined by using the 6:00 x 16 size in the calculations called for in subparagraphs (1) and (2) above, and maintaining the same relationship between such other size and the 6:00 x 16 size of the brand for which no maximum price is specifically fixed as existed between such sizes in the November 25, 1941 consumer list price for such brand.

* * * * *

(m) Notwithstanding any other provisions of this Schedule (§§ 1315:101–1315:111), the maximum retail prices for all brands of passenger-car and truck tires owned by the following private brand distributors shall be as follows:

(1) Triplex Tire Company: Maximum prices shall be the consumer price list of the company on file with the Office of Price Administration which was in effect on September 30, 1941.

This Amendment No. 1 shall become effective February 5, 1942.

Issued this 31st day of January 1942.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

PRICE SCHEDULE NO. 87—SCRAP RUBBER

The War being waged with the Japanese Empire makes uncertain the future shipments of rubber from the Far East. In order to conserve for military and essential civilian purposes the rubber stockpile already accumulated in this country, it has been necessary to curtail sharply the consumption of rubber in the manufacture of products not essential to the immediate national defense. This restriction upon the processing of crude rubber is expected to cause a marked increase in the use of such materials as reclaimed rubber which serve as substitutes for crude rubber. The demand for scrap rubber, the material from which reclaimed rubber is made, may be expected to expand sharply, thereby producing grave danger of further price increases.

Scrap rubber prices have been rising steadily in recent months. The maximum prices fixed by this Schedule are based on prices prevailing shortly before the outbreak of the war in the Pacific. The Office of Price Administration has determined, after investigation and conference with both the producing and consuming elements of the industry, that price advances beyond the maximum determined, after investigation and conprices set forth herein are not necessary to produce the maximum supply of scrap rubber.

Because of the vital importance to the nation's war effort of keeping the cost of substitution of reclaimed rubber for crude rubber to a minimum, the Office of Price Administration fixed the price of reclaimed rubber by Price Schedule No. 56.[1] As an essential and integral part of the Government's rubber program, and in order to make the other steps effective, it is necessary during the present emergency to establish maximum prices for scrap rubber.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1315.1251 *Maximum prices for scrap rubber.* On and after February 5, 1942, regardless of the terms of any contract of sale or purchase or other commitment, no person shall sell, offer to sell, deliver or transfer scrap rubber to any consumer, and no consumer shall buy, offer to buy, or accept delivery of scrap rubber at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1315.1260.*

*§§ 1315.1251 to 1315.1260, inclusive, issued under the authority contained in Executive Orders Nos. 8734, 8675; 6 F.R. 1917, 4483.

§ 1315.1252 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid or offered.*

[1] 6 F.R. 6455.

§ 1315.1253 *Evasion.* The price limitations set forth in this Schedule shall not be evaded by direct or indirect methods in connection with a purchase, sale, delivery, or transfer of scrap rubber, alone or in conjunction with any other material, or by way of any commission, service, transportation or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.*

§ 1315.1254 *Records and reports.* Every person making any sale of scrap rubber to a consumer and every consumer making any purchase of scrap rubber after February 5, 1942, shall keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records of (a) each such purchase or sale showing the date thereof, the name and address of the buyer and the seller, the quantity of each kind or grade purchased or sold, and the price paid or received, showing as a separate item any transportation charges added to the maximum price pursuant to paragraph (e) of Appendix A, and (b) the quantity of each grade of scrap rubber (1) on hand, and (2) on order, as of the close of each calendar month.

Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may from time to time require.*

§ 1315.1255 *Affirmations of compliance.* On or before March 10, 1942, and on the 10th day of each month thereafter, every person who, during the preceding calendar month, has sold scrap rubber to a consumer, whether for immediate or future delivery, shall submit to the Office of Price Administration an affirmation of compliance on Form 187:1, containing a sworn statement that during such month all such sales were made at prices in compliance with this Schedule, or with any exception therefrom or modification thereof. Copies of Form 187:1 can be procured at the Office of Price Administration or, provided that no change is made in the style and content of the form and that it is reproduced on 8 by 10½" paper, they may be prepared by persons required to submit affirmations of compliance hereunder.*

§ 1315.1256 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record requirements or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and the public are fully informed thereof, (b) that the powers of the Government, both state and federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule, (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county, and local governments by calling to the attention of the proper authorities failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits; and (d) that the Rubber Reserve Company and the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule.

Persons who have evidence of the offer, receipt, demand, or payment of prices higher than the maximum prices, or any evasion or effort to evade the provisions hereof, or of speculation or manipulation of prices of scrap rubber, or of the hoarding or accumulation of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1315.1257 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided,* That no applications under this section will be considered unless filed by persons complying with this Schedule.*

§ 1315.1258 *Definitions.* When used in this Schedule the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity;

(b) "Scrap rubber" means the kinds and grades of scrap rubber listed in Appendix A;

(c) "Consumer" means any person consuming scrap rubber in the manufacture of any product except tire repair materials or accessories. It does not include a person who repairs or reconditions scrap rubber articles to make them re-usable for the purpose for which they were originally manufactured.

(d) "Consuming mill" means a mill or other establishment where a consumer uses scrap rubber.

(e) "Consuming center" means one of the towns, listed in Tables I and II of Appendix A, in which consuming mills are located;

(f) "Ton" means a short ton of 2,000 pounds net weight determined at the consuming mill. Bags, coverings or containers shall not be included in the net weight.*

§ 1315.1259 *Effective date of the Schedule.* This Schedule shall become effective on February 5, 1942.*

§ 1315.1260 *Appendix A; Maximum prices for scrap rubber*—(a) *Chief consuming centers.* The maximum prices listed in Tables I and II for each consuming center are applicable to every sale of scrap rubber to any consumer for use in a consuming mill located in such consuming center, regardless of the place from which the scrap rubber may have been shipped or where the actual sale may have been made.

All passenger tubes, except Mixed Passenger tubes and Black Passenger Tubes, shall be free from black rubber valve cots and the bases of such valves.

[12] *No. 2 Passenger Tubes.* This grade shall consist of compounded passenger tubes free from black, red and two-toned passenger tubes.

[13] *Light Colored No. 2 Passenger Tubes.* This grade shall consist of No. 2 Passenger Tubes specially selected as to color by agreement between the buyer and the seller.

[14] *Red Passenger Tubes.* This grade shall be strictly RED tubes.

[15] *Black Passenger Tubes.* This grade shall be strictly black compounded passenger tubes. Black rubber valve cots and their bases may be present, but no metal valves or parts.

[16] *Mixed Passenger Tubes.* This grade shall consist of whole tubes of various colors and qualities and may contain valves unless otherwise specified in the purchase contract.

[17] *Truck Tubes.* Shall consist of inner tubes for pneumatic truck and bus tires, free from sections of tubes less than 12 inches long, and free from crusty, oxidized or puncture-proof tubes, metal and punchings. All truck tubes, except Mixed Truck Tubes, shall be free from metal valves and from black rubber valve cots and the bases of such valves unless otherwise specified in the purchase contract.

[18] *No. 2 Truck Tubes.* This grade shall consist of compounded truck tubes free from black, red and two-toned tubes.

[19] *Red Truck Tubes.* This grade shall be strictly RED tubes.

[20] *Black Truck Tubes.* This grade shall be strictly black compounded truck tubes. Black rubber valve cots and their bases may be present, but no metal valves and parts.

[21] *Two-Toned Black-Gold Tubes.* This grade shall be two-toned black and gold passenger or truck tubes.

[22] *Two-Toned Red-Black Tubes.* This grade shall be two-toned red and black passenger or truck tubes.

(b) *Other consuming mills.* For any sale of scrap rubber to any consumer for use in a consuming mill not located in one of the consuming centers listed in Tables I and II, the applicable maximum prices shall be those set forth in Tables I and II for the one of the consuming centers there listed to which the freight charge on scrap rubber from such consuming mill is lowest. If from any such consuming mill the freight charge on scrap rubber to two or more of the consuming centers listed in Tables I and II is equal and it is not lower to any of the others, the maximum prices applicable to sales for consumption in such mill shall be the prices set forth in Tables I and II for the one of those consuming centers with equal freight rates whose maximum prices are lowest.

(c) *Delivered prices.* The prices specified in this Appendix are the maximum prices that may be paid by any consumer or charged by any person for scrap rubber delivered to a consuming mill. The maximum prices set forth herein shall include all transportation costs except as provided in paragraph (e) below.

(d) *Packing.* The maximum prices specified in this Appendix apply to scrap rubber that is packed as follows: Mixed and beadless passenger and truck tires as listed in Table I may be shipped bundled or loose in cars. All other grades of scrap rubber shall be packed in bags or bales, with each grade packed separately. Each bale shall weigh not less than 500 pounds, nor more than 1,500 pounds and shall be well and securely bound. Any scrap rubber not packed in accordance with the provisions of this paragraph must be sold at appropriate differentials below the maximum prices.

(e) *Freight allowance for long hauls.* For any scrap rubber consisting of mixed or beadless passenger or truck tires as listed in Table I on which the actual transportation charges paid for the direct shipment to a consuming mill exceed eight dollars ($8.00) per ton, the maximum prices specified in this Appendix may be increased by a sum per ton not in excess of the difference between $8.00 and such actual transportation cost involved per ton.

(f) *Premiums for large deliveries*—(1) *Allowance of premiums.* On any single sale of scrap rubber consisting of grades specified in subparagraph (2) below as belonging to one of the groups therein set forth and amounting to or exceeding the tonnage figure set forth in subparagraph (2) for that particular group, the amounts specified in subparagraph (3) below for each grade may be added to the maximum prices of each such grade, provided delivery to the consuming mill of the full amount of such sale is completed within 60 days after the receipt at such mill of the first delivery on such sale.

The amount of tonnage specified in subparagraph (2) for each group may

consist of any combination of grades included in that group. In no case may the minimum tonnage required by subparagraph (2) for any group be figured by including grades listed in that subparagraph as falling within another group.

(2) *Groups entitled to premiums.* *Group A* consists of mixed or beadless passenger truck tires as listed in Table I. To be entitled to a premium, a single sale of scrap rubber in this group must consist of 750 tons or more. *Group B* consists of grades listed in Tables I and II as G. A. G., peelings, or carcass. To be entitled to a premium, a single sale of scrap rubber in this group must consist of 400 tons or more. *Group C* consists of tubes as listed in Table II. To be entitled to a premium, a single sale of scrap rubber in this group must consist of 150 tons or more.

(3) *Amount of premium.* The amounts that may be added to the maximum prices for specific grades of scrap rubber under the provisions of this paragraph (f) are:

(i) One dollar and fifty cents ($1.50) per ton for beadless passenger or truck tires as listed in Table I;

(ii) One dollar ($1) per ton for any scrap rubber except beadless passenger or truck tires, the maximum price of which, as set forth in Tables I and II, is $20.00 per ton or less;

(iii) Five percent (5%) of the maximum price set forth in Tables I and II or $5.00 per ton, whichever is less, for any scrap rubber except beadless passenger or truck tires, the maximum price of which, as set forth in Tables I and II, is over $20 per ton.*

Issued this 31st day of January 1942.

PART 1347—PAPER AND PAPER PRODUCTS

AMENDMENT NO. 5 TO PRICE SCHEDULE NO. 30 [1]—WASTEPAPER

The preamble to Price Schedule No. 30 is amended by striking out the next to the last paragraph thereof; § 1347.1 and § 1347.8, paragraph (e) [2] are amended to read as follows: § 1347.10 [3], Appendix A, is amended by striking out footnote 1 thereof, by amending the grade title of the second item and the price of the fourth and fifth items in the list of grades and prices, and amending footnotes 4, 5, 6, 8, and 33 to read as follows, by striking out paragraph (b) and by adding two new paragraphs (b) and (c) to read as follows:

§1347.1 *Maximum prices for wastepaper.* On and after October 1, 1941, regardless of the terms of any contract of sale or purchase or other commitment, in the continental United States, no person shall sell, offer to sell, deliver or transfer wastepaper, and no person shall buy, offer to buy, or accept delivery of wastepaper at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1347.10.

§ 1347.8 *Definitions.*

* * * * * *

(e) "Broker", commonly known as a wastepaper broker, means any person who sells to consumers wastepaper not packed by such person, and purchased by such person in the condition in which it is to be delivered to the consumer.

§ 1347.10 *Appendix A; maximum prices for wastepaper.* (a) * * *

Grades	Maximum prices [1] per short ton [2] f. o. b. point of shipment [4]
* * * * *	
No. 1 News [6]	$15.00
* * * * *	
Old Corrugated Containers [8]	20.00
New Corrugated Cuttings [33]	21.50
* * * * *	

[4] All prices established by this Schedule shall be for wastepaper f. o. b. freight cars, trucks or barges at the point of shipment, or, in case of exports, f. a. s. the vessel at the port of export. Except in the case of exports, no charge or cost incurred in transferring a shipment to or loading a shipment on a conveyance for transportation to the buyer, may be added to the point of shipment price. The point of shipment shall be the point at which the wastepaper is first loaded on a conveyance for transportation to the buyer, or, in the case of exports, f. a. s. the vessel at the port of export. Sales may be made on a delivered basis, but such sales must be made at prices not in excess of the maximum f. o. b. point of shipment prices established by this Schedule, plus the appropriate transportation allowances set forth in paragraph (b) below, or, in the case of exports, plus the allowance set forth in (a) below, if any, and/or any costs incident to movement beyond the point of shipment.

To the prices established by this Schedule, in the case of wastepaper exported for papermaking, the following allowance may be added:

(a) If the wastepaper to be exported for the purpose of papermaking has been baled to meet the requirements of maritime handling and is transported to the dock or other place of delivery to an ocean carrier for export shipment at the expense of the seller, an amount not in excess of $3.00 per short ton may be added to the maximum prices established by this Schedule to cover the cost of such baling and transportation, which additional amount must be listed as a separate item on the invoice. No such charge may be added in the event the broker or producer has not kept the records required by § 1347.4.

[5] "No. 1 Mixed Paper" shall consist of clean, dry, sorted and repacked wastepaper free from objectionable papers and foreign materials and packed in large machine compressed bales weighing 650 pounds or more, and shall include, without in any way limiting the generality of the foregoing, wastepaper sometimes described as super-mixed, repacked mixed, dry goods waste, department store waste, printer's waste, container manila, print manila, and so forth: *Provided, however,* That if any one or more of the aforementioned requirements of this definition are absent, then the wastepaper may not be sold at a price in excess of $12.00 per short ton.

[6] "No. 1 News" shall consist of clean, dry, sorted and repacked newspapers free from foreign materials, obectionable and mixed papess, and packed in bales or bundles: *Provided, however,* That if any one or more of the aforementioned requirements of this definition are absent, then the wastepaper may not be sold at a price in excess of $13.00 per short ton.

[8] "Old Corrugated Containers" shall consist of clean, dry, sorted and repacked corrugated or solid fibre containers of kraft or any other paper substance free from foreign materials, mixed and objectionable papers and packed in large machine compressed bales weighing 650 pounds or more: *Provided, however,* That if any one or more of the aforementioned requirements of this definition are absent, then the wastepaper may not be sold at a price in excess of $15.00 per short ton.

[33] "Mixed Books" shall consist of dry, clean books and magazines containing not over 25% total outthrow, including kraft and groundwood, free from mixed and objectionable papers and foreign materials. Must be packed in small or large bales or securely tied bundles. If the bale contains more than 25% outthrows, the packing shall be designated "No. 1 Mixed Paper".

(b) The maximum delivered price for wastepaper shall not exceed the established point of shipment price set forth in (a) hereof, plus such of the following transportation allowances as are shown as separate items in the billing or invoices:

(1) When transportation to the buyer is by public carrier, the lowest established transportation rate available for an identical shipment;

(2) When transportation to the buyer is by the seller's vehicle or is by private carrier not owned or controlled by the buyer, an amount not in excess of the following:

Transportation from point of shipment over shortest highway route available

Haul	Per short ton
5 miles or less	$. 50
6 miles to 10 miles	.60
11 miles to 15 miles	.70
16 miles to 20 miles	.80

171 miles to 175 miles	3.90
176 miles to 180 miles	4.00
181 miles to 185 miles	4.10
186 miles to 190 miles	4.20
191 miles to 195 miles	4.30
196 miles to 200 miles	4.40

Where the distance is greater than 200 miles from the point of shipment to the consumer, such seller may add to the f. o. b. point of shipment price the actual charges for an identical shipment.

All sales of wastepaper to a consumer shall be invoiced. The invoice shall state as separate items the origin and destination of the wastepaper, and if delivered in the seller's vehicle or by private carrier not owned or controlled by the buyer, the mileage and the charge for such service.

(c) (1) In the event that a consumer of wastepaper shall purchase wastepaper through a broker as defined in § 1347.8 (e), hereof, such consumer may pay such broker not more than the maximum price herein plus a broker's allowance not to exceed the following percentages of the price per ton of the amount actually paid to the broker, exclusive of the broker's allowance:

Price per ton for grade of wastepaper purchased:	Broker's allowance in percentage
Up to $20.00	4
$20.01 to $30.00	5
$30.01 to $40.00	5½
$40.01 to $50.00	7
$50.01 to $60.00	8
$60.01 to $67.50	9

(2) The maximum prices established in Appendix A can in no case be augmented by more than one brokerage allowance for each ton. In addition to the price paid by the consumer, a broker may receive a broker's allowance only from a consumer, and only if the transaction in question fulfills all of the following requirements:

(i) The broker records the name or names of his vendor or vendors in each transaction, the quantity and grade of wastepaper purchased, the price f. o. b. point of shipment paid by such broker, the name of his consuming purchaser, the method of shipment to such consuming purchaser, the price paid by such consuming purchaser, and the broker's allowance.

(ii) The sale is made by the broker to the consumer.

(iii) The wasterpaper sold by the broker to the consumer has been completely prepared for delivery by a person other than the broker.

(iv) The broker guarantees the merchantable quality of the wastepaper.

(v) The broker's allowance in such transaction is shown as a separate item on the invoice. This invoice must contain a statement that the broker has had no part in the preparation of the wastepaper covered, prior to its delivery to the consumer, and that the charges are not in excess of those established in this Schedule.

(vi) The broker's allowance is not split or divided with any other person.

(vii) All pertinent provisions in this Schedule are strictly complied with. (E.O. Nos. 8734, 8875; 6 F.R. 1917, 4483)

This Amendment No. 5 shall become effective February 3, 1942. Issued this 2d day of February 1942.

PART 1347—PAPER AND PAPER PRODUCTS

AMENDMENTS NO. 2 TO PRICE SCHEDULE NO. 47 [1]—OLD RAGS

Section 1347.101, the headnote to § 1347.104, paragraphs (a) and (d) of §§ 1347.108, 1347.110, 1347.111, 1347.112 are hereby amended, and § 1347.104a is added as set forth below:

§ 1347.101 *Maximum prices for old rags.* On and after December 20, 1941, regardless of the terms of any contract of sale or purchase, or other commitment, in the continental United States, no person shall sell, offer to sell, deliver, or transfer old rags, and no person shall buy, offer to buy, or accept delivery of old rags at prices higher than the maximum prices set forth in Appendices A, B, and C hereof, incorporated herein as §§ 1347.110, 1347.111, and 1347.112.

§ 1347.104 *Records.*

* * * * * *

§ 1347.104a *Reports*—(a) *By persons engaged in the selling or brokerage of old rags.* All persons engaged in the selling or brokerage of old rags and required by § 1347.104 to keep records shall, on or before February 10, 1942, and on or before the 10th day of each month thereafter, file under oath a report on Form 147:2 setting forth (1) the tonnage of old rags covered by Appendices A and B and all other old rags delivered during the month preceding the month in which the report is filed, and (2) the net inventory of old rags covered by Appendices A and B and all other rags on hand at the end of such month.

On or before February 10, 1942, all persons engaged in the sellirig or brokerage of old rags and required by § 1347.104 to keep records shall also file the monthly statement required above for each month during the period beginning December 1, 1939, and ending January 31, 1942.

(b) *By consumers of old rags.* On or before February 10, 1942, and for each succeeding month thereafter, all consumers of old rags required by § 1347.104 to keep records shall file under oath a report on Form 147:3 for the month preceding the filing of such report setting forth: (1) the total amount of old rags consumed during such month and (2) the inventory on hand at the end of such month.

On or before February 10, 1942, all consumers of old rags required by Section 1347.104 to keep records shall submit to the Office of Price Administration a tabulation of their total consumption and end-of-month inventories of old rags and new cuttings for each month for the period beginning December 1, 1939, and ending January 31, 1942. These reports, insofar as practicable, should be filed for separate manufacturing units and the figures should be allocated to the particular manufacturing unit to which they apply.

§ 1347.108 *Definitions.* When used in this Schedule the term:

(a) "Person" included an individual, partnership, association, corporation, or other business entity.

* * * * * *

(d) "Broker" means any person who engages in the business of brokering or jobbing of old rags.

No 1 Laundry Bags [18]	135.00
No. 2 Laundry Bags [19]	100.00
No. 1 Old Manila Rope [20]	115.00

[1] Except as provided in Appendix C.

[2] Cotton rags are at the point of shipment when loaded on a conveyance for transportation to the buyer. All prices established by this Appendix are for sales of carload lots of cotton rags at point of shipment. In no case shall any charge or cost incurred in transferring a shipment to or loading a shipment on a conveyance for transportation to a buyer be added to the point of shipment price. When a seller delivers in his own truck the maximum delivered price cannot exceed the f. o. b. point of shipment price, plus the transportation allowances set forth in paragraph (b) below.

[3] For sales of less than carload lots of any or all of the grades of old cotton rags the maximum price shall be a price not in excess of the above established prices less 4%. No delivery of carload lots by trucks shall be considered a delivery of carload lots unless such delivery is completed within seven days.

[4] The highest quality of each grade of old cotton rags covered by this Schedule must be dry and free of rubber, leather wool, silk, wood, paper or muss, paint, grease, oil, and other foreign materials.

[5] All prices listed represent the maximum prices for each grade of old cotton rags listed above, the highest qualities of which are defined in the footnotes below. Other qualities of old cotton rags of the grades defined must be sold at or below the maximum prices established. The presence of one or more of the objectionable features enumerated in footnote 4 shall operate to lower the quality of the particular grade. Sales of the grades listed above and defined below made on representative samples must be consummated at or below these maximum prices. The prices established in this Schedule are the maximum prices to be charged or paid, and no differentials or service charges other than those specifically provided for in Appendix C are to be added.

[6] No. 1 Whites Repacked must contain clean white cotton rags, free of lace curtains, soiled rags, silk, rayon, wool or colored rags.

[7] No. 1 Whites Miscellaneous shall be the same as No. 1 Whites Repacked except that they may contain not more than 5% of lace curtains, 20% of No. 2 Whites Miscellaneous and 10% colored, silk, rayon, or wool rags.

[8] Mixed Whites shall be the same as No. 1 and No. 2 Whites Repacked except they shall contain a minimum of 30% No. 1 Whites Repacked.

[9] No. 2 Whites Repacked shall consist of soiled white cotton rags, free of dump rags, paint, greasy or oily rags, silk, rayon, wool, scorched rags, or other colored rags.

[10] No. 2 Whites Miscellaneous shall be the same as No. 2 Whites Repacked but may contain up to but not more than 25% of silk, rayon, or wool rags, or colored rags of any kind.

[11] Twos and Blues Repacked shall be rags of strictly house collection, Mixed Whites, and bleachable colored rags, free of reds, blacks, browns, silks, rayons, or wool.

[12] Thirds and Blues Repacked shall be the same as Twos and Blues Repacked except that Mixed Whites may be eliminated.

[13] Thirds and Blues Miscellaneous shall be the same as Thirds and Blues Repacked but may contain up to but not more than 25% of reds, blacks, browns, silks, rayons, or wool.

[14] Satinet Garments shall be classified as No. 2 Roofing Rags as defined in Appendix B.

[15] Old Blue Overalls Miscellaneous shall consist of only clean blue overalls and shall be free of miners' garments and stripped or skeleton garments.

[16] No. 1 Laundry Bags shall consist of clean, white, laundry bags free of all color.

[17] No. 2 Laundry Bags shall consist of soiled white, and off-color laundry bags and may contain laundry bags with colored stripes.

[18] No. 1 Old Manila Rope shall consist of Manila Rope and shall be free of grease, oil, tar, graphite, coal dust, paint, or unsound fiber.

(b) The maximum delivered price for cotton rags shall not exceed the established point of shipment price set forth in (a) hereof plus such of the following transportation allowances as are shown as separate items in the billing or invoices:

(1) When transportation to the buyer is by public carrier, the actual transportation charges for an identical shipment;

(2) When transportation to the buyer is by the seller's vehicle or is by private carrier not owned or controlled by the buyer an amount not in excess of the following:

No. 1 Roofing Rags [6]	$31.00
No. 1—Seams and Cloth Strippings from Garments [7]	31.00
No. 2 Roofing Rags [8]	29.00
No. 3 Jute Bagging [9]	27.00
No. 4 Brussels and Hard Back Carpets [10]	27.00
No. 5 Roofing Rags: [11]	
Quality A	27.00
Quality B	24.00
Quality C	19.00

[1] Except as provided in Appendix C.

[2] Roofing rags are at the point of shipment when loaded on a conveyance for transportation to the buyer. All prices established by this Appendix are for sales of carload lots of roofing rags at point of shipment. In no case shall any charge or cost incurred in transferring a shipment to or loading a shipment on a conveyance for transportation to a buyer be added to the point of shipment price. When a seller delivers in his own truck the maximum delivered price cannot exceed the f.o.b. point of shipment price, plus the transportation allowances set forth in paragraph (b) below.

[3] For sales of less than carload lots of any or all of the grades of roofing rags the maximum price shall be a price not in excess of the above established prices less 4%. No delivery of carload lots by trucks shall be considered a delivery of carload lots unless such delivery is completed within seven days.

[4] The highest quality of each grade of roofing rags covered by this Schedule shall be free of rubbish, shoe cuttings, felt boots, hats, corsets, suspenders, oil cloth, matting, leather, rubber, rope, mackintosh clippings, pasted stock, wool dust, wood, stones, metal of all kinds, tin cans, glass, ashes, bones, excelsior, oily rags, canvas, sisal, packers, fertilizer and charcoal bags, coal and cement sacks; chemical, salt, lime and plaster bags; silk rags and silk stockings, rayon, buffing wheels, rubberized cloth, auto curtains, auto cushions, dirt, felt punchings, and trimmings, window shades, cement sacks, jute waste, jute droppings, carpet waste, soft strings, cotton and/or wool filled mattresses or quilts, buckram, and all other foreign materials.

[5] All prices listed represent the maximum prices for each grade of roofing rags listed above, the highest qualities of which are defined in the footnotes below. Other qualities of the roofing rags of the grades defined must be sold at or below the maximum prices established. The presence of one or more of the objectionable features enumerated in footnote 4 shall operate to lower the quality of the particular grade. Sales of the grades listed above and defined below made on representative samples must be consummated at or below these maximum prices. The prices established in this Schedule are the maximum prices to be charged or paid, and no differentials or service charges other than those specifically provided for in Appendix C are to be added.

[6] No. 1 Roofing Rags shall consist of soft rags all containing a percentage of wool; and also Satinet garments, including men's coats, pants, vests, mixed linsies, women's coats, sacks and cloth skirts, all of which contain a portion of wool fibre, and shall be free of overalls, khaki, canvas, duck, quilts, seams, and strippings or similar materials.

[7] No. 1 S.—Seams and Cloth Strippings from garments shall consist of seams and cloth strippings from garments and Satinet garments.

[8] No. 2 Roofing Rags shall consist of cotton rags, large and small cotton rags, linings, rag carpets, print rags and stockings, and shall be free of silk rags, rayon, wood and fibre rags.

[9] No. 3 Jute Bagging shall consist of jute bagging and shall be free of fertilizer, charcoal, coal, cement, chemicals of all kinds, lime plaster, salt, jute waste, jute droppings, and bagging with asphalted kraft attached.

[10] No. 4 Brussels and Hard Back Carpets shall consist of brussels, hard back carpets, upholstery cuttings and plush cuttings.

[11] *No. 5 Roofing Rags—Quality A.*—Shall consist of tailor rags and shall be free of rubbish and paper.

Quality B. Shall consist of tailor rags and shall contain not more than 10% paper.

Quality C. Shall consist of tailor rags and shall contain at least 10% but not more than 50% paper.

(b) The maximum delivered price for roofing rags shall not exceed the established point of shipment price set forth in (a) hereof plus such of the following as separate items in the billing or invoices:

(1) When transportation to the buyer is by public carrier, the actual transportation charges for an identical shipment;

(2) When transportation to the buyer is by the seller's vehicle or is by any private carrier not owned or controlled by the buyer an amount not in excess of the following:

196 miles to 200 miles	4.40

Where the distance is greater than 200 miles from the point of shipment to the consumer, such seller may add to the f. o. b. point of shipment price the actual transportation charges for an identical shipment.

All sales of rags to a consumer shall be invoiced. The invoice shall state as separate items the origin and destination of the rags, and if delivered in the seller's vehicle or by private carrier not owned or controlled by the buyer, the mileage and the charge for such service.

(c) *Maximum prices for rags used in the manufacture of roofing materials and not listed in paragraph (a) above.* (1) For any grade of such rags sold during the period from October 1 to October 15, 1941, the maximum price shall be the highest price per ton charged by the seller during the period beginning October 1 and ending October 15, 1941: *Provided, however,* That such maximum price shall not be in excess of $31.00 per short ton.

Such prices shall be f. o. b. the point of shipment. If the highest price charged during the period from October 1 to October 15, 1941, was on a delivered basis, the maximum price under this Schedule shall be determined by subtracting from such price the total of all actual transportation and other charges which were paid by the seller from the point of shipment.

(2) For any grade of such rags not sold during the period from October 1 to October 15, 1941, prices in excess of $19.00 per short ton shall be subject to the approval of the Office of Price Administration prior to the issuance of any invoice. When submitting such prices for approval by the Office of Price Administration, the seller shall submit complete data on costs involved, together with complete price and cost data on one or more comparable grades sold since October 1, 1940.

§ 1347.112 *Appendix C; maximum broker's allowance.* (a) (1) In the event that a consumer shall purchase rags through a broker, as defined in § 1347.108 (d) hereof, such consumer may pay not more than the maximum price herein and an allowance to the broker not to exceed the brokerage allowances established in paragraph (b) below.

(2) The maximum prices established in Appendices A and B can in no case be augmented by more than one brokerage allowance for each ton. In addition to the price paid by the consumer, a broker may receive a broker's allowance only from a consumer, provided the transaction in question fulfills all of the following requirements:

(i) The broker records the name or names of his vendor or vendors in each transaction, the quantity and grade of rags purchased, the price f. o. b. point of shipment paid by such broker, the name of his consuming purchaser, the method of shipment to such consuming purchaser, the price paid by such consuming purchaser, and the broker's allowance.

(ii) The sale is made to the consumer by or through the broker.

(iii) The rags sold by the broker to the consumer have been commercially sorted and baled by a person other than the broker: *Provided,* That in the event a transaction complying with all other requirements of this schedule involves rags sorted and baled both by the broker and by another person, the broker may charge an allowance only with respect to the tonnage of rags sorted and baled by such other person.

(iv) The broker guarantees the merchantable quality of the rags.

(v) The broker's allowance in such transaction is shown as a separate item in the billing or invoice. This billing or invoice shall contain a statement that the rags covered have not been packed by the jobber and that the charges are not in excess of those established by this Schedule.

(vi) The broker's allowance is not split or divided with any other person.

(vii) All pertinent provisions in this Schedule are strictly complied with.

(b) * * *

Price for grade of rags sold:	Broker's allowance per ton
Up to $31.00	$1.00
$31.01 to $53.00	1.50

PART 1351—FOODS AND FOOD PRODUCTS

AMENDMENT NO. 4 TO PRICE SCHEDULE NO. 50 [1]—GREEN COFFEE

Paragraphs (b), (d), (e), and (g) of § 1351.1 are hereby amended to read as follows:

1351.1 *Maximum prices for green coffee.*

* * * * *

(b) The maximum prices shall include all commissions and all other charges, except that:

(1) Increases in the charges prevailing prior to the opening of business on December 8, 1941, for ocean freight, war risk insurance, and marine insurance may be added to the maximum prices only if such charges have been actually incurred by the seller on such sale. Decreases in said charges prevailing prior to opening of business on December 8, 1941, must be subtracted from the maximum prices.

(2) If the services of a broker or brokers are required either at the port of entry or in a secondary market, a commission or commissions which in the aggregate shall not exceed one percent of the selling price may be added to the

[1] 6 F.R. 6374, 6432, 6803; 7 F.R. 41.

maximum prices, provided such commissions have been actually paid.

* * * * *

(d) The maximum prices quoted above are ex dock New York City. The maximum prices ex dock any other port of entry shall be determined by adding to or subtracting from the New York City price the difference between the actual cost of ocean freight, war risk insurance, and marine insurance from the port of origin to New York City and the actual cost of ocean frieght, war risk insurance, and marine insurance from the port of origin to such other port of entry.

(e) For any green coffee sold ex warehouse, rather than ex dock New York City or other port of entry, the cost of actually "putting the coffee into the warehouse" as defined in § 1351.7, may be added by the seller who incurred the cost.

* * * * *

(g) Any person making sales of green coffee in lots of twenty-five bags or less may add to the maximum prices specified above an amount not in excess of 7½ per cent of the comparable selling price of lots of more than twenty-five bags. (E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483)

This amendment No. 4 shall become effective January 31, 1942. Issued this 30th day of January 1942.

PART 1354—WOOL AND WOOL PRODUCTS

CORRECTION TO AMENDMENTS NOS. 2[1] AND 3[2] TO PRICE SCHEDULE NO. 56[3]—WOOL AND WOOL TOPS AND YARNS

In Amendment No. 2 to Price Schedule No. 56 it was erroneously stated that a new paragraph (d) was added to § 1354.1. That amendment added a new paragraph (e); paragraph (d) remained unaffected. Similarly in Amendment No. 3 paragraph (e) of § 1354.1 rather than paragraph (d) should have been amended.

This correction shall be effective as of the effective dates of Amendments Nos. 2 and 3 to Price Schedule No. 56.

Issued this 30th day of January 1942.

PART 1360—MOTOR VEHICLES AND MOTOR VEHICLE EQUIPMENT

PRICE SCHEDULE NO. 85—NEW PASSENGER AUTOMOBILES

The complete diversion of automobile manufacturing facilities to war work has brought the production of passenger automobiles to an end. Rationing Order No. 2 of the Office of Price Administration restricts the sale of new automobiles to those persons who can show a need related to the public interest. This Schedule establishes maximum wholesale and retail prices for new passenger automobiles as a measure of coordination with the rationing program.

Prices announced by automobile manufacturers at the beginning of the 1942 model year represented an average advance of 14% over 1941 prices. At the request of the Office of Price Administration, each manufacturer agreed not to change the announced prices without prior consultation with the Office. This Schedule serves to formalize that agreement.

An investigation undertaken by the Office of Price Administration with respect to retail prices showed a general upward trend although there was a wide variation in prices among dealers. The rise in price had been effected not by an increase in the list price but by means of an advance in charges for handling and delivery for services to be rendered after delivery, and for transportation. This Schedule fixes the maximum amount which may be charged at retail, based on the list price established by the manufacturer, and the maximum charges which may be added for transportation and handling and delivery.

Because dealers and manufacturers may be obliged to carry their inventories over an abnormally long period due to the rationing program, the prices established are subject to monthly adjustment upward to compensate for the added burden.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1360.51 *Maximum wholesale prices for new passenger automobiles.* (a) On and after February 2, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no manufacturer, distributor, or exporter of new passenger automobiles shall sell, offer to sell, deliver or transfer a new passenger automobile to any person at a price higher than the maximum price. The maximum price shall be the highest price prevailing for the same make and model between October 1, 1941 and October 15, 1941, for the same class of purchaser, except that, in the case of the Packard Motor Car Company and the Crosley Corporation the maximum price shall be the highest price prevailing on the effective date of this Schedule.

(b) In the event that the automobile is without equipment which was standard on October 15, 1941, the maximum price shall be reduced by the wholesale value of the equipment removed.

(c) To the maximum price may be added an amount equal to 1% of the list price of the automobile, or $15, whichever is lower, for each calendar month or greater part thereof, after January 31, 1942, which elapses prior to the sale of the automobile by the manufacturer, distributor, or exporter.*

* §§ 1360.51 to 1360.61, inclusive, issued under the authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

1360.52 *Maximum retail price for new passenger automobiles.* On and after February 2, 1942, regardless of the terms of any contract of sale, or other commitment, no person shall sell, offer to sell, deliver or transfer a new passenger automobile with standard equipment as of October 15, 1941, at retail, at a price higher than the maximum retail price for the automobile, which shall be the sum of the following items:

(a) The manufacturer's list price at the factory for the automobile with standard equipment as of October 15, 1941, as shown for each make and model of automobile in Appendix A hereof, incorporated herein as § 1360.61.

(1) If the automobile is without equipment which was standard on October 15, 1941, the list price shall be reduced by the retail value of the equipment removed.

(b) The Federal Excise Tax.

(c) An allowance for transportation which shall not exceed the actual rail freight charge for the transportation of the automobile from the factory to dealer at carload rate.

(d) An allowance of 5% of (a) and (c) above, or $75.00, whichever is lower, which includes the charge for handling and delivery, for which the dealer shall render all of the services customarily performed in order to prepare the automobile for delivery to the purchaser and all of the factory recommended get-ready and delivery operations.

(e) An amount equal to 1% of the list price of the automobile, or $15, whichever is lower, for each calendar month or greater part thereof, after January 31, 1942, which elapses prior to the sale of the automobile to the purchaser.*

§ 1360.53 *Less than maximum prices.* Lower prices than those set forth above may be charged, demanded, paid or offered.*

§ 1360.54 *Evasion.* (a) The price limitations set forth in this Schedule shall not be evaded either by direct or indirect methods in connection with the sale, delivery or transfer of a new passenger automobile, alone or in conjunction with any other consideration or by way of any commission, charge for transportation, for equipment, for handling or delivery services, or by the removal of parts or equipment from an automobile.

(b) No buyer of a new passenger automobile shall be required, as a condition of the sale, to agree to purchase any equipment other than standard equipment as defined by the manufacturer, or any after-delivery services. The price demanded for any such equipment or services shall be separately listed on the invoice or bill of sale given to the buyer, and on any price tag, display sign, or other advertising used by the dealer in connection with the sale or display of a new passenger automobile.

The State and local taxes imposed on the transaction and payable by the buyer, and the charge imposed under § 1360.52 (e) hereof, shall also be separately listed on the invoice or bill of sale.

Nor shall any buyer of a new passenger automobile be required, as a condition of the sale of a new passenger automobile, to agree to make payment over a period of time, nor to finance the purchase of the automobile through any lending agency, nor to agree to a transfer to the seller of a used car, in part payment of the purchase price.*

§ 1360.55 *Records and reports.* (a) Within twenty days of the effective date of this Schedule, each manufacturer shall file with the Office of Price Administration a list of standard equipment as of October 15, 1941, for each make and model of passenger automobile manufactured by him.

(b) Every manufacturer, distributor, or exporter of, or retail dealer in, new passenger automobiles after the effective date of this Schedule shall keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records of each sale of a new passenger automobile, showing the date thereof, the make and model, the name and address of the buyer, the price paid, and the make, model, model year, and valuation of any automobile which may be accepted in part payment of the purchase price, and any other consideration which may be accepted in payment of the price of the new passenger automobile.

(c) Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1360.56 *Notices to be posted.* Every retail dealer in new passenger automobiles shall post in a conspicuous place on his premises where new passenger automobiles are offered for sale, a notice not less than 18 inches by 24 inches in size which shall set forth in legible fashion the following:

(a) Section 1360.52 in its entirety;

(b) The make and model of each new passenger automobile offered for sale, accompanied by a break-down of the maximum retail price for the automobile, as specified in paragraphs (a) through (e) inclusive of § 1360.52 and the actual price charged for the automobile;

(c) A statement that lower prices may legally be charged or demanded;

(d) A statement that no buyer is required, as a condition of sale of a new passenger automobile, to agree to buy any equipment other than standard equipment as defined by the manufacturer, or any after delivery services, or to agree to make payment over a period of time or to finance the purchase of the automobile through any lending agency or to agree to the sale of a used car in payment of the purchase price.*

§ 1360.57 *Enforcement.* In the event of refusal or failure to abide by the provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will make every effort to assure (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government, both state and federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule; and (c) that the procurement services of the Government are requested to refrain from purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, or demand of prices higher than the maximum prices, or of any evasion or effort to evade the provisions thereof, are urged to communicate with the Office of Price Administration.*

§ 1360.58 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom; *Provided*, That no application under this section will be considered unless filed by persons complying with this Schedule.*

§ 1360.59 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation or other business entity;

(b) "Retail dealer" means any person engaged in the business of offering automobiles for sale to the public;

(c) "Manufacturer" means any person who manufactures passenger automobiles for sale to distributors or retail dealers.

(d) "Distributor" means any person, other than a manufacturer, who sells new passenger automobiles to retail dealers.

(e) "Exporter" means any person who is directly or indirectly engaged in the business of dealing in automobiles which are ultimately sold to a person in a foreign country.

(f) "List price" means the suggested retail price established by each manufacturer without any charge added thereto on account of transportation, the Federal Excise tax, or handling and delivery. These prices appear in Appendix A hereof and are incorporated herein as § 1360.62.

(g) "New passenger automobile" means a 1942 model automobile.

(h) "Standard equipment" means equipment stated to be standard equipment by the manufacturer as of October 15, 1941.*

§ 1360.60 *Effective date of this Schedule.* This Schedule shall become effective February 2, 1942.

Issued this 31st day of January 1942.

PART 1360—MOTOR VEHICLES AND MOTOR VEHICLE EQUIPMENT

RATIONING ORDER NO. 2

New Passenger Automobiles

Under the authority vested in me by Directive No. 1 issued by the Chairman of the War Production Board, it is hereby directed that:

§ 1360.101 *Restriction of transfers of new passenger automobiles.* On and after February 2, 1942 regardless of the terms of any contract of sale or purchase, or other commitment, no person shall transfer, or accept a transfer, of a new passenger automobile, except as provided in §§ 1360.102 and 1360.103 of this Order, (§§ 1360.101 to 1360.110, inclusive).*

*§§ 1360.101 to 1360.110, inclusive, issued under the authority contained in E.O. Nos. 8734, 8875; 6 F.R. 917, 4483; W.P.B. Directive No. 1, 7 F.R. 562.

§ 1360.102 *Persons eligible to acquire new passenger automobiles by transfers with certificates issued by Local Rationing Boards.* On and after February 12, 1942 any person who, on or before January 1, 1942, purchased, but did not receive delivery of, a new passenger automobile is eligible to receive a certificate permitting him to acquire such new passenger automobile if he makes application before February 26, 1941, and produces before the Board:

(a) A certificate of title or registration for the automobile, in the purchaser's name, issued on or before January 1, 1942, by the state or local agency having jurisdiction over the registration of motor vehicles; or

(b) A written statement by an official of the state or local agency having jurisdiction over the registration of motor vehicles that the purchaser's application for such certificate of title or registration for the automobile had been received by such agency on or before January 1, 1942, which written statement must be accompanied by a certified copy of such application; or

(c) Satisfactory evidence showing compliance with the requirements of subparagraphs (1), (2), and (3);

(1) A written contract, bill of sale, or other writing referring to the automobile claimed by the applicant, executed during the period July 1, 1941–January 1, 1942, inclusive; and

(2) One or more of the following:

(i) A check for the full purchase price of the automobile, or for a part of the purchase price in the sum of $25 or more, payable to the seller, dated on or before January 1, 1942, and bearing marks showing its deposit by the seller in a bank on or before January 2, 1942; or

(ii) The original bound or serially-numbered receipt book, journal or order book, regularly used by the seller, showing a credit entered by the seller on or before January 1, 1941, for the full purchase price of the automobile, or for a part of the purchase price, or for a used car traded in as the full or part purchase price of the new passenger automobile; or

(iii) A certificate of title or registration issued on or before January 1, 1942, by the state or local agency having jurisdiction over the registration of motor vehicles, showing a transfer of title from the applicant to the seller of the new passenger automobile, of a used automobile; or

(iv) A written statement by an official of the state or local agency having jurisdiction over the registration of motor vehicles that, on or before January 1, 1942, application had been received to transfer the certificate of title or registration for a used automobile from the applicant to the seller of the new automobile, which written statement must be accompanied by a certified copy of such application;

Provided, That the Board shall be satisfied, by statements of seller and applicant, or other evidence, that the check for all or part of the purchase price, the used car traded in, or the business entry for all or part of the purchase price or for the traded-in car, was part of the transaction of purchasing the new passenger automobile for which a certificate is sought.

(3) Either of the following:

(i) Proof that, on or before January 1, 1942, an automobile which answers the description in the contract, bill of sale, or other writing required by subparagraph (1) of paragraph (c), and which is the automobile claimed by the applicant, was delivered by the manufacturer or distributor to the transferor, or to a carrier for shipment to the transferor; or

(ii) In the case of a specially ordered automobile which answers the description in the contract or bill of sale and which is the automobile claimed by the applicant, which automobile varies from standard construction and specifications (in respects other than variations in color, lettering, accessories, and optional equipment), proof that such automobile, on or before January 15, 1942, was delivered by the manufacturer or distributor to the transferor, or to a carrier for shipment to the transferor.*

§ 1360.103 *Persons eligible to acquire new passenger automobiles by transfer without certificates.* The following persons are eligible, without a certificate, to acquire a new passenger automobile, but cannot transfer such automobile except in accordance with the provisions of this Order (§§ 1360.101 to 1360.110, inclusive), and the regulations applicable to it:

(a) Any person authorized to receive a transfer on behalf of:

(1) The Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civilian Aeronautics Authority, the National Advisory Commission for Aeronautics, or the Office of Scientific Research and Development;

(2) Government agencies or other persons acquiring new passenger automobiles for export to and consumption or use in any foreign country:

Provided, That, after the War Production Board establishes a system of permits for such persons, only persons identifying themselves by such permits are eligible under this paragraph (a).

(b) A dealer, manufacturer, distributor, or the Reconstruction Finance Corporation.

(c) A person who in good faith lends money on the security of, or finances the sale of, a new passenger automobile.

(d) Persons distraining, levying by execution, attachment, or similar forms of judicial process, or persons repossessing on default.

(e) A person acquiring the automobile through a transfer by will or intestacy, or a transfer by operation of law to a trustee or receiver in bankruptcy, insolvency, or receivership.*

§ 1360.104 *Records.* All persons affected by this Order (§§ 1360.101 to 1360.110, inclusive), shall preserve for not less than two years accurate and complete records concerning inventories and transfers of new passenger automobiles. In addition dealers in automobiles shall keep for the same period such copies of Forms as are required to be retained by them by the terms of this Order.*

§ 1360.105 *Reports.* Persons affected by this Order (§§ 1360.101 to 1360.110, inclusive) shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1360.106 *Administration*—(a) *Personnel.* This Order (§§ 1360.101 to 1360.110, inclusive) shall be administered by the Local Tire Rationing Boards, the Local Tire Rationing Administrator and the State Tire Rationing Administrator, established by Rationing Regulation No. 1, pursuant to Supplementary Order No. M–15–c [1] of the Office of Production Management, and Tire Rationing Regulations,[2] issued December 30, 1941, by the Office of Price Administration, pursuant to the same Order.

(b) *Designation.* After the effective date of this Order (§§ 1360.101 to 1360.110, inclusive) these boards and administrators shall be called respectively the Local Rationing Boards, the Local Rationing Administrator, and the State Rationing Administrators, and shall continue to be organized as provided in the above Rationing Regulations set forth in paragraph (a), except as provided in paragraph (c) of this section.

(c) *Jurisdiction of Boards.* For purposes of this Order each Local Rationing Board shall have jurisdiction over every person applying for a vehicle which is to be garaged or normally stationed in the area which the Board is designated to serve.*

§ 1360.107 *Violations.* Any person who violates any provision of this Order (§§ 1360.101 to 1360.110, inclusive), who, by any act or omission, knowingly falsifies an application, certificate, or any record which he is required to keep by the terms of this Order, or who otherwise knowingly furnishes false information to a Board, State Rationing Administrator, or to the Office of Price Administration, shall be subject to the penalties therefor, including a recommendation to the Attorney General for prosecution pursuant to section 35 A of the Criminal Code (Title 18, U.S.C. Sec. 80).

[1] 6 F.R. 6792.
[2] 7 F.R. 72.

In addition, the Office of Price Administration may deny him the right to receive any new automobiles or any other commodity subject to rationing by the Office of Price Administration and may recommend to the War Production Board that he be denied the right to receive any other materials which are now or in the future may be allocated by that Board.*

§ 1360.108. *Definitions.* When used in this Order (§§ 1360.101 to 1360.110, inclusive), the term:

(a) "Person" means an individual, partnership, corporation, association, or other business entity, or Government agency or subdivision.

(b) "Passenger automobile" means a passenger vehicle propelled by an internal combustion engine and having a seating capacity of not more than 8 (including station wagons and taxicabs, but excluding ambulances).

(c) "New" as applied to a passenger automobile, means any 1942 model passenger automobile, irrespective of the number of miles it has been driven, or any other passenger automobile which has been driven less than 1,000 miles.

(d) "Used" as applied to a passenger automobile, means a passenger automobile other than a new passenger automobile.

(e) "Dealer" means any person regularly engaged in the business of offering passenger automobiles for sale at retail to the public.

(f) "Manufacturer" means any person who manufactures passenger automobiles.

(g) "Distributor" means any person, other than a manufacturer, regularly engaged in the business of selling new passenger automobiles to dealers.

(h) "Transfer" means sell, lease, trade, lend, give, deliver, ship, or physically transfer in any other way which involves the use of the automobile, after the transfer, by a person other than the transferor, or convert to use an automobile held by a manufacturer, distributor, or dealer, if such automobile was not segregated, prior to January 2, 1942, from those held for sale by such person, but does not include delivery to a carrier for shipment, or delivery by a carrier to a consignee, does not include a lease or loan made in good faith for a period of one week or less, and does not include a technical transfer of title for security purposes to a person financing a conditional sale or similar type of transaction, made simultaneously with a transfer of the automobile itself to the conditional-sales buyer.

(i) "Transferor" means any person, whether or not a dealer, making a transfer.

(j) "Board" means Local Rationing Board.*

§ 1360.109 *Effective date of this Order.* This Order (§§ 1360.101 to 1360.110, inclusive) shall take effect on February 3, 1942.

§ 1360.110 *New passenger automobile rationing regulations.* Regulations applicable to this Order (§§ 1360.101 to 1360.110, inclusive) shall be established by this Office by the issuance of *New Passenger Automobile Rationing Regulations*.*

Issued this 30th day of January, 1942.

LEON HENDERSON,
Administrator.

PART 1360—MOTOR VEHICLES AND MOTOR VEHICLE EQUIPMENT

NEW PASSENGER AUTOMOBILE RATIONING REGULATIONS

Pursuant to Rationing Order No. 2 issued by this Office regulations for the rationing of new passenger automobiles are hereby established:

§ 1360.111 *Definitions.* When used in these regulations (§§ 1360.111 to 1360.121, inclusive), the term:

(a) "Person" means an individual, partnership, corporation, association, or other business entity, or Government agency or subdivision.

(b) "Passenger automobile" means a passenger vehicle propelled by an internal combustion engine and having a seating capacity of not more than 8 (including station wagons and taxicabs, but excluding ambulances).

(c) "New" as applied to a passenger automobile, means any 1942 model passenger automobile, irrespective of the number of miles it has been driven, or any other passenger automobile which has been driven less than 1,000 miles.

(d) "Used" as applied to a passenger automobile, means a passenger automobile other than a new passenger automobile.

(e) "Dealer" means any person regularly engaged in the business of offering passenger automobiles for sale at retail to the public.

(f) "Manufacturer" means any person, other than a manufacturer, regularly engaged in the business of selling new passenger automobiles to dealers.

(g) "Distributor" means any person, other than a manufacturer, regularly engaged in the business of selling new passenger automobiles to dealers.

(h) "Transfer" means sell, lease, trade, lend, give, deliver, ship, or physically transfer in any other way which involves the use of the automobile, after the transfer, by a person other than the transferor or convert to use an automobile held by a manufacturer, distributor, or dealer, if such automobile was not segregated, prior to January 2, 1942, from those held for sale by such person, but does not include delivery to a carrier for shipment, or delivery by a carrier to a consignee, does not include a lease or loan made in good faith for a period of one week or less, and does not include a technical transfer of title for security purposes to a person financing a conditional sale or similar type of transaction, made simultaneously with a transfer of the automobile itself to the conditional-sales buyer.

(i) "Transferor" means any person, whether or not a dealer, making a transfer.

(j) "Board" means "Local Rationing Board."

*§§ 1360.111 to 1360.121, inclusive, issued under the authority contained in E.O. Nos. 8734, 8875; 6 F.R. 1917, 4483; W.P.B. Directive No. 1, 7 F.R. 562.

§ 1360.112 *Restriction of transfers*—(a) *Restriction of transfers of new passenger automobiles.* On and after February 2, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall transfer, or accept a transfer, of a new passenger automobile, except as provided in §§ 1360.114 and 1360.115 of these Regulations (§§ 1360.111 to 1360.121, inclusive).

(b) *Transfers.* (1) The word "transfer" is very broadly defined. Thus, it includes not only transfers by a sale, lease, or trade of the automobile, but also by gift from one person to another. Again, if a manufacturer, distributor, or a dealer takes a car out of his stock for his personal or business use, the appropriation of the car to his own use is a transfer, unless the car was specifically put aside for such use prior to January 2, 1942.

Unless specifically exempted, all physical transfers involving a change in the actual use of the car are included. Thus, if a partnership gives what had been exclusively a partnership car to one of the partners for his own use, a transfer has occurred. On the other hand, putting a car in a garage or warehouse, or letting the repairman drive it to his shop, does not involve and actual use by a person other than the transferor, and are thus not transfers within these regulations.

(2) There are certain specific exemptions from the broad definition of "transfer". Delivery to a railroad or other carrier for shipment, and delivery by such carrier to the consignee, are not included. In this situation the real transfer takes place between the consignor and the consignee. A lease or loan made in good faith for a week or less is also not included. This exception allows temporary loans to friends and permits the continued operation of concerns who lease automobiles to the public for short periods of time. The requirement of good faith means that the lease or loan must really be temporary.

If a person continually lends a car to the same person for six days of the week and takes it back on Sundays, he has made a loan for less than a week, but since he is clearly attempting to evade the Regulations, he has not made the loan in good faith and the transaction is a "transfer".

Finally, in the sale of automobiles, where the purchase price is to be paid in installments, a finance company frequently acquires some interest in the car as security for the loan. Here the "transfer" is between the seller and the buyer and any transfer of interest or title in the car to the finance company for security purposes is not a "transfer" as here defined.*

§ 1360.113 *Administration*—(a) *Personnel.* These regulations (§§ 1360.111 to 1360.121, inclusive) shall be administered by the Local Tire Rationing Boards, the Local Tire Rationing Administrators and the State Tire Rationing Administrators, established by Rationing Regulation No. 1, pursuant to Supplementary Order No. M–15–c [1] of the Office of Production Management, and Tire Rationing Regulations,[2] issued December 30, 1941, by the Office of Price Administration, pursuant to the same Order.

(b) *Designation.* After the effective date of Office of Price Administration Rationing Order No. 2 (§§ 1360.101–1360.110, inclusive), these boards and administrators shall be called respectively the Local Rationing Boards, the Local Rationing Administrators, and the State Rationing Administrators, and shall continue to be organized as provided in the above Rationing Regulations, set forth in paragraph (a), except as provided in paragraph (c).

(c) *Jurisdiction of Boards.* For purposes of these Regulations each Local Rationing Board shall have jurisdiction over every person applying for a vehicle which is to be garaged or normally stationed in the area which the Board is designated to serve.*

§ 1360.114 *Eligibility for transfers with certificates*—(a) *Persons who purchased new passenger automobiles on or before January 1, 1942.* This paragraph is designed to permit applicants who have completed the purchase of a new passenger automobile on or before January 1, 1942, but have failed to get delivery, to obtain a certificate entitling them to acquire that particular new passenger automobile. They may now get such a car if they can meet the requirements of this § 1360.114. If, and only if, these requirements are met, may a certificate be issued.

(b) *Persons producing certificates of title or applications therefor.* On and after February 12, 1942 any person who, on or before January 1, 1942, purchased, but did not receive delivery of, a new passenger automobile is eligible to receive a certificate permitting him to acquire such new passenger automobile if he produces before the Board:

(1) A certificate of title or registration for the automobile, in the purchaser's name, issued on or before January 1, 1942, by the state or local agency having jurisdiction over the registration of motor vehicles; or

(2) A written statement by an official of the state or local agency having jurisdiction over the registration of motor vehicles that the purchaser's application for such certificate of title or registration for the automobile had been received by such agency on or before January 1, 1942, which written statement must be accompanied by a certified copy of such application.

A certificate of title or registration issued on or before January 1, 1942, in the purchaser's name, by his state or local agency, is sufficient to entitle the applicant to delivery of a new passenger automobile. The certificate may be presented to the Board either in its original form, or by photostatic or other certified copy. If a certificate of title or registration issued on or before January 1, 1942, is not available but an application for registration was made by the purchaser to such agency on or before January 1, 1942, the statement of any responsible official of the state or local agency to that effect is an acceptable substitute. The original statement of the responsible official must be presented to the Board, and must be accompanied by a photostatic or other certified copy of the purchaser's application for registration.

(c) *Persons producing evidence of other facts entitling them to a transfer.* If the purchaser is unable to produce a certificate of title or registration, or a written statement of application therefor, as set forth in paragraph (b), he may, nonetheless, make himself eligible to acquire the new passenger automobile if he produces before the Board satisfactory evidence, showing compliance with the requirements of paragraphs (d), (e), or (f). Although the purchaser will apply for the certificate, he may utilize the assistance of the dealer in producing the evidence and presenting it to the Board.

(d) *Writings referring to the automobile.* The applicant must produce, as the first of the three main facts (proof of which entitles an applicant to a certificate for a new passenger automobile under paragraph (c)) a written contract, bill of sale, or other writing referring to the automobile claimed by the applicant, executed during the period July 1, 1941–January 1, 1942, inclusive.

This requires that the applicant have some written evidence to prove the existence of the agreement to sell or the sale. As long as the writing refers to the automobile in such a way as to indicate clearly that the automobile was the subject of such an agreement or sale, it may have been executed by the seller or the buyer or both and may take any of a variety of forms. Examples are a signed order, receipt of payment on account of the automobile, bill of sale, or a memorandum of work to be done to prepare the automobile for final delivery.

The writing must show on its face that it was executed during the period July 1, 1941, to January 2, 1942, inclusive. It must be proved by showing the original to the Board, or, if the original is lost or otherwise unavailable, by showing a carbon copy. In either event the Board must be satisfied that the writing is genuine in all respects.

(e) *Documents evidencing the purchase of the automobile.* An applicant for a new passenger automobile who seeks to establish his eligibility under paragraph (c), in addition to producing evidence of the writing under paragraph (d), must offer to the Board one or more of the following:

[1] 6 F.R. 6792.
[2] 7 F.R. 72.

(1) A check for the full purchase price of the automobile, or for a part of the purchase price in the sum of $25 or more, payable to the seller, dated on or before January 1, 1942, and bearing marks showing its deposit by the seller in a bank on or before January 2, 1942; or

(2) The original bound or serially-numbered receipt book, journal or order book, regularly used by the seller, showing a credit entered by the seller on or before January 1, 1941, for the full purchase price of the automobile, or for a part of the purchase price, or for a used car traded in as the full or part purchase price of the new passenger automobile; or

(3) A certificate of title or registration issued on or before January 1, 1942, by the state or local agency having jurisdiction over the registration of motor vehicles, showing a transfer of title from the applicant to the seller of the new passenger automobile, of a used automobile; or

(4) A written statement by an official of the state or local agency having jurisdiction over the registration of motor vehicles that, on or before January 1, 1942, application had been received to transfer the certificate of title or registration of a used automobile from the applicant to the seller of the new automobile, which statement must be accompanied by a certified copy of such application:

Provided, That the Board shall be satisfied, by written statements of seller and applicant, or, other evidence, that the check for all or part of the purchase price, the used car traded in, or the business entry for all or part of the purchase price or for the traded-in car, was part of the transaction of purchasing the new passenger automobile for which a certificate is sought.

The applicant need produce only one of the four listed types of documentary evidence in order to satisfy the requirements of this paragraph (d). As to that type, however, the Board must be fully satisfied that the document sought to be proved is genuine in all respects. If the applicant elects to show entries in a bound or serially-numbered receipt book, journal, or order book, he must produce the original book of account, and must show that it is regularly used by the seller in the course of his business. The requirement that books of account be bound or serially-numbered is to prevent falsification by insertion of entries at a later date than the date on which they purport to have been made. Checks, or certificates of title of registration, may be proved by presenting the original, or a photostatic or other certified copy. Sworn statements by the official of the state or local agency must be proved by the original affidavit.

Whichever of these four listed types of documentary evidence the applicant offers, he must link up such evidence with the contract to sell or sale of the new passenger automobile claimed by him. Such proof may be made by written statement of the seller and applicant, or by other evidence. Thus, the evidence must show that a check in a particular sum was given to the seller in payment for the new automobile now claimed by the applicant, and not for some other purpose. Again, the entry in the book of account for all or part of the purchase price, or for the value of the used car traded in, must be shown to be the price paid for the new automobile claimed by the applicant, and not in settlement of some other transaction with the seller. Finally, where a certificate, or an application for a certificate for a used car is relied upon, the evidence must show that such used car was traded in total or partial payment for the particular new automobile.

(f) *Consignment of automobiles to the seller.* In addition to producing the writing under paragraph (d) and a document evidencing the purchase of the new automobile under paragraph (e), an applicant for a new passenger automobile who seeks to establish his eligibility under paragraph (c), must offer to the Board one of two kinds of evidence of timely delivery to the dealer.

(1) As one alternative he may offer proof that, on or before January 1, 1942, an automobile which answers the description in the contract, bill of sale, or other writing required by paragraph (d), and which is the automobile claimed by the applicant, was delivered by the manufacturer or distributor to the transferor, or to a carrier for shipment to the transferor.

The applicant must show by satisfactory evidence that, on or before January 1, 1942, an automobile answering the description in the written contract, bill of sale, or other writing was delivered by the manufacturer or distributor to the seller, or to a carrier (whether by rail, truck, caravan, or otherwise) for shipment to the seller. This can ordinarily be done by the applicant's producing a bill of lading or accompanying invoice from the manufacturer to the dealer, a warehouse receipt to show storage by the dealer, or a factory record of shipment on or before January 1, 1942, for transmission to the dealer. These documents will ordinarily show the serial or engine number of the automobile for which they were issued, and thus link it to the car which the applicant now seeks to acquire. The applicant should be required to identify an automobile delivered on or before January 1, 1942, with the automobile he now claims. Wherever possible he should show that the serial or engine numbers of the automobiles are identical. If the automobile which the applicant now seeks to acquire cannot be specifically identified with an automobile delivered on or before January 1, 1942, by engine or serial number, the Board must be fully satisfied by other evidence that, in spite of the absence of this evidence, the identity exists.

(2) As an alternative, the applicant may offer, in the case of a specially ordered automobile which answers the description in the contract, bill of sale, or other writing required by paragraph (d), and which is the automobile claimed by the applicant, which automobile varies from standard construction and specifications (in respects other than variations in color, lettering, accessories, and optional equipment), proof that such automobile, on or before January 15, 1942, was delivered by the manufacturer or distributor to the transferor, or to a carrier for shipment to the transferor.

As in the case of a standard automobile, the delivery of an automobile on or before January 15, 1942, must be connected with the automobile now claimed by the applicant by means of engine or serial number, if possible.

In addition, the Board must be satisfied that the automobile shown by the applicant is in reality specially ordered. In order to constitute a specially ordered automobile, an automobile must vary from standard specifications in respects other than variations in color, lettering, accessories, and optional equipment. In other words, the change must be a substantial and not a trivial one.*

§ 1360.115 *Eligibility for transfers without certificates*—(a) *Persons eligible to acquire new passenger automobiles by transfer without certificates.* The following persons are eligible, without a certificate, to acquire a new passenger automobile, but cannot transfer such automobile except in accordance with the provisions of these regulations (§§1360.-111 to 1360.121, inclusive), or any amendments thereof or supplements thereto:

(1) Any person authorized to receive a transfer on behalf of:

(i) The Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civilian Aeronautics Authority, the National Advisory Commission for Aeronautics, or the Office of Scientific Research and Development.

(ii) Government agencies or other persons acquiring new passenger automobiles for export to and consumption or use in any foreign country:

Provided, That, after the War Production Board establishes a system of permits for such persons, only persons identifying themselves by such permits are eligible under this subparagraph (1).

(2) A dealer, manufacturer, distributor, or the Reconstruction Finance Corporation.

(3) A person who in good faith lends money on the security of, or finances the sale of, a new passenger automobile.

(4) Persons distraining, levying by execution, attachment, or similar forms of judicial process, or persons repossessing on default.

(5) A person acquiring the automobile through a transfer by will or intestacy, or a transfer by operation of law to a trustee or receiver in bankruptcy, insolvency, or receivership.

The persons specified in subparagraphs (2), (3), and (4) are not eligible to acquire the automobile for the purpose of using it personally, but only if they are acquiring it in order to resell it. Persons acquiring the automobile by inheritance are not subject to this restriction and may acquire the automobile for their own use. Trustee and receivers, who acquire the automobile as part of the assets of a business, may use the automobile in connection with the operation of the business if they are allowed to do so by the court of their appointment.

All of the persons in this § 1360.115 may resell the automobile to any person designated in this § 1360.115, without certificates, if the procedure for such transfers as set out in § 1360.117 of these regulations is observed.

All persons making or receiving transfers under this § 1360.115 must observe the requirements of § 1360.117 for filling out and filing Form R–203.*

§ 1360.116 *Procedure for transfers with certificates*—(a) *Application.* Any person who believes that he is eligible for the transfer of a particular new passenger automobile in accordance with the provisions of § 1360.114, paragraph (a), may apply to the Board having jurisdiction, under § 1360.113, paragraph (c), for a certificate authorizing such transfer. The application shall be made on Form R–201, to be issued by the Office of Price Administration, and the applicant and the transferor shall give such information as is therein required. All applications on Form R–201 must be filed with the Board before February 26, 1942.

(b) *Certification.* Upon being satisfied that the applicant is subject to its jurisdiction and is eligible for the transfer of a particular new automobile, the Board shall issue a certificate on Form R–202, stating that the applicant is eligible for such transfer, and naming the transferor.

The determination whether the facts set forth in the application exist shall be made upon the basis of the application and all other information which comes to the knowledge of the Board. The applicant may, at the Board's discretion, appear in person or by authorized representative before the Board to answer pertinent questions or to present evidence. In acting upon applications, the Board shall observe the requirements of these regulations (§§ 1360.111 to 1360.121, inclusive) and all amendments or supplementary regulations issued by the Office of Price Administration.

The certificate shall be signed by at least two members of the certifying Board. Prior to delivering the certificate to the applicant, the Board shall require the applicant to sign the certificate in the presence of a member or clerk of the Board.

(c) *Delivery of the automobile.* A certificate of a Board on Form R–202 may be honored only by the transferor named therein. Certificates shall be valid for 30 days from their date of issuance, and shall be void thereafter. Prior to delivering the automobile, the transferor shall require that the applicant sign his name on the certificate. The signature must correspond to the earlier signature of the applicant on the certificate. If the signatures appear to be executed by the same person, the transferor shall complete the transferor's statement on the part of the certificate indicated in Form R–202. The transferor may thereupon deliver the automobile to the applicant, retaining for himself the part of Form R–202 so designated.

(d) *Filing of certificates.* Within 5 days of the receipt of the automobile from the transferor, the transferee shall file the appropriate part of the certificate with the state or local agency having jurisdiction over the registration of motor vehicles. Within the same period the transferor shall file the appropriate parts with the Board designated to serve the area in which the transfer was made. This Board shall note the transfer for its records and then forward the appropriate parts of the certificate to the Board which issued the certificate and the Office of Price Administration, Automobile Inventory Unit, New York, N. Y.

(e) *Posting of issuance of certificates.* At intervals of not less than one week, the Board shall post at its office for a period of at least a week, and shall release to the press, the names of those persons who have been granted certificates pursuant to these regulations, together with the number of automobiles allowed each person.*

§ 1360.117 *Procedure for transfers without certificates*—(a) *Documents required.* Any person receiving a transfer made pursuant to § 1360.115 shall fill out and execute in triplicate, Form R–203, to be issued by the Office of Price Administration, giving the information required by the Form and obtaining the necessary supporting statement required on the Form. The transferor, upon delivery of the automobile, shall retain for himself one copy of Form R–203.

(b) *Filing of documents.* If a dealer makes a transfer pursuant to § 1360.115 he shall, within 5 days of the transfer, file one copy of Form R–203 with the state or local agency having jurisdiction over the registration of motor vehicles, if a change of registration is involved, and two copies with the Board designated to serve the area in which the transfer was made. This Board shall forward one copy to the Office of Price Administration, Automobile Inventory Unit, New York, N. Y. If the transferor is a person other than a dealer, or if the transferor refuses or is unable to fill out the statement on the Form, the transferee shall file the documents with the agencies listed.*

§ 1360.118 *Records and reports.*—(a) *Records.* All persons affected by these regulations (§§ 1360.111 to 1360.121, inclusive) shall preserve for not less than two years accurate and complete records concerning inventories and transfers of new passenger automobiles. In addition, dealers in automobiles shall keep for the same period such copies of Forms as are required to be retained by them by the terms of these regulations.

(b) *Reports.* Persons affected by these regulations shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1360.119 *Appeals*—(a) *Grounds for appeal to the State Rationing Administrator.* Any applicant for a new passenger automobile whose application has been denied by the Board and who believes that such action is in conflict with these Regulations (§§ 1360.111 to 1360.121, inclusive) may file an appeal from such action with the State Rationing Administrator.

(b) *Filing of appeals.* (1) An appeal from an action taken by a Board may be filed only within thirty days after such action has been taken.

(2) The appellant shall file a statement in writing and under oath setting forth the specific section of these Regulations which he believes to be inconsistent with the action taken by the Board and stating in full the facts on which he grounds his appeal.

(c) *Action on appeals.* The State Rationing Administrator may require the Board or the appellant to furnish pertinent information, which may be in addition to that furnished before the Board, with respect to any appeal pending before him. The State Rationing Administrator may affirm the decision of the Board, or may reverse or modify such decision and remand the matter to the Board for consistent action. The State Rationing Administrator's ruling shall be in writing and shall be communicated to the appellant and to the Board. If he reverses or modifies the decision, he shall send a copy of his ruling to the Office of Price Administration. He shall act on the appeal within thirty days of its filing.

(d) *Review by the Office of Price Administration.* Such appellant, if he feels aggrieved by such ruling of the State Rationing Administrator, may, within thirty days thereafter, file a written petition for review with the Office of Price Administration. If the Office of Price Administration, in its discretion, elects to review the matter, it may require the Board, the appellant, and the State Rationing Administrator to furnish pertinent information in writing or otherwise. The Office of Price Administration may affirm the ruling of the State Rationing Administrator, or may reverse or modify such ruling and remand the matter to the Board for consistent action. The Office of Price Administration's ruling shall be in writing and shall be communicated to the appellant, to the Board, and the State Rationing Administrator.*

§ 1360.120 *Violations.* Any person who violates any provision of these regulations (§§ 1360.111 to 1360.121, inclusive), who, by any act or omission, knowingly falsifies an application, certificate, or any record which he is required to keep by the terms of these regulations or who otherwise knowingly furnishes false information to a Board, State Rationing Administrator, or to the Office of Price Administration, shall be subject to the penalties therefor, including a recommendation to the Attorney General for prosecution pursuant to section 35 A of the Criminal Code (Title 18, U.S.C. Sec. 80).

In addition, the Office of Price Administration may deny him the right to receive any new automobiles or any other commodity subject to rationing by the Office of Price Administration and may recommend to the War Production Board that he be denied the right to receive any other materials which are now or in the future may be allocated by that Board.

§ 1360.121 *Effective date of new passenger automobile regulations.* These regulations (§§ 1360.111 to 1360.121, inclusive) shall take effect on February 2, 1942.*

Issued this 30th day of January 1942.

LEON HENDERSON,
Administrator.

PART 1380—HOUSEHOLD AND SERVICE INDUSTRY MACHINES

PRICE SCHEDULE NO. 66.—DOMESTIC WASHING MACHINES AND IRONING MACHINES

Manufacturer's prices for domestic laundry equipment, which includes washing machines and ironers, advanced approximately 12% on a weighted average basis between January 1 and September 15, 1941. By letter of September 16, 1941, to all industry members, the Office of Price Administration requested that it be consulted prior to the institution of any price increases. This served to check the upward trend of prices. Subsequently, this Office made the same request to the manufacturers of wringers, tubs and motors, the three major component parts of the washing machine. This has had a stabilizing effect upon manufacturing costs.

On October 29, 1941, the Office of Production Management issued an order cutting production of domestic laundry equipment to almost 80% of that in the base year ending June 30, 1941. Subsequent orders have cut production down to approximately 60%. With further restriction of production likely, it becomes necessary to take effective steps to prevent inflationary price increases. This Schedule has been determined after industry-wide studies of price, cost, and profit trends, and after consultation with members of an industry panel on January 21.

In order to prevent nullification of this Schedule, changes in specifications are temporarily restricted.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1380.1 *Maximum prices for washing machines and ironing machines.* On and after February 9, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no manufacturer shall sell, offer to sell, deliver or transfer any washing machine or ironing machine, at a price higher than the maximum price:

(a) *Models in price list between October 1–October 15, 1941.* The maximum price for any model washing machine or ironing machine, in a price list of the manufacturer in effect at any time during the period October 1–October 15, 1941, inclusive, shall be the highest price quoted in any such price list for such model to the same person or to a person in the same general class, except that, in the case of the Apex Electrical Manufacturing Company the maximum price for any such model shall be the price in effect on February 2, 1942.

(b) *Other models sold between January 1–October 15, 1941.* The maximum price for any model washing machine or ironing machine, not in a price list of the manufacturer in effect at any time during the period October 1–October 15, 1941, inclusive, but sold, or contracted to be sold, by him during the period January 1–October 15, 1941, inclusive, shall be the highest net price, f. o. b. manufacturer's point of shipment at which such model was sold, or contracted to be sold, by him during the period October 1–October 15, 1941, inclusive, to the same person or to a person in the same general class, or, if there was no such person, to any person; or if such model was not sold, or contracted to be sold, by him during such period, the highest net price f. o. b. manufacturer's point of shipment at which such model was sold, or contracted to be sold, by him during the period January 1–September 30, 1941, inclusive, to the same person or to a person in the same general class, or, if there was no such person, to any person.

(c) *Models first offered for sale between October 16, 1941–February 8, 1942.* The maximum price for any model washing machine or ironing machine offered for sale for the first time between October 16, 1941, and February 8, 1942, inclusive, shall be (1) the price already approved in writing by the Office of Price Administration; or (2) until the Office of Price Administration has approved a price on the basis of a report to it in accordance with Section 1380.5 (a) (2), the highest net price, f. o. b. manufacturer's point of shipment, at which such model was sold, or contracted to be sold, by the manufacturer prior to February 9, 1942, (or, if there was no such sale, or contract of sale, the highest net price f. o. b. manufacturer's point of shipment quoted in writing by the manufacturer for such model at any time prior to February 9, 1942) to the same person or to a person in the same general class, or, if there was no such person, to any person; and unless such report has been submitted by February 25, 1942, no sale, offer to sell, delivery or transfer of such model shall be made thereafter until such report is submitted; and (3) after such approval, shall be such approved price.

(d) *Cost-plus contracts and sales after the termination of cost-plus contracts—(1) Completion of outstanding cost-plus contracts.* The maximum price for any model washing machine or ironing machine delivered by the manufacturer after February 8, 1942, in order to complete a cost-plus contract outstanding on January 21, 1942, shall be determined by the terms of such contract: *Provided*, That no change in the terms of any such contract, which would increase the maximum price, shall be made by amendment, substitution of a new contract or otherwise.

(2) *Future cost-plus contracts.* On and after February 9, 1942, no washing machine or ironing machine shall be sold, delivered or transferred under a cost-plus contract not outstanding on January 21, 1942, until the manufacturer has submitted such contract to the Office of Price Administration, and the Office of Price Administration has approved such contract in writing.

(3) *Sales after termination of cost-plus contracts.* The maximum price for any model washing machine or ironing machine referred to in sub-paragraphs (1) or (2) of this section, which on or after February 9, 1942, is sold, offered for sale, delivered or transferred upon terms other than cost-plus and whose maximum price is not otherwise determinable, shall be the price approved by the Office of Price Administration after the manufacturer has submitted to it an application containing (i) the proposed price and specifications of such model, and (ii) such other data as the Office of Price Administration may request; and no sale, offer to sell, delivery or transfer of such model shall be made until such approval shall have been given.

(e) *Other models in process of manufacture.* The maximum price for any model washing machine or ironing machine in process of manufacture during the period October 1, 1941–February 8, 1942, inclusive, and offered for sale for the first time on or after February 9, 1942, other than a model referred to in paragraph (g) of this Section, shall be the price approved in writing by the Office of Price Administration after the manufacturer has submitted to it an application containing (1) the proposed price and specifications of such model and (2) such other data as the Office of Price Administration may request; and no sale, offer to sell, delivery or transfer of such model shall be made until such approval shall have been given.

(f) *Models involving elimination of features or changes in specifications which reduce quality, convenience of operation or efficiency of performance.* The maximum price for any model washing machine or ironing machine referred to in § 1380.3 (b) (2) shall be such price as is approved by the Office of Price Administration pursuant thereto.

(g) *Models incorporating changes in specifications which do not reduce quality, convenience of operation or efficiency of performance.* The maximum price for any model washing machine or ironing machine offered for sale for the first time on or after February 9, 1942, which incorporates any of the changes in specifications referred to in § 1380.3 (a) or (b) (1), shall be the maximum price chargeable for such model prior to the incorporation of any such change as determined by paragraphs (a), (b), (c), (d), (e) or (f) of this section.*

* Sections 1380.1 to 1380.10, inclusive, issued pursuant to authority contained in Executive Orders Nos. 8734, 8875, 6 F.R., 1917, 4483.

§ 1380.2 *Less than maximum prices.* Lower prices than those set forth in § 1380.1 may be charged, demanded, paid or offered.*

§ 1380.3 *Limitation of changes in specifications of washing machines and ironing machines.* Between February 9, 1942, and December 31, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no manufacturer shall sell, offer to sell, deliver or transfer, any washing machine or ironing machine differing in specifications from a washing machine or ironing machine referred to in § 1380.1 (a), (b), (c), (d) and (e), except as provided in paragraphs (a) and (b) of this section.

(a) *Non-substantial changes.* A manufacturer may make any of the following changes in specifications of any model washing machine or ironing machine, provided that quality, convenience of operation and efficiency of performance are not reduced and that he submits to the Office of Price Administration a report of each such change as required by § 1380.5 (b):

(1) Change in name plate.
(2) Change in decal.
(3) Change in color, trim or hardware.
(4) Change in any part (including a feature) other than a major component part.

Provided, further, That if the Office of Price Administration determines that any such change results in the reduction of quality, convenience of operation, or efficiency of performance, the manufacturer shall not sell, offer to sell, deliver or transfer such model at a price higher than that stipulated by the Office of Price Administration.

(b) *Changes in specifications of major component parts and elimination of features.* (1) A manufacturer may change the specifications of any major component part (as that term is defined in § 1380.9 (g)) of any model washing machine or ironing machine: *Provided*, That he submits to the Office of Price Administration, a report as required by § 1380.5 (b) showing each such change made and continuing satisfactory evidence that such change will not reduce the quality, convenience of operation, or efficiency of performance of such model and that such change (i) is necessary because (a) the part or material previously used is unavailable or prohibitive in cost, or (b) the material previously used is so restricted by a priority or allocation order or other regulation of a Federal agency as to require the change, or (ii) is desirable because it will result in substantial conservation of strategic materials: *Provided further*, That if the Office of Price Administration determines that any such change results in the reduction of quality, convenience of operation, or efficiency of performance the manufacturer shall not sell, offer to sell, deliver or transfer such model at a price higher than that stipulated by the Office of Price Administration.

(2) In the event that the manufacturer proposes to make a change in the specifications of any major component part of any model which would reduce quality, convenience of operation, or efficiency of performance or to eliminate any feature (as that term is defined in § 1380.9 (h)) from any model, he should submit to the Office of Price Administration an application containing the proposed price for such model and satisfactory evidence (i) that such change or elimination is necessary because (a) the part, feature or material previously used is unavailable or prohibitive in cost, or (b) the material previously used is so restricted by a priority or allocation order or other regulation of a Federal agency as to require the proposed change, or (ii) that such change or elimination is desirable because it will result in substantial conservation of strategic materials. If the Office of Price Administration approves the application he may sell, offer to sell, deliver or transfer such model at a price no higher than the price so approved.*

§ 1380.4 *Records.* Every manufacturer, making sales of washing machines or ironing machines after February 8, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such sale, showing the date thereof, the name and address of the buyer, the model number or other designation of each model sold, the price received for each, the quantity sold and any discounts, allowances, or charges.*

§ 1380.5 *Reports—(a) Models offered for sale between January 1, 1941–February 8, 1942.* (1) On or before February 25, 1942, every manufacturer shall submit to the Office of Price Administration a report of each model washing machine and ironing machine whose maximum price is determined by § 1380.1 (a) or (b) showing the maximum price thus established and the specifications for each such model.

(2) On or before February 25, 1942, every manufacturer shall submit to the Office of Price Administration a report of each model washing machine and ironing machine whose temporary maximum price is determined by § 1380.1 (c) (2) showing the temporary maximum price thus established and the specifications for each such model.

(3) Manufacturers who have already submitted to the Office of Price Administration any of the information in subparagraphs (1) and (2) of this section need not duplicate it, but shall make reference to the information already submitted.

(b) *Changes in specifications.* On or before March 10, 1942, every manufacturer shall submit to the Office of Price Administration, a report of each change in specifications made in any model washing machine or ironing machine between February 9, 1942, and February 28, 1942, inclusive, containing the information required by § 1380.3 (a) or (b) (1), and on or before the tenth day of each May, July, September, November, January and March thereafter, a similar report covering the two months immediately preceding the month in which each such report is made.

(c) *Cost-plus contracts.* On or before February 25, 1942, every manufacturer shall submit to the Office of Price Administration a copy of each of his cost-plus contracts for the sale of washing machines or ironing machines, outstanding on January 21, 1942.

(d) *Discontinued models.* (1) On or before March 1, 1942, every manufacturer who has discontinued production of any model washing machine or ironing machine offered for sale during the period January 1, 1941—February 28, 1942, inclusive, shall submit a report to the Office of Price Administration containing a reference to such model, the date of and the reason for discontinuing production, and the total number of completed units of such model produced by him during such period.

(2) At least 10 days after a manufacturer discontinues production of any model washing machine or ironing machine after February 28, 1942, he shall submit a report to the Office of Price Administration containing a reference to such model, the date of and the reason for discontinuing production, and the total number of completed units of such model produced by him from January 1, 1941, to the date of discontinuance.

(e) *Monthly output of washing machines and ironing machines.* On or before February 15, 1942, and on or before the fifteenth day of each month thereafter, every manufacturer shall report to the Office of Price Administration the total number of completed units of each model washing machine and ironing machine produced by him in the preceding month. Such report shall refer to the model number or other appropriate designation of each such washing machine or ironing machine. If a report containing such information is required to be submitted to any other Federal agency, a copy thereof may be filed with the Office of Price Administration instead of a separate report.

(f) Persons affected by this Schedule shall submit such other reports to the Office of Price Administration as it may, from time to time, require.*

§ 1380.6 *Evasion.* The limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with the manufacture or assembling of washing machines or ironing machines by deterioration of quality or performance, or in connection with a purchase, sale, delivery or transfer of washing machines or ironing machines, alone or in conjunction with any other article, or by way of any commission, service, transportation, or other charge, or premium, or other privilege or by tying-agreement or other trade understanding, or by making discounts, or allowances of any sort, or other terms and conditions of sale, less favorable to the purchaser than those available or in effect on October 1, 1941; or by any other means.*

§ 1380.7 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that

the Congress and the public are fully informed thereof; (b) that the powers of Government, both State and Federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political sub-divisions of state, county and local governments by calling to the attention of the proper authorities failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits; and (d) that the procurement services of the Government, both State and Federal, are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule.

Persons who have evidence of the offer, receipt, demand, or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation or manipulation of the prices of washing machines or ironing machines, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1380.8 *Modification of the Schedule.* Persons complaining of hardships or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof, or exception therefrom: *Provided,* That no applications under this section will be considered unless filed by persons complying with this Schedule.*

§ 1380.9 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity;

(b) "Manufacturer" means any person operating a plant, factory, or other establishment engaged in the manufacture, or assembling of washing machines or ironing machines; or any person who resells washing machines or ironing machines to any person other than a retailer or ultimate consumer.

(c) "Washing machine" means a mechanically operated machine used in the home for washing clothes and other household articles;

(d) "Ironing machine" means a mechanically operated machine used in the home for ironing clothes and other household articles;

(e) "Model" means any washing machine or ironing machine offered for sale as a distinct item.

(f) "Any model washing machine or ironing machine in process of manufacture" means any model for which the manufacturer has obtained or contracted for patterns, tools, dies or parts, not otherwise useable by him.

(g) "Major component part" means (1) in the case of a washing machine, the transmission, tub, cover, wringer and roll, agitator, motor, base or legs; and (2) in the case of an ironing machine, the transmission, base, legs, roll, shoe or cover.

(h) "Feature" means (1) in the case of a washing machine, the timer, off and on switch, overload switch, cord reel, or thermometer; and (2) in the case of an ironing machine, thermostatic controls, lap shelf, end shelves, switches, roll speeds, clothes racks, porcelain table top, shoe edge protector, light or emergency shoe release.

§ 1380.10 *Effective date of this Schedule.* This Schedule shall become effective February 9, 1942

Issued this 31st day of January 1942.

CHAPTER XIII—OFFICE OF PETROLEUM COORDINATOR FOR NATIONAL DEFENSE

[Recommendation No. 30]

PART 1508—MARKETING

MARKETING MATERIALS

To all persons supplying materials for the marketing of petroleum products.

Conservation Order M-68-c[1] of the Office of Production Management prohibits the use of materials for construction, reconstruction, expansion, remodeling, replacement, or improvement of facilities used in marketing petroleum products except in specified cases.

The removal by the person supplying materials used in marketing petroleum products, on the termination of the account relationship with the operator of such materials, may prevent such operator from operating even through new sources of supply unless he can procure materials pursuant to an exception in Conservation Order M-68-c.

Therefore, pursuant to the President's letter of May 28, 1941, establishing the Office of Petroleum Coordinator for National Defense, I do hereby recommend that immediately and until further notice:

§ 1508.12 *Definitions.* The terms "person", "marketing", "petroleum", "operator", and "material" are used herein as defined in Conservation Order M-68-c of the Office of Production Management issued January 14, 1942.*

*§§ 1508.12 to 1508.14, inclusive, issued under the authority contained in the President's letter of May 28, 1941, to the Secretary of the Interior (6 F.R. 2760).

§ 1508.13 *Notice of intention to remove.* No person having the right to remove from the premises of any operator any material operated by such operator, whether by reason of the termination of a supply arrangement at the election of either, or for other reason, shall do so until he shall have given reasonable notice in writing, not less than thirty days, of his intention so to remove such material, or until he shall have received the prior consent in writing of such operator.*

§ 1508.14 *Option in operator.* Any operator having received notice from any person pursuant to § 1508.13 of intention to remove any material shall have the option for the period fixed in the notice, but not more than sixty days from the giving of notice, to purchase or complete the purchase, or procure another person to purchase or complete the purchase, of the material covered by such notice, and on the exercise of such option, such person shall sell or complete the sale of the material covered thereby in accordance therewith at a reasonable price based on original cost less reasonable depreciation. During any such option period, the operator shall have the right to use the installed material and to authorize its use by any person for the purpose of supplying the operator with petroleum.*

RALPH K. DAVIES,
Deputy Petroleum Coordinator for National Defense.

JANUARY 29, 1942.

TITLE 36—PARKS AND FORESTS

CHAPTER I—NATIONAL PARK SERVICE

PART 3—NATIONAL CAPITAL PARK REGULATIONS

Amendments

Pursuant to the authority contained in the act of February 26, 1925 (43 Stat. 983, 40 U.S.C. 4), and Executive Order No. 6166, June 10, 1933 (5 U.S.C. 132 note) Part 3 of Title 36, Code of Federal Regulations, is amended as follows:

1. Section 3.7 is amended to read as follows:

§ 3.7 *Nuisances.* (a) The committing of a nuisance of any kind is prohibited.

(b) All persons are prohibited from engaging in any disorderly conduct. (27 Stat. 323)

(c) Throwing stones or other missiles is prohibited. (27 Stat. 322)

(d) Throwing or leaving paper, fruit skins, or other rubbish anywhere except in the receptacles provided for the purpose, or the placing of any refuse therein brought from private property in the vicinity, is prohibited.

(e) Spitting upon the walks or paths is prohibited.

(f) Lying upon any bench or settee is prohibited.

(g) Bathing is prohibited, except where specifically authorized.

(h) No person shall enter the waters of the Tidal Basin or the Potomac River from the wall bounding it, except for the purpose of saving a drowning person.

(i) The committing of any obscene or indecent act is prohibited. (27 Stat. 324) Any person violating the provisions of this paragraph shall, upon conviction, be punished by a fine of not more than $250.

(j) No person shall throw, drop, or cause to be thrown or dropped, any breakable article such as glass, pottery, etc., or any sharp article which may cause injury to the person or property of others, upon a park road, path, or walk. Any person violating the provisions of this paragraph shall, upon conviction thereof, be punished by a fine of not less than $10 nor more than $100.

(k) Congregating or loitering in or about any comfort station in any public park in such a manner as to obstruct the proper use thereof, or to the annoyance of the people who frequent said comfort station, is prohibited. Any person violating the provisions of this paragraph shall be punished upon conviction by a fine of not more than $25.

(l) Parades, ceremonies, entertainments, and functions of all kinds are prohibited unless a permit issued by the authority of the Superintendent is obtained.

(m) The holding of meetings, parades, ceremonies, entertainments and functions of all kinds is prohibited on West and South Executive Avenues and on State Place. Any person or persons violating the provisions of this paragraph shall, upon conviction, be punished by a fine of not more than $250.

(n) Public meetings and assemblies may be held and speeches and the expression of views publicly may be made without any permit in the following places, which shall be open and available for such purposes at all times to any person, group of persons or organizations:

Franklin Park. On the north-south center walk between Eye Street and the center display fountain. (Approximately 100 feet north of the north curb line of Eye Street.)

Judiciary Park. On the north-south axis of the park between E Street and the statue of Jose de San Martin.

Smithsonian Grounds. In the northeast corner of the park and adjacent to Constitution Avenue and 9th Street, Northwest.

United States Reservation No. 46. North side of Pennsylvania Avenue, west of 8th Street, and south of D Street, Southeast.

(o) Public meetings and assemblies may be held and speeches and the expression of views publicly may be made in the following places, which shall be open and available for such purposes at all times to any person, group of persons or organization, subject to the condition that a permit therefor be first obtained from the Superintendent of the National Capital Parks:

Anacostia Park west of 11th Street.
Polo Field.
Banneker Recreation Center, north side.
Monument Grounds, Sylvan Theater.
Water Gate.
Fort Bunker Hill—Amphitheater.

The Superintendent may refuse to grant a permit for the above-named places only if a prior application for the use of the same place at the same time has been made and such prior application has been or will be granted. In applying for such permit the applicant shall comply with the provisions of § 3.10 (h), and shall specify the time and place desired.

(p) Public meetings and assemblies may be held and speeches and the expression of views publicly may be made in any place other than the areas described in paragraphs (n), (o), and (q) of this section subject to the condition that a permit therefor be first obtained from the Superintendent of the National Capital Parks. The Superintendent shall forthwith issue a permit for such a place unless a prior application for the same time and place has been made which has been or will be granted, or unless, in his judgment, the permit should be refused because of traffic conditions, or because the particular use to which the area is primarily devoted makes its use for public gatherings contrary to the comfort, convenience and interest of the general public. In applying for such permit the applicant shall comply with the provisions of § 3.10 (h), and shall specify the time and place desired.

(q) Public gatherings of any kind and the making of speeches are prohibited in the following places because of traffic conditions, or because the particular purpose to which the area is primarily devoted makes its use for public gatherings contrary to the comfort, convenience and interest of the general public:

Lafayette Park.
Sherman Square.
Fifteenth Street and Pennsylvania Avenue Northwest.
Farragut Park.
Rawlins Park.
Mt. Vernon Park.
Stanton Park.
The paved area in the Mall near Second Street.

2. Section 3.10 (c) and (d) is amended to read as follows:

§ 3.10 *Miscellaneous; penalties.*

* * * * *

(c) The display of any form of commercial advertisement is prohibited.

(d) The distribution in any manner of any form of commercial advertising matter is prohibited.

* * * * *

JOHN J. DEMPSEY,
Acting Secretary of the Interior.

THE WHITE HOUSE,
December 23, 1941.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

CHAPTER I—VETERANS' ADMINISTRATION

PART 2—ADJUDICATION: VETERANS' CLAIMS

SERVICE REQUIREMENTS

§ 2.1000 *World War.* The beginning and termination dates of the World War are April 6, 1917, and November 11, 1918, but as to service in Russia, the ending date is April 1, 1920. Except as to emergency officers retirement pay, reenlistment in the military or naval service on or after November 12, 1918, and before July 2, 1921, where there was prior service between April 6, 1917, and November 11, 1918, shall be considered as World War service under the laws providing compensation or pension for World War veterans and their dependents. (February 1, 1942) (48 Stat. 9; 38 U.S.C. 707)

JURISDICTION

§ 2.1010 *Adjudication of applications.* Applications for disability compensation or pension will be adjudicated in the appropriate field station when the applicant's entire military or naval service was subsequent to July 15, 1903, or Coast Guard service subsequent to January 27, 1915, except when jurisdiction is otherwise vested in central office under § 4.2025. (February 1, 1942) (48 Stat. 9; 38 U.S.C. 707)

PART 4—ADJUDICATION: VETERANS' CLAIMS

CENTRAL OFFICE SECTION

Jurisdiction

§ 4.2025 *Jurisdiction of the Claims Division, Central Office.* Within the jurisdiction of the claims division, central office, including the central disability board, will be included claims for disability compensation, pension, and retirement pay of the following classes:

(a) Where there was any service prior to July 16, 1903.

(b) Where the veteran is an employee of the Veterans' Administration in the classified service or for ninety days continuously in the unclassified service.

(c) Where rights have been forfeited under any act.

(d) Where the veteran is a claimant for retirement under section 5, Public No. 5, Public No. 18, 76th Congress.

(e) Where the veteran resides without the continental limits of the United States.

(f) Where the veteran resides in the District of Columbia.

(g) Claims under section 31, Public No. 141, 73d Congress, as amended by section 12, Public No. 866, 76th Congress. (See § 2.1005 (B).)

(h) Emergency officers retirement as provided by § 3.1350.

(i) Determination whether the veteran was insane at time of commission of offense resulting in discharge otherwise precluding the award of disability compensation or pension under Public No. 2 and Public No. 141, 73d Congress, as amended. (See currently effective adjudication procedure.)

(j) Where the applicant's entitlement to pension under the General Law, the Act of 1862, including the amendments thereto, is an issue.

(k) Where the protection provided by Public No. 788, 74th Congress, relative to the General Law rate is for application.

(l) Where there is entitlement under the Revised Statutes. (See §§ 4756 and 4757.)

(m) Where there is entitlement pursuant to special acts.

(n) Any claim not otherwise under the jurisdiction of central office referred by competent authority for action. (February 1, 1942) (48 Stat. 9; 38 U.S.C. 707)

TITLE 49—TRANSPORTATION AND RAILROADS

CHAPTER I—INTERSTATE COMMERCE COMMISSION

PART 120—ANNUAL, SPECIAL OR PERIODICAL REPORTS

ANNUAL REPORTS BY LESSORS TO STEAM RAILWAY COMPANIES

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 27th day of January, A. D. 1942.

The subject of the requirements of annual reports from Lessors to Steam Railway Companies being under consideration, the following order was entered:

It is ordered, That the order of this Commission dated March 1, 1941, In the Matter of Annual Reports from Lessors to Steam Railway Companies and corresponding sections of the Code of Federal Regulations be, and hereby are, annulled, effective January 1, 1942, and the following order shall become effective.

§ 120.14 *Form prescribed for lessors to steam roads.* (a) All lessors to steam railway companies within the scope of section 20, Part I of the Interstate Commerce Act are required to file an annual report for the year ended December 31, 1941, and for each succeeding year until further order, in accordance with Annual Report Form E (Railway Lessor Companies) which is hereby approved and made a part of this order.[1]

(b) The annual report shall be filed, in duplicate, in the Bureau of Statistics, Interstate Commerce Commission, Washington, D. C., on or before March 31 of the year following the one to which it relates. (Sec. 20, 24 Stat. 386, sec. 7, 34 Stat. 593, 35 Stat. 649, sec. 14, 36 Stat. 555, sec. 1, 38 Stat. 1196, 39 Stat. 441, secs. 434–438, 41 Stat. 493, 494; 49 U.S.C. 20 (1)–(10)).

RESTRICTIONS ON CERTAIN TRANSACTIONS INVOLVING PROPERTY IN WHICH CERTAIN FOREIGN COUNTRIES, OR ANY NATIONAL THEREOF, MAY HAVE AN INTEREST[2]

Section I, as amended,[3] is further amended by changing the designation of paragraph 1 to 1a and adding a new subparagraph *b*, as follows:

SECTION I

1a *Executive Orders and Treasury Department Regulations.*

* * * * *

b *Philippine Islands.* In view of the situation created by the temporary enemy occupation of important parts of the Philippine Islands, the Treasury Department has issued a circular calling attention to the fact that Philippine assets have been automatically frozen under the provisions of Executive Order No. 8389, as amended, and that January 1, 1942, would be regarded as the effective date of the freezing regulations as applied to the Philippines. In view of General License No. 80, dated January 5, 1942 (7 F.R. 147), issued by the Treasury Department, the freezing restrictions will not affect Philippine citizens within the United States or within the generally licensed trade area (R.S. 161; 5 U. DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. B–193]

IN THE MATTER OF W. R. NALL, CODE MEMBER

NOTICE OF AND ORDER FOR HEARING

1. Under the provisions of the Bituminous Coal Act of 1937 (the "Act"), district boards are authorized in appropriate cases to file complaints of violations of the Act, the Bituminous Coal Code (the "Code") and the rules and regulations of the Bituminous Coal Division (the "Division").

2. The Division on August 14, 1941, referred to District Board No. 17 information in its possession bearing on whether or not violations of section 4 II (e) of the Act, and Part II (e) of the Code had been committed by W. R. Nall, the Code member above named (hereinafter referred to as the "Code member"), who operates the Twelve Mile Mine, Mine Index No. 344, located in Rio Blanco County, Colorado, Subdistrict No. 17 of District No. 17, in connection with sales subsequent to September 30, 1940, of coal produced at his Twelve Mile Mine below the effective minimum prices therefor, including sales to various purchasers during the period March 1 to May 30, 1941, both dates inclusive, of (a) approximately 135.32 tons of lump coal, Size Group No. 2, prepared over a 3" bar screen at $3.50 per net ton f. o. b. the mine, whereas the effective minimum price for said coal was and is $3.65 per net ton f. o. b. the mine; and (b) approximately 212.9 tons of nut coal, Size Group No. 5, screened through a 3" bar screen and over a 1" bar screen at $3.00 per net ton f. o. b. the mine, whereas the effective minimum price for said coal was and is $3.25 per net ton f. o. b. the mine, resulting in violations of section 4 II (e) of the Act and Part II (e) of the Code.

3. By letter dated October 1, 1941, the Division notified said Board that unless it took action on this matter within fifteen (15) days from the date of said notification, the Division would take such action in lieu of the Board, if it deemed it to be appropriate.

4. District Board No. 17 has not taken any action on this matter.

5. Section 6 (a) of the Act provides in part that in the event that a district board shall fail for any reason to take action authorized or required by this Act, then the Division may take such action in lieu of the district board.

Now, therefore, District Board No. 17 having failed to take action as authorized or required by the Act on the matters hereinbefore described, the Division finds it necessary in the proper administration of the Act to take action thereon in lieu of the Board, as in this Notice of and Order for Hearing provided, pursuant to section 6 (a) and other pertinent provisions of the Act for the purpose of determining

(a) whether or not the code member has wilfully violated section 4 II (e) of the Act and Part II (e) of the Code in connection with the transactions referred to above; and

(b) whether or not in the event that the Code member is found to have so violated the Act and the Code, an order should be entered revoking the Code membership of W. R. Nall, or directing W. R. Nall to cease and desist from violating the Act and the Code and the rules and regulations thereunder.

It is hereby ordered, That a hearing pursuant to sections 4 II (j), 5 (b), and 6 (a), and other pertinent provisions of the Act to determine whether or not the aforementioned Code member has committed the violations in the respects heretofore described and whether or not the Code Membership of said Code member should be revoked or an order should be entered directing the Code member to cease and desist from violating the Act and the Code and rules and regulations of the Division thereunder, be held on March 13, 1942, at 10 a. m. at a hearing room of the Division at the Federal Court Room, Federal Building, Grand Junction, Colorado.

It is further ordered, That Scott A. Dahlquist or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, to continue said hearing from time to time and to such places as he may direct by announcement at said hearing or any adjourned hearing, or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions, and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code member and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Act may file a petition for intervention not later than five (5) days before the date set for hearing herein.

Notice is hereby given that answer setting forth the position of the Code member with reference to the matters hereinbefore described must be filed with the Division at its Washington Office or with one of the Statistical Bureaus of the Division within twenty (20) days after date of service of a copy hereof on the Code member; and that any failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission by the Code member of the commission of the violations hereinbefore described and a consent to the entry of an appropriate order thereon.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matter specifically alleged herein, other matters incidental and related thereto, whether raised by amendment, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Dated: January 28, 1942.

IN THE MATTER OF RIDER COAL COMPANY, DEFENDANT

MEMORANDUM OPINION AND ORDER REOPENING THE HEARING

This proceeding was instituted upon a complaint filed with the Bituminous Coal Division on March 27, 1941, pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, by District Board 2, alleging that the defendant, a code member in District 2, had wilfully violated the provisions of the Bituminous Coal Code or Rules and Regulations thereunder, and praying that the Division either cancel and revoke the defendant's code membership or, in its discretion, direct the defendant to cease and desist from violations of the Code and Rules and Regulations thereunder.

Pursuant to Orders of the Director, a hearing in this matter was held on June 17, 1941, before Charles O. Fowler, a duly designated Examiner of the Division, at a hearing room thereof in Uniontown, Pennsylvania. District Board 2 and the defendant were afforded full opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. The defendant appeared and participated in the hearing.

On November 7, 1941, the Examiner made and entered his Report, Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendation in this matter, in which he found that the defendant had wilfully violated the provisions of the Act and the Code, and recommended that the defendant's code membership be revoked and cancelled. An opportunity was afforded to all parties to file exceptions thereto and supporting briefs. No such exceptions or briefs were filed.

The undersigned, on December 31, 1941, entered an Order approving and adopting the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner, and revoking and cancelling the defendant's code membership. The Order of December 31, 1941, further provided that, pursuant to section 5 (c) of the Act, the defendant, prior to reinstatement to membership in the Code, must pay to the United States a tax in the amount of $1,350.12.

On January 14, 1942, District Board 2 filed a petition requesting that this proceeding be reopened for the receipt of additional and new evidence; that the undersigned reconsider the evidence heretofore adduced in the light of such additional and new evidence; that the undersigned modify the Order entered herein on December 31, 1941; and that pending such receipt and reconsideration of evidence, the effect of such order be stayed.

On January 19, 1942, the undersigned, finding that the petition of January 14, 1942, did not state what evidence the complainant would introduce if the hearing were reopened, entered an Order denying said petition.

On January 26, 1942, the defendant filed a verified "Supplemental Petition," requesting substantially the same relief as was sought by District Board 2 in its petition of January 14. Upon a consideration of said supplemental petition, it appears to the undersigned that the request to reopen the hearing should be granted in order to afford the parties an opportunity to introduce additional evidence herein, either concerning the violations of the defendant or relevant to penalties attendant thereon, and to show why the Order of the Acting Director of December 31, 1941, should or should not be modified.

The undersigned will suspend, effective as of December 31, 1941, the Order of December 31, 1941, revoking the defendant's code membership. This suspension is without prejudice to the right to reinstate the effectiveness of the Order as of December 31, 1941, if, upon the record as supplemented by the testimony taken at the reopened hearing, it is concluded that the initial Order was proper.

Now, therefore, it is ordered, That said Order of December 31, 1941, revoking the defendant's code membership be, and it hereby is, suspended as of December 31, 1941, without prejudice to the right of reinstatement.

It is further ordered, That the motion of the defendant to reopen the hearing be, and it hereby is, granted and that the hearing be, and it hereby is, reopened for the purpose of taking any additional and new evidence concerning the violations of the defendant or relevant to the penalties attendant thereon and to show why the Order of the Acting Director of December 31, 1941, should or should not be modified.

It is further ordered, That such hearing be held on February 9, 1942, at 10 o'clock in the forenoon of that day at a hearing room of the Bituminous Coal Division at the White Swan Hotel, at Uniontown, Pennsylvania.

It is further ordered, That the Examiner shall have such power and authority as was conferred upon him by the original Notice of and Order for Hearing in this matter dated April 25, 1941.

Dated: January 28, 1942.

[General Docket No. 21]

IN THE MATTER OF DETERMINING THE EXTENT OF CHANGE, IF ANY, IN EXCESS OF TWO CENTS PER NET TON IN THE WEIGHTED AVERAGE OF THE TOTAL COSTS OF ANY OF THE MINIMUM PRICE AREAS; AND OF REVISING THE EFFECTIVE MINIMUM PRICES AS MAY BE REQUIRED BY REASON OF ANY SUCH CHANGE IN COSTS

ORDER

This proceeding having been instituted by the Bituminous Coal Division of the United States Department of the Interior ("Division"), pursuant to the Bituminous Coal Act of 1937, as amended, (the "Act") for the purpose of (1) determining for the various minimum price areas the extent of change, if any, in excess of two cents per net ton in the weighted average of the total costs of producing bituminous coal as heretofore determined by the Director in General Docket No. 15, and (2) making such revision in the effective minimum prices as may be made necessary as a result of any changes in cost thus determined; the Order of the Director dated May 2, 1941, in this matter, having provided that the hearing should be conducted in two phases: the first, concerning the extent of change, if any, in the weighted average of the total costs; and, the second, concerning such revision in the effective minimum prices as may be necessary;

Pursuant to the Order of the Director dated May 2, 1941, and after due notice to all interested persons, the hearing on the first phase of this matter having opened on May 21, 1941, before Floyd McGown, a duly designated Examiner of the Division, at a hearing room of the Division in Washington, D. C.; all interested persons having been afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard; appearances having been entered on behalf of each of the twenty-two district boards, 115 code

members, 225 consumers, Bituminous Coal Consumers' Counsel, and 8 other interested persons;

Following the hearing on the initial phase of this proceeding, the Examiner having submitted his Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendations under date of October 21, 1941; the parties having been given until November 21, 1941, to file exceptions and briefs in support thereof, and requests for oral arguments; twenty-three parties having filed exceptions and briefs in support thereof, twelve having requested oral argument;

Pursuant to an Order of the Director of October 24, 1941, the Acting Director having heard oral argument in this matter on November 25 and 26, 1941, at a hearing room of the Division in Washington, D. C.; oral argument having been presented on behalf of District Boards Nos. 1, 2, 3, 4, 6, 7, 8, 9, 10, 11, 12 and 20, Associated Industries of New York State, Inc., National Association of Hot-House Vegetable Growers, Inc., et al., American Coal Distributors Association, and Bituminous Coal Consumers' Counsel;

The Acting Director having considered the record in this matter and having, on the basis thereof, made and entered his Findings of Fact, Conclusions of Law and Opinion in this matter;

Now therefore it is ordered, That the following represent the established weighted average of the total costs of the total ascertainable tonnage for each district and each minimum price area together with the differences between these costs and those previously determined by the Director in General Docket No. 15:

Price area and district	Determined weighted average cost per ton (this proceeding)	Changes in weighted average per ton costs from those determined in General Docket No. 15

[General Docket No. 21]

IN THE MATTER OF DETERMINING THE EXTENT OF CHANGE, IF ANY, IN EXCESS OF 2 CENTS PER NET TON IN THE WEIGHTED AVERAGE OF THE TOTAL COSTS OF ANY OF THE MINIMUM PRICE AREAS; AND OF REVISING THE EFFECTIVE MINIMUM PRICES AS MAY BE REQUIRED BY REASON OF ANY SUCH CHANGE IN COSTS

ORDER FOR PROCEDURE

By Findings of Fact, Conclusions of Law and Opinion and an accompanying Order in this matter all dated January 27, 1942, the Acting Director determined the established weighted average of the total costs of the ascertainable tonnage for each district and each minimum price area, and set forth the changes in the costs theretofore determined in General Docket No. 15.

In that Opinion it was stated that:

A procedure is being devised whereby parties may request the Secretary of the Interior to review my determinations herein on specified questions of law and policy, and may present briefs to him on such questions as he decides to review. An appropriate order will issue setting forth this procedure.

Now therefore it is ordered, as follows:

1. Parties to this proceeding who desire to do so may file with the Secretary of the Interior requests that he review specific questions of law and policy that pertain to the determinations embodied in the Order of the Acting Director herein, dated January 27, 1942. Such requests for review must be filed by February 10, 1942.

2. Since any review herein is not a matter of right and is purely a matter within the discretion of the Secretary of the Interior, such requests should indicate the specific determination of law and policy of which review is sought, together with a brief statement of the considerations which are believed to warrant its being granted.

3. After the Secretary of the Interior announces which requests for review, if any, have been granted in whole or in part, parties who desire to do so may, not later than two weeks from the date of such announcement, file briefs on such questions of law and policy.

4. Any requests, statements or briefs filed pursuant to this Order shall be filed with the Secretary of the Interior, Washington, D. C. Ten copies of all such documents shall be filed.

Dated: January 27, 1942.

Acting Director.

Approved: January 28, 1942.

PETITION OF H. S. SCRANTON, ET AL., CODE MEMBERS, FOR REVISION OF THE EFFECTIVE MINIMUM PRICES FOR COALS IN SIZE GROUP 15 PRODUCED IN SUBDISTRICTS 2 AND 3 IN DISTRICT NO. 17

NOTICE OF AND ORDER FOR HEARING

A petition, pursuant to the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named parties;

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on March 4, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street, NW., Washington, D. C. On such day the Chief of the Records Section in room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Joseph D. Dermody or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis

of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before February 27, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of H. S. Scranton, Bluff Springs Leasing Co., Brookside Coal Mining Company, Inc., Caldirola Coal Company, Luis Yellico, W. D. Corley, Jr., Canon Liberty Coal Company, Wm. L. Beer, Canon National Coal Company, Dominic Moschetti, Joseph Z. Duca, Tony Santarelli, Highland Coal Mines, Inc., Florence Coal Mines, Inc., Giuliano & Sons Coal Company, Nushaft Canon Coal Co, Inc., James Perino, and Tony Vento, code members operating mines in Subdistricts 2 and 3 in District No. 17, for revision of the effective minimum prices for the coals in Size Group 15 produced in those subdistricts and, more particularly, for an increase from $1.45 to $1.65 per ton in the minimum price for those coals, for shipment by truck, and for an increase from $1.20 per ton to $1.40 per ton in the minimum price for those coals, for shipment by rail into Market Areas 219 and 220.

IN THE MATTER OF MALCOLM N. MCKINNON, DEFENDANT

CEASE AND DESIST ORDER

A complaint, and an amendment thereto, having been filed on June 16, 1941 with the Bituminous Coal Division, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, by District Board 20, complainant, alleging, *inter alia*, that the defendant, Malcolm N. McKinnon, a code member in District 20, operating the American Fuel Mine (Mine Index No. 147), wilfully violated the Bituminous Coal Code or rules and regulations thereunder, as follows:

That the defendant, with full knowledge of the requirements contained in the Effective Minimum Price Schedule for District No. 20 for Truck Shipments, and with intent to violate the same, and in violation thereof,

(a) Sold during the period subsequent to September 30, 1940 to various purchasers approximately 7,525 tons of not less than 3" lump coal (Size Group No. 3) produced by the defendant at his American Fuel Mine (Mine Index No. 147) located in District No. 20, at a price of $2.65 per net ton f. o. b. the mine, whereas the effective minimum price for such coal is $2.85 per net ton f. o. b. the mine;

(b) Sold and delivered as aforementioned subsequent to September 30, 1940, approximately 1,042 tons of 2⅞" x 4½" (Size Group No. 5) stove coal produced by the defendant at the above-mentioned mine, at a price of not more than $1.86 per net ton f. o. b. the mine, whereas the effective minimum price for such coal is $2.70 per net ton f. o. b. the mine.

Pursuant to an order of the Director and after due notice to all interested persons, a hearing having been held in this matter on September 4, 1941, at a hearing room of the Division in Price, Utah; and

Appearances having been entered by District Board No. 20, the complainant, and Malcolm N. McKinnon, defendant; and

All interested parties having been afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard; the preparation and filing of a report by the Examiner having been waived and the matter thereupon having been submitted to the undersigned; and

An answer having been filed by the defendant on August 11, 1941; the undersigned having made Findings of Fact, Conclusions of Law, and rendering an Opinion in this matter, which are filed herewith; [1]

It is ordered, That the defendant, Malcolm N. McKinnon, his officers, representatives, agents, servants, employees, and attorneys, and all persons acting or claiming to act in his behalf or interest, cease and desist and they hereby are permanently enjoined and restrained from selling coal produced by the defendant at less than the applicable effective minimum prices established therefor, contrary to the Bituminous Coal Act or any rules or regulations promulgated thereunder; the Bituminous Coal Code; and the Schedule of Effective Minimum Prices for District 20 for Truck Shipments.

It is further ordered, That the Division may forthwith, upon the failure or neglect of the defendant to comply with this order, apply to the Circuit Court of Appeals of the United States within any

[Docket No. 1757-FD]

IN THE MATTER OF KIEFFNER COAL COMPANY, A PARTNERSHIP, DEFENDANT

MEMORANDUM OPINION AND ORDER VACATING AN ORDER DATED JANUARY 10, 1942, AND APPROVING AND ADOPTING, WITH MODIFICATIONS, PROPOSED FINDINGS OF FACT, PROPOSED CONCLUSIONS OF LAW, AND RECOMMENDATIONS OF THE EXAMINER AND CEASE AND DESIST ORDER

This proceeding was instituted upon a complaint, pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, filed with the Bituminous Coal Division on May 26, 1941, by District Board 11, alleging that Kieffner Coal Company, the defendant, a code member in District 11, violated the Bituminous Coal Code and effective minimum prices established thereunder, and praying that the Division direct the defendant to cease and desist from such violations.

A hearing in this matter was held before W. A. Shipman, a duly designated Examiner of the Division, at a hearing room thereof in Shoals, Indiana, on September 26, 1941.

Thereafter, the Examiner made and entered his Report, Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendations in this matter, dated November 19, 1941, recommending that an order be entered directing the defendant to cease and desist from violations of the Code and rules and regulations thereunder. An opportunity was afforded to all parties to file exceptions thereto and supporting briefs and no such exceptions or supporting briefs were filed.

On January 10, 1942, the undersigned entered an Order approving and adopting, with minor modification, the Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendations of the Examiner, as the Findings of Fact and Conclusions of Law of the undersigned and directing that Kieffner Coal Company, the defendant, cease and desist from violations of the Act, the Code, and rules and regulations thereunder.

In his Order of January 10 the undersigned corrected a statement made by the Examiner in his Report to the effect that one Erb, a witness who testified at the hearing, is a compliance officer of the Division. The record indicates and I find that Erb is engineer for District Board 11.

In the Order of January 10, as in the Examiner's Report, the defendant herein, Kieffner Coal Company, is described as a partnership consisting of Harry Kieffner and August Kieffner. From the record it appears that the partners in the Kieffner Coal Company, operating the Kieffner Mine (Mine Index No. 312) in District 11, were formerly Harry and August Kieffner. It further appears that on May 24, 1940, the defendant, the Kieffner Coal Company, a partnership consisting of Albert Galey and Clarence Shipley, acquired the Kieffner Mine and thereafter operated same. The violations with which this proceeding is concerned occurred at the Kieffner Mine while it was being operated by the defendant, the Kieffner Coal Company, a partnership consisting of Albert Galey and Clarence Shipley. At the hearing herein the defendant was represented by partner Galey, who also testified as a witness. Upon the foregoing and the entire record I find that the defendant, the Kieffner Coal Company, is a partnership consisting of Albert Galey and Clarence Shipley.

Inasmuch as the Order of January 10, 1942, erroneously described the defendant as a partnership consisting of Harry and August Kieffner, that Order should be vacated and set aside.

In this respect and in respect to the erroneous statement by the Examiner concerning the witness Erb, the Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendations of the Examiner should be, and they hereby are, modified.

Upon a consideration of the record, the undersigned has determined that the Proposed Findings of Fact, Proposed Conclusions of Law and Recommendations of the Examiner, as herein modified, should be approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned.

Now, therefore, it is ordered, That the Order entered herein on January 10, 1942, be and it hereby is vacated and set aside.

It is further ordered, That the Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendations of the Examiner, as herein modified, be and they hereby are adopted as the Findings of Fact and Conclusions of Law of the undersigned.

It is further ordered, That the defendant, Kieffner Coal Company, a partnership composed of Albert Galey and Clarence Shipley, its representatives, agents, servants, employees, and attorneys, and all persons acting or claiming to act in its behalf or interest, or in behalf or interest of Albert Galey and Clarence Shipley, cease and desist and they are hereby permanently enjoined and restrained from selling or offering to sell coal below the prescribed minimum price therefor, and from violating the Bituminous Coal Act, the Code, the Schedule of Effective Minimum Prices for District No. 11 for Truck Shipments, the Marketing Rules and Regulations, and all appropriate orders of the Division.

It is further ordered, That the Division may upon the failure of the defendant herein to comply with this Order, forthwith apply to the Circuit Court of Appeals of the United States within any Circuit where the defendant carries on business for the enforcement thereof or take any other appropriate action.

Dated: January 29, 1942.

DEPARTMENT OF AGRICULTURE.

Surplus Marketing Administration.

DETERMINATION, APPROVED BY THE PRESIDENT OF THE UNITED STATES, WITH RESPECT TO THE ISSUANCE OF AMENDMENT NO. 3 TO THE ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE NEW ORLEANS, LOUISIANA, MARKETING AREA [1]

Pursuant to the powers conferred upon the Secretary of Agriculture of the United States by the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 1940 ed. 601 et seq.), there was issued, effective October 1, 1939, order No. 42, regulating the handling of milk in the New Orleans, Louisiana, marketing area, amendment No. 1 to said order being issued effective May 1, 1940, and amendment No. 2 [2] to said order being issued effective April 1, 1941.

A marketing agreement, as amended, regulating the handling of milk in the New Orleans, Louisiana, marketing area, was tentatively approved on February 12, 1941.

There being reason to believe that the issuance of an amendment to said tentatively approved marketing agreement, as amended, and to said order, as amended, would tend to effectuate the declared policy of the act, notice was given of a hearing [3] which was held in New Orleans, Louisiana, beginning on October 29, 1941, on proposals to amend the tentatively approved marketing agreement, as amended, and the order, as amended, regulating the handling of milk in the New Orleans, Louisiana, marketing area, at which time and place all interested parties were afforded an opportunity to be heard upon such proposals.

After such hearing, and after the tentative approval, on January 3, 1942, of a marketing agreement, as amended, regulating the handling of milk in the New Orleans, Louisiana, marketing area, handlers of more than 50 percent of the volume of milk covered by said order, as amended, which is marketed within the New Orleans, Louisiana, marketing area, refused or failed to sign such tentatively approved marketing agreement, as amended, relating to milk.

Pursuant to the powers conferred upon the Secretary of Agriculture by the above-mentioned act, it is hereby determined:

(1) That the refusal or failure of said handlers to sign such tentatively approved marketing agreement, as amended, tends to prevent the effectuation of the declared policy of the act;

(2) That the issuance of the proposed amendment No. 3 to said Order No. 42, as amended, is the only practical means, pursuant to such policy, of advancing the interests of the producers of milk which is produced for sale in said area; and

(3) That the issuance of the proposed amendment No. 3 to said Order No. 42, as amended, is approved or favored by over two-thirds of the producers who participated in a referendum conducted by the Secretary, and who, during the month of September 1941, said month

NOTICE OF ISSUANCE OF SPECIAL CERTIFICATES FOR THE EMPLOYMENT OF LEARNERS UNDER THE FAIR LABOR STANDARDS ACT OF 1938

Notice is hereby given that Special Certificates authorizing the employment of learners at hourly wages lower than the minimum rate applicable under section 6 of the Act are issued under section 14 thereof and § 522.5 (B) of the Regulations issued thereunder (August 16, 1940, 5 F.R. 2862) to the employers listed below effective February 2, 1942.

The employment of learners under these Certificates is limited to the terms and conditions as designated opposite the employer's name. These Certificates are issued upon the employers' representations that experienced workers for the learner occupations are not available for employment and that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The Certificates may be cancelled in the manner provided for in the Regulations and as indicated on the Certificate. Any person aggrieved by the issuance of these Certificates may seek a review or reconsideration thereof.

FEDERAL POWER COMMISSION.

[Docket No. IT-5765]

IN THE MATTER OF SUPERIOR WATER, LIGHT & POWER COMPANY

ORDER TO SHOW CAUSE AND FIXING DATE OF HEARING

JANUARY 27, 1942.

It appearing to the Commission that:

(a) Electric Plant Accounts Instruction 2-D of the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licenses requires all public utilities to submit reclassification and original cost studies;

(b) Superior Water, Light & Power Company (hereinafter referred to as Superior) is engaged in the transmission and sale at wholesale of electric energy in interstate commerce and may be, therefore, a public utility within the meaning of the Federal Power Act subject to the jurisdiction of the Commission;

(c) Superior has failed to file with the Federal Power Commission reclassification of accounts and original cost studies required by the Commission's Uniform System of Accounts;

(d) Superior has filed a reclassification of accounts and original cost studies with the Public Service Commission of Wisconsin under the requirements of the system of accounts prescribed by that Commission;

(e) The staff of the Wisconsin Commission has made a field study of Superior's proposed reclassification of accounts and original cost studies and has submitted a report in which adjustments of the accounts of Superior are recommended;

(f) The report of the staff of the Wisconsin Commission has been served upon Superior and the Wisconsin Commission has ordered that a hearing be held on March 9, 1942, with respect to the studies filed by Superior and the accounting adjustments recommended by that commission's staff (Wisconsin Commission Docket 2-U-1569);

(g) The staff of the Federal Power Commission has reviewed the studies filed by Superior and the report of the Wisconsin Commission's staff;

(h) As a result of the studies made by the Federal Power Commission's staff, it has been recommended by the staff that in the reclassification of accounts and original cost studies to be filed by Superior with this Commission, Superior submit a plan for the disposition of an amount of $300,000 classified in Account 107, Electric Plant Adjustments, representing common stock issued for franchises at organization, and reflect adjustments to its accounts in the following respects:

(1) Make an adjusting journal entry on its books as follows:

	Debit	Credit
Electric plant in service	$993,110.21	
Gas plant in service	1,047,458.89	
Water plant in service	1,541,693.50	
Electric plant adjustments	333,936.60	
Gas plant adjustments	208,315.75	
Water plant adjustments	710,873.58	
Unclassified plant		$4,835,388.23

(2) Dispose of an amount of $7,710.74 classified in Account 107, Electric Plant Adjustments, representing unrecorded retirements by a charge to Account 250, Reserve for Depreciation;

(3) Dispose of a credit amount of $9,939.91 classified in Account 107, in Electric Plant Adjustments, representing contributed property by a transfer to Account 265, Contributions in Aid of Construction;

(4) Dispose of an amount of $1,039.88 classified in Account 107, Electric Plant Adjustments, representing miscellaneous improper charges to plant account, by a charge to Account 271, Earned Surplus;

(5) Dispose of an amount of $39,323.50 classified in Account 107, Electric Plant Adjustments, representing discount and expense on bonds retired, by a charge to Account 271, Earned Surplus; and

(6) Dispose of a credit amount of $4,197.61 classified in Account 107, Electric Plant Adjustments, representing interest during construction in lieu of bond discount eliminated, by a transfer to Account 271, Earned Surplus;

The Commission *orders* that:

(A) Superior show cause, if any there be, at a public hearing on March 9, 1942, at 10:00 a. m., in the Hearing Room of the Public Service Commission of Wisconsin in the State Office Building, Madison, Wisconsin, why the Federal Power Commission should not by order require Superior (a) to file reclassification of accounts and original cost studies, reflecting the accounting adjustments in said studies, and (b) to dispose of the $300,000, classified in Account 107, representing common stock issued for franchises at organization, in accordance with the evidence adduced at the hearing; all as more fully set forth in paragraph (h) hereof;

(B) The Secretary, in accordance with the provisions of Part 39, § 39.4 of the Commission's Rules of Practice and Regulations, communicate this Commission's determination to the Public Service Commission of Wisconsin that a joint hearing in the above-entitled matter is desirable, in view of the similarity of the issues involved herein and in the matter pending before the Wisconsin Commission as above noted.

[Docket No. IT-5766]

IN THE MATTER OF NORTHERN POWER COMPANY

ORDER TO SHOW CAUSE AND FIXING DATE OF HEARING

January 27, 1942.

It appearing to the Commission that:

(a) Northern Power Company (hereinafter referred to as Northern) has filed with the Federal Power Commission its proposed reclassification and original cost studies, as required by Electric Plant Accounts Instruction 2-D of the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees, effective January 1, 1937, and the Federal Power Commission's order of May 11, 1937;

(b) Northern has also filed similar reclassification and original cost studies with the Public Service Commission of Wisconsin, under the requirements of the system of accounts prescribed by that commission;

(c) The staff of the Wisconsin Commission has made a field study of Northern's proposed reclassification and original cost studies, filed with that commission by Northern, and has submitted a report in which certain adjustments of the accounts of Northern are recommended;

(d) The report of the staff of the Wisconsin Commission has been served upon Northern and that commission has ordered that a hearing be held on March 9, 1942, with respect to the studies filed by Northern and the accounting adjustments recommended by that commission's staff (Wisconsin Commission Docket 2-U-1556);

(e) The staff of the Federal Power Commission has reviewed the studies filed by Northern with the Commission and the report of the Wisconsin Commission's staff;

(f) As a result of the studies made by the staff of the Federal Power Commission, it has been recommended by the staff that Northern be ordered to submit a plan for the disposition of an amount of $273,067.45 classified in Account 107, Electric Plant Adjustments, representing profits to an associated company, and to adjust its accounts in the following respects:

(1) Make an adjusting entry on its books crediting Account 100.1, Electric Plant in Service, with an amount of $313,625.71 and charging Account 107, Electric Plant Adjustments, with $312,423.84 and Account 110, Other Physical Property, with $1,201.87;

(2) Dispose of an amount of $40,279.86 classified in Account 107, representing unrecorded retirements, by charging $23,284.76 to Account 250, Reserve for Depreciation, extinguishing the balance in that account; charging $745.24 representing salvage materials, to Account 131, Materials and Supplies; and charging the balance of $16,248.86 to Account 271, Earned Surplus;

(3) Dispose of a credit amount of $1,082.33 classified in Account 107, representing contributed property, by a transfer to Account 265, Contributions in Aid of Construction; and

(4) Dispose of an amount of $158.86 classified in Account 107, representing miscellaneous improper charges to plant, by a charge to Account 271, Earned Surplus;

The Commission *orders* that:

(A) Northern Power Company show cause, if any there be, at a public hearing to be held on March 9, 1942, at 10:00 a. m., in the Hearing Room of the Public Service Commission of Wisconsin in the State Office Building, Madison, Wisconsin, why the Commission should not by order require Northern to adjust its accounts in accordance with the recommendations of the Commission's staff and to dispose of the amount of $273,067.45 in accordance with the evidence adduced at such public hearing;

(B) The Secretary, in accordance with the provisions of Part 39, § 39.4 of the Commission's Rules of Practice and Regulations, communicate this Commission's determination to the Public Service Commission of Wisconsin that a joint hearing in the above-entitled matter is desirable in view of the similarity of the issues involved herein and in the matter pending before the Wisconsin Commission as above noted.

IN THE MATTER OF CENTRAL STATES POWER & LIGHT CORPORATION

ORDER GRANTING EXTENSION OF TIME WITHIN WHICH TO CONSUMMATE TRANSACTION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 31st day of January, A. D. 1942.

The Commission, by its order issued December 23, 1941, having permitted Central States Power & Light Corporation, a registered holding company in the Ogden Corporation holding company system to utilize approximately $2,835,-015 for the purchase of its First Mortgage and First Lien Gold Bonds, 5½% Series, due January 1, 1953, pursuant to the solicitation of tenders at 100 and accrued interest up to and including January 31, 1942; and

Declarant having filed an amendment herein requesting that the period within which such tenders may be accepted be extended to and including February 28, 1942; and

It appearing to the Commission that declarant's request for an extension of the period within which tenders may be accepted should be granted

It is ordered, That declarant's request be granted, subject, however, to the following terms and conditions:

1. The terms and conditions set forth in Rule U-24, and the requirements as to post-amendments and supplementary solicitations set forth in paragraphs (d) and (f) of Rule U-62, which requirement as to post-amendments shall be deemed applicable in the event that any person shall be directly or indirectly employed to solicit tenders by direct contact with the holders of bonds.

2. That within ten (10) days after the consummation of the proposed transaction the declarant file with the Commission, a statement showing the names and addresses of the holders of bonds who tendered their bonds and the principal amount of bonds tendered by each.

3. That no bonds directly or indirectly owned or controlled by any affiliate of the declarant or by any officer or director of the declarant or of any such affiliate shall be purchased.

4. That no fees incurred in connection with the resumption of the solicitation of tenders as herein proposed be paid until the same have been approved by further order of this Commission.

The President

THOMAS ALVA EDISON DAY

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the American people remember with deepest admiration and gratitude the achievements of Thomas Alva Edison and his contributions to the modern way of living; and

WHEREAS, when we contemplate the birth of Edison on February 11, 1847, in a small community in Erie County, Ohio, we are inspired with the faith that our country will be blessed in every generation with young people of practical minds and breadth of vision, resourceful in utilizing the forces of nature for the benefit of mankind; and

WHEREAS a joint resolution of July 17, 1941, provides as follows:

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the President of the United States is hereby authorized and requested to issue a proclamation designating February 11, 1942, as Thomas Alva Edison Day and calling upon officials of the Government to display the flag of the United States on all Government buildings on said date and inviting the people of the United States to observe the day in schools and churches, or other suitable places, with appropriate ceremonies;

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do hereby designate February 11, 1942, as Thomas Alva Edison Day, and I call upon the officials of the Government to display the flag of the United States on all Government buildings on that date; I also invite the people of the United States to observe the day in schools and churches, or other suitable places, with appropriate ceremonies.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 29th day of January, in the year of our Lord nineteen hundred and [SEAL] forty-two, and of the Independence of the United States of America the one hundred and sixty-sixth.

FRANKLIN D ROOSEVELT

By the President:

CORDELL HULL, *Secretary of State*

SUBCHAPTER A—ADMINISTRATION

PART 300—GENERAL

Part 300[1] of Subchapter A in Title 6, Chapter III, of the Code of Federal Regulations is hereby amended by the addition of the following sections:

§ 300.2a *Regulations prohibiting side agreements between borrowers and vendors under the Tenant Purchase Program of the Farm Security Administration authorized by Title I of the Bankhead-Jones Farm Tenant Act.* The full purchase price of all farms purchased in connection with Title I of the Bankhead-Jones Farm Tenant Act, must be named in the option between prospective borrowers and their vendors. Side agreements between prospective borrowers and their vendors upon a purchase price greater or less than the option price shall not be permitted. Agreements to give second mortgages, mortgages on chattels, mortgages on other property, or other liens, notes or the payment of any cash consideration, other than the cash consideration named in the option price, are included within this prohibition, but it is

2.8 Existing regulations superseded: Effective date.

§ 2.1 *Purpose and scope.* (a) The regulations in this part are promulgated to aid in the enforcement of the Copeland Act (48 Stat. 948) and to effectuate the purpose of the Davis-Bacon Act (49 Stat. 1011, as amended) and certain other statutes concerning rates of pay for labor;

(b) The regulations in this part shall be applicable within the geographical limits of the States of the Union, the District of Columbia, the Territory of Alaska, and the Territory of Hawaii.*

*§§ 2.1 to 2.8, inclusive, issued under the authority contained in sec. 2, 48 Stat. 948, secs. 4, 9, 54 Stat. 231, 1236; 40 U.S.C. 276c, 5 U.S.C., Sup., 113u.

§ 2.2 *Definitions.* As used in the regulations in this part:

(a) The terms "building" or "work" generally include construction activity as distinguished from manufacturing, furnishing of materials, or servicing and maintenance work. The terms include, without limitation, buildings, structures, and improvements of all types, such as bridges, dams, plants, highways, parkways, streets, subways, tunnels, sewers, mains, power lines, pumping stations, railways, ships, vessels, airports, terminals, docks, piers, wharves, ways, lighthouses, buoys, jetties, breakwaters, levees, and canals; dredging, shoring, scaffolding, drilling, blasting, excavating, clearing, and landscaping. Unless conducted in connection with and at the site of such a building or work as is described in the foregoing sentence, the manufacture or furnishing of materials, articles, supplies, or equipment (whether or not a Federal or State agency acquires title to such materials, articles, supplies, or equipment during the course of the manufacture or furnishing, or owns the materials from which they are manufactured or furnished) is not a "building" or "work" within the meaning of the regulations in this part.

(b) The terms "construction," "prosecution," "completion," or "repair" mean all types of work done on a particular building or work at the site thereof, including, without limitation, except as herein provided, altering, remodeling, painting and decorating, the transporting of materials and supplies to or from the building or work by the employees of the construction contractor or construction subcontractor, and the manufacturing or furnishing of materials, articles, supplies, or equipment on the site of the building or work, by persons employed at the site by the contractor or subcontractor. By way of limitation, the terms herein defined shall not include the installation of machinery, machine tools, or other apparatus, when such installation does not involve a substantial amount of construction, alteration, or remodeling of the building or work, nor shall they include the retooling or fabrication of machinery in the regular plants of concerns not ordinarily engaged in construction activities.

(c) The terms "public building" or "public work" include building or work for whose construction, prosecution, completion, or repair, as defined above, a federal agency is a contracting party, regardless of whether title thereof is in a federal agency.

(d) The term "building or work financed in whole or in part by loans or grants from the United States" includes building or work for whose construction, prosecution, completion, or repair, as defined above, payment or part payment is made from funds of any federal agency and for which a federal or state agency is a contracting party.

(e) Every person paid by a contractor or subcontractor in any manner for his labor in the construction, prosecution, completion, or repair of a public building or public work is "employed" and receiving "wages," regardless of any contractual relationship alleged to exist between him and the real employer.

(f) The term "any affiliated person" includes a spouse, child, parent, or other close relative of the contractor or subcontractor; a partner or officer of the contractor or subcontractor; a corporation closely connected with the contractor or subcontractor as parent, subsidiary, or otherwise, and an officer or agent of such corporation.

(g) The term "Federal agency" means the United States, the District of Columbia, and all executive departments, independent establishments, administrative agencies, and instrumentalities of the United States and of the District of Columbia, including corporations, all or substantially all of the stock of which is beneficially owned by the United States, by the District of Columbia, or any of the foregoing departments, establishments, agencies, and instrumentalities.*

§ 2.3 *Weekly affidavit with respect to payment of wages.* (a) As used in this section, the term "employee" shall not apply to persons in classifications higher than that of laborer or mechanic and those who are the immediate supervisors of such employees.

(b) Each contractor or subcontractor engaged in the construction, prosecution, completion, or repair of any public building or public work, or building or work financed in whole or in part by loans or grants from a federal agency, shall furnish each week a sworn affidavit with respect to the wages paid each of its employees engaged on work covered by these regulations during the preceding weekly pay roll period. The affidavit shall be executed and sworn to by the contractor or subcontractor or by an authorized officer or employee of the contractor or subcontractor who supervises the payment of wages, and shall be in the following form:

STATE OF ----------
County of ----------, *ss:*

I, ---------- (name of party signing affidavit), ---------- (title), being duly sworn, do depose and say: That I pay or supervise the payment of the persons employed by ---------- (contractor or subcontractor) on the ---------- (building or work); that the attached pay roll sets out accurately and completely the name, occupation, and hourly wage rate of each person so employed for the weekly pay roll period from the ---------- day of ----------, 194--, to the ---------- day of ----------, 194--, the total number of hours worked by him during such period, the full weekly wages earned by him and any deductions made from such weekly wages, and the actual weekly wages paid to him; that no rebates have been or will be made either directly or indirectly to or on behalf of said ---------- (contractor or subcontractor) from the full weekly wages earned as set out on the attached pay roll; and that no deductions, other than the permissible deductions (as defined in the Regulations under the "Kickback" Act (48 Stat. 948)) described in the following paragraph of this affidavit, have been made or will be made, either directly or indirectly, from the full weekly wages earned as set out on the attached pay roll.

(Paragraph describing deductions, if any)

(Signature and title)

Sworn to before me this ---------- day of ----------, 194--.

(c) Upon a written finding by the head of a federal agency, the Secretary of Labor may provide reasonable limitations, variations, tolerances, and exemptions from the requirements of this section subject to such conditions as the Secretary of Labor may specify.*

§ 2.4 *Submission of weekly affidavits and subcontract summaries.* (a) Each weekly affidavit shall be delivered by the contractor or subcontractor, within seven days after the regular payment date of the pay roll period, to a representative of a Federal or State agency in charge at the site of the building or work, or, if there is no representative of

a Federal or State agency at the site of the building or work, the affidavit shall be mailed by the contractor or subcontractor, within such time, to a Federal or State agency contracting for or financing the building or work. After such examination and check as may be made, such affidavit, or a copy thereof, together with a report of any violation, shall be transmitted to the United States Department of Labor at Washington, D. C., unless otherwise arranged with the Department of Labor.

(b) Each contractor or subcontractor shall, within seven days after the making of any subcontract with another person concerning the construction, prosecution, completion, or repair of any public building or public work or work or building financed in whole or in part by loans or grants from the United States, deliver to the local or national Government representative in charge at the site of the building or work, or, if there is no Government representative, shall mail within such time to the Federal agency contracting for or financing the building or work, an affidavit setting forth the name and address of his subcontractor and a summary description of the precise work subcontracted.*

§ 2.5 *Pay roll deductions.* (a) Deductions for the following purposes are permissible:

(1) Where required by Federal, State or local statutes or ordinances to be made by the employer from the wages earned by the employee;

(2) Bona fide prepayment of wages without discount or interest;

(3) Deductions required by court process provided that the contractor or subcontractor will not be permitted to make such a deduction in favor of the contractor, subcontractor, or any affiliated person or where collusion or collaboration exists.

(b) Any deduction is also permissible which in fact meets the following standards and with respect to which the contractor or subcontractor shall have made written application by registered mail to the Secretary of Labor, a copy of which application shall be sent to the contracting agency by the contractor or subcontractor, setting forth all the pertinent facts indicating that such deductions will meet the following standards:

(1) That such deduction is not prohibited by other law; and

(2) That such deduction is (i) voluntarily consented to by the employee in writing and in advance of the period in which the work was done, and that consent to the deduction is not a condition either for the obtaining of or for the continuance of employment; or (ii) that such deduction is for the benefit of the employees or their labor organization through which they are represented and is provided for in a bona fide collective bargaining agreement; and

(3) That from such deduction no payment is made to, nor profit or benefit is obtained directly or indirectly by the contractor or subcontractor or any affiliated person, and that no portion of the funds, whether in the form of a commission or otherwise, will be returned to the contractor or subcontractor or to any affiliated person; and

(4) That the convenience and interest of the employees are served thereby, and that such or similar deductions have been customary in this or comparable situations.

(c) After application in good faith, the deduction may be made in accordance with the foregoing standards: *Provided, however*, That if the Secretary of Labor, on his own motion, or on the application of any person or agency affected by the granting of the application, shall conclude at any time, after written notice to the applicant and an opportunity for him to present his views in support of the deduction, that the deduction has not met the foregoing standards, such deduction shall cease to be "permissible" seven days after the applicant and the federal agency concerned have been notified of the Secretary's decision.

(d) Upon application to and prior written permission from the Secretary of Labor, and subject to the standards set forth in paragraph (b) (1), (2) and (4) hereof, deductions may be made by a contractor or subcontractor or any affiliated person, for membership fees in group benefit or retirement associations; for board and lodging; or for other purposes where the Secretary of Labor concludes the deduction is required by compelling circumstances; provided, however, the contractor, subcontractor, or any affiliated person does not make a profit or benefit directly or indirectly from the deduction. A copy of the Secretary's decision shall be sent to the applicant and the federal agency concerned.

(e) In accordance with and subject to the standards set forth in subparagraphs (1) through (4) of paragraph (b) of this section, general permission is hereby granted to make pay roll deductions for:

(1) The payment of the purchase price of United States Defense Stamps and Bonds and United States Tax Savings Notes;

(2) The repayment of loans to or the purchase of shares in credit unions organized and operated in accordance with District of Columbia, Federal, or State credit union statutes.

(3) Contributions to a federal governmental or quasi-governmental agency.

(f) In any case in which the employee does not have full and actual freedom of disposition of his wage payment, whether made in cash or by check, any restricted payment made to the employee is considered a deduction under the regulations in this part.

(g) Nothing herein shall be construed to permit any deduction which the contractor or subcontractor knew, or in the exercise of good faith should have known, did not meet the foregoing standards. In order to insure compliance with this section, the Secretary of Labor may notify the contractor or subcontractor that the deduction will be permitted only if certain conditions with respect thereto are observed. The contractor or subcontractor or any affiliated person shall also comply with such general rules and regulations concerning the deductions as the Secretary of Labor shall make from time to time, notice of which shall have been given to the contractor or subcontractor or any affiliated person making the deduction and to the federal agency concerned either directly or through publication in the FEDERAL REGISTER.*

§ 2.6 *Regulations part of contract.* All contracts made with respect to the construction, prosecution, completion, or repair of any public building or public work covered by the regulations in this part shall expressly bind the contractor or subcontractor to comply with such of the regulations in this part as may be applicable.*

§ 2.7 *Opinions relating to the regulations.* The Secretary of Labor will furnish an opinion regarding the coverage of any specific project or with respect to the application of any provision of the regulations in this part at the request of any Federal or State agency.*

§ 2.8 *Existing regulations superseded: Effective date.* The regulations in this part shall supersede all existing regulations issued under the Copeland Act, sixty (60) days after their publication in the FEDERAL REGISTER, and thereafter shall govern all new contracts and all uncompleted portions of contracts and subcontracts which were awarded subsequent to June 13, 1934: *Provided, however*, That parties to such contracts or subcontracts may comply with the regulations in this part before the expiration of the sixty (60) day period.*

Secretary.

PART 327—MINIMUM PRICE SCHEDULE, DISTRICT No. 7

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 7 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 7

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 7; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 327.11 (*Low volatile coals: Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 327.34 (*General prices in cents per net ton for shipment into any market area*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: January 23, 1942.

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT No. 8

ORDER AMENDING ORDER GRANTING PERMANENT RELIEF IN THE MATTER OF THE PETITIONS OF DISTRICT BOARDS NOS. 1, 2, 4, 6, 8, 13, AND 19, RESPECTIVELY, FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES NOT HERETOFORE CLASSIFIED AND PRICED

Proceedings having been instituted upon original petitions of District Boards 1, 2, 4, 6, 8, 13, and 19, respectively, filed with the Bituminous Coal Division, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, proposing and seeking the establishment of price classifications and effective minimum prices for the coals of certain mines in the respective districts which had not theretofore been classified and priced;

Hearings having been held and the Director having granted permanent relief in an Order dated November 6, 1941, 6 F.R. 6476;

It appearing that certain errors were inadvertently made in Supplements R-XI and T-VI concerning District 8 annexed to and made a part of said Order;

Now, therefore, it is ordered, That Supplement R-XI, § 328.11 (*Alphabetical list of code members*), and Supplement T-VI, § 328.34 (*General prices for high volatile coals in cents per net ton for shipment into all market areas*), concerning District 8 annexed to and made part of said Order of the Director dated November 6, 1941, be and they hereby are amended by making the following corrections therein:

1. The "M" price classification listed in Supplement R-XI for the coals in Size Groups 18 to 21 produced for rail and lake shipment by the Piedmont #2 Mine of G. A. Bailey (Mine Index No. 2088), the W. C. Brown Mine (Mine Index No. 1894), and the S. S. Crass Mine (Mine Index No. 2040) is changed to "K."

2. The "N" price classification listed in Supplement R-XI for the Size Group 10 coals of the Benedict #7 Mine of Benedict Coal Corporation (Mine Index No. 40) for lake shipment is deleted.

3. The name Foley, L. O. & R. V., listed in Supplement R-XI as the code member operating the Foley Mine (Mine Index No. 1941), is amended to read "Foley, L. D. & R. V.".

4. The name "Glover, W. H. (Draper Mining Company)", listed in Supplement R-XI as the code member operating the Draper Mine (Mine Index No. 428), is changed to "Eagle Mines, Inc., The," and the mine name of "Draper" is changed to "Shamrock."

5. The "A" price classification listed in Supplement R-XI for the coals of the Brafford Mine of F. M. Johnson (Mine Index No. 536) in Size Groups 16 and 17 for lake shipment is changed to "K."

6. The "C" price classification listed in Supplement R-XI for the coals of the Cardinal #2 Mine of Kentucky Cardinal C. Corp. (Mine Index No. 562) in Size Groups 16 and 17 for lake shipment is changed to "L."

7. A price classification of "P" is added in Supplement R-XI for the Size Group 10 coals of the #4 Mine of Stearns Coal & Lumber Co. (Mine Index No. 442) for lake shipment.

8. The name of "Tye & Nae (H. S. Tye)," listed in Supplements R-XI and T-VI as the code member operating the Lick Creek Mine (Mine Index No. 2931), is amended to read "Tye & Noe (H. S. Tye)."

9. The name "Octavia Coal Mining Company, Inc., The," listed in Supplement R-XI as the code member operating the Octavia Mine (Mine Index No. 356) is amended to read "Octavia Coal Mining Corporation, The."

10. The name "Mingo Mining Co.", listed in Supplement R-XI as the code member operating the Mingo #1 Mine (Mine Index No. 334), is amended to read "Mingo Mining Company."

PART 333—MINIMUM PRICE SCHEDULE, DISTRICT NO. 13

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 13 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 13

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 13; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 333.6 (*General prices*) is amended by adding thereto Supplement R–I, § 333.7 (*Special prices—(a) Prices for shipment to all railroads and for exclusive use of railroads*) is amended by adding thereto Supplement R–II, § 333.7 (*Special prices—(c) Prices for shipment by railroad, applicable to all coal sold for steamship vessel fuel*) is amended by adding thereto Supplement R–III, § 333.34 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T–I, and § 333.43 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T–II, which supplements are hereinafter set forth and hereby made a part hereof.

With respect to the Marion Nos. 16, 17, 18, 19 and 20 Mines of the Marion Black Creek Coal Mining Co., the schedule attached to the original petition requests the establishment of a price of $3 per ton in Size Group 13 for rail shipments. The explanatory matter with regard to prices in this size group for the said mines states that Size Group 13 is to be 10¢ higher than Size Group 12 for Mine Index No. 14. The price proposed in the schedule, however, is in fact 10¢ higher than Size Group 13 for Mine Index No. 14. Moreover, no price has been established for the coal in Size Group 12 produced at Mine Index No. 14. Because the price of $3 per ton for coal produced at these mines in Size Group 13 corresponds to the price established for coals of similar quality in the same size group produced at other mines in District No. 13, it is concluded that reference to Size Group 12 in the explanatory matter is a typographical error and that the reference should be to Size Group 13. This conclusion is supported by a communication dated December 31, 1941, from District Board No. 13 to the Division.

With respect to the Galloway Nos. 21 and 22 Mines of the Galloway Coal Co., the schedule attached to the original petition requests the establishment of a price of $2.30 per ton for the coals produced in Size Groups 14, 15 and 16 and a price of $2.30 per ton for the coals produced in Size Group 19 for rail shipments. The explanatory matter with regard to prices in these size groups for the said mines states that the prices for Size Groups 14, 15 and 16 are to be the same as the prices established for the coals in these size groups produced at Mine Index No. 33 and that the price proposed for Size Group 19 is to be 10¢ less than the price established for the coals in Size Group 14 produced at Mine Index No. 33. Prices proposed in the explanatory matter, however, are in fact 5¢ higher in each of these size groups than the prices proposed in the schedule attached to the petition. Because the prices proposed in the explanatory matter correspond to prices heretofore established for coals of similar quality produced in District No. 13, it is concluded that the prices proposed in the schedule attached to the petition are erroneous as a result of typographical errors and that the explanatory matter describes the prices which District Board No. 13 intended to propose.

With respect to the coals produced at the Stansbury Mine of Stansbury & Stansbury (A. H. Stansbury) and at the Jenkins #2 Mine of W. R. Jenkins, the original petition proposes a price for the coals produced at these mines in Size Group 4 of $2.50 per ton and in Size Group 5 of $2.60 per ton. These proposed prices do not correspond with prices heretofore established for the coals of similar quality produced in the same size groups by other mines in District No. 13, which have been priced at $2.60 per ton and $2.50 per ton in Size Groups 4 and 5, respectively. It appears, therefore, that the prices proposed in Size Groups 4 and 5 for these two mines have been transposed by a typographical error and that the original petition is intended to request a price of $2.60 per ton and $2.50 per ton for the coals produced in Size Groups 4 and 5, respectively, by these two mines. This conclusion is supported by a communication dated December 31, 1941, from District Board No. 13.

With respect to the Gaither Mine of Cicero Gaither, the petition requests the establishment of prices for rail shipments originating at Warrior, Alabama. This request conflicts with the records of the Division which reveal that the code member desires that prices be established for rail shipments originating at Hayden, Alabama. Therefore, prices established herein for coals produced at the said mine when shipped by rail are for shipments originating at Hayden, Alabama.

With respect to the coals produced at the Rocky Branch Mine of E. C. Brock, the petition requests a price of $2.20 per ton for the coals produced in Size Group 15. This price is substantially lower than the price of $2.60 per ton heretofore established for coals of similar quality in the same size group produced in District No. 13. A communication from the district board dated December 31, 1941, states that the proposal of $2.20 was a typographical error and that it was and is the intention of the district board to propose a price of $2.60 per ton for the coals produced in Size Group 15 at this mine.

Several mines are listed in the petition for the apparent purpose of advising the Division of a change in the Code Membership with respect to such mines. No relief is asked for these mines and, therefore, no relief is granted as to them herein. In several instances the names of code member producers and their mines were inaccurately spelled or the full names were not stated. These items have been changed to conform to the records of the Division. The Blocton Mine of code member David S. Evans was improperly identified in the petition as Mine Index No. 193. The proper Mine Index No. is 195 and the mine is described accordingly in this Order.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: January 22, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

TITLE 31—MONEY AND FINANCE: TREASURY

CHAPTER I—MONETARY OFFICES

PART 131—GENERAL LICENSES UNDER EXECUTIVE ORDER No. 8389, APRIL 10, 1940, AS AMENDED, AND REGULATIONS ISSUED PURSUANT THERETO

PUBLIC CIRCULAR NO. 14 UNDER EXECUTIVE ORDER NO. 8389, APRIL 10, 1940, AS AMENDED, AND REGULATIONS ISSUED PURSUANT THERETO, RELATING TO TRANSACTIONS IN FOREIGN EXCHANGE, ETC.[1]

FEBRUARY 3, 1942.

(a) No license or other authorization now outstanding or hereafter issued, unless expressly referring to this public circular, shall be deemed to authorize any blocked country or any national thereof to purchase, directly or indirectly, securities of any one issue of a corporation if the securities so purchased together with the aggregate of all other securities held directly or indirectly by such blocked country or national constitute more than one percent of the outstanding securities of that issue. Banking institutions shall not effect any such purchases if they have reasonable cause to believe that the terms hereof are being violated.

(b) Monthly reports on Form TFR—are hereby required to be filed with respect to the purchase or sale of securities for any blocked account and, unless expressly referring to this public circular, no license or other authorization shall be deemed to suspend the requirement of filing this report. Such report shall be filed with the appropriate Federal Reserve Bank by the banking institution with which such blocked account is held and shall be filed on or before the 15th day of the month following the calendar month with respect to which the report is filed. No report need be filed for any calendar month during which the total purchases and the total sales for any blocked account are each less than $5,000. This reporting requirement shall be deemed to be in lieu of that required under any license now outstanding or hereafter issued so far as such license requires the filing of reports with respect to the purchase or sale of securities for any blocked account.

(c) Banking institutions shall have a reasonable period of time, but not to exceed 15 days from the date hereof, in which to adjust their records for the purpose of complying with the provisions of paragraph (1) hereof: *Provided, however*, That a special report shall be filed with respect to any case in which the one percent limitation contained in paragraph (1) was exceeded as a consequence of records being in the process of adjustment. Such report shall be filed with the appropriate Federal Reserve Bank within 30 days of the date hereof and shall expressly refer to paragraph (3) of this Public Circular.

CHAPTER IX—WAR PRODUCTION BOARD

SUBCHAPTER A—GENERAL PROVISIONS

PART 903—DELEGATIONS OF AUTHORITY

Supplementary Directive No. 1A

§ 903.2 *Further delegation of authority to the Office of Price Administration with reference to rationing of passenger automobiles.* (a) In order to permit the efficient rationing of new passenger automobiles, the authority delegated to the Office of Price Administration § 903.1 (*Directive No. 1*)[1] is hereby extended to the exercise of rationing control over the sale, transfer or other disposition of new passenger automobiles by any person to any other person except those specified in paragraph (a) (1) of said Directive No. 1. The exercise of such authority shall be subject to the terms and conditions specified in said Directive No. 1.

(b) As used in this Supplementary Directive, the term "passenger automobiles" means passenger vehicles propelled by internal combustion engines and having a seating capacity of not more than eight (including station wagons and taxicabs, but excluding ambulances); and the term "new passenger automobiles" means any 1942 model passenger automobiles irrespective of the number of miles they have been driven, or any other passenger automobiles which have been driven less than 1,000 miles. (E.O. 9024, Jan. 16, 1942, 7 F.R. 329, E.O. 9040, Jan. 24, 1942, 7 F.R. 567; Sec. 2 (a), Public No. 671, 76th Congress Third Session, as amended by Public No. 89, 77th Congress, First Session; W.P.B. Dir. No. 1, Jan. 24, 1942, 7 F. R. 562)

Issued this 2nd day of February 1942.

SUBCHAPTER B—DIVISION OF INDUSTRY OPERATIONS

PART 937—ZINC

Supplementary Order No. M-11-h[2]

§ 937.9 *Supplementary Order M-11-h.* (a) The Director of Industry Operations hereby determines that the amount of Metallic Zinc, Zinc Oxide and Zinc Dust to be set aside by Producers under paragraph (c) of § 937.1 as extended, for the month of February 1942, and for each month thereafter until otherwise determined by him, shall be as follows:

(1) *Metallic Zinc.* An amount equal to 40% of Producer's November 1941 production.

(2) *Zinc Oxide.* An amount equal to 20% of Producer's November 1941 production of Lead Free Zinc Oxide (American & French Process).

(3) *Zinc Dust.* None.

(b) This Order shall take effect on the 1st day of February, 1942. (P.D. Reg. 1 Amended, Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1 Jan. 26, 1941, 7 F.R. —; E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a) Public No. 671, 76th Congress, Third Session, as amended by Public No. 89, 77th Congress, First Session)

Issued this 31st day of January 1942.

PART 941—MATERIAL AND EQUIPMENT ENTERING INTO FREIGHT CAR CONSTRUCTION INCLUDING RAILROAD, INDUSTRIAL AND MINE FREIGHT CARS

Interpretation No. 1 of General Preference Order No. P-8

The following official interpretation is hereby issued by the Director of Industry Operations with respect to § 941.1, General Preference Order P-8[1] issued June 18, 1941:

Section 941.1 (a) (1) assigns a preference rating of A-3 "to deliveries of material and equipment entering directly or indirectly into freight cars at any stage of construction or repair." The preference rating assigned by this subsection is not to be applied to obtain delivery of material on earlier dates than required to enable the producer to maintain his production schedules. Further, the words "material and equipment entering directly or indirectly into freight cars" have reference only to that material and equipment which in the final stage of production become parts of freight cars. The quoted words do not include material and equipment for the maintenance or improvement of the plant or equipment of the producer or the rated subcontractor.

Section 941.1 (a) (2) refers to the producer and it should be particularly noticed that this means producer and not a rated subcontractor.

Issued this 3d day of February 1942.

PART 956—MATERIAL ENTERING INTO THE CONSTRUCTION OF SPECIFIED LOCOMOTIVES

Interpretation No. 1 of Preference Rating Order No. P-20

The following official interpretation is hereby issued by the Director of Industry Operations with respect to § 956.1, Preference Rating Order P-20,[1] issued July 21, 1941:

Section 956.1 (b) assigns a preference rating of A-3 to "deliveries of all material which will enter directly or indirectly, at any stage, into the production by the Producer" of the locomotives covered by the Order. The quoted words have reference only to that material which in the final stage of production becomes parts of locomotives, plus such cutting and other perishable tools as are used up in the plant of the Producer in the manufacture of the locomotives. The quoted words do not include material for maintenance, extension, or addition to the plant or equipment of the producer or supplier.

Issued this 3d day of February 1942.

PART 957—MATERIAL ENTERING INTO THE REPAIR AND REBUILDING OF STEAM, ELECTRIC OR DIESEL LOCOMOTIVES WHETHER FOR RAILROAD, MINING, OR INDUSTRIAL USE

Interpretation No. 1 of Preference Rating Order No. P-21

The following official interpretation is hereby issued by the Director of Industry Operations with respect to § 957.1, Preference Rating Order P-21,[1] issued July 21, 1941:

Section 957.1 (b) assigns a preference rating of A-3 to "deliveries of all material which will enter directly or indirectly, at any stage, into the repair or rebuilding by the repairer of locomotives." The quoted words have reference only to that material which in the final stage of production becomes parts of locomotives, plus such cutting and other perishable tools as are used up in the plant of the producer in the repairing and rebuilding of the locomotives. The quoted words do not include material for maintenance, extension, or addition to the plant or equipment of the repairer or supplier.

Issued this 3d day of February 1942.

PART 962—STEEL

Supplementary Order M-21-e—Tin Plate, Terne Plate and Long Ternes

§ 962.6 *Supplementary Order M-21-e—(a) Definitions.* For the purposes of this section

(1) "Tin plate" means steel sheets generally referred to as black plate, coated with tin.

(2) "Terne plate" means steel sheets generally referred to as black plate, coated with a lead-tin alloy.

(3) "Long ternes" means steel sheets other than black plate, coated with a lead-tin alloy.

(4) "Terne metal" means the lead-tin alloy used as the coating for terne plate and long ternes.

(5) "Producer" means any person who produces tin plate, terne plate or long ternes, whether for sale or for his own consumption or use.

(b) *Restrictions on use of tin plate, terne plate and long ternes.* (1) No person shall use tin plate, terne plate or long ternes in the production of any item except as permitted by Conservation Orders M-43-a (§ 1001.2), M-38-c (§ 984.4), and any other or further Order or direction of the Director of Industry Operations.

(2) No person shall use long ternes unless he obtained delivery thereof on a rating of A-10 or higher and unless such use is for the purpose for which such rating was assigned.

(c) *Restrictions on use of terne metal.* No producer shall use terne metal except in the production of terne plate or long ternes.

(d) *Prohibitions against sales or deliveries.* No person shall sell or deliver tin plate, terne plate or long ternes to any person if he knows or has reason to believe that such material is to be used in violation of the terms of this Order, or any other or further Order or direction of the Director of Industry Operations.

(e) *Restrictions on tin consumption.* During the first calendar quarter of 1942 and during each calendar quarter thereafter, no producer shall use tin in the production of tin plate, terne plate, or long ternes in excess of the quota assigned to such producer by the Director of Industry Operations.

(f) *Special directions.* The Director of Industry Operations may from time to time issue special directions as to production, deliveries, and use of tin plate, terne plate, and long ternes, which may include directions as to the tin or lead content or coating thereof. Until further direction, no producer shall produce tin plate with a tin coating in excess of 1.25 pounds per base box, except with the specific authorization of the Director of Industry Operations.

(g) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; O.P.M. Reg. 3, amended Sept. 2, 1941, 6 F.R. 4865; E.O. 8629, Jan. 7, 1941, 6 F.R. 191; E.O. 8875, Aug. 28, 1941, 6 F.R. 4483; E.O. 9024, Jan. 16, 1942, 7 F.R. 329; sec. 2 (a), Pub. PART 1089—SECOND HAND MACHINE TOOLS

General Preference Order No. E-4

Whereas the fulfillment of requirements for the defense of the United States has resulted in a shortage of second hand machine tools for defense, for private account, and for export, and

Whereas the Director of Industry Operations now deems it necessary to place sales and deliveries of second hand machine tools under greater control in order to insure their delivery to persons with the most urgent and essential needs for such Tools.

[1] 7 F.R. 116, 218, 311.

Now therefore, it is hereby ordered:

§ 1089.1 *General Preference Order E–4* — (a) *Definitions.* (1) "Machine tool" means any machine for the cutting abrading, shaping, forming, and joining of metals.

(2) "Second hand machine tool" means any Machine Tool which has previously been used or purchased for use, whether or not it has been rebuilt.

(3) "Sale" includes, but is not restricted to, an auction sale.

(b) *Applicability of priorities Regulation No. 1.* This section and all transactions affected thereby, including sales and deliveries of second hand machine tools, are subject to the provisions of Priorities Regulation No. 1 (Part 944) as amended from time to time, except to the extent that any provision of this section may be inconsistent therewith, in which case the provisions of this section shall govern.

(c) *Allocation of certain second hand machine tools.* Whenever the Director of Industry Operations, or other official duly authorized by him, deems such action to be necessary for the prosecution of War, he may, in his discretion, issue an Order prohibiting the sale or other disposition of any specific second hand machine tool until further notice. No person to whom such an Order is issued may thereafter sell or otherwise dispose of such machine tool until he receives directions as to its disposal from the Director of Industry Operations or such other duly authorized official.

(d) *Reports and other communications.* All reports hereafter required to be filed hereunder, and all communications concerning this section shall, unless otherwise directed, be addressed to the Used Tool Section, Division of Production, War Production Board, Washington, D. C., Ref: E–4.

(e) *Violations.* Any person who willfully violates any provision of this section, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this section, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under Section 35 (A) of the Criminal Code (18 U.S.C. 80).

(f) *Effective date.* This section shall take effect immediately and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1 Amended, Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561; E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a) Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

Issued this 3d day of February 1942.

CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1303—ZINC

AMENDMENT NO. 2 TO PRICE SCHEDULE NO. 3—ZINC SCRAP MATERIALS AND SECONDARY SLAB ZINC

Sections 1303.8 and 1303.10 are hereby amended to read as set forth below:

§ 1303.8 *Definitions.* When used in this Schedule, the term

(a) "Person" means an individual, partnership, association, corporation or other business entity;

(b) "Producer" means any person who produces slab zinc;

(c) "Secondary slab zinc" means slab zinc more than 50% of the zinc content of which shall be obtained from scrap material by distillation, remelting, electrolysis, or any other method; and

(d) "Zinc scrap materials" means the kinds and grades of zinc scrap materials set forth in Appendix A of this Schedule.

§ 1303.10 *Appendix B; maximum prices for secondary slab zinc*—(a) *Base prices.*

Grade	Base price, per pound (Cents)
Prime Western and poorer grades	8.25
Selected	8.35
Brass Special	8.50
Intermediate and higher grades	8.75

(b) *Sold or shipped, delivered, or carried away in carload lots.* The term "base price" referred to in this section means the price listed in paragraph (a) of this section for the respective grade of slab zinc.

Grade	Maximum price, per pound (Delivered, buyer's receiving point)
Prime Western and poorer grades.	Base Price plus carload freight from E. St. Louis to buyer's receiving point.
Selected	Base price plus carload freight from E. St. Louis to buyer's receiving point.
Brass Special	Base Price plus carload freight from E. St. Louis to buyer's receiving point.
Intermediate and higher grades.	Base Price plus carload freight from E. St. Louis to buyer's receiving point.

The minimum quantity making up a carload lot for the purpose of this Schedule shall be the minimum quantity required to obtain railroad carload lot rates from the point of shipment to the point of destination.

(c) *Sold and shipped, delivered or carried away in less than carload lots.* The term "base price" referred to in this section means the price listed in paragraph (a) of this section for the respective grade of slab zinc.

(1) *Sales of secondary slab zinc by the producer of the zinc sold.*

For sales in lots of	Maximum price per pound (f. o. b.) point of shipment
20,000 lbs. and less than a carload.	Base price plus .15¢ plus carload freight from E. St. Louis to point of shipment.
10,000 lbs. and less than 20,000 lbs.	Base price plus .25¢ plus carload freight from E. St. Louis to point of shipment.
2,000 lbs. and less than 10,000 lbs.	Base price plus .40¢ plus carload freight from E. St. Louis to point of shipment.
Less than 2,000 lbs.	Base price plus .50¢ plus carload freight from E. St. Louis to point of shipment.

(2) *Sales by all persons except producers.*

For sales in lots of	Maximum price per pound (f. o. b. point of shipments)
20,000 lbs. and less than a carload.	Base price plus .65¢ plus carload freight from E. St. Louis to point of shipment.
10,000 lbs. and less than 20,000 lbs.	Base price plus .75¢ plus carload freight from E. St. Louis to point of shipment.
2,000 lbs. and less than 10,000 lbs.	Base price plus 1.00¢ plus carload freight from E. St. Louis to point of shipment.
Less than 2,000 lbs.	Base price plus 1.50¢ plus carload freight from E. St. Louis to point of shipment.

(d) *Specifications.* The grades of Secondary Slab Zinc specifically referred to above shall conform to the following chemical requirements:

Maximum impurities—percent

Grade	Lead	Iron	Cadmium	Aluminum	Total not over
Intermediate	0.20	0.03	0.50	None	0.50
Brass Special	0.60	0.03	0.50	None	1.00
Selected	0.80	0.04	0.75	None	1.25
Prime Western	1.60	0.08	------	------	------

(e) *Terms of sale.* The maximum prices set forth above are f. o. b. point of shipment. Secondary slab zinc may, however, be sold, offered for sale, delivered, or transferred at prices delivered buyer's receiving point. In such cases, whenever the total delivered price exceeds the maximum f. o. b. point of shipment price fixed by this Schedule, in all price quotations (1) the transportation charge must be shown as a separate item and (2) the price f. o. b. point of shipment, obtained by subtracting the transportation charge from the total delivered price, must not exceed the maximum f. o. b. point of shipment price set forth in this Schedule.

Whenever delivery is made in the seller's conveyance, the transportation charge shall not exceed the charge which would be applicable on an identical shipment from the same point of shipment to the same receiving point at the lowest available commercial transportation rate. In such cases, the transportation charge must be shown as a separate item in all price quotations.

When used in this Schedule, the term "point of shipment" means the point from which the seller ships to the buyer. This is usually the seller's plant, warehouse, or yard, but, where the material is shipped directly to the buyer from some point other than the seller's plant, warehouse, or yard, such other point is the point of shipment. (E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483)

This amendment No. 2 shall become effective February 2, 1942. Issued this 2d day of February 1942.

LEON HENDERSON,
Administrator.

PART 1303—ZINC

AMENDMENT NO. 1 TO PRICE SCHEDULE NO. 81—PRIMARY SLAB ZINC

Section 1303.57 is hereby amended by amending paragraphs (d) and (e) thereof to read as set forth below and by adding thereto the new paragraph (f) as set forth below; and § 1303.59 is hereby amended by adding the sentence set forth below at the end of paragraph (b) thereof, by amending the statement preceding the table in paragraph (c) (1) thereof to read as set forth below, and by amending paragraph (e) thereof to read as set forth below:

§ 1303.57 *Definitions.*

* * * * *

(d) "Primary slab zinc" means slab zinc made from ores or concentrates, even though other material is mixed therewith, provided such other material accounts for 50% or less of the zinc content thereof, and must be produced by a process of distillation or by electrolysis;

(e) "Producer" means any person who produces slab zinc; and

(f) "Carload lot" means the minimum quantity required to obtain railroad carload lot rates from the point of shipment to the point of destination.

§ 1303.59 *Appendix A; maximum prices for primary slab zinc.*

* * * * *

(b) *Sold or shipped, delivered, or carried away in carload lots.* * * * The minimum quantity making up a carload lot for the purposes of this Schedule shall be the minimum quantity required to obtain railroad carload lot rates from the point of shipment to the point of destination.

(c) *Sold and shipped, delivered, or carried away in less than carload lots.* * * *

(1) *Sales of primary slab zinc by the producer of the zinc sold.*

* * * * *

(e) *Specifications.* The grades of slab zinc specifically referred to above shall conform to the following chemical requirements:

Maximum impurities—percent

Grade	Lead	Iron	Cadmium	Aluminum	Total not over
Special High Grade	0.007	0.005	0.005	None	0.010
High Grade	0.07	0.02	0.07	None	0.10
Intermediate	0.20	0.03	0.50	None	0.50
Brass Special	0.60	0.03	0.50	None	1.00
Selected	0.80	0.04	0.75	None	1.25
Prime Western	1.60	0.08	------	------	------

Primary slab zinc which fails to meet such standards should be sold at normal differentials below the established maximum prices: *Provided, however,* That if a producer makes primary slab zinc to conform with individual specifications, other than those set forth above, required by an individual customer or customers, in accordance with a contract entered into on or before January 31, 1942, said producer may sell and deliver, and said individual customer or customers may purchase and accept delivery of such primary slab zinc conforming with individual specifications for a period of 60 days from and after February 2, 1942, at a price no higher than that price established by the terms of the said contract. Such producers shall submit to the Office of Price Administration not later than March 1, 1942. complete and accurate records of all such contracts, setting forth the name and address of the buyer, the required specifications, the quantity in pounds or tons required by the contract, the amounts and shipping dates of all deliveries made thereunder, and the price per pound or ton established by said contract.

(E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483)

This amendment No. 1 shall become effective February 2, 1942 Issued this 2 day of February, 1942.

PART 1304—IRON AND STEEL SCRAP

AMENDMENT NO. 13 OF PRICE SCHEDULE NO. 4—IRON AND STEEL SCRAP

Sections 1304.5 and 1304.6 are amended to read as follows; in paragraph (a) the grades, *"open hearth grades"* and *"electric furnace and foundry grades"* and footnotes 6 and 7, and paragraphs (c), (d), (e), and items 2, 4, 5, 7, 14, 21, and 23 of paragraph (f) of § 1304.13 are amended as set forth below; paragraphs (a), (c), and (d) of § 1304.14 are amended as set forth below and paragraphs (e) and (f) of § 1304.14 are revoked; paragraphs (a), (b) and (c) of § 1304.15 are amended to read as follows:

§ 1304.5 *Geographical application.* The provisions of this Schedule shall apply only to sales, offers to sell, deliveries, or transfers of iron and steel scrap moving within, into or out of one of the 48 States of the United States or the District of Columbia.

§ 1304.6 *Commissions.* No commission shall be payable hereunder, except by a consumer to a broker for brokerage services rendered to the consumer. In the event that a consumer shall employ a broker to purchase iron and steel scrap, such consumer may pay such broker a commission not exceeding 50 cents per gross ton. No commission shall be payable unless (a) the broker guarantees the quality and delivery of an agreed tonnage of scrap; (b) the scrap is purchased by the consumer at a price not higher than the maximum applicable herein; (c) the broker sells the scrap to the consumer at the same price at which he purchased it; (d) the broker does not split or divide the commission, in whole or in part, with the seller or sellers of the scrap, with another broker or subbroker, or with the consumer. No commission shall be payable to a person for scrap which he prepares.

* * * * *

§ 1304.13 *Appendix A; maximum prices for iron and steel scrap other than railroad scrap.* (a) Basing point[1] prices from which shipping point prices and consumers' delivered prices are to be computed.

* * * * *

BASIC OPEN HEARTH GRADES

* * * * *

ELECTRIC FURNACE, ACID OPEN HEARTH AND FOUNDRY GRADES

(For electric furnace, acid open hearth & foundry use only)

* * * * *

[1] Inferior grades shall continue to be purchased at the differential below the corresponding listed grade price which the consumer paid during the period September 1, 1940 to January 31, 1941. In the case of cast iron borings, containing no more than 0.5 percent oil content, for chemical use in the manufacture of explosives, the basing point price shall be $5.00 per gross ton over the price of Item 11. Where cast iron borings are purchased for chemical use other than in the manufacture of explosives, the price shall be $3.00 per gross ton over the price of Item 11. Except in this case and in the case of manganese scrap, ingot iron scrap and any alloyed ferrous scrap purchased by an Electric Furnace or Acid Open Hearth for recovery of alloy content, which grades shall be purchased at the differential above the corresponding listed grade which the consumer paid during the period September 1, 1940 to January 31, 1941, no grade of scrap deemed by buyer or seller or both to be superior to any grade listed above shall be purchased at a premium above the corresponding listed grade except upon prior approval by the Office of Price Administration. In no case may special preparation charges be added to the prices listed above. Mixed shipments of Basic Open Hearth or Blast Furnace grades shall be deemed shipments of unprepared scrap and shall be priced in accordance with the provisions of paragraph (e) hereof, un-

less the consumer has authorized a mixed shipment in his purchase order.

Except in cases in which the Office of Price Administration has given prior approval to Basic Open Hearth consumers to purchase Alloy Free Low Phos. and Sulphur Turnings at the prices listed above, no Basic Open Hearth or Blast Furnace consumer may purchase any of the above grades at a price in excess of the price listed herein for the corresponding Basic Open Hearth or Blast Furnace Grade. The price of item 12 shall not exceed the price of Open Hearth grades unless delivered to the consumer direct from the original industrial producer thereof. The same limitations pertain to the sale of item 22 at a price in excess of that established for Blast Furnace grades.

(c) *Maximum shipping point price—*(1) *Where shipment to the consumer is wholly or partially by rail, or vessel, or combination of rail and vessel.* Where the shipment of scrap to the consumer is by rail, or vessel, or combination of rail and vessel, the scrap is at its shipping point when it has been placed f. o. b. railroad car or f. a. s. vessel for shipment to the consumer. In such cases, the maximum shipping point price shall be:

(i) For shipping points located within a basing point, the price listed in paragraph (a) hereof for the scrap at the basing point in which the shipping point is located, minus the lowest established switching charge for scrap within the basing point; and

(ii) For shipping points located outside a basing point, the price listed in paragraph (a) hereof for the scrap at the most favorable basing point, minus the lowest established charge for transporting scrap from the shipping point to such basing point by rail or water carrier, or combination thereof. Where vessel movement is involved in the computation, in lieu of any established charges at the dock or of any charge or cost customarily incurred at the dock, 75 cents per gross ton must be included as part of the deduction in computing the shipping point price: *Provided, however*, At Memphis, Tenn., the deduction shall be 50 cents per gross ton, at Great Lakes ports $1.00 per gross ton, and at New England ports $1.25 per gross ton.

(2) *Where shipment to the consumer is solely by motor vehicle.* Where the shipment of scrap to the consumer is solely by motor vehicle, the scrap is at its shipping point when it has been loaded on such vehicle. In such cases the maximum shipping point price shall be:

(i) For shipping points located within a basing point, the price listed in paragraph (a) hereof for the scrap at the basing point in which the shipping point is located minus the lowest established switching charge for scrap within the basing point; and

(ii) For shipping points located outside a basing point, the price listed in paragraph (a) hereof for the scrap at the most favorable basing point minus the lowest established charge for transporting scrap by public carrier from the shipping point to such basing point. Where vessel movement is involved in the computation, in lieu of any established charges at the dock or of any charge or cost customarily incurred at the dock, 75 cents per gross ton must be included as part of the deduction in computing the shipping point price: *Provided, however*, At Memphis, Tenn., the deduction shall be 50 cents per gross ton, at Great Lakes ports $1.00 per gross ton, and at New England ports $1.25 per gross ton. If no established transportation rate exists for a portion of the movement from shipping point to basing point, the actual charge or cost customarily incurred by the shipper in such portion of the movement shall be included as part of the deduction in computing the shipping point price.

(3) No Charge shall be deemed an established charge within the meaning of this Schedule unless it has been the basis of actual movement of scrap to the most favorable basing point during the calendar year 1941.

(4) *Exceptions to the formula for computing shipping point prices contained in (a) and (b) above.*[1] (1) At all shipping points in the United States, the maximum shipping point price for No. 1 Heavy Melting Steel Scrap (with St. Louis price differentials for the other grades) need not fall below $13.00 per gross ton. In Tampa, Florida, Pensacola, Florida, Gulfport, Mississippi, Mobile, Alabama, New Orleans, Louisiana, Lake Charles, Louisiana, Port Arthur, Texas, Beaumont, Texas, Galveston, Texas, Texas City, Texas, Houston, Texas, and Corpus Christi, Texas, the maximum shipping point price need not fall below $14.00 per gross ton for No. 1 Heavy Melting Steel Scrap (with St. Louis price differentials for the other grades).

(2) Maximum shipping point prices at any shipping point in New York City, Brooklyn, N. Y., and New Jersey, which by reason of vessel rates have Buffalo or Sparrows Point as their most favorable basing point shall be computed from the prices at the Bethlehem, Pennsylvania basing point rather than the prices at Buffalo or Sparrows Point.

(3) The maximum shipping point price within the Cincinnati basing point for Basic Open Hearth Grades shall be the Cincinnati basing point price minus 80 cents per gross ton.

(d) *Maximum prices delivered to the plant of a consumer.* Scrap is at its point of delivery to the consumer when it has arrived for unloading at the plant of the consumer.

Where transportation from shipping point to point of delivery is by public carrier, the maximum delivered price shall be the shipping point price as determined in paragraph (c) above, plus the established charge for transporting the scrap from the shipping point to the point of delivery by the mode of transportation employed.

Where transportation from shipping point to point of delivery includes water movement, if no established rate exists for such water movement, then the actual charge or cost incurred in such movement may be used in computing the maximum delivered price.

Where transportation to the point of delivery includes water movement, no established charges at the dock, or any charge or cost customarily incurred at the dock, may be included in the delivered price. In lieu thereof, 75 cents per gross ton may be included in the maximum delivered price: *Provided, however*, That this maximum allowance shall be 50 cents per gross ton at Memphis, Tenn. $1.00 per gross ton at Great Lakes ports, and $1.25 per gross ton at New England ports. In either case such charges must be shown as a separate item on the invoice.

Where transportation from shipping point to point of delivery is by *other than public carrier*, the maximum delivered price shall be the shipping point price as determined in paragraph (c) above, plus the charge for transporting the scrap at the established rail carload rate for the lowest minimum weight from the rail siding nearest the shipping point to the rail siding nearest the point of delivery: *Provided, however*, That this charge need never fall below $1.50 per gross ton.

In no case shall any charge or cost incurred in placing the scrap at the shipping point or any charge or cost incurred in unloading the scrap at the point of delivery, or in subsequent handling, be included in the maximum delivered price.

In no case, however, shall the delivered price exceed by more than one dollar the price listed in paragraph (a) for the basing point nearest, in terms of established transportation charges, to the consumer's plant, with the following exceptions:

Exception 1. For consumers having St. Louis as their nearest basing point the delivered price may not exceed the St. Louis basing point price by more than $1.50: *Provided*, That the delivered price of scrap shipped to such consumers from shipping points in Arkansas may not exceed the St. Louis basing point price by more than two dollars. For consumers whose nearest basing points are Detroit, Birmingham and Alabama City, respectively, the delivered price may not exceed by more than two dollars the price at their respective basing points.

Exception 2. In the case of machine shop turnings or related grades of turnings, as defined herein, delivered to electric furnace producers of ferro alloys, and in the case of chemical borings delivered to chemical users thereof, the delivered price shall not be limited to one dollar in excess of the price at the basing point nearest the consumer's plant.

Exception 3. "Remote Scrap" means all the kinds and grades of iron and steel scrap referred to in Appendix A and having a shipping point and a point of origin within the states of Montana, Idaho, Wyoming, Nevada, Arizona, New Mexico, Texas, Oklahoma, Florida, Oregon, Utah, North Dakota, and South Dakota. Colorado scrap shall be remote scrap for Colorado consumers only.

[(i) and (ii) follow]

Exception 4. Where scrap is shipped by vessel from Duluth, Minnesota, or Superior, Wisconsin, to consumers located in Buffalo, New York, Elyria, Ohio, Cleveland, Ohio, Saginaw, Michigan, Detroit, Michigan, or Chicago, Illinois, the delivered price shall not be limited to one dollar in excess of the price at the basing point nearest the consumer's plant.

Exception 5. In computing the delivered price of Billet, Bloom and Forge crops originating in and shipped from the Pittsburgh Basing Point, the maximum transportation charges which may be added *to the shipping point price* shall be $2.50.

Exception 6. The delivered price of Low Phos. and Sulphur Punchings and Plate Scrap, Low Phos. and Sulphur Bar Crops and Smaller, Alloy Free Low Phos. and Sulphur Turnings, and First Cut Heavy Axle and Forge Turnings produced in industrial plants in the State of Michigan and shipped directly to consumers located in or nearest, in terms of established transportation charges, to the Buffalo, N. Y., Pittsburgh, Brackenridge, or Midland, Pa. basing points, shall not exceed by more than $3.00 the price at the basing point nearest the consumer's plant.

Exception 7. Where scrap is shipped from a New England shipping point, the maximum transportation charges which may be added to the shipping point price shall be $6.27 per gross ton.

Exception 8. Where the shipping point price of scrap is computed from water rates, and water movement is not available the year round, consumers who can establish that they did receive delivery of such scrap by water within $1.00 of the price at their nearest basing point between April 15 and November 15, 1941, may pay the shipping point price plus all-rail transportation charges from the shipping point to the point of delivery whenever water movement is not available.

(e) *Unprepared scrap.* The maximum prices established hereinabove are maximum prices for prepared scrap.

For unprepared scrap, maximum prices shall be $2.50 less than the maximum prices for the corresponding grade or grades of prepared scrap. In no case, however, shall Electric Furnace and Foundry grades, listed in paragraph (a) above be used as the "corresponding grade or grades of prepared scrap".

Except as otherwise provided hereunder, where scrap is to undergo preparation prior to its arrival at the point of delivery, such scrap is not at its shipping point, as that phrase is defined in paragraph (c) hereof, until after such preparation has been completed. Where a consumer purchases unprepared remote scrap, if no adequate facilities for preparation exist at or near the shipping point, the consumer may designate a dealer or dealers to prepare such scrap for its use at a maximum conversion fee of $2.50 per gross ton. In such cases the maximum delivered price shall be the shipping point price for unprepared scrap at the remote shipping point plus transportation charges to the point of delivery at the dealer's yard plus a $2.50 per gross ton conversion fee plus transportation charges from the dealer's yard to the point of delivery after the scrap has been loaded on the delivering carrier. Interim loading, unloading and similar charges may not be absorbed by the consumer. The maximum delivered price of such scrap shall not exceed by more than $5.00 the price at the basing point nearest the consumer's plant except upon prior approval of the Office of Price Administration as provided in Exception 3 in paragraph (d) above. Such purchases of scrap shall be subject to all the filing and other requirements in Exception 3 of paragraph (d) above.

At no time shall ownership of such scrap reside in the dealer to whom the conversion fee is paid.

(f) *Definitions of grades referred to in paragraph (a).*

• • • • •

Item 2—"No. 1 Hydraulic compressed Black Sheet Scrap": New black steel sheet clippings, shearings, skeleton stamping scrap, side and sheet scrap, hydraulically compressed into charging box size, weighing not less than 75 pounds per cubic foot, must be clean and free from excessive rust, paint, or protective coating of any kind. No detinned scrap, electrical sheets, or material over 0.5 per cent of silicon may be included.

• • • • •

Item 4—"Dealers' No. 1 Bundles": New, black steel sheet clippings, shearings, skeleton stamping scrap, side and end sheet scrap, hydraulically compressed into charging box size, weighing not less than 75 pounds per cubic foot; must be clean and free from excessive rust, paint, or protective coating of any kind. No detinned scrap, electrical sheets, or material over 0.5 per cent silicon may be included.

Item 5—"Dealers' No. 2 Bundles": Body and fender scrap, shearings, skeleton stamping scrap, side and end sheet and tin mill scrap, hydraulically compressed to charging box size. This grade must not include coated stock or foreign material such as galvanized, tin, etc.

N. B. Coated bundled scrap is an inferior grade to Item 5 and shall be priced in accordance with the provisions of footnote 6 of paragraph (a) above.

• • • • — •

Item 7—"Machine Shop Turnings": New, clean steel turnings, free from lumps, badly tangled or matted material, cast-iron borings, other metals, excessive oil, dirt, or foreign material of any kind. Badly rusted or corroded stock may not be included. This grade may include high sulphur turnings or shell turnings.

• • • • •

Item 14—"Low Phos. Punchings & Plate Scrap": Punchings from plate and structural-steel scrap, not less than ½ inch diameter, not over 0.04 per cent of phosphorus or 0.05 per cent of sulphur, not over 0.5 per cent of silicon, free from alloys. Must be free from dirt and excessive rust or corrosion. Pieces must be cut 12 inches and under.

• • • • •

Item 21—"Alloy Free Low Phos. and Sulphur Turnings": New, short, clean steel turnings, free from lumps, badly tangled or matted material, cast-iron borings, other metals, excessive oil, dirt, or foreign material of any kind. Badly rusted or corroded stock must not be included. (Material must be alloy free and 0.045 and under in phosphorus and sulphur).

• • • • •

Item 23 must be new all black hydraulic compressed sheet bundles 14 x 14 x 20 in. or smaller.

§ 1304.14 *Appendix B; maximum prices for iron and steel scrap originating from railroads*—(a) *Scrap originating from railroads—operating in a basing point named below* (all prices given below are per gross ton). The scrap is at its point of delivery to the consumer when it has arrived for unloading at the plant of the consumer. Where used in this appendix, the term "transportation charges" means the established charges for transporting the scrap to the point of delivery by the mode of transportation employed. In no case shall the maximum delivered price include any charge or cost incurred in unloading the scrap at the point of delivery or in subsequent handling.

[(1), (i), and (ii) follow]

(2) *Delivered to a consumer's plant located off the line of the railroad from which the scrap originated.* Except in the case of shipments of scrap by vessel from Duluth, Minnesota, or Superior, Wisconsin to consumers located in Buffalo, N. Y., Cleveland, Ohio, Elyria, Ohio, Detroit and Saginaw, Michigan, and Chicago, Illinois, the maximum price is either of the following, whichever is greater:

(i) The maximum price established in paragraph (1) above, for scrap delivered to a consumer on the line of the railroad from which the scrap originated, or, if the consumer can establish that he has been served by the same source of scrap in the past, this maximum price plus transportation charges (including off-the-line switching charges), from the railroad's line to the point of delivery, of not more than two dollars per gross ton for Rails for Rerolling, Scrap Axles and other scrap for rerolling, and of not more than one dollar per gross ton for all other grades of scrap; or

(ii) The prices listed in paragraph (1) above, for the Basing Point nearest the consumer's plant.

Where scrap is shipped by vessel from Duluth, Minnesota, or Superior, Wisconsin, to consumers located in Buffalo, New York, Elyria, Ohio, Cleveland, Ohio, Detroit and Saginaw, Michigan, and Chicago, Illinois, the maximum delivered price shall be the maximum price established in paragraph (1) above, for scrap delivered to a consumer on the line of the railroad from which the scrap originated, plus transportation charges from the railroad's line to the point of delivery.

• • • • •

(c) *Maximum prices for scrap which cannot be identified as to origin, scrap originating from mines, logging roads, and similar sources, and scrap originat-*

ing from railroads who do not, within two weeks after the issuance of this schedule, file average price information with the Office of Price Administration. Railroad scrap shipped from a dealer's yard shall be deemed to have lost its railroad origin. In the case of railroad scrap which cannot be identified as to origin, scrap originating from mines, logging roads, and similar sources, and scrap originating from any railroad which does not, within two weeks after the issuance of this schedule, file the average price information required under paragraphs (a) or (b) hereof and by § 1304.4 of this schedule, the maximum prices shall be as follows:

(1) In the case of scrap rails, scrap rails 3 feet and under, scrap rails 2 feet and under, scrap rails 1 foot and under, and rails for rerolling, the shipping point price shall be computed by application of the provisions of paragraphs (b) and (c) of Appendix A to the prices at the most favorable basing point in Appendix B. In no case need this shipping point price fall below $14.00 for scrap rails, $16.00 for scrap rails 3 feet and under, $16.25 for scrap rails 2 feet and under, $16.50 for scrap rails 1 foot and under, and $15.50 per gross ton for rails for rerolling. The maximum delivered price shall be the shipping price thus obtained plus transportation charges from the shipping point to the point of delivery.

(2) All other grades of such scrap shall be classified under Appendix A or Appendix C and their maximum prices shall be governed by the provisions of the applicable appendix.

(d) *Unprepared scrap.* The maximum prices established hereinabove are maximum prices for prepared scrap. For unprepared scrap, maximum prices shall be $2.50 less than the maximum prices for the corresponding grade or grades of prepared scrap.

Where scrap is to undergo preparation prior to its arrival at the point of delivery, such scrap is not at its shipping point, as that phrase is defined in paragraph (c) hereof, until after such preparation has been completed.

§ 1304.15 *Appendix C; maximum price for cast iron scrap other than railroad scrap* (all the prices given below are per gross ton). (a) *Maximum price at shipping point.* Where shipment of the scrap to the consumer is wholly or partially by rail, or vessel, or combination of rail and vessel, the scrap is at its shipping point when it has been placed f. o. b. railroad car or f. a. s. vessel for shipment to the consumer.

Where shipment of the scrap to the consumer is solely by motor vehicle, the scrap is at its shipping point when it has been loaded on such vehicle.

The shipping point price for grades[1] of cast iron scrap at the following shipping points in the United States shall be:

	Group A	Group B	Group C
No. 1 Cupola Cast	$18.00	$19.00	$20.00
No. 1 Machinery Cast, Drop Broken 150 lbs. & under	18.00	19.00	20.00
Clean Auto Cast	18.00	19.00	20.00
Unstripped Motor Blocks	17.50	18.50	19.50
Stove Plate	17.00	18.00	19.00
Heavy Breakable Cast	15.50	16.50	17.50
Charging Box Cast	17.00	18.00	19.00
Misc. Malleable	20.00	21.00	22.00

Group A includes the states of Montana, Idaho, Wyoming, Nevada, Utah, Arizona and New Mexico.

Group B includes the states of North Dakota, South Dakota, Nebraska, Colorado, Kansas, Oklahoma, Texas and Florida.

Group C includes all states not named in groups A and B, and includes the switching district of Kansas City, Kans.-Mo.

(b) *Maximum price delivered to a consumer.* Scrap is at its point of delivery to a consumer when it has arrived for unloading at the plant of the consumer.

(1) Except as provided in subparagraph (2), below, the maximum price at which any grade of cast iron scrap may be delivered to a consumer shall be:

(i) Where transportation from shipping point to point of delivery is by *public carrier*, the shipping point price, as listed in paragraph (a) above, plus the established charge for transporting the scrap from the shipping point to the point of delivery by the mode of transportation employed. Where transportation to the point of delivery includes water movement, and tariffs establishing charges at the dock are published, charges incurred at the dock, but not to exceed the published tariffs, may be included in the delivered price. Where no such tariffs are published, actual charges incurred at the dock but not to exceed 75 cents per gross ton, may be included in the delivered price. In either case such charges must be shown as a separate item on the invoice.

[1] Inferior grades shall continue to be purchased at the differential below the corresponding schedule grade which the consumer paid during the period September 1, 1940 to January 31, 1941. In no case shall any grade deemed by buyer, or seller, or both to be superior to any grade listed above be sold at a premium above the corresponding schedule grade except upon prior approval by the Office of Price Administration. No special preparation charges may in any case be added to the prices listed above. Except in the case of items 4 and 7, no Basic Open Hearth (and, in the case of item 8, no consumer other than a malleable foundry) may pay for any grade a price in excess of the price listed for item 6. Mixed shipments of any of the above grades shall be deemed shipments of unprepared scrap and shall be priced in accordance with the provisions of paragraph (d) hereof, unless the consumer has authorized a mixed shipment in his purchase order.

(ii) Where transportation from shipping point to point of delivery is by other than public carrier, the shipping point price, as listed in paragraph (a) above, plus the charge for transporting the scrap at the established rail carload rate for the lowest minimum weight, from the rail siding nearest the shipping point to the rail siding nearest the point of delivery, provided however that this charge need never fall below $1.50 per gross ton.

(2) Where shipment of the scrap to the consumer is solely by motor vehicle, the delivered price shall not exceed the shipping point price unless the consumer shall receive a certificate made out to the Office of Price Administration, Washington, D. C. and signed by the person from whose yard or point of accumulation the scrap was placed at its shipping point and by the person by whom or on behalf of whom the scrap was transported from shipping point to point of delivery. Such certificate shall specify the shipping point, quantity and grade of the scrap, and the transportation charges from shipping point to point of delivery. The consumer shall acknowledge receipt of the material on the face of the certificate. Forms for such certificates may be secured by writing to the Office of Price Administration. However, any certificate containing the information required above will suffice.

The above mentioned certificate, shall be preserved by the consumer as part of the record-keeping requirements outlined in § 1304.8. A copy shall likewise be preserved by all persons signing the certificate.

(c) Definitions of grades referred to in paragraph (a).

Item 1—No. 1 Cupola Cast: Clean cast-iron scrap, such as columns, pipes, plates and castings of miscellaneous nature, but free from stove plate and agricultural scrap. Must be cupola size, not over 24 by 30 inches in dimensions, and no piece to weigh over 150 pounds. Must be free from steel and malleable parts and foreign material.

Item 2—No. 1 Machinery Cast, Drop Broken, 150 lbs. and under: Clean machinery cast-iron scrap. May include the cast-iron parts of agricultural machinery. Must be cupola size, not over 24 by 30 inches in dimensions, and no piece to weigh over 150 pounds. Must be free from steel and malleable parts.

Item 3—Clean Auto Cast: Clean, broken auto blocks, free of all steel parts and broken 75 pounds or under.

Item 4—Unstripped Motor Blocks: Motor blocks from which steel or nonferrous fittings have not yet been removed.

Item 5—Stove Plate: Clean cast-iron stove plate. Must be free from malleable and steel parts, window weights, plow points, grates, burnt iron, etc.

Item 6—Heavy Breakable Cast: Clean cast-iron scrap, such as columns, pipes, plates, and castings of miscellaneous nature, weighing over 150 pounds, and which can be broken by an ordinary drop into cupola size.

Item 7—Charging Box Size Cast: Clean cast-iron scrap, such as columns, pipes, plates and castings of miscellaneous nature, but free from stove plate and agricultural scrap. Must be 18 in. x 5 ft. and smaller.

Item 8—Miscellaneous Malleable: Malleable parts of automotive vehicles, agricultural implements, and miscellaneous malleable iron castings. Must be free from cast iron and steel parts and other foreign material.

(E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483)

Issued this 2 day of February 1942. This amendment No. 13 shall become effective February 2, 1942.

PART 1306—IRON AND STEEL

AMENDMENT NO. 1 TO PRICE SCHEDULE NO. 10—PIG IRON

Two new sections, §§ 1306.57 and 1306.58, are hereby added as set forth below:

§ 1306.57 *Appendix B; exceptions.* The following person has been granted an exception under § 1306.55 of this Schedule, permitting it to make a charge of $1.00 in addition to the maximum prices in Appendix A for pig iron: E. and G. Brooke Iron Company, Birdsboro, Pennsylvania.

§ 1306.58 *Geographical application.* The provisions of this Schedule shall apply only to sales, offers to sell or delivery of pig iron moving within, into, or out of one of the forty-eight States of the United States or the District of Columbia.

(E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483).

This Amendment No. 1 shall become effective February 7, 1942. Issued this 2d day of February 1942.

PART 1306—IRON AND STEEL

AMENDMENT NO. 2 TO PRICE SCHEDULE NO. 49—RESALE OF IRON AND STEEL PRODUCTS

Sections 1306.151; 1306.154; (e) and (m) of § 1306.157; (a) (2) and (a) (2) (ii), (b), (c) (1), (c) (i) and (c) (ii), and (d) (1), (f), (g) (1), (g) (i) and (g) (iii), (h) (ii) and (h) (2) (3) (4) (5) and (6), (i) and (i) (4), (j), (k) (3) and (5), (l) of § 1306.159; § 1306.160; and § 1306.161 are amended and § 1306.159 (i) (6); § 1306.159 (m) (3); and § 1306.162 are added as set forth below:

§ 1306.151 *Maximum prices for the resale of iron or steel products.* On and after December 15, 1941; regardless of the terms of any contract of sale or purchase, or other commitment, no seller as defined in § 1306.157 (b) of this Schedule shall sell, offer to sell, deliver or transfer iron or steel products, and no person shall buy, offer to buy, or accept delivery of iron or steel products at prices higher than the maximum prices set forth in Appendix A, incorporated herein as § 1306.159.

Provided, That the provisions of this Schedule shall apply only to sales, offers to sell, deliveries, or transfers of iron or steel products moving within, into or out of one of the 48 states of the United States or the District of Columbia; *Provided further,* That the export provisions of this Schedule shall apply to any sale for delivery outside the 48 states or the District of Columbia.

* * * * *

§ 1306.154 *Records and reports*—(a) *Records of sales, inventory and orders.* Every person making sales, or purchases for resale, of iron or steel products, in quantities dealt in, or on which prices are quoted by established jobbers, dealers, or distributors, after December 15, 1941, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of (1) each such purchase or sale, showing the date thereof, the name and address of the buyer or the seller, the price paid on each purchase for resale and received on each resale, the quality and grade, the sizes, and the quantity of each product purchased or sold, and (2) the tonnage of iron or steel products on hand and on order, classified by product, in a manner similar to that of Form PD 83 as issued by the War Production Board. A copy of Form PD 83 may be had upon request by applying to the War Production Board.

(b) *Filing prices.* On or before December 31, 1941, every seller of iron or steel products having annual gross sales of $100,000 or more, even though iron and steel products comprise only a part of the total, during the year ending December 31, 1941, shall file in duplicate, in affidavit form, with the Office of Price Administration, Washington, D. C., his prices circulated to his salesmen or customers in effect on April 16, 1941, or customarily quoted and charged on that date, including extras lists, deduction lists, charges, and discounts. Special prices or discounts given to any customers and classes of customers as of April 16, 1941, shall be filed. This includes prices or discounts to jobbers, dealers and large, industrial or other special buyers. Every seller shall file individual price sheets for each warehouse or branch, showing city and country prices, wherever such exist; and he shall indicate the area or cities to which such prices apply. In the event that any prices so filed exceed the maximum prices established by this Schedule, the seller shall, after the effective date of this Schedule, eliminate this excess and charge a maximum price not in excess of the maximum prices established herein. Every seller shall state with regard to his April 16, 1941 price for each product, the range of sizes, types or cross-section covered by each price submitted; trade names, if any, and prices charged; prices for each base quantity; products sold in various quantity brackets, and prices for each bracket. If the person is a seller without prices as of April 16, 1941, (a) because of establishment of business after April 16, 1941, or (b) because of introduction of a product not handled on or prior to April 16, 1941, he shall file a list of his inventory as of December 1, 1941, and prices he proposes to charge for such products. These prices shall not be in excess of the maximum as established by this Schedule. Additional filing requirements from Pacific Coast and Gulf Port sellers, and for carload business, are included in other sections of this Schedule. Persons affected by this Schedule shall submit such other reports to the Office of Price Administration as it may from time to time require.

§ 1306.157 *Definitions.*

* * * * *

(e) "Published listed price" or "published list price" means a price for resale of iron or steel products publicly circulated in the trade, and is confined, except as stated below in § 1306.159 (m) (3), to price lists issued for the cities named and the persons stated in Appendix B, incorporated herein as § 1306.160. If not otherwise stated, the term is meant to apply only to price lists effective as of April 16, 1941. In any *"listed city"* in which there are several such published listed prices for any product or quantity, the highest of such prices shall be the published listed price herein referred to:

* * * * *

(m) "Mixed carload" means a bona fide "mixed carload" containing not less than three items of steel of substantial quantity and of different type, such as strip, plates, sheets, bars. (Hot Rolled and Cold Finished bars or Hot Rolled and Cold Rolled sheets shall be considered as examples of different types of steel products in this definition:)

* * * * *

§ 1306.159 *Appendix A; domestic and export maximum prices for iron and steel products*—(a) *Maximum delivered prices in any city (whether listed or unlisted), or free delivery area, in which the seller is located.*

* * * * *

(ii) That in *unlisted cities*, the maximum delivered price shall not exceed the lowest delivered price that is the result of a combination of (a) country prices of any seller named in Appendix B herein [or as may hereinafter be issued under *"General Provisions"*, § 1306.159 (m) (3)] located in any *listed city*, and (b) less-than-carload freight from such *listed city*.

(2) Extras which were customarily charged as of April 16, 1941, may be computed in the maximum delivered price: *Provided,* That such extras do not exceed those established and charged on April 16, 1941, by sellers listed in Appendix B of this Schedule. Extras listed but not customarily charged as of April 16, 1941, shall not be charged. Deductions cus-

tomarily granted as of April 16, 1941, shall be deducted in computing the maximum delivered price.

(b) *Maximum delivered prices in places other than the city or free delivery area in which the seller is located.* (1) In any place other than a city or free delivery area in which the seller is located, the maximum delivered price for that seller shall be the lowest delivered price that is the result of a combination of (i) country price of any seller named in Appendix B herein [or as may hereinafter be issued under *"General Provisions"*, §1306.159 (m) (3)] located in any *listed city* and (ii) less-than-carload freight from such *listed city*. It is provided, however, that in no case shall the maximum delivered price on a sale for delivery into a *listed city* exceed published listed prices, extras and deductions, as set out in Appendix B, in effect as of April 16, 1941, for that city or free delivery area.

(c) *Maximum delivered prices for persons without prices.* (1) In the city or free delivery area in which are located certain persons without prices as of April 16, 1941, because of (a) the establishment of their business after that date, or (b) the introduction of a product not handled on or prior to April 16, 1941, the maximum delivered price for persons having no prices for the product or the quantity being sold shall be:

(i) *In listed cities*, the maximum delivered price shall not exceed the published listed prices, as set out in Appendix B, [or, as may hereinafter be issued under *"General Provisions"*, § 1306.159 (m) (3)] for that city or free delivery area.

(ii) *In unlisted cities*, the maximum delivered price shall not exceed the lowest delivered price that is the result of a combination of (a) country prices of any seller named in Appendix B herein [or as may hereinafter be issued under *"General Provisions"*, § 1306.159 (m) (3)] located in any *listed city*, and (b) less-than-carload freight from such *listed city*.

• • • • •

(d) *Modification of certain April 16, 1941, prices.* (1) Any seller located in listed city or free delivery area to which published listed prices are applicable, if his prices as of April 16, 1941, were lower than such published listed prices, may make application to the Office of Price Administration to increase the maximum delivered price applicable to him in order to correspond to the published listed prices applicable to such *listed city* or free delivery area. Such application shall be in affidavit form and shall state that the services rendered by such seller are comparable to services rendered by the sellers named in Appendix B for such city, in such matters as delivery service, performance of cutting, shearing, bending, threading and similar operations, carrying of a full line of products, of comparable type, grade and quality, etc.

• • • • •

(f) *Maximum delivered prices for dislocated tonnage.* In case of shipments by a seller of 150 miles or more, and if shipment is through or into any *listed city*, or substantially in the same direction and past any *listed city*, or in case of any shipments by a seller of not less than 350 miles, the maximum delivered price for any iron or steel product so shipped shall be the country price of the seller plus less-than-carload freight as customarily charged less 15¢ per cwt.: *Provided*, That such deduction of 15¢, or any part thereof, does not bring the delivered price on such dislocated tonnage below the maximum delivered price as established in paragraph (b) of this section.

(g) *Maximum delivered prices on the Pacific Coast and for Gulf Ports; special filing provisions.* (1) Maximum delivered prices on the Pacific Coast shall be as provided in this Schedule: *Provided*, That:

(i) On the following products and no others, the sum of 35¢ per cwt. may be added to the maximum delivered price as established in this Schedule: plates, universal and sheared, carbon; hot rolled sheets, carbon; hot rolled bars and small shapes, carbon; galvanized, galvannealed, enameling, and galvanized corrugated sheets; floor plates; hot rolled strip, carbon; and structural shapes, carbon. (This 35¢ per cwt. shall not be added to the price of concrete reinforcing bars.)

• • • • •

(iii) Pending analysis of data to be submitted under provisions of this Schedule, sellers located in Gulf Ports shall have a maximum delivered price as established in this Schedule based on sellers' prices in effect as of April 16, 1941.

• • • • •

(h) *Maximum delivered prices for specific wire products.*

• • • • •

(ii) Carload freight from the nearest mill Basing Point to warehouse, and

• • • • •

(2) The maximum delivered price of less-than-carload quantities of standard wire nails, annealed smooth wire, and galvanized smooth wire at any other place, shall be the price (as computed above) in any city and less-than-carload freight from such city.

(3) On all merchant wire products, whether covered by subparagraphs (1), (2) or (4) of this paragraph, extras charged by jobbers and dealers on merchant wire products shall be the same as regular published mill extras in effect as of April 16, 1941, and deductions customarily granted as of April 16, 1941, shall be deducted in computing the maximum delivered price. On standard wire nails, annealed smooth wire and galvanized smooth wire, for which maximum prices are established above, deductions shall be in the same ratio to these maximum prices as they were to prices existing on April 16, 1941.

(4) The maximum delivered prices for less than carload quantities of all other merchant wire products shall be computed as otherwise provided in this Schedule.

(5) The maximum prices for mixed or straight carloads of merchant wire products are established by § 1306.159 (k) (3).

(6) This section establishes maximum prices to be charged to dealers and quantity purchasers (as noted below) of merchant wire products, and does not establish a maximum price for sales by retail dealers (such as retail hardware stores, retail lumber yards, or mail order houses) to consumers: *Provided*, That sales by any person of nails in quantities of more than 25 kegs or other merchant wire products in quantities of more than 2500 lbs. shall be governed by the price provisions of this Schedule.

(i) *Maximum delivered prices for pipe and tubular products.* Maximum delivered prices for the following types of iron and steel pipe and tubular products shall be the sellers' prices in effect as of April 16, 1941: *Provided* they do not exceed the maximum delivered prices established below. Standard published mill extras in effect as of April 16, 1941, may be computed in the maximum delivered price: *Provided*, That where such extras were listed but not customarily charged by the seller as of April 16, 1941, they shall not be charged. Deductions customarily granted as of April 16, 1941, shall be deducted in computing the maximum delivered price.

• • • • •

(4) For boiler and other pressure tubes: the lowest price resulting from that combination of Basing Point prices in each quantity bracket of the National Tube Company Price List for sales to consumer in effect April 16, 1941, and less-than-carload freight from Basing Point to destination of customer (carload freight shall be charged on shipments of 40,000 lbs. and over).[1] *Provided*, That maximum prices for merchant and other tubes shall be in the same ratio to the maximum prices established for seamless tubing as existed on April 16, 1941. In no case shall these prices exceed the maximum established here for seamless tubing.

• • • • •

(6) This Schedule does not establish a maximum price for sales to consumers by retail hardware stores or mail order houses in quantities not greater than 5 standard lengths of pipe.

• • • • •

(j) *Maximum delivered prices for tool steel.* The maximum delivered price for Tool Steel shall be the seller's prices which were in effect, or would have been charged on April 16, 1941, provided they do not exceed, for comparable products, prices listed in the published price list of Crucible Steel Company, effective on April 16, 1941. The locations of warehouses of the Crucible Steel Company are set forth in Appendix B of this Schedule.

• • • • •

(k) *Maximum delivered prices for shipments in carload quantities, and in certain specific cases.*

• • • • •

(3) Mixed or straight carload of Merchant Wire Products shall be sold at maximum prices not exceeding the published mill base prices established under Price Schedule 6. (Regular jobber allowances given by mills may be retained by seller of such mixed carload)

• • • • •

(5) On shipments of 40,000 lbs. or more out of seller's stock not falling within paragraphs (2), (3) and (4) of this section, (except that on rails, these provisions shall apply to shipments of 59,000 lbs. or more) the maximum delivered price shall be the mill price as established under Price Schedule No. 6: *Provided*, That on presentation to the Office of Price Administration of a certificate that such shipment out of seller's stock has been specifically authorized by the War Production Board, a maximum delivered price will be established by the Office of Price Administration.

• • • • •

(l) *Maximum delivered prices for seconds, wasters, off-grade and used products.* The maximum delivered price for all off-grades, seconds, wasters and used iron or steel products after such shearing, cutting, straightening, bending or pickling, as may be necessary, shall be the seller's prices which were or would have been charged on April 16, 1941, provided they do not exceed the maximum delivered price for comparable iron or steel products of prime quality.

(m) *General provisions.*

• • • • •

(3) Whenever the Office of Price Administration published prices for any city or free delivery area, they shall on publication become the official published listed prices for such city or free delivery area, and shall supersede references otherwise made in this Schedule for the determination of sellers' maximum prices for such products, either in Appendix B for listed cities, or for unlisted cities. Transportation and delivery charges and all extras, deductions and other terms of sale to continue in effect as established by the Schedule, unless specifically stated otherwise in such official published price sheet.

[Revised to February 3, 1942]

PART 1307—RAW MATERIALS FOR COTTON TEXTILES

AMENDMENT NO. 7 TO PRICE SCHEDULE NO. 7—COMBED COTTON YARNS AND THE PROCESSING THEREOF

The title of Price Schedule No. 7 is hereby amended to read as above and §§ 1307.1 to 1307.8, inclusive, are hereby amended so that Price Schedule No. 7 will read as follows:

§ 1307.1 *Maximum prices for combed yarns and for mercerizing, bleaching, and gassing.* (a) On and after the applicable ceiling date, regardless of the terms of any contract of sale or purchase or other commitment (except as provided in Appendix A, incorporated herein as § 1307.12), no person shall sell, offer to sell, deliver or transfer combed yarn and no person shall buy, offer to buy, accept delivery of combed yarn, at prices higher than the applicable maximum prices set forth in Appendix A: *Provided*, That the provisions of this Schedule shall not apply to retail sales of combed yarn.

(b) On and after the applicable ceiling date, regardless of the terms of any contract or other commitment, no person shall charge and no person shall pay for the mercerizing, bleaching, and/or gassing of combed yarn, prices higher than the applicable maximum prices set forth in Appendix A.*

*§ 1307.1 to 1307.12, inclusive, issued under the authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1307.2 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid, or offered.*

§ 1307.3 *Evasion.* (a) The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery or transfer of combed yarn, or in connection with the mercerizing, bleaching, or gassing of combed yarn, alone or in conjunction with any other material, or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying-agreement or other trade understanding, or otherwise.

(b) No price agreed upon in any contract shall be charged by amendment of such contract, by substitution therefor of a new contract, or otherwise (whether or not such change is made pursuant to the terms of the original contract) if the change so effected results in an agreed price in excess of the maximum price applicable under § 1316.12 hereof, in accordance with the date the original contract was made, to the original contract or to deliveries pursuant thereto.*

§ 1307.4 *Records and reports.* (a) Every person making purchases or sales of combed yarn after February 2, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of (1) each such purchase or sale, showing the date thereof, the name and address of the buyer and the seller, the price paid or received, and the quantity and specifications of each kind or grade purchased or sold; (2) the quantity of combed yarn (i) on hand, and (ii) on order, as of the close of each calendar month; and (3) in the case of manufacturers (i) the quantity in pounds of each count of base-grade combed yarn manufactured during each calendar month and (ii) the quantity in pounds of each type of combed yarn, other than base-grade combed yarn, manufactured or sold during each calendar month, and the kind, grade, and staple of cotton used in each such type.

(b) Every person who, for a charge, mercerizes, bleaches, and/or gasses combed yarn after February 2, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such transaction, including (1) the name of the customer, (2) the date of the contract, (3) the count and ply of the yarn, (4) the service performed, and (5) the price charged.

(c) Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1307.5 *Details required in contract of sale and invoice.* (a) Every seller of combed yarn shall, with respect to every sale thereof, deliver to the purchaser a contract of sale which shall contain, in addition to the terms thereof, (1) the date on which the sale or contract of sale was made, and (2) a full description of the yarn sold, including (i) the count, (ii) the ply, and (iii) where, in conformity with this Schedule, a premium is charged, the feature of the yarn (including, when relevant, the kind of cotton used, the twist, and the put-up), of the packaging, or of the sale for which such premium is allowed.

(b) Every seller of combed yarn shall, with respect to each delivery thereof, transmit to the purchaser an invoice or similar document which shall either contain the information required by paragraph (a) above or make reference to the contract in which such information is set forth.*

§ 1307.6 *Affirmations of compliance.* On or before March 10, 1942, and on or before the 10th day of each month thereafter, every person who, during the preceding calendar month has purchased or sold combed yarn, whether for immediate or future delivery, shall submit to the Office of Price Administration an affirmation of compliance on Form 107:2, containing a sworn statement that during such month all such purchases or sales were made at prices in compliance with this Schedule or with any exception therefrom or modification thereof. Copies of Form 107:2 can be procured from the Office of Price Administration, or, provided that no change is made in the style and content of the form and that it is reproduced on 8 x 10½" paper, they may be prepared by persons required to submit affirmations of compliance hereunder.*

§ 1307.7 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and the public are fully informed thereof, and (b) that the powers of the Government, both state and federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule. Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation or manipulation of prices of combed yarn, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1307.8 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That no application under this section will be considered unless filed by persons complying with this Schedule.*

§ 1307.9 *Definitions.* When used in this Schedule, the term

(a) "Person" means an individual, partnership, association, corporation, or other business entity;

(b) "Combed yarn" means grey and (unless otherwise specified) mercerized, gassed, and/or bleached combed cotton yarn of all qualities and specifications in numbers up to 120s, inclusive, and includes imported combed yarn;

(c) "Retail sales" means sales to the ultimate consumer: *Provided*, That no manufacturer, processor, purchaser for resale, or commercial user shall be considered an ultimate consumer;

(g) Amendment No. 7, issued February 2, 1942, revising the entire schedule, shall be effective February 3, 1942.*

§ 1307.12 *Appendix A; maximum prices for combed yarns and for mercerizing, bleaching, and/or gassing thereof*—(a) *Arrangement of Appendix.* Paragraph (b) sets forth the terms of sale and of delivery to be observed in connection with the maximum prices established in this Schedule.

Paragraph (c) recapitulates the maximum prices established for grey combed yarns prior to December 24, 1941. Grey combed yarns delivered against contracts entered into prior to that date are subject to these maximum prices.

Paragraph (d) contains maximum prices applicable to (1) all sales and deliveries of single, two and three-ply grey combed yarns except deliveries against contracts entered into prior to December 24, 1941; (2) all sales and deliveries of grey combed yarn of four or more ply and of mercerized, bleached, and/or gassed combed yarns on or after February 3, 1942; and (3) all contracts for commission mercerizing, bleaching, and/or gassing entered into on or after February 3, 1942 and all deliveries after that date of yarn mercerized, bleached, and/or gassed on commission.

(b) *Terms of sale*—(1) *Freight; (i) Sales and deliveries by producers.* As applied to sales and deliveries by the producer, the maximum prices established herein include freight up to one cent per pound to the purchaser's place of business. The producer may require the purchaser to pay any freight in excess of one cent per pound. If the producer does not pay the freight, the maximum price shall be that shown herein less freight (up to one cent per pound) at the lowest published rate. In the case of sales or deliveries for export, if export is by sea, the seaport from which the yarn is shipped, or, if export is overland, the point at which the yarn leaves the United States, shall be regarded as the purchaser's place of business.

(ii) *Sales and deliveries of stock yarn.*[1] As applied to sales and deliveries of stock yarn, the maximum prices established herein are prices f. o. b. the stock-yarn seller's shipping point.

(2) *Discounts and commissions.* The maximum prices established by this Schedule are gross prices before any dis-

[1] As used in this Schedule, the term "stock yarn" means combed yarn owned by a person independent of the producer thereof and stored in space (1) belonging to or leased by such person and (2) located within 25 miles of his principal place of business; the term "independent" means not controlling, controlled by, or under common control with.

counts are deducted and they include all commissions.

The maximum prices for combed yarns (as distinguished from those for commission mercerizing, bleaching, and/or gassing) established in Paragraph (d) below, shall be discounted by 2 per cent where payment is made within 30 days of delivery.

(c) *Maximum prices for grey combed yarns covered by contract of sale prior to December 24, 1941.* Grey combed yarns of the following specifications which, prior to December 24, 1941, were covered by a sale or contract of sale but not delivered pursuant thereto, shall not be delivered to the purchaser at prices in excess of those set forth below.

The maximum prices set forth above are not applicable to deliveries of grey combed yarn which is to be exported outside the territory of the United States, regardless of whether such export is to be effected through a middleman: *Provided*, That yarn delivered for export shall not subsequently be sold or delivered for use within the territory of the United States at more than the maximum prices set forth above.

The maximum prices set forth above have been effective since July 21, 1941, which constitutes the ceiling date therefor.

(d) *Combed yarns not covered by contract prior to December 24, 1941; mercerizing, bleaching, and/or gassing*—(1) *Applicability of maximum prices in paragraph (d).* The maximum prices established in paragraph (d) apply to all sales and deliveries of single, two and three-ply grey combed yarns on and after December 24, 1941; to all sales and deliveries of grey combed yarn of four or more ply and of mercerized, bleached and/or gassed combed yarns on or after February 3, 1942; and to all contracts for and deliveries against contracts for commission mercerizing, bleaching, and/or gassing of combed yarn after February 3, 1942.

(2) *Determination of maximum price for combed yarns.* The maximum price for any offer to buy or sell, sale or contract of sale, delivery or transfer of combed yarn shall be determined from the tables in (3) below, as qualified by (4) below, in the following manner:

(i) *Offer to buy or sell.* By the spot cotton price of the business day immediately preceding that on which the offer was made, except that, if the offering price is not otherwise specified, an offer to buy or sell at the maximum price applicable on the day the contract of sale is to be made shall not be a violation of the schedule;

(ii) *Sale or contract of sale.* By the spot cotton price of the business day immediately preceding the day on which the sale or contract of sale is made, regardless of the maximum price applicable to the offer pursuant to which such sale or contract is made;

(iii) *Delivery or transfer.* [4] By the spot cotton price of the business day immediately preceding that on which the sale or contract of sale is made, regardless of any change in the spot cotton price subsequent thereto.

(3) *Tables of maximum prices for combed yarns.* For a yarn number intermediate between any two appearing in Table I or in Table II, the maximum price shall be that price obtained from these tables by interpolation in accordance with the respective yarn numbers.

19.64 to 20.00, inclusive	Add 5 cents per lb.

(4) *Premiums.* Where applicable, the premiums set forth below may be charged in addition to the maximum prices set forth in (3) above.

No premiums may be charged for any combed yarn except as permitted herein.

(i) *Export packaging.* For yarns in waterproof packaging to be exported by sea, a premium of one cent per pound may be charged.

(ii) *Export sales.* A premium of 5 per cent may be charged by the producer for combed yarns sold for export.[5]

Persons other than the producer, and independent [7] of him, may charge for yarns sold for export a premium which can be justified as commensurate with the difference in cost between the given export sale and a comparable domestic sale.

(iii) *Jobbers.* A jobber [6] who is independent [7] of the producer may:

(*a*) Sell broken-case lots of combed yarn in quantities of 1,500 pounds or less per calendar month to a given customer at a premium of 10 percent, and in quantities in excess thereof (but not exceeding 15,000 pounds in any calendar month to all his customers) at a premium of 5 percent;

(*b*) Sell combed yarn in lots of 1 to 3 unbroken cases at a premium of 5 percent: *Provided*, That he may not avail himself of this premium in connection with sales in any calendar month in excess of (1) 3,000 pounds to the same customer or (2) 20,000 pounds to all his customers.

(iv) *High twist.* For turns per inch exceeding the range provided for in the specifications for base-grade yarns, premiums may be charged in accordance with the following tables:

[12] Includes winding from bobbins to springs and from springs to cones.

[13] No extra charge is allowable for quilling or winding.

(viii) *Other premium yarns; reports on sales thereof.* A premium may be charged for (*a*) combed yarns in put-ups or of plies other than, or of twist slacker than, those provided for in the specifications for base-grade yarn and (*b*) combed yarns which, in order to meet breaking-strength requirements reason-

[11] The premiums set forth herein for mercerized, bleached, and/or gassed combed yarns also constitute maximum prices for mercerizing, bleaching, and/or gassing of combed yarn.

The maximum prices established in this Price Schedule do not apply to unmercerized bleached plied combed yarn or to the bleaching of plied combed yarn except in conjunction with the mercerizing thereof.

[5] See § 1307.9 (c) for definition of "for export".

[6] As used herein, "jobber" means a person at least 75 percent of whose sales of combed yarn during the calendar month preceding any given transaction consisted of stock-yarn sales. See footnote 1, above, for definition of "stock yarn."

[7] See footnote 1, above.

ably related to the use to which they are to be put, are made with American cotton of staple lengths greater than those provided for in the specifications for base-grade yarn or of Sea Island, SXP, Pima, or Egyptian cotton: *Provided*, That such premium shall not exceed the difference in value of materials and in production costs between such yarn and the most nearly comparable yarn for which a specific maximum price is established in this Schedule.

On or before March 10, 1942, and on or before the 10th day of each month thereafter every person who during the preceding calendar month has sold 5,000 pounds or more of combed yarn of his own manufacture at a premium permissible under (a) or (b) above, shall file with the Office of Price Administration a report of such sales on Form No. 107:3.

(5) *Ceiling date.* The maximum prices established in Paragraph (d) for single, two and three-ply grey combed yarns shall be effective as of December 24, 1941, which shall constitute the ceiling date for such prices.

The maximum prices established in Paragraph (d) for grey combed yarns of four or more ply; for mercerized, bleached, and/or gassed combed yarns; and for mercerizing, bleaching, and/or gassing, shall become effective February 3, 1942, which shall constitute the ceiling date for such prices.[6]

This Amendment No. 7 shall become effective February 3, 1942. Issued this 2d day of February, 1942.

PART 1307—RAW MATERIALS FOR COTTON TEXTILES

AMENDMENT NO. 3 TO PRICE SCHEDULE NO. 33—CARDED COTTON YARN

Section 1307.51 is amended by deleting paragraph (b) thereof and redesignating paragraph (c) as paragraph (b);

Paragraph (b) of § 1307.58 is amended; § 1307.60 is amended; paragraph (e) is added to § 1307.58; and §§ 1307.61 and 1307.62 are added to the Schedule, to read as follows:

§ 1307.58 *Definitions.*

• • • • • •

(b) "Carded cotton yarn" means carded cotton yarn of all qualities of the specifications for which maximum prices are established in Appendix A;

• • • • • •

(e) "For export" means to a person outside the United States, its territories and possessions.

• • • • • •

§ 1307.60 *Appendix A; maximum prices for carded cotton yarn*—(a) *Terms of sale*—(1) *Freight*—(i) *Sales and deliveries by producers.* As applied to sales and deliveries by the producer, the maximum prices established herein include freight up to one cent per pound to the purchaser's place of business. The producer may require the purchaser to pay any freight in excess of one cent per pound. If the producer does not pay the freight, the maximum price shall be that shown herein less freight (up to one cent per pound) at the lowest published rate. In the case of sales or deliveries for export, if export is by sea, the seaport from which the yarn is shipped, or, if export is overland, the point at which the yarn leaves the United States, shall be regarded as the purchaser's place of business.

(ii) *Sales and deliveries of stock yarn.*[1] As applied to sales and deliveries of stock yarn, the maximum prices established herein are prices f. o. b. the stock-yarn seller's shipping point.

(2) *Discounts and commissions.* The maximum prices established by this Schedule are gross prices before any discounts are deducted and they include commissions and all other charges.

The maximum prices for carded yarns established in paragraph (b) below shall be discounted by two per cent when payment is made within thirty days of delivery.

(b) *Maximum prices*—(1) *Determination of maximum price.* The maximum price for any offer to buy or sell, sale or contract of sale, delivery or transfer of carded cotton yarn shall be determined from (2) below, as qualified by (3) below, in the following manner.

[1] As used in this Schedule, the term "stock yarn" means carded yarn owned by a person independent of the producer thereof and stored in space (1) belonging to or leased by such person and (2) located within twenty-five miles of his principal place of business; the term "independent" means not controlling, controlled by, or under common control with.

(i) *Offer to buy or sell.* By the cotton spot price[2] of the business day immediately preceding that on which the offer was made except that, if the offering price is not otherwise specified, an offer to buy or sell at the maximum price applicable on the day the contract of sale is to be made shall not be a violation of the Schedule.

(ii) *Sale or contract of sale.* By the cotton spot price of the business day immediately preceding the day on which the sale or contract of sale is made, regardless of the maximum price applicable to the offer pursuant to which such sale or contract is made.

(iii) *Delivery or transfer.*[3] By the cotton spot price of the business day immediately preceding that on which the sale or contract of sale is made, regardless of any change in the cotton spot price subsequent thereto, except that, when the sale or contract of sale was made on or before July 20, 1941, the applicable maximum price shall be determined on the basis of a cotton spot price of 15.99 cents per pound.

(2) *Table of base maximum prices.* The following are base maximum prices for all carded yarns. They are subject to the premiums and discounts set forth in (3) below. For a yarn intermediate between any two appearing in this table, the maximum price shall be that price obtained from this table by interpolation in accordance with the respective yarn numbers.

[2] The term "cotton spot price," when used herein, means the average, published daily by the United States Department of Agriculture, Agricultural Marketing Service, of the price quotations for middling 15/16-inch cotton on ten designated spot markets.

[3] This method of determining the maximum price shall be used in connection with deliveries and transfers pursuant to sales or contracts of sale made before, as well as on or after, the applicable ceiling date.

[4] See § 1307.58 for definition of "for export".

[5] See footnote 1 above, for definition of independent.

[6] As used herein, "jobber" means a person at least seventy-five per cent of whose sales of carded yarn during the calendar month preceding any given transaction consisted of stock yarn sales. See footnote 1, above, for definition of "stock yarn".

[7] See footnote 1, above.

As used herein, the term "American cotton" means all kinds of cotton grown in the United States except Sea Island, S × P, and Pima.

(3) *Premiums and discounts.* Where applicable, the premiums set forth below may be charged in addition to the base maximum prices set forth in (2) above.

No premiums other than those permitted herein may be charged for any carded yarn.

(i) *Export packaging.* For yarns in waterproof packaging to be exported by sea, a premium of one cent per pound may be charged.

(ii) *Export sales.* A premium of five per cent may be charged by the producer for carded yarns sold for export.[4]

Persons other than the producer, and independent[5] of him, may charge for yarns sold for export a premium which can be justified as commensurate with the difference in cost between the given export sale and a comparable domestic sale.

(iii) *Jobbers.* A jobber[6] who is independent[7] of the purchaser may:

(a) Sell broken case lots of carded yarn in quantities of 1,500 pounds or less per calendar month to a given customer at a premium of ten per cent, and in quantities in excess thereof (but not exceeding 15,000 pounds in any calendar month to all his customers) at a premium of five per cent;

(b) Sell carded yarn in lots of 1 to 3 unbroken cases at a premium of five per cent: *Provided*, That he may not avail himself of this premium in connection with sales in any calendar month in excess of (1) 3,000 pounds to the same customer or (2) 20,000 pounds to all his customers.

(iv) *Special yarns.* A premium equal to the normal trade differential may be charged in addition to the bas maximum prices set forth in (2) above for

(a) carded yarns of twist lower than knitting or higher than warp twist;

(b) carded yarns put up otherwise than on regular-sized cones or tubes or in skeins;

(c) carded yarns made to tensile specifications which cannot be met with American cotton of the applicable staple length set forth below; [8]

(d) carded yarns which, because of special inspection, have regularly sold at a premium; and

(e) yarns with special constructions.

(v) *Tinged and part-waste yarn.* The maximum price for any tinged or part-waste carded yarn shall be the base maximum price set forth in (2) above, less the normal trade differential.

(c) *Ceiling date.* The maximum prices established herein become effective on February 3, 1942, which shall constitute the ceiling date for all carded yarns.

§ 1307.61 *Effect of amendments.* Unless the contrary is expressly provided in any amendment to this Schedule:

(a) such amendment shall not be deemed to affect the provisions of the Schedule as they stood prior to such amendment;

(b) it shall be permissible for any person to make or accept delivery of carded yarns at the price agreed upon in a contract of sale or purchase entered into prior to such amendment, if such price was subject to and in conformity with this Schedule when such contract was made;

(c) deliveries made pursuant to contracts entered into prior to the effective date of such amendment shall not be made or accepted at prices higher than the maximum price applicable under the terms of this Schedule as in effect when the contract was made.

§ 1307.62 *Effective dates of amendments.* (a) Amendment No. 1 became effective as follows:

(1) That portion thereof designated as A became effective November 27, 1941.

(2) That portion thereof designated as B became effective as of October 6, 1941.

(b) Amendment No. 2 became effective as of October 6, 1941.

(c) Amendment No. 3 is effective February 2, 1942.

(E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483)

This Amendment, No. 3, shall become effective February 2, 1942. Issued this 2d day of February 1942.

PART 1309—COPPER AND COPPER ALLOYS

AMENDMENT NO. 3 TO PRICE SCHEDULE NO. 20—COPPER SCRAP

Paragraph (c) of § 1309.70 is hereby amended by adding the following footnote thereto:

§ 1309.70 *Appendix A; maximum prices.*

• • • • • •

(c) *Special purpose copper scrap.*[1]

[1] Pursuant to this paragraph the Administrator has granted the following special premiums:

a. Metals Refining Company, Hammond, Indiana, by a letter dated December 4, 1941—Permission to purchase not in excess of 120 tons of scrap copper wire per month during the period December 1, 1941 to June 1, 1942 at a price not in excess of 11¼¢ per pound f. o. b. shipping point, such wire to be specially selected and prepared to meet that company's specifications calling for soft copper wire no larger than 6 B & S nor smaller than 18 B & S wire gauge, entirely free from solder ends, insulation, lacquer, ash or any other foreign substance, and packed in loose bales or coils.

b. The Sherwin-Williams Company, Bound Brook, New Jersey, by a letter dated December 22, 1941—Permission to purchase not in excess of 50 tons of scrap copper wire per month during the period November 1, 1941 to June 1, 1942 at a price not in excess of 11¼¢ per pound f. o. b. shipping point, such wire to be specially selected and prepared to meet that company's specifications calling for copper wire containing not less than 98% copper, reasonably free from tin and containing 80% or more of 10 gauge or smaller wire, packed in loose bales, boxes or barrels.

c. Superior Copper Products Company, Chicago, Illinois, by a letter dated December 10, 1941—Permission to purchase not in excess of 120 tons of scrap copper wire per month during the period December 1, 1941 to June 1, 1942 at a price not in excess of 11¼¢ per pound f. o. b. shipping point, such wire to be specially selected and prepared to meet that company's specifications calling for strictly No. 1 copper wire no larger than 8 B&S wire gauge and no smaller than 16 B&S wire gauge, free from all tin, lead, solder, insulation, connections, lugs, et cetera and packed in bales. Each of the foregoing exceptions was conditioned upon the use of all such copper scrap in the manufacture of copper powder, copper sulphate or other chemicals; upon compliance with all requirements of the War Production Board; and upon the furnishing of a report to the Office of Price Administration at the end of each month giving the amount of scrap purchased during the month, the dates of purchase and delivery, the name of the buyer, and the price paid.

(E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483)

This Amendment No. 3 shall become effective on February 2, 1942. Issued this 2d day of February 1942.

LEON HENDERSON,
Administrator.

§ 1316.61 *Appendix A; maximum prices for cotton goods.*

* * * * *

(b)

* * * * *

(4) *Maximum price tables.*

TABLE I

In addition to the maximum prices set forth in the following tables, the following premiums for special manufacturing processes may be charged. None of the premiums allowable hereunder is applicable, however, to osnaburgs delivered against contracts entered into prior to January 23, 1942, or to print cloths of Class B or C; to any fabric excepted below; or to any fabric which, in its standard construction, is normally manufactured by means of the process on which such premium is predicated.

Name of manufacturing process	*Premium*
Feeler motion	¼¢ per yd.[2]
Weaves requiring five or more cams:	
Weaves, other than plain, which (exclusive of selvage) require five cams.	¼¢ per yd.[2]
Weaves, other than plain, which (exclusive of selvage) require six or more cams.	½¢ per yd.[2]

[1] This premium, which is not applicable to cloths other than sheetings, osnaburgs, carded broadcloth, and Class A print cloths, is effective January 23, 1942. In connection with deliveries against contracts entered into between October 21, 1941, and January 22, 1942, inclusive, a premium of one cent per pound is allowable for feeler motion when used in the production of sheetings and Class A print cloths.

[2] Effective December 29, 1941. In connection with deliveries against contracts entered into between October 21 and December 28, 1941, inclusive, premiums are allowable (except on twills and drills of the types and classes listed in Table III–A) as follows:

Weaves which, including selvage, require five cams	¼¢ per yd.
Weaves which, including selvage, require 6 or more cams	½¢ per yd.

Name of manufacturing process—Continued	*Premium*
Weaves requiring dobby looms:	
Weaves requiring 16 harnesses or less.	1¼¢ per yd.[3]
Weaves requiring more than 16 harnesses.	1½¢ per yd.[3]
Fancy draw:	
For ply cords, bunched ends, skip dents, double draw (2 ends or more weaving as one), reverse-twist warp stripes, or any other novelty draw, or for any combination of the above.	½¢ per yd.
Each extra beam	½¢ per yd.
Hard twist:	
Warp yarn: where turns per inch equal 5¼ or more times the square root of yarn size.	½¢ per yd.
Filling yarn: where turns per inch equal 4¾ or more times the square root of yarn size.	½¢ per yd.
Clipping	1¢ per yd.
Slubs	2¢ per lb.

[3] If a premium is charged for dobby weave, no additional premium may be charged either for fancy draw or for slubs.

TABLE II—*Print Cloth Yarn Group*

Specifications for the types and classes of cloth listed herein are set forth in Table II–A.

A fabric falling within the specifications (as set forth in Table II–A) for any type of cloth listed herein shall be subject to the maximum price established herein even if made in a weave requiring 3 or 4 cams.

* * * * *

Table IV—*Denims*[1] (Prices are for all shades and colors)

* * * * *

[1] The maximum prices listed above are for all patterns made entirely or in part with white filling yarn. Premiums over the above maximum prices may be charged as follows:

For solid color and for all stripes and patterns made with 100 percent—colored filling yarn	½¢ per yd.
For herringbone weave	½¢ per yd.

The maximum prices set forth herein are for denims of 28 to 30 inches, inclusive, in width. The maximum price for a denim of any other width shall be that price which stands in the same relation to the applicable price set forth herein (i. e., for the same cloth of 28 to 30-inch width) as does its width to 29 inches.

Maximum prices for denims of weights (pro-rated to 29 inches) intermediate between those listed herein shall be determined by interpolation, according to the respective number of yards per pound, between the maximum prices set forth herein; maximum prices for denims of weights greater or less than any listed herein shall be determined, in proportion to the respective number of yards per pound, from the maximum price for, respectively, the heaviest or lightest denim listed in this table.

For seconds and short lengths of denim, the maximum prices listed in this table must be discounted as follows: Seconds ½ cent; short lengths, 25 to 40 yards, inclusive, ¾ cent; 10 to 24.99 yards, 1 cent; 2 to 9.99 yards, 15 percent.

The maximum prices set forth herein shall be discounted (1) where payment is made within 10 days of delivery, by 3 percent; and (2) where payment is made within the next 60 days, by 2 percent and by interest at 6 percent per annum for such portion of the 60-day period as the buyer, at his option or pursuant to agreement with the seller, anticipates by earlier payment.

Table V—*Colored yarn group, exclusive of denims* (prices are for all shades and colors)

Class of cloth and weight in yards per pound: [1]	
* * * * *	

[1] * * * Maximum prices for cloths of weights other than those listed herein (for the same type of cloth) shall be determined, in proportion to the respective number of yards per pound, from the maximum price for the cloth of that type and of the nearest weight.

(c) * * * (5) The provisions of subparagraph (1), (2), and (3) above are not applicable to the fabrics described below, for which the premiums set forth herein may be charged in addition to the otherwise applicable maximum price as set forth in paragraph (b): *Provided*, (i) That the fabrics are made for use in the manufacture of products to meet the specifications named below opposite the premium charged; and (ii) that the purchaser shall certify in writing to the seller, before any delivery is made, that the fabric is to be so used.

Grey goods made for use in products to meet—	*Premium allowable*
U. S. Army Specification No. 6-247 (July 12, 1937) and Amendment No. 1 (July 10, 1940) for cloth, drill, unbleached (fully shrunk).	1¢ per lb.
U. S. Army Specification No. 6-261 (January 7, 1939) and Amendment No. 1 (May 24, 1940) for cloth, cotton, herringbone twill [1].	1¢ per lb.
Quartermaster Corps Tentative Specification (October 31, 1940) for Raincoats, Single Texture, Rubberized, O. D.	½¢ per yd.[2]

[1] Grey goods made for use in meeting this specification are classified under this Schedule as Class A drills.

[2] Subparagraph (5), effective January 6, 1942.

(6) Permission to pay premiums has been granted under (3) above as follows:

Permission granted to	*By letter dated*
Hamilton Textile Corp., New York, N. Y.	December 5, 1941
Formica Insulation Company, Cincinnati, Ohio	December 27, 1941
Pacific Mills, Boston, Mass.	January 16, 1942
Marathon Rubber Products Co., Wassau, Wis.	January 16, 1942

§ 1316.62 *Effect of amendments.* Unless the contrary is expressly provided in any amendment to this Schedule:

(a) such amendment shall not be deemed to affect the provisions of the Schedule as they stood prior to such amendment;

(b) it shall be permissible for any person to make or accept delivery of cotton goods at the price agreed upon in a contract of sale or purchase entered into prior to such amendment, if such price was subject to and in conformity with this Schedule when such contract was made;

(c) deliveries made pursuant to contracts entered into prior to the effective date of such amendment shall not be made or accepted at prices higher than the maximum price applicable under the terms of this Schedule as in effect when the contract was made.

(E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483)

This Amendment No. 5, except as otherwise provided herein, shall become effective February 2, 1942. Issued this 2 day of February, 1942.

PART 1316—COTTON TEXTILES

PRICE SCHEDULE NO. 89—BED LINENS

Stable operation of the cotton textile industry is essential to the production of commodities necessary for the successful prosecution of the war and to the largest possible flow of goods to civilian consumers. The past several months have seen a rapid advance in the price of bed linens. Largely responsible for this inflationary trend have been the greatly expanded demand for bed linens resulting from increased consumer income and the heavy purchases of such goods for use by the military forces. The increase has not been justified on the basis of increased costs of materials and production, save to a negligible extent. In order to remedy the effects of the inflationary trend, and to insure stability of the price structure it is necessary that maximum prices be established for bed linens.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed:

§ 1316.101 *Maximum prices for bed linens.* (a) On and after February 2, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer bed linens, and no person shall buy, offer to buy, or accept delivery of bed linens at prices higher than the maximum prices set forth in Appendix A, incorporated herein as § 1316.111.

(b) The provisions of this Schedule (§§ 1316.101 to 1316.111, inclusive) are not applicable:

(1) To sales or deliveries of bed linens made by any wholesaler, jobber or retailer in the performance of a recognized distributive function: *Provided*, That except in accordance with subparagraph (2) hereof, sales and deliveries of bed linens by the manufacturer thereof or by any agent of such manufacturer, shall not be made at prices higher than the established maximum prices;

(2) To sales or deliveries of brown sheeting to a manufacturer, converter, or finisher for further processing prior to resale.*

*§§ 1316.101 to 1316.111, inclusive, issued pursuant to the authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1316.102 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid or offered.*

§ 1316.103 *Evasion.* (a) The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery or transfer of bed linens, alone or in conjunction with any other material, or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying-agreement or other trade understanding, or otherwise.

(b) No price agreed upon in any contract shall be changed by amendment of such contract, by substitution therefor of a new contract, or otherwise (whether or not such change is made pursuant to the terms of the original contract) if the change so effected results in an agreed price in excess of the maximum price applicable under § 1316.111 hereof, in accordance with the date the original contract was made, to the original contract or to deliveries pursuant thereto.*

§ 1316.104 *Records and reports.* Every person making purchases or sales of bed linens after February 2, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year complete and accurate records of (a) each such purchase or sale, showing the date thereof, the name and address of the buyer or the seller, the price pair or received, and the quantity in yards or dozens of pieces of each type of bed linens purchased or sold; (b) the quantity in yards or dozens of pieces of each type of bed linens (1) on hand, and (2) on order, as of the close of each calendar month; and (c) in the case of manufacturers, the quantity in yards or dozens of pieces of each type of bed linens manufactured during each calendar month.

No bed linens shall be sold on or after March 2, 1942, unless each piece bears a label containing:

(a) A statement of its type and size;

(b) if the piece is a second, a statement of that fact; and

(c) if the piece does not meet the minimum specifications set forth in Table I, the term "substandard."

Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1316.105 *Details required in contract of sale and invoice.* (a) Every seller of bed linens shall, with respect to each sale thereof, deliver to the purchaser a contract of sale which shall contain, in addition to the terms thereof, (1) the date on which the sale or contract of sale was made; (2) a full description of the bed linens sold including all details necessary to determine the applicable maximum price from this Schedule; and where, in conformity with this Schedule, a premium is charged or deduction made, the feature of the goods for which such premium is allowed or deduction required; and (3) the discount required by this Schedule for prompt payment.

(b) Every seller of bed linens shall, with respect to each delivery thereof, transmit to the purchaser an invoice or similar document which shall either contain the information required by (a)

above or make reference to the contract in which such information is set forth.*

§ 1316.106 *Affirmations of compliance.* On or before March 10, 1942, and on or before the 10th day of each month thereafter, every person, who during the preceding calendar month has purchased or sold bed linens, whether for immediate or future delivery, shall submit to the Office of Price Administration an affirmation of compliance on Form 189:1, containing a sworn statement that during such month all such purchases or sales were made at prices in compliance with this Schedule or with any exception therefrom or modification thereof. Copies of Form 189:1 can be procured from the Office of Price Administration, or provided that no change is made in the style and content of the form and that it is reproduced on 8 x 10½" paper, they may be prepared by persons required to submit affirmations of compliance hereunder.*

§ 1316.107 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government, both state and federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county and local governments by calling to the attention of the proper authorities, failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits; and (d) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation, or manipulation of prices of bed linens, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1316.108 *Modification of the schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That no application under this section will be considered by the Office of Price Administration unless filed by persons complying with this Schedule.*

§ 1316.109 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity;

(b) "Bed linens" means finished sheets, finished pillow cases, finished bolster cases and shall include both brown sheeting and bleached sheeting: *Provided*, That the term "bed linens" shall include only goods made of cotton and shall not include any goods made entirely of combed yarn.

(c) "Brown sheeting" means grey sheeting put up on boards, doubled and rolled which is sold for use by the ultimate consumer without further processing.

(d) "For export" means to a person outside the United States, its territories and possessions.*

§ 1316.110 *Effective date of the schedule.* This Schedule shall become effective February 2, 1942.*

§ 1316.111 *Appendix A: maximum prices for bed linens*—(a) *Terms of sale.* The maximum prices set forth in this Appendix are prices f. o. b. the seller's point of shipment. The prices are gross prices and include commissions and all other charges; they must be discounted as provided in subparagraph (1) of paragraph (d).

(b) *Determination of maximum price.* The maximum price (expressed in terms of a percentage discount from the base prices listed in Table II below) for any offer to buy or sell, sale or contract of sale, delivery or transfer of bed linens, shall be determined pursuant to Table III of paragraph (c), subject to the provisions of paragraph (d), in the following manner:

(i) *Offer to buy or sell.* By the spot cotton price [1] of the business day immediately preceding that on which the offer was made, except that, if the offering price is not otherwise specified, an offer to buy or sell at the maximum price applicable on the day the contract of sale is to be made shall not be a violation of the Schedule;

(ii) *Sale or contract of sale.* By the spot cotton price of the business day immediately preceding the day on which the sale or contract of sale is made, regardless of the maximum price applicable to the offer pursuant to which such sale or contract is made;

(iii) *Delivery or transfer.*[2] By the spot cotton price of the business day immediately preceding that on which the sale or contract of sale is made, regardless of any change in the spot cotton price subsequent thereto.

(c) *Maximum price tables.*

[1] The term "spot cotton price," when used herein, means the average, published daily by the United States Department of Agriculture, Agricultural Marketing Service, of the price quotations for middling 15/16-inch cotton on ten designated spot markets.

[2] This method of determining the maximum price shall be used in connection with deliveries and transfers pursuant to sales or contracts of sale made before, as well as on or after February 2, 1942.

TABLE I—*Key to types of bed linens listed in Table II* [1]

Specifications [2]	Type 180 [3]	Type 140	Type 128	Type 112

Stitches per inch [4]	14	14	14	14
Added sizing (maximum) [5]	4%	4%	6%	10%

[1] This table states minimum specifications (except for added sizing) for each type.

[2] In any instance in which the buyer or seller is in doubt as to whether bed linens meet the stated specifications, such bed linens shall be tested by Federal test method CCC-T-191A. The unit for such testing shall be the case, or its equivalent, which shall include not more than twenty dozen sheets or fifty dozen pillow cases. Each case of the goods in respect to which such doubt exists shall be tested separately. In the event of failure to meet minimum specifications for any given type as set forth in Table I, the goods shall be deemed substandard and the applicable maximum price shall be determined pursuant to subparagraph (3) of paragraph (d).

[3] Bed linens having a finished thread count of less than 175 shall not be classified as Type 180 regardless of whether they meet all other specifications of that type.

[4] Not applicable to brown sheeting.

[5] Not applicable to bleached sheeting.

(d) *Deductions and premiums.*[1] (1) The maximum prices set forth in paragraph (c) shall be discounted (i) where payment is made within 10 days of delivery by three per cent; and (ii) where payment is made within the next 60 days by two per cent;

(2) For seconds of all types of bed linens, the price shall be discounted by ten per cent.

(3) For bed linens which fail to meet the specifications as to weight set forth in Table I, the price of the particular type shall be discounted by five per cent for each five per cent or fraction thereof of the specified weight by which such bed linens are deficient.

For bed linens which fail to meet the specifications as to tensile strength set forth in Table I, either as to warp or filling, the price of the particular type shall be discounted by five per cent for each five per cent or fraction thereof of the specified tensile strength by which the warp and by five per cent for each five per cent or fraction thereof of the specified tensile strength by which the filling is deficient.

For bed linens which contain added sizing in excess of the applicable maximum, prescribed in Table I, the price of the particular type shall be discounted by five per cent for each five per cent or fraction thereof by which the sizing contained in such bed linens exceeds the prescribed maximum.

(4) In addition to the maximum prices set forth in paragraph (c) the following premiums may be charged or paid for pieces which are hemstitched or scalloped. For any piece which is both hemstitched and scalloped, both premiums may be charged or paid.

Piece	Hemstitched	Scalloped
	Dollars per dozen	
Bolster cases	2.50	2.50
Bed Sheets (54 x 75 or larger)	2.50	2.50
Pillow Cases	1.25	1.25
Bed Sheets (smaller than 54 x 75)	1.25	1.25

(5) Application may be made by any buyer or seller to the Office of Price Administration for permission to pay or accept, in addition to the maximum prices appearing in paragraph (c), a premium for bed linens for which, because of special construction or special physical properties involving added production costs, a premium has been charged prior to the effective date of this price schedule.

(6) In addition to the maximum prices set forth in paragraph (c), a seller may charge for bed linens sold for export [2] a premium which can be justified as commensurate with the difference in cost between the given export sale and a comparable domestic sale.*

Issued this 2d day of February 1942.

[2] See § 1316.109 for definition of "for export."

PART 1325—CONSUMER'S DURABLE GOODS

AMENDMENT NO. 1 TO PRICE SCHEDULE NO. 39—UPHOLSTERY FURNITURE FABRICS

Section 1325.51 is hereby amended to read as follows:

§ 1325.51 *Maximum prices for upholstery furniture fabrics.* (a) On and after November 10, 1941, regardless of the terms of any contract of sale or purchase, or other commitment, no manufacturer shall sell, offer to sell, deliver or transfer any present pattern of upholstery furniture fabrics at a price higher than the maximum price. The maximum price for any present pattern shall be 105 per cent of the price quoted for such pattern in the manufacturer's price list in effect on September 10, 1941, to the same general class of purchasers. If no such price exists, the maximum price shall be 105 per cent of the highest price, f.o.b. seller's point of shipment, at which such pattern was sold and delivered to a purchaser of the same general class in the sixty-day period ended September 10, 1941.

(b) The following maximum prices have been established for Brooks Brothers Company Incorporated, Philadelphia, Pennsylvania: for each present pattern for which the price quoted in the September 20, 1941, price list exceeds 105 per cent of the price quoted for such pattern in the price list in effect on September 10, 1941, the maximum price shall be the price quoted for such pattern in the September 20, 1941 price list; for all other present patterns the maximum price shall be the price determined under the provisions of this Section applicable to all manufacturers. (E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483)

This Amendment No. 1 shall become effective February 2, 1942. Issued this 2nd day of February, 1942.

High Strength Magnesium	.0575	.0600
Titanated	.0560	.0585
Zinc Sulphide	.0825	.0850

(b) *Deliveries in Western Territory.*[1]

Grade	Per pound delivered in bags (carload lots)	Per pound f. o. b. warehouse (less than carload lots)
Normal	$.0450	$.0475
High Strength Barium	.0585	.0610
High Strength Calcium	.0585	.0610
High Strength Magnesium	.0600	.0625
Titanated	.0585	.0610
Zinc Sulphide	.0850	.0875

[1] When used in this Appendix, the term "Eastern Territory" means the States of New Mexico, Colorado, Wyoming, Montana and all states east thereof, and the term "Western Territory" means all other states of the United States.

(c) *Barrels.* The maximum prices for deliveries of lithopone in Eastern or Western Territory in barrels are the maximum prices established above in paragraphs (a) or (b), whichever the case may be, plus one quarter of a cent per pound.

(d) *Export Sales and Sales to Persons in Territories and Possessions of the United States*—(1) *Shipments by vessel from Eastern Territory.* The maximum prices for shipment by vessel from Eastern Territory are the maximum prices established above in paragraph (a) f. a. s. vessel at the port of shipment plus $.30 per hundred pounds.

(2) *Shipments by vessel from Western Territory.* The maximum prices for shipment by vessel from Western Territory are the maximum prices established above in paragraph (b) f. a. s. vessel at the port of shipment plus $.30 per hundred pounds.

(3) *Overland shipments.* The maximum prices for overland shipment are the maximum prices established in paragraph (a) or (b) above, whichever the case may be, delivered to that station in the United States which is at or nearest to that point on the boundary at which the shipment crosses from the United States into Canada or Mexico plus $.20 per hundred pounds except that for less than carload quantities shipped from warehouses in Western Territory the maximum prices are f. o. b. warehouse plus $.20 per hundred pounds.

(4) *Expenses.* No expenses, commissions, or charges for service may be added to the maximum prices established by subparagraphs (1), (2) and (3) of this paragraph (d), except (i) ocean freight, (ii) marine and war risk insurance, and (iii) foreign agents' commission unless such foreign agents' commission or any part thereof is received by the exporter directly or indirectly for his own use. (E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483)

This amendment shall become effective February 2, 1942. Issued this 2d day of February 1942.

PART 1340—FUEL

PRICE SCHEDULE NO. 88—PETROLEUM AND PETROLEUM PRODUCTS

The production, refining and distribution of petroleum and petroleum products constitute one of the largest industries in the United States. Ample supplies of petroleum products are of prime importance to the armed forces and are equally essential to the industrial activity required by the war effort and to the civilian life of the nation. Inflationary increases in the prices of petroleum and its products will not only be multiplied in the whole structure of costs and prices; they will directly increase the cost of living and the burden of supplying the armed forces.

Price stabilization in the petroleum industry was initiated on the basis of informal agreements between the Office of Price Administration and members of the industry. The increasing scope of control and the growing multiplicity of informal agreements and understandings has made it necessary to embody these agreements and understandings in a Price Schedule. Such action will serve to clarify the price policies of this Office as they affect the petroleum industry and to protect the industry and the public from the inflationary effects of unwarranted price increases.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1340.151 *Maximum prices for petroleum and petroleum products.* On and after February 2, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, except as provided in § 1340.159 (a) (1), no person shall sell, offer to sell, deliver or transfer petroleum or petroleum products, and no person shall buy, offer to buy, or accept delivery of crude petroleum at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1340.159.*

*§§ 1340.151 to 1340.159, inclusive, issued pursuant to authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1340.152 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid or offered.*

§ 1340.153 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a sale, delivery or transfer of petroleum products, or a purchase, sale, delivery or transfer of crude petroleum, alone or in conjunction with any other materials, or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying-agreement or other trade understanding or by a change in the quality of a product, or otherwise.*

§ 1340.154 *Records and reports.* All purchase prices for crude petroleum as of October 1, 1941, whether or not such purchase prices were posted, shall be filed with this Office within thirty days after the effective date of this Schedule (§§ 1340.151 to 1340.159, inclusive). Purchase prices for crude petroleum described above may be submitted in the form of such price schedules or price lists as were in use on the dates specified, provided such price schedules or price lists are corrected to indicate any variance between the schedule or list price and the purchase price.

Where a contract was in effect as of October 1, 1941 for the sale of crude petroleum at the well in excess of the posted purchase price for the pool involved, duly authenticated copies of such contracts shall be filed with this Office within thirty days after the effective date of this Schedule.

Where maximum prices for any sale or purchase of crude petroleum or sale of petroleum products are not provided for in Section 1340.159, purchasers and sellers of crude petroleum and sellers of petroleum products shall, within ten days after the purchase or sale in question, submit to this Office the price and description of the crude petroleum or petroleum product in question.

Persons affected by this Schedule shall submit such other reports to the Office of Price Administration and keep such records as it may, from time to time require.*

§ 1340.155 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule (§§ 1340.151 to 1340.159, inclusive), or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government, both state and federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county, and local governments by calling to the attention of the proper authorities failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits; and (d) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule.

Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices, or of speculation, or manipulation of prices of petroleum or petroleum products, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1340.156 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That no application under this section will be considered unless filed by persons complying with this Schedule.*

§ 1340.157 *Definitions.* When used in this Schedule (§§ 1340.151 to 1340.159, inclusive), the term:

(a) "Person" means an individual, partnership, association, corporation or other business entity, including all producers, refiners, marketers and others who buy, sell or exchange petroleum and who sell or exchange petroleum products, including specifically but not exclusively the following classes of persons:

Crude oil producers
Crude oil purchasers
  Refiners
  Pipe line companies
  Crude oil purchasing companies
  Marketers
    Integrated companies
    Non-integrated companies
    Terminal operators
    Distributors
    Jobbers
    Peddlers

(b) "Petroleum products" means:

All grades of gasoline, including natural gasoline and blending naphthas; also special hydrocarbon fractions utilized in the manufacture of gasoline or the components thereof
Liquefied petroleum gases
Tractor distillates and similar distillate type motor fuels other than gasoline
Kerosene, including range oil or stove oil
Distillate burning, heating or fuel oils
Diesel fuel oils
Residual burning, heating or fuel oils
Lubricating oils, including motor, aviation and stock oils (neutrals, bright stocks, steam refined stock and other stock oils)

For the time being industrial lubricating oils, industrial naphthas and solvents, greases, and specialty products (such as household oils and spot removers) are excluded from the list of petroleum products subject to this Schedule.

(c) "Pool" means any underground accumulation of crude petroleum or associated hydrocarbon substances, including but not limited to natural gas, constituting a single and separate reservoir or source of supply within a field, area, or horizon whether or not presently discovered or developed.

(d) "Consumer or commercial tank wagon prices" means the prices at which petroleum products are sold for delivery by tank wagon or tank truck to the ultimate consumer of such products or to persons not primarily resellers of such products.

(e) "Contract" means an agreement, the existence of which is established by written evidence.

(f) "Dealer tank wagon prices" means the prices at which petroleum products are sold for delivery by tank wagon or tank truck to resellers of such products.

(g) "Producers" means royalty owners or other sellers of crude petroleum at the well.

(h) "Producing well" means any well that has produced any crude petroleum during a period of ninety days prior to and including October 1, 1941.

(i) "Shut-in well" means any well that has not produced any crude petroleum during a period of ninety days prior to and including October 1, 1941.

(j) "Tank wagon area" means the area in which petroleum products are distributed by tank wagon or tank truck from the given shipping point.*

§ 1340.158 *Effective date of the Schedule.* This Schedule shall become effective February 2, 1942.*

§ 1340.159 *Appendix A; maximum prices for petroleum and petroleum products.* The maximum prices established by this Schedule (§§ 1340.151 to 1340.159, inclusive) shall include the prices on all domestic, export and import transactions, sales, transfers, exchanges or purchases of crude petroleum and on all domestic, export and import transactions, sales, transfers or exchanges of petroleum products, involving contract, bid or spot sales of crude petroleum at the well, the gathering point, tank farm or terminal, and of petroleum products for cargo or barge shipment, harbor delivery, f. o. b. refinery and terminal, and tank car and tank wagon delivery. Prices for petroleum products sold at retail at service stations, garages and stores are not governed by this Schedule.

The prices on which this Schedule is based are the prices after all usual discounts, such as those for quantity, prompt payment or ease of handling.

Except as specifically provided hereinafter, and pending the preparation of a comprehensive schedule or schedules of specific prices, the maximum prices for petroleum and petroleum products shall be the prices determined according to Paragraphs (a) and (b) below.

(a) *Crude petroleum.* (1) The maximum price at the well for crude petroleum shall be the posted purchase price as of October 1, 1941 for the pool in which any given well is located: *Provided*, That where a contract was in effect on October 1, 1941 for the purchase of crude petroleum at the well in excess of the posted purchase price for the given pool, such contract price shall be the maximum price at the well for any given well for the production covered by the contract, or any renewal of such contract, or a new contract between the same buyer and seller concerning the production from the same well.

(2) Where, on October 1, 1941, there was in any given pool more than one posted purchase price or no posted purchase price, the maximum price at the well for crude petroleum shall not be, for any given well, in excess of the price paid for crude petroleum from that given well as of October 1, 1941, unless this price is below the lower or lowest of the posted purchase prices, if any, and in that case the maximum price shall not be in excess of such lower or lowest posted purchase price: *Provided*, That where a contract was in effect on October 1, 1941 for the purchase of crude petroleum at the well in excess of the posted purchase price for the given pool, such contract price shall be the maximum price at the well for any given well for the production covered by the contract, or any renewal of such contract, or a new contract between the same buyer and seller concerning the production from the same well.

(3) Where a well was a producing well on October 1, 1941, but did not actually produce any crude petroleum on that date, the maximum price for crude petroleum at such well shall be subject to paragraph (4) (ii) (a) below, provided, that, however, where the price cannot be determined by this paragraph then the price shall be governed by paragraph (1) and (3) above.

(4) Where a well was a shut-in well on October 1, 1941, and is subsequently reopened, or where a new well is completed subsequent to October 1, 1941, the maximum price at the well for crude petroleum produced from such well shall be determined as follows:

(i) Where there was only one purchase price posted as of October 1, 1941 for the pool in which the well is located, such posted price shall be the maximum price at the well for crude petroleum produced from the well in question.

(ii) Where there was more than one purchase price posted as of October 1, 1941 for the pool in which the well is located, and

(a) Where the location of the new or reopened well was included in the same lease with one or more producing wells on October 1, 1941, the posted price applicable to those producing wells on October 1, 1941 shall be the maximum price at the well for crude from the new or reopened well.

(b) Where the above provision does not apply, the highest price posted as of October 1, 1941 for the pool in which the well is located shall be the maximum price at the well for crude from the new or reopened well.

(iii) Where there was no purchase price posted as of October 1, 1941, for the pool in which the well is located, a purchaser may set a temporary price for crude petroleum produced from the new or reopened well, subject to the provisions of § 1340.154 above. This provision covers wells representing discovery and development of new pools subsequent to October 1, 1941.

(5) The maximum prices for crude petroleum purchased at points other than at the well shall be at no greater differentials at such points over the maximum price for such crude at the well than existed on October 1, 1941.

(b) *Petroleum products.* (1) The maximum price on each product sold, contracted to be sold, delivered, or transferred by a seller shall be the lowest quoted price published in the first issue on or after October 1, 1941, of the *National Petroleum News*, *Platt's Oilgram*, or the *Chicago Journal of Commerce*, or other publications designated by this Office, for a product of the same class, kind, type, condition and grade. Where such products are sold and prices are quoted on a delivered basis, then the maximum delivered price shall be the lowest quoted delivered price so published. Where products are sold and prices are quoted on an f. o. b. shipping point basis, then the maximum f. o. b. price shall be the lowest quoted f. o. b. price so published.

(2) Where the maximum price for a petroleum product at a given shipping or

delivery point cannot be determined under (1) above, the maximum price for each seller at such shipping or delivery point shall not exceed the price charged at that point by him on the last sale of a substantial quantity of the same product with sixty days prior to October 15, 1941. Where the product is sold on a delivered basis at a given point the maximum price shall be the price charged on the last sale of a substantial quantity of the same product made on a delivered basis at that point in the period specified. Where the product is sold at a given point on an f. o. b. shipping point basis, the maximum price shall be the price charged on the last f. o. b. shipping point sale at that point of a substantial quality of the same product in the period specified.

(3) Where the maximum price for products at a given shipping or delivery point cannot be determined under (1) or (2) above, sellers may sell such products at the market price prevailing at that point on October 1, 1941.

(c) *Specific prices.* The following specific prices shall be the maximum prices for the items named at the points enumerated, notwithstanding Paragraphs (a) and (b) above:

(1) *Crude petroleum:*

Pennsylvania grade. The maximum prices at the well for Pennsylvania grade crude petroleum shall be those established in Price Schedule No. 22[1]—Pennsylvania Grade Crude Oil (§§ 1340.21 to 1340.29 of this chapter).

North and North Central Texas and Oklahoma. The maximum price at the well for crude petroleum of 40° gravity and above, determined by the American Petroleum Institute method, produced in Archer, Baylor, Brown, Callahan, Clay, Coleman, Comanche, Cooke, Eastland, Fisher, Foard, Haskell, Jack, Jones, Montague, Palo Pinto, Shackelford, Stephens, Taylor, Throckmorton, Wichita, Wilbarger, and Young Counties, Texas, and in the bed of the Red River in Tillman County, Oklahoma, shall be $1.21 per barrel with the customary differentials for lower gravity crudes.

Louisiana. The maximum price at the well for crude petroleum of 40° gravity and above, determined by the American Petroleum Institute method, produced in the Caddo Pool in Louisiana shall be $1.30 per barrel with the customary differentials for lower gravity crudes.

Oklahoma. The maximum price at the well for crude petroleum of 40° gravity and above, determined by the American Petroleum Institute method, produced in Carter County and in the Healdton and Oscar Pools in Oklahoma shall be $1.26 per barrel with the customary differentials for lower gravity crudes.

(2) *Gasoline; maximum prices for cargo transactions on the Gulf coast market.* The maximum price on sales by the refiners listed below and their subsidiaries for cargo transactions on the Gulf Coast market shall be as follows:

Motor gasoline	Cents per gallon
Minimum 80 octane 1939 Research Method (as determined by Cooperative Fuel Research Committee) with a maximum of 2 cubic centimeters of lead	6.00
60–62 gravity, maximum 400 end point:	
72–74 octane leaded	5.75
70 octane unleaded	5.75
68 octane unleaded	5.75
65 octane unleaded	5.25
60 octane unleaded	5.00

(octane ratings as defined by American Society for Testing Materials)

Skelly Oil Company.
Socony-Vacuum Oil Company, Inc.
Standard Oil Company of California.
Standard Oil Company (Indiana).
Standard Oil Company (New Jersey).
Sun Oil Company.
Texas Company, The.
Tidewater Associated Oil Company.

Maximum prices to be charged by other petroleum refiners for cargo transactions on the Gulf Coast market shall be as follows:

Motor gasoline	Cents per gallon
Minimum 80 octane 1939 Research Method (as determined by Cooperative Fuel Research Committee) with a maximum of 2 cubic centimeters of lead	6.5
60–62 gravity, maximum 400 end point:	
72–74 octane leaded	6.25
70 octane unleaded	6.25
68 octane unleaded	6.25
65 octane unleaded	5.75
60 octane unleaded	5.5

(octane ratings as defined by American Society for Testing Materials)

Maximum prices for gasoline on the Eastern Seaboard.

Eastern Seaboard. (Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia). The maximum prices for all sales of all motor gasoline sold in Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia and West Virginia, shall not be in excess of .3 cent per gallon above the prices in the above states and the District of Columbia on November 7, 1941. Such maximum increase of .3 cent per gallon shall apply to the communities in Maryland and Virginia adjacent to the District of Columbia in addition to the increase provided for those communities below.

PART 1345—COKE

AMENDMENT NO. 1 TO PRICE SCHEDULE NO. 29—BY-PRODUCT FOUNDRY AND BY-PRODUCT BLAST FURNACE COKE

Sections 1345.9 and 1345.10 are hereby amended and one new § 1345.11 is added as set forth below:

§ 1345.9 *Appendix A; maximum prices for by-product foundry coke per net ton (2,000 lbs.)*—(a) *General provisions.* The maximum delivered price for by-product foundry coke shall be the price f. o. b. car at the governing oven plant, plus the lowest established rail transportation charges, from that oven plant, to the place of delivery. The term "governing oven plant" means that oven plant, the price at which, together with the lowest established rail transportation charge, results in the lowest price at the place of delivery.

Location of oven plant:	F. o. b. oven plant in cars (per net ton)
Alabama	$8.50
Chicago, Ill.	11.50
Ashland, Ky.	10.00
Detroit, Mich.	11.75
Kearny, N. J.	12.15
Buffalo, N. Y.	11.75
Ironton, Ohio	10.00
Painesville, Ohio	11.25
Portsmouth, Ohio	10.00
Erie, Pa.	11.75
Philadelphia, Pa.	11.75
Chattanooga, Tenn.	9.00
Fairmont, W. Va.	10.00
Milwaukee, Wis.	12.25

(b) *Exceptions*—(1) *Place of delivery within New England and part of New York.* The maximum delivered price in the States of Connecticut, Rhode Island, Massachusetts and New Hampshire and in that portion of the States of New York, Maine and Vermont wherein the lowest established rail transportation charge for by-product foundry coke from Everett, Mass. is $3.10 per net ton or less, shall be $13.75 per net ton less $0.15 per net ton discount for cash with ten days from date of delivery.

The maximum delivered price within that portion of the States of Maine and Vermont wherein the lowest established rail transportation charge for by-product foundry coke from Everett, Mass. exceeds $3.10 per net ton shall be $10.65 plus the lowest established rail transportation charge from Everett, Mass. to the place of delivery.

(2) *Place of delivery within certain switching districts.* Except as set forth in (b) (3) below, the maximum delivered prices within the following switching districts are:

District	Delivered price per net ton
Chicago, Illinois	$12.25
Birmingham & Tarrant, Ala.	9.40 (i)
St. Louis, Mo. & E. St. Louis, Ill.	12.25 (ii)
Indianapolis, Indiana	12.00
Terre Haute, Indiana	12.00
Detroit, Michigan	12.25
Buffalo, New York	12.50
Cincinnati, Ohio	11.75
Cleveland, Ohio	12.30
Erie, Pennsylvania	12.25
Philadelphia, Pa.	12.38
St. Paul & Minneapolis, Minn.	14.00

(i) Except that the maximum delivered price to consumers qualifying under the provisions of the Louisville and Nashville Railroad Company Tariff O. F. O. No. 220–C establishing a furnace raw material freight rate of $0.60 per ton shall be $9.10.

(ii) Except that producers situated in states other than Missouri, Alabama or Tennessee may charge a maximum delivered price of $12.75.

(iii) *Place of delivery within certain switching districts when shipments thereto are from Alabama ovens.* The maximum delivered prices within the following switching districts for by-product foundry coke shipped from the State of Alabama are:

District	Delivered price
Chicago, Illinois	$12.85
Detroit, Michigan	12.45
Indianapolis, Indiana	12.45
Cleveland, Ohio	12.40
Chattanooga, Tenn.	9.92
Bayonne, New Jersey	16.96
Williamsburg, Ohio	11.95

(4) *Place of delivery within Ohio or certain parts of New York.* Whenever the place of delivery is located within the States of Ohio or New York, other than that part of New York for which a maximum delivered price was established in (b) (1) above, the Fairmont, West Virginia, oven plant shall not be considered in determining the "governing oven plant," except whenever the shipment is made from the Fairmont, West Virginia, oven plant.

(5) *Place of delivery within Kentucky, Indiana, Michigan, Illinois, Iowa, Missouri, Kansas, Nebraska, Minnesota, South Dakota, Montana, Colorado, Utah or Virginia.* Whenever the place of delivery is located (excepting the switching districts set forth in (b) (2) above) within the States of Kentucky, Indiana, Michigan, Illinois, Iowa, Missouri, Kansas, Nebraska, Minnesota, South Dakota, Montana, Colorado, Utah, or Virginia, the Alabama and Chattanooga, Tennessee oven plants shall not be considered in determining the "governing oven plant," except whenever the shipment is made from the oven plants at Alabama, Chattanooga, Tennessee, or St. Louis, Missouri: *Provided, however,* That the maximum delivered price in those areas shall not exceed the Alabama f. o. b. oven plant price plus the lowest established rail transportation charge from the Alabama oven to the place of delivery, plus $0.75 per net ton.

(6) *Place of delivery within Oklahoma, Nevada, Texas, Arizona, New Mexico or Idaho.* Whenever the place of delivery is located within the States of Oklahoma, Texas Nevada, Arizona, New Mexico or Idaho, the Alabama and Chattanooga, Tennessee, oven plants shall not be considered in determining the "governing oven plant" except when the shipment is made from such oven plants: *Provided, however,* That when the shipment is made from any other oven plant, the maximum price at such oven plant may not exceed $10.00 per net ton.

(7) *Place of delivery within Eastern Pennsylvania, Southern New Jersey, Delaware and Maryland.* Whenever the place of delivery is located within eastern Pennsylvania,[1] southern New Jersey,[2] Delaware or Maryland,[3] the maximum delivered price shall be as follows:

When the lowest established rail transportation charge for by-product foundry coke from Swedeland, Pa. to the place of delivery, is:

Freight rate per net ton:	The maximum price per net ton shall be
$0.68 and less	[4] $12.38
$0.69 to $0.96, inclusive	12.40
$0.97 to $1.66, inclusive	12.45
$1.67 to $2.24, inclusive	12.70
$2.25 to $2.50, inclusive	12.80
$2.51 to $2.85, inclusive	12.95
$2.86 and over	[4] 10.35

(8) *Place of delivery with Western Pennsylvania or Washington County, Maryland.* Whenever the place of delivery is located in the counties of Erie (excepting City of Erie switching district), Crawford, Warren, McKean, Elk, Forest, Venange, and Mercer, the Fairmont, W. Va., oven plant shall not be considered in determining the "governing oven plant," except when the shipment is made from such oven plant: *Provided, however,* That the maximum delivered price shall not exceed the Fairmont, W. Va., oven plant price plus the lowest established rail transportation charge for by-product foundry coke from Fairmont, West Virginia, to the place of delivery, plus 25¢ per net ton.

Whenever the place of delivery is located in the remaining counties of Western Pennsylvania[4] or Washington County, Maryland, the Fairmont, W. Va., oven plant shall not be considered in determining the "governing oven plant," except when the shipment is made from such oven plant: *Provided, however,* (i) That the maximum delivered price shall not exceed the Fairmont, W. Va., oven plant price plus the lowest established rail transportation charge for by-product foundry coke to the place of delivery, plus 75¢ per net ton and (ii) when shipment is from the ovens at Painesville, Ohio, or Swedeland, Pennsylvania, the maximum delivered price shall not exceed $10.00 per net ton ovens, plus the lowest established rail transportation charge for by-product foundry coke from such oven to the place of delivery.

[1] That portion of the state east of a line running approximately north and south through Lawrenceville, Pa (Tioga County) and Kingsdale, Pa. (Adams County).

[2] That portion of the state south of a line running from a point immediately north of Phillipsburg, N. J., to a point immediately north of Asbury Park, N J.

[3] Excluding Washington County.

[4] Delivered.

[5] F. o. b. oven plant.

[4] That portion of the state west of a line running approximately north and south through Lawrenceville, Pa. (Tioga County) and Kingsdale, Pa. (Adams County).

(9) *Place of delivery within California, Oregon, and Washington.* On shipments to the States of California, Oregon, and Washington, the governing oven plant may be Chicago, Ill.: *Provided*, That when shipment is from the oven plants listed in paragraph (a) of this Appendix, the maximum delivered price may not exceed the f. o. b. oven plant price at such oven plants, plus the lowest established rail transportation charge for by-product foundry coke.

(10) *Delivery other than by railroad.* When delivery is by means other than railroad, the maximum delivered price shall be the price as computed in this Appendix but adjusted to provide the customary differential or charge in effect on September 18, 1941, for such means of delivery.

§ 1345.10 *Appendix B; maximum prices for by-product blast furnace coke per net ton (2,000 pounds).* The maximum price f. o. b. oven plant on by-product blast furnace coke which may be charged by any person at each oven plant, shall be $0.75 per net ton above the weighted average price f. o. b. oven plant of such coke deliverey by such person from each oven plant during the first quarter of 1941: *Provided*, That this Appendix B shall not apply to sales or shipments made after the issuance of this Schedule at less than $6 per net ton f. o. b. oven plant. The weighted average price means the average of the prices for which such coke was sold during such period weighted by the tons of such coke sold at each price.

Every person who produces and sells by-product furnace coke shall file prices at which such coke was delivered, and the quantity delivered at each price during the first quarter of 1941. Such information shall be filed with the Office of Price Administration, Washington, D. C., on or before September 27, 1941.

Persons who become producers and sellers of by-product blast furnace coke after the first quarter of 1941 shall apply to the Office of Price Administration for a maximum price. Such application shall be made on Form 129: , supplied by the Office of Price Administration.

§ 1345.11 *Geographical application.* The provisions of this Schedule shall apply only to sales, offers to sell or delivery of by-product blast furnace coke within, into, or out of one of the forty-eight States of the United States or the District of Columbia.

(E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483)

This amendment No. 1 shall become effective February 7, 1942. Issued this 2d day of February 1942.

PART 1360—EMERGENCY CIVILIAN DEFENSE MATERIALS AND EQUIPMENT

PRICE SCHEDULE NO. 48 AND SUPPLEMENTAL SCHEDULE NO. 1 THEREUNDER

Order of Revocation

On December 10, 1941, the Administrator issued Price Schedule No. 48 ("Emergency Civilian Defense Materials and Equipment") and Supplemental Schedule No. 1 thereunder fixing ceiling prices on flashlights, flashlight batteries and flashlight bulbs. The purpose of such schedule and supplemental schedule was to prevent profiteering as the result of demand created by the threat of extensive blackouts. Prices of flashlights have been generally stable since December 10, 1941, and, the specific emergency having abated, it is deemed appropriate to revoke the aforementioned schedule and supplemental schedule.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

Price Schedule No. 48 (§§ 1350.1 to 1350.7, inclusive) and Supplemental Schedule No. 1, (§§ 1350.11 to 1350.13, inclusive) to Price Schedule No. 48 are hereby revoked.*

Issued this 2d day of February 1942.

LEON HENDERSON,
Administrator.

PART 1351—FOODS AND FOOD PRODUCTS

AMENDMENT NO. 2 TO PRICE SCHEDULE NO. 51—COCOA BEANS AND COCOA BUTTER

The preamble and §§ 1351.51 to 1351.58, inclusive, are hereby amended and renumbered, so that Price Schedule No. 51 shall read as follows:

During the past few months, the prices of cocoa beans, a wholly imported commodity, and cocoa butter have increased sharply as the result of uncertainties in the shipping situation and increases in transportation and insurance costs. This has occurred despite the fact that stocks of cocoa beans are now the largest ever accumulated in this country. Since the high nutritive value of the foods processed from cocoa beans makes them of material importance to both our armed forces and our civilian population, it is essential that any inflationary price rises in this commodity be curbed. The outbreak of hostilities in the Far East on December 7, 1941, gave rise to a sharp increase in speculative activity which caused this Office to issue a temporary freezing order on December 11, 1941, limiting prices to those prevailing on December 8, 1941.

In the intervening weeks, this Office has been engaged in a thorough study of the economic and trade position of cocoa beans and cocoa butter. Due consideration has been given to prices prevailing during the period October 1 to October 15, 1941, and adjustments made for relevant factors.

Therefore, to prevent any future price spiraling and to maintain the stability recently achieved by the trade, the Office of Price Administration hereby issues a permanent Schedule for cocoa beans and cocoa butter.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1351.51 *Maximum prices for cocoa beans and cocoa butter.* On and after December 11, 1941, no person shall sell, offer to sell, deliver, or transfer cocoa beans or cocoa butter, and no person shall buy, offer to buy, or accept delivery of cocoa beans or cocoa butter at prices higher than the maximum prices set forth in Appendices A and B hereof, incorporated herein as §§ 1351.61 and 1351.62, except that contracts entered into prior to February 3, 1942, but subsequent to December 11, 1941, may be carried out at prices not higher than the maximum prices contained in Price Schedule No. 51 as effective prior to this Amendment Number 2, and that contracts entered into prior to December 11, 1941, may be carried out at the contract prices.*

*§§ 1351.51 to 1351.62, inclusive, issued pursuant to the authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1351.52 *Export sales.* The maximum prices for cocoa beans or cocoa butter sold for export may exceed the prices set forth in §§ 1351.61 and 1351.62 by no more than ten percent.*

§ 1351.53 *Exempt sales.* Sales of less than one bag of cocoa beans and of less than one bale of cocoa butter, and sales of cocoa butter deodorized or specially treated for pharmaceutical or cosmetic uses, shall be excepted from the operation of this Schedule.*

§ 1351.54 *Less than maximum prices.* Lower prices than the maximum prices established by this Schedule may be charged, demanded, paid, or offered.*

§ 1351.55 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery, or transfer of cocoa beans or cocoa butter, or by way of premium, commission, service, transportation, or other charge, or by any other trade understanding, or by making the discounts given or other terms and conditions of sale more onerous to the purchaser than those available or in effect on December 11, 1941, or by any other means.*

§ 1351.56 *Records and reports.* (a) All sellers and all buyers who have entered into contracts prior to February 3, 1942, for the sale or delivery of cocoa beans or cocoa butter, on or after February 3, 1942, at prices higher than the maximum prices established by this Schedule, shall report all such contracts to the Office of Price Administration on or before February 25, 1942, stating (1) the name and address of the buyer and seller; (2) the actual date of the contract; (3) each and every delivery date provided for in the contract; and (4) the price, quantity, and description of the product sold.

After the buyer has received the final shipment called for by the contract he shall then report such receipt to the Office of Price Administration within two weeks thereof, certifying that the total amount received did not exceed the quantity specified in such contract.

(b) Every person making purchases or sales of cocoa beans or cocoa butter on and after February 3, 1942 shall keep for inspection by the Office of Price Administration for a period of not less than one year complete and accurate records thereof, including the name of the purchaser, the date of the contract, the price paid or received, and the type, grade, quality, and amount sold.

(c) Every person affected by this Schedule shall submit such report to the Office of Price Administration as it may from time to time require.*

§ 1351.57 *Modification of the schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof, or exception therefrom; *Provided*, That no applications under this Section will be considered unless filed by persons complying with this Schedule.*

§ 1351.58 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government, both State and Federal, are fully exerted in order to protect the public interest and the interest of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of State, county, and local Governments by calling to the attention of the proper authorities failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits; and (d) that the procurement services of the Government are requested to refrain from selling to or purchasing from, those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand, or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation, or manipulation of prices of cocoabeans or cocoa butter, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1351.59 *Definitions.* When used in this Schedule the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity.

(b) "Cost of putting cocoa beans into the warehouse" includes (1) "labor in and out" and (2) warehouse storage charges for not more than thirty days.

(c) "Cocoa beans and cocoa butter sold for export" means sales by a domestic seller directly to a foreign buyer or foreign broker.*

§ 1351.60 *Effective date of the Schedule.* This Schedule shall become effective on December 11, 1941.*

§ 1351.61 *Appendix A; maximum prices for cocoa beans.* (a) The maximum prices shall include all import commissions. The maximum prices shall also include all other charges, except that:

(1) Increases in the charges prevailing prior to the opening of business on December 8, 1941 for ocean freight, war risk insurance, and marine insurance may be added to the maximum prices only if such charges have been actually incurred by the seller on such sale. Decreases in said charges prevailing prior to the opening of business on December 8, 1941 must be subtracted from the maximum prices.

(2) If the services of a broker or brokers are required, a commission or commissions which in the aggregate shall not exceed one percent of the selling price may be added to the maximum prices, provided such commissions have been actually paid.

(b) The maximum prices for cocoa beans shall be as follows:

	Cents per pound ex dock New York City
F. F. Accra (main crop)	8.90
F. A. Q. Lagós	6.75
Ivory Coast (main crop)	8.90
F. A. Q. Cameroons	8.70
Fine St. Thome	9.25
Superior Bahia	8.70
Sanchez	8.55
Superior Red Summer Arriba	11.50
Superior Seasons Arriba	10.75
La Guayra Caracas	11.25
Trinidad Caracas	12.25
Trinidad Estates	13.90
Grenada Estates	13.65
Fermented Panama	9.35
Fermented Costa Rican	9.35
Haiti	8.45
Java Estates #1	20.25
Ceylon Estates	16.75
Samoan	16.25

The maximum prices for cocoa beans imported from any other country, or for grades of better or inferior quality not named, shall be determined by applying the customary trade differentials to the maximum price for the grade listed above which is most closely related in quality.

(c) The maximum prices quoted above are ex dock New York City. The maximum prices ex dock any other port of entry shall be determined by adding to or subtracting from the New York City price the difference between the actual cost of ocean freight, war risk insurance, and marine insurance from the port of origin to New York City and the actual cost of ocean freight, war risk insurance, and marine insurance from the port of origin to such other port of entry.

(d) For any cocoa beans sold ex warehouse, rather than ex dock New York City or any other port of entry, the cost of actually "putting the cocoa beans into the warehouse" as defined in § 1351.59 may be added by the seller who incurred the cost.

(e) The delivered price for cocoa beans shall in no case exceed the maximum prices specified above plus actual transportation charges incurred from the dock or warehouse at New York City or other port of entry to the place of destination or to the place of ship loading, if the cocoa beans are intended for export.

(f) Any person making sales of cocoa beans in lots of twenty-five bags or less may add to the maximum prices specified above an amount which shall not exceed 7½ percent of his comparable selling price for lots of more than twenty-five bags.

(g) The above prices shall be the maximum prices for all transactions except for futures contracts traded on the New York Cocoa Exchange. In such contracts the maximum prices shall be the prices listed below. The maximum prices for futures contracts for months, if any, after December, 1942, shall not exceed 8.86 cents per pound. The maximum prices for futures contracts, if any, traded in months currently inactive shall not exceed the maximum prices for the last active preceding month.

§ 1351.62 *Appendix B; maximum prices for cocoa butter.* (a) The maximum prices for cocoa butter in bales sold in carload lots shall be twenty-five cents per pound f. o. b. factory shipping point.

(b) The delivered price shall in no case exceed the maximum price plus actual transportation charges incurred from the factory shipping point to the place of destination or to the place of shiploading, if the cocoa butter is intended for export.

(c) The following amounts may be added to the maximum price for cocoa butter when packed in:

(1) Cartons—20 cents per one hundred pounds;

(2) Wood cases—$1.00 per one hundred pounds; and

(3) Tin lined wood cases—$1.25 per one hundred pounds.

(4) To the maximum price for cocoa butter sold in less than carload lots an amount may be added which shall not exceed the following:

(i) 11,000 pounds to carload lots—0.15 cents per pound;

*Issued pursuant to authority contained in Executive Orders Nos. 8734, 8875, 6 F.R. 1917, 4483.

(ii) 2,000 pounds to 10,999 pounds—0.25 cents per pound;
(iii) 1,000 pounds to 1,999 pounds—0.40 cents per pound; and
(iv) 200 pounds to 999 pounds—1 cent per pound.*

This amendment No. 2, amending and renumbering the Preamble and §§ 1351.51 to 1351.58, inclusive, shall become effective the 3d day of February 1942. Issued this 2nd day of February 1942.

PART 1351—FOODS AND FOOD PRODUCTS

AMENDMENT NO. 1 TO PRICE SCHEDULE NO. 52—PEPPER

The preamble and §§ 1351.101 to 1351.108, inclusive, are hereby amended and renumbered, so that Price Schedule No. 52 shall read as follows:

Pepper is one of the imported commodities which in the past have often been sharply influenced by speculative price manipulations. It is the most important and widely distributed spice used by the American housewife and by packing industries. The outbreak of hostilities in the Far East on December 7, 1941, gave rise to a sharp increase in speculative activity which caused this Office on December 11, 1941, to issue a temporary price freezing order, limiting prices to those prevailing on December 8, 1941.

In the intervening weeks, this Office has engaged in a thorough study of the economic and trade position of pepper. Due consideration has been given to the prices prevailing during the period October 1 to October 15, 1941, with adjustments for relevant factors. To prevent further price increases and to maintain the stability recently achieved, the Office of Price Administration hereby issues a permanent price schedule for black and white pepper.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1351.101 *Maximum prices for pepper.* On and after December 11, 1941, no person shall sell, offer to sell, deliver, or transfer pepper, and no person shall buy, offer to buy, or accept delivery of pepper at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1351.111, except that contracts entered into prior to February 3, 1942, but subsequent to December 11, 1941, may be carried out at prices not higher than the maximum prices contained in Price Schedule No. 52 as effective prior to this amendment No. 1, and that contracts entered into prior to December 11, 1941, may be carried out at the contract prices.*

*§§ 1351.101 to 1351.111, inclusive, issued pursuant to the authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1351.102 *Export sales.* The maximum prices for pepper sold for export may exceed the prices set forth in § 1351.111 by no more than ten per cent.*

§ 1351.103 *Exempt sales.* Sales of pepper at retail and sales of less than one bag of pepper shall be excepted from the operation of this Schedule.*

§ 1351.104 *Less than maximum prices.* Lower prices than the maximum prices established by this Schedule may be charged, demanded, paid, or offered.*

§ 1351.105 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery, or transfer of pepper, or by way of premium, commission, service, transportation or other charge, or by any other trade understanding, or by making the discounts given or other terms and conditions of sale more onerous to the purchaser than those available or in effect on December 11, 1941, or by any other means.*

§ 1351.106 *Records and reports.* All sellers and all buyers who have entered into contracts prior to February 3, 1942, for the sale or delivery of pepper, on or after February 3, 1942, at prices higher than the maximum prices established by this Schedule, shall report all such contracts to the Office of Price Administration on or before February 25, 1942, stating (1) the name ad address of the buyer and seller; (2) the actual date of the contract; (3) each and every delivery date provided for in the contract; and (4) the price, quantity, and description of the product sold.

After the buyer has received the final shipment called for by the contract he shall then report such receipt to the Office of Price Administration within two weeks thereof, certifying that the total amount received did not exceed the quantity specified in the contract.

(b) Every person making purchases or sales of pepper on and after February 3, 1942 shall keep for inspection by the Office of Price Administration for a period of not less than one year complete and accurate records thereof, including the name of the purchaser, the date of the contract, the price paid or received, and the type, grade, quality, and amount sold.

(c) Every person affected by this Schedule shall submit such reports to the Office of Price Administration as it may from time to time require.*

§ 1351.107 *Modification of the schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof, or exception therefrom: *Provided,* That no applications under this section will be considered unless filed by persons complying with this Schedule.*

§ 1351.108 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see that (a) the Congress and the public are fully informed thereof; (b) the powers of Government, both State and Federal, are fully exerted in order to protect the public interest and the interest of those persons who comply with this Schedule; (c) full advantage will be taken of the cooperation of the various political subdivisions of State, county, and local governments by calling to the attention of the proper authorities failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits; and (d) the procurement services of the Government are requested to refrain from selling to, or purchasing from, those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand, or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation, or manipulation of prices of pepper, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1351.109 *Definitions.* When used in this Schedule the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity.

(b) "Sales at retail" means sales to the ultimate consumer; *Provided,* That no grinder, processor, purchaser for resale, or commercial user shall be deemed to be an ultimate consumer.

(c) "Cost of putting pepper into the warehouse" includes (1) "Labor in and out" and (2) warehouse storage charges for not more than thirty days.

(d) "Pepper sold for export" means sales by a domestic seller directly to a foreign buyer and/or foreign broker.*

§ 1351.110 *Effective date of the schedule.* This Schedule shall become effective on December 11, 1941.*

§ 1351.111 *Appendix A, maximum prices for pepper.* (a) The maximum prices shall include all import commissions. The maximum prices shall also include all other charges, except that:

(1) Increases in the charges prevailing prior to the opening of business on December 8, 1941 for ocean freight, war risk insurance, and marine insurance may be added to the maximum prices only if such charges have been actually incurred by the seller on such sale. Decreases in said charges prevailing prior to the opening of business on December 8, 1941 must be subtracted from the maximum prices.

(2) If the services of a broker or brokers are required, a commission or commissions which in the aggregate shall not exceed one percent of the selling price may be added to the maximum price, provided such commissions have been actually paid.

(b) The maximum prices for pepper shall be as follows:

	Cents per pound ex dock New York City
Lampong Black Pepper	6.50
Aleppy Black Pepper	8.50
Muntok White Pepper	11.50
White Small Berries	10.50

The maximum prices for pepper imported from any other country or for grades of inferior quality not named shall be determined by applying the customary trade differentials to the above prices.

(c) The maximum prices quoted above are ex dock New York City. The maximum prices ex dock any other port of entry shall be determined by adding to or subtracting from the New York City Price the difference between the actual cost of ocean freight, war risk insurance, and marine insurance from the port of origin to New York City and the actual cost of ocean freight, war risk insurance, and marine insurance from the port of origin to such other port of entry.

(d) For any pepper sold ex warehouse, rather than ex dock New York City or any other port of entry, the cost of actually "putting the pepper into the warehouse" as defined in § 1351.109 may be added by the seller who incurred the cost.

(e) The delivered price for pepper shall in no case exceed the maximum prices specified above plus actual transportation charges incurred from the dock or warehouse at New York City or other port of entry to the place of destination or to the place of ship loading, if the pepper is intended for export.

(f) Any person making sales of pepper in lots of 100 bags or less may add to the maximum prices specified above an amount which shall not exceed:

5% on sales of 50 to 100 bags
7½% on sales of 25 to 49 bags
10% on sales of 5 to 24 bags
one cent on sales of 1 to 4 bags

(g) The above prices shall be the maximum prices for all transactions except for futures contracts traded on the New York Produce Exchange. In such contracts the maximum prices shall be the prices listed below. The maximum prices for futures contracts for months, if any, after October, 1942 shall not exceed 6.63 cents per pound. The maximum prices for futures contracts, if any, traded in months currently inactive shall not exceed the maximum prices for the last active preceding month.

PART 1353—VEGETABLE FIBERS

AMENDMENT NO. 2 TO PRICE SCHEDULE NO. 59—KAPOK[1]

Section 1353.1 is hereby amended, and a new Section 1353.11 is hereby added, to read as follows:

§ 1353.1 *Maximum prices for kapok.* On and after February 2, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver, or transfer kapok, and no person shall buy, offer to buy, or accept delivery of kapok, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1353.11: *Provided,* That contracts entered into prior to February 2, 1942, at prices in compliance with this Schedule[1] (§§ 1353.1 to 1353.10, inclusive) as amended prior to that date, may be carried out at the contract price.

* * * * * *

§ 1353.11 *Appendix A; maximum prices for kapok.* The maximum prices established by this Schedule (§§ 1353.1 to 1353.11, inclusive) do not apply to kapok sold in quantities of less than one bale or to blown or processed kapok.

The maximum prices established herein are gross prices, before discounts of any nature are deducted, and they include commissions and all other charges not specifically permitted herein.

There are two maximum prices for kapok, depending upon the port at which it is unloaded in the United States. The prices set forth in Paragraph (a) below, in Column I, are for kapok actually unloaded at any port on the Atlantic or Gulf Coast. The prices set forth in Column II are for kapok actually unloaded at any port on the Pacific Coast.

(a) *Maximum prices for carload lots.*

Grade	Prices per pound, ex dock port of discharge	
	I. Atlantic or Gulf coast	II. Pacific coast
Estate Kapok	20½¢	18½¢
Prime Japara	19½¢	16½¢
Average Java	17¾¢	15¾¢
All other Kapok	18½¢	16½¢

(b) *Maximum prices for less than carload lots.* For kapok sold in less than carload lots, the following premiums above the prices set forth in paragraph (a) may be charged:

Sales of 51–100 bales, inclusive. ¼¢ per pound.
Sales of 11–50 bales, inclusive. ½¢ per pound.
Sales of 6–10 bales, inclusive. ¾¢ per pound.
Sales of 1–5 bales, inclusive. 1¾¢ per pound.

(c) *Transportation charges.* Transportation charges may be added to the maximum prices set forth in paragraphs (a) and (b) above, as follows:

[1] 6 F.R. 6616, 7 F.R. 446.

(1) *For sales on a delivered basis.* The transportation charges from actual port of discharge to destination: *Provided,* That if delivery is made in the seller's conveyance, the transportation charge shall not exceed the charge which would be applicable in an identical shipment from the same point of shipment to the same receiving point at the lowest available commercial transportation rate.

(2) *For sales on an f. o. b. shipping point basis.* The actuel transportation charges from actual port of discharge to actual shipping point: *Provided,* That if the kapok was transported from port of discharge to actual shipping point in a conveyance other than a commercial carrier, the transportation charge shall not exceed the charge which would be applicable in an identical shipment from the same point of shipment to the same receiving point at the lowest available commercial transportation rate.

Provided, That if the maximum prices are so increased, the invoice or similar document delivered to the purchaser shall show the amount of such transportation charges.

(d) *War risk insurance.* Charges for war risk insurance in excess of 2½ percent, actually paid with respect to the kapok sold, may be added to the maximum prices set forth in paragraphs (a) and (b) above: *Provided,* That if any such excess war risk insurance charges are added to the applicable maximum price, the invoice or similar document delivered to the purchaser shall show the amount of such charges.

(E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483)

This amendment No. 2 shall become effective February 2, 1942. Issued this 2d day of February 1942.

PART 1354—WOOL AND WOOL PRODUCTS

AMENDMENT NO. 6 TO PRICE SCHEDULE NO. 58—WOOL AND WOOL TOPS AND YARNS

Sections 1354.4 and 1354.4 and Paragraph (d) of § 1354.8 are hereby amended and § 1354.9a is hereby added to read as follows:

§ 1354.1 *Maximum prices for wool and wool tops and yarns.* (a) On and after February 2, 1942, no person shall sell, offer to sell, deliver or transfer wool or wool tops or yarns at prices higher than the maximum prices established herein: *Provided,* That contracts entered into prior to December 18, 1941, calling for a price higher than the maximum prices may be carried out at the contract price.

(b) (1) The maximum price for domestic shorn wool shall be the market price prevailing on October 1, 1941, or on December 15, 1941, for the same class, kind, type, condition and grade of domestic shorn wool: *Provided,* That, if there were no such market price, the maximum price shall be the highest price contracted for or received by the seller

for the sale or delivery during the period between October 1, 1941 and December 15, 1941, inclusive, of domestic shorn wool of the same class, kind, type, condition and grade, to a purchaser of the same general class. If during said period no such sale or delivery were made, the maximum price shall be a price in line with the maximum prices for related kinds, types, conditions and grades, determined in accordance with this subparagraph (b) (1), to a purchaser of the same general class.

(2) The maximum price for wool, other than domestic shorn wool, and wool tops and yarns shall be the highest price contracted for or received by the seller for the sale or delivery during the period between October 1, 1941 and December 15, 1941, inclusive, of such wool or wool tops or yarns of the same class, kind, type, condition and grade to a purchaser of the same general class: *Provided*, That if during said period no such sale or delivery were made, the maximum price shall be a price in line with the maximum prices for related kinds, types, conditions, and grades of such wool or wool tops or yarns, determined in accordance with this subparagraph (b) (2), to a purchaser of the same general class.

(3) The maximum price for wool sold by the importer thereof shall be increased or decreased by an amount equal to the actual increase or decrease in war risk insurance rates and freight rates over those prevailing for wool of the same class, kind, type, condition and grade during said period: *Provided*, That in all cases where the price is so increased, the invoice or similar document delivered to the purchaser shall show the amount of such increase.

(c) The maximum prices determined in accordance with paragraph (b) above shall be the maximum prices for all transactions except for grease wool and wool tops futures contracts traded on the Wool Associates of the New York Cotton Exchange, Inc. For such contracts, the maximum prices shall be the highest prices on said Exchange during the period between October 1, 1941 and December 15, 1941, inclusive: *Provided*, That contracts entered into on said Exchange prior to December 18, 1941, calling for a price higher than the maximum prices may be carried out at the contract price. Such maximum prices are as follows:

	Cents
Wool Top Futures	122.7
Grease Wool Futures	123.5

(d) Sales at retail are excepted from the operation of this Schedule.

(e) On and after January 17, 1942, notwithstanding the provisions of paragraphs (a) and (b) above, no person shall sell, offer to sell, deliver or transfer wools or wool tops or yarns of the types and grades enumerated in Appendices A, B, C and D hereof, incorporated herein as §§ 1354.10 to 1354.13, inclusive, and no person shall buy, offer to buy, or accept delivery or transfer of such wools or wool tops or yarns at prices higher than the maximum prices set forth in Appendices A, B, C, and D: *Provided*, That contracts entered into prior to December 18, 1941 calling for a price higher than the maximum prices may be carried out at the contract price.

* * * * *

§ 1354.4 *Records and reports.* Every person making sales of wool or wool tops or yarns after December 17, 1941, shall keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records of each such sale, showing the date thereof, the name and address of the buyer, the price contracted for or received, and the quantity of each class, kind, type, condition and grade of wool or wool tops or yarns sold. Every such person shall also on or before February 10, 1942, have available for the Office of Price Administration a record of his prices for all sales and deliveries of wool and wool tops and yarns during the period from October 1, 1941, to December 15, 1941.

Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.

* * * * *

§ 1354.8 *Definitions.* When used in this Schedule, the term:

* * * * *

(d) "Yarns" means yarns containing 10% or more wool by fiber weight, except yarns dyed and converted for the hand knitting trade.

* * * * *

§ 1354.9a *Effective dates of amendments.* (a) Amendment No. 1 adding a new subparagraph (4) to paragraph (b) of § 1354.1 shall become effective January 10, 1942: *Provided*, That firm commitments entered into prior to January 10, 1942 for the sale of wool or wool tops or yarns at prices not exceeding the maximum prices established by this Schedule prior to the effective date of Amendment No. 1 may be completed at contract prices.

(b) Amendment No. 2 adding a new paragraph (e) to section 1354.1 and adding § 1354.10 shall become effective January 16, 1942: *Provided*, That firm commitments entered into prior to January 16, 1942 for the sale of wool or wool tops or yarns at prices not exceeding the maximum prices established by this Schedule prior to the effective date of Amendment No. 2 may be completed at contract prices.

(c) Amendment No. 3 amending paragraph (e) of § 1354.1 and adding §§ 1354.11 and 1354.12 shall become effective January 17, 1942: *Provided*, That firm commitments entered into prior to January 17, 1942 for the sale of wool or wool tops or yarns at prices not exceeding the maximum prices established by this Schedule prior to the effective date of Amendment No. 3 may be completed at contract prices.

PART 1355—LEAD

AMENDMENT NO. 1 TO PRICE SCHEDULE NO. 70—LEAD SCRAP MATERIALS; SECONDARY LEAD, INCLUDING CALKING LEAD; BATTERY LEAD SCRAP; AND PRIMARY AND SECONDARY ANTIMONIAL LEAD

Section 1355.62 is hereby amended by rewriting paragraph (n) and by adding thereto the new paragraph (q) as set forth below; the statement preceding the table in § 1355.65, paragraph (a) (2) (i), is hereby amended to read as set forth below; § 1355.66 is hereby amended by adding thereto the new paragraph (a) (5) as set forth below; and § 1355.67 is hereby amended by adding thereto the new paragraph (a) (4) as set forth below:

§ 1355.62 *Definitions.*

* * * * *

(n) "Secondary lead" includes secondary calking lead, and means lead more than 50% of the lead content of which shall be obtained from scrap material;

* * * * *

(q) "Producer" means any person who makes pigs, ingots, or other special shapes of lead.

* * * * *

§ 1355.65 *Appendix B; maximum prices for secondary lead including calking lead*—(a) *Maximum prices.*

* * * * *

(2) *Sold and shipped, delivered, or carried away in less than carload lots.*

(i) *Sales of secondary lead by the producer of the lead sold.*

* * * * *

§ 1355.66 *Appendix C; maximum prices for battery lead plates purchased and sold by brokers*—(a) *Maximum prices for brokerage sales.*

* * * * *

(5) *Weight of shipment.* The weight of the battery lead plates at the time the assay sample is taken and the assay made shall be used to determine the maximum price in accordance with this section.

§ 1355.67 *Appendix D; maximum prices for battery lead scrap purchased by smelters or battery manufacturers*—(a) *Battery lead plates, with or without lugs attached.*

* * * * *

(4) *Weight of shipment.* The weight of the battery lead plates at the time the assay sample is taken and the assay made shall be used to determine the maximum price in accordance with this section.

PART 1346—BUILDING MATERIALS

AMENDMENT NO. 2 TO PRICE SCHEDULE NO. 40—BUILDERS' HARDWARE AND INSECT SCREEN CLOTH

The preamble and §§ 1346.1, 1346.3, and 1346.4 are hereby amended to read as follows:

Builders' hardware, which includes such items as knobs, handles, locks, hinges, and window bolts, and insect screen cloth are important elements in building construction, and as such have considerable significance both in the defense program and in the civilian economy. Shortages of their basic raw materials, chiefly copper, and to a lesser extent such metals as zinc and tin, have produced inflationary pressure upon builders' hardware and screen cloth, most noticeably in the case of existing inventories. The issuance by the Office of Production Management of Conservation Order No. M-9-c on October 21, as amended November 3, severely curtailing at once the use of copper in builders' hardware and screening (among other things), and prohibiting its use therein altogether after January 1, 1942, will tend to cause an accentuation of this pressure on inventories.

The present schedule, instead of specifying the ceiling price for each item of builders' hardware and screen cloth, fixes as maximum prices on a group of named items the highest prices prevailing during the fifteen-day period ending October 15, 1941. This action is taken because of the difficulty of classifying these products, and because of the danger of inflationary price action during the time that would be required for the preparation of individual schedules covering each product.

Accordingly, under the authority vested in me under Executive Order No. 8734, it is hereby directed that:

§ 1346.1 *Maximum prices for builders' hardware and insect screen cloth.* (a) On and after February 3, 1942, regardless of the terms of any contract of sale or purchase or other commitment, no person, except a retailer as defined in § 1346.7 (b), shall sell, offer to sell, deliver, or transfer any of the builders' hardware or screen cloth products set forth in Appendix A, incorporated herein as § 1346.9, at prices higher than the maximum price.

(b) (1) The maximum price shall be the highest price received by the seller for the delivery during the period between October 1, 1941 and October 15, 1941, of builders' hardware or screen cloth products of approximately the same grade, quality, and amount, to the same purchaser.

(2) If no such delivery to the same purchaser was made, the maximum price shall be the highest price received by the seller for a delivery during such period of builders' hardware or screen cloth products of approximately the same grade, quality, and amount, to a purchaser recognized by the trade as entitled to similar treatment.

(3) If no delivery of products of approximately the same grade, quality, and amount was made, the maximum price shall be determined from the price of a related builders' hardware or screen cloth product, delivered during such period, by making an appropriate adjustment for differences in type of product, grade, quality, amount, and type of purchaser. A "related builders' hardware or screen cloth product" means one bearing a recognized or determinable price relationship to the product being sold.

(4) In all other cases, the maximum price shall be the market price during such period for the same type of product, grade, quality, amount, and type of purchaser.

* * * * *

§ 1346.3 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery or transfer of builders' hardware or screen cloth products, alone or in conjunction with any other material, or by way of premium, commission, service, transportation, or other charge, or by a tying-agreement or other trade understanding, by making discounts or

other terms and conditions of sale more onerous to the purchaser than those available or in effect on October 15, 1941, or by any other means.

§ 1346.4 *Records and reports.* Every person, other than a retailer, whose total sales of builders' hardware and/or screen cloth products during any calendar month beginning with November 1941, shall exceed One Thousand Dollars shall have available for inspection by the Office of Price Administration for a period of not less than one year a complete and accurate record of every such sale, except retail sales, of such products, including the date of sale, the name of the purchaser, the price, and the grade, quality, and amount sold.

Every such person shall also, within thirty days of the effective date of this Schedule, have available a record of his selling prices, except retail prices, for such products during the period from October 1, 1941, to October 15, 1941.

Every person affected by this Schedule shall submit such reports to the Office of Price Administration as it may from time to time require.

(E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483)

This amendment No. 2 shall become effective February 3, 1942. Issued this 2d day of February 1942.

Administrator.

PART 1401—SYNTHETIC TEXTILE PRODUCTS

PRICE SCHEDULE NO. 90—RAYON WASTE*

The state of war existing between this country and the Axis nations makes it imperative that steps be taken to protect the civilian population against increases in the cost of clothing and other primary requirements. Hostilities in the Pacific have raised the possibility of interference with the free flow of wool from foreign countries. At the same time the wool requirements of the armed forces will be considerably increased. This combination of circumstances would, unless forestalled, result in a bidding up of the prices of raw wool substitutes such as rayon waste. As a measure of public interest it becomes necessary to establish maximum prices for such materials.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1401.51 *Maximum prices for rayon waste.* On and after February 3, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer rayon waste, and no person shall buy, offer to buy, or accept delivery of rayon waste at prices higher than the maximum prices set forth in Appendices A and B hereof, incorporated herein as §§ 1401.59 and 1401.60.*

*§§ 1401.51 to 1401.60 inclusive, issued pursuant to authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1401.52 *Less than maximum prices.* Lower prices than those set forth in Appendices A and B may be charged, demanded, paid or offered.*

§ 1401.53 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery or transfer of rayon waste, alone or in conjunction with any other material, or by way of any commission, service, transportation or other charge, or discount, premium or other privilege, or by tying-agreement, or other trade understanding, or by upgrading or otherwise.*

§ 1401.54 *Records and reports.* Every person making purchases or sales of rayon waste after February 3, 1942, aggregating 20,000 pounds or more in any calendar month shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such purchase or sale, showing the date thereof, the name and address of the buyer and the seller, the price paid or received, and the quantity of each kind or grade purchased or sold.

Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1401.55 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command including taking action to see (a) that the Congress and the public are fully informed thereof, (b) that the powers of Government, both state and federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule, (c) that full advantage will be taken of the cooperation of the various political subdivision of state, county and local governments through calling to the attention of the proper authorities failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits; and (d) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule.

Persons who have evidence of the offer, receipt, demand, or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions thereof, or of speculation or manipulation of prices of rayon waste or of the hoarding or accumulation of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1401.56 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That no application under this section will be considered unless filed by persons complying with this Schedule.*

§ 1401.57 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity;

(b) "Rayon waste" means the kinds and grades of rayon waste enumerated in Appendices A and B hereof (§§ 1401.59 and 1401.60);

(c) "Producer" means a manufacturer of continuous filament rayon yarns or staple fiber.*

§ 1401.58 *Effective date.* This Schedule shall become effective on February 3, 1942.*

§ 1401.59 *Appendix A; maximum prices for producers of rayon waste.* The prices set forth below are maximum prices for rayon waste produced by manufacturers of continuous filament rayon yarns or staple fiber, net weight basis.

The maximum prices shall include all commissions and other charges except as provided below.

2. Section 4.20c of title 35, Code of Federal Regulations, is hereby added, reading as follows:

§ 4.20c *Advance passenger and crew lists by air mail.* In addition to the passenger and crew lists required by Regulation 12.1 (§ 4.20), as amended, to be delivered to the boarding party by vessels arriving in the Canal Zone, the masters of all vessels destined for entry into Canal Zone waters shall:

(a) Before departure from the first port from which the vessel clears or departs on a voyage to the Canal Zone, dispatch by air mail to the Port Captain at the Canal Zone port of arrival advance lists of the passengers and crew members destined for entry into Canal Zone waters aboard such vessel; and

(b) Before departure from any port of call, that is to say any port subsequent to the port of departure, at which are embarked any passengers or crew members destined for entry into Canal Zone waters aboard such vessel, similarly dispatch advance lists of the passengers and crew members so embarked.

The advance passenger and crew lists hereinbefore referred to should be furnished in triplicate. Such lists need not be on the Panama Canal forms of passenger and crew lists but should contain all the information that is contained on such forms, viz.: As to passengers—full name, sex, age, color, nationality, port of embarkation, and final destination; and as to crew members—full name, capacity or duty, birthplace, citizenship, and age. Failure to furnish these advance lists will subject the vessel to delay. (Rules 9 and 12, E.O. 4314, September 25, 1925 (§§ 4.11 and 4.19 of this chapter)) [Reg. 12.4 (§ 4.20c), Governor's Regulations, August 1, 1931, as added January 27, 1942]

3. The regulations amended and added as aforesaid shall be effective as to all vessels arriving in the Canal Zone on or after February 10, 1942.

GLEN E. EDGERTON,
Governor.

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. A-1255]

PETITION OF DISTRICT BOARD NO. 1 FOR THE ESTABLISHMENT OF AN ADDITIONAL PRICE INSTRUCTION IN THE SCHEDULES OF EFFECTIVE MINIMUM PRICES FOR DISTRICT NO. 1 FOR ALL SHIPMENTS EXCEPT TRUCK AND FOR TRUCK SHIPMENTS, PURSUANT TO SECTION 4 II (d) OF THE BITUMINOUS COAL ACT OF 1937

NOTICE OF AND ORDER FOR HEARING

A petition, pursuant to the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party;

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on March 5, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bitu-

minous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in room 502 will advise as to the room where such hearing will be held.

It is further ordered, That W. A. Shipman or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before February 28, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 1 for the establishment of an additional price instruction in the Schedules of Effective Minimum Prices for District No. 1 For All Shipments Except Truck and For Truck Shipments; and, more particularly for the establishment of such an additional price instruction relating to the mixing of coals of District No. 1 reading substantially as follows: "When coals produced by a single Code Member are mixed the minimum price applicable to such mixture shall be the same as that for the coal contained in the mixture having the highest price classification, unless, after hearing, a special price classification is established for said mixture. When such mixture is sold, the invoices shall properly identify the coal."

One of the issues in this proceeding is whether any such price instruction should read substantially as follows: "Unless specifically provided for elsewhere in this Schedule, producers who mix coals from separately classified seams or mines and load such mixture over the same tipple shall price such coal at not less than the effective price classification and minimum price for the coal contained in the mixture having the highest price classification and minimum price. When such mixture is sold, the invoices shall properly identify the coal."

[Docket No. B-192]

IN THE MATTER OF IRA P. FOSTER, CODE MEMBER, DEFENDANT

NOTICE OF AND ORDER FOR HEARING

A complaint dated January 17, 1942, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, having been duly filed on January 20, 1942, by Bituminous Coal Producers Board for District No. 1, a district board, complainant, with the Bituminous Coal Division alleging willful violation by the defendant of the Bituminous Coal Code or rules and regulations thereunder;

It is ordered, That a hearing in respect to the subject matter of such complaint be held on March 10, 1942, at 10 a. m., at a hearing room of the Bituminous Coal Division at the Armstrong County Court House, Kittanning, Pennsylvania.

It is further ordered, That W. A. Cuff or any other officer or officers of the Bituminous Coal Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said defendant and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Bituminous Coal Division at its Washington office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the defendant; and that any defendant failing to file an answer within such period, unless otherwise ordered, shall be deemed to have admitted the allegations of the complaint herein and to have consented to the entry of an appropriate order on the basis of the facts alleged.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

The matter concerned herewith is in regard to the complaint filed by said complainant, alleging willful violation by the above-named defendant of the Bituminous Coal Code or rules and regulations thereunder as follows: that Ira P. Foster, R. D. #3, Dayton, Pennsylvania, whose code membership became effective as of December 1, 1940, operator of Foster Mine, Mine Index No. 2838, Sub-District No. 12 of District No. 1, Armstrong County, Pennsylvania.

(a) Sold and delivered to the Pittsburg and Shawmut Coal Company by truck to the Colwell siding of the Freebrook Company, an affiliate of the Pittsburg and Shawmut Coal Company, approximately 126.25 net tons of run of mine coal produced at said mine during the months of January and February 1941, at a price below the effective minimum price established therefor of $2.15 per net ton, plus at least the actual transportation charge, handling charges, or incidental charges of whatsoever kind or character from the transportation facilities at the mine to said point of delivery; or

(b) The aforesaid defendant sold during the months of January and February 1941, both dates inclusive, approximately 126.25 net tons of run of mine coal, produced at the aforesaid Foster Mine, Mine Index #2838, to the Pittsburg and Shawmut Coal Company for rail shipment and delivered said coal by truck to a ramp on a rail siding of said Freebrook Company, located at Colwell, Pennsylvania, at a price of approximately $1.50 per net ton, although at the time of said transactions no rail classifications or prices, temporary or final, had been established for the coal produced at the aforesaid mine. Said transactions thereby constituted violations of the Order of the Director dated October 9, 1940, in General Docket No. 19.

Dated: February 2, 1942.

IN THE MATTER OF SCOTT L. REARICK, CODE MEMBER, DEFENDANT

ORDER GRANTING APPLICATION TO WITHDRAW COMPLAINT AND CANCELLING NOTICE OF AND ORDER FOR HEARING

A complaint dated January 5, 1942, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, having been filed on January 6, 1942, by Bituminous Coal Producers Board for District No. 1, a district board, complainant, with the Bituminous Coal Division alleging wilful violation by the defendant of the Bituminous Coal Code or rules and regulations thereunder; and

Said Bituminous Coal Producers Board having filed an application on January 22, 1942, with the Division to withdraw its complaint heretofore filed against the above-named defendant; and

The above-entitled matter having been heretofore scheduled for hearing at 10 a. m. at a hearing room of the Bituminous Coal Division at the Armstrong County Court House, Kittanning, Pennsylvania, on February 20, 1942, pursuant to an Order of the Acting Director dated January 15, 1942; and

It appearing to the Acting Director that it is advisable that said application to withdraw the aforesaid complaint should be granted;

Now, therefore, it is ordered, That the application to withdraw the above-entitled complaint be and the same is hereby granted without prejudice to the new complaint heretofore filed with the Division against the above-named defendant.

It is further ordered, That the hearing in the above-entitled matter be and the same is hereby cancelled.

[P. & S. Docket No. 442]

IN THE MATTER OF THE CLEVELAND UNION STOCK YARDS COMPANY, RESPONDENT-PETITIONER

NOTICE OF PETITION FOR MODIFICATION AND ORDER

On January 5, 1942, the petitioner, The Cleveland Union Stock Yards Company, owner and operator of a stockyard located at Cleveland, Ohio, which has been duly posted under the Packers and Stockyards Act, 1921 (7 U.S.C. 1940 ed. 181), filed a petition for a temporary modification of the orders heretofore entered in this docket on July 18, 1934, and February 14, 1935, in which certain rates and charges were prescribed for the use of the facilities of the petitioner and for the stockyard services rendered by the petitioner. The petitioner seeks permission to amend its present tariff by increasing the yardage and handling rates on cattle, calves, hogs, and sheep, and by modifying its charges for washing and disinfecting trucks and trailers. The supplemental tariff which petitioner seeks to file and make effective is as follows:

SECTION 1. *Yardage*—(a) *Base rate per head.*

Cattle	50 cents
Calves	30 cents
Hogs	18 cents
Sheep	12 cents

SECTION 9. *Handling and delivery of direct shipments received by truck.*

Charges:

Cattle	25 cents per head
Calves	15 cents per head
Hogs	9 cents per head
Sheep	6 cents per head

SECTION 10. (b) *Cleaning and Disinfecting.*

Charges	*Washing*	*Disinfecting*
Small trucks or trailers, stock rack less than 10 ft. in length	$0.50	$0.25
Medium trucks or trailers, stock rack over 10 ft. but less than 15 ft. in length	1.00	.50
Large trucks or trailers, stock rack over 15 ft. in length	1.50	.75

For double decks add 20%.

The following allegations, in substance, are made by the petitioner in support of its petition for modification:

(1) The minimum fair value of the property of the petitioner used and useful in the rendition of stockyard services is not materially different from the valuation indicated in the prior orders entered in this docket.

(2) If a complete new appraisal of the used and useful property were made at the present time, it is probable that the cost of reproduction new of the petitioner's properties would be at least 25 percent greater than that indicated in the prior orders.

(3) The petitioner does not seek an increase in the value of its rate base provided the rate of return used in arriving at the rates prescribed in the prior orders is left undisturbed.

(4) The increased cost of feed, supplies, and materials justifies a working capital in the amount of $30,000.

(5) The present minimum fair value of the property of the petitioner used and useful in the rendition of stockyard services is $1,380,747.

(6) The net return from stockyard services, before provision for Federal income tax, upon the rate base utilized in arriving at the schedule of rates now in effect is as follows:

1938—2.29%
1939—2.21%
1940—2.71%
1941—2.22%

(7) The failure of the petitioner to earn the return estimated by the Secretary in his order of July 18, 1934, has been due to changed conditions which could not have been foreseen. Livestock receipts have decreased. The annual receipts of livestock for the years 1938 to 1941, inclusive, averaged 63 percent of the receipts in 1933. Wages and salaries have increased. During the year 1941, the wages of employees employed on an hourly basis were increased on an average of 30.6 percent and the salaries of other employees were increased approximately 15 percent.

(8) The proposed rates, applied to the volume of receipts received by the petitioner in 1941, would produce a net stockyard operating income in the amount of $48,692.36, or approximately 3.56 percent upon an estimated rate base of $1,380,747.

It appears that an opportunity for a hearing should be afforded to the petitioner and to all other interested persons, including the patrons of the petitioner, for the purpose of determining whether the orders heretofore entered in this docket should be modified.

Therefore, by direction of the Secretary, *It is ordered*, That the petitioner and all other interested persons, including patrons of the petitioner, shall be given an opportunity to be heard and to present such evidence as may be relevant and material to the matters alleged in the petition.

It is further ordered, That all interested persons who desire to be heard shall give notice thereof to the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, Washington, D. C., within twenty days from the date of the publication of this order.

It is further ordered, That a copy of this notice and order shall be served upon The Cleveland Union Stock Yards Company of Cleveland, Ohio.

It is further ordered, That a copy of this notice and order shall be published in the FEDERAL REGISTER.

Done at Washington, D. C., this 31st day of January 1942.

NOTICE OF HEARING

[Docket No. 6245]

In re application of Airfan Radio Corporation, Ltd. (KFSD); dated August 19, 1941, for modification of C. P.; class of service, broadcast; class of station, broadcast; location, San Diego, Calif.; operating assignment under C. P.: frequency, 600 kc.; power, 5 kw.; hours of operation, unlimited.

You are hereby notified that the Commission has examined the above described application and has designated the matter for hearing for the following reason:

1. To determine whether the operation of Station KFSD as proposed would be consistent with the Standards of Good Engineering Practice, particularly with respect to the transmitter location and population residing within the blanket area (250 mv/m contour).

2. To determine what precautionary measures, if any, would be necessary to avoid causing objectionable interference to the services of other broadcast stations due to external cross modulation, particularly in view of the distances between Station KFSD and Stations KFMB and KGB.

3. To determine whether the proposed radiating system complies with the Standards of Good Engineering Practice.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

[File No. 1-1953]

IN THE MATTER OF GENERAL INVESTMENT CORPORATION COMMON STOCK, $1 PAR VALUE

ORDER CONSOLIDATING HEARINGS

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 2d day of February, A. D. 1942.

The General Investment Corporation, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D-2-1 (b) promulgated thereunder, having made application to the Commission to withdraw its Common Stock, $1 par value, from listing and registration on the Boston Stock Exchange; and

The Commission having ordered that a hearing in connection therewith be held at 10 A. M. on Wednesday, February 4, 1942, at the office of the Securities and Exchange Commission, 120 Broadway, New York City; and

It appearing to the Commission that unlisted trading privileges have been continued on the New York Curb Exchange in the Common Stock, $1 Par Value, of General Investment Corporation pursuant to Clause (1) of section 12 (f) of the Securities Exchange Act of 1934; and such section providing in part that unlisted trading privileges continued for any security pursuant to Clause (1) of said section 12 (f) shall be terminated by order, after appropriate notice and opportunity for hearing, if it appears at any time that such security has been withdrawn from listing on any exchange by the issuer thereof, unless it shall be established to the satisfaction of the Commission that such delisting was not designed to evade the purposes of this title or unless it shall appear to the Commission that, notwithstanding any such purpose of evasion, the continuation of such unlisted trading privileges is nevertheless necessary or appropriate in the public interest or for the protection of investors:

It is ordered, That the hearing required in the foregoing paragraph be consolidated with the hearing ordered to be held at 10 A. M. on Wednesday, February 4, 1942, at the office of the Securities and Exchange Commission, 120 Broadway, New York City, on the application of General Investment Corporation to withdraw its Common Stock, $1 par value, from listing and registration on the Boston Stock Exchange, so that the Commission may without further hearing, if it grants the latter application, dispose of the question involving the termination of unlisted trading privileges in the subject security upon the New York Curb Exchange.

IN THE MATTER OF PACIFIC POWER & LIGHT COMPANY

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 2nd day of February, A. D. 1942.

Notice is hereby given that a declaration or application (or both), has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above named party; and

Notice is further given that any interested person may, not later than February 13, 1942, at 4:45 P. M., E. S. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such a declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D. C.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which are summarized below:

Pacific Power & Light Company ("Pacific"), a registered holding company and a subsidiary of American Power & Light Company, and of Electric Bond and Share Company, likewise registered holding companies, as of November 30, 1941 owned all of the issued and outstanding shares (except director's qualifying shares) of the capital stock, all of no par value, of its subsidiary, Inland Power & Light Company ("Inland"), an electric utility, and also owned Inland's 6% Demand Note now outstanding in the principal amount of $7,560,000. Pacific proposes to cancel Inland's said 6% Demand Note indebtedness as a contribution by Pacific to the capital of Inland. Consummation of this transaction, it is stated, will increase the stated liability with respect to the capital stock of Inland from $1,545,369.27, as of November 30, 1941, to $9,105,369.27.

In the declaration or application it is stated that the proposed transaction is the first step in a series of transactions looking to the transfer of all the properties and assets of Inland to Pacific, which will eliminate Inland as a separate corporate entity.

IN THE MATTER OF THE LEHMAN CORPORATION

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 31st day of January, A. D. 1942.

The Lehman Corporation, a registered closed-end management investment company having duly filed an application pursuant to the provisions of section 23 (c) (3) of the Investment Company Act of 1940 for an order permitting it to purchase by negotiation during the next thirty days a maximum of 5,000 shares of its own capital stock from Cornell University Fund at prices not in excess of ¼ point above the last sale on the New York Stock Exchange preceding any such purchase, without payment of any commissions by The Lehman Corporation in connection with such purchase;

It is ordered, That a hearing on such matter under the applicable provisions of the Act and the rules of the Commission thereunder be held on Friday, February 6, 1942 at 10:00 o'clock in the forenoon of that day in the Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing room clerk in Room 1102 will advise the interested parties where such hearing will be held.

It is further ordered, That Willis E. Monty, Esq., or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing on such application.

Notice of such hearing is hereby given to the above named applicant and to any other person or persons whose participation in such proceedings may be in the public interest or for the protection of investors.

By the Commission.

IN THE MATTER OF ATLANTIC UTILITY SERVICE CORPORATION

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C. on the 29th day of January, A. D. 1942.

Notice is hereby given that Atlantic Utility Service Corporation has filed with this Commission an amendment to its application for approval as a mutual service company pursuant to the Public Utility Holding Company Act of 1935, particularly section 13 thereof and the rules thereunder. All interested persons are referred to said document, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

The revision of the organization of Atlantic Utility Service Corporation so as to restrict its activities from the former rendition of accounting, corporate procedure, corporate simplification and integration, financial, operations, engineering and purchasing services to the performance of technical services in the fields of engineering, purchasing, rates, labor relations, safety and real estate. In this connection, applicant represents that in the period from December 1, 1940 to October 1, 1941, its personnel has been reduced from 402 employees to 203 employees, or by approximately 50%. It also represents that annual compensation to employees has been reduced from $1,225,213 to $595,468, or by approximately 51%. It further represents that all services not considered essential to or for the benefit of operating companies (except certain services temporarily being rendered to various holding companies) have been discontinued, and that its employees have been moved or are in the process of being moved to Reading, Pennsylvania, the center of operations.

The adjustment of certain claims of Atlantic Utility Service Corporation by the submission to arbitration of a claim for $736,000 against Associated Utilities Corporation, wholly owned subsidiary of the Trustees of Associated Gas and Electric Corporation, and simultaneously therewith, the payment of $144,549 by Associated Utilities Corporation, pursuant to a so-called guaranty agreement of the letter, with respect to losses incurred prior to January 10, 1940, in servicing Associated Gas and Electric Company and Associated Gas and Electric Corporation, without prejudice thereby to whatever other claims Atlantic Utility Service Corporation may have against Associated Utilities Corporation. The amendment states that applicant is examining further into certain other legal claims which it may have to determine whether they should be presented.

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to said matters, that said amended application shall not be granted except pursuant to further order of this Commission:

It is ordered, That a hearing on such matters under the applicable provisions of said Act and rules of the Commission thereunder be held on February 17, 1942, at 10:00 o'clock A. M. at the offices of the Securities and Exchange Commission, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing-room clerk in Room 1102 will advise as to the room where such hearing will be held. At such hearing, cause will be shown why such amended application shall become effective or shall be granted.

Notice is hereby given of the said hearing to the above Applicant and to all interested persons, said notice to be given to said Applicants by registered mail and to all other persons by publication in the FEDERAL REGISTER.

It is further ordered, That William W. Swift or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in said matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under Section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the scope of issues of said amended applications otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

(1) Whether the service functions of engineering, purchasing, rates, labor, safety and real estate now rendered by the Applicant are being performed efficiently and economically and at a reasonable saving over the cost of comparable service rendered by independent persons.

(2) Whether the organization for the rendition of purchasing, rates, labor, safety and real estate services to member companies is such as is necessary or appropriate in the public interest or for the protection of investors and consumers.

(3) Whether the Applicant is so organized that approval should be granted in the light of the existence of certain claims of $736,000 and $144,549 against Associated Utilities Corporation; and the existence of certain other claims of $331,345 and $76,139 representing amounts previously charged to and paid by the member companies; the existence of certain accounts receivable allegedly payable by Associated Utilities Corporation; and the existence of certain accounts payable in connection with the cancellation of management contracts by New England Gas & Electric Association companies.

(4) Whether approval of Applicant's organization should be granted in the light of the presence of sixty-six persons on Applicant's payroll who are engaged exclusively in holding company work.

(5) Whether and to what extent Applicant proposes to render services to the holding companies of the Associated system, the character of and the proposed charges for such services, whether the performance of such services will have an effect upon the rendition of services to the member companies and if so the character and extent thereof, and whether the performance of any such service is in accordance with the applicable standards of the Act.

(6) Whether any of the services performed by the applicant duplicates work now being done by the member companies.

(7) Whether the applicant performs services efficiently and economically and at a saving to member companies.

(8) Generally, whether the organization of and the conduct of business by the applicant meets the standards of section 13 of the Act and the rules and regulations promulgated thereunder.

(9) Whether the public interest or the interest of investors or consumers or other applicable standards of the Act require the imposition of terms and conditions in connection with the proposed organization and activities of the applicant.

By the Commission.

(d) *Second lieutenant, appointment to grade of*—(1) *Military knowledge qualifications.* See paragraph (c) of this section.

(2) *Ability qualifications.* The applicant will be required either to submit satisfactory evidence of having had practical military training approximately equivalent to that acquired by a graduate of the C. M. T. C. Blue Course, or to demonstrate an equivalent knowledge. See paragraph (f) of this section.

(3) *Nonmilitary educational qualifications.* The satisfactory completion of not less than 4 years of studies at a college, university, or professional school of recognized standing.

(4) *Civilian experience qualifications.* (i) Three years' experience in appropriate specialty will be required of all applicants seeking appointment in the pigeon classification.

(ii) In addition to a college education, each applicant seeking appointment in any classification may be required to have 3 years' experience in appropriate specialty when that applicant does not have a college education in studies appropriate to his contemplated classification. For appointment of officers in other than the pigeon classification, the type of experience required will be of a planning, supervisory, or executive nature.

(e) *Thesis.* The thesis will consist of not less than 2,000 words on some phase of the duties of a Signal Corps officer. The subject for the thesis will be designated by the Chief Signal Officer upon request forwarded by the corps area commander to The Adjutant General. If the thesis is a requirement for appointment, it will be marked by and will accompany the report of the examining board. If the thesis is a requirement for a certificate of capacity, it will be marked by the examiner or examining board and sent to the interested corps area commander who will forward it with his comments, if any, to The Adjutant General for transmission to the Chief Signal Officer for file.

(f) *Ability qualifications.* (1) A practical demonstration of such of the principles acquired by a study of the military knowledge qualifications for appointment or promotion to the grade as may be considered by the examining board appropriate to the applicant's classification and assignment.

(2) A practical test drawn up by the examining board to determine the applicant's ability to perform the duties of the grade to which he seeks promotion. (39 Stat. 189, 41 Stat. 775, 42 Stat. 1033, 48 Stat. 154, 939; 10 U.S.C. 352, 353) [Pars. 2, 3, 4, 5, 11, and 13, AR 140–38, January 17, 1942]

PART 64—ENLISTED RESERVE CORPS

SUSPENSION OF ENLISTMENTS AND REENLISTMENTS IN THE ENLISTED RESERVE CORPS WITH CERTAIN EXCEPTIONS [1]

§ 64.5 *Enlistments.* Enlistment and reenlistments in the Enlisted Reserve Corps are suspended with the following exceptions:

* * * * *

(d) The enlistment in the Enlisted Reserve Corps of junior and senior students of approved colleges who are pursuing electrical engineering or other communication engineering courses is authorized under the following conditions:

(1) The Chief Signal Officer is responsible for making the necessary contacts with such individuals at the proper time through the school authorities or other appropriate channels.

(2) Applications will be submitted direct to the Chief Signal Officer and where approved the appropriate Corps Area Commander will be directed to accomplish the enlistment, with assignment to Enlisted Section, Electronics Training Group, Office of Chief Signal Officer.

(3) Students so enlisted will be deferred from active duty until the date for completion of their academic courses. The Chief Signal Officer may recommend the discharge of a student for any reason or when it is apparent that he will not satisfactorily complete his academic course.

(4) Upon satisfactory completion of engineering training and the recommendation of the Chief Signal Officer, these students will be tendered appointments in the Army of the United States and discharged from their enlisted status. (39 Stat. 195, 41 Stat. 780, 44 Stat. 705; 10

CHAPTER VII—PERSONNEL

PART 73—APPOINTMENT OF COMMISSIONED OFFICERS AND CHAPLAINS[1]

OFFICERS APPOINTED IN THE ARMY OF THE UNITED STATES UNDER THE PROVISIONS OF THE ACT OF SEPTEMBER 22, 1941

§ 73.203 *Procurement objective.* (a) Initial appointments in the Army of the United States will be made in such numbers and in such grades as may be specifically authorized from time to time by the War Department for the several arms and services and War Department agencies. These allotments will serve as procurement objectives for all appointments and promotions, and will not be exceeded without special authority from the War Department.

(b) The prescribed student training capacity of an officer candidate school constitutes an approved procurement objective for the appointment of all successful graduates of such school.

(c) Procurement objectives for appointments other than graduates of officer candidate schools will normally be approved only for those arms and services and other War Department agencies which require officers for overhead duties that can be performed by persons without general military training.

(d) Procurement objectives will not be approved solely to permit the appointment of a named individual.* [Par. 5]

*§§ 73.203, 73.204, 73.205, 73.207 and 73.208, as amended, issued under authority contained in the act of Sept. 22, 1941, Public Law 252, 77th Congress.

§ 73.204 *Age and citizenship requirements.* (a) An officer of the Army of the United States must at the time of appointment be a citizen of the United States or of the Philippine Islands between the ages of 18 and 60 years.* [Par. 6a]

* * * * *

§ 73.205 *Appointments not made from certain classes.* No person will be initially appointed in the Army of the United States from the following classes:

(a) Cadets, United States Military Academy.

(b) Persons qualified and eligible for appointment in the Officers' Reserve Corps as graduate aviation cadets or as graduates of the senior division, Reserve Officers' Training Corps. All such qualified and eligible graduates will continue to be appointed in the Officers' Reserve Corps.

(c) Persons on either the active or reserve list of the Navy, Marine Corps, Coast Guard, Public Health Service, and Coast and Geodetic Survey.

(d) Civilian officers or employees of the United States or of the District of Columbia, without the consent of the head of the department or service concerned.

(e) Any person subject to induction under the Selective Training and Service Act of 1940, as amended whose induction has been ordered.

(f) Any person who is not a graduate of a school or resident course of instruction recognized by the War Department as qualifying him for a commission, unless the recommendation is accompanied by satisfactory evidence that the individual has special qualifications for duty as a commissioned officer in the particular assignment for which the appointment is recommended. Any person who has not attained his thirtieth birthday, unless the recommendation is accompanied by satisfactory evidence that the individual has extraordinary professional or technical qualifications for duty as a commissioned officer in the particular assignment for which the appointment is recommended.

(g) Any person whose proposed duty is being or can be adequately performed by him in a civilian capacity.

(h) Former commissioned officers of any component of the Army of the United States, whose appointment is prohibited by the provisions of (e) above, or whose commissions were terminated because of inefficiency or under other than honorable conditions. See § 73.206.

(i) Any person whose services will not be immediately available to the War Department upon acceptance of a commission.

(j) See also § 203.207.* [Par. 7]

§ 73.207 *Qualifications for initial appointments.* (a) Normally, applicants for initial appointment will be required to qualify, as to military and nonmilitary education, under the standards established for appointment to corresponding grade in the Officers' Reserve Corps (AR 140–22 to 140–39,[2] incl.), except that military and nonmilitary educational requirements may be waived in whole or in part, upon the recommendation of the chief of arm or service concerned.

(b) In the case of persons recommended for appointment from civil life as commissioned officers in the Army of the United States the recommendation must include satisfactory evidence that the recommended individual possesses special qualifications, and that these special qualifications are required in the position to which he is to be assigned if commissioned.

(c) Appointments for Tables of Organization positions in approved authorized affiliated units of the Medical Department, Corps of Engineers, or Signal Corps, and appointments for the electronics training group, Signal Corps, that formerly would have been made in the Officers' Reserve Corps, will be made in the Army of the United States without regard to the restrictions enumerated herein, provided the individuals so appointed meet the requirements and regulations for such appointments formerly applicable to the Officers' Reserve Corps.

(d) When a commander of United States forces in an active theater outside the continental United States is granted especial authority by the War Department to appoint or to recommend the appointment of officers, Army of the United States, the qualifications for appointment will be as indicated in the special War Department instructions authorizing the appointments.* [Par. 9]

§ 73.208 *Applications for appointment.* (a) Except for graduates of officer candidate schools, applications for initial appointment in the Army of the United States will be submitted and processed as follows:

* * * * *

(2) *Accompanying papers.* Each application for appointment will be accompanied by—

(i) Three copies of W.D., A.G.O. Form No. 178 (and 178–2, where applicable) (Classification Questionnaire of Reserve Officers).

(ii) Report of physical examination (W.D., A.G.O. Form No. 63 or 64, as applicable). See §§ 73.216 to 73.218.

(iii) A statement that the recommended appointee is or is not a selective service registrant.

(iv) If a selective service registrant, a certificate from the appointee's local board giving his selective service classification, and certifying that his induction has or has not been ordered.

(v) If an enlisted man, the evidence required by paragraph 9b (2), AR 605–10* and a certificate from the recommending authority stating the date on which the recommended individual entered his current continuous period of active Federal service.

(vi) A statement by the recommending authority as to the specific assignment or duty for which the appointment is desired, and indicating the approved procurement objective under which appointment is authorized.

(3) *How forwarded.* Applications, with accompanying papers, will be forwarded through military channels to The Adjutant General, Washington, D. C.* [Par. 10]

TITLE 14—CIVIL AVIATION

CHAPTER I—CIVIL AERONAUTICS BOARD

[Amendment 20-33, Civil Air Regulations]

PART 20—PILOT CERTIFICATES

PROVIDING FOR THE LOGGING OF PILOT FLIGHT TIME

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 3rd day of February, 1942.

Acting pursuant to the authority vested in it by the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a) and 601 of said Act, and finding that its action is desirable in the public interest and is necessary to carry out the provisions of, and to exercise and perform its powers and duties under, said Act, the Civil Aeronautics Board amends the Civil Air Regulations as follows:

Effective February 3, 1942, Part 20 of the Civil Air Regulations is amended as follows:

1. By changing the number of the present § 20.673, relating to the logging of instrument flight time, to § 20.674.

2. By adding a new § 20.673 to read as follows:

§ 20.673 *Logging of pilot flight time*—(a) *Student pilot.* The holder of a student pilot certificate may log as solo flight time only that time during which he is the sole occupant of an aircraft in flight.

(b) *Pilots of private grade or higher.* The holder of a pilot certificate, other than a student pilot certificate, may log as solo flight time that portion of any flight during which he is the sole manipulator of the controls: *Provided,* That he may log as solo flight time only 50 percent of any flight time during which a certificated instructor or a certificated airline transport pilot is in the aircraft serving as an instructor for the purpose of reviewing or increasing such pilot's skill; *And provided further,* That the holder of a commercial pilot certificate while serving in scheduled air transportation shall log his flight time as provided in Part 61.

(c) *Flight instructor.* A certificated instructor may log as solo flight time all that flight time during which he is serving as an instructor for the purpose of reviewing or increasing another pilot's skill.

By the Civil Aeronautics Board.

PART 21—AIRLINE TRANSPORT PILOT RATING

PROVIDING FOR THE LOGGING OF AIRLINE TRANSPORT PILOT FLIGHT TIME

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 3d day of February 1942.

Acting pursuant to the authority vested in it by the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a) and 601 of said Act, and finding that its action is desirable in the public interest and is necessary to carry out the provisions of, and to exercise and perform its powers and duties under, said Act, the Civil Aeronautics Board amends the Civil Air Regulations as follows:

Effective February 3, 1942, Part 21 of the Civil Air Regulations is amended as follows:

1. By changing the number of the present § 21.442, relating to the logging of instrument flight time, to § 21.443.

2. By adding a new § 21.442 to read as follows:

§ 21.442 *Logging of pilot flight time.* The holder of an airline transport pilot certificate may log as solo flight time that portion of any flight during which he is the sole manipulator of the controls or during which he is serving as an instructor in accordance with § 21.222: *Provided,* That he may log only 50 percent of any flight time during which a certificated instructor or a certificated airline transport pilot is in the aircraft serving as an instructor for the purpose of reviewing or increasing such pilot's skill: *And provided further,* That the holder of an airline transport pilot certificate while serving in scheduled air transportation shall log his flight time as provided in Part 61.

QUALIFICATIONS FOR CERTIFICATE

§ 26.1 *General.* An applicant must be a citizen of the United States, temperamentally fit, and not less than 21 years of age. He must be able to read, write, and understand the English language and to speak the English language without any accent or impediment of speech which would interfere with two-way radio conversation.

§ 26.10 *Physical*—(a) *Eye.* An applicant must have:

(1) A visual acuity of at least 20/20 in each eye separately, without correction, and an average depth perception of 30 millimeters or less, with or without glasses: *Provided,* That if the vision in either or both eyes is not poorer than 20/50 and is brought up to 20/20 or better in each eye by glasses, or if the depth perception is greater than 30 millimeters and can be corrected to at least 30 millimeters by glasses, an applicant may be qualified in either event on condition that the correcting glasses be worn while he is on duty;

(2) No diplopia;

(3) Not more than one diopter of hyperphoria;

(4) Properly balanced eye muscles with a divergence (abduction) of 3 prism diopters, minimum; and a convergence (adduction) of 6 prism diopters, minimum; independently of each other.

(5) Sufficient accommodation to pass a prescribed test based primarily upon ability to read official aeronautical maps;

(6) Normal fields of vision; and

(7) No pathology of the eye.

(b) *Ear, nose, throat, and equilibrium.* An applicant must be able to hear the whispered voice at 8 feet with each ear separately; must have no acute or chronic disease of the middle or internal ear; no disease of the mastoid; no unhealed perforations of the ear drum; no disease or malformation of the nose or throat which would interfere with or be aggravated by the performance of his duties; and no disturbance of equilibrium.

(c) *General physical condition.* An applicant must have no organic or functional disease, nor structural defect or limitation, which would interfere with his duties as an air-traffic control-tower operator.

(d) *Nervous system.* An applicant must have no disease of the mental or

nervous system and no abnormality of the personality.

(c) *Exceptions.* The failure by an applicant to comply with any of the above physical requirements will not disqualify him if, in the opinion of the Administrator, his experience in aeronautics gained prior to his disability offsets such physical deficiency.

§ 26.11 *Knowledge.* An applicant must pass an examination in the following subjects: [1]

(a) Air traffic rules set forth in Part 60 of the Civil Air Regulations;

(b) Airport traffic control procedures, and Part 26 of the Civil Air Regulations;

(c) Airway traffic control procedures;

(d) Radio frequencies and procedures used for airport traffic control;

(e) Use of radio aids to air navigation;

(f) The making of weather observations;

(g) Pertinent Rules and Regulations of the Federal Communications Commission. An applicant who presents satisfactory evidence that he possesses a restricted radiotelephone operator's permit or higher grade of radiotelephone operator's license issued by the Federal Communications Commission will not be required to take the examination prescribed in this subsection.*

*§§ 26.1 to 26.5, inclusive, issued under the authority contained in secs. 205, 601 (a), 602 of the Civil Aeronautics Act, as amended.

QUALIFICATIONS FOR RATINGS

§ 26.2 *Character of ratings.* The holder of an air-traffic control-tower operator certificate (hereafter referred to as "certificate") may receive a junior or senior rating, depending upon his qualifications to perform the duties of an air-traffic control-tower operator (hereafter referred to as "operator") at a particular airport.

§ 26.20 *Qualifications for junior rating.* An applicant must pass an examination on the following subjects:

(a) Local airport rules of the airport for which the rating is sought;

(b) Local aircraft operations and such other aircraft operations as may affect conditions at the airport for which the rating is sought;

(c) Teletype symbols and weather sequences of the airways converging on the airport for which the rating is sought;

(d) Any other subject or subjects in which the Administrator may deem an examination necessary.[2]

§ 26.21 *Qualifications for senior rating.*

§ 26.210 *Knowledge.* An applicant must pass an examination in the subjects required for a junior rating and, in addition, the following subjects:

(a) Air-navigation facilities within a radius of 200 miles of the airport for which the rating is sought;

(b) Airway traffic control procedures in the area in which the airport for which the rating is sought is located;

(c) Instrument approach and departure procedures at the airport for which the rating is sought;

(d) Any other subject or subjects in which the Administrator may deem an examination necessary.[2]

§ 26.211 *Experience.* An applicant must have performed satisfactory service:

(a) As an operator with a senior rating for at least 6 months; or

(b) As an operator with a junior rating at the airport for which the rating is sought for the 6 months immediately preceding application; or

(c) As an air-traffic control trainee in Federal service for at least 6 months; or

(d) For 1 year of the 2 years immediately preceding application as:

(1) An operator with a junior rating at an airport other than that at which the rating is sought; or

(2) An operator at a landing area under military or naval jurisdiction.

§ 26.212 *Other requirements.* The applicant must demonstrate his ability to supervise and manage all activities of the airport control tower or airport control station, which shall at least include the preparation of such reports as may be required from time to time by the airport manager or the Administrator.*

EXAMINATIONS

§ 26.3 *General.* The prescribed examinations will be conducted by representatives of the Administrator at a designated time and place. The passing grade in any subject shall be at least 70 percent.

§ 26.30 *Physical examinations.* (a) The prescribed physical requirements must be met before any practical or theoretical examination will be given and must be completed within the 60 days immediately preceding application for a certificate.

(b) A statement by a Medical Officer on active duty with the United States Army, Navy, Marine Corps, or Coast Guard, who is authorized to conduct physical examinations for flying, that an active member of his service met the physical requirements within the preceding 60 days prescribed in § 26.10 will be accepted in lieu of the report of the physical examination required herein. Such statement shall be on the form prescribed and furnished by the Administrator.

§ 26.31 *Reexamination.* An applicant who has failed to pass any examination may apply for reexamination after the expiration of 30 days from the date of his failure.*

ISSUANCE AND EXPIRATION OF CERTIFICATES

§ 26.4 *Duration.* A certificate will be issued for an initial period of 60 days but, if the holder is not notified to the contrary by the Administrator within that period, it will continue in effect indefinitely, expiring only in the event that:

(a) The holder of the certificate fails to secure an endorsement [4] thereof by an inspector of the Administrator within the last 45 days of each 12 months' period [5] after the date of issuance; or

(b) An inspector of the Administrator shall refuse to endorse the certificate after inspection or examination.

§ 26.40 *Periodic endorsement.* (a) A certificate will not receive a periodic endorsement unless the holder—

(1) Has met the physical requirements prescribed for the original issuance of his certificate within the 60 days immediately preceding the expiration of the endorsement period; and

(2) Has served satisfactorily as a rated operator at some time during the 12 months immediately preceding the date of application for endorsement.

(b) A certificate will not receive a periodic endorsement with respect to any rating unless the holder has served satisfactorily as an operator at the airport to which the rating applies at some time during the 6 months immediately preceding the expiration of the endorsement period.

§ 26.41 *Special issuance of certificate and rating.* If a certificate and rating expires, a new certificate and rating will be issued if the applicant complies with the requirements for periodic endorsement. In applying this section, the time during which the applicant must serve as a rated operator in order to comply with the periodic endorsement requirements shall be computed from the date of the application for special issuance rather than the date of expiration of the endorsement period.

§ 26.42 *Transfer* of a certificate is prohibited.

§ 26.43 *Revocation.* No person whose air-traffic control-tower operator certificate has been revoked shall apply for or be issued an air-traffic control-tower operator certificate of any rating for a period of one year after the revocation, except as the order of revocation may otherwise provide.*

REGULATIONS

§ 26.5 *Rating record.* A certificated operator shall not serve as such unless there is attached to his certificate the appropriate rating record prescribed and issued by the Administrator, nor serve otherwise than in accordance with the limitations prescribed by the Administrator in his certificate or rating record.[6]

§ 26.50 *Exercise of authority.* An operator on duty at a control airport within an airway traffic control area or a

[1] Lists of source material covering the subject matter of these examinations can be obtained from any Regional Manager of the Civil Aeronautics Administration.

[2] The applicant will be given adequate notice of the subject of the examination.

[2] The applicant will be given adequate notice of the subject of the examination.

[4] This endorsement will be referred to hereafter as a "periodic endorsement".

[5] This 12 months' period will be referred to hereafter as the "endorsement period".

[6] The rating record is a sheet which will be attached to all certificates when they are issued and will prescribe the airports at which the holder is authorized to serve and the class of rating held.

control zone of intersection shall not authorize contact flight rule operations below contact flight rule weather minimums in accordance with the authority vested in such operators by Part 60 of the Civil Air Regulations,[1] unless the operator previously notifies either the airway traffic control center if the airport is located in an airway traffic control area or airway communication station if the airport is located in a control zone of intersection of the action to be taken: *Provided*, That an operator with a junior rating shall not exercise this authority unless such action is taken with the consent of an operator with a senior rating for the particular airport, who is on duty and is present in the control tower at the time the authorization is given.

§ 26.51 *Control airports.* An operator with a junior rating shall not control air traffic at a control airport except under the supervision of an operator with a senior rating for such airport: *Provided*, That in an emergency the person in charge of the tower may authorize an operator with a junior rating for the airport to control air traffic during the period of such emergency, if such person immediately notifies the regional manager of the Administrator, for the region in which the airport is located, of the existence of the emergency and the facts and circumstances surrounding it: *Provided further*, That whenever the Administrator finds, in the interest of safety, that this authority should not be exercised, it shall terminate upon notification by the Administrator.

§ 26.52 *Relaying information.* An operator shall not relay information or instructions received from airway traffic control personnel, airway communications, or United States Weather Bureau airport stations, otherwise than in the manner approved by the Administrator.

§ 26.53 *Maximum hours.* Except in case of an emergency, a certificated operator shall be relieved of all duty for not less than 24 consecutive hours at least once during each 7 consecutive days, and shall not serve, nor be required to serve, as such:

(a) In excess of 10 consecutive hours;

(b) In excess of 10 hours during a period of 24 consecutive hours unless the operator is given a rest period of not less than 8 hours at or before the termination of such 10 hours of duty.

§ 26.54 *Display of certificate.* An operator shall keep his certificate readily available when he is on duty and shall present it for inspection upon request of any officer or employee of the Administrator or Board and of any State or municipal official charged with the duty of enforcing local laws or regulations involving Federal compliance.

§ 26.55 *Performance standards.* A certificated air-traffic control-tower operator shall control air traffic in accordance with practices and procedures prescribed by the Administrator as being best calculated, among other things, to avoid collisions and to establish uniformity in air traffic control.

§ 26.56 *Equipment standards.* A certificated air-traffic control-tower operator shall not control air traffic with facilities which the Administrator has determined to be inadequate.

§ 26.57 *Inspection.* An applicant or a holder of a certificate or rating, upon reasonable request by any representative of the Administrator, shall cooperate fully in any examination which may be made of him.

§ 26.58 *Surrender of certificate.* Upon the suspension, revocation, or expiration of a certificate, the holder shall, upon request, surrender such certificate to a representative or employee of the Administrator.*

By the Civil Aeronautics Board.

[Amendment 60-54, Civil Air Regulations]

PART 60—AIR TRAFFIC RULES

AIRSPACE RESERVATIONS

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 3d day of February 1942.

Acting pursuant to the authority vested in it by the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a) and 601 of said Act, and finding that its action is desirable in the public interest and is necessary to carry out the provisions of, and to exercise and perform its powers and duties under, said Act, the Civil Aeronautics Board amends the Civil Air Regulations as follows:

Effective February 13, 1942, Part 60 of the Civil Air Regulations is amended as follows:

By amending section 60.348 to read as follows:

§ 60.348 *Airspace reservations.* No flight of aircraft shall be made within any airspace reservation set aside by order of the President of the United States.

By the Civil Aeronautics Board.

[Amendment 98-1, Civil Air Regulations]

PART 98—DEFINITIONS

ELIMINATION OF DEFINITION OF SOLO FLIGHT

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 3d day of February 1942.

Acting pursuant to the authority vested in it by the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a) and 601 of said Act, and finding that its action is desirable in the public interest and is necessary to carry out the provisions of, and to exercise and perform its powers and duties under, said Act, the Civil Aeronautics Board amends the Civil Air Regulations as follows:

Effective February 3, 1942, Part 98 of the Civil Air Regulations is amended as follows:

1. By striking § 98.117, relating to solo flight.

2. By striking from the table of contents of Part 98 the following:

98.117 Solo flight.

By the Civil Aeronautics Board.

[SEAL] DARWIN CHARLES BROWN,
Secretary.

TITLE 26—INTERNAL REVENUE

CHAPTER I—BUREAU OF INTERNAL REVENUE

[T. D. 5111]

PART 171—MISCELLANEOUS REGULATIONS RELATING TO LIQUOR

SUBPART G—PRODUCTION, WITHDRAWAL, ETC., OF DISTILLED SPIRITS

The Act of January 24, 1942 (Public Law 412—77th Congress) provides as follows:

That section 2883 of the Internal Revenue Code (relating to transfer of spirits at registered distilleries) is amended by adding at the end thereof the following:

"(c) *Transfer of spirits for industrial uses.* Distilled spirits of one hundred and sixty degrees of proof or greater may be withdrawn from registered distilleries (including registered fruit distilleries), and stored in and withdrawn from internal-revenue bonded warehouses, pursuant to the applicable provisions of subsection (a): *Provided*, That such distilled spirits may also be withdrawn without payment of tax from registered distilleries (including registered fruit distilleries) and internal-revenue bonded warehouses for all the tax-free purposes authorized by part II of subchapter C of this chapter, and when so withdrawn shall be subject to all applicable provisions of such part. Under such regulations as the Commissioner may prescribe, the manufacture, warehousing, withdrawal, and shipment of distilled spirits of one hundred and sixty degrees of proof or greater may be exempted from the provisions of section 2836 and section 2870. This subsection shall cease to be in effect upon the termination of the unlimited national emergency proclaimed by the President on May 27, 1941."

Pursuant to the above provisions of law and sections 2883 (a), 3102, 3105, 3114 (a), and 3176, Internal Revenue Code, the following regulations are hereby prescribed:

§ 171.20 *Withdrawal; storage.* Distilled spirits of 160 degrees or more of proof may be withdrawn from registered distilleries and fruit distilleries, and may be stored in and withdrawn from internal revenue bonded warehouses, in accordance with the provisions of Regulations 4, 5, and 10, relative to the withdrawal of spirits produced at a proof in excess of 159 degrees and reduced in the receiving cisterns to not more than 159 and not less than 100 degrees of proof, pursuant to section 2883 (a), I.R.C. Such spirits, when tax-paid, may be used for beverage purposes only.

§ 171.21 *Tax-free withdrawals.* Distilled spirits of 160 degrees or more of proof may also be withdrawn without payment of tax from registered distilleries, fruit distilleries and internal revenue bonded warehouses for the tax-free purposes specified in section 3106, I.R.C., pursuant to withdrawal permits issued to permittees whose basic permits authorize the procurement of alcohol free of tax. Withdrawals shall be in accordance with the provisions of Regulations 4, 5, and 10, relative to the withdrawal of spirits produced at a proof in excess of 159 degrees and reduced in the receiving cisterns to not more than 159 and not less than 100 degrees of proof, pursuant to section 2883 (a), I.R.C., and with the provisions of Regulation 3 relative to the withdrawal of alcohol for such purposes.

§ 171.22 *Permits; bond.* Permittees whose basic permits (Forms 1433, 1444, and 1447) authorize the procurement of alcohol free of tax and who desire to procure distilled spirits of 160 degrees or more of proof from registered distilleries, fruit distilleries, and internal revenue bonded warehouses, should file application on Form 1431, 1444 or 1447 with the district supervisor for amendment of their basic permits to authorize the procurement of such distilled spirits. The permittee must also file consent of surety, Form 1533, on his bond, Form 1432-A, 1462, or 1448 (if any), extending the terms thereof to cover such distilled spirits. The consent of surety shall be in substantially the following form.

To extend the terms of said bond to be liable for distilled spirits of 160 degrees or more of proof withdrawn free of tax by the principal from registered distilleries, fruit distilleries, and internal revenue bonded warehouses, pursuant to section 2883 (c), I.R.C., and regulations, to the same extent as alcohol withdrawn free of tax from industrial alcohol plants and bonded warehouses.

§ 171.23 *Modification of forms.* Such permittees, when filing applications on Form 1444, 1449, or 1463, for withdrawal permits to procure such distilled spirits, shall modify such forms to specify distilled spirits, in addition to alcohol, and withdrawal from a registered distillery, fruit distillery, or internal revenue bonded warehouse, as the case may be, in addition to an industrial alcohol plant, bonded warehouse, or denaturing plant. District supervisors will modify Forms 1444, 1450, 1464, and 1465 likewise when issuing withdrawal permits on such forms to procure such distilled spirits. Such application shall be filed, and withdrawal permits will be issued, in accordance with the provisions of Regulations 3 relative thereto.

§ 171.24 *Transportation.* Carriers desiring to transport distilled spirits of 160 degrees or more of proof withdrawn free of tax under these regulations, must procure permit so to do, in accordance with section 3114, I.R.C., and Regulations 3. Where bond, Form 49, is required to support such permit, the bond shall be modified to cover such tax-free distilled spirits, in addition to tax-free alcohol.

[1] Part 60 of the Civil Air Regulations empowers an operator on duty in a radio-equipped airport control tower in operation at a control airport to authorize flying in a control zone when the ceiling or visibility is below the minimums which prevail in the absence of any such special authorization.

Carriers, who hold permit to transport tax-free alcohol and who desire to transport such tax-free distilled spirits, must file application on Form 144 for amendment of their permits, Form 145, to authorize the transportation of such tax-free distilled spirits and where such permits are supported by bond, Form 49, the carrier must file consent of surety, Form 1533, on his bond, extending the terms thereof to cover such tax-free distilled spirits. The consent of surety shall be in substantially the following form:

To extend the terms of said bond to be liable for tax-free distilled spirits of 160 degrees or more of proof transported by him, to the same extent as tax-free alcohol transported by him.

§ 171.25 *Markings.* Such distilled spirits of 160 degrees or more of proof shall be marked "Distilled Spirits" as to kind, followed by the name of the material from which produced, as "Distilled Spirits—Grain," "Distilled Spirits—Fruit," or "Distilled Spirits—Cane." Spirits of 160 degrees or more of proof produced at fruit distilleries and marked as to kind in accordance with the Gauging Manual at the time of production, may be withdrawn free of tax as specified herein, provided the spirits have not been colored with caramel, by storage in wooden containers, use of oak chips, or otherwise, and the kind of spirits marked on the containers is effaced and the containers remarked "Distilled Spirits—Fruit" prior to removal. The containers of such distilled spirits shall otherwise be marked in accordance with the Gauging Manual and Regulations 4, 5, and 10. When withdrawn free of tax, the purpose of withdrawal shall be marked on the containers in accordance with Regulations 3.

§ 171.26 *Production; denaturation; accounting.* The production, withdrawal, accounting, etc., of such distilled spirits at registered distilleries, fruit distilleries and internal revenue bonded warehouses shall be in accordance with Regulations 4, 5, and 10, and the transportation, use, denaturation, accounting, etc., of such distilled spirits after withdrawal for tax-free purposes shall be in accordance with Regulations 3. Upon denaturation such spirits will be designated as "Completely Denatured Alcohol" or "Specially Denatured Alcohol," as the case may be, and withdrawn as such from the denaturing plant. When withdrawn tax-paid, the spirits shall be accounted for by the consignee the same as other tax-paid spirits.

§ 171.27 *Exemptions.* The law provides that the manufacture, warehousing, withdrawal, and shipment of such distilled spirits of 160 degrees or more of proof may, for any of the authorized purposes, be exempted from the provisions of sections 2836 and 2870, I.R.C. When it is desired to mash or distill such spirits between 11:00 p. m. Saturday and 1:00 a. m. Monday, or to warehouse, withdraw, or ship (in packages containing more than 10 wine gallons) such spirits between sundown and sunrise, or on Sunday, the proprietor shall make application, in duplicate, to the district supervisor for permission so to do. The application shall specify the dates and hours on which it is desired to conduct such operations, the nature of the operations and the necessity for such production, warehousing, withdrawal, or shipment. The application shall be filed in sufficient time in advance of the time of operation specified in the application to enable the district supervisor to determine the necessity for such operations, and, if he approves the application, to assign an officer to supervise the operations where deemed necessary. District supervisors will approve such applications where necessity therefor is shown and Government officers are available for necessary supervision. Where it is desired to conduct such operations during such hours regularly, the application may be made, and the permission granted, accordingly.

§ 171.28 *Limitations.* No distilled spirits of less than 160 degrees of proof may be mashed or distilled between 11:00 p. m. Saturday and 1:00 a. m. Monday, or warehoused, withdrawn, or shipped (in packages containing more than 10 wine gallons) at a registered distillery, fruit distillery or internal revenue bonded warehouse, between sundown and sunrise, or on Sunday, pursuant to such permission.

§ 171.29 *Denaturing plants.* Proprietors of registered distilleries, fruit distilleries, or internal revenue bonded warehouses, from which distilled spirits of 160 degrees or more of proof are withdrawn under Section 2883 (c), I.R.C., and these regulations, may establish denaturing plants in accordance with Regulations 3.

§ 171.30 *Period effective.* These regulations shall cease to be effective upon the termination of the unlimited national emergency proclaimed by the President on May 27, 1941.

[SEAL] NORMAN D. CANN,
Acting Commissioner of Internal Revenue.

Approved: January 24, 1942.

JOHN L. SULLIVAN,
Acting Secretary of the Treasury.

TITLE 30—MINERAL RESOURCES

CHAPTER III—BITUMINOUS COAL DIVISION

[Docket No. A-1258]

PART 333—MINIMUM PRICE SCHEDULE, DISTRICT NO. 13

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD 13 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 13

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 13; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 333.6 (*General prices*) is amended by adding thereto Supplement R–I, § 333.7 (*Special prices—(a) Prices for shipment to all railroads and for exclusive use of railroads*) is amended by adding thereto Supplement R–II, § 333.7 (*Special prices—(c) Prices for shipment by railroad, applicable to all coal sold for steamship vessel fuel*) is amended by adding thereto Supplement R–III, § 333.34 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T–I, and § 333.43 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto, Supplement T–II, which supplements are hereinafter set forth and hereby made a part hereof.

The price established herein for the coals of Mine Index No. 1434 of Cumberland Mt. Coal Company in Size Group 13 as shown in Supplement T, annexed hereto, is higher than that prayed for by the petitioner. The increase was effected in order to relate these coals properly to analogous and comparable coals produced in District No. 13.[1]

No relief is granted herein as to the coals of the Wilson #1 Mine (Mine Index No. 1410) and Wilson #2 Mine (Mine Index No. 1411) of Wilson and Huddleston (E. S. Wilson), such coals having been heretofore classified and priced in Docket No. A–1203; the coals of the Scratch Out Mine (Mine Index No. 190) of Gladden Ballard, heretofore classified and priced in Docket No. A–1049; the coals of the Nyota #9 Mine (Mine Index No. 1360) of Willie Martin, heretofore classified and priced in Docket No. A–1203; the coals of Inland #4 Mine (Mine Index No. 223) of Nelson & McGowen (J. L. Nelson), heretofore classified and priced in General Docket No. 15; the coals of Whaley Black Creek Mine (Mine Index No. 1287) of Hill & Wood (T. J. Wood), heretofore classified and priced in Docket No. A–1069; the coals of the Beltona #6 Mine (Mine Index No. 1125) of T. J. Jay, heretofore classified and priced in Docket No. A–343; the coals of the Keef Bros. Mine (Mine Index No. 754) of James E. Keef, heretofore classified and priced in General Docket No. 15; the coals of the Mary Frances Mine (Mine Index No. 331) of Joseph Munkus, heretofore classified and priced in General Docket No. 15; the coals of Hollis #8 Mine (Mine Index No. 126) of E. L. Conner, heretofore classified and priced in Docket No. A–894; the coals of Avery Coal Co. Mine (Mine Index No. 552) of Mrs. Pearl Avery, heretofore classified and priced in General Docket No. 15; the coals of Big Ridge Mine (Mine Index No. 142) of the Big Ridge Coal Co. (Foster Deason) heretofore classified and priced in Docket No. 946; the coals of the Tucker #15 Mine (Mine Index No. 1295) of R. L. Newton, heretofore classified and priced in Docket No. A–1089; the coals of the Witherspoon Mine (Mine Index No. 669) of A. L. Prescott, heretofore classified and priced in General Docket No. 15; or the coals of the Martin Mine (Mine Index No. 902) of Arthur Musgrove, heretofore classified and priced in Docket No. A–205.

Price classifications and minimum prices are established herein for the coals of the Wideman #1 Mine of Wideman & Sons under Mine Index No. 1350, the Mine Index number shown for this mine in Docket No. A–1203, and not under Mine Index No. 1365, as shown in error in the original petition.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: January 21, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[1] By a communication of January 14, 1942, the original petitioner indicated that it concurred in this departure from the relief sought in its petition.

TEMPORARY AND CONDITIONALLY FINAL EFFECTIVE MINIMUM PRICES FOR DISTRICT No. 13

NOTE: The material contained in these supplements is to be read in the light of the classifications, prices, instructions, exceptions and other provisions contained in Part 333, Minimum Price Schedule for District No. 13 and supplements thereto.

TITLE 32—NATIONAL DEFENSE

CHAPTER IX—WAR PRODUCTION BOARD

SUBCHAPTER B—DIVISION OF INDUSTRY OPERATIONS

PART 949—CHROMIUM

Amendment No. 2 to General Preference Order M-18-a[1] to Conserve the Supply and Direct the Distribution of Chromium

Section 949.2 (*General Preference Order M-18-a*), issued November 28, 1941, as heretofore amended on January 13, 1942, is hereby further amended to read as follows:

[1] 6 F.R. 6142; 7 F.R. 251.

Whereas it is found that the increasing national defense requirements, including the need for adequate reserves occasioned by the uncertainty of future shipments from abroad, of chromium (as hereinafter defined) have created a shortage in the supply of chromium for defense, for private account, and for export, and it is necessary in the public interest and to promote the defense of the United States to supplement by further measures the action heretofore taken to conserve the supply and direct the distribution thereof;

Now, therefore, it is hereby ordered, That:

§ 949.2 *General Preference Order M-18-a—(a) Definitions.* For the purposes of this order:

(1) "Chromium" means and includes:

(i) Chromium ores or concentrates;

(ii) The element chromium in pure form, ferrochromium, chrom-x, chrome briquettes, and other combinations of the element chromium with other elements in semi-manufactured or manufactured form, commercially suitable for use in the manufacture of steel or for other metallurgical purposes;

(iii) All chemical combinations having chromium as an essential and recognizable component;

(iv) Those products containing chromium known commercially as refractories or refractory materials;

(v) All scrap or secondary material containing chromium as defined in (i), (ii), and (iii) above.

(2) "Producer" means any person who mines or otherwise produces natural materials containing recoverable quantities of chromium.

(3) "Processor" means any person who uses ores or concentrates for the manufacture of, or converts them into chromium chemicals, chromium refractories, or metallurgical forms of chromium.

(4) "Dealer" means any person who procures chromium either by importing or from domestic sources for sale without change in form, whether or not such person receives title to or physical delivery of the material, and includes selling agents, warehousemen, and brokers.

(b) *Applicability of Priorities Regulation No. 1.* This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(c) *Limitation on use of ore in chromium chemicals.* Unless otherwise ordered by the Director of Industry Operations, the aggregate chromium oxide content of ore which may be used by any processor in the manufacture of chromium chemicals during any calendar month shall be limited to 1/12 of the aggregate weight of such oxide content used in the manufacture of the total quantity of chromium chemicals delivered by such processor during the period from July 1, 1940 through June 30, 1941.

(d) *Restrictions on melting and directions for deliveries.* Hereafter no person shall melt any chromium except as specifically authorized by the Director of Industry Operations. The Director will from time to time specifically direct the quantities in which chromium may be melted for particular purposes by any person, and the manner and quantities in which deliveries shall be made to particular persons or for particular uses. Such directions will be made to insure the satisfaction of all defense requirements of the United States, both direct and indirect, and they may be made in the discretion of the Director of Industry Operations without regard to any preference ratings assigned to particular contracts or purchase orders. The Director of Industry Operations may also take into consideration the possible dislocation of labor, and the necessity of keeping a plant in operation so that it may be able to fulfill defense orders and essential civilian requirements. In making any deliveries of chromium with respect to which no specific directions have been issued by the Director of Industry Operations, each producer, processor, and dealer must give preference to defense orders as required by the provisions of Priorities Regulation No. 1, as amended from time to time, and must be governed by any preference ratings assigned to particular contracts or purchase orders.

(e) *Application for chromium.* Unless otherwise ordered by the Director of Industry Operations, no processor or dealer shall make delivery of chromium, and no person shall accept such delivery unless, not later than the 20th day of the month next preceding the month in which delivery is to be made, or at such other time as the War Production Board may determine, the person seeking such delivery shall have filed with the processor or dealer an application in the form prescribed by the Chromium Branch of the War Production Board, and shall have filed at the same time with the War Production Board a copy of such application. If the chromium for which application is made is in any of the forms specified in paragraph (a) (1) (ii) above, the person seeking delivery shall also file with the War Production Board, together with the copy of such application, a report on Form PD-53a or such other form as may be from time to time prescribed by the War Production Board. The Director of Industry Operations, in his discretion, from time to time, may issue specific directions exempting particular customers or classes of customers from the provisions of this paragraph (e) on the basis of the limited character of their requirements for chromium.

(f) *Violations or false statements.* Any person who wilfully violates any provision of this order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(g) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to the Chromium Branch, War Production Board, Social Security Building, Washington, D. C., Reference: M-18-a.

(h) *General Preference Order M-18 revoked.* General Preference Order M-18, issued by the Director of Priorities July 7, 1941, as amended August 22, 1941, is hereby revoked.

(i) *Effective dates.* This order shall take effect immediately upon its issuance, and unless sooner terminated by direction of the Director of Industry Operations, shall expire on the 30th day of June 1942. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561; E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Public, No. 671, 76th Congress, Third Session, as amended by Public No. 89, 77th Congress, First Session)

Issued this 4th day of February 1942.

PART 981—PASSENGER AUTOMOBILES

Supplementary General Limitation Order L-2-h Authorizing the Production of Ambulance Chassis by General Motors Corporation, Cadillac Motor Car Division, during January 1942

§ 981.9 *Supplementary General Limitation Order L-2-h.* Notwithstanding the provisions of § 981.6 (*Supplementary General Limitation Order L-2-e*[1]) [Amendment No. 1] General Motors Corporation, Cadillac Motor Car Division, may produce during the period ending January 31, 1942, seven hundred nineteen (719) commercial long-wheel base ambulance chassis for distribution to builders of ambulance bodies, by them to be mounted with ambulance bodies only.

This Order shall take effect immediately. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Public, No. 671, 76th Congress, Third Session, as amended by Public, No. 89, 77th Congress, First Session.)

Issued this 31st day of January 1942.

J. S. KNOWLSON, *Director of Industry Operations.*

PART 1010—SUSPENSION ORDERS

Suspension Order No. S–10

Acme Aluminum Foundry Company of Canton, Ohio, is a foundry and fabricator of primary, secondary, and scrap aluminum, and is subject to the provisions of General Preference Order M–1, and Supplementary Order M–1–a. During the months of September and October, the company delivered 78,000 pounds of aluminum castings on non-defense orders which were not approved by the Director of Priorities and some of which were specifically disapproved. The company also violated the provisions of the Aluminum Orders in failing to require all of its customers to file with it a sworn statement covering their inventories and orders placed with other producers.

Because of the scarcity and critical importance of aluminum, these violations of General Preference Order M–1 and Supplementary Order M–1–a have resulted in the diversion of secondary aluminum from primary defense needs to non-essential uses. In view of the foregoing facts,

It is hereby ordered:

§ 1010.10 *Suspension order S–10.* (a) During the period in which this Order shall be in effect, Acme Aluminum Foundry Company of Canton, Ohio, its successors and assigns, shall accept no deliveries, from any source, of primary aluminum, secondary aluminum, aluminum scrap or alloys of which aluminum constitutes the major part, except as the Director of Industry Operations shall specifically direct.

(b) During the period in which this Order shall be in effect, Acme Aluminum Foundry Company of Canton, Ohio, its successors and assigns, shall accept no purchase orders, and enter into no contracts or commitments, for delivery by it of primary aluminum, secondary aluminum, aluminum scrap, alloys of which aluminum constitutes the major part, or aluminum products, except as the Director of Industry Operations shall specifically direct.

(c) During the period in which this Order shall be in effect, Acme Aluminum Foundry Company of Canton, Ohio, its successors and assigns, shall make no deliveries of primary aluminum, secondary aluminum, aluminum scrap, alloys of which aluminum constitutes the major part, or aluminum products, except as the Director of Industry Operations shall specifically direct.

(d) During the period in which this Order shall be in effect, no person shall deliver to or receive from Acme Aluminum Foundry Company any primary aluminum, secondary aluminum, aluminum scrap or alloys of which aluminum constitutes the major part or any aluminum product, except as specifically authorized by the Director of Industry Operations.

(e) This Order shall take effect immediately and, unless sooner terminated by the Director of Industry Operations, shall expire at midnight of April 3, 1942. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561; E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Public, No. 671, 76th Congress, Third Session, as amended by Public, No. 89, 77th Congress, First Session)

Issued this 3d day of February 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 1024—PIGS' AND HOGS' BRISTLES

Amendment to General Preference Order M–51[1] To Conserve the Supply and Direct the Distribution of Pigs' and Hogs' Bristles

Section 1024.1 (*General Preference Order M–51*) is hereby amended as follows:

Paragraph (b) is amended to read as follows:

(b) *Additional definitions.* (1) "Bristles" shall mean pigs' or hogs' bristles of the lengths of three inches and longer, whether new or reclaimed, and whether imported or not.

(2) "Dealer" shall mean any person engaged in the business of purchasing and reselling bristles without changing the condition thereof.

(3) "Dresser" or "Reclaimer" shall mean any person grading, sorting, dressing or reclaiming bristles and reselling to a Dealer or to other Dressers or Reclaimers.

Paragraph (c) is amended to read as follows:

(c) *Restrictions of deliveries to defense orders.* No person shall hereafter sell, deliver, or transfer title to any person other than the Defense Supplies Corporation, and no person, other than the Defense Supplies Corporation, shall buy, take title to, or accept delivery of bristles except upon defense orders, unless specifically authorized by the Director of Industry Operations: *Provided, however,* That sales, deliveries, and transfers of title to bristles may be made to the person importing the same, either directly or through an agent, if each person participating in the transaction shall report to the War Production Board on or before the close of the next business day following such participation, the amount, origin, size, color, number of cases, and identifying case number of any bristles so sold, delivered, or to which title has been so transferred, and the extent of such person's participation in such transaction: *Provided, further,* That nothing contained in this paragraph shall prevent purchases or sales, deliveries or acceptance of deliveries, or transfers of title to fill orders in accordance with the provisions of paragraphs (d) (3) (i), (d), (3) (ii), (d) (3) (iv).

Paragraph (d) is amended by adding thereto the following subparagraphs:

(d) *Restrictions on use of bristles.*

* * * * *

(3) Notwithstanding the foregoing, nothing in this Order shall prevent:

(i) Dressers or reclaimers from removing bristles from cases, performing their operations thereon, and reselling, delivering, or transferring title to them upon orders placed by dealers for inventory.

(ii) Dealers from placing orders for delivery of, buying, taking title to, or accepting delivery of bristles for inventory.

(iii) The opening of cases for inspection as to quality and condition, verification of sizes and weights, and removal of the bristles of less than three inches in length.

(iv) The opening of cases, removal of bristles, deliveries and transfers of title, upon orders for shoe bristles.

(v) The manufacture, subject to the limitations of paragraph (h), of the minimum commercially practicable amounts of finished products when the manufacture of additional amounts of such products is required in order to fill defense orders: *Provided, however,* Any excess so manufactured shall be sold only on defense orders.

(4) Notwithstanding the foregoing, nothing in this Order shall prevent the placing of orders by any manufacturer of products containing bristles for such amounts of bristles as may be necessary to enable him to manufacture, subject to the limitation in paragraph (h), for inventory, in the calendar month in which such bristles so ordered are to be delivered, an amount of his finished products not in excess of the amount of his finished products delivered by him upon defense orders in the preceding calendar month. Such finished products should be only of the kind and type suitable for delivery upon such defense orders. Each such order shall have endorsed thereon a certificate from such manufacturer, signed by a person authorized to sign for such manufacturer, and in substantially the following form:

The undersigned manufacturer hereby certifies to his vendor and to the War Production Board, subject to the provisions of section 35 (A) of the United States Criminal Code, that the bristles to be delivered on this purchase order are required by the undersigned to enable the undersigned to manufacture, for inventory, an amount of the undersigned's finished products in the calendar month in which such bristles are to be delivered not in excess of the amount of the undersigned's finished products delivered upon defense orders in the preceding calendar month.

Said Order is amended by adding thereto the following paragraph (h):

(h) *Conservation of bristles.* No person shall after February 7, 1942, use any bristles in the manufacture of any product, unless such Person shall use in the manufacture of such product a bristle mixture containing not less than 45% of material other than pigs' or hogs' bristles of any length whatever: *Provided, however,* That nothing herein contained shall prevent the use of an all bristle mixture in any product where such mixture is specifically required by specifications adopted by United States War or Navy Departments, and such product is specifically required by such Department to be made for it in accordance with such specifications.

Effective date. This Amendment shall take effect immediately. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Public, No. 671, 76th Congress, Third Session, as amended by Public, No. 89, 77th Congress, First Session)

Issued this 4th day of February 1942.

CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1306—IRON AND STEEL

AMENDMENT NO 1 TO PRICE SCHEDULE NO. 41—STEEL CASTINGS

Section 1306.106 is hereby revoked, §§ 1306.100, 1306.101, 1306.102, 1306.104, 1306.108 and 1306.109 are hereby amended and four new §§ 1306.111, 1306.112, 1306.113 and 1306.114 are added, as set forth below:

§ 1306.100 *Maximum prices for steel castings and railroad specialties.* (a) On and after December 1, 1941, regardless of the terms of any contract of sale or purchase, or other commitment and, except as provided in subdivision (b) of this section: (1) no producer shall sell, offer to sell, or deliver steel castings of any description whatever, and no person shall buy, offer to buy, or accept delivery of such steel castings, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1306.112; (2) no producer shall sell, offer to sell, or deliver railroad specialties, and no person shall buy, offer to buy, or accept delivery of railroad specialties, at prices higher than the maximum prices set forth in Appendix B hereof, incorporated herein as § 1306.113.

(b) To the extent that a contract for the sale of steel castings or railroad specialties does not require that deliveries thereunder be made until six or more months after the date said contract was entered into, a producer may sell or offer to sell steel castings or railroad specialties at prices not in excess of the prices issued by the Office of Price Administration applicable and in effect at the time deliveries are made.

§ 1306.101 *Less than maximum prices.* Lower prices than those set forth in Appendix A and Appendix B may be charged, paid, or offered.

§ 1306.102 *Castings produced on and after February 5, 1942, for which no price has been filed by the producer.* Any producer undertaking to make a steel casting, (1) which is part of an order totaling $100 or more, and (2) for which steel castings, or a steel casting substantially similar in specification and design, no price has been filed by such producer pursuant to § 1306.104 of this Schedule, shall file with the Office of Price Administration a request for approval of the proposed selling price for such steel casting on Form 141:4: *Provided,* That where the selling price is not higher than the price listed in the Comprehensive Report under the head of "Schedule Reference" for such steel casting, or for a steel casting substantially similar in design and specification, such producer shall not be required to request approval thereof. Copies of Form 141:4 may be obtained at the Office of Price Administration.

§ 1306.104 *Filing of prices.* On or before December 1, 1941, every producer shall file with the Office of Price Administration the exact and complete price or prices, extras, terms, and conditions, classified by size and quantity, in accordance with which he sold or would have sold on July 15, 1941, steel castings subject to Appendix A: *Provided,* That where such price or prices coincide with the "Comprehensive Report" the producer need only signify that such prices do coincide with those listed in said Comprehensive Report: *And, provided further,* That filing as above is not necessary with respect to obsolete steel castings.

§ 1306.108 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided,* That no application under this section will be considered unless the person making such application shall have, to the satisfaction of the Office of Price Administration, complied with this Schedule. A list of persons to whom exceptions have been granted pursuant to this Section appears in Appendix C.

§ 1306.109 *Definitions.* When used in this Schedule, the term:

(a) "Person" includes an individual, partnership, association, corporation, or other business entity, as well as executors, trustees in bankruptcy, receivers, and other court-appointed officers;

(b) "Producer" means a person engaged in the production of steel castings or railroad specialties;

(c) "Steel castings" means any cast steel object that has been initially cast into the desired shape of the finished product, and which contains less than 1.70% carbon and/or alloys totaling not more than 8%, and includes miscellaneous steel castings and steel castings produced for railroads other than the railroad specialties defined in subdivision (d) below;

(d) "Railroad specialties" means any or all side frames, bolsters, yokes and couplers of the types and sizes listed in Appendix B hereto;

(e) "Comprehensive Report" means the "Comprehensive Report of Price Lists of Miscellaneous Castings," published by the Steel Founders' Society of America, for the third quarter of 1941, beginning July 1, 1941.

(f) "Base territory" means the States of New York, Pennsylvania, New Jersey, Delaware, Maryland, Virginia, West Virginia, Kentucky, Ohio, Indiana, Illinois, and Michigan (southern peninsula only) and also including Bettendorf, Iowa, and St. Charles and St. Louis, Missouri.

§ 1306.111 *Geographical application.* The provisions of this Schedule shall apply only to sales, offers to sell, or deliveries of steel castings and railroad specialties moving within, into, or out of one of the 48 states or the District of Columbia.

§ 1306.112 *Appendix A—(a) Maximum prices for steel castings made by a producer on or before July 15, 1941.* The maximum prices of a producer for steel castings made by such producer on or before July 15, 1941, or for steel castings substantially similar in design and specification to any steel castings made by such producer on or before July 15, 1941, shall be the prices, together with the extras, terms, and conditions, which were or would have been charged by such producer on July 15, 1941, and which are filed with the Office of Price Administration in accordance with § 1306.104.

(b) *Maximum prices for other steel castings.* The maximum price of a producer for a steel casting of any description whatever made by such producer on or after February 5, 1942, and for which steel castings, or a steel casting substantially similar in design and specification, such producer has not filed a price with the Office of Price Administration in accordance with § 1306.104, (1) shall be the price, together with the extras, terms and conditions, listed in the Comprehensive Report under the head of "Schedule Reference" for steel castings of the same design and specification, or substantially similar design and specification, or (2), if substantially different in design and specification from any steel casting listed in the Comprehensive Report, shall be the price for such producer which is approved in writing by the Office of Price Administration within six days after Form 141:4 for such steel casting is received by the Office of Price Administration pursuant to § 1306.102 of this Schedule: *Provided,* That if said selling price is neither approved or disapproved within six days from the date of receipt of Form 141:4 by the Office of Price Administration, the proposed selling price shall be deemed approved for such producer.

§ 1306.113 *Appendix B; maximum prices for railroad specialties.* The maximum prices, including extras, for railroad specialties delivered to the purchaser in base territory shall be as set forth hereinafter. The maximum prices for railroad specialties, including extras, delivered outside of base territory shall be as hereinafter set forth: *Provided,* That there may be added to such prices charges for freight at rates prevailing at time of delivery with the customary differential allowed to the purchaser, computed by methods used by the producer on October 1, 1941.

PRICE SCHEDULE NO. 87—SCRAP RUBBER

Correction

The third sentence of the second paragraph in the first column on page 658 of the issue for Tuesday, February 3, 1942 should read: "The Office of Price Administration has determined, after investigation and conference with both the producing and consuming elements of the industry, that price advances beyond the maximum prices set forth herein are not necessary to produce the maximum supply of scrap rubber."

The headnote of footnote 5 in the second column on page 659 should read: *"No. 1A Truck Peelings."*

The first sentence of § 1315.1260 (f) (2) in the first column on page 660 should read: *"Group A* consists of mixed or beadless passenger or truck tires as listed in Table I."

PART 1330—CONTAINERS

AMENDMENT NO. 1 TO PRICE SCHEDULE NO. 55—SECOND HAND BAGS[1]

Sections 1330.51, 1330.54 and 1330.59 are hereby amended to read as follows:

[1] 6 F.R. 6456.

§ 1330.51 *Maximum prices for second hand bags.* (a) On and after February 16, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer second hand bags at prices higher than the maximum prices established herein: *Provided*, That contracts entered into prior to February 16, 1942, at prices in compliance with this Schedule[1] (Sections 1330.51 to 1330.60, inclusive) prior to that date, may be carried out at the contract price: *Provided further*, That deliveries under any contracts executed between February 3, 1942, and February 15, 1942, inclusive, must be completed on or before March 30, 1942.

(b) (1) The maximum price shall be the highest price for which the seller sold, contracted to sell, or delivered during the period between October 1 and October 15, 1941, inclusive, second hand bags of the same type, size, weight, grade, and comparable quantity, to a purchaser of the same general class.

(2) If during the period between October 1, 1941 and October 15, 1941, inclusive, no such sale, contract to sell or delivery was made, the maximum price shall be a price in line with the maximum prices for related or similar types, sizes, weights, and grades of second hand bags determined in accordance with subparagraph (1) above, to purchasers of the same general class.

(c) Applications for permission to sell second hand bags at prices higher than the maximum prices determined in accordance with paragraphs (a) and (b) above, may be made by:

(1) Persons who made no sale, contract to sell, or delivery of second hand bags during the period between October 1, 1941 and October 15, 1941, inclusive; or

(2) Persons whose only transactions during the period between October 1, 1941 and October 15, 1941, were deliveries made pursuant to contracts entered into prior to October 1, 1941 at prices substantially below the market prices prevailing during said period:

Provided, That no such application shall be considered unless it contains a sworn statement setting forth:

(i) the facts upon which relief is sought;

(ii) a full description of each type, size, weight and grade of second hand bag which the applicant desires to sell;

(iii) a full statement of the relief sought; and

(iv) if such application is filed pursuant to subparagraph (2) above, a statement of the price or prices at which each such type, size, weight, and grade of second hand bags were last sold or delivered, prior to October 15, 1941, and the dates of such sales or deliveries.

§ 1330.54 *Filing of prices.* On or before March 10, 1942, every person who, during any single calendar month of 1941, sold more than one thousand second hand bags shall file with the Office of Price Administration, a list of all sales, contracts to sell, and deliveries made during the period between October 1, 1941

and October 15, 1941, inclusive, showing with respect to each sale, contract to sell, or delivery (a) the date thereof; (b) the name and address of the purchaser; (c) the quantity of each type, size, weight, and grade of second hand bags sold, contracted to sell, or delivered; and (d) the price contracted for or received for each type, size, weight and grade of second hand bag.

§ 1330.59 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity.

(b) "Second hand bag" means a container composed of burlap, cotton cloth, jute, gunny cloth, sisal, or other textile material which has been used once or more to package any product and thereafter emptied, and sold for re-use as a container.

(c) "In line with" means having a justifiable price relationship to the prices contracted for, received or obtained during the base period with commensurate increases or decreases to take into account differences in type, size, weight and grade.

(E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483)

This Amendment No. 1 shall become effective February 3, 1942. Issued this 2d day of February 1942.

PART 1351—FOODS AND FOOD PRODUCTS

AMENDMENT NO. 2—PRICE SCHEDULE NO. 53 [1]—FATS AND OILS

The preamble and §§ 1351.151 to 1351.158, inclusive, are hereby amended, and renumbered, so that Price Schedule No. 53 shall read as follows:

The outbreak of war has disrupted trade in certain fats and oils with the result that normal price relationships are disturbed and inflationary price increases threaten to develop. Recent speculative activity has added to the danger of serious inflation and price spiraling and has made it necessary to issue immediately a Schedule establishing maximum prices. The general level of prices prevailing on October 1, 1941, is taken as the basis for the maximum prices established by this Schedule and adjustments upward have been made in order to achieve the normal relationships between fats and oils, and for other relevant factors. Certain fats and oils are covered in other Price Schedules and a few others are not covered.

Should unwarranted price rises occur with respect to these other fats and oils or at stages of distribution not covered by this Schedule, appropriate action will be taken by this office.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1351.151 *Maximum prices for fats and oils.* (a) On and after December 13, 1941, no person shall sell, offer to sell, deliver, or transfer fats or oils at prices higher than the maximum prices, except that contracts entered into prior to December 13, 1941, providing for a higher price than the maximum prices may be carried out at the contract price. The maximum prices shall include commissions and all other charges.

(b) (1) For any kind, grade or quality of fat or oil the maximum price shall be the highest price at which the seller sold such kind of fat or oil of the same grade and quality in a similar amount to a similar purchaser on October 1, 1941, for delivery within sixty days: *Provided,* That in determining the maximum prices for lard the following amounts shall be added to such October 1, 1941, price as follows:

(i) cash lard	1.895 cents
(ii) loose lard	.675 cents
(iii) leaf lard	.49 cents
(iv) steam rendered pork fat	.79 cents

(2) If the maximum price cannot be determined under paragraph (b) (1), the maximum price shall be the highest price at which the seller sold the same kind of fat or oil of a different grade or quality or in a different amount or to a different type of purchaser on October 1, 1941, for delivery within sixty days, making the necessary adjustments for differences in grade, quality, amount or type of purchaser in accordance with the seller's practice for determining price differentials existing on October 1, 1941: *Provided,* That in determining the maximum prices for lard the following amounts shall be added to such October 1, 1941, price as follows:

(i) cash lard	1.895 cents
(ii) loose lard	.675 cents
(iii) leaf lard	.49 cents
(iv) steam rendered pork fat	.79 cents

(3) If the maximum price cannot be determined under either paragraph (b) (1) or (b) (2), the maximum price shall be the price at which such kind of fat or oil of the same grade and quality in a similar amount to a similar purchaser was sold in the locality of the seller's shipping point on October 1, 1941, for delivery within sixty days: *Provided,* That in determining the maximum prices for lard the following amounts shall be added to such October 1, 1941, price as follows:

(i) cash lard	1.895 cents
(ii) loose lard	.675 cents
(iii) leaf lard	.49 cents
(iv) steam rendered pork fat	.79 cents

(4) If the maximum price cannot be determined under paragraph (b) (1), (b) (2), or (b) (3), the maximum price shall be the price at which such kind of fat or oil of the same grade and quality in a similar amount to a similar purchaser was sold in the nearest market in which such sale was made, making adjustments for the customary differential between the price in such market and the price in the locality of the seller's shipping point: *Provided,* That in determining the maximum prices for lard the following amounts shall be added to such October 1, 1941, price as follows:

(i) cash lard	1.895 cents
(ii) loose lard	.675 cents
(iii) leaf lard	.49 cents
(iv) steam rendered pork fat	.79 cents

(5) If the maximum price determined under the above paragraphs is less than 111 per cent of the price at which the same kind of fat or oil of the same grade and quality was sold by the seller, or was sold in the locality of the seller's shipping point, or in the nearest market, as the case may be, in a similar amount and to a similar purchaser on November 26, 1941, for delivery within sixty days, the maximum price shall be 11 per cent of such November 26 price.

(c) The above prices shall be the maximum prices for all transactions except for cottonseed oil futures contracts traded on the New York Produce Exchange and on the New Orleans Cotton Exchange and lard futures contracts traded on the Chicago Board of Trade. For such contracts the maximum prices on each exchange shall be the closing bid prices on such exchanges as of October 1, 1941. The maximum prices for futures contracts for months, if any, after September 1942, shall not exceed the futures price for September 1942. The maximum prices for futures contracts, if any, traded in months currently inactive shall not exceed the maximum prices for the last active preceding month.

(d) The maximum prices for both domestic and imported fats and oils determined under paragraph (b) shall include at least the same absorption of transportation and other charges as were or would have been absorbed by the seller on comparable shipments to the same place of destination on October 1, 1941.

(e) The maximum prices established by this Schedule for fats and oils shipped into or out of the United States by ocean transportation shall include the charges prevailing on October 1, 1941, for freight, war risk insurance, and marine insurance connected with such transportation.

Increases in such charges may be added only if such charges have been actually

[1] 6 F.R. 6409; 7 F.R. 81.

incurred by the seller on such sale. Decreases in such charges shall be subtracted from the maximum prices established by this Schedule.*

*§§ 1351.151 to 1351.158, inclusive, issued pursuant to the authority contained in Executive Orders Nos. 8734, 8875, 6 F. R. 1917, 4483.

§ 1351.151a *Exempt sales.* Sales of fats and oils products in the finished form, sales of refined fats and oils (except cocoanut oil) through wholesale and retail channels and directly to the baking, restaurant, hotel and other cooking trades, and sales of lards destined for human consumption without further processing are exempt from the operation of this Schedule.*

§ 1351.152 *Less than maximum prices.* Lower prices than the maximum prices established by this Schedule may be charged, demanded, paid, or offered.*

§ 1351.153 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery, or transfer of fats or oils, or by way of premium, commission, service, transportation or other charge, or by any other trade understanding, or by making the discounts given or other terms and conditions of sale more onerous to the purchaser than those available or in effect on October 1, 1941, or by any other means.*

§ 1351.154 *Records and reports.* Every person making any sale of fats or oils on and after December 13, 1941, except sales exempted under § 1351.151a, shall keep for inspection by the Office of Price Administration for a period of not less than one year complete and accurate records of each such sale, including the date thereof, the name of the purchaser, the price paid or received, and the grade, quality, and amount sold.

Every person affected by this Schedule shall submit such reports to the Office of Price Administration as it may from time to time require.*

§ 1351.155 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government both State and Federal, are fully exerted in order to protect the public interest and the interest of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county, and local governments by calling to the attention of the proper authorities failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits and (d) that the procurement services of the Government are requested to refrain from selling to, or purchasing from, those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand, or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation, or manipulation of prices of fats and oils, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1351.156 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof, or exception therefrom: *Provided,* That no applications under this section will be considered unless filed by persons complying with this Schedule.*

§ 1351.157 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity.

(b) "Fats and oils" means all of the raw, crude, and refined fats and oils, their by-products, and derivatives, and greases, except linseed oil, peanut oil, soy bean oil, "essential" oils, mineral oils, butter, and cocoa butter.

(c) "Fats and oils products in the finished form" means those products the whole or substantial part of which are manufactured from fats or oils, which are sold for use or consumption without further processing and the manufacturing process of which includes more than filtering, refining, or deodorizing, or splitting, or dividing into component parts, for example, shortening, soap, paint, margarine, salad dressing, and mayonnaise.

(d) "Refined fats and oils" means those fats and oils which have been cleaned, deodorized, or purified by settling, straining, filtering, distilling, treating with chemicals, or by any other means, and which at the conclusion of the refining process do not contain any added substance other than is necessary as a preservative, for example, margarine oil, salad oil, prime summer yellow, and/or bleachable cottonseed oil, oleo oil, and oils used for the technical and protective coating trades.

(e) In the phrase, "similar amount to a similar purchaser," the word "similar" means that amount and that type of purchaser with respect to which the same price did apply or would have applied under the seller's trade practices on October 1, 1941.*

§ 1351.158 *Effective date of this Schedule.* This Schedule shall become effective on December 13, 1941.*

Issued this 3d day of February 1942. This Amendment No. 2, amending the preamble and amending and renumbering §§ 1351.151 to 1351.158, inclusive, shall become effective the 4th day of February 1942.

PART 1351—FOODS AND FOOD PRODUCTS

PRICE SCHEDULE NO. 91—TEA

Wholesale prices of tea, which had remained fairly stable during the four months previous to the outbreak of war on December 7, 1941, have increased sharply since that date. This increase has occurred in spite of substantial stocks of tea in the United States and continued large imports after the outbreak of war. The primary cause of the price rise has been a speculative markup of inventories by importers and brokers in anticipation of a shortage of shipping space available for tea. Studies made by this Office show that the prices prevailing from October 1 to October 15, 1941, are fair and equitable to producers and consumers and, in view of the actual cost of tea on hand in this country, form a satisfactory basis for trading. The establishment of maximum prices at this level will, therefore, remove unfair speculative profits, achieve price stability, and prevent further unwarranted price increases.

Should unwarranted price rises occur at stages of distribution not covered by this Schedule, appropriate action will be taken by this Office.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1351.251 *Maximum prices for tea.* On and after February 3, 1942, regardless of the terms of any contract of sale or purchase or other commitment, except as provided in Section 1351.254 hereof, no person shall sell, offer to sell, deliver, or transfer tea, and no person shall buy, offer to buy, or accept delivery of tea at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1351.261.*

*§§ 1351.251 to 1351.261, inclusive, issued pursuant to authority contained in Executive Orders Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1351.252 *Exempt sales.* Sales at retail, sales of less than chest lots, and sales of tea, blended or unblended, in one pound or smaller packages, shall be excepted from the operation of this Schedule.*

§ 1351.253 *Less than maximum prices.* Lower prices than the maximum prices established by this Schedule may be charged, demanded, paid or offered.*

§ 1351.254 *Permission to carry out contracts entered into prior to February 3, 1942.* Any person who, prior to February 3, 1942, has entered into a contract of sale or other firm commitment calling for the delivery or transfer after that date, of tea, at prices higher than the maximum prices established by this Schedule, may make application in a sworn statement to the Office of Price Administration for permission to deliver such tea at its actual cost. Such statement shall certify (a) the name and address of the buyer and seller; (b) the quantity, type and grade of tea involved; (c) the cost of that tea to the applicant; (d) the price contracted for with the buyer; and (e) the delivery date provided for in the contract. Permission will be

granted only when necessary to protect the applicant against loss in the disposition of inventory acquired prior to February 3, 1942 at prices higher than the established maximum prices and held by the applicant on that date. Such application must be filed with the Office of Price Administration on or before February 17, 1942. No permission will be granted, in any case, to make delivery of tea on or after April 1, 1942 at prices higher than the established maximum prices.*

§ 1351.255 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery, or transfer of tea, or by way of premium, commission, service, transportation or other charge, or by any other trade understanding, or by making the discounts given or other terms and conditions of sale more onerous to the purchaser than those available or in effect on October 1, 1941, or by any other means.*

§ 1351.256 *Records and reports.* (a) All persons who have received deliveries of tea under contracts of sale entered into after October 15, 1941, at prices higher than the maximum prices established by this Schedule, shall report the quantity and cost of such receipts to the Office of Price Administration on or before February 24, 1942.

(b) Every person making purchases or sales of tea on and after February 3, 1942 shall keep for inspection by the Office of Price Administration for a period of not less than one year complete and accurate records thereof, including the name of the purchaser, the date of the contract, the price paid or received, and the type, grade, quality, and amount sold.

(c) Every person affected by this Schedule shall submit such reports to the Office of Price Administration as it may from time to time require.*

§ 1351.257 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof, or exception therefrom: *Provided*, That no applications under this section will be considered unless filed by persons complying with this Schedule.*

§ 1351.258 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government both State and Federal, are fully exerted in order to protect the public interest and the interest of those persons who comply with this schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county, and local governments by calling to the attention of the proper authorities failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits; and (d) that the procurement services of the Government are requested to refrain from selling to, or purchasing from, those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand, or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation, or manipulation of prices of tea, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1351.259 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof, or exception therefrom: *Provided*, That no applications under this section will be considered unless filed by persons complying with this Schedule.*

§ 1351.259 *Definitions.* When used in this Schedule the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity;

(b) "Sales at retail" means sales to the ultimate consumer: *Provided*, That no packer, blender, purchaser for resale, or commercial user shall be deemed to be an ultimate consumer.

(c) "Cost of putting the tea into the warehouse" includes (1) "labor in and out" and (2) warehouse storage charges for "first month."*

§ 1351.260 *Effective date of the Schedule.* This Schedule shall become effective on February 3, 1942.*

§ 1351.261 *Appendix A, Maximum prices for tea.* (a) The maximum prices shall include all commissions and all other charges except that increases in the charges prevailing prior to the opening of business on December 8, 1941, for ocean freight, war risk insurance, and marine insurance may be added to the maximum prices if such charges have been actually incurred by the seller on such sale. Decreases in said charges prevailing prior to the opening of business on December 8, 1941, shall be subtracted from the maximum prices.

(b) The maximum prices for tea shall be those listed below. All maximum prices are subject to three per cent discount for payment within thirty days.

The maximum prices for tea imported from any other country or for grades of better or inferior quality not named shall be the prices at which sales of those grades were made in New York on October 15, 1941, or in the event no such sale was made on that date, the prices at which sales of the corresponding grades were last made prior to October 15, 1941, in that city.

(c) The maximum prices quoted above are ex warehouse New York City. The maximum prices ex warehouse any other port of entry shall be determined by adding to or subtracting from the New York City price the difference between the actual cost of ocean freight, war risk insurance, and marine insurance from the port of origin to New York City and the actual cost of ocean freight, war risk insurance, and marine insurance from the port of origin to such other port of entry.

(d) For any tea sold ex dock rather than ex warehouse New York City or any other port of entry, the cost of "putting the tea into the warehouse" as defined in § 1351.259 shall be subtracted from the ex warehouse price by the sellers.

(e) The delivered price for tea shall in no case exceed the maximum prices specified above plus actual transportation charges incurred from the dock or warehouse at New York City or other port of entry to the place of destination.*

PART 1351—FOODS AND FOOD PRODUCTS

PRICE SCHEDULE NO. 92—SOY BEAN AND PEANUT OILS

The outbreak of war has led to sharp increases in the prices of soy bean and peanut oils. The recent heavy buying movement has added to the danger of inflationary price spiralling and makes it necessary that steps be taken to control prices of these important oils. The prices of soy bean oil specified herein are based on levels prevailing on October 1, 1941, with upward adjustment to conform with prices of competing oils and for other relevant factors. Peanut oil prices are based on levels prevailing October 1, 1941.

Should unwarranted price rises occur at stages of distribution not covered by this Schedule appropriate action will be taken by this Office. Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1351.301 *Maximum prices for soy bean and peanut oils.* (a) On and after February 4, 1942, no person shall sell, offer to sell, deliver, or transfer soy bean or peanut oils at prices higher than the maximum prices, except that contracts entered into prior to December 13, 1941 providing for a higher price than the maximum prices may be carried out at the contract price. The maximum prices shall include commissions and all other charges.

(b) (1) For any kind, grade, or quality of soy bean or peanut oil the maximum price shall be the highest price at which the seller sold such kind of soy bean or peanut oil of the same grade and quality in a similar amount to a similar purchaser on October 1, 1941, for delivery within sixty days: *Provided*, That in determining the maximum prices for soy bean oil three-fourths of one cent per pound shall be added to such October 1, 1941 price.

(2) If the maximum price cannot be determined under paragraph (b) (1), the maximum price shall be the highest price at which the seller sold the same kind of soy bean or peanut oil of a different grade or quality or in a different amount or to a different type of purchaser on October 1, 1941, for delivery within sixty days, making the necessary adjustments for differences in grade, quality, amount or type of purchaser in accordance with the seller's practice for determining price differentials existing on October 1, 1941: *Provided*, That in determining the maximum price for soy bean oil three-fourths of one cent per pound shall be added to such October 1, 1941 price.

(3) If the maximum price cannot be determined under either paragraph (b) (1) or (b) (2), the maximum price shall be the price at which such kind of soy bean or peanut oil of the same grade or quality in a similar amount to a similar purchaser was sold in the locality of the seller's shipping point on October 1, 1941, for delivery within sixty days: *Provided*, That in determining the maximum prices for soy bean oil three-fourths of one cent per pound shall be added to such October 1, 1941 price.

(4) If the maximum price cannot be determined under paragraph (b) (1), (b) (2) or (b) (3), the maximum price shall be the price at which such kind of soy bean or peanut oil of the same grade and quality in a similar amount to a similar purchaser was sold in the nearest market in which such sale was made, making adjustments for the customary differential between the price in such market and the price in the locality of the seller's shipping point.

(5) If the maximum price determined under the above subparagraphs is less than 111 percent of the price at which the same kind of soy bean or peanut oil of the same grade and quality was sold by the seller or was sold in the locality of the seller's shipping point, or in the nearest market as the case may be, in a similar amount and to a similar purchaser on November 26, 1941, for delivery within sixty days, the maximum price shall be 111 percent of such November 26 price.

(c) The maximum price for both domestic and imported soy bean and peanut oils determined under paragraph (b) shall include at least the same absorption of transportation and other charges as were or would have been absorbed by the seller on comparable shipments to the same place of destination on October 1, 1941.

(d) The maximum prices established by this Schedule for soy bean and peanut oils shipped into or out of the United States by ocean transportation shall include the charges prevailing on October 1, 1941, for freight, war risk insurance, and marine insurance connected with such transportation. Increases in such charges may be added only if such charges have been actually incurred by the seller on such sales. Decreases in such charges shall be subtracted from the maximum prices established by this Schedule.*

*§§ 1351.301 to 1351.309, inclusive, issued pursuant to the authority contained in Executive Orders Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1351.302 *Exempt sales.* Sales of refined soy bean or peanut oils through wholesale and retail channels and directly to the baking, restaurant, hotel, and other cooking trades are exempt from the operation of this Schedule.*

§ 1351.303 *Less than maximum prices.* Lower prices than the maximum prices established by this Schedule may be charged, demanded, paid or offered.*

§ 1351.304 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery, or transfer of soy bean or peanut oils, or by way of premium, commission, service, transportation or other charge, or by any other trade understanding, or by making the discounts given or other terms and conditions of sale more onerous to the purchaser than those available or in effect on October 1, 1941, or by any other means.*

§ 1351.305 *Records and reports.* Every person making any sale of soy bean or peanut oils on and after December 13, 1941, except sales exempted under § 1351.151a, shall keep for inspection by the Office of Price Administration for a period of not less than one year complete and accurate records of each such sale, including the date thereof, the name of the purchaser, the price paid or received, and the grade, quality and amount sold.

Every person affected by this Schedule shall submit such reports to the Office of Price Administration as it may from time to time require.*

§ 1351.306 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government both State and Federal, are fully exerted in order to protect the public interest and the interest of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county, and local governments by calling to the attention of the proper authorities failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits; and (d) that the procurement services of the Government are requested to refrain from selling to, or purchasing from, those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand, or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation, or manipulation of prices of soy bean or peanut oils, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1351.307 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof, or exception therefrom: *Provided*, That no applications under this section will be considered unless filed by persons complying with this Schedule.*

§ 1351.308 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity.

(b) "Soybean and peanut oils" means crude and refined oils, their by-products and derivatives;

(c) "Refined soybean or peanut oils" means those soybean and peanut oils which have been cleaned, deodorized, or purified by settling, straining, filtering, distilling, treating with chemicals, or by any other means, and which at the conclusion of the refining process do not contain any added substance other than is necessary as a preservative, for example, salad oil, and oils used for the technical and protective coating trades.

(d) In the phrase "similar amount to a similar purchaser," the word "similar" means that amount and that type of purchaser with respect to which the same price did apply or would have applied under the seller's trade practices on October 1, 1941.*

§ 1351.309 *Effective date of the Schedule.* This Schedule shall become effective on February 4, 1942.*

Issued this 3d day of February 1942.

PART 1312—LUMBER AND LUMBER PRODUCTS

PRICE SCHEDULE NO. 94—WESTERN PINE LUMBER

This Schedule brings under a price ceiling Western pine lumber, the largest remaining section of the softwood lumber industry not previously regulated by a Price Schedule. It covers ponderosa pine, Idaho white pine, and sugar pine, which species account for approximately 21% of the total lumber production in the United States. Ponderosa, Idaho white, and sugar pine lumber are used in the manufacture of pine millwork and boxes, and for interior and exterior con-

struction purposes, with a considerable degree of interchangeability. The lower grades of ponderosa and sugar pine are particularly well-adapted to the box market. In addition to the civilian demand for these woods both for building construction and for container purposes, particularly containers for agricultural products and canned goods, government buying, for use in cantonment construction purposes, as well as for boxes for armament and other war purposes, is becoming an increasingly important factor. A study of the Western pine industry reveals that the increase in prices has markedly outstripped cost advances, and that a ceiling is necessary in order to halt the upward trend in prices. The prices set herein generally follow the levels existing during the period October 1–15, 1941, and have been found to be high enough to bring out the full volume of production called for by present needs. However, the schedule is subject to revision if further study of the profits in this industry shows the need for a decrease or other change in the schedule prices.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1312.251 *Maximum prices for Western pine lumber.* On and after February 15, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver, or transfer, for domestic or export use, any Western pine lumber, where the shipment originates at the mill rather than at a distribution yard, at prices higher than the maximum prices set forth in Appendices A, B and C hereof, incorporated herein by §§ 1312.260, 1312.261, and 1312.262 respectively: *Provided*, That in the case of retail sales as defined in § 1312.257 (f), where the shipment originates at a mill rather than at a distribution yard, a mark-up of not more than $3.50 per 1,000 feet board measure may be added to the maximum prices set forth herein.*

*§§ 1312.251 to 1312.262, inclusive, issued pursuant to authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1312.252 *Less than maximum prices.* Lower prices than those set forth in Appendices A, B and C may be charged, demanded, paid, or offered.*

§ 1312.253 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery or transfer of Western pine lumber, alone or in conjunction with any other material; or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege; or by tying-agreement, or other trade understanding; or by making terms or conditions of sale more onerous than those in effect or available to the purchaser on October 1, 1941, or by unnecessarily routing lumber through a distribution yard; or by unnecessarily refusing to ship except in specified lengths or widths, or under other circumstances entitling the seller to a premium; or by charges for delivery which exceed the actual cost to the seller of such delivery except as provided in § 1312.258 hereof; or by falsely or wrongly grading or invoicing lumber; or by grading as a special grade lumber which can be graded as a standard grade; or by any other means.*

§ 1312.254 *Records and reports.* Every person who, during any calendar month, shall sell, deliver or transfer 24,000 pounds or more of Western pine lumber for shipment originating at the mill, shall keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records of every sale, delivery or transfer of such lumber made during such month, showing the date thereof, the name and address of the buyer, the prices, and the quantities and grades sold.

Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may from time to time require.*

§ 1312.255 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and the public are fully informed thereof, (b) that the powers of the Government are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule, and (c) that the procurement services of the Government are requested to refrain from purchasing Western pine lumber from those persons who fail to comply with this Schedule.

Persons who have evidence of any offer, receipt, demand, or payment of prices higher than the maximum prices, or of any evasion or effort to evade provisions hereof, or of speculation, or of manipulation of prices of Western pine lumber, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1312.256 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That no application under this section will be considered unless filed by persons complying with this Schedule.*

§ 1312.257 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, association, partnership, corporation, or other business entity. The term includes, without restricting the generality of the foregoing, any mill operator, manufacturer, commission salesman, manufacturer's representative, concentration yard operator, wholesaler, wholesale distributor, wholesaler's agent, or retailer.

(b) "Western pine" includes ponderosa pine (pinus ponderosa), Idaho white pine (pinus monticola), and sugar pine (pinus lambertiana) produced in the states of Oregon, Washington, Idaho, California, and Montana.

(c) "Mill" means a manufacturing plant, concentration yard, or other establishment which processes, by sawing, or by planing or other comparable method at least 25 per cent of the volume of Western pine logs or lumber purchased or received by it.

(d) "Distribution yard" means a wholesale or retail lumber yard which purchases or receives Western pine logs or lumber from a producer, a mill, or another distribution yard for purposes of unloading, sorting, and resale or redistribution, which regularly maintains a stock of lumber, and which processes, by sawing, or by planing or other comparable method, less than 25 per cent of the volume of such logs or lumber so purchased or received by it.

(e) "Volume" means the board foot volume of lumber processed from logs, processed from other lumber, or sold, as the case may be, within six months immediately prior to the transaction subject to this Schedule.

(f) "Retail sale" means a sale which satisfies all of the following tests:

(1) It must be a sale of lumber to a consumer or contractor for use in building, construction, remodeling, repair, maintenance, or fabrication, and not for resale in substantially the same form.

(2) It includes only sales in less than carload quantities. Where shipment is by water or by truck the maximum retail sale quantity shall be 20,000 feet board measure. For the purpose of this paragraph the size of the sale is determined by the size of the order.

(3) The sale must be accompanied by the following services: delivery to the job site or other point specified by the purchaser and at such times and in such quantities as the purchaser specifies; tallying and checking; the privilege of exchanging goods and returning unused material; and the readiness and ability of the seller to replace deficiencies and adjust complaints from stocks kept on hand for such purposes.

(g) "Deliver" means to make physical transfer of lumber to the purchaser, or to a carrier, not owned or controlled by the seller, for carriage to the purchaser to whom the lumber has been previously sold.

(h) Grade terms used herein have the meaning set forth in the Standard Grading Rules issued by the Western Pine Association, effective April 1, 1939.*

§ 1312.258 *Delivered prices.* A delivered price in excess of the maximum f. o. b. mill prices set forth in Appendices A, B, and C may be charged, consisting of such maximum prices plus actual transportation costs paid by the seller. However, for the purposes of this section, the following two practices shall not be deemed a deviation from the use of actual transportation costs:

(1) the charging of a sum equivalent to the one-quarter of a dollar nearest to such actual transportation costs; and

(2) the computation of transportation costs on the basis of a system of estimated average weights established by the seller, and adhered to by him during the period October 1 to October 15, 1941: *Provided*, That a copy of such system of estimated

average weights has been filed with the Office of Price Administration either before the use of such system in a transaction subject to this Schedule, or within thirty days of the effective date of this Schedule.*

§ 1312.259 *Effective date of the Schedule.* This Schedule (§§ 1312.251 to 1312.262, inclusive) shall become effective February 15, 1942.*

§ 1312.260 *Appendix A; maximum prices for ponderosa pine lumber.* (a) The maximum prices f. o. b. mill per 1000 feet board measure, surfaced, air dried or kiln dried, in mixed or straight load shipments, shall be as follows:

PART 1348—MERCURY

PRICE SCHEDULE NO. 93, MERCURY

Mercury is a material strategic to the national defense and essential for important civilian purposes. The price of mercury has risen to excessive and unwarranted levels, resulting in increased prices for other commodities of which mercury is a component. After full investigation and after consultation with representatives of the industry it has been determined that the establishment of maximum prices for mercury is necessary in the interest of the national defense and the public welfare.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1348.1 *Maximum prices for mercury.* On and after February 4, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer mercury, and no person shall buy, offer to buy, or accept delivery of mercury, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1348.9.*

*§§ 1348.1 to 1348.9, inclusive, issued pursuant to authority contained in Executive Orders No. 8734, 8875; 6 F.R. 1917, 4483.

§ 1348.2 *Less than maximum prices.* Lower prices than those set forth in Appendix A hereof may be charged, demanded, paid or offered.*

§ 1348.3 *Evasion.* The price limitations set forth in this Schedule shall not be evaded either by direct or indirect methods in connection with a purchase, sale, delivery, or transfer of mercury, alone or in conjunction with any other material, or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying-agreement or other trade understanding, or otherwise.*

§ 1348.4 *Records and reports.* (a) On and after February 4, 1942, every person making purchases or sales of mercury or acting as a broker or other intermediary in the purchase or sale of mercury shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of (1) each such purchase or sale, showing the name and address of the other party or parties to the transaction, the date thereof, the quantity, the price, and other terms of sale and shipment and (2) as of the close of each month, the quantity of mercury (i) on hand, (ii) on purchase order, and (iii) committed to be sold.

(b) Every person affected by this Schedule shall submit such reports to the Office of Price Administration as it may from time to time require.*

§ 1348.5 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will make every effort to assure (a) that the Congress and the public are fully informed thereof (b) that the powers of Government, both state and federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule, (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county, and local governments by calling to the attention of the proper authorities, failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits; and (d) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand, or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, are urged to communicate with the Office of Price Administration.*

§ 1348.6 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That no applications under this section will be considered unless filed by persons complying with this Schedule.*

§ 1348.7 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity.

(b) "Mercury" includes prime virgin mercury, and all other kinds and grades of mercury.*

§ 1348.8 *Effective date.* The Schedule shall become effective February 4, 1942.*

Issued this 3d day of February 1942.

LEON HENDERSON,
Administrator.

§ 1348.9 *Appendix A; maximum prices for prime virgin mercury*[1]—(a) *Maximum base prices.* (1) The maximum base price for prime virgin mercury produced in California, Oregon, Washington, Idaho, Utah, Nevada, or Arizona shall be $191.00 per 76-pound flask, f. o. b. point of shipment.

(2) The maximum base price for prime virgin mercury produced outside the continental United States and Mexico, and entering the United States through Pacific Coast ports of entry shall be $191.00 per 76-pound flask, f. o. b. port of entry.

(3) The maximum base price for prime virgin mercury produced in Texas and Arkansas shall be $193.00 per 76-pound flask, f. o. b. point of shipment.

(4) The maximum base price for prime virgin mercury imported from Mexico shall be $193.00 per 76-pound flask, f. o. b. the freight station in the United States at or nearest to the point on the boundary at which the shipment enters the United States, duty, if any, included.

(b) *Sales by dealers.* A dealer, regularly engaged in the business of buying and selling prime virgin mercury on his own behalf, may sell such mercury as he buys and to which he acquires title, at not more than a price equal to the applicable maximum base price set forth above, *plus* a premium of 2% thereof, *plus* the actual transportation charges paid or incurred by him: *Provided*, That the applicable maximum base price, the premium, and the transportation charges are shown separately in invoicing and billing.

(c) *Commissions for brokers and agents.* In the event that a consumer of prime virgin mercury shall use or employ a broker or agent to purchase such mercury for the consumer's use, the consumer may pay for such mercury a sum not exceeding the applicable maximum base price set forth above, plus a commission of not more than 1% of such maximum price. The commission shall be payable only if (a) the commission is shown as a separate charge in invoicing and billing, and (b) the agent or broker does not split or divide the commission allowed him by a consumer with the seller or sellers of the mercury.

[1] 6 F.R. 2909, 4786, 5428, 5622.

[1] The maximum prices herein established are for prime virgin mercury. All other kinds and grades of mercury shall be sold and bought at their normal differentials from such maximum prices.

PART 1401—SYNTHETIC TEXTILE PRODUCTS

PRICE SCHEDULE NO. 95—NYLON HOSE

Nylon hose constitutes an important commodity of civilian consumption. With the curtailment of the supply of silk and recent reductions in the supply of nylon yarn, prices of nylon hose have undergone an extremely rapid increase. This increase has not been occasioned by any comparable rise in the cost of production and is inflationary in character. Because of the scarcity of nylon hose, prices have been bid up and there is ample evidence that their present level reflects widespread profiteering. Further unjustified price advances are now threatened unless remedial action is taken.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1401.1 *Maximum prices for nylon hose.* (a) On or after February 5, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer nylon hose at prices higher than the maximum prices established herein.

(b) (1) The maximum price shall be the highest price contracted for or received by the seller for the sale or delivery, during the period between October 1 and October 15, 1941, of nylon hose of the same type, style, construction and comparable quantity to a purchaser of the same general class.

(2) If during such period, no sale or delivery of nylon hose of a particular type, style, or construction was made, the maximum price therefor shall be a price in line with the maximum price applicable to nylon hose of the nearest comparable type, style and construction sold or delivered by the seller during such period to a purchaser of the same general class.

(c) Sales at retail are excepted from the operation of this Schedule.

§§ 1401.1 to 1401.9, inclusive, issued pursuant to the authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1401.2 *Less than maximum prices.* Lower prices than the maximum prices established by this Schedule may be charged, demanded, paid or offered.*

§ 1401.3 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery, or transfer of nylon hose, alone or in conjunction with any other material or commodity, or by way of any premium, commission, service, transportation, or other charge, or by any tying-agreement or other trade understanding or practice, or by making the discounts given or other terms or conditions of sale more onerous to the purchaser than those available or in effect on October 15, 1941, or by any other means.*

§ 1401.4 *Records and reports.* Every manufacturer or wholesaler making sales of nylon hose after February 4, 1942, shall keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records of (a) each such sale, showing the date thereof, the name and address of the buyer, the price received, and the quantity in dozens of pairs of nylon hose of each type, style and construction sold; and (b) the quantity in dozens of pairs of nylon hose of each type style and construction (1) on hand and (2) on order, as of the close of each calendar month.

Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time require.*

§ 1401.5 *Details required in contract of sale and invoice.* (a) Every manufacturer or wholesaler shall, with respect to each sale of nylon hose, deliver to the purchaser a contract of sale which shall contain, in addition to the terms thereof, (1) the date on which the sale or contract of sale was made; (2) a full description of the nylon hose sold, including (i) the type, style and construction; (ii) the quantity in dozens of pairs of each type, style and construction; and (3) the discount, if any, allowed for prompt payment. Every such seller of nylon hose shall, with respect to each delivery thereof, transmit to the purchaser an invoice or similar document which shall either contain the information required by this paragraph or make reference to the contract in which such information is set forth.

§ 1401.6 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will make every effort to assure (a) that the Congress and the public are fully informed thereof, (b) that the powers of the Government, both state and federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule, and (c) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation or manipulation of prices of nylon hose or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1401.7 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That no application under this section will be considered by the Office of Price Administration unless filed by persons complying with this Schedule.*

§ 1401.8 *Definitions.* When used in this schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity;

(b) "Sale at retail" means sale to the ultimate consumer or sale to another for use by the ultimate consumer without further resale: *Provided*, That no manufacturer, processor, or purchaser for resale shall be deemed to be an ultimate consumer;

(c) "Nylon hose" means hose of the following types, styles and constructions:

Type	Style	Gauge	Construction[1]	
			Denier	Needle count
All nylon[2]	Full fashioned, circular knit	Up to and including 54	20, 30, or 40	All.
Nylon leg[3]	Full fashioned, circular knit	Up to and including 54	20, 30, or 40	All.

[1] Nonrun, lace, mesh and other special constructions of the above types and styles are included in this Schedule.
[2] This type includes only hose knitted entirely of nylon.
[3] This type includes hose, only the leg of which is knitted of nylon, the foot or welt being made of some other material.

§ 1401.9 *Effective date of the Schedule.* This Schedule shall become effective February 5, 1942.*

Issued this 4th day of February 1942.

PART 1348—MERCURY

PRICE SCHEDULE NO. 93, MERCURY

Mercury is a material strategic to the national defense and essential for important civilian purposes. The price of mercury has risen to excessive and unwarranted levels, resulting in increased prices for other commodities of which mercury is a component. After full investigation and after consultation with representatives of the industry it has been determined that the establishment of maximum prices for mercury is necessary in the interest of the national defense and the public welfare.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1348.1 *Maximum prices for mercury.* On and after February 4, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer mercury, and no person shall buy, offer to buy, receive or accept delivery of mercury, at prices higher than those prescribed by this Schedule, unless such higher prices were lawfully charged, demanded, paid or offered under Appendix A hereof may be charged, demanded, paid or offered.*

§ 1348.2 *Evasion.* The price limitations set forth in this Schedule shall not be evaded either by direct or indirect methods in connection with a purchase, sale, delivery, or transfer of mercury, alone or in conjunction with any other material, or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying-agreement or other trade understanding, or otherwise.*

§ 1348.4 *Records and reports.* (a) On and after February 4, 1942, every person making purchases or sales of mercury or acting as a broker or other intermediary in the purchase or sale of mercury shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of (1) each such purchase or sale, showing the name and address of the other party or parties to the transaction, the date thereof, the quantity, the price, and other terms of sale and shipment and (2) as of the close of each month, the quantity of mercury (i) on hand, (ii) on purchase order, and (iii) committed to be sold.

(b) Every person affected by this Schedule shall submit such reports to the Office of Price Administration as it may from time to time require.*

§ 1348.5 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will make every effort to assure (a) that the Congress and the public are fully informed thereof (b) that the powers of Government, both state and federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule, (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county, and local governments by calling to the attention of the proper authorities, failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits; and (d) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand, or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, are urged to communicate with the Office of Price

(a) "Person" means an individual, partnership, association, corporation, or other business entity.

(b) "Mercury" includes prime virgin mercury, and all other kinds and grades of mercury.*

§ 1348.8 *Effective date.* The Schedule shall become effective February 4, 1942.*

Issued this 3d day of February 1942.

LEON HENDERSON,
Administrator.

§ 1348.9 *Appendix A; maximum prices for prime virgin mercury*[1]—(a) *Maximum base prices.* (1) The maximum base price for prime virgin mercury produced in California, Oregon, Washington, Idaho, Utah, Nevada, or Arizona shall be $191.00 per 76-pound flask, f. o. b. point of shipment.

(2) The maximum base price for prime virgin mercury produced outside the continental United States and Mexico, and entering the United States through Pacific Coast ports of entry shall be $191.00 per 76-pound flask, f. o. b. port of entry.

(3) The maximum base price for prime virgin mercury produced in Texas and Arkansas shall be $193.00 per 76-pound flask, f. o. b. point of shipment.

(4) The maximum base price for prime virgin mercury imported from Mexico shall be $193.00 per 76-pound flask, f. o. b. the freight station in the United States at or nearest to the point on the boundary at which the shipment enters the United States, duty, if any, included.

(b) *Sales by dealers.* A dealer, regularly engaged in the business of buying and selling prime virgin mercury on his own behalf, may sell such mercury as he buys and to which he acquires title, at not more than a price equal to the applicable maximum base price set forth above, *plus* a premium of 2% thereof, *plus* the actual transportation charges paid or incurred by him: *Provided*, That the applicable maximum base price, the premium, and the transportation charges are shown separately in invoicing and billing.

(c) *Commissions for brokers and agents.* In the event that a consumer of prime virgin mercury shall use or employ a broker or agent to purchase such mercury for the consumer's use, the consumer may pay for such mercury a sum not exceeding the applicable maximum base price set forth above, plus a commission of not more than 1% of such maximum price. The commission shall be payable only if (a) the commission is shown as a separate charge in invoicing and billing, and (b) the agent or broker

compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said defendant and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Bituminous Coal Division at its Washington office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the defendant; and that any defendant failing to file an answer within such period, unless otherwise ordered, shall be deemed to have admitted the allegations of the complaint herein and to have consented to the entry of an appropriate order on the basis of the facts alleged.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

The matter concerned herewith is in regard to the complaint filed by said complainant, alleging willful violation by the above-named defendant of the Bituminous Coal Code or rules and regulations thereunder as follows:

(a) The defendant, Scott L. Rearick, Distant, Pennsylvania, whose code membership became effective as of November 18, 1938, operator of the Rearick Mine, Mine Index No. 1930, Subdistrict No. 1 of District No., 1, Armstrong County, Pennsylvania, sold and delivered at approximately $1.50 per net ton to the Pittsburg and Shawmut Coal Company, a registered distributor, Registration No. 7349, whose address is Kittanning, Pennsylvania, during December 1940 and January and February 1941, approximately 933 tons of run of mine coal produced at said mine. Said coal was classified as Size Group 3 and priced at $2.10 per net ton f. o. b. said mine as set forth in the Schedule of Effective Minimum Prices for District No. 1, For Truck Shipments. Said code member allowed Pittsburg and Shawmut Coal Company unauthorized excessive discounts in the form of commissions, deductions for reject coal, amounts for railroad car stop-over, railroad car transfer, cleaning and sizing charges upon the sale of said coal. This coal was purchased for resale, by said Pittsburg and Shawmut Coal Company and physically handled by said vendee. The "discounts" above-mentioned were paid contrary to the provisions of Rule 1 Section III of the Marketing Rules and Regulations and the above transactions constituted sales below the minimum price established for said mine and, therefore, in violation of section 4 Part II (e) of the Act and Part II (e) of the Code.

(b) The aforesaid defendant sold and delivered the above-mentioned coal in his own trucks or in trucks under his control to a railroad loading dock located at Colwell, Pennsylvania, situated on the Pittsburg and Shawmut Railroad, contrary to the provisions of Price Instruction No. 6 of the schedule referred to in (a) hereof as amended by Supplement No. 2 to said schedule in that said code member evaded and/or violated the price provisions of the Act through the use of transportation facilities through the absorption, directly or indirectly, of the transportation costs of said coal to said loading dock, which was located at a point other than the transportation facilities at the mine, without adding to the applicable minimum f.o.b. mine price provided in the schedule referred to herein, an amount at least equal, as nearly as practicable, to the actual transportation charges, handling charges, or incidental charges of whatsoever kind or character, from the transportation facilities at the mine to the point from which all such charges were assumed and directly paid by the purchaser in violation of section 4 Part II (g) of the Act and Part II (g) of the Code; or

The aforesaid defendant sold during the months of December 1940 and January and February 1941, approximately 933 net tons of run of mine coal produced at the aforesaid Rearick Mine, Mine Index No. 1930 to Pittsburg & Shawmut Coal Company for rail shipment and delivered said coal by truck to a ramp on a rail siding of said Freebrook Company, located at Colwell, Pennsylvania, at a price of approximately $1.50 per net ton, although at the time of said transactions no rail classifications or prices, temporary or final, had been established for the coal produced at the aforesaid mine. Said transactions thereby constituted violations of the Order of the Director dated October 9, 1940, in General Docket No. 19.

[Docket No. A-1014]

PETITION OF P. H. BURNELL, A CODE MEMBER, FOR THE ESTABLISHMENT OF A MINIMUM PRICE OF $2.00 PER TON FOR THE COALS IN SIZE GROUP 11 PRODUCED IN SUBDISTRICT 5 IN DISTRICT NO. 19, FOR RAIL SHIPMENTS

ORDER TERMINATING PROCEEDING

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, was filed with the Division by the above-named party in the above-entitled matter, wherein the petitioner requested the establishment of a minimum price of $2.00 per net ton for the coals in Size Group 11 produced in Subdistrict 5 in District No. 19 for rail shipments into all market areas.

The petition was deficient in that it failed to comply with certain provisions of the Rules and Regulations Governing Practice and Procedure before the Division in Proceedings Instituted Pursuant to section 4 II (d) of the Act. The petitioner was notified of such deficiency by letter mailed to him by the Director on September 4, 1941. No further communication in this docket has been received by the Division.

Moreover, the petitioner subsequently filed another petition with the Division in Docket No. A-1143, wherein he requested relief similar to that requested in the above-entitled matter. Pursuant to a Notice of and Order for Hearing dated January 19, 1942, a hearing was held in Docket No. A-1143 on January 28, 1942 in Cheyenne, Wyoming and the record in that proceeding is now receiving consideration.

It thus appears that the petitioner has no further interest in his original petition in this Docket No. A-1014 and that the issues sought to be presented and the request for relief made herein will be duly disposed of in Docket No. A-1143.

Now, therefore, it is ordered, That the above-entitled proceeding be, and it hereby is, terminated.

Dated: February 3, 1942.

IN THE MATTER OF NORRIS COAL COMPANY, A PARTNERSHIP, DEFENDANT

ORDER CANCELLING HEARING

The hearing in the above-entitled matter having been previously postponed by Order of the Director dated October 3, 1941, to a date and a hearing room to be thereafter designated; and

An Order directing the defendant to cease and desist from further violations of the Bituminous Coal Code having been entered in the above-entitled matter on February 3, 1942, pursuant to stipulation of the complainant and the defendant dated January 9, 1942;

Now, therefore, it is ordered, That the hearing in the above-entitled matter be and the same hereby is cancelled.

Dated: February 3, 1942.

[Docket No. 1736-FD]

IN THE MATTER OF NORRIS COAL COMPANY, A PARTNERSHIP, DEFENDANT.

CEASE AND DESIST ORDER

A complaint dated May 1, 1941, pursuant to the provisions of section 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, (the "Act"), having been duly filed on May 7, 1941, by the Bituminous Coal Producers Board for District No. 10, complainant, with the Bituminous Coal Division (the "Division"), alleging wilful violation by the defendant of the Bituminous Coal Code the ("Code"), and the effective minimum prices, as follows: by selling and delivering to Ray Minter, on or about February 18, 1941, 6 tons of mine run coal produced at its mine at $1.50 per ton f. o. b. the mine and selling and delivering as aforesaid 1.2 tons of such coal on or about February 20, 1941, at a price of $1.53 per ton f. o. b. the mine, the effective minimum prices for such coal being $1.80 per ton f. o. b. the mine; and

The said complaint herein and notice of and order for hearing thereon made July 28, 1941, having been duly served on the defendant on August 2, 1941; and

The defendant, having by stipulation made January 9, 1942, the original of which is on file with the Division, admitted the truth of the allegations of said complaint and consented to the making and entry of this Order; and

The defendant, having by said stipulation and in furtherance thereof, expressly waived (a) hearing on the complaint herein, (b) oral argument and the filing of brief before the Director, or other presiding officer, (c) preparation and submission of any report, findings of fact, or recommendations by the Director or other presiding officer, (d) the presentation of oral argument before the Director or other presiding officer, and (e) the preparation and submission of tentative findings of fact or proposed order of the Director:

Now therefore, Pursuant to the authority vested in the Director by section 4 II (j) of the Act authorizing him to adjust the complaints of violations and to compose the differences of the parties thereto:

It is hereby found That:

(a) on June 21, 1937, the defendant filed with the National Bituminous Coal Commission (the "Commission") its acceptance, dated June 18, 1937, of the Code; said acceptance was approved by the Commission to take effect as of June 21, 1937; the defendant has been since June 21, 1937, and is now a code member in District No. 10;

(b) the defendant was at the time of its acceptance of the Code, a partnership consisting of Louis Norris, Cline Norris and Charles Bowman;

(c) at the time of the violations hereinafter found and at all times subsequent thereto the Norris Coal Company, a partnership, consisted of the following members: Cline Norris, Louie Norris, Charles Bowman, and V. E. Turner;

(d) the defendant as such Code member on the dates referred to in paragraph (e) hereof operated and now operates the Norris Coal Co. Mine (Mine Index No. 1203), located in Williamson County, Illinois, in District No. 10; and

(e) the defendant wilfully violated the provisions of the Code, the Marketing Rules and Regulations, and the effective minimum prices established by the Division, by selling and delivering to Ray Minter, on or about February 18, 1941, approximately 6 tons of mine run coal, produced at its Norris Coal Co. Mine, located in Williamson County, Illinois, in District No. 10, at a price of $1.50 per ton f. o. b. the mine, and on or about February 20, 1941, approximately 1.2 tons of mine run coal produced at its aforesaid mine, at a price of $1.53 per ton f. o. b. the mine, whereas the effective minimum price established for such coal was and is $1.80 per net ton f. o. b. the mine.

Now therefore, based upon the above findings and the Defendant's above stipulation;

It is ordered, That Louie Norris, Cline Norris, Charles Bowman and V. E. Turner individually and as copartners doing business under the name and style of Norris Coal Company, and the representatives, agents, servants, employees and attorneys of them or any of them and all persons acting or claiming to act in their behalf or in behalf of any of them, cease and desist and they hereby are permanently enjoined and restrained from violating the Code, the Marketing Rules and Regulations and the effective minimum prices established by the Division.

[Docket No. A-1268]

PETITION OF THE MUSKINGUM COAL COMPANY, A CODE MEMBER IN DISTRICT NO. 4, FOR THE ESTABLISHMENT OF MINIMUM PRICES FOR CRUSHED COAL FROM ITS MINES FOR TRUCK SHIPMENTS (DURING EMERGENCY PERIODS) TO PHILO POWER PLANT, PHILO, OHIO, IN MARKET AREA 14

MEMORANDUM OPINION AND ORDER DENYING TEMPORARY RELIEF AND NOTICE OF AND ORDER FOR HEARING

A petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, was duly filed with this Division by The Muskingum Coal Company, a code member in District 4, requesting the establishment of minimum prices for crushed coals from the petitioner's mines in District No. 4 for truck shipments, during periods of emergency when the river becomes non-navigable due to ice conditions, to the Philo Power Plant, Philo, Ohio, in Market Area 14, equal to the effective minimum prices for crushed coals, in Size Group 12, for river shipments f. a. s. that plant.

A petition of intervention was filed by District Board 4.

Pursuant to § 301.106 of the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, and due notice thereof, an informal conference was held on January 19, 1942, at Washington, D. C. The petitioner and District Boards 4 and 6 appeared.

The petition sets forth that shipments of crushed coal made by the petitioner to the Philo Power Plant of the Ohio Power Company, the petitioner's only customer, are ordinarily made by river, but that when the river becomes frosen it is necessary that such shipments be made by truck. The petitioner, therefore, seeks the establishment of a price for crushed coal from the petitioner's mines for shipment by truck to the Philo Power Plant that will have the effect of establishing an f. o. b. destination price the same as that established for river shipment of crushed coal to that plant.

It appears that temporary relief was requested on the basis of an emergency condition due to the presence of ice in the river. At the informal conference the petitioner stated that during the interim between the date when the petition was filed and the date of the conference, that emergency condition had ceased to exist and that the petitioner was able to resume, and had resumed shipments by river. I find, therefore, that no occasion presently exists to warrant or require the granting of the temporary relief requested. The petitioner, believing that a recurrence of emergency conditions of the river is a strong probability, requested that the informal conference be recessed subject to being reconvened should a future emergency arise. I do not deem it advisable to recess the informal conference in these circumstances. In the event that such a new emergency should arise, a new application for temporary relief filed by the petitioner will receive prompt consideration.

Now, therefore, it is ordered, That the temporary relief requested by the petitioner be and it hereby is denied.

It is further ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on March 3, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in

Room 503 will advise as to the room where such hearing will be held.

It is further ordered, That W. A. Shipman or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before February 26, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein may concern in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitioner of intervenors or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of The Muskingum Coal Company, a code member in District 4, for the establishment of minimum prices for crushed coals from the Muskingum Coal Company #3 Jones & #3 Block, Muskingum-Jones #6, Muskingum-Jones #7, and Jones Motor #3 Mines, Mine Index Nos. 160, 206, 207, and 2068, respectively, for truck shipments, during periods of emergency when the river becomes non-navigable due to ice conditions, to the Philo Power Plant of the Ohio Power Company, Philo, Ohio, in Market Area 14, equal to the effective minimum f. a. s. prices for crushed coals, in Size Group 12, for river shipments to that plant.

Rural Electrification Administration.

[General Memorandum No. 56]

JANUARY 23, 1942.

CHANGES IN ALLOCATIONS AND ALLOCATION DESIGNATIONS

The allocation specified below was made by Executive Order under the Emergency Relief Appropriation Act of 1935. It is now desired to reduce this allocation. However, inasmuch as Executive Orders cannot be amended by Administrative Order, such allocation should for the purposes of our records be deemed to be reduced as follows:

Project designation	Date of Executive order	Amount of allocation	Amount of reduction	Amount of reduced allocation
South Carolina 9 State Authority	July 22, 1935	$12,328	$6,991.94	$5,336.06

It is now also desired to change the above-mentioned allocation designation in accordance with the provisions of the amendment dated August 15, 1941 to General Order No. 84, the loan made to the State Rural Electrification Authority having been assumed by the Aiken Electric Cooperative, Incorporated. However, inasmuch as such change cannot be made by Administrative Order for the above-mentioned reason, such allocation designation should for the purposes of our records be deemed to be changed as follows:

Project designation	*New project designation*
South Carolina 9 State Authority.	South Carolina 14 Aiken (South Carolina 9 State Authority).

The entire amount of the reduced allocation, $5,336.06, advanced to the State Rural Electrification Authority has been assumed by the Aiken Electric Cooperative, Incorporated.

In addition, the following allocation was also made by Executive Order under the Emergency Relief Appropriation Act of 1935 and it is now also desired to change such allocation designation in accordance with the provisions of said amendment to said General Order, the loan made to the State Rural Electrification Authority having been assumed in part by the below-designated cooperatives. However, inasmuch as such change cannot be made by Administrative Order for the above-mentioned reason, such allocation designation should for the purposes of our records be deemed to be changed as follows:

Project designation	Date of Executive order	Amount of allocation	Amount of allocation assumed	New project designation
South Carolina 9 State Authority.	Sept. 24, 1935	$530,000	$3,859.71	South Carolina 14 Aiken (South Carolina 9 State Authority).
			84,185.15	South Carolina 19 Laurens (South Carolina 9 State Authority).
			41,472.77	South Carolina 22 Fairfield (South Carolina 9 State Authority).
			17,729.21	South Carolina 24 Marion (South Carolina 9 State Authority).
			90,037.86	South Carolina 26 Darlington (South Carolina 9 State Authority).
			44,265.81	South Carolina 27 Marlboro (South Carolina 9 State Authority).
			183,374.26	South Carolina 28 Williamsburg (South Carolina 9 State Authority).

The full amount of the allocation has been advanced and that part not assumed by the cooperatives as specified above remains allocated to the State Rural Electrification Authority.

CERTIFICATION TO THE NORTH DAKOTA WORKMEN'S COMPENSATION BUREAU PURSUANT TO SECTION 1602 OF THE INTERNAL REVENUE CODE

The North Dakota Workmen's Compensation Bureau having duly submitted to the Social Security Board, pursuant to the provisions of section 1602 (b) (3) of the Internal Revenue Code, as amended, the North Dakota Unemployment Compensation Act; and

The Social Security Board having considered the provisions of said Act to determine whether or not reduced rates of contributions are allowable thereunder under conditions fulfilling the requirements of section 1602 of the Internal Revenue Code;

The Board hereby finds that:

(1) Said Act provides for a pooled fund as defined in section 1602 (c) (2) of the Internal Revenue Code; and

(2) Reduced rates of contributions under said Act to such pooled fund are allowable only in accordance with the provisions of section 1602 (a) (1) of the Internal Revenue Code. Pursuant to the provisions of section 1602 (b) (3) of the Internal Revenue Code, the Board hereby directs that the foregoing findings be certified to the North Dakota Workmen's Compensation Bureau.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE AND GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 3d day of February, A. D. 1942.

A declaration pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 having been filed by Panhandle Eastern Pipe Line Company, a subsidiary of both Columbia Gas & Electric Corporation, a registered holding company, and Columbia Oil & Gasoline Corporation; and

Columbia Oil & Gasoline Corporation, also a subsidiary company of Columbia Gas & Electric Corporation, having filed an application pursuant to section 10 of the Act, requesting that such application be consolidated with the aforesaid declaration; and

Both the declaration and application being concerned with a proposal to extend the time within which any shares of the Class A Preferred Stock of Panhandle Eastern Pipe Line Company may be redeemed without payment of a premium of $10 per share from January 1, 1942 to and including April 1, 1942; such extension being in accordance with an agreement, dated December 15, 1941, between Panhandle Eastern Pipe Line Company and Columbia Oil & Gasoline Corporation, beneficial owner of the entire issue of such stock.

Said declaration having been filed on January 14, 1942 and said application having been filed on January 29, 1942; a notice of filing having been duly given in the form and manner prescribed in Rule U-23 promulgated under the Act, and the Commission not having received a request for a hearing with respect to the declaration and application within the period specified in such notice or otherwise, and not having ordered a hearing thereon; and

Both the declarant and applicant having respectively requested that the aforesaid declaration be permitted to become effective and application be granted on or before February 5, 1942; and

The Commission finding with respect to the aforesaid declaration that the requirements of section 7 are satisfied and that with respect to such application no adverse findings are necessary under sections 10 (b) and 10 (c) (1) of the Act and deeming the proposed transaction to be appropriate in the public interest and in the interest of investors and consumers pursuant to section 12 (f) of the Act and being satisfied that such declaration should be permitted to become effective forthwith and such application granted forthwith;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the Act and rules promulgated thereunder and subject to the terms and conditions prescribed in Rule U-24 that the aforesaid declaration be and it is hereby permitted to become effective forthwith and the aforesaid application be and it hereby is granted forthwith.

By the Commission, Commissioner Healy concurring in the result.

IN THE MATTER OF COLUMBIA GAS & ELECTRIC CORPORATION, COLUMBIA OIL & GASOLINE CORPORATION, PANHANDLE EASTERN PIPE LINE COMPANY, MICHIGAN GAS TRANSMISSION CORPORATION, INDIANA GAS DISTRIBUTION CORPORATION, AND THE OHIO FUEL GAS COMPANY

SUPPLEMENTAL ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 3d day of February, A. D. 1942.

Panhandle Eastern Pipe Line Company, a subsidiary of Columbia Gas & Electric Corporation, a registered holding company, having filed an application pursuant to the Public Utility Holding Company Act of 1935, particularly section 6 (b) thereof and Rule U-50 thereunder, regarding the issue and sale of $10,000,000 principal amount of 3% First Mortgage Bonds and $15,000,000 par value of Cumulative Preferred stock, the proceeds to be applied toward the retirement of $10,000,000 par value outstanding Class A $6 participating Preferred stock, the acquisition of certain wholly-owned subsidiaries of Columbia Gas & Electric Corporation, and additional construction; Panhandle Eastern Pipe Line Company to publicly invite proposals for the purchase of the bonds and preferred stock in accordance with Rule U-50; and

Said application having been consolidated in the above-entitled consolidated proceeding, and the Commission having, on January 21, 1942, granted such application pursuant to section 6 (b) subject to the conditions, among others, that applicant report to the Commission the result of the competitive bidding as required by Rule U-50 (c) and comply with such supplemental order as the Commission may enter in view of the facts disclosed thereby, jurisdiction having been reserved for this purpose; and

Panhandle Eastern Pipe Line Company having made such report to the Commission in the form of an amendment to the application herein, setting forth the action taken to comply with Rule U-50 (c) and specifying the proposals which have been received for the purchase of said bonds pursuant to the invitation for competitive bidding, and setting forth that Panhandle Eastern Pipe Line Company has accepted a bid from a group of underwriters headed by Glore, Forgan & Co. and Kidder, Peabody & Co., of 100.02% for the bonds which are to be resold to the public at 100.75%, representing a spread to the underwriters of .73%, and 100.2789% for cumulative preferred stock having a dividend rate of 5.6%, which stock is to be resold to the public at 104%, representing a spread to the underwriters of 3.7211%, of which 2.25% represents the spread to dealers; and

The Commission having examined the record and finding no basis for imposing terms and conditions with respect to the issue and sale of said bonds and preferred stock at such price and with such spread;

It is ordered, That said application, as amended, be and it is hereby granted in regard to the price to the issuer, the spread, and the distribution thereof applicable to such bonds and preferred stock, subject, however, to the terms and conditions prescribed in Rule U-24.

By the Commission.

PART 210—FORM AND CONTENT OF FINANCIAL STATEMENTS, SECURITIES ACT OF 1933, SECURITIES EXCHANGE ACT OF 1934 AND INVESTMENT COMPANY ACT OF 1940

AMENDMENT NO. 6 TO REGULATION S–X

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Securities Act of 1933, particularly sections 7 and 19 (a) thereof, the Securities Exchange Act of 1934, particularly sections 12, 13, 15 (d) and 23 (a) thereof, and the Investment Company Act of 1940, particularly sections 8, 30 and 38 (a) thereof, and deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary for the execution of the functions vested in it by the said Acts, hereby amends Part 210 [Regulation S–X] as follows:

I. Note 5 to § 210.12–16 [Rule 12–16] is amended by inserting immediately after the numeral "5" the following new sentence: "If the aggregate amount of rents and royalties is not significant, a statement to that effect will suffice."

As amended Note 5 to § 210.12–16 [Rule 12–16] reads as follows: "If the aggregate amount of rents and royalties is not significant, a statement to that effect will suffice. State rents and royalties separately if either amount is significant. If significant in amount, state the aggregate annual amounts of the rentals upon all real property now leased to the person and its subsidiaries for terms expiring more than three years after the date of filing and the number of such leases. If the rentals are conditional, state the minimum annual amount."

II. Section 210.5–04 [Rule 5–04] is amended by deleting therefrom the instruction as to *Schedule XVII, Income from dividends,* as presently set forth and by substituting the following instruction therefor:

§ 210.5–04 *What schedules are to be filed.*

* * * * *

Schedule XVII—Income from dividends; equity in net profit and loss of affiliates. The schedule prescribed by § 210.12–17 [Rule 12–17] shall be filed for each period for which a profit and loss statement is filed.

III. Section 210.6–04 [Rule 6–04] is amended by deleting therefrom the instructions as to *Schedule XIV, Income from dividends,* as presently set forth and by substituting the following instructions therefor:

CHAPTER II—RAILROAD RETIREMENT BOARD

PART 260—APPEALS WITHIN THE BOARD

AMENDING SUBSECTIONS (d) AND (e) OF § 260.03 OF THE REGULATIONS UNDER THE RAILROAD RETIREMENT ACT OF 1937

Pursuant to the general authority contained in section 10 of the Act of June 24, 1937 (Sec. 10, 50 Stat. 314; 45 U.S.C. Sup. III, 228j), subsection (d) and the first sentence of subsection (e) of § 260.03 of the Regulations of the Railroad Retirement Board under such Act (4 F.R. 1477) are amended, effective immediately, by Board Order 42–61 dated January 29, 1942, to read as follows:

§ 260.03 *Final appeal from a decision of the Appeals Council.* • • • (d) Upon final appeal to the Board, the appellant shall not have the right to submit additional evidence: *Provided, however,* That, if upon final appeal to the Board, the Board finds that new or better evidence is available, the Board may obtain such evidence, in which event the appellant shall be advised with respect to such evidence and given an opportunity to submit rebuttal evidence and argument: *And provided further,* That in the event that pursuant to the preceding proviso material evidence is developed which tends to show facts contrary to those found by the Appeals Council, or, in the event that the appellant shows that he is ready to present further material evidence, which for good reason he was not able to present to the Appeals Council, the claim may be referred back to the Appeals Council. Thereupon the Appeals Council shall receive such new evidence as may be offered, develop new or better evidence if available, affording the appellant appropriate opportunity to submit rebuttal evidence and argument, include a transcript of all evidence in the record, and transmit the entire record to the Board together with its recommendation to the Board for final decision.

(e) The decision of the Board shall be made upon the record of evidence and argument which has been made in the handling of the case before final appeal to the Board, with such additions as may be made pursuant to this section. • • •

By Authority of the Board.

TITLE 21—FOOD AND DRUGS

CHAPTER I—FOOD AND DRUG ADMINISTRATION

[Docket No. FDC–35]

PART 2—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

"INSULIN" DEFINED

By virtue of the authority vested in the Federal Security Administrator by provisions of the Federal Food, Drug, and Cosmetic Act (Sec. 701 (a), 52 Stat. 1055, 21 U.S.C., Sup. V, 371 (a));

It is ordered, That the following general regulation be and it hereby is promulgated:

§ 2.1065 *Definition of term "insulin."* For the purposes of sections 502 (k) and 506 of the Act, the term "insulin" as used therein means the active principle of pancreas which affects the metabolism of carbohydrate in the animal body and which is of value in the treatment of diabetes mellitus. (Sec. 701 (a), 52 Stat. 1055, 21 U.S.C., Sup. V, 371 (a))

Such general regulation shall become effective immediately.

PART 144—CERTIFICATION OF BATCHES OF DRUGS COMPOSED WHOLLY OR PARTLY OF INSULIN

By virtue of the authority vested in the Federal Security Administrator by provisions of section 506 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, et seq., 21 U.S.C., Sup. V, 301, et seq., as amended by Public Law 366, 77th Cong., 1st Sess., Dec. 22, 1941);

It is ordered, That the following regulations be and they hereby are promulgated:

Sec.
144.1 Definitions and interpretations of terms.
144.2 Requests for certification; samples; storage; approvals preliminary to certification.
144.3 Certifications.
144.4 Conditions on the effectiveness of certificates.
144.5 Packaging.
144.6 Labeling
144.7 Distinguishing colors on packages.
144.8 Records of distribution.
144.9 Authority to refuse certification service.
144.10 Fees.
144.11 Standards of identity, strength, quality, and purity for protamine zinc insulin.
144.12 Tests and methods of assay.

§ 144.1 *Definitions and interpretations of terms.* For the purpose of the regulations in this part:

(a) The term "insulin" means the active principle of pancreas which affects the metabolism of carbohydrate in the animal body and which is of value in the treatment of diabetes mellitus.

(b) The term "insulin U. S. P." means the insulin injection recognized in the fourth supplement to the United States Pharmacopoeia, Eleventh Revision (Interim Revision Announcement No. 4 and addenda thereto).

(c) The term "protamine zinc insulin" means the insulin preparation described in § 144.11 of the regulations in this part.

(d) The term "master lot" means a quantity, which is purified and which has been mixed in one container so as to be homogeneous, of (1) a concentrated solution of insulin, or (2) the insulin-containing solids, in amorphous or crystalline form, derived from one or more such solutions.

(e) The term "batch" means a quantity of a drug, in labeled packages, of uniform composition and intended for administration without further change, in which the sole insulin-containing ingredient is a single dilution (which has been mixed in one container so as to be homogeneous) of (1) a single master lot or part thereof, or (2) a mixture of two or more master lots or parts thereof; except that such term means a portion of such quantity when certification of such portion is requested.

(f) The term "master lot mark" means an identifying mark or other identifying device assigned to a master lot by the manufacturer thereof.

(g) The term "batch mark" means an identifying mark or other identifying device assigned to a batch by the manufacturer thereof.

(h) The term "Commissioner" means the Commissioner of Food and Drugs.

(i) The functions and duties of the Commissioner under the regulations in this part may be exercised by such other responsible officials of the Food and Drug Administration as the Commissioner may designate for that purpose.

(j) The definitions and interpretations of terms contained in section 201 of the Act shall be applicable to such terms when used in the regulations in this part.*

*§§ 144.1 to 144.12, inclusive, issued under the authority contained in sec. 506, 52 Stat. 1040, et seq., 21 U.S.C., Sup. V, 301 et seq., as amended by Public Law 366, 77th Cong., 1st Sess., Dec. 22, 1941.

§ 144.2 *Requests for certification; samples; storage; approvals preliminary to certification.* (a) A request for certification of a batch shall be addressed to the Commissioner, Food and Drug Administration, Federal Security Agency, Washington, D. C. A request from a foreign manufacturer shall be signed by such manufacturer and by an agent of such manufacturer who resides in the United States.

(b) The initial request for certification submitted by any person shall be preceded or accompanied by a full statement of the facilities and controls used to maintain the identity, strength, quality, and purity of each batch, including a description of (1) the equipment, methods, and processes used in diluting master lots and parts thereof, and in maintaining the identity, strength, quality, and purity of master lots and dilutions therefrom; (2) the tests and assays made on master lots and mixtures thereof, on dilutions and batches therefrom, and on ingredients used in such dilutions and batches; and (3) the laboratory facilities used in such controls. Such initial request shall also be preceded or accompanied by the keys to the master lot marks and batch marks used by such person. When any change is made in any of such facilities or controls, or in any such key, the next request for certification thereafter shall be accompanied by a full statement of such change.

(c) A person who requests certification of a batch shall submit in connection with his request statements showing:

(1) The master lot mark of each master lot used or to be used wholly or partly as an ingredient or component of an ingredient of the batch;

(2) The quantity of each such master lot so used;

(3) The original quantity of each such master lot (unless such information has been previously submitted);

(4) The quantity of the batch; and

(5) The batch mark.

(d) Except as otherwise provided in paragraphs (g) and (h) of this section, a person who requests certification of a batch shall submit in connection with his request and in the quantities hereinafter indicated, accurately representative samples of the following:

(1) The single master lot or the mixture of two or more master lots or parts thereof, to be used as an ingredient of the batch; in a quantity containing approximately 10,000 U. S. P. units of insulin.

(2) A trial dilution from such master lot or mixture, which dilution conforms to the standards of identity, strength, quality, and purity for insulin U. S. P., containing 20 U. S. P. units or 40 U. S. P. units of insulin per cubic centimeter; in a quantity containing approximately 10,000 U. S. P. units of insulin.

(3) If the batch is to be insulin U. S. P., the bulk dilution from such master lot or mixture, which dilution, without further change, is intended to be filled into the containers of the finished batch; in a quantity containing approximately 2,500 U. S. P. units of insulin.

(4) If the batch is to be protamine zinc insulin, the bulk dilution from such master lot or mixture, containing protamine, zinc chloride, glycerin, and phenol or cresol, which dilution is the sole insulin-containing ingredient intended to be filled into the containers of the finished batch, and which is intended to be so filled without further change; in a quantity containing approximately 2,500 U. S. P. units of insulin.

(5) If the batch is to be protamine zinc insulin, the lot of protamine used as an ingredient of the bulk dilution referred to in subparagraph (4) of this paragraph; in a quantity of approximately 2 grams.

(6) If the batch is to be protamine zinc insulin, the buffer solution which, without further change, is intended to be filled into the containers of the finished batch; in a quantity not less in volume than the volume of the sample submitted pursuant to subparagraph (4) of this paragraph.

(7) If the batch is to be protamine zinc insulin, a trial mixture of the bulk dilution and the buffer solution referred to in subparagraphs (4) and (6) of this paragraph, which mixture is intended to be accurately representative of the mixture which will constitute the finished batch; in a quantity containing approximately 2,500 U. S. P. units of insulin.

(8) The finished batch; in a quantity not less than 5 packages.

(e) Except as otherwise provided by paragraphs (g) and (h) of this section, a person who requests certification shall submit in connection with his request results of the tests and assays listed after each of the following materials, made by him on a sample of such material:

(1) The master lot or mixture, referred to in paragraph (d) (1) of this section: ash, nitrogen, potency, reaction, sterility, and zinc, if such master lot or mixture is a solution; ash, moisture, nitrogen, potency, and zinc, if such master lot or mixture is a solid.

(2) A trial dilution from such master lot or mixture, of the potency of the trial dilution referred to in paragraph (d) (2) of this section: ash, nitrogen, reaction, potency, and zinc.

(3) If the batch is to be insulin U. S. P., the bulk dilution referred to in paragraph (d) (3) of this section: ash, nitrogen, reaction, sterility, and zinc.

(4) If the batch is to be protamine zinc insulin, the bulk dilution referred to in paragraph (d) (4) of this section: nitrogen, reaction, sterility, and zinc.

(5) If the batch is to be protamine zinc insulin, the protamine referred to in paragraph (d) (5) of this section: moisture, nitrogen, and sulfate.

(6) If the batch is to be protamine zinc insulin, the buffer solution referred to in paragraph (d) (6) of this section: sterility.

(7) If the batch is to be protamine zinc insulin, the trial mixture referred to in paragraph (d) (7) of this section: nitrogen, reaction, zinc, and biological reactions (by the tests prescribed in § 144.12 (b) or (c), and (d), except that, if the batch is to be of 80 unit strength, the test prescribed in § 144.12 (b) may be made, in lieu of the test prescribed in § 144.12 (c), on a trial mixture of 40 unit strength prepared from the same materials and in the same manner, except for adjustment of reaction of the buffer solution, as such 80 unit batch is to be made).

(8) The finished batch: nitrogen, reaction, sterility, zinc, and if the batch is insulin U. S. P., ash.

(f) The results of tests and assays for the following shall be reported in the terms indicated:

Ash—milligrams per 1,000 U. S. P. units of insulin.

Moisture—percent by weight.

Nitrogen (except in protamine)—milligrams per cubic centimeter in the cases of solutions and suspensions, and percent by weight in the case of solids.

Nitrogen in protamine—percent by weight, calculated to a moisture-free basis.

Potency—U. S. P. units of insulin per cubic centimeter.

Reaction—hydrogen ion concentration (pH).

Sulfate—percent by weight, as SO_4, calculated to a moisture-free basis.

Zinc—milligrams per cubic centimeter in the cases of solutions and suspensions and percent by weight in the case of solids.

(g) (1) No sample referred to in paragraph (d) (1) to (7) of this section, inclusive, and no result referred to in paragraph (e) (1) to (7) of this section, inclusive, is required if such sample or result has been submitted in connection with a previous request for certification.

(2) Each sample submitted pursuant to this section shall be so packaged as to maintain its representative character, and in the case of any solution or suspension, shall be collected and packaged under aseptic conditions. Each package shall be clearly identified as to its contents and shall bear the name and post office address of the person submitting the request.

(3) The packages constituting the samples submitted pursuant to paragraph (d) (8) of this section shall be collected at such intervals that the quantities packaged between collections are approximately equal and that the collections cover the entire period of packaging.

(4) Each sample submitted pursuant to paragraph (d) (2), (3), (4), (6), (7), and (8) of this section shall be accompanied by a statement showing the identity, quality, and quantity of each substance used as an ingredient or as a component of an ingredient in the material from which such sample was taken.

(5) If the tests and assays, results of which are submitted pursuant to paragraph (e) (2) of this section, were not made on the same trial dilution as that from which the sample submitted pursuant to paragraph (d) (2) of this section was taken, such sample shall be accompanied by a statement showing the identity, quality, and quantity of each substance used as an ingredient or as a component of an ingredient of the trial dilution on which such tests and assays were made.

(6) The value for each of the components ash, nitrogen, and zinc submitted pursuant to subparagraphs (1), (2), and (3) of paragraph (e) may be calculated from the result of a test therefor submitted pursuant to either subparagraph (1) or (2) of such paragraph. The result on potency required under subparagraph (1) of such paragraph may be calculated from the result of an assay therefor submitted pursuant to subparagraph (2) of such paragraph. The value for each of the components nitrogen and zinc, to the extent required under subparagraphs (4), (7), and (8) of such paragraph, may be calculated from the result of a test therefor submitted pursuant to either subparagraph (4) or (7) of such paragraph. The value for each of the components ash, nitrogen, and zinc required under subparagraph (8) of such paragraph may, if the batch is insulin U. S. P., be calculated from the result of a test therefor submitted pursuant to subparagraph (1), (2), or (3) of such paragraph. Each calculated value shall be indicated as such.

(7) The information required under paragraph (c) (1), (2), and (3) of this section, and the samples and results of tests and assays required under paragraphs (d) (1) and (2) and (e) (1) and (2) of this section should be submitted before submission of the samples and results required in paragraphs (d) (3) to (7) of this section, inclusive, and (e) (3) to (7) of this section, inclusive; and the samples and results required under paragraphs (d) (3) to (7), inclusive, and (e) (3) to (7), inclusive, should be submitted before submission of the information, samples, and results required under paragraphs (c) (4) and (5), (d) (8), and (e) (8) of this section. All information, including results of tests and assays (except results of tests for sterility), required under this section should be submitted at the same time as the samples to which they relate are submitted.

(h) The person who requests certification shall submit such information additional to that submitted pursuant to paragraphs (b), (c), (e), and (g) of this section, such additional samples of any substance referred to in paragraph (d) of this section, and such samples of any other substance used or to be used as an ingredient or as a component of an ingredient in the batch, as the Commissioner may require for the purpose of investigations to determine whether or not such batch complies with the requirements set forth by § 144.2 for the issuance of a certificate.

(i) After a sample required by paragraph (d) of this section is taken from any master lot or mixture of parts of two or more master lots, such master lot or master lots and all parts thereof, and all dilutions and batches and all parts thereof in which any such master lot is used as an ingredient or as a component of an ingredient, shall be stored at the establishment where manufactured until used up or shipped or otherwise delivered, at a temperature above freezing but not above 15° C. (59° F.), and under such other conditions as prevent, so far as practicable, any change in composition; except that master lots and parts thereof which are solids may be stored at ordinary room temperatures.

(j) As promptly as practicable after the samples submitted pursuant to paragraph (d) (1) and (2) of this section, and any other material or information relative thereto that may be required under this section, are received by the Commissioner, he shall notify the person who submitted such samples of his approval or refusal to approve the use of the master lot or mixture for the making of bulk dilutions. In case of a refusal to approve, the Commissioner shall state his reasons therefor.

(k) In like manner, the Commissioner shall notify the person who submits samples pursuant to paragraph (d) (3) to (7) of this section, inclusive, of his approval or refusal to approve the use of the materials represented by such samples in completing the manufacture of the batch. In case of a refusal to approve, the Commissioner shall state his reasons therefor.

(l) If, under the provisions of paragraph (j) or (k) of this section, the Commissioner has refused to approve any material for use in a subsequent operation, he shall examine no other sample required hereunder which includes such material as an ingredient or component of an ingredient, unless and until the person requesting certification makes an adequate showing that the cause for such refusal no longer exists.*

§ 144.3 *Certifications.* (a) If it appears to the Commissioner, after such investigation as he considers necessary, that:

(1) The information, including results of tests and assays, and the samples, required by or pursuant to § 144.2 have been submitted and such information contains no untrue statement of a material fact;

(2) The batch complies with these regulations and conforms to the standards of identity, strength, quality, and purity for insulin U. S. P. or for protamine zinc insulin;

the Commissioner shall certify that such batch is safe and efficacious for use, subject to such conditions on the effectiveness of such certifications as are set forth in § 144.4, and shall issue to the person who requested it a certificate to that effect.

(b) If the Commissioner determines, after such investigation as he considers to be necessary, that the information submitted pursuant to § 144.2, or the batch covered by such request, does not comply with the requirements set forth in paragraph (a) of this section for the issuance of a certificate, the Commissioner shall refuse to certify such batch and shall give notice thereof to the person who requested certification, stating his reasons for refusal.

(c) For the purposes of his investigations under the authority of this section, the Commissioner may accept, when he is satisfied as to the completeness and accuracy thereof, the results of any tests or assays made by the control laboratory of the Insulin Committee of the University of Toronto, pursuant to a licensing agreement entered into prior to the date of enactment of Public Law 366, 77th Cong., 1st Sess. (1941).*

§ 144.4 *Conditions on the effectiveness of certificates.* (a) A certificate shall not become effective:

(1) if it is obtained through fraud, or through misrepresentation or concealment of a material fact;

(2) with respect to any package unless its immediate container complies with the requirements of § 144.5 and such package has been so sealed that its contents cannot be used without destroying such package or seal; or

(3) with respect to any package unless its label and labeling bear all words, statements, and other information, and are distinguished by the color or colors, required by §§ 144.6 and 144.7.

(b) A certificate shall cease to be effective:

(1) with respect to any package of insulin U. S. P., 2 years after such package is removed from the storage required by § 144.2 (l);

(2) with respect to any package of protamine zinc insulin, 18 months after the immediate container therein was filled, but in no case shall a certificate remain effective with respect to any package more than 12 months after it is removed from the storage required by § 144.2 (l):

(3) with respect to any package, when such package or the seal thereof or the immediate container therein is broken, or when its label or labeling ceases to conform to any requirement of §§ 144.6 or 144.7; or

(4) with respect to any package when the drug therein so changes that it fails to meet the standards of identity, strength, quality, and purity upon the basis of which the batch was certified; except that those minor changes in potency (not exceeding 10 percent from the potency stated on the label, in the case of insulin U. S. P.) which occur before the expiration date, and which are normal and unavoidable in good storage and distribution practice, shall be disregarded.*

§ 144.5 *Packaging.* Each batch shall be packaged in immediate containers of colorless transparent glass. Such containers shall be closed with a substance through which successive doses may be withdrawn by hypodermic needle without removing the closure or destroying its effectiveness. The containers and closures shall be sterile at the time the containers are filled and closed. The composition of the containers and closures shall be such as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor prescribed in applicable standards of strength, quality, and purity.*

§ 144.6 *Labeling.* Each package from a batch that has been certified in accordance with the regulations in this part shall bear, on its label or labeling as hereinafter indicated; the following:

(a) On the outside wrapper or container and the immediate container of the retail package—

(1) the batch mark of such batch; and

(2) the strength of the drug in terms of U. S. P. units of insulin per cubic centimeter.

(b) On the outside container or wrapper of the retail package—

(1) the statement "Expiration date _____", the blank being filled in with the date on which the certificate applicable to such batch expires with respect to such package, as provided in § 144.4 (b) (1) or (2); and

(2) the statement "Keep in a cold place; avoid freezing".

(c) On the circular or other labeling of the retail package—

(1) a statement that the treatment of diabetes mellitus is an individual problem and that the use of the drug, the time of its administration, the number of daily doses and the quantity of each, as well as diet and exercise, are problems which require direct and continuous medical supervision;

(2) a statement explaining that the volume of the dose depends on the number of units of insulin per cubic centimeter stated on the label, and that the patient should understand the meaning of the volume markings on the syringe;

(3) a description of a practicable method for sterilizing the needle and syringe before use;

(4) a description of the technique of withdrawal from the vial and the use of an antiseptic on the stopper, and a caution against removal of the stopper;

(5) a description of the technique for cleansing, and the use of an antiseptic on, the site of injection;

(6) a statement that failure to comply with the techniques described in paragraphs (3), (4), and (5) of this section may lead to infection of the patient;

(7) a statement that injection should be subcutaneous, at a different site from that of the preceding injection, and a caution against intravenous or intramuscular use;

(8) an explanation of hypoglycemia and its relation to over-dosage, omission of meals, illness, and infection;

(9) a statement of the significance of sugar in the urine and of the necessity of tests therefor; and

(10) a caution against use after the expiration date shown on the outside wrapper or container.

(d) On the circular or other labeling of the retail package, if the batch is insulin U. S. P. (in addition to the information required by paragraphs (a), (b), and (c) of this section), a caution against use if the drug has become viscous or if its color has become other than water clear.

(e) On the outside wrapper or container and the immediate container of the retail package, if the batch is protamine zinc insulin (in addition to the information required by paragraphs (a), (b), and (c) of this section), the statement "Shake carefully", or "Shake well before using", or "Shake well".

(f) On the circular or other labeling of the retail package, if the batch is protamine zinc insulin (in addition to the information required by paragraphs (a), (b), (c), and (e) of this section)—

(1) an explanation of the difference, as compared with insulin U. S. P., in onset of action, duration, and the time and frequency of administration;

(2) a caution that it is not to be substituted for insulin U. S. P., except on the advice and direction of a physician;

(3) a statement that a uniform suspension of the preparation is necessary and is brought about by careful shaking before use;

(4) a caution against use when the precipitate has become lumped or granular in appearance or has formed a deposit of solid particles on the wall of the container.*

§ 144.7 *Distinguishing colors on packages.* (a) The outside containers or wrappers of the packages, and the labels on the immediate containers, of each strength of insulin U. S. P. shall be distinguished by the following color:

Yellow, if it contains 20 U. S. P. units of insulin per cubic centimeter;

Red, if it contains 40 U. S. P. units of insulin per cubic centimeter;

Green, if it contains 80 U. S. P. units of insulin per cubic centimeter;

Orange, if it contains 100 U. S. P. units of insulin per cubic centimeter.

But if the master lot used was in crystalline form, the distinguishing colors, instead of those prescribed above, may be the following:

Blue and gray, or blue, gray, and yellow, if it contains 20 U. S. P. units of insulin per cubic centimeter;

Red and gray, if it contains 40 U. S. P. units of insulin per cubic centimeter;

Green and gray, if it contains 80 U. S. P. units of insulin per cubic centimeter.

(b) The outside containers or wrappers of the packages, and the labels on the immediate containers, of each strength of protamine zinc insulin shall be distinguished by the following colors:

Red and white, if it contains 40 U. S. P. units of insulin per cubic centimeter;

Green and white, if it contains 80 U. S. P. units of insulin per cubic centimeter.*

§ 144.8 *Records of distribution.* (a) The person to whom a certificate is issued shall keep complete records showing each shipment and other delivery (including exports) of each batch or part thereof, by the person requesting certification, and showing each such shipment and delivery into, or from any place in, any state or territory, made by any person subject to his control, including records showing the date and quantity of each such shipment and delivery and the name and post office address of the person to whom such shipment or delivery was made.

(b) Upon the request of any officer or employee of the Food and Drug Administration or of any other officer or employee of the United States, acting on behalf of the Administrator, the person to whom a certificate is issued, at all reasonable hours within three years after disposal of all the batch covered by such certificate, shall make such records available to any such officer or employee, and shall accord to such officer or employee full opportunity to make inventory of stocks of such batch on hand and otherwise to check the correctness of such records.*

§ 144.9 *Authority to refuse certification service.* When the Administrator finds, after giving notice and opportunity for hearing, that a person has:

(a) Obtained or attempted to obtain a certificate through fraud, or through misrepresentation or concealment of a material fact;

(b) Falsified the records required to be kept by § 144.8; or

(c) Failed to keep such records or to make them available, or to accord full opportunity to make an inventory of stocks on hand or otherwise to check the correctness of such records, as required by such section,

the Administrator may immediately suspend service to such person under these regulations and may continue such suspension unless and until such person shows adequate cause why such suspension should be terminated.*

§ 144.10 *Fees.* (a) Fees for the services rendered under the regulations in this part shall be such as are necessary to provide, equip, and maintain an adequate certification service.

(b) Each request for certification submitted, or the initial sample or samples submitted in connection therewith pursuant to § 144.2 (d), whichever is sent first to the Commissioner, shall be accompanied by an advance deposit of $100 to cover the fee; except, that, if the results of an assay made for potency on a sample of a trial dilution by the laboratory referred to in § 144.3 (c) are not submitted and are not to be submitted, such advance deposit shall be $1,000.

(c) Each sample of trial mixture submitted pursuant to § 144.2 (d) (7) shall be accompanied by an advance deposit of $350 to cover the fee, unless the results of the tests for biological reactions made by the laboratory referred to in § 144.3 (c), are submitted or are to be submitted.

(d) Whenever necessary to prevent arrears in payment of the fee, such additional advance deposits covering such fee shall be made as the Commissioner estimates to be necessary to prevent arrears in payment thereof.

(e) Advance deposits made pursuant to paragraphs (b), (c), and (d) of this section shall be charged with the fee for the service rendered. If the total of such advance deposits made by any person exceeds the fee for service to such person, the excess shall be returned to such person upon the completion of such service.

(f) All advance deposits required by these regulations shall be paid by money order, bank draft, or certified check drawn to the order of the Treasurer of the United States, collectible at par, at Washington, D. C.

(g) All earned fees shall be deposited in the Treasury of the United States to the credit of Miscellaneous Receipts, Federal Security Agency.*

§ 144.11 *Standards of identity, strength, quality, and purity for protamine zinc insulin.* Protamine zinc insulin is a preparation, in a buffered medium, of insulin modified by the addition of protamine and zinc chloride. The quantity of insulin used is such that each cubic centimeter of the finished preparation, when the precipitate therein is brought into uniform suspension, contains either 40 or 80 U. S. P. units of insulin. The quantity of protamine used is such that the concentration of insulin in each cubic centimeter of the supernatant liquid, obtained by centrifuging the preparation, is not more than 1 U. S. P. unit for the 40 unit preparation and not more than 1.5 U. S. P. units for the 80 unit preparation; but in no case is the quantity of protamine used (calculated to a moisture-free basis) less than 1.0 milligram or more than 1.5 milligrams for each 100 U. S. P. units of insulin used. The preparation also contains, for each 100 U. S. P. units of insulin used, not less than 0.20 milligram and not more than 0.25 milligram zinc, and not more than 1.25 milligrams total nitrogen. Disodium phosphate (calculated as Na_2HPO_4) is used in a quantity not less than 0.15 percent and not more than 0.25 percent (w/v). The pH of the finished preparation is not less than 7.1 and not more than 7.4. If necessary, either hydrochloric acid or sodium hydroxide may be added to attain the required pH. The finished preparation also contains not less than 1.40 percent and not more than 1.80 percent (w/v) glycerin U. S. P., and either cresol U. S. P. in a quantity not less than 0.18 percent and not more than 0.22 percent (w/v) or phenol U. S. P. in a quantity not less than 0.22 percent and not more than 0.28 percent (w/v). The preparation is sterile. The protamine used is prepared from the sperm or mature testes of fish belonging to the family *Salmonidae*, genus *Oncorhynchus*, *Salmo*, or *Trutta*. When protamine is dried to constant weight at 100° C. its total nitrogen content is not less than 22.5 percent and not more than 25.5 percent, and its sulfate content, calculated as SO_4, is not less than 16 percent and not more than 19 percent.*

§ 144.12 *Tests and methods of assay.* The following tests and methods of assay are prescribed for the purposes of the regulations in this part: (All reagents specified herein shall be of U. S. P. quality or better.)

(a) *Tests and methods of assay for insulin U. S. P.* The tests and methods of assay for insulin U. S. P. shall be those set forth therefor in the United States Pharmacopoeia.

(b) *Biological reaction for protamine zinc insulin containing 40 U. S. P. units of insulin per cubic centimeter.* The rate, amount, and duration of effect in lowering the blood sugar of rabbits by protamine zinc insulin is determined by comparing the average blood sugar concentrations at various intervals during not less than an 11-hour observation period following the administration of protamine zinc insulin subcutaneously into rabbits, with the average blood sugar concentrations similarly obtained by administration of protamine zinc insulin reference material prepared as hereinafter set forth.

(1) *Protamine zinc insulin reference material.* Prepare the protamine zinc insulin reference material to contain 40 U. S. P. units of insulin per cubic centimeter from the following component solutions (or solutions of the same proportionate composition per cubic centimeter) by adding, with gentle shaking, to a suitable volume of Solution 4, accurately measured at room temperature, an equal volume of Solution 2. Test the reaction and if it is not within the limits of pH 7.1 to pH 7.4 discard and prepare a new mixture using a freshly prepared sample of Solution 2 in which the hydrogen ion concentration has been suitably adjusted by the addition of a solution of either sodium hydroxide or hydrochloric acid. Store in a refrigerator and do not use until at least 2 days, and in no event more than 6 months, have elapsed after preparation.

The solutions referred to above are:

Solution 1. Dissolve 0.183 gram zinc oxide in 60 cubic centimeters of approximately tenth-normal hydrochloric acid. Add 16 grams glycerin, 2.5 grams phenol (or 2 grams cresol), and sufficient distilled water to make the final volume 1,000 cubic centimeters.

Solution 2. Dissolve 4 grams disodium phosphate (calculated as Na_2HPO_4), 16 grams glycerin, and 2.5 grams phenol (or 2 grams cresol) in sufficient distilled water to make the final volume 1,000 cubic centimeters. Adjust the reaction, if necessary, as directed above.

Solution 3. Dissolve in Solution 1, in the proportion of 1 milligram per cubic centimeter, not less than 100 milligrams of the reference protamine provided for in paragraph (1). Preserve this solution in a cold place and do not use after 6 months from the time of preparation.

Solution 4. Weigh accurately a suitable quantity of U. S. P. Zinc-Insulin Crystals Reference Standard and dissolve in a sufficient quantity of Solution 3 to yield a concentration of 80 U. S. P. units of insulin per cubic centimeter. If necessary add 1 drop of dilute hydrochloric acid to effect complete solution. Store this solution in a refrigerator and do not use after 3 months from the time of preparation.

(2) *Test animal.* The test animal shall be the same as that described in the United States Pharmacopoeia for the assay of insulin U. S. P.

(3) *Volume of the protamine zinc insulin reference material to be injected.* The volume of the preparation to be injected shall be determined as described in the United States Pharmacopoeia for the assay of insulin U. S. P.

(4) *Conduct of the test.* Divide the animals into 2 similar groups of approximately equal numbers. With the rabbits in individual cages, withhold all food, except water, approximately 24 hours before the test. Weigh the rabbits within about two hours before beginning the test and thereafter withhold water until the final sample of blood has been taken. Handle the rabbits with such care as to avoid exciting them unduly. Obtain for the determination of the initial blood sugar concentration slightly more than 1 cubic centimeter of blood from a small incision in the marginal ear vein. Collect the blood in a suitable vessel containing about 3 milligrams of potassium or sodium oxalate. After obtaining this sample of blood, inject subcutaneously, without dilution, into the rabbits of one group the appropriate dose (determined as directed in subparagraph (3) of this paragraph) of protamine zinc insulin reference material and into the rabbits of the other group the same volume of the preparation to be tested. In the same manner as for the determination of the initial blood sugar concentration, obtain at least 4 samples of blood (in addition to the initial sample) from each rabbit at intervals of 2 to 3 hours, over a period of not less than 11 hours after the injection. Determine the blood sugar concentration in each sample of blood. About 1 week later inject the preparation being tested into each rabbit of the group which received the protamine zinc insulin reference material; in a similar manner inject the protamine zinc insulin reference material into each rabbit of the group which received the preparation being tested. Obtain samples of blood in the same manner as described above and determine the concentration of sugar in each of them. The volume of each injection of the protamine zinc insulin reference material and of the preparation being tested shall be the same for each rabbit. Results on a total of not less than 30 rabbits shall constitute a test.

(5) *Blood sugar determination.* The method shall be that described for the assay of insulin U. S. P.

(6) *Interpretation of the data.* The index of the relative effect at each bleeding time of the preparation being tested compared with that of the protamine zinc insulin reference material is calculated from the formula:

$$\text{Index at time } x = \frac{\text{Average blood sugar concentration obtained at time } x \text{ by the protamine zinc insulin reference material}}{\text{Average blood sugar concentration obtained at time } x \text{ by the preparation being tested}}$$

The preparation tested is satisfactory if the index for each bleeding time except the last is between 0.92 and 1.08 and the average of all the indexes is between 0.95 and 1.05.

(c) *Biological reaction for protamine zinc insulin containing 80 U. S. P. units of insulin per cubic centimeter.* Protamine zinc insulin containing 80 U. S. P. units of insulin per cubic centimeter is tested according to the method prescribed in paragraph (b) of this section for the assay of protamine zinc insulin containing 40 U. S. P. units of insulin per cubic centimeter, except that:

(1) The protamine zinc insulin reference material is so prepared as to contain 80 U. S. P. units of insulin per cubic centimeter with zinc and protamine in the same relative proportions per unit of insulin as specified for the protamine zinc insulin reference material in paragraph (b) of this section; and

(2) In the interpretation of the data the index for each bleeding time other than the last is between 0.85 and 1.15 and the average of the indexes is between 0.90 and 1.10.

(d) *Biological reaction for the activity of the supernatant liquid.* Centrifuge the protamine zinc insulin under test and remove a sample of the clear supernatant liquid.

(1) *Standard solution.* The standard solution is the same as that described in the United States Pharmacopoeia for the assay of insulin U. S. P.

(2) *Diluent for standard solution and supernatant liquid.* Prepare a diluent, using distilled water, containing not less than 0.10 percent and not more than 0.25 percent (w/v) phenol or cresol, not less than 1.40 percent and not more than 1.80 percent (w/v) glycerin, and hydrochloric acid in such quantity that the pH of the finished solution is not less than 2.5 and not more than 3.5.

(3) *Dilution of the standard solution.* Dilute the standard solution with the diluent specified in subparagraph (2) so that 0.25 cubic centimeter of the standard solution so diluted will cause convulsions in approximately 50 percent of the test animals, but in no case in less than 30 percent or more than 75 percent of the test animals.

(4) *Dilution of the supernatant liquid.* Dilute the sample of the supernatant with the diluent specified in subparagraph (2). On the assumption that 1 cubic centimeter of the sample of the supernatant liquid contains 1 U. S. P. unit of insulin for the 40 unit preparation and 1.5 U. S. P. units of insulin for the 80 unit preparation, make the dilution of the supernatant liquid such that the final concentration of insulin therein is the same as the concentration of insulin in the dilution of the standard solution.

(5) *Test animal.* Select for test purposes healthy white mice weighing not less than 17 grams, and not more than 21 grams and otherwise suitable. Withhold all food, except water, for at least 5 hours before the test. Divide the mice into 2 groups and identify by an appropriate mark all the mice of one group.

(6) *Conduct of the test.* Inject subcutaneously 0.25 cubic centimeter of the dilution of the standard solution into each mouse of one group and 0.25 cubic centimeter of the dilution of the supernatant liquid being tested into each mouse of the other group. Inject a total of not less than 100 mice with each dilution. Upon injection place the mice in containers, suitably ventilated and maintained at a uniform temperature of not less than 32° C. and not more than 38° C., so that each container will have an equal number of mice from each group. During the test the temperature should not fluctuate more than plus or minus 1° C. Observe all the mice for the same length of time, but not less than 60 minutes and not more than 90 minutes after injection. Record the number which are in collapse or show convulsions.

(7) *Interpretation of results.* When the number of mice in which collapse or convulsions are observed following the injection of the dilution of the supernatant liquid being tested does not exceed the number of mice in which collapse or convulsions occurred following the injection of the dilution of the standard solution, the preparation is considered as complying with the requirements of § 144.11 with respect to the insulin content of the supernatant liquid.

(e) *Identification of protamine zinc insulin.* Acidify protamine zinc insulin so that the pH is not less than 2.5 and not more than 3.5. The precipitate dissolves giving a clear colorless liquid. Using this liquid proceed as directed in the United States Pharmacopoeia for the identification of insulin U. S. P.

(f) (1) *Sterility of protamine zinc insulin.* Use one of the following media:

(i) *Fluid thioglycollate medium (Brewer).* Prepare broth base from the following ingredients, in the proportions indicated:

	Grams
Ground fresh beef (freed of fat)	500
Sodium chloride	5
Dipotassium phosphate (K_2HPO_4, anhydrous)	2
Peptone	10
	Cubic centimeters
Distilled water	1,000

Mix the ground meat thoroughly in the distilled water and allow to stand at 5° C. for 24 hours. Collect the liquid by straining through cloth and heat it for one hour in flowing steam, then for 30 minutes at not less than 15 pounds pressure (121° C.). Filter while hot through moistened filter paper and make up to the original volume with distilled water. Add the remaining ingredients and stir until solution is completed. So adjust the reaction with sodium hydroxide solution that the pH of the completed broth base is 7.5. Heat in flowing steam for 30 minutes and clear by filtration. If the broth base is to be stored, it is then sterilized at not less than 15 pounds pressure (121° C.) for not less than 20 minutes.

To 1000 cubic centimeters of this broth base add the following ingredients:

	Grams
Dextrose (anhydrous)	10.0
Sodium thioglycollate	1.0
Agar (less than 15 percent moisture by weight)	.5
	Cubic centimeter
Methylene blue (certified by Commission on Standardization of Biological Stains), 0.2 percent solution	1.0

Add the agar to the broth base, mix well, and dissolve by heating gradually to the boiling point. Cool to approximately 80° C. and add the remaining ingredients. Stir until solution is completed and ingredients are uniformly distributed. So adjust the reaction with sodium hydroxide solution that the pH of the completed and sterile medium is not less than 7.4 and not more than 7.6.

(ii) *Fluid thioglycollate medium (Linden).* Prepare this medium from the following ingredients, in the proportions indicated:

	Grams
Peptone	20.0
Dextrose (anhydrous)	5.0
Yeast extract (dehydrated)	5.0
Sodium thioglycollate	1.0
Sodium chloride	5.0
Agar (less than 15 percent moisture by weight)	.5
Dipotassium phosphate (K_2HPO_4, anhydrous)	2.5
	Cubic centimeters
Distilled water	1,000.0
Methylene blue (certified by Commission on Standardization of Biological Stains), 0.2 percent solution	1.0

Dissolve the agar in half the volume of distilled water by boiling or heating in flowing steam. Dissolve the remaining ingredients, except the methylene blue, in the remaining water with the aid of heat and mix the two solutions. So adjust the reaction with sodium hydroxide solution that the pH of the completed and sterile medium is not less than 7.4 and not more than 7.6. Filter clear while hot and add the methylene blue solution.

(iii) *Dehydrated media.* Any medium prepared from dehydrated materials which, when it is reconstituted for use, has growth-promoting, buffering, and oxygen tension controlling properties at least equal to those of either of the above media.

(iv) In the preparation of any of the foregoing media avoid all contamination with calcium. Do not use sodium thioglycollate which is yellow or yellowish-brown or has an abnormal odor.

(2) *Conduct of the test.* Using straight-walled, slender tubes of appropriate size, place in each, 15 cubic centimeters of the medium to be used for the sterility test and sterilize in an autoclave at not less than 15 pounds pressure (121° C.) for not less than 20 minutes. Test tubes 150 by 20 millimeters are satisfactory for this purpose.

After removal of the tubes from the autoclave, allow to cool to below 25° C. in order to set the agar. Store, protected from excessive light, at a temperature of not less than 15° C. and not tected from excessive light, at a temperatures increases absorption of atmospheric oxygen). If more than 20 percent of the uppermost portion of the medium has changed to a green color, it is not suitable for use. Under such circumstance one reheating in flowing steam to drive off the absorbed oxygen is permissible.

Test each lot of medium for its growth-promoting qualities by a trial run. Discard the medium unless it supports growth when inoculated with 1 cubic centimeter of a 1:100,000 dilution of a 24-hour broth culture of *Clostridium novyi* and also when inoculated with 1 cubic centimeter of a 1:100,000 dilution of a 24-hour broth culture of *Escherichia coli*.

Test sterility of protamine zinc insulin injection by inoculating 1 cubic centimeter thereof into each tube of medium used, under strict aseptic precautions. Incubate all tubes at 37° C. for seven days and examine on the second, fourth, and seventh days after inoculation. Agitate only after 48 hours' incubation to insure initial anaerobiosis. If at the end of the seven days 50 percent or more of the medium in any tube has changed from the color of the fresh medium to a green color, discard the test.

(g) *Sulfate in protamine*—(1) *Conduct of test.* Weigh accurately about 10 milligrams of protamine into a small casserole or beaker, add 0.2 cubic centimeter of normal sodium hydroxide and evaporate carefully to dryness. Heat over a flame until a grayish-white ash results. Dissolve the ash in 1 cubic centimeter of tenth-normal hydrochloric acid, transfer quantitatively to a 50-cubic centimeter calibrated centrifuge tube, neutralize to litmus and make the volume to 10 cubic centimeters with distilled water.

To the neutral solution add 2 cubic centimeters of benzidine test solution, referred to in subparagraph (2) of this paragraph, and 4 cubic centimeters of 95 percent (w/v) solution of acetone in distilled water. Allow to stand for 10 minutes and centrifuge for not less than 15 minutes at approximately 3,000 revolutions per minute. Carefully remove the supernatant fluid by means of a pipette having a very small opening at the tip. Wash the precipitate twice, using 10 cubic centimeters of 95 percent acetone for each washing. Carefully remove the supernatant acetone and place the tube in a boiling water bath until the odor of acetone disappears. Suspend the precipitate with 10 cubic centimeters of distilled water, introduce 1 drop of phenolphthalein test solution U. S. P. and titrate while hot with fiftieth-normal sodium hydroxide to the first faint permanent pink, observing carefully whether all particles of the benzidine sulfate precipitate have dissolved and, if not, reheating to bring the last traces into solution. Use a burette graduated in divisions of not more than 0.05 cubic centimeter so that readings can be estimated to 0.01 cubic centimeter.

Each cubic centimeter of fiftieth-normal sodium hydroxide is equivalent to 0.960 milligram of sulfate (SO_4). Calculate the results to a moisture-free basis.

(2) *Reagent.* Benzidine test solution. Dissolve 4 grams of benzidine in 45 cubic centimeters of normal hydrochloric acid and dilute to 250 cubic centimeters with distilled water. Before use, remove by filtration through ash-free filter paper any brown residue present.

(h) *Sulfate in protamine zinc insulin.* Place an accurately measured quantity of 5 to 10 cubic centimeters of well mixed protamine zinc insulin in a small casserole or beaker. Add 0.2 cubic centimeter of normal sodium hydroxide and evaporate carefully to dryness. Heat over a flame until a grayish-white ash results. Dissolve the ash in 1 cubic centimeter of tenth-normal hydrochloric acid, transfer quantitatively to a 25-cubic centimeter volumetric flask and add concentrated ammonium hydroxide dropwise until the solution is faintly pink, and then introduce 5 cubic centimeters of 5 percent (w/v) solution of ammonium chloride in distilled water. Fill the flask to the mark with distilled water, mix and pour the liquid into a dry Erlenmeyer flask containing approximately 0.65 gram of finely powdered basic magnesium carbonate. Shake for one minute and transfer to a 9-centimeter filter paper, fitted into a funnel, enough of the suspension to approximately fill the filter paper. Collect the filtrate in the same flask from which the suspension was transferred until the filtrate becomes clear. Then begin the collection in a dry flask until filtration is complete. Transfer 10 to 15 cubic centimeters of the filtrate to a 50-cubic centimeter calibrated centrifuge tube and neutralize to litmus with sodium hydroxide. Proceed from this point with the test as described in paragraph (g) (1), for sulfate in protamine beginning with the sentence "To the neutral solution • • •".

(i) *Total nitrogen in protamine zinc insulin.* (1) The total nitrogen content of protamine zinc insulin is determined by the method described in the United States Pharmacopoeia for insulin U. S. P.

(2) The total nitrogen content of protamine is determined by the method described in the United States Pharmacopoeia for insulin U. S. P., except that the sample taken for analysis is approximately 25 milligrams of protamine.

(j) *Zinc in insulin-containing solutions and in protamine zinc insulin.* The method shall be that described in the United States Pharmacopoeia under the test for zinc in insulin U. S. P.

(k) *Zinc in insulin-containing solids.* Dissolve 10 to 20 milligrams, accurately weighed, of insulin-containing solids in 5 to 10 cubic centimeters of distilled water containing 1 drop of five-normal hydrochloric acid, and proceed as directed in the United States Pharmacopoeia under the test for zinc in insulin U. S. P.

(l) The Commissioner shall, for the purposes of the tests and assays prescribed under this section, provide a suitable reference protamine, and shall, at cost, furnish any person making written request therefor a sample thereof.

The foregoing regulations in this part shall become effective immediately, except that:

(a) the provisions of § 144.6 (b) (1) shall not apply to any package of insulin U. S. P. which has been filled on or before February 10, 1942, and

(b) the provisions of § 144.6 (c) and (d) shall become effective on the 180th day after the date of this order.

WATSON B. MILLER,
Acting Administrator.

TITLE 32—NATIONAL DEFENSE

CHAPTER VI—SELECTIVE SERVICE SYSTEM

[No. 50]

ORDER PRESCRIBING FORMS

By virtue of the Selective Training and Service Act of 1940 (54 Stat. 885) and the authority vested in me by the rules and regulations prescribed by the President thereunder and more particularly the provisions of § 605.51 of the Selective Service Regulations, I hereby prescribe the following change in DSS forms:

Addition of a new form designated as DSS Form 32, entitled "Certificate of Appreciation," effective immediately upon the filing hereof with the Division of the Federal Register.[1]

[1] Filed as part of the original document.

The foregoing addition shall, effective immediately upon the filing hereof with the Division of the Federal Register, become a part of the Selective Service Regulations.

LEWIS B. HERSHEY,
Director.

CHAPTER IX—WAR PRODUCTION BOARD

SUBCHAPTER B—DIVISION OF INDUSTRY OPERATIONS

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

Priorities Regulation No. 5

§ 944.25 *Priorities Regulation No. 5: Reproduction of forms and orders*—(a) *General rule; reproduction of forms and orders permitted with certain exceptions.* Except as provided in (b) hereof, any form or order issued by the Director of Priorities or by the Director of Industry Operations may be reproduced by any person in the manner provided in paragraph (c) of this section.

(b) *Exceptions to general rule.* Reproduction of certain forms and orders is restricted as follows:

(1) The reproduction of those forms or orders heretofore issued which are listed in Exhibit A attached hereto is prohibited or limited as provided in said Exhibit, by reason of the need for detailed supervision of operations thereunder.

(2) Reproduction of any form or order hereafter issued which contains a provision prohibiting or limiting such reproduction and expressly excepting such form or order from this Regulation shall be prohibited or limited as therein provided.

(3) The restrictions contained in this paragraph (b) of this section shall not apply to the reproduction of any form (as distinguished from order) where such reproduction has the words "Specimen Copy" clearly set forth on the face thereof, nor shall said restrictions apply to any reproduction hereafter expressly permitted by the Director of Industry Operations.

(c) *Methods of reproduction.* In any case where the provisions of this Regulation permit the reproduction of a form or order, such reproduction may be by any process, photographic, printing, mimeographing, or otherwise, provided that:

(1) All copies must be identical with the officially published form or order as to wording, paragraphing and punctuation.

(2) Copies which are to be filed with any agency of the United States Government or to be served on another party must be identical with the officially published form or order as to size and substantially the same as to color of paper and location on the page of spaces to be filled in by the person filing or serving such copies.

(3) Copies of all orders bearing the signature of any official of the United States Government must include such signature. This must be in type or print, preceded by "(Signed)", unless the entire order is reproduced by photographic process.

(d) *Information copies.* Copies of any order which contains the name and address of the producer or other person to whom the order is issued or a serial number identifying such person, must either contain such name and address and serial number or be clearly designated as information copies by inserting the words "Information Copy" in the space provided for such name, address and serial number. No such order may be reproduced in blank without such designation. In any case where the provisions of this Regulation permit reproduction of an order and the order requires delivery of a copy to a Supplier but does not expressly require that such copy contain the name, address and serial number of the person to whom the order is issued, an information copy designated as provided above may be delivered and an information copy may be accepted where, by the terms of such order, acceptance is required.

(e) *Revocation of inconsistent provisions.* All provisions in any forms, orders, rules, regulations, instructions or published statements heretofore issued by the Office of Production Management, the Director of Priorities or the Director of Industry Operations regarding the reproduction of forms and orders are hereby revoked or amended to the extent that they are inconsistent with this section, but otherwise shall remain in full force and effect in accordance with their terms.

(f) *Effective date.* This Regulation shall take effect immediately. (P.D. Reg. 1 Amended, Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561; E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a) Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

Issued this 5th day of February 1942.

J. S. KNOWLSON,
Director of Industry Operations.

Exhibit A

Reproduction of the following forms and Orders is prohibited except as provided in Paragraph (b) (3) of the foregoing § 944.25:

PD-1-c, PD-3, PD-3A, P-25-a through P-25-c, P-26-a through P-26-e, P-35.

Reproduction of the following Orders is limited to reproduction by or for producers (not suppliers) operating under said Orders: P-3, P-4, P-9-a through P-9-g, P-13, P-15, P-52.

Reproduction of the following Order is limited to reproduction by persons entitled to apply the preference rating: P-41.

PART 1083—KAPOK

General Conservation Order M-85 To Conserve the Supply and Direct the Distribution of Kapok

Whereas the uncertainty of future shipments of kapok from abroad and the fulfillment of requirements for the defense of the United States have resulted in a shortage in the supply of kapok for defense, for private account, and for export, and it is necessary in the public interest and to promote the defense of the United States, to conserve the supply and direct the distribution of kapok and to allocate the supply thereof in the manner hereinafter in this Order provided;

Now, therefore, it is hereby ordered, That:

§ 1083.1 *General conservation order—*

(a) *Applicability of Priorities Regulation No. 1.*[1] This Order and all transactions affected thereby are subject to the provisions and definitions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(b) *Additional definitions.* For the purposes of this Order:

(1) "Kapok" shall mean the fiber or pulp from the pod of the *Ceiba* or Kapok tree, except that grown in South and Central America, but shall not include any kapok which, on the effective date of this Order, has already been put into process for the manufacture of any article of which kapok is a component part.

(2) "Dealer" shall mean any person purchasing kapok for resale and the term shall include also importers, agents and brokers.

(3) "Manufacturer" shall mean any person producing any product of which kapok is a component part or into which it is physically incorporated.

(c) *Restrictions on sales and deliveries.* No dealer shall hereafter sell, transfer title to, or deliver, and no person shall hereafter purchase, accept transfers of title to, or deliveries of, any kapok, except upon the following categories of orders:

(1) Orders placed by Defense Supplies Corporation.

(2) Orders placed by manufacturers for delivery prior to March 31, 1942, of the minimum amounts necessary to enable them to continue until March 31, 1942 to produce the products hereinafter listed in paragraph (d) of this order, taking into consideration their existing inventories, and to maintain not more than a practicable minimum working inventory of finished products: *Provided, however,* That each order placed by a manufacturer pursuant to the provisions of this subparagraph shall be accompanied by a certificate manually signed on behalf of such manufacturer by a person authorized to sign for such manufacturer and in the following form:

This order is for an amount of kapok which, together with the undersigned manufacturer's existing inventory and other orders outstanding will not exceed the minimum amount necessary to enable the undersigned manufacturer to continue operations, to the extent permitted by paragraph (d) of General Conservation Order M-85—Kapok, until March 31, 1942, and maintain not more than a practicable minimum working inventory of finished products. This certificate shall be deemed to be a representation by the undersigned manufacturer to the War Production Board and to the above-named dealer that the facts stated above are true and correct.

(3) Orders specifically authorized hereunder by the Director of Industry Operations.

(d) *Restrictions on production.* Notwithstanding anything in Priorities Regulation No. 1 to the contrary, unless specifically authorized by the Director of Industry Operations, no manufacturer shall hereafter use any kapok in the production of any product, except those hereinafter listed:

(1) Life buoys to fill defense orders.
(2) Life preservers, life jackets and collars to fill defense orders.
(3) Sleeping bags, mattresses, pillows, blankets and pontoon bridges to fill orders placed by the War and Navy Departments but only to the extent that kapok is specifically required by the controlling specifications.
(4) Insulation padding for airplanes.
(5) Insulation for freight cars and trucks designed and ordered for the transportation of food for human consumption.
(6) Insulation for industrial refrigeration of food for human consumption.
(7) Stuffing for air tanks of boats, rafts, and life saving appliances in the minimum amounts necessary to comply with Subchapter O of Order No. 186[2] of the Bureau of Marine Inspection and Navigation, during the period that such Order shall require such use of kapok.

(e) *Restrictions on manufacturers' sales of kapok.* No manufacturer shall hereafter sell, transfer title to, or deliver any kapok to any person, except Defense Supplies Corporation, and no person, except Defense Supplies Corporation, shall hereafter purchase, accept any transfers of title to, or deliveries of, kapok from a manufacturer.

(f) *Assignment of Preference Rating.* A preference rating of A-2 is hereby assigned to all orders for kapok placed by Defense Supplies Corporation, and such rating may be applied by such Corporation by placing on its purchase orders the following endorsement, manually signed by a person authorized to sign for such Corporation:

Pursuant to General Conservation Order M-85, a preference rating of A-2 is assigned to this purchase order.

(g) *Appeal.* Any person affected by this Order, who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of kapok conserved, or that compliance with this Order would disrupt or impair a program of conversion from nondefense to defense work, may appeal to the War Production Board by letter or telegram, or upon such form as may hereafter be prescribed, Reference M-85, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(h) *Communications to the War Production Board.* All communications concerning this Order shall, unless otherwise directed, be addressed to:

War Production Board
Washington, D. C. Reference M-85.

(i) *Violations.* Any person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(j) *Effective date.* This Order shall take effect immediately (P.D. Reg. 1 Amended, Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561; E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040; Jan. 24, 1942, 7 F.R. 527; Sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

Issued this 4th day of February, 1942.

J. S. KNOWLSON,
Director of Industry Operations.

CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1306—IRON AND STEEL

AMENDMENT NO. 2 TO PRICE SCHEDULE NO. 6[1]—IRON AND STEEL PRODUCTS

Preamble and §§ 1306.1 to 1306.9 inclusive, are hereby renumbered and amended to read as follows:

Price Schedule No. 6 was issued on April 16, 1941, to stem a threatened general increase in steel prices. It successfully achieved its major purpose. Such inequities and hardships as were inevitably involved in an action of this nature have been alleviated in the course of administration. In June 1941 a revision of the Schedule was issued to incorporate certain suggestions received from a cross-section of the industry. In the light of the experience of recent months, however, it is now thought desirable to reissue a revised Price Schedule No. 6 designed to eliminate certain ambiguities and minor errors. This revision in no way effects the major provisions of the original Schedule. It continues to employ the multiple basing point, price leadership, and extras systems which are presently in effect in the industry. As before, this acceptance of these systems merely as a vehicle for determining price should not be regarded as approval thereof, nor should this reservation be regarded as indicating disapproval.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that—

§ 1306.1 *Maximum prices for iron or steel products.* On and after April 17, 1941, regardless of the terms of any contract of sale or purchase, or other commitment, except as provided in § 1306.4 hereof, no producer shall sell, offer to sell, deliver or transfer any iron or steel product, and no person shall accept delivery of any such product at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1306.10: *Provided,* That with respect to any sale of any such product for future delivery, a contract may provide for the payment of an adjusted price or for the payment of a price in effect at the time of shipment if such contract also expressly states that the price at time of shipment shall not exceed the maximum price established by the Office of Price Administration and in effect at time of shipment.

Provided further, That the provisions of this Schedule shall apply only to sales, offers to sell, deliveries, or transfers of iron or steel products moving within, into or out of one of the 48 states of the United States or the District of Columbia. The export provisions of this Schedule shall apply to any sale for delivery outside the 48 states or the District of Columbia.*

*§§ 1306.1 to 1306.14, inclusive, issued pursuant to authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1306.2 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1306.10) may be charged, demanded, paid or offered.*

§ 1306.3 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery or transfer of any iron or steel product, alone or in conjunction with any other material, or by way of any commission, service, transportation, or other charge, or by tying agreement or other trade understanding. Without limiting the generality of the foregoing, the price limitations set forth in this Schedule shall not be evaded by improper classification of any iron or steel product; by improper application of extras; by elimination or reduction of any customary or general privilege as defined in § 1306.10 (f); by the charging of any premium for prompt or early delivery; by the splitting of orders into small quantities with design to increase prices; or by pricing on an f. o. b. mill basis or on the basis of any other than designated basing points, when either of these practices results in a higher than ceiling delivered price.*

[1] 6 F.R. 2004, 3061.

§ 1306.4 *Existing contracts.* A price in excess of the maximums established herein shall not be charged, demanded, paid, or offered in the case of any contract entered into subsequent to April 16, 1941. Contracts entered into on or prior to April 16, 1941, which do not conform to the requirements of this Schedule, may be completed on the contract terms only with respect to shipments made prior to March 15, 1942.*

§ 1306.5 *Records and reports.* (a) Every producer of iron or steel products shall keep for inspection by the Office of Price Administration, for a period of not less than one year, copies of all invoices dated January 1, 1941, or later, relating to sales of such products, including sales to warehousemen, jobbers, brokers, and all other persons purchasing for resale. Every such invoice shall clearly indicate the price actually paid, together with all discounts or other credit terms.

(b) Every producer of iron or steel products shall file with the Office of Price Administration, Washington, D. C., on or before February 16, 1942, all charges, terms and discounts, including base prices published or quoted as of April 16, 1941, and extras which were (1) published and quoted and (2) actually and customarily charged as of April 16, 1941, insofar as such filing was not made prior to the effective date of this Amended Schedule. On and after February 16, 1942, except as provided in § 1306.10 (b) or as specifically authorized by the Office of Price Administration, no prices, extras, or other charges permitted by this Schedule may be charged which have not been filed with the Office of Price Administration.*

§ 1306.6 *Enforcement.* In the event of refusal or failure to abide by the terms and provisions of this Price Schedule, the Office of Price Administration will use its full powers of enforcement to compel remedial action and future compliance by any such violator. These powers may include steps in an appropriate court of law, such administrative remedies as may be proper, as well as the informing of the Congress and the public, and the enlisting of the cooperation of the various state or federal governmental agencies, including the procurement services of the Government. Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation, or of manipulation of the price of iron or steel products, are urged to communicate with the Office of Price Administration.*

§ 1306.7 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom. In considering any such application the Office of Price Administration may require the submission in affidavit form of any further data which it may consider relevant, and it shall upon request have access to the records and books of the applicant. In connection with any such application for relief, a sworn affirmation of compliance with this and all other Price Schedules issued by the Office of Price Administration must be submitted or the absence thereof clearly explained.*

§ 1306.8 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, trust, corporation or other business entity, including executors or administrators, trustees in bankruptcy, receivers, or other court-appointed officials;

(b) "Producer" or "producer of iron or steel products" means any person who manufactures or produces any of the iron or steel products as defined in paragraph (c) herein;

(c) "Iron or steel products" means and includes all iron or steel ingots, all semi-finished iron or steel products, all finished hot-rolled or cold-rolled iron or steel products, and any iron or steel product which is further finished by galvanizing, plating, coating, drawing, extruding, etc. Without limiting the generality of the foregoing, the term shall include all products listed in Appendix B (§ 1306.11) of this Schedule. The term shall also include all seconds and off-grade iron or steel products: *Provided,* That the term shall not include pig iron.[1]

(d) "Governing basing point" means that established basing point the use of which results in the lowest delivered price at the place of delivery.

(e) "Emergency basing point" means the established basing point at or nearest the place of production or of origin of shipment.

(f) "Usual market area" of any mill with respect to a shipment of any product means that area into which the particular iron or steel product had, in the course of the two years prior to April 16, 1941, been customarily shipped by such mill in quantities comparable to the shipment being made.

(g) "Basing point base prices" means:

(1) The prices announced prior to December 31, 1940, or customarily quoted by Carnegie-Illinois Steel Corporation, American Steel & Wire Co., Tennessee Coal, Iron & Railroad Co., National Tube Co., and Columbia Steel Co., as base prices effective during the first quarter of 1941, or in effect on April 16, 1941, and applicable at designated basing points for iron or steel products; or

(2) In the case of an individual producer, the prices announced or customarily quoted by such producer during the first quarter of 1941, or in effect on April 16, 1941, as base prices applicable at designated basing points for iron or steel products: *Provided,* That the base prices under this subparagraph (2) shall not be in excess of the base prices under subparagraph (1), for the purpose of this definition, except to the extent which actually prevailed in the case of such producer, during the entire third quarter of the year 1940; or

(3) Where there are delivered prices applicable at a particular place, including Detroit, eastern Michigan, and the Gulf and Pacific Coast basing points listed in Appendix C (§ 1306.12), and such prices are less than the basing point base prices at the nearest governing basing point plus transportation charges, such prices for the purpose of this Schedule shall be deemed basing point base prices applicable for delivery at such place: (i) *Provided,* That such prices, except in the case of the Gulf and Pacific Coast ports, are not to be used to arrive at delivered prices to other destinations: (ii) *Provided further,* That when delivery is made in any part by water transportation, to these maximum delivered prices may be added any excess in the charges for war risk marine insurance above the charges prevailing prior to January 8, 1942: (iii) *Provided further,* That this paragraph need not apply (a) in the case of a shipment to or based upon Gulf or Pacific Coast points, if the customary means of transportation are not used, or (b) if the shipment is outside the usual market area, as defined in § 1306.8 (f), in which cases the shipment may be priced in accordance with paragraph (b) of Appendix A (§ 1306.10).

(h) (1) "Extras" means when used with reference to domestic sales (i) the published or quoted extras of the subsidiaries of the U. S. Steel Corporation as of April 16, 1941, or (ii) the published or quoted extras of the individual producer, as of April 16, 1941, being additions to or deductions from the base price to make adjustment for variations in the product sold from the product governed by the base price, which variations might be in size or other physical specifications, chemical analysis, processing or other quality or treatment or in the quantity of the product: *Provided,* That (except as permitted under § 1306.10 (h)) where any extra may have been so published or quoted but had not been charged, in whole or in part, by a producer for a specific application to a particular group or groups of buyers on April 16, 1941, or during the two years prior thereto, before such published extra may be charged or invoiced by such producer after March 15, 1942, to such particular group or groups of buyers such producer must apply for approval to and receive approval from the Office of Price Administration for the charging of such extra for such application to such particular group or groups of buyers.

Any extra approved by the Office of Price Administration under this section may after publication thereof be charged by all producers covered by this schedule. Without limiting the generality of this proviso, approval may be denied for the charging of any such extra, even if published as of April 16, 1941, to the extent that such extra during the two years prior to April 16, 1941, had been generally ignored in pricing steel for a particular group or groups of buyers so that the failure to charge such extra constituted a customary trade practice in respect to such buyers.

(2) "Extras" when used with reference to export sales means (i) the export extras published or quoted by the United States Steel Export Company, by the Steel Export Association, or by the individual producer, as of April 16, 1941; or

[1] See Price Schedule No. 10.

(ii) where extras provided under (i) are not applicable, domestic extras as defined in paragraph (h) (1) above.*

§ 1306.9 *Effective date of the Schedule.* This Schedule shall become effective April 17, 1941.*

This amendment No. 2 (§§ 1306.1 to 1306.14 inclusive) shall become effective February 4, 1942.

Issued this 4th day of February 1942.

LEON HENDERSON,
Administrator.

§ 1306.10 *Appendix A; domestic and export ceiling prices for sales by producers of iron and steel products.* (a) The domestic ceiling delivered price for any iron or steel product for which there are basing point base prices shall be the aggregate of:

(1) The basing point base price at the *governing* basing point;

(2) Applicable extras, as defined in and subject to the provisions of § 1306.8 (h) (i): *Provided,* That in no case shall an extra or extras be charged for any processing, testing, chemical specification, special quality, quantity, etc., unless these services are actually performed and are necessary in order to furnish an iron or steel product of a type and quality required to fabricate successfully the article in question or to meet the specifications of the purchaser.

(3) Transportation charges in effect at the time of shipment from the governing basing point to the place of delivery as customarily computed.

(b) Notwithstanding the provisions of paragraph (a), if in any case in which by reason of unusual circumstances arising directly from the emergency demands of the war program, a shipment of any product is made to a place which is not within the usual market area of the mill from which shipment is made, the emergency basing point may be used and transportation charges may be calculated from the emergency basing point to the place of delivery. Such transportation charges shall in no case exceed the actual cost of transportation on the shipment. All persons selling iron or steel products under this paragraph (b) shall maintain complete and readily available records of all such sales and shall report such sales to the Office of Price Administration as the Office of Price Administration may from time to time require.

(c) The export ceiling price for any iron or steel product for which there are basing point base prices shall be the aggregate of: (1) the basing point base price at the governing basing point or at the emergency basing point; (2) applicable export extras; (3) export transportation charges in effect at the time of shipment from the governing or emergency basing point to the place of delivery, as customarily computed: *Provided,* That the export price at a particular seaboard point may be the aggregate of (i) the export base price of United States Steel Export Company F. A. S. seaboard at such point in effect on April 16, 1941, (whether sales are F. A. S. or F. O. B. mill with freight prepaid to seaboard) (ii) applicable export extras. In the case of C. I. F. sales adjustments for additional transportation and insurance charges may be made. (Such F. A. S. prices for principal products at principal ports are listed in § 1306.13 Appendix D).

(d) The ceiling delivered price for any iron or steel product for which there are basing point base prices when such products are purchased for account of the Lend-Lease Administration, shall be the aggregate of (1) the domestic basing point base price at the governing basing point, or at the emergency basing point; (2) applicable domestic or export extras; and (3) export transportation charges in effect at the time of shipment from the governing or emergency basing point to the place of delivery, as customarily computed.

(e) For all iron or steel products, such as specialty products, for which there are no basing point base prices and extras or United States Steel Export Company F. A. S. seaboard prices, the ceiling prices shall be the prices and extras which were or would have been charged by the seller on April 16, 1941 (upon the basis of the prices, discounts, charges, or extras then listed or quoted by the seller) for such iron or steel products.

(f) The maximum delivered price for all seconds or off-grade iron or steel products shall not exceed the maximum delivered price for comparable iron or steel products of prime quality.

(g) The maximum base price for carbon steel ingots, rerolling quality, standard analysis, shall be $31.00 per gross ton, f. o. b. mill.

(h) In any case in which the maximum prices set forth in this Schedule are not applicable to a new product or a substantial variation in a product or a new process, the producer shall file with the Office of Price Administration his prices or charges for such product or process, and the Office of Price Administration reserves the right to disapprove the charging of such prices or charges.

(i) All customary or general privileges in effect as of April 16, 1941, including, without limiting the generality of the foregoing, delivery and other services of all kinds, credit or other terms of payment, functional discounts and allowances such as those customarily made to jobbers, dealers or other distributors and discounts and allowances customarily made to specific classes of purchasers such as manufacturers of roofing materials, chain link fencing, culverts, etc., shall be continued without diminution or extra charge: *Provided,* That this paragraph shall not apply to any reductions in published or quoted base prices arising from specific competitive situations.

§ 1306.11 *Appendix B; products included in the definition of iron or steel products, § 1306.9 (c).* The following iron and steel products and their alloys (including stainless) are "Iron or steel Products" as defined in § 1306.9 (c). This list does not limit the generality of the definition of iron and steel products contained in § 1306.9 (c).

PART 1312—LUMBER AND LUMBER PRODUCTS

PRICE SCHEDULE NO. 97—SOUTHERN HARDWOOD LUMBER

Southern hardwood lumber is an industrial wood extensively used in the manufacture of furniture, automobile trucks, containers, radio cabinets, agricultural implements, and farm and household utensils. The war effort and the accompanying expanded economic activity have increased the demand for certain species and grades of southern hardwood lumber beyond the readily available supply. As a consequence, inflationary pressure has caused and continues to cause price increases which outstrip advances in costs, and which will serve no purpose in bringing out appreciably increased production. Attempts by individual producers to maintain reasonable prices have proved unsatisfactory because demand is accelerating, and because many operators have refused to cooperate with the Government in stabilizing prices. Under these circumstances, voluntary cooperation with the request of the Office of Price Administration to maintain reasonable prices would subject those complying with the request to unjust discrimination.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1312.301 *Maximum prices for southern hardwood lumber.* On and after February 20, 1942, regardless of the terms of any contract of sale or purchase or other commitment, no person shall sell, offer to sell, deliver, or transfer, for domestic use or export use, any southern hardwood lumber, where shipment originates at the mill rather than at a distribution yard, at prices higher than the maximum prices set forth in Appendices A and B, incorporated herein as §§ 1312.309 and 1312.310, respectively: *Provided*, That a shipment pursuant to an order of less than 1,000 feet of southern hardwood lumber shall not be subject to this Schedule: *And provided*, That this Schedule shall not apply where actual delivery has been made to a purchaser, or to a carrier for delivery to a purchaser, prior to February 20, 1942.*

§§ 1312.301 to 1312.310, inclusive, issued pursuant to authority contained in Executive Orders Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1312.302 *Less than maximum prices.* Lower prices than those set forth in Appendices A and B may be charged, demanded, paid or offered.*

§ 1312.303 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery or transfer of southern hardwood lumber, alone or in conjunction with any other material; or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege; or by tying-agreement, or other trade understanding; or by making terms or conditions of sale more onerous than those in effect or available to the purchaser on October 1, 1941; or by unnecessarily routing lumber through a distribution yard; or by unreasonably refusing to ship except in mixed cars or trucks, or under other circumstances entitling the seller to a premium; or by charges for delivery which exceed the actual cost to the seller of such delivery (except as provided in §§ 1312.309 (e) and 1312.310 (d)); or by falsely or wrongly grading or invoicing lumber; or by grading as a special grade lumber which can be graded as a standard grade; or by any other means.*

§ 1312.304 *Records and reports.* Every person who, during any calendar month after February 1942, shall sell 34,000 pounds or more of southern hardwood lumber for shipment originating at the mill shall keep for inspection by the Office of Price Administration, for a period of not less than one year, a complete and accurate record of every such sale made during such month, showing the date thereof, the name and address of the buyer, the prices, and the quantities and grades sold.

Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may from time to time require.*

§ 1312.305 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government, both state and federal, are fully exerted in order to protect the public interest and interests of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county, and local governments by calling to the attention of the proper authorities failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits; and (d) that the procurement and other services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation, or manipulation of prices of southern hardwood lumber, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1312.306 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That no application under this section will be considered unless filed by persons complying with this Schedule.*

§ 1312.307 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity. The term includes, without restricting the generality of the foregoing, any mill operator, manufacturer, commission salesman, manufacturer's representative, concentration yard operator, wholesaler, distributor, wholesaler's agent, or retailer.

(b) "Feet" means board feet of lumber, except that with reference to lumber in thicknesses of ¾" and ⅝" the term "feet" means surface feet.

(c) "Southern hardwood lumber" means lumber (1) produced from the botanical species of sap sweet gum and red sweet gum (Liquidamber styraciflua), tupelo (Nyssa aquatica), black gum (Nyssa sylvatica), yellow poplar (Liriodendron tulipifera), beech (Fagus americana), sycamore (Platanus occidentalis), soft maple (Acer rubrum); and the botanical species included in the genera of red oak and white oak (Quercus), magnolia (Magnolia), elm (Ulmus), cottonwood (Populas), willow (Salix), hackberry (Celtis), hickory (Hicoria), basswood (Tilia), and ash (Fraximus), and (2) processed into lumber at mills located in Alabama, Arkansas, Florida, Louisiana, Mississippi and Texas, and those portions of North Carolina, South Carolina, Virginia, Georgia, Kentucky and Tennessee not included in the "Appalachian hardwoods area". The "Appalachian hardwoods area" is that area circumscribed by a line beginning at the intersection of the western line of the State of West Virginia and the western line of the State of Pennsylvania; thence southwesterly on the western line of West Virginia to the western boundary of Boyd County, Kentucky; thence extending southwesterly through Kentucky along the generally northwestern boundaries of the following counties: Boyd, Carter, Rowan, Menifee, Powell, Estill, Jackson, Rockcastle, Pulaski, Wayne, and Clinton to the Tennessee state line; thence westerly along said state line to the western boundary of Pickett County, Tennessee; thence southerly in Tennessee along the western boundaries of Pickett, Fentress, Morgan, Roane, Rhea, and Hamilton Counties to the intersection of the western boundary of Hamilton County and the Nashville, Chattanooga, and St. Louis Railroad; thence easterly along said railroad through Chattanooga to the intersection of said railroad and the Georgia state line; thence easterly along said state line to the western boundary of Fannin County, Georgia; thence southeasterly in Georgia along the southwestern boundaries of Fannin County and Lumpkin County; thence generally easterly in Georgia along the southeastern boundary of Lumpkin County, the southern boundary of White County, and the southern and eastern boundaries of Habersham County to the South Carolina state line; thence southeasterly along said line to the southeastern boundary of Oconee County, South Carolina; thence in a generally northeasterly direction through South Carolina along the southeastern boundaries of Oconee and Pickens Counties, and the western, southern, and eastern boundaries of Greenville County to the North Carolina state line; thence easterly along the southern line of North Carolina to the eastern boundary of Cleveland County, North Carolina; thence northerly in North Carolina along the eastern boundaries of Cleveland and Burke Counties; thence continuing generally northeasterly in North Carolina along the eastern or southern boundaries of Alexander, Wilkes and Surry Counties to the Virginia state line; thence east on said state line to the eastern boundary of Patrick County, Virginia; thence northeasterly through Virginia, following the eastern boundary of Patrick County and the southwestern boundary of Fauquier Bedford, Amherst, Nelson, Albemarle, Greene, Madison, and Rappahannock Counties, turning southerly along the southeastern boundary of Fauquier County, and resuming a generally northerly direction along the eastern boundaries of Fauquier and Loudoun Counties to the Maryland state line; thence northwesterly along said state line to the eastern boundary of Frederick County, Maryland; thence northerly through Maryland along the eastern boundary of Frederick County to the Pennsylvania state line; thence westerly and thence northerly along said state line to the starting point. All sawmills on the boundary line of the Appalachian hardwoods area shall be deemed to be in the southern hardwoods area, except that mills in West Virginia and Maryland on the lines touching Pennsylvania and Ohio shall be deemed to be in the Appalachian area.

(d) "Tough white ash" means the botanical species Fraximus americana.

(e) "Mill" means a manufacturing plant, concentration yard, or other establishment which processes, by sawing, or by planing or other comparable method, at least 25 per cent of the volume of southern hardwood logs or lumber purchased or received by it.

(f) "Distribution yard" means a wholesale or retail lumber yard which purchases or receives southern hardwood lumber from a producer, a mill, or another distribution yard for purposes of

unloading, sorting, and resale or redistribution, which regularly maintains a stock of lumber, and which processes, by sawing, or by planing or other comparable method, less than 25 per cent of the volume of such lumber so purchased or received by it.

(g) "Volume" means the board feet volume of lumber processed from logs, processed from other lumber, or sold, as the case may be, within the six months immediately prior to the transaction subject to this Schedule.

(h) "Deliver" means to make physical transfer of lumber to a purchaser, or to a carrier, not owned or controlled by the seller, for carriage to a purchaser."

§1312.308 *Effective date of the Schedule.* This Schedule (§§ 1312.301 to 1312.310, inclusive) shall become effective February 20, 1942."

§ 1312.309 *Appendix A; maximum prices for southern hardwood lumber (other than tough white ash).* (a) The maximum f. o. b. mill prices per 1,000 feet of southern hardwood lumber (other than tough white ash), rough, air dried, shall be as follows:

Resawing and surfacing 1 or 2 sides	5.50	4.75

(4) Inspecting, grading and measuring after kiln drying: 5 per cent of the f. o. b. mill price of the lumber.

(5) End-racking or band sawing: No addition.

(c) For mixed car or mixed truck shipments, $2.00 additional per 1,000 feet of southern hardwood lumber (other than tough white ash) may be charged. A mixed car shipment consists of four or more items as hereinafter defined, provided at least four items amount to not less than 3,000 feet each, or at least six items amount to not less than 2,000 feet each. A mixed truck shipment consists of four or more items as hereinafter defined, provided at least four items amount to not less than 500 feet each, or at least six items amount to not less than 300 feet each. An item consists of one species, thickness, and grade of southern hardwood lumber.

(d) For all export sales an addition of not more than $1.50 per 1,000 feet of southern hardwood lumber may be charged if the seller performs the services of marking and bundling. For export sales on a c. i. f. or on a c. a. f. basis a separate addition of $2.00 per 1,000 feet of southern hardwood lumber may be charged.

(e) A delivered price in excess of the maximum f. o. b. mill prices set forth in (a) hereof, may be charged, consisting of such maximum prices plus actual transportation costs paid by the seller. However, for the purposes of this section, the following two practices shall not be deemed a deviation from the use of actual transportation costs:

(1) the charging of a sum equivalent to the one-quarter of a dollar nearest to such actual transportation costs; and

(2) the computation of transportation costs on the basis of a system of estimated average weights established by the seller, and adhered to by him during the period October 1 to October 15, 1941: *Provided*, That a copy of such system of estimated average weights has been filed with the Office of Price Administration either before the use of such system in a transaction subject to this Schedule, or within thirty days of the effective date of this Schedule."

§ 1312.310 *Appendix B; maximum prices for tough white ash lumber.* (a) The maximum prices per 1,000 feet of rough, air dried or "shipping-dry" tough white ash lumber f. o. b. concentrating point (which is the point at which such tough white ash lumber is collected, or produced, and prepared for shipment in

such grades, thicknesses, and quantities as specified by the consuming trade) shall be as follows:

Thickness	F. A. S.	No. 1 Common and Selects; or No. 1 Common	No. 2 Common	No. 3 Common
1"	$70.00	$40.00	$29.00	$19.00
1¼"	75.00	45.00	30.00	17.00
1½"	82.00	55.00	31.00	17.00
2"	90.00	65.00	32.00	18.00
2½"	105.00	70.00	33.00	----------
3"	115.00	80.00	35.00	----------

The above maximum prices do not apply to green tough white ash lumber.

(b) An addition of 50¢ per 1,000 feet of rough, air dried or "shipping-dry" tough white ash lumber may be charged for anti-stain treatment.

(c) For export sales, additions may be charged in accordance with the terms of paragraph (d) of Appendix A.

(d) A delivered price in excess of the maximum f. o. b. concentrating point price set forth in (a) hereof may be charged in accordance with the terms of paragraph (e) of Appendix A.

PART 1330—CONTAINERS

PRICE SCHEDULE NO. 96—DOMESTIC FUEL OIL STORAGE TANKS

Oil storage tanks are indispensible to domestic oil burner installations, many of which are used in defense housing projects. Jobbers' prices for a typical basement tank have more than doubled in some localities during the past year. These price increases far out-strip the increased production costs and the increased selling prices to jobbers which were reported by manufacturers to the Office of Price Administration. Reports of hoarding have been numerous, and the market has been upset by a growing scarcity caused by shortages of steel.

Present inflated storage tank prices make it impractical in many localities to equip new defense houses with low cost, automatic oil heat. Moreover, high tank prices have not resulted in expanded production, because of preference orders affecting sheet steel, or in the development of satisfactory substitutes for steel tanks.

The Office of Price Administration has determined that the establishment of maximum prices for domestic fuel oil storage tanks is essential to maintain price stability and prevent undue price rises and is necessary to protect consumers, the industry, and the national economy. After analysis of information submitted by the industry, a conference with producers and distributors, and full consideration of all relevant factors, it was determined that representative prices charged by manufacturers during the first two weeks in October 1941, adjusted to allow distributors a reasonable mark-up, would constitute fair and equitable ceiling prices.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1330.101 *Maximum prices for fuel oil storage tanks.* On and after February 20, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver, or transfer any domestic fuel oil storage tanks, other than on an installed basis, at prices higher than the maximum prices set forth in Appendices A, B, and C hereof, incorporated herein as §§ 1330.110, 1330.111, and 1330.112, respectively.*

*§§ 1330.101 to 1330.112, inclusive, issued pursuant to authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1330.102 *Less than maximum prices.* Lower prices than those set forth in Appendices A, B, and C may be charged, demanded, paid, or offered.*

§ 1330.103 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery, or transfer of domestic fuel oil storage tanks, alone or in conjunction with any other material; or by way of any commission, service, transportation or other charge; or by a tying-agreement or other trade understanding; or by making terms and conditions of sale more onerous to the purchaser than those available or in effect on October 15, 1941; or by unreasonably refusing to ship in carload and truckload quantities when available; or by excessive charges for tank accessories; or by any other means.*

§ 1330.104 *Labeling by manufacturers.* Every manufacturer shall permanently affix to each domestic fuel oil storage tank manufactured by him a durable label setting forth the name and location of the manufacturer, the size and capacity of the tank, and the gauge of steel used therein.*

§ 1330.105 *Records and reports.* (a) Every person making purchases or sales, other than on an installed basis, of domestic fuel oil storage tanks of a value of more than $100.00 during any calendar month after February 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year complete and accurate records of (1) each such purchase or sale, showing (i) the date thereof, (ii) the name and address of the buyer and the seller, (iii) the point of delivery of the tank to the buyer, (iv) the price paid or received for the tank (exclusive of accessories other than lugs), (v) the freight paid by the seller and charged to the buyer where the tank is delivered to the buyer within the Midwestern Area (as described in § 1330.111 (a)), (vi) the gauge of steel used in the tank, (vii) whether the tank was sold with or without lugs, (viii) the capacity of the tank in gallons, (ix) the size of the tank in inches, and (x) the quantity of each type of tank purchased or sold, and (2) the quantity of domestic fuel oil storage tanks (i) on hand, and (ii) on order, as of the close of each calendar month.

(b) Every person required by the above paragraph to keep records who purchases or sells tank accessories in conjunction with the transfer of a tank shall likewise keep records showing the details of the tank transfer of which the transfer of accessories is a part, the price paid or received for the accessories, and type and quantity of each such accessory purchased or sold.

(c) Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may from time to time require.*

§ 1330.106 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and public are fully informed thereof, and (b) that the powers of Government, both state and federal, are fully exerted in order to protect the public interest and interests of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county, and local governments by calling to the attention of the proper authorities failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits; and (d) that the procurement and other services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation, or manipulation of prices of domestic fuel oil storage tanks, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1330.107 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That no applications under this section will be considered unless filed by persons complying with this Schedule.*

§ 1330.108 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity. The term includes, without restricting the generality of the foregoing, any manufacturer, commission salesmen, wholesaler, jobber, or dealer.

(b) "Domestic fuel oil storage tanks" means obrotund basement type steel tanks of the gauges of steel, capacities and sizes listed in the applicable Appendix of this Schedule.

(c) "F. o. b. factory price" means a price including all commissions but excluding all freight and delivery charges.

(d) "Delivered price" means a price including all commissions and freight and delivery charges to the location designated by the purchaser.

(e) "Carload quantity" means a shipment of domestic fuel oil storage tanks which is to be moved by rail, the aggregate weight of which totals at least the lowest applicable minimum carload weight as specified in the established tariff of the rail carrier involved, or for which a carload rate would be paid.

(f) "Truckload quantity", when shipment is by common or contract carrier by motor, means a shipment of domestic fuel oil storage tanks, the aggregate weight of which totals the applicable minimum truckload weight as specified in the established tariff of the common or contract carrier by motor involved, which minimum weight is closest to the carload weight referred to in (e) above for a comparable movement. In all other cases the term "truckload quantity" means 18 or more domestic fuel oil storage tanks, shipped by truck.

(g) "Installed basis", when used in reference to a sale or delivery, means a transaction in which the seller furnishes a domestic fuel oil storage tank and, in consideration of the total price paid by the purchaser, performs the service of connecting the tank to an oil burner.*

§ 1330.109 *Effective date of the Schedule.* This Schedule (§§ 1330.101 to 1330.112, inclusive) shall become effective February 20, 1942.

§ 1330.110 *Appendix A; maximum prices for domestic fuel oil storage tanks for the Eastern Area*—(a) *Application.* The provisions of Appendix A apply to all sales of domestic fuel oil storage tanks for which delivery to the buyer is within the states of Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, and the District of Columbia.

(b) *Delivered prices of tanks, with lugs, when delivery is within the Eastern Area.*

Maximum allowance for each extra transverse seam: 75¢.
No allowance for extra longitudinal seams.
Maximum allowance for lugs: $1.00 per tank.

(c) Where shipment is made directly from factory to purchaser, a delivered price in excess of the maximum f. o. b. factory prices set forth in (b) hereof may be charged, consisting of such maximum prices plus actual transportation costs to the extent that such costs are paid by the seller.

(d) Where shipment is made to a purchaser from some place other than the factory a delivered price in excess of the maximum f. o. b. factory prices set forth in (b) hereof may be charged, consisting of such maximum prices plus actual transportation costs from the factory to the place at which the shipment originates. No further addition to such maximum price may be made for transportation costs from the place at which such shipment originates to the location designated by the purchaser.

§ 1330.112 *Appendix C; maximum prices for domestic fuel oil storage tanks for the Pacific Coast Area*—(a) *Application.* The provision of Appendix C apply to all sales of domestic fuel oil storage tanks for which delivery to the buyer is within the states of Washington, Oregon, and California.

(b) *F. o. b. factory prices of tanks, with lugs, when delivery is within the Pacific Coast Area:*

TITLE 41—PUBLIC CONTRACTS

CHAPTER II—DIVISION OF PUBLIC CONTRACTS

PART 202—MINIMUM WAGE DETERMINATIONS

AMENDMENT TO AND EXTENSION OF DETERMINATION OF PREVAILING MINIMUM WAGE IN MEN'S UNDERWEAR INDUSTRY

This matter is before me pursuant to section 1 (b) of the Act of June 30, 1936 (49 Stat. 2036; 41 U.S.C. Sup. III 35), entitled "An Act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes", otherwise known as the Walsh-Healey Public Contracts Act.

On December 15, 1941, the Administrator of the Division of Public Contracts issued a notice of opportunity to show cause (6 F.R. 6524) why my decision dated July 28, 1937, In the Matter of the Determination of the Prevailing Minimum Wage in the Men's Underwear Industry, should not be extended to coincide with and cover the products of the industry as defined in the wage order issued by the Administrator of the Wage and Hour Division pursuant to the provisions of the Fair Labor Standards Act of 1938 (6 F.R. 5323), and amended by increasing the prevailing minimum wage as determined therein from 35 cents an hour in the North and 32.5 cents an hour in the South to 40 cents an hour in both the North and South, with provision for the employment of learners and handicapped workers in accordance with the applicable regulations issued by the Administrator of the Wage and Hour Division.

The proposed extension and amendment was predicated upon evidence before the Department of Labor that the Knitted and Men's Woven Underwear and Commercial Knitting Industry, as defined in the aforementioned wage order issued by the Administrator of

the Wage and Hour Division, is predominately interstate in character, and that in consequence, the wage order has had the effect of establishing 40 cents per hour as the prevailing minimum wage in that industry within the meaning of section 1 (b) of the Walsh-Healey Public Contracts Act.

The notice of opportunity to show cause was sent to members of the industry who had been awarded contracts for the products affected thereby as well as those who had evidenced an interest in the original proceeding, to trade unions, trade publications, and trade associations. Notice was also given to other interested parties through the national press and by publication in the FEDERAL REGISTER (6 F.R. 6524).

Endorsement of the proposal was received from the Textile Workers Union of America, and approval was also registered by an employer-member of Industry Committee No. 28 appointed pursuant to the provisions of the Fair Labor Standards Act, representing the Midwest. The Underwear Institute advised that it did not oppose the 40-cent minimum, but reserved the objections which it had previously filed with the Wage and Hour Division to the learner regulations presently effective under the Fair Labor Standards Act and requested that such objections be made a part of the record in this proceeding. Industry Committee No. 28 having unanimously adopted a resolution recommending to the Administrator of the Wage and Hour Division that he consider a more liberal application of the learner regulations effective in the industry, a hearing has been held for the purposes of determining what, if any, modifications of the learner regulations should be adopted. The matter is now under consideration on the basis of all of the evidence of record, including the objections of the Underwear Institute to the present learner regulations and its recommendations for their revision. In the meantime, the coordination of the minimum wage requirements of the two Acts should not be deferred, and having in mind that my determination of July 28, 1937 now in effect does not provide a tolerance for learners, I shall adopt the learner regulations presently effective under the Fair Labor Standards Act for the purposes of this determination.

Upon consideration of all the facts and circumstances, I hereby determine that:

The title of the industry for the purpose of this determination shall be: "Knitted and Men's Woven Underwear and Commercial Knitting Industry".

§ 202.5 *Knitted and men's woven underwear and commercial knitting.* The minimum wage for employees engaged in the performance of contracts with agencies of the United States Government, subject to the provisions of the Act of June 30, 1936 (49 Stat. 2036; 41 U.S.C., Sup. III, 35), contemplating any of the following described manufacturing, processing, and finishing operations, shall be 40 cents per hour or $16.00 per week of forty hours, arrived at either upon a time or piece work basis:

(a) The manufacturing, dyeing or other finishing of any knitted fabric made from any yarn or mixture of yarns, except:

(1) The knitting from any yarn or mixture of yarns and the further manufacturing, dyeing or other finishing of knitted garments, knitted garmet sections or knitted garment accessories for use as external apparel or covering which are partially or completely manufactured in the same establishment as that where the knitting process is performed; provided that this exception shall not be construed to apply to the garments or garment accessories designated in clause (b) of this definition.

(2) Fulled suitings, coatings, topcoatings, or overcoatings containing more than 25 percent, by weight, of wool or animal fiber other than silk.

(3) Hosiery.

(b) The manufacturing, dyeing or other finishing, from any yarn or mixture of yarns, or from purchased knitted fabric, of any of the following products:

(1) Knitted garments or garment accessories for use as underwear, sleeping wear, or negligees.

(2) Fleece-lined garments made from knitted fabric containing cotton only or containing any mixture of cotton and not more than 25 percent, by weight, of wool or animal fiber other than silk.

(3) Knitted shirts of cotton or any synthetic fiber or any mixture of such fibers which have been knit on machinery of 10-cut or finer in the same establishment as that where the knitting process is performed.

(4) Knitted towels or cloths.

(c) The manufacturing of men's and boys' underwear from any woven fabric.

Provided, That learners and handicapped workers may be employed in accordance with the present regulations under the Fair Labor Standards Act, which I hereby adopt for purposes of this wage determination.

This determination shall be effective and the minimum wages hereby established shall apply to all contracts subject to the aforesaid Act of June 30, 1936, bids for which are solicited or negotiations otherwise commenced on and after March 3, 1942.

Nothing in this determination shall affect such obligations for the payment of minimum wages as an employer may have under the Fair Labor Standards Act of 1938 or any other law, or agreement more favorable to employees than the requirements of this determination.

Secretary of Labor.

TITLE 47—TELECOMMUNICATION

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Order No. 90]

PART 2—GENERAL RULES AND REGULATIONS

"STANDARD TIME" CHANGED IN PERMITS, LICENSES, ETC.

At a session of the Federal Communications Commission held at its offices, Washington, D. C., on the 3d day of February 1942.

It appearing that there are a large number of existing construction permits, licenses and special authorizations for standard broadcast stations which provide that the licensee or permittee shall commence operation at "sunrise" and cease operation at "sunset" and which specify the average times of sunrise and sunset for each month in accordance with standard time based upon "mean astronomical time" as established by the Act of March 19, 1918, and

It further appearing that Public Law No. 403 approved January 20, 1942, now establishes "standard time" as one hour in advance of "mean astronomical time" as established by the Act of March 19, 1918;

Now, therefore, it is ordered, That the specified average times of sunrise and sunset in all existing instruments of authorization for standard broadcast stations shall be advanced one hour pursuant to Public Law No. 403, approved January 20, 1942.

This Order shall become effective 2:00 o'clock a. m., February 9, 1942.

By the Commission.

Notices

DEPARTMENT OF LABOR.

Division of Public Contracts.

IN THE MATTER OF THE DETERMINATION OF THE PREVAILING MINIMUM WAGES IN THE SEAMLESS HOSIERY INDUSTRY

NOTICE OF OPPORTUNITY TO SHOW CAUSE

Under date of July 28, 1937, following a public hearing held after due notice to all interested parties, the Secretary of Labor, pursuant to the provisions of section 1 (b) of the Act of June 30, 1936 (49 Stat. 2036; 41 U.S.C. Sup. III 35), determined the minimum wage for employees engaged in the performance of contracts with agencies of the United States, subject to said Act, for the manufacture or supply of seamless hosiery to be 35 cents per hour, or $14.00 per week of forty hours, arrived at either upon a time or piece work basis (2 F.R. 1338), with the provision that a tolerance of not to exceed 5% of the workers in any one establishment be granted for those workers who are in fact learners, handicapped or superannuated workers, subject to the conditions that they be paid not less than 26 cents an hour or $11.20 per week of forty hours, and not less than the piece rates paid to other workers in the same establishment.

On September 15, 1941, the minimum wage required to be paid by seamless hosiery manufacturers subject to the provisions of the Fair Labor Standards Act of 1938 became 36 cents per hour. (Wage Order of the Administrator, Wage and Hour Division, U. S. Department of Labor, establishing minimum wage rates in the Seamless Hosiery Industry, signed July 10, 1941, 6 F.R. 3583).

Inasmuch as it is believed that the aforementioned Wage Order issued pursuant to the provisions of the Fair Labor Standards Act of 1938 has had the effect of establishing 36 cents per hour as the prevailing minimum wage in the Seamless Hosiery Industry within the meaning of section 1 (b) of the aforementioned Act of June 30, 1936, otherwise known as the Walsh-Healey Public Contracts Act; and

The Administrator of the Wage and Hour Division having issued regulations applicable to the employment of learners in the Hosiery Industry (29 CFR 522); and

The Administrator of the Wage and Hour Division having heretofore issued regulations concerning the employment of handicapped workers in the performance of work subject to the provisions of the Fair Labor Standards Act (29 CFR 524); and

[33a] As determined by the Standards of Good Engineering Practice Governing Standard Broadcast Stations and the North American Regional Broadcasting Agreement. (Sec. 4 (i), 48 Stat. 1068; 47 U.S.C. 154 (i)—Sec. 303 (f), 48 Stat. 1082; 47 U.S.C. 303 (f))

[1] Filed as part of the original document.

It appearing that the best interests of management and labor will be served if the regulations of the Administrator of the Wage and Hour Division, as cited above, be made applicable in their entirety to contracts awarded under the Public Contracts Act and the Secretary's determination In the Matter of the Prevailing Minimum Wages in the Seamless Hosiery Industry. Accordingly,

Notice is hereby given to all interested persons of the opportunity to show cause, on or before February 17, 1942, why the Secretary should not modify the determination In the Matter of the Prevailing Minimum Wages in the Seamless Hosiery Industry by finding that the prevailing minimum wage for persons now employed in that industry is 36 cents per hour or $14.40 per week of forty hours and why the Secretary should not further modify the determination for the Seamless Hosiery Industry to provide that applicable regulations for the employment of learners and handicapped workers issued by the Administrator of the Wage and Hour Division be adopted by the Secretary as applicable to contracts awarded subject to the Secretary's decision for the Seamless Hosiery Industry.

All objections or protests should be addressed to the Administrator, Division of Public Contracts, U. S. Department of Labor, Washington, D. C. An original and four copies should be filed.

Dated: February 3, 1942.

[SEAL] L. METCALFE WALLING,
Administrator.

CIVIL SERVICE COMMISSION.

CONDITION OF THE APPORTIONMENT AT CLOSE OF BUSINESS SATURDAY, JANUARY 31, 1942

Important. Although the apportioned classified Civil Service is by law located only in Washington, D. C., it nevertheless includes only about half of the Federal Civilian positions in the District of Columbia. Positions in local post offices, customs districts and other field services outside of the District of Columbia which are subject to the Civil Service Act are filled almost wholly by persons who are local residents of the general community in which the vacancies exist. It should be noted and understood that so long as a person occupies, by original appointment, a position in the apportioned service, the charge for his appointment continues to run against his state of original residence. Certifications of eligibles are first made from states which are in arrears.

IN THE MATTER OF WESTERN NEW YORK FUND, INCORPORATED

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 5th day of February, A. D. 1942.

An application having been filed by the above named applicant for an order pursuant to the provisions of section 23 (c) (3) of the Investment Company Act of 1940 exempting it from the provisions of Rule N-23C-1 promulgated thereunder insofar as such rule limits the amount of repurchases of its outstanding stock to one percent a month, so that it can purchase not more than 12,500 shares of its common stock from Goodbody and Co., members New York Stock Exchange;

It is ordered, That a hearing on the aforesaid application be held on February 10, 1942 at 10:15 o'clock in the forenoon of that day, in the Securities and Exchange Commission Building, 1778 Pennsylvania Avenue Northwest, Washington, D. C. On such date the hearing room clerk in Room 1102 will advise interested parties where such hearing will be held.

It is further ordered, That Willis E. Monty, Esquire, or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearing for such matter. The officer so designated to preside at such hearing is hereby authorized to exercise any powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940, and to Trial Examiners under the Commission's Rules of Practice.

Notice of such hearing is hereby given to the above named applicant and to any other persons whose participation in such proceeding may be in the public interest or for the protection of public investors.

EXECUTIVE ORDER

AUTHORIZING AND DIRECTING THE UNITED STATES MARITIME COMMISSION TO RESELL THE S. S. "NORMANDIE" TO THE FORMER OWNERS THEREOF

WHEREAS section 1 of the act of Congress approved June 6, 1941 (Public Law 101, 77th Congress), provides, in part:

• • • during the existence of the national emergency declared by the President on September 8, 1939, to exist, but not after June 30, 1942, the President is authorized and empowered, through such agency or officer as he shall designate, to purchase, requisition, for any period during such emergency charter or requisition the use of, or take over the title to, or the possession of, for such use or disposition as he shall direct, any foreign merchant vessel which is lying idle in waters within the jurisdiction of the United States, including the Philippine Islands and the Canal Zone, and which is necessary to the national defense • • •

AND WHEREAS the United States Maritime Commission (herein called the "Commission"), by virtue of the authority vested in it by the aforesaid act and by the Executive order dated June 6, 1941 and amendment thereto, took over the title to the possession of the S. S. *Normandie*, a foreign merchant vessel lying idle in waters within the jurisdiction of the United States, effective as of December 16, 1941;

AND WHEREAS the French Government has requested that said vessel, unless lost, be returned to the former owners thereof when the present emergency shall have ceased and the United States shall no longer have need of said vessel:

NOW, THEREFORE, by virtue of the authority vested in me by the aforesaid act, it is hereby ordered that, without limiting the authority of the Commission under the provisions of sections 3, 4, and 5 of the aforesaid act, or under the said Executive order or amendment thereto, or under any other provision of law, the Commission is authorized, upon such terms and conditions as the Commission shall deem desirable and conducive to the national defense, to agree to resell the S. S. *Normandie* to the former owners thereof, or their successors, and to re-deliver the same to said former owners, or their successors, whenever the present emergency shall have ceased and the Commission shall determine that the United States no longer has need of said vessel.

§ 73.302 *Examinations.* General examinations will be conducted under the supervision of corps area commanders—

(a) *Preliminary.* A preliminary examination will be conducted at each post by a board of officers who will examine the applications and reports of physical examination, interview the applicants, and determine whether or not they possess the moral character, general fitness, and educational and technical qualifications necessary to justify their further consideration.

(b) *Final.* A final written examination will be conducted by post commanders under the supervision of corps area commanders and in accordance with special instructions issued by the War Department. This examination is general will consist of two parts: first, a general educational examination taken by all applicants; and second, a technical examination to determine the applicant's specialist qualifications.

These examinations will be scored by corps area commanders under instructions issued by the War Department.* [Par. 5]

§ 73.303 *Appointments.* Successful applicants will be reported by corps area commanders to the War Department. From a consolidated report arranged by classification of all such reports, the War Department will arrange a single list in order of military grade, length of service, and age. Appointments will be tendered to successful applicants in such numbers as may be required to fill existing vacancies. An additional number of successful applicants necessary to cover possible vacancies during the year will be carried on an eligible list for appointment until the next succeeding examination for appointment is held, but in no case longer than 1 year. All original permanent appointments as warrant officer, junior grade, will be probationary for a period of 3 years. See §§ 73.314 and 73.316.* [Par. 6]

Eligibility[1]

§ 73.304 *Age requirements.* All applicants must have attained their twenty-first birthday and must not have passed their forty-fifth birthday at the time of their appointment. If in active military service, applicants may be permitted to apply for appointment provided they are not less than 20 years and 9 months nor more than 44 years and 9 months of age on the date of the final examination.* [Par. 7]

§ 73.305 *Grade.* (a) Permanent appointments in the Regular Army as warrant officer, junior grade, will be tendered only to officers (except Regular Army officers), temporary warrant officers, and noncommissioned officers of the Army of the United States, and to former officers and noncommissioned officers of the Regular Army, whose separation from active service was under honorable conditions.

(b) In time of war or national emergency, other qualified applicants may be tendered temporary appointments as warrant officers, junior grade, in the Army of the United States.* [Par. 8]

§ 73.306 *Service requirements.* (a) Permanent appointments in the Regular Army as warrant officers, junior grade, will be tendered only to officers and noncommissioned officers who have completed 3 years' continuous service on active duty in the Army of the United States.

(b) Temporary appointments may be tendered only to persons who have completed not less than 1 year's continuous service on active duty in the Army of the United States.* [Par. 9]

§ 73.307 *Physical standards.* All applicants will be required to meet the physical standards prescribed for appointment as commissioned officers. See paragraph 18, AR 40–105.[1]* [Par. 10]

§ 73.308 *Education.* The general educational examination is considered to require graduation from an accredited high school, or the equivalent thereof, in order to obtain a qualifying mark. Certain technical examinations are considered to require the equivalent of 2 years of college, business, or trade school, or the equivalent thereof, in order to obtain a qualifying mark. The application of any candidate who received a score of less than 110 on the Army general classification test will be returned disapproved.* [Par. 11]

§ 73.309 *Civilian experience.* In cases where civilian experience is similar to that of the warrant officer classification for which appointment is being sought, consideration will be given for this experience as a substitute for a portion of the military service requirement prescribed in § 73.306. For details see §§ 73.318 and 73.319.* [Par. 12]

Application, Examination and Appointment

§ 73.310 *Submission of application.* Application for appointment will be made on W.D., A.G.O. Form No. 61 or a legible facsimile thereof. The application will be accompanied by a completed W.D., A.G.O. Form No. 63 (Report of Physical Examination) and will be submitted to the applicant's unit or detachment commander. Persons not in active military service will submit their applications to the nearest Army post commander. Applications will be submitted not later than September 30 of each year in which an examination is held. When special examinations are announced by the War Department, the date of submission of applications will be indicated in such announcement.* [Par. 13]

§ 73.311 *Preliminary examination*—(a) *Action by post commander.* When all applications have been received, the post commander will appoint a board of officers to conduct the preliminary examination. Wherever the appointment of a board is impracticable, report will be made to the corps area commander who will make suitable arrangements for the conduct of the preliminary examination.

(b) *Examination by board.* The board will carefully examine all applications and reports of physical examinations. Each applicant will appear before the board and will be interviewed by the members thereof. The applicant's past experience and general adaptability in military service, with particular reference to the appointment which he is seeking, will be carefully investigated. The board will observe the applicant's personality, appearance, bearing, moral character, and general fitness for military service. The purposes of the preliminary examination in general will be to eliminate from further consideration those applicants whose future value to the military service is questionable.* [Pars. 15 and 16]

§ 73.312 *Final examination*—(a) *Action by post commander.* The educational and technical examinations will be conducted on March 17–18, 1942, and each subsequent year by the post commander, who will appoint necessary boards of officers to supervise and conduct the final examination in accordance with special instructions issued by the War Department in connection therewith.

(b) *Educational.* The educational examination will be given to all applicants. This examination is designed to ascertain the extent to which the applicant possesses the general education required of warrant officers in the Army. It will test the applicant's powers of comprehension, judgment, and reasoning, and his knowledge of English, United States history, and contemporary affairs. A brief description of the subject matter covered in the educational examination follows:

(1) *Part I—Comprehension*—(i) *Section 1, vocabulary.* This section is designed to measure the candidate's knowledge of military terms and general terms widely used in military language.

(ii) *Section 2, reading comprehension.* This section requires the ability to comprehend details and select the principal ideas in portions of Army Regulations quoted.

(iii) *Section 3.* This section measures the ability to read and interpret charts,

* The regulations contained in §§ 73.304 to 73.309 do not apply to appointment in the Army Mine Planter Service. See §§ 73.330 to 73.333.

paragraphs, and indexes widely used in different types of regulations, manuals, and military documents.

(2) *Part II—Judgment and reasoning*—(i) *Section 1.* This section measures the ability to reason in arithmetic problems, employing simple computations in addition, subtraction, multiplication, division, including decimals, percentages, and proportions.

(ii) *Section 2.* This section requires the ability to make reasonably sound decisions from a number of given facts in both theoretical and real situations.

(iii) *Section 3.* This section measures the ability to make approximate estimates for common sense interpretation of everyday numerical facts.

(3) *Part III—English expression*—(i) *Section 1.* This section is designed to measure the ability to use correct English and to recognize clear and effectively written expressions. It does not measure the ability to state specific rules of technical grammar, but it measures the ability to apply and recognise correct grammatical principles.

(ii) *Section 2.* This section is designed to measure the ability to arrange sentences properly within a paragraph and to arrange an outline.

(4) *Part IV—History and contemporary affairs.* This section is designed to provide a measure of the candidate's knowledge of and ability to interpret contemporary affairs, and the significance of important events in United States history.

(c) *Technical.* This examination is designed to test the applicant's knowledge and technical qualifications for the position for which he is applying. Separate examinations will be given for the respective classifications listed in § 73.301. The general scope of the various technical tests is given in §§ 73.318 and 73.319.* [Pars. 20 and 21]

§ 73.313 *Final list of applicants* (c) Upon the receipt of all reports from corps area commanders the War Department will prepare a final list of successful candidates in order of military grade, length of service, and age.

(b) This list will establish the order from which appointments will be made and where appointments are made on the same day, will establish the seniority of appointees.* [Par. 24]

§ 72.314 *Permanent appointments.* Permanent appointments as warrant officers, junior grade, United States Army, will be tendered successful applicants in order of their standing on the final lists. Each warrent officer so appointed will be classified according to the administrative or technical specialty for which he was examined and his classification will be designated upon his warrent. Warrent officers will be assigned to duty with the various arms and services with due regard to prior service, classification for which examined, the requirements of the arm or service concerned, and individual preference. All permanent appointments in the Regular Army as warrant officer, junior grade, will be probationary for a period of 3 years.* [Par. 25]

§ 73.315 *Eligible list.* The names of qualified applicants who are not immediately appointed will be carried on an eligible list until the next succeeding examination, but in no case longer than 1 year. Vacancies occurring subsequent to the final examination and prior to the next succeeding examination may be filled by appointments from this eligible list, subject to physical examination.* [Par. 26]

§ 73.316 *Temporary appointments.* In time of war or national emergency qualified applicants who do not receive permanent appointments may be given temporary appointments which will remain in effect at the pleasure of the Secretary of War, but in no case extend beyond 6 months after the end of the war or period of national emergency.* [Par. 27]

§ 73.317 *Future examinations.* The fact that an applicant's name has been borne on an eligible list or that an applicant has been tendered a temporary appointment will not exempt such applicants from future examinations for permanent appointment as warrant officers in the Regular Army.* [Par. 28]

§ 3.6 (j10) *Advertising falsely or misleadingly—History of product or offering:* § 3.6 (6) *Advertising falsely or misleadingly—Qualities or properties of product:* § 3.6 (x) *Advertising falsely or misleadingly—Results:* § 3.66 (b10) *Misbranding or mislabeling—History:* § 3.66 (h) *Misbranding or mislabeling—Qualities or properties:* § 3.66 (j10) *Misbranding or mislabeling—Results.* In connection with the offer, etc., in commerce, of respondent's "Bright Ray Crest Driving Lamp" for use on motor vehicles, or any substantially similar lamp, representing, directly, or by implication, that said lamp, when used on a motor vehicle, (1) provides new and unusual lighting safety; (2) will develop 40,000 candle power, or any other number of candle power in excess of the number actually developed; (3) will penetrate fog, rain, snow, or dust regardless of their density; (4) will penetrate fog, snow, rain, or dust, regardless of their density, to the extent that safe driving visibility is provided for 1,500 feet, or for any other distance in excess of the actual distance for which safe driving visibility is provided; and (5) will penetrate fog, snow, rain, or dust to the extent that visibility and safety are assured under all conditions; prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Sup. IV, sec. 45b) [Cease and desist order, Do-Ray Lamp Company, Inc., Docket 4218, February 3, 1942]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 3d day of February, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and answer of respondent and upon the amended and supplemental complaint of the Commission and the answer of the respondent thereto, in which answer respondent admits all of the material allegations of fact set forth in said amended and supplemental complaint and waives all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and conclusion that said respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent, Do-Ray Lamp Company, Inc., a corporation, its officers, representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of its "Bright Ray Crest Driving Lamp" for use on motor vehicles, or any substantially similar lamp, under the same or any other name, do forthwith cease and desist from representing, directly or by implication:

(1) That said lamp, when used on a motor vehicle, provides new and unusual lighting safety;

(2) That said lamp, when used on a motor vehicle, will develop 40,000 candle power, or any other number of candle power in excess of the number actually developed;

(3) That said lamp, when used on a motor vehicle, will penetrate fog, rain, snow, or dust regardless of their density;

(4) That said lamp, when used on a motor vehicle, will penetrate fog, snow, rain, or dust, regardless of their density, to the extent that safe driving visibility is provided for 1,500 feet, or for any other distance in excess of the actual distance for which safe driving visibility is provided;

(5) That said lamp, when used on a motor vehicle, will penetrate fog, snow, rain, or dust to the extent that visibility and safety are assured under all conditions.

It is further ordered, That respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

AMENDMENT TO RULE UNDER THE ACT RELATING TO SOLICITATION OF PURCHASES ON AN EXCHANGE TO FACILITATE A DISTRIBUTION OF SECURITIES

The Securities and Exchange Commission, deeming it necessary for the exercise of the functions vested in it and necessary and appropriate in the public interest and for the protection of investors so to do, pursuant to authority conferred upon it by the Securities Exchange Act of 1934, particularly sections 10 (b) and 23 (a) thereof, hereby amends § 240.10b-2 [Rule X-10B-2] by adding at the end thereof the following:

§ 240.10b-2 *Solicitation of purchases on an exchange to facilitate a distribution of securities.*

* * * * *

(d) (1) The provisions of this section shall not apply to any transaction involving the payment of a special commission to a person acting as a broker for a purchaser by a person selling any security which is listed on a national securities exchange or is admitted to unlisted trading privileges on such an exchange pursuant to the provisions of section 12 (f) (2) or (3) of the Securities Exchange Act of 1934, as amended (Sec. 12, 48 Stat. 892; sec. 1, 49 Stat. 1375; 15 U.S.C. 781), where such payment is made pursuant to the terms of an effective plan authorizing the payment of special commissions in connection with a distribution of securities, which plan has been filed with the Commission by a national securities exchange, provided that such person, at the time he pays, or offers or agrees to pay, any such commission does not know or have reasonable grounds to believe that transactions connected with such distribution are being carried out in violation of such plan.

(2) For the purposes of this section a plan filed with the Commission by a national securities exchange shall not become effective unless the Commission, having due regard for the public interest and for the protection of investors, declares the plan to be effective. The Commission in its declaration may impose such terms and conditions relating to the provisions of the plan and the period of its effectiveness as it deems necessary or appropriate in the public interest or for the protection of investors.

(3) The provisions of this exemption shall terminate at the close of business on July 31, 1942, unless the Commission otherwise determines.

Effective February 6, 1942.

By the Commission.

CHAPTER III—BITUMINOUS COAL DIVISION

[Docket No. A–552]

PART 322—MINIMUM PRICE SCHEDULE, DISTRICT NO. 2

ORDER ASSIGNING MINE INDEX NO. 1333 FOR THE COAL HILL MINE IN DISTRICT NO. 2 IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 2 FOR REVISION OF THE EFFECTIVE MINIMUM PRICES OF TRUCK COAL PRODUCED AT VARIOUS MINES IN DISTRICT NO. 2, PURSUANT TO SECTION 4 II (d) OF THE BITUMINOUS COAL ACT OF 1937

In General Docket No. 15 minimum prices were established, *inter alia*, for the coals of the Coal Hill Mine, Mine Index No. 1333, in District No. 2, for truck shipments. In Supplement No. 2 to Price Schedule No. 1 for District No. 2 For Truck Shipments, additional minimum prices were established for the coals of the said mine for truck shipments, but Mine Index No. 1439 was assigned thereto to the said mine.

On January 31, 1941, 6 F. R. 809, the Director issued an Order Granting Temporary Relief and Conditionally Providing for Final Relief in Docket No. A–552, revising, *inter alia*, the effective minimum prices for the coals of the said mine for truck shipments, and assigning Mine Index No. 1439 to the said mine.

On May 21, 1941, 6 F.R. 2620, the Director issued an Order Granting Temporary Relief and Conditionally Providing for Final Relief in Docket No. A–847, establishing, *inter alia*, price classifications and minimum prices for the coals of the said mine for rail shipments, and assigning Mine Index No. 1333 to the said mine.

It appears that the assignment of Mine Index No. 1439 to the said Coal Hill Mine in the said Supplement No. 2 and in the said Order in Docket No. A–552 is in error and that only Mine Index No. 1333 should be assigned to the said mine.

Now, therefore, it is ordered, That the assignment of Mine Index No. 1439 to the Coal Hill Mine, in District No. 2, in the said Supplement No. 2 and in the said Order in Docket No. A–552 be revoked, and in lieu thereof, Mine Index No. 1333 be assigned to the said mine in § 322.23 (*General prices*).

It is further ordered, That in all other respects the said Order of January 31, 1941, be, and it hereby is, continued in full force and effect, until otherwise ordered.

Dated: February 4, 1942.

Acting Director.

CHAPTER VI—SELECTIVE SERVICE SYSTEM

[Amendment No. 16, 2d Edition]

PART 623—CLASSIFICATION PROCEDURE

As Director of Selective Service I hereby amend the Selective Service Regulations, Second Edition, Part 623, § 623.51, by adding thereto a new paragraph designated as (g), reading as follows:

§ 623.51 *Procedure for classification after physical examination.*[1]

* * * * *

(g) As soon as the time in which the registrant may take an appeal has expired or, if an appeal is taken, as soon as the registrant's classification has been determined on appeal, the original and copies of the Report of Physical Examination and Induction (Form 221) of registrants classified under this section shall be distributed as follows:

(1) If the registrant has been classified in Class I–A, Class I–A–O, or Class IV–E, the original and all copies shall be placed in the registrant's Cover Sheet (Form 53) until the registrant is forwarded for physical examination by the armed forces in the manner provided in Part 629 or for final-type physical examination for Class IV–E registrants in the manner provided in Part 651.

(2) If the registrant is classified in Class I–B, Class I–B–O, Class IV–E–LS, or Class IV–F, the National Headquarters' Copy and the Surgeon General's Copy shall be transmitted to the State Director of Selective Service, who shall forward such copies to the Director of Selective Service, and the Armed Forces' Original and the Local Board's Copy shall be filed in the registrant's Cover Sheet (Form 53). PART 1306—IRON AND STEEL

PRICE SCHEDULE NO. 100—CAST IRON SOIL PIPE AND FITTINGS

Cast iron soil pipe and fittings are extensively used in the construction industry to carry off drainage and waste. In the defense program they are widely employed in housing projects, cantonments and all types of factories and industrial plants. The increased need for cast iron soil pipe and fittings has prompted Government efforts to secure expanded production by allocating needed pig iron to the industry, but the supply has failed to keep pace with the augmented demands stemming from the defense program and the accompanying economic expansion. As a consequence, inflationary pressure has caused price increases which outstrip advances in costs, and which will serve no purpose in bringing out appreciably increased production. Issuance of a price schedule accordingly is necessary to protect consumers, the industry, and the national economy,

In this price schedule the Office of Price Administration is utilizing the Birmingham, Alabama, single basing point system, presently in effect in the soil pipe industry. Such acceptance of this system, merely as a vehicle for determining maximum prices, should not be regarded as approval thereof, nor should this reservation be regarded as indicating disapproval.

Accordingly, pursuant to and under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1306.301 *Maximum prices for cast iron soil pipe and fittings.* On and after February 20, 1942, regardless of the terms of any contract of sale or purchase or other commitment, no manufacturer, jobber, or wholesaler shall sell, offer to sell, deliver, or transfer any cast iron soil pipe and fittings, and no person shall buy, offer to buy or accept delivery of cast iron soil pipe and fittings from a manufacturer, jobber, or wholesaler at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1306.309.*

*§§ 1306.301 to 1306.310, inclusive, issued pursuant to authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1306.302 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid or offered.*

§ 1306.303 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery, or transfer of cast iron soil pipe and fittings, alone or in conjunction with any other material or by way of any commission, service, transportation or other charge or discount, premium, or other privilege, or by tying-agreement or other trade understanding, or by making credit terms more onerous than those available or in effect on October 1, 1941, or by any other means.*

§ 1306.304 *Records and reports.* Every manufacturer, jobber and wholesaler who sells, and every person who buys from a manufacturer, jobber or wholesaler cast iron soil pipes and fittings of a value of more than $200.00 per month after February 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such purchase or sale, showing the date thereof, the name and address of the buyer or the seller, the price paid or received, and the specifications and quantity of cast iron soil pipes and fittings purchased or sold.*

§ 1306.305 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government, both state and federal, are fully exerted in order to protect the public interest and interests of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county, and local governments by calling to the attention of the proper authorities failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits; and (d) that the procurement and other services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation, or manipulation of prices of cast iron soil pipe and fittings, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1306.306 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That, no application under this section will be considered by the Office of Price Administration unless filed by persons complying with this Schedule.*

[1] 7 F.R. 162.

§ 1306.307 *Definitions.* When used in this Schedule, the term

(a) "Person" means an individual, partnership, association, corporation, or other business entity.

(b) "Manufacturer" means a person operating a foundry or plant which produces cast iron soil pipe and fittings. Except for purposes of the records requirements of § 1306.304, the term includes, without restricting the generality of the foregoing, any manufacturer's representative, factory commission salesman, or other manufacturer's agent.

(c) "Jobber" and the term "wholesaler" means a person who purchases cast iron soil pipe for purposes of resale, normally maintains a complete line of pipe and fittings, and sells primarily to plumbers, contractors and industrial concerns.

(d) "Cast iron soil pipe and fittings" means cast iron pipes and fittings of the types listed in Appendix B of this Schedule.

(e) "Delivered price" means net price including all commissions and all freight and delivery charges incident to transporting the pipe and fittings to the place of delivery as described in paragraph (b) (3) of Appendix A of this Schedule.

(f) "Carload shipment" or the term "carload quantity" means a shipment or quantity of cast iron soil pipe and fittings, the aggregate weight of which totals at least the lowest applicable minimum carload weight as specified in the established tariff of the rail carrier involved, or for which a carload rate would be paid.*

§ 1306.308 *Effective date of the Schedule.* This Schedule shall become effective February 20, 1942.*

§ 1306.309 *Appendix A; maximum prices for cast iron soil pipe and fittings.* (a) The maximum f. o. b. Birmingham, Alabama, prices for cast iron soil pipe and fittings shall be the prices arrived at by applying the following discounts to the prices set forth in Appendix B of this Schedule.

	Carload shipments by rail; ten ton or greater shipments by motor carrier	Less than carload shipments by rail less than ten ton shipments by motor carrier
2" to 6" Extra Heavy Pipe	52½-10-10	5½
2" to 6" Medium Pipe	47½-10-10	4½
2" to 6" Standard Pipe	42½-10-10	3½
2" to 6" Fittings	37½-10-10	2½
8" to 15" Pipe and Fittings	43½-10-10	4½

(b) The maximum delivered price for domestic sales of cast iron soil pipe and fittings shall be the maximum f. o. b. Birmingham, Alabama, price established in paragraph (a) hereof, plus a freight and delivery charge computed in accordance with the following provisions (whether shipment is by rail or motor carrier):

(1) Where shipment moves directly from foundry to purchaser (regardless of whether the seller is a manufacturer, jobber, or wholesaler), the delivery charge may not exceed the carload railroad freight from Birmingham, Alabama, to the railroad siding nearest to the point of delivery designated by the purchaser.

(2) Where shipment to a purchaser originates from some place other than a foundry (as where shipment originates at a distribution warehouse operated by a manufacturer, jobber, or wholesaler), the delivery charge may not exceed the carload railroad freight from Birmingham, Alabama, to the place at which the shipment originates. No further delivery charge may be made for transportation from the place at which the shipment originates to the location designated by the purchaser.

(3) For purposes of this paragraph, the seller shall be considered as having completed his delivery obligations when, in the case of a rail shipment, the shipment arrives at the rail siding nearest to the location designated by the purchaser; or when, in the case of shipment by motor carrier, the shipment arrives at the site designated by the purchaser.

(4) Carload railroad freight from Birmingham, Alabama, may be computed by deducting for every 25¢ ton freight ¼ point from the applicable base (or first) discount.

(c) The maximum price for export sales of cast iron soil pipe and fittings shall be the maximum price, as established by subparagraph (1) of paragraph (b) hereof, for delivery of carload quantities of pipe and fittings to the export loading dock, plus ocean freight and marine insurance to the extent that such charges are paid by the seller. Where the seller performs the service of wiring or otherwise bundling pipe and fittings for export shipment, an added charge of $1.00 per ton of pipes and fittings may be made.

(d) No addition to the maximum prices herein established may be made for treating cast iron soil pipe and fittings with tar.*

§ 1306.310 *Appendix B; list prices on cast iron soil pipe and fittings.* The list prices of cast iron soil pipe and fittings shall be as follows:

AMENDMENT NO. 4 TO PRICE SCHEDULE NO. 20—COPPER AND COPPER ALLOY SCRAP

The preamble and §§ 1309.61 to 1309.69 inclusive are hereby amended and renumbered so that Price Schedule No. 20 shall read as follows:

The Office of Price Administration is charged with the maintenance of price stability and the prevention of undue price rises and price dislocation. Copper and copper alloy scrap is a basic material for the production of electrolytic copper, copper ingot, copper alloy ingot, and non-ferrous castings, all of which are important in the manufacture of defense products. Requirements of the war effort have increased the demand for copper and copper alloy scrap, causing its price to rise above levels which are in proper relation to the price level of primary materials. Price instability and dislocations injurious to the national defense and civilian economy have resulted. As a consequence, it has become difficult and in some cases impossible for the trade to cooperate with the Government in preventing inflationary price movements. On the basis of information secured by independent investigation by this Office, and after consultation with the trade, I find that the maximum prices set forth below constitute reasonable limitations on the price of copper and copper alloy scrap.

Therefore, under the authority vested in me by Executive Order 8734, it is hereby directed that:

§ 1309.61 *Maximum prices for copper and copper alloy scrap.* On and after February 27, 1942, regardless of the terms of any contract of sale or purchase or other commitment, no person shall sell, offer to sell, deliver, or transfer copper or copper alloy scrap to a consumer, and no consumer shall buy, offer to buy, or accept delivery of copper or copper alloy scrap at prices higher than the maximum prices set forth in Appendix A hereof incorporated herein as § 1309.69.*

*§§ 1309.61 to 1309.69, inclusive, issued pursuant to the authority contained in E.O. Nos. 6734, 8875, 6 F.R. 1917, 4483.

§ 1309.62 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid, or offered.*

§ 1309.63 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery, or transfer of copper or copper alloy scrap, alone or in conjunction with any other material, or by way of any commission, service, transportation, or other charge or discount, premium, or other privilege, or by tying agreement or other trade understanding, or otherwise.*

§ 1309.64 *Records and reports.* (a) Every person making purchases or sales of copper or copper alloy scrap on or after February 27, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of (1) each such purchase or sale showing the date thereof, the name and address of the buyer or the seller, the price paid or received, and the quantity in pounds or tons of each kind or grade purchased or sold; and (2) the quantity in pounds or tons of copper or copper alloy scrap (i) on hand, and (ii) on order, as of the close of each calendar month.

(b) On or before the tenth day of each month beginning with the month of March, 1942, the consumer shall submit to the Office of Price Administration, Washington, D. C., an affidavit on Form 120:7 covering each delivery of copper or copper alloy scrap received during the preceding calendar month, and setting forth the name of the seller, the point of shipment, the date of delivery, the amount of each grade of scrap received and paid for, the price paid per pound for each such grade of scrap, the total freight paid, and the total amount paid to the seller.

(c) Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1309.65 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government, both State and Federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of State, county, and local governments by calling to the attention of the proper authorities, failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits; (d) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule; and (e) that the War Production Board is requested to withhold priority ratings and allocation of materials from any person failing to comply with this Schedule. Persons who have evidence of the offer, receipt, demand, or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation, or manipulation of prices of copper or copper alloy scrap, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1309.66 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That no application under this section will be considered unless filed by persons complying with this Schedule.*

§ 1309.67 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity.

(b) "Copper and copper alloy scrap" means materials of the kinds and grades listed in paragraph (a) of § 1309.69. These kinds and grades include materials which are the waste or by-product of any kind of metal working as well as articles which have been discarded from use because of obsolescence, failure or other reason, and which are no longer useful for their original purpose.

(c) "Consumer" means a person whose business, either in his own plant or on toll, consists in whole or in part, of smelting, refining, melting, or otherwise processing copper or copper alloy scrap into a form other than scrap.

(d) "Point of shipment" means the point at which copper or copper alloy scrap is first loaded on a conveyance for transportation directly to the buyer. This is usually the seller's plant, warehouse, or yard, but where the material is shipped directly to the buyer from some point other than the seller's plant, warehouse, or yard, such other point is the point of shipment.*

§ 1309.68 *Effective date of the Schedule.* This Schedule as amended by this amendment number 4 shall become effective on February 27, 1942.*

§ 1309.69 *Maximum prices*—(a) *Maximum prices f. o. b. shipping point.*[1]

Index No.[2]	Kinds or grades of scrap [3]	Maximum prices per pound of material
		Cents
1	No. 1 Copper Wire	10.00
1	No. 1 Heavy Copper	10.00
1	No. 2 Copper Wire	[4] 9.00
1	Mixed Heavy Copper	[4] 9.00
1	Light Copper	[4] 8.00
2	Bell Metal	14.50
2	High-grade Bronze Gears	12.75
2	Babbit lined Brass Bushings	12.75
2	Red Trolley Wheels	10.75
2	Hard Red Machinery Brass	10.00
2	Soft Red Brass	9.50

[1] The prices set forth in this paragraph are the maximum prices f. o. b. freight cars, trucks or other means of transportation at the point of shipment, and include all commissions and service charges. Any copper scrap sold "as is, where is" shall be sold at a price less than the applicable maximum price by an amount reflecting the cost of loading the material into the conveyance for shipment to the buyer.

[2] For the purposes of the quantity premiums defined in paragraph (f) of this section, all kinds or grades preceded by the same index number may be considered as one item.

[3] The prices set forth in this paragraph are the maximum prices for the respective grades of copper and copper alloy scrap which meet the specifications set forth in paragraph (b) of this section. Copper or copper alloy scrap which falls within such grades but which does not meet such specifications must be sold at a price below the applicable maximum price. This Schedule does not include copper or copper alloy scrap which is a by-product of the fabrication of new sheet, tube, rod or other brass mill products, the maximum prices for which are established by Price Schedule No. 19—Brass Mill Scrap.

[4] If the copper content of No. 2 copper wire or mixed heavy copper scrap is more or less than 99%, or if the copper content of light copper scrap is more or less than 98%, the maximum price per pound of material shall be increased or decreased at the rate of 0.11775 cents for each 1% variation in copper content with proportionate adjustments for variations of less than 1%.

6	Reflectors	6.50
6	Light Brass	6.50
6	Yellow Brass Breakage	[3] 6.50
7	Automobile Radiators	7.50

[1] If soft red brass borings and turnings or cast yellow brass borings and turnings contain more than 2% iron, oil and moisture, the maximum price per pound of material shall be reduced 1% for each 1% of iron, oil and moisture in excess of 2%.

[2] If red brass breakage and red carburetors with iron screws or yellow brass breakage contains more than 10% iron, the maximum price per pound of material shall be reduced 1% for each 1% of iron in excess of 10%.

[3] If automobile radiators contain any iron, the maximum price per pound of material shall be reduced 1% for each 1% of iron.

(b) *Specifications.* (1) No. 1 Copper Wire shall have a copper content of not less than 99%, shall consist of clean, untinned copper wire or cable not smaller than 16 B&S wire gauge, and must be untangled, free of burnt or unburnt insulation, burnt copper wire which is brittle, and all foreign substances.

(2) No. 1 Heavy Copper shall have a copper content of not less than 99%, shall consist of clean, untinned copper segments not less than ⅛ inch thick and must be free of solder and all foreign substances.

(3) No. 2 Copper Wire shall have a copper content of 96%, and shall consist of miscellaneous clean copper wire or cable, which may include tinned wire and soldered ends, but not hair wire nor burnt wire that is brittle.

(4) Mixed Heavy Copper shall have a copper content of 96% and shall consist of clean, tinned and untinned copper pipe and tubing, but must not include any nickel-plated material.

(5) Light Copper shall have a copper content of 92% and shall consist of copper in the form of bottoms of kettles and boilers, stills, bathtub linings, hair wire, bicycle wire, burnt copper wire, roofing copper and similar copper, and must be free of radiators, brass, lead and solder connections, mixed screens, readily removable iron, old electrotype shells, and excessive paint, tar or scale.

(6) Bell Metal shall consist of genuine bell metal containing a minimum of 16% tin.

(7) High-grade Bronze Gears shall consist of clean gears which contain 87 to 90% copper, 9 to 11% tin, and no more than 1% lead, and must be free of added, manganese, or aluminum, bronze gears.

(8) Babbit lined Brass Bushings shall consist of clean red automobile and machinery bushings or bearings containing 15 to 20% of genuine babbit, and must be free of iron-backed bearings, iron, and excessive grease or dirt.

(9) Red Trolley Wheels shall consist of genuine red trolley wheels which must be clean and free of bushings, iron and excessive dirt.

(10) Hard Red Machinery Brass shall have a tin content of not less than 6%, shall consist of heavy castings from machinery, such as valves and unlined bushings and bearings, and must be free of all iron, aluminum bronze and manganese bronze.

(11) Soft Red Brass shall consist of miscellaneous red brass castings, and must be free of iron, burnt or melted brass, cocks and faucets, railroad carboxes and other excessively leaded material, and of aluminum, manganese, and silicon bronze.

(12) Soft Red Brass Borings shall consist of clean red brass borings and turnings, free of aluminum, manganese, and silicon bronze, railroad car box turnings and other excessively leaded material, shall contain a total of not over 2% free iron, oil, or other moisture, and shall be free of grindings and foreign material.

(13) Aluminum Bronze (Ford) Gears shall consist of Ford gears and other bronze gears containing 10 to 12% aluminum.

(14) Unlined Standard Red Car Boxes shall consist of railroad boxes or car journal bearings, and must be free of yellow boxes, iron-backed boxes, linings, and excessive dirt or grease.

(15) Lined Standard Red Car Boxes shall consist of lined railroad boxes or lined car journal bearings and must be free of yellow boxes, iron-backed boxes, excessive dirt and grease.

(16) Cocks and Faucets shall consist of clean mixed red and yellow cocks and faucets containing a minimum of 35% of red faucets, and must be free of gas cocks, beer faucets, porcelain, dirt, and iron.

(17) Red Brass Breakage and Red Carburetors with Iron Screws shall consist of red brass containing not in excess of 10% free iron and must be free of die cast, yellow, or iron carburetors.

(18) Old Rolled Brass shall consist exclusively of old pieces of sheet brass and must be free from solder, tinned and nickel-plated material, paint, corrosion, dirt, iron, ship sheathing, rod brass, and Munts metal material.

(19) Brass Pipe shall consist of sound, clean brass pipe and tubing, and must be free of sediment, plated, tinned, or soldered pipe, pipe with cast brass connections, condenser tubes, Muntz metal and Admiralty tubing.

(20) Clean Fired Rifle Shells shall consist exclusively of fired rifle shells, and must be free of unfired shells, gun shells containing paper, and dirt.

(21) Admiralty Condenser Tubes shall consist of sound Admiralty condenser tubings, which may be plated or unplated, but must be free of nickel silver material and of excessive corrosion, sediment, dirt, iron, scale and grease.

(22) Muntz Metal Tubes shall consist of sound Muntz metal condenser tubing which may be plated or unplated, but must be free of nickel silver material and of excessive corrosion, sediment, dirt, iron, scale, and grease.

(23) Yellow Brass Castings shall consist of strictly yellow brass castings, and must be free of manganese, aluminum, silicon brass, forgings, dirt, and iron.

(24) Heavy Yellow Brass shall consist of clean heavy yellow sheet brass and castings, chandelier brass, pipe and plumber's brass, and must be free of manganese or aluminum brass, condenser tubes, dirt and iron.

(25) Cast Yellow Brass Borings shall consist of yellow brass borings, shall contain a total of not more than 2% of free iron, oil, or moisture and must be free of aluminum, manganese and composition turnings and any grindings.

(26) Reflectors shall consist exclusively of clean automobile reflectors and must be free from iron and solder.

(27) Light Brass shall consist of clean miscellaneous yellow sheet brass that is too light for heavy yellow brass, and may include tinned or nickel-plated material but must be free of gun shells containing paper, ashes, or iron, and of clock works, loaded lamp bases, gaskets, iron, dirt, and foreign material.

(28) Yellow Brass Breakage shall consist of miscellaneous yellow brass containing a maximum of 10% free iron.

(29) Automobile Radiators shall consist of mixed unsweated automobile radiators, which must contain at least 40% of honeycomb radiators. Radiators must be complete, containing top and bottom tanks.

(c) *Maximum prices for lead-covered and insulated copper wire.* The maximum price for insulated copper cable or wire, except lead-covered cable or wire, shall be computed by multiplying the weight of such copper wire or cable, exclusive of insulation, by the applicable maximum price provided in paragraph (a) of this section, and deducting from the resulting product not less than 0.15 cent per pound of total weight before removal of insulation.

The maximum price for the copper content of lead-covered cable shall be computed by multiplying the weight of such copper cable, stripped of lead covering, by the applicable maximum price provided in paragraph (a) hereof. The maximum price for the lead content of such lead covering is fixed by Price Schedule No. 71.

(d) *Maximum prices for mixed lots of scrap.* If any scrap other than crucible copper or copper alloy scrap is delivered in a mixed lot containing scrap of more than one grade, then (1) the entire lot shall be considered to be of the lowest-priced grade, or (2) the buyer may sort the scrap and pay for each grade but in such event the maximum price provided in paragraph (a) of this section for each of such grades shall be reduced by ¼ cent per pound. If the same maximum price is established by paragraph (a) of this section for all of the grades of scrap contained in such lot, the second method of settlement provided in this paragraph must be used. The provisions of this paragraph shall not apply if each grade of scrap is packed in separate containers or is otherwise physically segregated by the seller.

(e) *Maximum delivered prices.* Copper or copper alloy scrap may be sold, offered for sale, delivered or transferred at a price delivered buyer's receiving point. If such delivered price exceeds the applicable maximum price provided in paragraph (a) of this section, (1) the delivery charge shall be shown as a separate item and (2) the price f. o. b. shipping point (calculated by subtracting the delivery charge from the delivered price) shall not exceed the applicable maximum price provided in paragraph (a) of this section.

Whenever the seller delivers copper or copper alloy scrap in his own conveyance, the charge for delivery shall not exceed the lowest published rate for a similar delivery by a public carrier or, if there is no such carrier, the lowest available commercial rate for the most nearly comparable service.

(f) *Quantity premiums.* The maximum prices listed in paragraph (a) of this section may be increased by the addition of the applicable one of the following quantity premiums:

(1) For the sale and shipment at one time of 40,000 pounds or more containing only one item, ½¢ per pound.

(2) For the sale and shipment at one time of 40,000 pounds or more containing not more than three items, ¼¢ per pound.

For the purposes of this paragraph an item means those kinds or grades of copper or copper alloy scrap which are preceded by the same index number in paragraph (a) of this section.

If the seller makes delivery by truck, or if the buyer carries the scrap away by truck, "the sale and shipment at one time" may include all scrap delivered under one order to the buyer at his receiving point or loaded on to the buyer's truck at the point of shipment within a period of forty-eight (48) consecutive hours excluding Sundays and legal holidays.

No quantity premium may be added to the price of any scrap to which a crucible scrap premium, as defined in paragraph (g) of this section, has been added.

(g) *Crucible scrap premiums.* (1) *Premiums for crucible copper.*[4] To the maximum prices listed in paragraph (a) of this section a premium of 1¢ per pound for copper scrap in crucible shape may be added.

Copper scrap in crucible shape shall include only:

(i) Briquetted No. 1 copper wire. A briquette shall include any compressed, self-adhering bundle whose measurements do not exceed 16 x 10 x 12 inches.

(ii) Exclusively No. 1 copper (a) cut or bundled in lengths not exceeding 16 inches and (b) in a shape suitable for charging into the buyer's crucible or electric furnace.

(2) *Premium for crucible copper alloy scrap.*[4] To the maximum prices for copper alloy scrap listed in paragraph (a) of this section, a premium of ¾ cent per pound may be added for copper alloy scrap in crucible shape, specially prepared for foundry use. This premium may be added only on sales of scrap to those brass foundries authorized by the War Production Board to purchase copper alloy scrap.

Copper alloy scrap in crucible shape for foundry use includes only heavy, clean scrap of uniform alloy content, in pieces no one dimension of which exceeds 16 inches.

No crucible scrap premium may be added to the price of any scrap to which a quantity premium, as defined in paragraph (f) of this section, has been added.

(h) *Maximum prices for special purpose copper scrap.*[5] Persons using copper wire or copper segments which are specially selected and prepared for their use in the manufacture of copper powder or copper sulphate or other chemicals, or persons using any other copper scrap, specially selected and prepared for their use in the manufacture of iron, steel, aluminum or other alloys, except producers of copper, brass or bronze castings or ingots, may apply to the Office of Price Administration for permission to pay a price for such copper scrap in excess of the maximum prices fixed by this Schedule. Permission to pay such a price will be granted to such person only if the following conditions are fully complied with:

(1) The material, before August 19, 1941, normally commanded a premium over the price of No. 1, No. 2 or light copper scrap because of its special uniformity or preparation.

(2) The user normally purchased such material before August 19, 1941.

(3) Application is made in writing to the Office of Price Administration by the user setting forth such information as the Office of Price Administration deems necessary to determine the proper maximum price for such material.

(4) The user has complied with the terms of this Schedule to the satisfaction of the Office of Price Administration.

(i) *Maximum prices for imported scrap.* If copper or copper alloy scrap is imported into the United States, or if imported copper or copper alloy scrap is resold in the United States, there may be added to the maximum price established by this section the actual amount of United States import or customs duty paid on such scrap: *Provided*, That:

(1) The total amount paid or received for such imported scrap f. o. b. point of shipment in the continental United States[10] does not exceed the maximum price established in this section plus the actual amount of import or customs duty paid;

(2) The import or customs duty paid is shown as a separate item on the records required to be kept in accordance with section 1309.64 hereof and on any invoice rendered to the buyer; and

(3) The buyer files a report of each such purchase with the Office of Price Administration on Form 120:8 within five (5) days of the date thereof.

Issued this 5 day of February 1942.

LEON HENDERSON,
Administrator.

[F. R. Doc. 42-1097; Filed, February 5, 1942; 5:11 p. m.]

[4] No premium shall be demanded or paid for crucible copper or copper alloy scrap unless such copper is sold and shipped separately from any other grade of scrap or is packed in separate containers or otherwise physically segregated by the seller.

[5] Pursuant to this paragraph the Administrator has granted the following special premiums:

(a) Metals Refining Company, Hammond, Indiana, by a letter dated December 4, 1941—Permission to purchase not in excess of 120 tons of scrap copper wire per month during the period December 1, 1941 to June 1, 1942 at a price not in excess of 11¼¢ per pound f. o. b. shipping point, such wire to be specially selected and prepared to meet that company's specifications calling for soft copper wire no larger than 6 B&S nor smaller than 16 B&S wire gauge, entirely free from solder ends, insulation, lacquer, ash or any other foreign substance, and packed in loose bales or coils.

(b) The Sherwin-Williams Company, Bound Brook, New Jersey, by a letter dated December 22, 1941—Permission to purchase not in excess of 50 tons of scrap copper wire per month during the period November 1, 1941 to June 1, 1942 at a price not in excess of 11¼¢ per pound f. o. b. shipping point, such wire to be specially selected and prepared to meet that company's specifications calling for copper wire containing not less than 98% copper, reasonably free from tin and containing 80% or more of 10 gauge or smaller wire, packed in loose bales, boxes or barrels.

(c) Superior Copper Products Company, Chicago, Illinois, by a letter dated December 10, 1941—Permission to purchase not in excess of 120 tons of scrap copper wire per month during the period December 1, 1941 to June 1, 1942 at a price not in excess of 11¼¢ per pound f. o. b. shipping point, such wire to be specially selected and prepared to meet that company's specifications calling for strictly No. 1 copper wire no larger than 8 B&S wire gauge and no smaller than 16 B&S wire gauge, free from all tin, lead, solder, insulation, connections, lugs, et cetera and packed in bales.

Each of the foregoing exceptions was conditioned upon the use of all such copper scrap in the manufacture of copper powder, copper sulphate or other chemicals; upon compliance with all requirements of the War Production Board; and upon the furnishing of a report to the Office of Price Administration at the end of each month giving the amount of scrap purchased during the month, the dates of purchase and delivery, the name of the buyer, and the price paid.

[10] "Point of shipment in the continental United States" in the case of overland shipments from Canada or Mexico means the freight station in the United States at or nearest to the point on the boundary at which the shipment enters the United States.

PART 1335—CHEMICALS

PRICE SCHEDULE NO 98—TITANIUM PIGMENTS

A sharp increase in the demand for titanium pigments has occurred in recent months as a result of the national defense program. Titanium pigments

are extremely important pigments, essential in the production of a great many products necessary to the armed forces and civilian population.

In December 1941, after notice had been received of a proposed price advance by one of the largest producers, the Office of Price Administration requested the five United States producers of titanium pigments not to raise prices above those quoted on October 1, 1941. This request has been complied with by all of the producers.

Speculations by others than producers has greatly increased the resale prices of titanium pigments. These speculative prices are threatening to rise to even higher levels. It is necessary to curb such speculation, not only to prevent inflationary rises in the price of titanium pigments, but also to eliminate the danger of price rises in other industries that use titanium pigments.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1335.751 *Maximum prices for titanium pigments.* On and after March 1, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer titanium pigments in quantities of 50 pounds or more, and no person shall buy, offer to buy or accept delivery of titanium pigments in quantities of 50 pounds or more at prices higher than the maximum prices set forth in Appendix A, incorporated herein as § 1335.759.*

*§§ 1335.751 to 1335.759, inclusive, issued under the authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1335.752 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid or offered.*

§ 1335.753 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery or transfer of titanium pigments, alone or in conjunction with any other material or by way of any commission, service, transportation or other charge or discount, premium, or other privilege, or by tying agreement or other trade understanding, or otherwise.*

§ 1335.754 *Records and reports.* Every person making purchases or sales of titanium pigments in quantities of 50 pounds or more on or after March 1, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such purchase or sale, showing the date thereof, the name and address of the buyer and the seller, the price paid or received, and the specifications and quantity, including the size of the containers, of the titanium pigments purchased or sold.

Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1335.755 *Enforcement.* In the event of refusal or failure to abide by the price limitations, records and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of the Government, both state and federal are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county, and local governments by calling to the attention of the proper authorities, failures to comply with this Schedule which may be regarded as grounds for the revocations of licenses and permits; and (d) that the procurement services of the Government are requested to refrain from selling to, or purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation or manipulation of price of titanium pigments, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1335.756 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That no application under this section shall be considered by the Office of Price Administration unless filed by persons complying with this Schedule.*

§ 1335.757 *Definitions.* When used in this Schedule the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity;

(b) "Titanium pigments" means the grades of titanium pigments listed in Appendix A hereof.*

§ 1335.758 *Effective date of the Schedule.* This Schedule shall become effective March 1, 1942.*

§ 1335.759 *Appendix A; maximum prices for titanium pigments.* The following maximum prices are established for titanium pigments:

(a) *Deliveries in Eastern Territory*[1]—(1) *Twenty tons or more.*

Grade	Per pound delivered in bags (cents)
Titanium Dioxide (Regular Grades)	14½
Titanium Dioxide (Chalk Resistant Grade)	15
Titanium Dioxide (Non-Chalking Grade)	16½
Titanium Dioxide (Rutile Regular Grade)	15½
Titanium Dioxide (Rutile Chalk Resistant Grade)	16

[1] When used in this Appendix, the term "Western Territory" means the States of California, Oregon and Washington and the term "Eastern Territory" means all other states of the United States.

Grade	Per pound delivered in bags (cents)
Titanium Barium Pigments	5¾
Titanium Calcium Pigments	5½
Titanium Magnesium Pigment	5¾
Titanium Calcium Pigment (Rutile Grade)	5½
Lead Titanate	11

(2) *Five tons or more but less than twenty tons.* For titanium pigments sold in quantities of 5 tons of more but less than 20 tons, $.0025 per pound may be added to the maximum prices established in subparagraph (1) of this paragraph.

(3) *One thousand pounds or more but less than five tons.* For titanium pigments sold in quantities of 1,000 or more pounds but less than 5 tons, $.0025 per pound may be added to the maximum prices established in subparagraph (2) of this paragraph except in the case of Titanium Barium Pigment, Titanium Calcium Pigment, Titanium Magnesium Pigment, Titanium Calcium Pigment (Rutile Grade) where the maximum prices are the maximum prices established in subparagraph (2) of this paragraph.

(4) *Fifty pounds or more but less than one thousand pounds.* For titanium pigments sold in quantities of 50 pounds or more but less than 1,000 pounds, $.0025 per pound may be added to the maximum prices established in subparagraph (3) of this paragraph except in the case of Titanium Barium Pigment, Titanium Calcium Pigment, Titanium Magnesium Pigment, and Titanium Calcium Pigment (Rutile Grade) where the maximum prices are the maximum prices established in subparagraph (2) of this paragraph and except in the case of Lead Titanate where the maximum prices are the maximum prices established in subparagraph (3) of this paragraph.

(b) *Deliveries in Western Territory*[1]—(1) *Twenty tons or more.* The maximum prices for deliveries of titanium pigments in quantities of 20 tons or more in Western Territory are the maximum prices established in paragraph (a) of this section for deliveries in Eastern Territory, plus $.0025 per pound.

(2) *Less than twenty tons.* The maximum prices for deliveries of titanium pigments in quantities of less than 20 tons in Western Territory are the maximum prices established in paragraph (a) above for deliveries in Eastern Territory, plus $.0025 per pound f. o. b. warehouse in Western Territory.

(c) *Barrels.* The maximum prices for deliveries of titanium pigments in Eastern or Western Territory in barrels are the maximum prices established above in paragraphs (a) or (b) of this section, whichever the case may be, plus $.0025 per pound.

(d) *Export sales and sales to persons in Territories and Possessions of the United States*—(1) *Shipments by vessel from Eastern Territory.* The maximum prices for shipment by vessel from Eastern Territory are the maximum prices established in paragraph (a) of this section f. a. s. vessel at the port of shipment plus 10% of the applicable maximum price.

(2) *Shipments by vessel from Western Territory.* The maximum prices for ship-

ment by vessel from Western Territory are the maximum prices established in paragraph (b) of this section f. a. s. vessel at the port of shipment plus 10% of the applicable maximum price.

(3) *Overland shipments.* The maximum prices for overland shipment are the maximum prices established in paragraph (a) or (b) of this section, whichever the case may be, delivered to that station in the United States which is at or nearest to that point on the boundary at which the shipment crosses from the United States into Canada or Mexico plus 5% of the applicable maximum price except that for quantities of less than 20 tons shipped from warehouse in Western Territory the maximum prices are f. o. b. warehouse plus 5% of the applicable maximum price.

(4) *Expenses.* No expenses, commissions, or charges for service may be added to the maximum prices established by subparagraphs (1), (2) and (3) of this paragraph (d), except (i) ocean freight, (ii) marine and war risk insurance, and (iii) foreign agents' commission unless such foreign agents' commission or any part thereof is received by the exporter directly or indirectly for his own use.

PART 1335—CHEMICALS

PRICE SCHEDULE NO. 99—ACETYL SALICYLIC ACID

Increased domestic and foreign demands for acetyl salicyclic acid, commonly known as aspirin, has resulted in a shortage of supply. Speculation by others than producers has led to resale prices as high as $1.50 per pound, in sharp contrast to the manufacturers' price of 40 cents per pound for a comparable grade and quantity. Further increases in resale prices are threatened.

After conferences with producers, resellers, and exporters of acetyl salicyclic acid, and representatives of other government agencies, the Office of Price Administration has found that no justifiable reasons exist for producers and primary jobbers charging prices in excess of their prevailing price of 40 cents per pound, or for resellers and exporters charging prices in excess of 52 cents and 56 cents per pound, respectively, for acetyl salicylic acid, either powdered or in crystals for sales of large quantities. Increases in such prices would, consequently, be inflationary in character.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1335.801 *Maximum prices for acetyl salicylic acid.* On and after February 16, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, deliver, or transfer acetyl salicylic acid in quantities of one pound or more and no person shall buy, offer to buy or accept delivery of acetyl salicylic acid in quantities of one pound or more at prices higher than the maximum prices set forth in Appendix A, incorporated herein as § 1335.809.*

*§§ 1335.801 to 1335.809, inclusive, issued pursuant to authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1335.802 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid or offered.*

§ 1335.803 *Evasion.* The price limitations set forth in this Schedule shall not be evaded by direct or indirect methods in connection with a purchase, sale, delivery, or transfer, of acetyl salicylic acid or in connection with a purchase, sale, delivery or transfer, of any other material, or by way of any commission, service, transportation, discount, premium, or other charge or privilege, or by alteration of grades of acetyl salicylic acid, or by tying-agreements or other trade understanding, or otherwise.*

§ 1335.804 *Records and reports.* Every person making purchases or sales of acetyl salicylic acid in quantities of one pound or more after February 15, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such purchase or sale, showing the date thereof, the name and address of the buyer and the seller, the price paid or received, and the specifications and quantity including the kind and size of the containers, of the acetyl salicylic acid purchased or sold.

Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1335.805 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of the Government, both state and federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county, and local governments by calling to the attention of the proper authorities, failures to comply with this Schedule which may be regarded as ground for the revocation of licenses and permits; and (d) that the procurement services of the Government are requested to refrain from selling to, or purchasing from, those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation or manipulation of prices of acetyl salicylic acid, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1335.806 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom; *Provided,* That no application under this section shall be considered by the Office of Price Administration unless filed by persons complying with this Schedule.*

§ 1335.807 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity.

(b) "Acetyl salicylic acid" means the varieties and mixtures referred to in Appendix A, incorporated herein as § 1335.809.

(c) "Producer" means a person who manufactures acetyl salicylic acid.

(d) "Primary jobber" means a person who buys acetyl salicylic acid from producers for resale.

(e) "Reseller" means a person who buys acetyl salicylic acid for resale from persons other than producers.

(f) "Shipping point" means the point of distribution maintained by a seller from which actual shipment is made.*

§ 1335.808 *Effective date of the Schedule.* This Schedule shall become effective February 16, 1942.*

§ 1335.809 *Appendix A; maximum prices for acetyl salicylic acid*—(a) *Sales by producers and primary jobbers.* (1) The maximum prices for sales of acetyl salicylic acid by producers or primary jobbers are established as follows:

Quantity	80 mesh powdered or 20-40 mesh crystals, per pound	Any special mixture or formula per pound	10 percent starch granulation, per pound	16 percent starch granulation, per pound	20 percent starch granulation, per pound
200 pounds or more in barrels	$.40	$.45	$.40	$.38	$.36
100 pounds or more in kegs	.40	.45	.40	.38	.36
25 pounds or more in drums	.41	.46	.41	.39	.37
5 pounds or more in 5 pound cartons	.54	.59	.54	.52	.50
1 pound or more in 1 pound cartons [1]	.56	.61	.56	.54	.52

[1] 3 cents per pound may be added for acetyl salicylic acid packaged in one pound canisters, and 8 cents per pound for acetyl salicylic acid packaged in one pound bottles.

(2) The above maximum prices are f. o. b. the producer's or primary jobber's shipping point, with freight equalized at the rate for a shipment of identical quantity over standard routes from the following points, viz.: New York City, New York; Philadelphia, Pennsylvania; Midland, Michigan; Chicago, Illinois; and St. Louis, Missouri. The maximum prices which a purchaser may pay for acetyl salicylic acid delivered to him from a producer's or primary jobber's shipping point shall not exceed the maximum prices listed above plus the transportation charge on a shipment of identical quality to destination from that City named above from which the transportation rate to destination is least.

(b) *Sales by resellers.* The maximum prices for sales of acetyl salicylic acid by resellers are established as follows, f. o. b. reseller's shipping point.

Quantity	80 mesh powdered or 20–40 mesh crystals, per pound	Any special mixture or formula, per pound	10 percent starch granulation, per pound	15 percent starch granulation, per pound	20 percent starch granulation, per pound
200 pounds or more in barrels	$.53	$.59	$.52	$.49	$.47
100 pounds or more in kegs	.62	.59	.52	.50	.48
25 pounds or more in drums	.62	.60	.52	.50	.65
5 pounds or more in 5 pound cartons	.70	.77	.70	.68	.68
1 pound or more in 1 pound cartons [1]	.73	.79	.73	.70	.68

[1] 4 cents per pound may be added for acetyl salicylic acid packaged in one pound canisters and 9 cents per pound for acetyl salicylic acid packaged in one pound bottles.

(c) *Export sales and sales to persons in Territories and possessions of the United States.* The following maximum prices are established for export sales of acetyl salicylic acid to persons in foreign countries and for sales to persons in the territories or possessions of the United States, where the shipments pursuant to such sales originate in the continental United States exclusive of Alaska:

(1) *Exports and sales by producers and primary jobbers.* (i) The maximum prices, except for export sales to persons in Canada or Mexico, are the maximum prices listed in paragraph (a) of this Appendix, f. a. s. vessel at the port of shipment, plus 10 per cent of the applicable maximum price.

(ii) The maximum prices for export sales to persons in Canada or Mexico are the maximum prices listed in paragraph (a) of this Appendix, plus 5 per cent of the applicable maximum price, f. o. b. shipping point in case of overland shipments, or f. a. s. vessel at the port of shipment in case of shipment by vessel.

(2) *Exports and sales by resellers.* (i) The maximum prices, except for export sales to persons in Canada or Mexico, are the maximum prices listed in paragraph (a) of this Appendix, f. a. s. vessel at the port of shipment, plus 10 per cent of the applicable maximum price.

(ii) The maximum prices for export sales to persons in Canada or Mexico are the maximum prices listed in paragraph (b) of this Appendix, plus 5 per cent of the applicable maximum price, f. o. b. shipping point in case of overland shipments, or f. a. s. vessel at the port of shipment in case of shipment by vessel.

(3) *Expenses.* No expenses, commissions, or charges for services may be added to the maximum prices established in this paragraph (c), except (i) ocean or overland freight (ii) marine and war risk insurance, and (iii) foreign agents' commission, unless such foreign agents' commission or any part thereof is received by the exporter directly or indirectly for his own use.

(d) *Containers.* No charge for containers may be added to the maximum prices established by this Schedule, except as specifically provided above.*

Issued this 5th day of February 1942.

PART 1335—CHEMICALS

PRICE SCHEDULE NO. 101—CITRIC ACID

Citric acid is produced by fermentation of beet molasses and extraction from lemon culls and pineapples. Its most important uses are in pharmaceutical manufacture, and in food and beverage flavoring. While estimated production for 1942 is in excess of the amount produced in 1941, it is anticipated that there will be an increased consumer demand for goods and beverages which will be reflected in the demand for citric acid.

In recent months, speculation in citric acid has led to resales of this commodity at prices over three times the prices quoted by producers. In addition, export sales have been made at abnormally high prices. Further increases in these prices are threatened.

After conferences with producers, resellers, and exporters of citric acid, and representatives of other government agencies, the Office of Price Administration has found that no justifiable reasons exist for producers and primary jobbers charging prices in excess of 20 cents per pound, or for resellers and exporters charging prices in excess of 26 cents and 28 cents per pound, respectively, for sales of U. S. P. granular citric acid in carload lots. Increases above those prices would, consequently, be inflationary in character.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1335.851 *Maximum prices for citric acid.* On and after February 16, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, deliver, or transfer citric acid in quantities of 5 pounds or more, and no person shall buy, offer to buy or accept delivery of citric acid in quantities of 5 pounds or more at prices higher than the maximum prices set forth in Appendix A, incorporated herein as § 1335.859.*

*§§ 1335.851 to 1335.859, inclusive, issued pursuant to authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1335.852 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid or offered.*

§ 1335.853 *Evasion.* The price limitations set forth in this Schedule shall not be evaded by direct or indirect methods in connection with a purchase, sale, delivery, or transfer, of citric acid or in connection with a purchase, sale, delivery or transfer, of any other material, or by way of any commission, service, transportation, discount, premium, or other charge or privilege, or by alteration of grades of citric acid, or by tying-agreements or other trade understanding, or otherwise.*

§ 1335.854 *Records and reports.* Every person making purchases or sales of citric acid in quantities of one pound or more after February 15, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such purchase or sale, showing the date thereof, the name and address of the buyer or seller, the price paid or received, and the specifications and quantity including the kind and size of the containers, of the citric acid purchased or sold.

Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1335.855 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this schedule, the Office of Price Administration will invoke all appropriate sanctions at its command including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of the Government, both state and federal are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county and local governments by calling to the attention of the proper authorities, failures to comply with this Schedule which may be regarded as grounds for the revocations of licenses and permits; and (d) that the procurement services of the Government are requested to refrain from selling to, or purchasing from those persons who fail to comply with this schedule. Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices or of any evasion or effort to evade the provisions hereof, or of speculation or manipulation of prices of citric acid, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1335.856 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided,* That no application under this section shall be considered by the Office of Price Administration unless filed by persons complying with this Schedule.*

§ 1335.857 *Definitions.* When used in this schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity.

(b) "Citric acid" means the various grades referred to in Appendix A of this Schedule.

(c) "Producer" means a person who synthesizes, extracts, or otherwise manufactures or makes citric acid.

(d) "Primary jobber" means a person who buys citric acid from producers for resale.

(e) "Reseller" means a person who buys citric acid from other than producers for resale.

(f) "Shipping point" means the point of distribution maintained by a seller from which actual shipment is made.*

§ 1335.858 *Effective date of the Schedule.* This Schedule shall become effective February 16, 1942.*

§ 1335.859 *Appendix A; maximum prices for citric acid*—(a) *Sales by producers and primary jobbers*—(1) *Citric acid produced in the continental United States.* (i) The maximum prices for sales by producers or primary jobbers of citric acid produced in the continental United States are established as follows:

Quantity	U. S. P. granular per pound	U. S. P. powder per pound	U.S.P. anhydrous granular per pound	U.S.P. anhydrous powder per pound
Carload or more	$0.20	$0.205	$0.225	$0.23
10,000 pounds or more in barrels	.205	.21	.23	2.35
200 to 10,000 pounds in barrels	.21	.215	.235	.24
100 pounds or more, in 100-pound kegs or drums	.215	.22	.24	.245
50 pounds or more, in 50-pound drums or cartons	.23	.235	.255	.26
25 pounds or more, in 25-pound drums or cartons	.24	.245	.265	.27
5 pounds or more, in 5-pound containers	.29	.295	.315	.32

(ii) The above maximum prices are f. o. b. the producer's or primary jobber's shipping point, with freight equalized at the rate for a shipment of identical quantity over standard routes from the following points, viz.: Boston, Massachusetts; Philadelphia, Pennsylvania; Baltimore, Maryland; New York City, New York; Portland, Oregon; and Seattle, Washington. The maximum prices which a purchaser may pay for citric acid delivered to him from a producer's or primary jobber's shipping point shall not exceed the maximum prices listed above plus the transportation charge on a shipment of identical quantity to destination from that city named above from which the transportation rate to destination is least.

(iii) The maximum prices for sales by producers or primary jobbers of citric acid produced in the United States and delivered from local stocks maintained in Chicago, Illinois or St. Louis, Missouri are the maximum prices listed above, plus one-half cent per pound, f. o. b. the warehouse in whichever city from which actual shipment is made.

(2) *Citric acid produced in territories of the United States.* The maximum prices for sales by producers or primary jobbers of citric acid produced in the territories of the United States are the maximum prices listed in subparagraph (1) of this paragraph (a), f. o. b. point of shipment in such territories.

(b) *Sales by resellers.* The maximum prices for sales of citric acid by resellers are established as follows, f. o. b. reseller's shipping point.

Quantity	U. S. P. granular per pound	U. S. P. powder per pound	U.S.P. anhydrous granular per pound	U.S.P. anhydrous powder per pound
Carload or more	$0.26	$0.27	$0.29	$0.30
10,000 pounds or more in barrels	.27	.27	.30	.31
200 to 10,000 pounds in barrels	.27	.28	.31	.31
100 pounds or more in 100-pound kegs or drums	.28	.29	.31	.32
50 pounds or more, in 50-pound drums or cartons	.30	.31	.33	.34
25 pounds or more, in 25-pound drums or cartons	.31	.32	.34	.35
5 pounds or more, in 5-pound containers	.39	.38	.41	.42

(c) *Export sales and sales to persons in territories and possessions of the United States.* The following maximum prices are established for export sales of citric acid and for sales to persons in the territories or possessions of the United States, where the shipments originate in the continental United States exclusive of Alaska:

(1) *Exports and sales by producers and primary jobbers.* (i) The maximum prices, except for export sales to persons in Canada or Mexico, are the maximum prices listed in subparagraph (1) (i) of paragraph (a) of this Appendix, f. a. s. vessel at the port of shipment, plus 10 per cent of the applicable maximum price.

(ii) The maximum prices for export sales to persons in Canada or Mexico are the maximum prices listed in subparagraph (1) (i) of paragraph (a) of this Appendix, plus 5 per cent of the applicable maximum price, f. o. b. shipping point in case of overland shipments, or f. a. s. vessel at the port of shipment in case of shipment by vessel.

(2) *Exports and sales by resellers.* (i) The maximum prices, except for export sales to persons in Canada or Mexico, are the maximum prices listed in subparagraph (1) (i) of paragraph (a) of this Appendix, f. a. s. vessel at the port of shipment, plus 40 percent of the applicable maximum price.

(ii) The maximum prices for export sales to persons in Canada or Mexico are the maximum prices listed in paragraph (b) of this Appendix, plus 5 percent of the applicable maximum price, f. o. b. shipping point in case of overland shipments, or f. a. s. vessel at the port of shipment in case of shipment by vessel.

(3) *Expenses.* No expenses, commissions, or charges for services may be added to the maximum prices established in this paragraph (c), except (a) ocean or overland freight, (b) marine and war risk insurance, and (c) foreign agents' commission, unless such foreign agents' commission or any part thereof is received by the exporter directly or indirectly for his own use.

(d) *Containers.* No charge for containers may be added to the maximum prices established above.

PART 1340—FUEL

AMENDMENT NO. 1 TO PRICE SCHEDULE NO. 88 [1]—PETROLEUM AND PETROLEUM PRODUCTS

Section 1340.159 (b) (1) is hereby amended to read as follows:

§ 1340.159 *Appendix A; maximum prices for petroleum and petroleum products.* * * *

(b) *Petroleum products.* (1) The maximum price on each product sold, contracted to be sold, delivered, or transferred by a seller shall be the lowest quoted price published in the October 2, 1941 issue of *Platt's Oilgram* and the *Chicago Journal of Commerce*, the October 8, 1941 issue of the *National Petroleum News*, or other publications designated by this Office, for a product of the same class, kind, type, condition and grade. Where such products are sold and prices are quoted on a delivered basis, then the maximum delivered price shall be the lowest quoted delivered price so published. Where products are sold and prices are quoted on an f. o. b. shipping point basis, then the maximum f. o. b. price shall be the lowest quoted f. o. b. price so published. (E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483)

This amendment No. 1 shall become effective February 5, 1942. Issued this 5th day of February 1942.

(3) The provisions of paragraphs (c), (d), (e) and (f) of this section are not applicable to the procurement of Reserve officers through special training classes at the Coast Guard Academy. Qualifications of such personnel for training and appointment shall be prescribed by the Commandant.

Section 8.2201 (*Educational requirements, commissioned officers*) is amended by inserting the word "cadet" after the words "warrant officer" and by striking out the word "regular."

Section 8.2203 is amended to read as follows:

§ 8.2203 *Ages for original appointments as officers.* The minimum ages for original appointments in the Reserve are as follows:

Lieutenant commander	40
Lieutenant	30
Lieutenant (junior grade)	25
Ensign	20
Chief warrant officer	30
Warrant officer	21

*

Section 8.2204 (a) is amended by striking out the word "regular" and is further amended by striking out the last paragraph and its heading of "Chief Warrant and Warrant Officer".

Section 8.2204 is further amended by adding the following paragraphs (b) and (c):

§ 8.2204 *Entrance examinations.*

* * * * *

(b) A cadet of the Coast Guard Academy who shall have been found proficient for the entire cadet course prescribed for a candidate for a Reserve commission and whose character and general fitness shall be deemed satisfactory and who shall have satisfactorily passed the prescribed physical examina-

tion shall be recommended to the Commandant by the Superintendent of the Academy for a commission as Ensign in the Coast Guard Reserve.

(c) The examinations for chief warrant and warrant officer shall be comparable to the scopes for similar ranks in the regular Coast Guard, except that examinations will not include subjects or material peculiar to the Coast Guard, provided that examinations will not be required of candidates being considered for special duty. Chief warrant and warrant officers will be appointed in the Reserve for special duty only when they have been found qualified for such duty by the Commandant.

Section 8.2302 (a) is amended to read as follows:

§ 8.2302 *Ages for original enlistments.* (a) The minimum age for original enlistment in the Reserve shall be 17 years.

* * * * *

Section 8.2305 The heading of this article is changed to read "Enlistments" in lieu of "Reenlistments".

Sections 8.2305 (a) and 8.2305 (b) are stricken out and sections now numbered 8.2305 (c) and 8.2305 (d) renumbered to read 8.2305 (a) and 8.2305 (b).

Section 8.3301 is amended to read as follows:

§ 8.3301 *Requirements for advancement for men on active duty.* Enlisted men except temporary reservists, on active duty may be advanced in pay grades to fill vacancies in quotas in ratings and pay grades in accordance with the requirements established for advancement of enlisted personnel of the regular Coast Guard for similar pay grades, except that during war or time of national emergency service in grade and other requirements for advancement shall be as prescribed by the Commandant. In computing the service of enlisted men to meet the minimum promotion requirements, credit will be given for time spent on inactive duty or training duty status at the rate of one month for every three months of inactive duty or training duty.

The Index, Coast Guard Reserve Regulations (6 F.R. 1925), is amended to read as follows:

§ 8.2305 The word "Enlistments" is substituted for the word "Reenlistments". (Pub. No. 8, 77th Cong., 1st Sess., approved Feb. 19, 1941)

CHAPTER II—CORPS OF ENGINEERS, WAR DEPARTMENT

PART 203—BRIDGE REGULATIONS[1]

Pursuant to the provisions of section 5 of the River and Harbor Act approved August 18, 1894 (28 Stat. 362; 33 U.S.C. 499), the following regulations are prescribed to govern the operation of the South Carolina State Highway Department bridge across the Ashepoo River at Brickyard Ferry, near Bennetts Point, South Carolina:

§ 203.376 *Ashepoo River, S. C.; highway bridge at Brickyard Ferry, near Bennetts Point, S. C.* (a) The owner of, or agency controlling, the bridge will not be required to keep a draw tender in constant attendance at the above-named bridge.

(b) Whenever a vessel, unable to pass under the closed bridge, desires to pass through the draw, at least 24 hours' advance notice of the time the opening is required shall be given to the authorized representative of, or agency controlling, the bridge.

(c) Upon receipt of such notice, the authorized representative of, or agency controlling, the bridge, in compliance therewith, shall arrange for the prompt opening of the draw at the time specified in the notice for the passage of the vessel.

(d) Any vessel navigating Ashepoo River with the intention of making repeated trips shall notify the authorized representatives of the bridge of the expected frequency of such trips. The bridge shall then be maintained in readiness to open promptly upon signal from the vessel without any further notice. Repeated trips shall be understood to mean trips not greater than 24 hours apart.

(e) The owner of, or agency controlling the bridge shall keep conspicuously posted on both the upstream and downstream sides of the bridge, in such manner that it can easily be read at any time, a copy of these regulations together with a notice stating exactly how the representative specified in paragraphs (b) and (d) of this section may be reached.

(f) The operating machinery of the draw shall be maintained in a serviceable condition, and the draw opened and closed frequently enough to make certain that the machinery is in proper order for satisfactory operation. (Sec. 5, River and Harbor Act, Aug. 18, 1894, 28 Stat. 362; 33 U.S.C. 499) [Regs. January 24, 1942 (E. D. 6371 (South Carolina—Ashepoo River)—5/4)]

TITLE 46—SHIPPING

CHAPTER II—UNITED STATES MARITIME COMMISSION

[General Order No. 53]

PART 243—VALUATION OF VESSELS FOR WAR RISK INSURANCE

PRESCRIBING BASIS FOR VALUATION OF UNITED STATES FLAG VESSELS, AND OF FOREIGN FLAG VESSELS OWNED BY A NATIONAL OF THE UNITED STATES, FOR WAR RISK INSURANCE PURPOSES

JANUARY 22, 1942.

The Maritime Commission, pursuant to the authority vested in it by Merchant Marine Act, 1936, as amended, and related acts, hereby prescribes the following basis for the valuation of vessels for War Risk Insurance Purposes:

§ 243.1 *Vessels included.* All United States flag vessels and all foreign flag vessels owned by a national of the United States:

Upon which the Commission assumes war risk under the terms of a Charter Party, an insurance policy issued by the Commission, or otherwise,

Upon which the Commission pays war risk premiums, or with respect to which the liability for war risk premiums is assumed by the Commission under Charter Party, or otherwise,

With respect to which a factor for war risk insurance premiums is included in freight rate surcharges or in applications therefor,

will be valued for war risk insurance purposes pursuant to the provisions of this part.*

* §§ 243.1 to 243.5, inclusive, issued under authority contained in the Merchant Marine Act, 1936, (49 Stat. 1985; 56 U.S.C. Sup., 1101), as amended, and related acts.

§ 243.2 *Basis of valuation.* Vessels will be valued in accordance with the following formulae:

(a) *Basic valuation.* (1) Vessels completed in the year 1929 or in subsequent years as indicated by the American Bureau Record or by Lloyd's Register of Shipping will be valued as follows:

Vessels constructed under a construction-differential subsidy contract will be valued in accordance with General Order No. 24, Revised, promulgated by the Commission on April 1, 1941,[1] (Part 284 of this chapter).

Vessels, other than passenger vessels, constructed without benefit of a construction-differential subsidy will be valued at actual construction cost less a depreciation of 3% (computed without allowance for residual value) for each year of the vessel's age. With respect to Passenger Vessels, the depreciation will be at the rate of 4% per annum similarly

[1] 6 F.R. 1874.

computed. Where marine insurance values under policies attaching between September 1, 1938 and September 1, 1939 exceed these values, the Commission will consider allowing such higher values.

(2) Vessels completed prior to the year 1929 will be valued as follows:

Freighters and Tankers: $100 per deadweight ton less a depreciation of 3% (computed without allowance for residual value) for each year of the vessel's age, subject to a minimum of $50 per deadweight ton.

Passenger Vessels: $150 per gross ton less a depreciation of 4% (computed without allowance for residual value) for each year of the vessel's age, subject to a minimum of $75 per gross ton.

Where marine insurance values under policies attaching between September 1, 1938 and September 1, 1939 exceed the foregoing values, the Commission will consider allowing such higher values.

(3) Where a bona fide mortgage is in force on a vessel in an amount in excess of 80% of the valuation arrived at in accordance with the foregoing, special consideration will be given by the Commission to the allowance of a higher valuation.

(4) If at any time a vessel has been substantially reconstructed and the cost of such reconstruction exceeds 20% of the original cost of the vessel, special consideration will be given by the Commission to the allowance of a higher valuation.

(b) *Excess valuation.* On vessels contracted for prior to July 1, 1940, an amount additional to the amount of the basic valuation, to be designated as "Excess Valuation", may be insured against war risks, subject to the following limitations and conditions:

Insurance on "Excess Valuation" shall be limited to 25% of the amounts permitted on "Basic Valuation" as provided above, except that when said basic values are less than $60 per deadweight ton on freighters and tankers or less than $96 per gross ton on passenger vessels, a sufficient amount may be insured as "Excess Valuation" to bring the total insurance to $75 per deadweight ton on freighters and tankers or $120 per gross ton on passenger vessels.

All insurance on "Excess Valuation" shall be subject to the following provisions as to payments of losses:

(1) Payments of total or constructive total loss will be put in escrow.

Funds in escrow may be used for replacement of the vessel by new construction approved by the Commission, if such new construction is completed within three years after peace between the United States and the nations with which it is now at war is proclaimed. In the event that such funds are not so used within such prescribed period, they will be paid to the Commission, after deduction of insurance premiums paid with respect to "Excess Valuation" on the vessel involved and after deduction of the excess of any Federal income or profits taxes applicable to such "Excess Valuation" over any amounts of such taxes recovered or recoverable, which shall be returned to the owner of the vessel.

The escrow shall be in the form of a joint account with a depositary satisfactory to the Commission, to which the Commission and the Assured shall be parties, pursuant to a resolution of the Commission containing such provisions consistent with the provisions of this part as the Commission may determine to be necessary or advisable.

In the event that the Owner elects to put the entire net proceeds of loss, as said term is defined in section 511 of the Merchant Marine Act, 1936, as amended, and regulations issued thereunder, in a Construction Reserve Fund, as provided in said Section 511 and said regulations, but fails to replace the vessel within the period and subject to the requirements of said Section, the portion of such funds applicable to "Excess Valuation" (less insurance premiums paid thereon) shall be paid from such Construction Reserve Fund to the Commission.

(2) Payments for all other claims to be made for the benefit of the Owner, in accordance with policy provisions.

Wherever insurance on "Excess Valuation" is written pursuant to this part, the provisions of this part shall be incorporated, by reference or otherwise, in the policy of insurance.

(c) *Construction-differential subsidy.* Where required or approved by the Commission, insurance in addition to the foregoing may be placed on depreciated amount of Construction-Differential Subsidy.*

§ 243.3 *Applications for additional insurance.* Applications for permission to place insurance in addition to the amounts permitted by this part will be considered by the Commission only when it is demonstrated to the satisfaction of the Commission that such additional insurance will not result in additional cost to the public by reason of the inclusion of the ensuing costs in freight rate surcharges or otherwise and will not result in additional costs or liabilities to the Commission; and in any event, the Commission reserves the right to reject any and all such applications when the Commission believes such action will be in the public interest.*

§ 243.4 *General average and salvage.* If the foregoing limitations of valuation result in a shipowner becoming self-insurer for a portion of General Average or Salvage charges, war risk insurance policies underwritten by the Commission will provide for payment in full of such charges up to the face amount of the policy; or if such policies do not constitute the total amount of war risk insurance placed upon the vessel, they will provide for payment of that proportion of such charges which the amount of insurance underwritten by the Commission bears to the total amount of war risk insurance placed upon the vessel.*

§ 243.5 *Effective date.* The valuations hereby prescribed shall be effective as to all charters negotiated and insurances bound on and after February 5, 1942.*

By Order of the United States Maritime Commission.

[SEAL] A. J. WILLIAMS,
Assistant Secretary.

TITLE 47—TELECOMMUNICATION

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

PART 3—STANDARD BROADCAST STATIONS

APPENDIX: STANDARDS OF GOOD ENGINEERING PRACTICE CONCERNING STANDARD BROADCAST STATIONS (550–1,600 KILOCYCLES)

The Commission on February 3, 1942, effective 2 a. m., February 9, 1942, amended Section 26 of the Standards of Good Engineering Practice to read as follows:

26. AVERAGE SUNRISE AND SUNSET TIMES
(Effective February 9, 1942)

Section 3.8 states that the terms "sunrise" and "sunset" mean for each particular station during any particular month, the average times of sunrise and sunset as specified in the license of broadcast station. The following is a tabulation of the average times of sunrise and sunset for each month at various points:

(SR) Average Sunrise Time. (SS) Average Sunset Time. (A) Atlantic, (E) Eastern, (C) Central, (M) Mountain, (P) Pacific, Standard Time.

TITLE 49—TRANSPORTATION AND RAILROADS

CHAPTER I—INTERSTATE COMMERCE COMMISSION

PART 120—ANNUAL, SPECIAL OR PERIODICAL REPORTS

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the [illegible] day of January, A. D. 1942.

The subject of the requirement of annual reports from carriers by water being under consideration, the following order was entered:

It is ordered, That the order of this Commission dated November 8, 1940, In the Matter of Annual Reports from carriers by water, in so far as it relates to annual reports of operating revenue carriers by water, and corresponding sections of the Code of Federal Regulations be, and hereby are annulled, effective January 1, 1942, and the following order shall become effective.

§ 120.1 *Form prescribed for carriers by water of Class A.* (a) All carriers by water of Class A, subject to the provisions of the Interstate Commerce Act be, and they hereby are, required to file an annual report for the year ended December 31, 1941, and for each succeeding year until further order, in accordance with Annual Report Form K-A (Class A Carriers by Water), which is hereby approved and made a part of this order.[1] Said annual report shall be filed in duplicate, in the Bureau of Statistics, Interstate Commerce Commission, Washington, D. C., on or before March 31 of the year following the one to which it relates. (Sec. 20, 24 Stat. 386, Sec. 7, 34 Stat. 593, 35 Stat. 649, Sec. 14, 36 Stat. 555, Sec. 1, 38 Stat. 1196, 39 Stat. 441, Secs. 434-438, 41 Stat. 493, 494, 49 U.S.C. 20 (1)-(10), Sec. 313, 54 Stat. 944, 49 U.S.C. 4402).

(b) Carriers by water that were not required to keep and maintain their records during 1941 in accordance with the uniform system of accounts prescribed by the Interstate Commerce Commission, may apply to the Commission for a modification of specific schedules contained in the report form to conform to the accounting system used by them during that year.

By the Commission, division 1.

PART 125—CLASSES OF CARRIERS

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 19th day of January, A. D. 1942.

[1] Filed as part of the original document.

The subject of the classification of carriers by water being under consideration, the following order was entered:

§ 125.2 *Classification of carriers by water for reporting purposes.* (a) For the purpose of annual, other periodical, and special reports, operating carriers by water subject to the provisions of the Interstate Commerce Act shall be, and they hereby are, divided into three general classes, designated respectively as Class A, Class B, and Class C. Class A shall include all carriers having annual operating revenues exceeding $500,000; Class B all carriers having annual operating revenues exceeding $100,000 but not more than $500,000; and Class C all carriers having annual operating revenues of $100,000 or less.

(b) Unless the Commission shall otherwise direct, the classification of carriers, as aforesaid, shall be based on the average annual operating revenues for the three-year period ended with the calendar year 1941; *Provided*, That nothing in this order shall prevent changes in the assignment of carriers to classes on the part of the Commission deemed to be warranted by special conditions; *And provided further*, That carriers by water beginning regular operations for revenue subsequently to December 31, 1941, shall be assigned to classes, as above defined, on the basis of their operating revenues as known or estimated for a year. (Sec. 20, 24 Stat. 386, Sec. 7, 34 Stat. 593, 35 Stat. 649, Sec. 14, 36 Stat. 555, Sec. 1, 38 Stat. 1196, 39 Stat. 441, Secs. 434-438, 41 Stat. 493, 494, 49 U.S.C. 20 (1)-(10), Sec. 313, 54 Stat. 944, 49 U.S.C. 4402)

Surplus Marketing Administration.

[Docket No. AO 117-A 2]

NOTICE OF HEARING WITH RESPECT TO A PROPOSAL TO AMEND THE TENTATIVELY APPROVED MARKETING AGREEMENT, AS AMENDED, AND ORDER NO. 45, AS AMENDED,[1] REGULATING THE HANDLING OF MILK IN THE WASHINGTON MARKETING AREA, INCLUDING EXTENSION OF THE MARKETING AREA TO INCLUDE ADDITIONAL TERRITORY IN THE STATE OF MARYLAND

Notice is hereby given of a hearing to be held in the Auditorium, South Building, United States Department of Agriculture, Washington, D. C., beginning at 9:30 a. m., February 12, 1942, with respect to proposed amendments to the tentatively approved marketing agreement, as amended, and Order No. 45, as amended, regulating the handling of milk in the Washington marketing area.

This notice is given pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 1940 ed. 601 et seq.), and in accordance with the General Regulations of the Surplus Marketing Administration, United States Department of Agriculture (7 C.F.R. 900.4).

This public hearing is for the purpose of receiving evidence with respect to the amendments which are hereinafter set forth in detail. These amendments have not received the approval of the Secretary of Agriculture, and, at the hearing, evidence will be received relative to all aspects of the marketing conditions which are dealt with by the provisions to which such amendments relate. The amendments which have been proposed are as follows:

I. Amendments Proposed by the Maryland and Virginia Milk Producers' Association, Inc.:

1. Delete § 945.1 (a) (3) and substitute therefor the following:

The term "Washington marketing area", hereinafter referred to as the "marketing area", means the territory included within the boundary lines of the District of Columbia and that territory in the State of Maryland included between the District of Columbia Line and the following boundaries: Beginning at Fort Washington on the Potomac River, proceeding easterly along the old Fort Washington Road to Selesia. About one mile north of Selesia on the Selesia-Oxon Hill Road, turning right on the Allentown Road to Camp Springs, and along the Meadows Road to Meadows on Route 4. Proceeding on Route 4 easterly through Marlborough and Wells Corner to Hill Bridge on the Patuxent River. Following the course of the river northerly and westerly to Route 29 at Snell Bridge. Thence proceeding southerly along Route 29 to Ashton, taking Route 28 through Sandy Spring to Olney to Norbeck. Thence westerly through Redland on Route 115-1-2-3 to Smiths Corner and then Route 124-5 through Washington Grove to Gaithersburg. In Gaithersburg from Route 124-5 to Brooks Avenue, and right on Russell Avenue to Maryland Avenue. West along Maryland Avenue to Frederick Avenue and southerly on Route 124-6 to Quince Orchard. Thence on Route 28 to Darnestown. Route 112-1-2 from Darnestown to Seneca. From Seneca along the road bordering the great Seneca Creek to the Potomac River and along the northerly banks of the Potomac River to Fort Washington, the starting point.

2. Delete § 945.4 (b) (1) and substitute therefor the following:

Class I milk: All milk disposed of in the form of fluid milk, and all milk the utilization of which is not classified in Class II or Class III, and any loss or waste in excess of 1 percent shall be classified as Class I milk.

3. Insert after "cottage cheese" in § 945.4 (b) (2) the following:

loss or waste not to exceed 1 percent of milk received provided that any loss or waste in excess of 1 percent shall be classified as Class I, and all butterfat contained in milk or milk products on hand at the end of each delivery period.

4. Delete § 945.5 (a) and substitute therefor the following:

(1) Class I milk—$4.03 per hundredweight: *Provided*, That the price of Class I milk disposed of by a handler from a plant not having a health department permit to sell fluid milk or fluid cream in the District of Columbia shall be $3.57 per hundredweight: *And provided further*, That with respect to Class I milk disposed of under a program approved by the Secretary for the sale or disposition of milk to low-income groups, including persons who are on relief, the price shall be not less than $3.57 per hundredweight.

(2) Class II milk—$2.56 per hundredweight.

(3) Class III milk—Each handler shall pay producers and associations of producers not less than the following: The standing offer of the Maryland and Virginia Milk Producers' Association, Inc., to buy 10 gallon cans of 40% cream for sale to manufacturers of ice cream, cheese (other than cottage cheese) and butter sold at wholesale, on file with the Market Administrator on the date of such delivery, divided by 33, multiplied by 4, plus skim milk adjustment as computed under § 945.8 (g).

5. Add the following at the end of § 945.8:

(g) The minimum prices for Class III milk shall include any plus adjustment which shall be computed by the Market Administrator as follows: From the average price of all Dry Skim Powder as quoted in the monthly "Dry Milk Report of the Agricultural Marketing Service, United States Department of Agriculture," subtract 5 cents and multiply by 7.5.

6. In line 18 of § 945.9 (a) strike out the words "not more than 7½ cents" and insert in place thereof "one-half the cost."

7. In line 5 of § 945.9 (b) strike out the words "not more than 7½ cents" and insert in place thereof "one-half the cost."

8. Insert in § 945.8—"Payment to Producers" the following:

(a) *Advance payments.* On or before the 20th day of each delivery period each handler shall make payment to producers for the approximate value of milk received during the first 15 days of such delivery period. In no event shall such advance payment be at a rate less than the average price paid by such handler for milk in the immediately preceding delivery period.

Then the present paragraph (a) will become paragraph (b), entitled "Final Payments".

II. Amendment Proposed by Thompson's Dairy, Embassy-Fairfax Dairy, Inc., and Wakefield Dairy, Simpson Bros., Inc.

1. Delete § 945.4 (d) (4) and substitute therefor the following:

Total pounds of milk to be classified: Divide the net receipts of butterfat in pounds or the total pounds of butterfat accounted for in all classes, determined pursuant to subparagraphs (2) and (3) respectively, of this paragraph, whichever is the larger; less overage in butterfat resulting from variance in tests not to exceed one percent (1%) of net receipts of butterfat, from the total butterfat accounted for in all classes, or add thereto shrinkage not to exceed one percent (1%) of net receipts of butterfat, by the average test of milk received from producers.

III. Amendment Proposed by Embassy-Fairfax Dairy, Inc., and Wakefield Dairy, Simpson Bros., Inc.

1. Delete § 945.4 (b) (3) and substitute therefor the following:

Class Three (3) milk: (A) all milk the cream therefrom which is disposed of to a purchaser which is used by such purchaser to produce ice cream or ice cream mix, American Cheese, and butter: *Provided*, That a statement of such use by the purchaser is filed with the Market Administrator and subject to his

[illegible] and the milk of certain milk [illegible] handler to [illegible] or its cream milk in [illegible] or is not approved by the [illegible] of Columbia, Health Department, [illegible] milk or cream for fluid [illegible] within the District of Columbia.

IV. Amendments Proposed by Ellenberg-Pelletier Dairy Inc.

1. Amend § 946.5 (c) (3) entitled "Class Three (3) Milk" by providing that the price for said class three (3) milk shall be in accordance with what is known as Western cream basis based on the Chicago butter market and established in accordance with the prevailing custom in the ice cream trade.

2. Amend § 946.5 (d) (3) entitled "Class One (1) Milk" by providing for the payment by handlers [illegible] milk based on sales of butterfat therefrom from the handlers' receipts of milk [illegible] the handlers in excess classification paid butterfat to milk by the handlers.

3. Amend Order No. 45, as amended, by establishing [illegible] a marketing stabilization pool instead of the one provided in said order, an individual-handler stabilization pool.

V. Amendments Proposed by the Meadow Gold [illegible].

1. Delete § 946.4 (d) and substitute therefore the following:

For each delivery period the market administrator shall [illegible] for each handler the volume of milk that he is to account for in each class as follows:

(1) Total receipts of milk from producers: Add together the total pounds of milk received from producers and equivalent of cream received from producers, each multiplied by the average test of all milk received from producers converted to that average test; [illegible] of milk received from producers and the pounds of milk and milk equivalent of cream disposed of for the account of an association.

(2) Net receipts of [illegible] Class: Add the butterfat in milk and cream [illegible] as computed pursuant to subparagraph (1) of this paragraph, plus the butterfat in milk and cream received from other handlers.

(3) Total pounds of [illegible] to be counted for in all classes and [illegible] the pounds of butterfat [illegible] in all other milk and cream [illegible] not [illegible] of butterfat.

(4) The excess of pounds of butterfat [illegible] in all classes over the total pounds of butterfat [illegible] in all milk and cream [illegible] shall be the pounds of milk equivalent of cream [illegible] at the average test of all milk [illegible] the plant, received from other handlers.

(5) Class I milk.—Multiply the weight of the various units disposed of by such handler which are classified as Class I milk by the number of units irrespective of the butterfat test thereof, add therein the pounds of Class I milk delivered to other handlers, not including such milk disposed of for the account of an association of producers, and classified pursuant to paragraph (a) of this section, add the net excess of butterfat accounted for converted to milk equivalent at 4 percent or the loss in butterfat converted to milk equivalent at the average test of all milk received in the plant.

(7) Class III milk.—Add together the pounds of butterfat in the milk classified as Class III milk, including the pounds of butterfat in milk or cream delivered to other handlers, and not including the butterfat in milk or cream disposed of for the account of the association, and classified as Class III pursuant to paragraph (c) of this section, and divide by the average test of milk received in the plant; and

(8) Class II milk.—Subtract the pounds of Class I and Class III milk combined from the total pounds of milk to be classified computed pursuant to subparagraph (5) of this paragraph.

(9) Classification of milk from producers.—From the total pounds of milk in each class computed pursuant to subparagraphs (6), (7), and (8) of this paragraph, subtract receipts of milk and milk equivalent of cream converted at the average test of all milk received in the plant, from other handlers classified pursuant to paragraph (c) of this section.

2. Delete § 946.7 (a) and substitute therefor the following:

For each delivery period the market administrator shall compute the value of milk disposed of by each handler receiving milk from other producers and associations as follows—Multiply the hundredweight of milk in each class computed pursuant to subparagraphs (5), (7), and (8) subject to any deductions pursuant to (9) of § 946.4 (d), by the price established pursuant to § 946.5, and add the resulting values together, and [illegible] to the hundredweight of milk received computed pursuant to § 946.4 (d) (2), except that a handler purchasing milk or cream from the association of producers qualified for [illegible] may deduct from the value of milk of [illegible] so computed [illegible] to this section and the [illegible] pounds or milk equivalent [illegible] and the corresponding value [illegible] before computing the [illegible] price for the remainder.

3. Delete § 946.4 (b) (2) and substitute therefor the following:

[illegible] disposed of in the form of [illegible] manufactured milk drinks, cream for consumption as cream, cream buttermilk and cottage cheese; and * * *

VI. Amendments proposed by the Commissioner General, United States Department of Agriculture:

1. Delete § 946.4 (b) and substitute therefor the following:

(b) Classes of utilization.—Except as provided in paragraph (c) of this section, the classes of utilization of milk shall be as follows:

(1) Class I milk.—All milk disposed of in the form of fluid milk, flavored or manufactured milk drinks, cream for consumption as cream, cream buttermilk, cottage cheese, and all milk the utilization of which is not classified in Class II.

(2) Class II milk.—(a) All milk the cream likeskream which is disposed of to a manufacturer of ice cream or ice cream mix, American cheese, and butter sold at wholesale, who does not engage in the processing or distribution of milk or cream for fluid consumption, other than to his own employees, or sell milk or cream to establishments selling milk or cream for fluid consumption in the Washington marketing area and which is used by such manufacturer to produce ice cream or ice cream mix, American cheese, and butter sold at wholesale: *Provided*, That a statement of such use by the purchaser is filed with the market administrator and subject to his verification; and (b) milk or cream used by a handler to produce ice cream or ice cream mix in his plant, which is not approved by the District of Columbia Health Department to sell milk or cream for fluid consumption within the District of Columbia.

It is hereby declared that an emergency exists in the handling of milk in the aforesaid area which requires a shorter period of notice than fifteen (15) days, and it is hereby determined that the period of notice given is reasonable under the circumstances.

Additional copies of this notice of hearing and copies of Order No. 45, as amended, now in effect, may be procured from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, Room 0312, South Building, Washington, D. C., or may be there inspected.

IV. Amendments Proposed by Ballenger-Fletcher Dairy Inc.

1. Amend § 948.6 (a) (2) entitled "Class Three (3) Milk" by stating that this price for said classification of milk shall be in accordance with what is known as Western cream prices based on the Chicago butter market and calculated in accordance with the provisions set forth in the ice cream fields.

2. Amend § 948.5 (d) (2) entitled "Class One (1) Milk" by providing for the payment by handlers of [illegible] over-of butterfat [illegible] handlers' receipts of milk to be settled for by the handlers to producers classified milk butterfat is sold by the handler.

3. Amend Order No. 45, as amended, by establishing [illegible] stabilization pool instead of as now provided in said order, an individual-handler stabilization pool.

V. Amendments Proposed by the Market Administrator.

1. Delete § 948.4 (d) and substitute therefore the following:

For each delivery period the market administrator shall compute for each handler the volume of milk that he is to account for in each [illegible]:

(1) Total receipts of milk from producers: Add together the total pounds of milk received from producers and cooperative associations of producers, and determine by each handler and the milk equivalent of cream received from producers classified in the manner set forth in paragraph (c) of this section, of milk received from producers and subtract the pounds of milk and milk equivalent of cream disposed of for the account of an association;

(2) Class I milk—Multiply the weight of the various milk disposed of by each handler which are classified as Class I milk by the number of units irrespective of the butterfat test thereof, add thereto the pounds of Class I milk delivered to other handlers, not including such milk disposed of for the account of an association of producers, and classified pursuant to paragraph (b) of this section, add the net gross of butterfat contained in or converted to milk equivalent at 4 percent or the less in butterfat contained to milk equivalent at the average test of all milk received in the plant.

(3) Class III milk—Add together the pounds of butterfat in the milk classified as Class III milk, including the pounds of butterfat in milk or cream delivered to other handlers, and not including the butterfat in milk or cream disposed of for the account of an association, and classified as Class III pursuant to paragraph (a) of this section, and divide by the average test of milk received in the plant; and

(4) Class II milk—Subtract the pounds of Class I and Class III milk combined from the total pounds of milk to be classified computed pursuant to subparagraph (3) of this paragraph.

(5) Classification of milk from producers—From the total pounds of milk in each class computed pursuant to subparagraphs (2), (3), and (4) of this paragraph, subtract receipts of milk and milk equivalent of cream converted at the average test of all milk received in the plant, from other handlers classified pursuant to paragraph (c) of this section.

2. Delete § 948.7 (a) and substitute therefor the following:

For each delivery period the market administrator shall compute the value of milk disposed of by each handler receiving milk from other producers and associations as follows—Multiply the [illegible] of milk in each class computed pursuant to subparagraphs (2), (3), and (4) subject to any deductions pursuant to (5) of § 948.4 (d), by the price applicable pursuant to § 948.5, and add the values thus together, and [illegible] of milk received pursuant to § 948.4 (d) (1), except milk a handler purchases [illegible] cream from an association of producers which an association [illegible] for utilization in a manufactured form, the value of this milk or cream shall be computed according to the skim milk allocation and the butterfat or milk equivalent pounds and the corresponding value shall be deducted before computing the [illegible] price for the remainder.

3. Delete § 948.4 (b) (2) and substitute therefor the following:

(2) Class II milk—All milk disposed of in the form of fluid milk, flavored or manufactured milk drinks, cream for consumption as cream, sweet buttermilk and skimmed cheese; and the pounds of milk and milk equivalent of cream disposed of on the average test of all milk received in the plant, received from other handlers.

(3) Class I milk—Multiply the weight of the various milk disposed of by each handler which are classified as Class I milk by the number of units irrespective of the butterfat test thereof, add thereto the pounds of Class I milk delivered to other handlers, not including such milk disposed of for the account of an association of producers, and classified pursuant to paragraph (b) of this section, add the net gross of butterfat contained in or converted to milk equivalent at 4 percent or the less in butterfat contained to milk equivalent at the average test of all milk received in the plant.

(4) Class III milk—Add together the pounds of butterfat in the milk classified as Class III milk, including the pounds of butterfat in milk or cream delivered to other handlers, and not including the butterfat in milk or cream disposed of for the account of an association, and classified as Class III pursuant to paragraph (a) of this section, and divide by the average test of milk received in the plant; and

(5) Class II milk—Subtract the pounds of Class I and Class III milk combined from the total pounds of milk to be classified computed pursuant to subparagraph (3) of this paragraph.

(6) Classification of milk from producers—From the total pounds of milk in each class computed pursuant to subparagraphs (3), (4), and (5) of this paragraph, subtract receipts of milk and milk equivalent of cream converted at the average test of all milk received in the plant, from other handlers classified pursuant to paragraph (c) of this section.

It is hereby declared that an emergency exists in the handling of milk in the aforesaid area which requires a shorter period of notice than fifteen (15) days, and it is hereby determined that the period of notice given is reasonable under the circumstances.

Additional copies of this notice of hearing and copies of Order No. 45, as amended, now in effect, may be procured from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, Room 0313, South Building, Washington, D. C., or may be there inspected.

ORDER PERMITTING APPLICATION NO. 7 RELATING TO TRANSACTIONS INCIDENTAL TO DISSOLUTION OF THE MILWAUKEE SOLVAY COKE COMPANY

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 5th day of February, 1942.

The Milwaukee Gas Light Company, Solvay Coke Company, The American Light & Traction Company, and The United Light and Railways Company and The United Light and Power Company, registered holding companies, having jointly filed herein Application No. 7 pursuant to the Public Utility Holding Company Act of 1935, particularly sections 11 and 12 thereof, and Rules U-11, U-42, 43, and 46 thereunder regarding the following proposed transactions:

1. The surrender by the Milwaukee Gas Light Company to Milwaukee Solvay Coke Company of all its outstanding capital stock in the amount of 100 shares with a par value of $50 each.

2. The acquisition by Milwaukee Solvay Coke Company of its own capital stock for cancellation and in consideration therefor to release and discharge the open account indebtedness in the amount of $3,000 owed to it by The Milwaukee Gas Light Company.

3. The cancellation of such capital stock and the dissolution of Milwaukee Solvay Coke Company.

Said application having been filed on January 9, 1942, said notice of said filing having been duly given as required by the Act and applicable Rules of the Commission and the Commission not having received a request for hearing with respect to said application in the period specified in said notice or otherwise, and not having ordered a hearing thereon; and

The applicants having requested that an order be entered granting said application on February 5th, 1942; and

The Commission deeming it appropriate in the public interest and in the interest of investors and consumers to grant said application pursuant to sections 11 (b) (1) and 12 (c) and (f) of the Act and Rules U-43, U-42, U-43, and U-46 thereunder; and

The Commission finding that the transactions described in paragraphs numbered 1 to 3, inclusive herein, are necessary to effectuate the provisions of section 11 (b) of the Act, and to comply with the applicable provisions of our order of August 8, 1941 (Holding Company Act Release No. 2629);

It is hereby ordered, Pursuant to the applicable provisions of said Act and the applicable rules thereunder, subject to the terms and conditions prescribed in Rule U-24, that the aforesaid application be, and the same hereby is, granted.

IN THE MATTER OF CRESCENT PUBLIC SERVICE COMPANY; G. M. DUNNE AND D. E. DUNNE, JR.

NOTICE REGARDING FILING

At a meeting of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 5th day of February, A. D. 1942.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above-named parties; and

Notice is further given that any interested person may, not later than February 28, 1942, at 4:45 P. M., E. S. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D. C.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which are summarized below:

Crescent Public Service Company, a registered holding company, proposes to sell for $96,000, to G. M. Dunne and D. E. Dunne, Jr., of Wichita, Kansas, all of the presently outstanding securities of The Caney Electric Company, its subsidiary, consisting of the following:

(a) 200 shares of Common Stock, with a par value of $100 per share; and

(b) A 7% unsecured demand Promissory Note of The Caney Electric Company, dated October 1, 1934, in the original principal amount of $31,497.73, of which there remains unpaid the sum of $30,000.

The declaration states that the aforementioned securities of The Caney Electric Company have been pledged by Crescent Public Service Company with the City Bank Farmers Trust Company, as Trustee, under a Trust Indenture securing the Collateral Trust 4% Income Bonds, Series B, due October 1, 1954, of Crescent Public Service Company. The proposed sale price of $96,000 will be deposited with the Trustee under the aforementioned Indenture and Crescent Public Service Company proposes to utilize the amount so deposited for the purchase and retirement of its Collateral Trust 4% Income Bonds, Series B, due October 1, 1954, at current market prices.

The President

EXECUTIVE ORDER

ESTABLISHING A WAR SHIPPING ADMINISTRATION IN THE EXECUTIVE OFFICE OF THE PRESIDENT AND DEFINING ITS FUNCTIONS AND DUTIES

By virtue of the authority vested in me by the Constitution and Statutes of the United States, including the First War Powers Act, 1941, approved December 18, 1941, as President of the United States and Commander in Chief of the Army and Navy, and in order to assure the most effective utilization of the shipping of the United States for the successful prosecution of the war, it is hereby ordered:

1. There is established within the Office for Emergency Management of the Executive Office of the President a War Shipping Administration under the direction of an Administrator who shall be appointed by and responsible to the President.

2. The Administrator shall perform the following functions and duties:

a. Control the operation, purchase, charter, requisition, and use of all ocean [illegible] under the flag or control of the United States, except (1) combatant vessels of the Army, Navy, and Coast Guard; auxiliaries of the Navy; and transports owned by the Army and Navy; and (2) vessels engaged in coastwise, intercoastal, and inland transportation under the Director of the Office of Defense Transportation.

b. Allocate vessels under the flag or control of the United States for use by the Army, Navy, other Federal departments and agencies, and the governments of the United Nations.

c. Provide marine insurance and reinsurance against loss or damage by the risks of war as authorized by Title II of the Merchant Marine Act, 1936, as amended.

d. Establish the conditions to be complied with as a condition to receiving insurance and other advantages as provided in Public Law 173, Seventy-Seventh Congress, approved July 14, 1941.

e. Represent the United States Government in dealing with the British Ministry of War Transport and with similar shipping agencies of nations allied with the United States in the prosecution of the war, in matters related to the use of shipping.

f. Maintain current data on the availability of shipping in being and under construction and furnish such data on request to the Departments of War and the Navy, and other Federal departments and agencies concerned with the import or export of war materials and commodities.

g. Keep the President informed with regard to the progress made in carrying out this Order and perform such related duties as the President shall from time to time assign or delegate to him.

3. The functions, duties, and powers conferred by law upon the United States Maritime Commission with respect to the operation, purchase, charter, insurance, repair, maintenance, and requisition of vessels, and the issuance of warrants with respect thereto, under the Merchant Marine Act of 1936 as amended, 49 Stat. 1985, Public Law 101 Seventy-Seventh Congress, approved June 6, 1941, and Executive Order 8771 issued pursuant thereto, Public Law 173, Seventy-Seventh Congress, approved July 14, 1941, are hereby transferred to the Administrator; and such part of existing personnel of the United States Maritime Commission together with such records and public property as the Administrator may deem necessary to the full exercise of his functions and duties prescribed by this Order are hereby assigned to the War Shipping Administration.

4. Vessels under the control of the War Shipping Administration shall constitute a pool to be allocated by the Administrator for use by the Army, Navy, other Federal departments and agencies, and the governments of the United Nations. In allocating the use of such vessels, the Administrator shall comply with strategic military requirements.

5. For the purpose of carrying out the provisions of this Order, the Administrator is authorized to utilize the services

6. In the discharge of his responsibilities the Administrator shall collaborate with existing military, naval, and civil departments and agencies of the government which perform wartime functions connected with transportation overseas, in order to secure the most effective utilization of shipping in the prosecution of the war. The Administrator particularly shall maintain close liaison with the Departments of War and the Navy through the Assistant Chief of Staff for Transportation and Supply and the Director, Naval Transportation Service, respectively, with respect to the movement of military and naval personnel and supplies; and with the Director of the Office of Defense Transportation with respect to the relation of overseas transportation to coastwise and intercoastal shipping and inland transportation. With respect to the overseas transportation of cargoes essential to the war production effort and the civilian economy the Administrator shall be guided by schedules transmitted to him by the Chairman of the War Production Board prescribing the priority of movement of such commodities and materials.

7. The Administrator may establish committees or groups of advisors representing two or more departments of the Federal government, or agencies or missions of governments allied with the United States in the prosecution of the war, as the case may require to carry out the purposes of this Order. Further, he may appoint representatives to such joint missions or boards dealing with matters within the scope of this Order as may be established with governments associated with the United States in the prosecution of the war.

8. Within the purposes of this Order, the Administrator is authorized to issue such directives concerning shipping operations as he may deem necessary or appropriate, and his decisions shall be final with respect to the functions and authorities so vested in him. The Administrator may exercise the powers, authority and discretion conferred upon him by this Order through such officials or agencies and in such manner as he may determine.

9. The Administrator is further authorized within the limits of such funds as may be allocated, transferred, or appropriated to the War Shipping Administration to employ necessary personnel and make provisions for necessary supplies, facilities, and services. So much of the unexpended balances of appropriations, allocations, or other funds available (including funds and contract authority available for the fiscal year ending June 30, 1942) for the use of the United States Maritime Commission in the exercise of the functions transferred to the Administrator and the War Shipping Administration, as the Director of the Bureau of the Budget with the approval of the President shall determine, shall be transferred to the War Shipping Administration for use in carrying out the functions and authority transferred to the Administrator and the War Shipping Administration pursuant to the provisions of this Order. In determining the amounts to be transferred from the United States Maritime Commission, the Director of the Bureau of the Budget may include amounts necessary to provide for the liquidation of obligations previously incurred by the United States Maritime Commission against such appropriations, allocations or other funds prior to the transfer; *Provided*, that the use of the unexpended appropriations, allocations or other funds transferred by this Section shall be subject to the provisions of Section 3 of the First War Powers Act, 1941.

TITLE 7—AGRICULTURE

CHAPTER XI—AGRICULTURAL CONSERVATION ASSOCIATION

[illegible]

Part 706—1942 Rice Conservation Program

[illegible]

[illegible] Pursuant to the authority vested in the [illegible] of Agriculture by the [illegible] Conservation and Domestic Allotment Act, as amended, and the Soil Conservation and Domestic Allotment Act, as amended, [illegible]

1. [illegible] is amended to read as follows:

[illegible] Purpose. As an emergency measure each participating producer will be allowed to work faces in 1942 equal to 100% or more of his base as determined by the provisions of paragraph (d) of this section.

* * * * *

4. Section 706.304 (i) is amended to read as follows:

(i) *Payment on discontinued faces limited to small trees.* No payment will be made on discontinued faces except those removed from small trees as required by paragraphs (a) and (b) of this section.

* * * * *

5. Section 706.304 (k) is hereby amended to read as follows:

(k) *Limitation of working area on faces.* Total streaks per face made during the period of this program, averaged by drifts or tracts, shall not exceed 24 inches in vertical measurement between shoulders of first streak and shoulders of last streak.

* * * * *

6. Section 706.304 (m) is hereby amended to read as follows:

(m) *Over 90-inch faces not eligible for payment.* Payment shall not be made on working faces or on faces required to be removed by paragraphs (a) and (b) of this section in any drift or tract where the average height of faces exceeds 90 inches at the beginning of the 1942 turpentine season, in vertical measurement between shoulders of first streak and shoulders of last streak, including jump streaks.

* * * * *

7. In § 706.304 (t) the last sentence is amended to read as follows:

(t) *Timber cutting requirements.* * * * Payment on working faces or removed faces shall not be made if the tree is cut or removed prior to the expiration of the 1942 program; provided, however, that trees having faces which attain a height in excess of 90 inches during the 1942 season may be cut after October 15, 1942, and payment will be made for such faces if written permission to cut is given by a District Supervisor of the Forest Service.

8. In § 706.304 (u) the first sentence is amended to read as follows:

(u) *Records required to facilitate administration of program.* Each applicant producer in measuring his trees to determine those to be worked under the 1942 program shall make an accurate count, by drifts, lots, or other suitable units, of all such faces and shall separately account for those located on fee land and those on leased lands; and he shall make and keep a written record thereof and furnish such record to the Forest Service, together with a description of lands. * * *

9. Section 706.304 is amended by the addition of the following new paragraph (v):

(v) *Chemical application to faces on selected trees.* Additional benefit payments will be made to participating producers (selected by the Forest Service

from volunteer applicants) for the experimental application of chemical stimulants as prescribed by the Forest Service to faces in areas of predominantly slash pine, such areas to be limited to one crop for each selected producer; one-half of the faces in each selected area to be so chemically treated after each chipping throughout the 1942 season and the other half of the faces to be worked without such chemical treatment. The areas selected are to be approved in advance, and the entire work is to be done under conditions prescribed, by the Forest Service. All of the work of each chipping on each selected area is to be done by the same chipper and so far as possible all the chipping on each selected tract is to be done by the same chipper throughout the 1942 season. Careful records of yield are to be made after each dipping for purposes of comparing yields from treated and non-treated faces and such records of yield are to be made available to the Forest Service.

10. Section 706.306 (a) is amended to read as follows:

§ 706.306 *Rates of payment.* * * *

(a) 1¾ cents per face for each face in continuous operation during the 1942 turpentine season except faces in drifts or tracts which, by drifts or tracts, average more than 60 inches in height at the beginning of the 1942 turpentine season.

11. Section 706.306 (b) is amended to read as follows:

(b) 5 cents per face for each face in the selected areas on which chemical stimulation experiments are conducted as prescribed.

Done at Washington, D. C., this 6th day of February 1942. Witness my hand and the seal of the Department of Agriculture.

CHAPTER IX—SURPLUS MARKETING ADMINISTRATION

PART 933—MILK IN THE CINCINNATI, OHIO, MARKETING AREA

ORDER SUSPENDING ORDER NO. 22, AS AMENDED,[1] REGULATING THE HANDLING OF MILK IN THE CINCINNATI, OHIO, MARKETING AREA

The Secretary of Agriculture of the United States of America, pursuant to the powers conferred upon the Secretary by the Agricultural Marketing Agreement Act of 1937 (7 U.S.C. 1940 ed. 601 et seq.), issued on November 28, 1940, and made effective as of December 2, 1940, the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area.

There being reason to believe that amendments to said order, as amended, would tend to effectuate the declared policy of said act, notice was given, on the 9th day of July 1941, of a hearing which was opened at Cincinnati, Ohio, on July 21, 1941, and which was postponed to September 9, 1941. At said time and place all interested parties were afforded an opportunity to be heard on proposed amendments to said order, as amended.

Upon the basis of the evidence introduced at the hearing referred to above and of other evidence that is available and has been considered, it is determined that the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area, as now in force and effect, obstructs and no longer tends to effectuate the declared policy of the act.

Now, therefore, pursuant to the powers conferred upon the Secretary of Agriculture by section 8c (16) (A) of said act, said Order No. 22, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area is hereby suspended until the further order of the Secretary.

This order of suspension shall be effective as of 11:59 p. m., e. s. t., February 28, 1942.

This order of suspension shall not affect, waive, suspend, or terminate any right, duty, obligation, or liability which shall have arisen or which may hereafter arise in connection with any of the terms and provisions of said order, as amended, provided such right, duty, obligation, or liability was incurred prior to the effective date of this suspension. In addition, this order of suspension shall not release or waive any violation of said order, as amended, occurring prior to the effective date of this suspension.

Done at Washington, D. C., this 6th day of February, 1942. Witness my hand and the seal of the Department of Agriculture.

But the regulations in this part shall not be construed as defining or limiting the classes of aliens of enemy nationalities subject to apprehension, detention, or internment or the other provisions of the aforesaid Proclamations.*

§ 30.3 *Travel without special permission.* An alien of enemy nationality subject to the regulations in this part is hereby granted general permission to travel as follows:

(a) *Travel within a community.* An alien of enemy nationality may travel or move about within the limits of the municipality, town, village, locality, or urban or rural community in which he resides or in which he has his regular place of business, from place to place and in such manner as will permit him to engage in the activities usual in his community. The limits of such community shall not necessarily be fixed by boundaries of municipalities, counties, States, or judicial districts, but shall include in each case the metropolitan or other community area in which the alien resides or has his regular place of business and shall include all that area generally thought of as constituting a greater city or metropolitan district or an urban or rural community.

(b) *Commuting to business.* An alien of enemy nationality may commute between his home and his regular place of business.

(c) *Travel to places of worship, schools, or Government agencies.* An alien of enemy nationality may travel between his home and his usual place of religious worship, or the school, college, or institution of learning at which he may be in regular attendance, or between his home and any Federal, State, or local government agency with which he may be required by such agency to transact business.

(d) *Foreign travel.* An alien of enemy nationality may complete a trip to or from a place out of the United States, provided however, that such alien complies with all regulations governing such foreign travel.*

§ 30.4 *Occasional travel or trips.* An alien of enemy nationality shall not travel or make trips or move from one locality to another except as herein provided:

(a) The alien of enemy nationality shall file in writing with the United States Attorney of the district of his residence, a statement setting forth the particulars hereinafter enumerated.

(b) Such statement shall be filed, together with at least two copies (and any additional copies required by the United States Attorney) with the United States Attorney at least 7 days prior to the intended departure except that the United States Attorney may, in exceptional cases and in the exercise of his discretion, waive all or any part of such 7 days' notice.

(c) Such statement and copies shall be prepared and filed personally by the alien desiring to make such trip at the office of such United States Attorney or at such place as he shall designate, except that, because of the distance between the place of residence of the alien and the office of the United States Attorney or other good and sufficient reason, the United States Attorney may permit such statement and copies together with a self-addressed stamped envelope to be mailed to him so as to be received at least 7 days prior to the intended commencement of the trip.

(d) Such statement and copies shall be made out upon forms to be prescribed by the Attorney General or in the absence thereof by the United States Attorney and shall contain the following information: (1) The name of the alien of enemy nationality; (2) the home address of the alien of enemy nationality and the telephone number, if any, of such place of residence; (3) the business address, if any, of such alien of enemy nationality and the telephone number, if any, of such place of business; (4) the alien enemy certificate of identification number of such alien of enemy nationality after it is obtained; (5) a detailed statement of the purpose for which the trip is to be made and the persons to be visited; (6) the proposed intermediate and final destinations of the trip; (7) the intended date of departure; (8) the intended date of return; (9) the address or addresses at which the alien of enemy nationality intends to be found while he is away from his permanent address; (10) the route to be followed to and from the point of destination; and (11) the common carrier or other means of transportation which the alien of enemy nationality intends to use.

(e) The United States Attorney shall retain the original of such statements in his files and shall forward copies thereof to the local office of the Federal Bureau of Investigation, and shall inquire of the F.B.I. for any facts indicating that the particular trip proposed by the particular alien of enemy nationality would in any manner endanger the national security.

(f) If, after such inquiry to the F.B.I., and such further investigation as the United States Attorney may see fit to conduct, the United States Attorney at any time within the 7 day period shall know of no reason why the particular trip would endanger the national security, he shall stamp or write an endorsement upon the remaining copy of the said statement that it was duly filed with him and shall deliver or mail to the alien enemy such endorsed copy of the statement.

(g) The alien of enemy nationality shall, at all times while he is so traveling, have with him on his person or in his immediate physical possession the endorsed copy of such statement.

The United States Attorney shall have, however, authority in any case to prohibit any particular trip, or to cancel any permission to travel granted by him if he shall deem it dangerous to the national security.*

§ 30.5 *Frequent travel or regular business travel.* An alien of enemy nationality accustomed to frequent or regular business travel (e. g. traveling salesmen, touring theatrical performers, drivers of trucks and busses and similar cases), instead of seeking permission pursuant to § 30.4 may apply for permission to travel as hereinafter provided:

(a) The alien shall present himself in person to the United States Attorney or to an assistant designated by him, for the district of his residence and shall file in writing an original and at least two copies (and any additional copies required by the United States Attorney) of a statement containing as full detail of all facts concerning himself, his business, and the time he has been engaged therein and his proposed travel, as the United States Attorney shall in the particular case require. This statement shall contain in as great particularity as shall be practicable a description of the travel intended, including the place or places and persons to be visited, dates of the proposed trips, and the route or routes to be followed.

(b) Such permission will not be granted unless the United States Attorney is satisfied that such travel is necessary and does not endanger the public safety and that requiring the alien to seek permission to travel for each trip under § 30.4 would impose an excessive hardship.

(c) In all cases in which the United States Attorney is satisfied that the applications warrant consideration, the United States Attorney shall forward copies of such statement to the F.B.I. and request to be advised whether facts are known indicating that such permission to travel would endanger or be detrimental to the public safety or national security.

(d) In those cases in which, after investigation, the United States Attorney is satisfied that such permission may properly be granted, he shall endorse such permission in writing on a copy of the statement and may note in the alien's certificate of identification that permission has been granted in such manner and form as he shall deem best suited to the particular case, provided that the permission to travel shall in no case be more general or extensive than the necessities of the particular case require.

(e) An alien enemy who has secured such permission to travel may thereafter travel in accordance with the terms of such permission without also having complied with the requirements of § 30.4: *Provided,* That before he makes any particular trip he shall notify the United States Attorney who issued such permission in writing and by mail, of the designation, the route to be followed, the carrier to be employed, and the date of the commencement of the trip. If the intended journey will include intermediate destinations or stop-overs the full particulars as to each trip or part thereof must be included. Such information must be sufficient so that at all times the United States Attorney may know the whereabouts of such alien.*

§ 30.6 *Travel by airplane.* No alien of enemy nationality shall make any flight of any nature in an airplane or other aircraft.*

§ 30.7 *Change of place of abode, employment, or name.* (a) No alien of enemy nationality shall change his place of abode or his place of employment unless he shall have at least 7 days previously filed with the United States Attorney for the district in which he resides a statement in writing containing the full particulars of such change.

(b) Whenever the holder of a Certificate of Identification changes his name under legal authority, residence address, or place of employment, written notices thereof shall immediately be given to (1) the Alien Registration Division of the Immigration and Naturalization Service, and (2) the Federal Bureau of Investigation at the office shown in the holder's Certificate of Identification.*

§ 30.8 *Radio transmitters.* No alien enemy shall use or operate or possess, or have under his custody or control at any time or place any radio transmitter. For this purpose the words "radio transmitter" are to be construed as including any apparatus designed to be used or capable of being used for the sending or transmitting of radio signals, communications or messages of any kind or nature whatsoever.*

§ 30.9 *Short-wave radio receiving sets.* (a) No alien of enemy nationality shall use or operate or possess or have under his custody or control at any time or place any short-wave radio receiving set, except where permission to do so is received as provided in paragraph (d) of this section. For this purpose the words "short-wave radio receiving set" are to be construed as including any apparatus designed to be used or capable of being used for the purpose of receiving signals, messages, or communications of any nature whatsoever, which signals, messages, or communications are transmitted by means of amplitude modulation radio waves of a frequency of 1,750 kilocycles or greater, or of a frequency of 540 kilocycles or less.

(b) A short-wave radio receiving set as defined in paragraph (a) of this section which is also capable of receiving standard-wave radio communications is deemed to be within the class of short-wave radio receiving sets prohibited unless the set is so altered or modified that short-wave radio communications or messages cannot be received by the said set, and further, unless the set is so altered or modified that it is impossible without the addition of more parts and the substantial rebuilding of the set to modify the set so that it will be capable of receiving short-wave radio communications.

(c) It shall be the duty of any alien of enemy nationality to ascertain whether or not any radio in his possession is prohibited, and he shall be held responsible

and distribution of a set of books designated "Smithsonian Scientific Series", or other books, in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Representing, directly or indirectly, that respondents' salesmen or representatives are in the employ of the Smithsonian Institution of Washington, D. C., or have any direct connection with said Smithsonian Institution;

(2) Representing, directly or indirectly that the books sold and distributed by the respondents are published by the Smithsonian Institution of Washington, D. C., or that the entire profit or proceeds obtained from the sale of such books accrues to the Smithsonian Institution of Washington, D. C.,

(3) Representing, directly or indirectly that the sale of said books is restricted to a selected number of individuals in any community or that any individual has been selected to act as patron of the Smithsonian Institution of Washington, D. C.,

(4) The use of "patron certificates" of the Smithsonian Institution in such a way as to imply that a purchaser has been specially selected, because of prominence in the community, or for any other reason, or that such purchaser has contributed to a cause other than by the purchase of a set of books as an ordinary commercial transaction for profit;

(5) The use of the word "Smithsonian Institution" in respondents' trade or corporate name, or in any other manner, to designate or describe an organization engaged in a commercial enterprise for profit, which is not a part of, or has no direct connection with, the Smithsonian Institution of Washington, D. C.;

(6) Representing, directly, or indirectly, that respondents are engaged in any enterprise other than that of a commercial enterprise for profit.

It is further ordered, That the respondents Parke, Austin & Lipscomb, Inc., a corporation, and its officers, and Alfred Monett, an individual, Robert A. Hogan, Jr., an individual, and Joseph M. McAndrews, an individual, and their respective agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution of a set of books designated "Smithsonian Scientific Series", or other books, in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Representing, directly or indirectly, that respondents' salesmen or representatives are in the employ of the Smithsonian Institution of Washington, D. C., or have any direct connection with said Smithsonian Institution;

(2) Representing, directly or indirectly that the books sold and distributed by the respondents are published by the Smithsonian Institution of Washington, D. C., or that the entire profit or proceeds obtained from the sale of such books accrues to the Smithsonian Institution of Washington, D. C.,

(3) Representing, directly or indirectly that the sale of said books is restricted to a selected number of individuals in any community or that any individual has been selected to act as patron of the Smithsonian Institution of Washington, D. C.,

(4) The use of letters endorsing the aims and purpose of the United States Flag Association as endorsements of books sold and distributed by the respondents;

(5) The use of life membership certificates in the United States Flag Association or other organizations in such a way as to imply that a purchaser has contributed to a cause other than by the purchase of a set of books as an ordinary commercial transaction for profit.

It is further ordered That the respondent shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

Corrections

The first sentence of § 144.12 (d) (4) appearing in the second column on page 781 of the issue for Friday, February 6, 1942, should read "Dilute the sample of the supernatant liquid with the diluent specified in subparagraph (2)."

The second sentence of the second paragraph under § 144.12 (f) (2) appearing in the second column on page 782 should read "Store, protected from excessive light, at a temperature of not less than 15° C. and not more than 30° C. (storage at low temperatures increases absorption of atmospheric oxygen)."

TITLE 26—INTERNAL REVENUE

CHAPTER I—BUREAU OF INTERNAL REVENUE

[T. D. 5115]

PART 469—TAX-FREE SALES TO FOREIGN GOVERNMENTS OF ARTICLES FOR EXPORT

Sec.

469.1 Articles sold for export.
469.2 Certificate for export.
469.3 Preservation of contracts.
469.4 Form of exemption certificate.

§ 469.1 *Articles sold for export.* During the period of the emergency and until further notice, and regardless of any contrary provision of any other regulation, the procedure herein established may be followed with respect to articles within the scope of Chapters 25 and 29 of the Internal Revenue Code sold by manufacturers or producers to foreign governments for export. Where such procedure is followed, such articles, when sold by the manufacturer or producer to a foreign government, will be regarded as having been sold for export and in due course exported.*

*§§ 469.1 to 469.5, inclusive, issued under the authority contained in secs. 2705, 2732, 3791, 53 Stat. 269, 294, 467; 26 U.S.C. 1940 ed., 2705, 2732, 3791.

§ 469.2 *Certificate for export.* There must be furnished to the manufacturer or producer, and he must have in his possession prior to passage of title, a certificate of a duly authorized representative of the foreign government stating that the articles are purchased for export, and will not be further manufactured prior to export. A single certificate may be given to cover all articles supplied under a particular contract.*

§ 469.3 *Preservation of contracts.* The contract, together with the certificate or certificates given by the foreign representative, must be preserved by the manufacturer for a period of at least four years from the last day of the month in which the last delivery under the contract is made, and must be readily accessible for inspection by internal revenue officers.*

§ 469.4 *Form of exemption certificate.* The certificate shall be in form substantially as follows:

EXEMPTION CERTIFICATE

(For use when articles are purchased from the manufacturer or producer by a foreign government for export)

---------- 19--
(Date)

The undersigned hereby certifies that he is ----------
(Official designation of government representative) of ----------
(Country) that he is authorized to execute this certificate; and that the articles specified in the accompanying order or on the reverse side hereof, are purchased from ----------
(Name of vendor) for export under contract ----------
(Number and symbols) ---------- and will not be further manufactured prior to export.

It is understood that the fraudulent use of this certificate to secure exemption will subject all guilty parties to a fine of not more than $10,000, or to imprisonment for not more than five years, or both, together with costs of prosecution.

PART 30—TRAVEL AND OTHER CONDUCT OF ALIENS OF ENEMY NATIONALITIES

Sec.

30.1 Classes of persons controlled by these regulations.
30.2 Classes of persons not required to comply with these regulations.
30.3 Travel without special permission.
30.4 Occasional travel or trips.
30.5 Frequent travel or regular business travel.
30.6 Travel by airplane.
30.7 Change of place of abode, employment, or name.
30.8 Radio transmitters.
30.9 Short-wave radio receiving sets.
30.10 Cameras.
30.11 Firearms and other prohibited articles.
30.12 Deposit of prohibited articles.

30.14 Release of articles.
30.15 Prohibited and restricted areas.
30.16 Violation of regulations.

§ 30.1 *Classes of persons controlled by these regulations.* Except as hereinafter expressly excluded by § 30.2, persons in the United States (including Puerto Rico and the Virgin Islands) required to comply with the regulations in this part are as follows:

(a) All aliens of the age of 14 years or older who were or are natives, citizens, or subjects of Germany, Italy, or Japan.

(b) All aliens of the age of 14 years or older who at present are stateless but who at the time at which they became stateless were citizens or subjects of Germany, Italy, or Japan.*

*§§ 30.1 to 30.16 inclusive issued under the authority contained in Procs. 2525, 2526, 2527, and 2537 (6 F.R. 6321, 6323, 6324; 7 F.R. 329); R.S. sec. 4067, 50 U.S.C. 1940 ed. sec. 21.

§ 30.2 *Classes of persons not required to comply with these regulations.* Persons not required to comply with the regulations in this part are as follows:

(a) Former German, Italian, or Japanese citizens or subjects who before December 7, 1941, in the case of former Japanese citizens or subjects, and before December 8, 1941, in the case of former German or Italian citizens or subjects became and are citizens or subjects of any nation other than Germany, Italy, or Japan.

(b) Austrians or Austrian-Hungarians (Austro-Hungarians) or Koreans who registered as such under the Alien Registration Act of 1940, provided that such persons have not at any time voluntarily become German, Italian, or Japanese citizens or subjects.

But the regulations in this part shall not be construed as defining or limiting the classes of aliens of enemy nationalities subject to apprehension, detention, or internment or the other provisions of the aforesaid Proclamations.*

§ 30.3 *Travel without special permission.* An alien of enemy nationality subject to the regulations in this part is hereby granted general permission to travel as follows:

(a) *Travel within a community.* An alien of enemy nationality may travel or move about within the limits of the municipality, town, village, locality, or urban or rural community in which he resides or in which he has his regular place of business, from place to place and in such manner as will permit him to engage in the activities usual in his community. The limits of such community shall not necessarily be fixed by boundaries of municipalities, counties, States, or judicial districts, but shall include in each case the metropolitan or other community area in which the alien resides or has his regular place of business and shall include all that area generally thought of as constituting a greater city or metropolitan district or an urban or rural community.

(b) *Commuting to business.* An alien of enemy nationality may commute between his home and his regular place of business.

(c) *Travel to places of worship, schools, or Government agencies.* An alien of enemy nationality may travel between his home and his usual place of religious worship, or the school, college, or institution of learning at which he may be in regular attendance, or between his home and any Federal, State, or local government agency with which he may be required by such agency to transact business.

(d) *Foreign travel.* An alien of enemy nationality may complete a trip to or from a place out of the United States, provided however, that such alien complies with all regulations governing such foreign travel.*

§ 30.4 *Occasional travel or trips.* An alien of enemy nationality shall not travel or make trips or move from one locality to another except as herein provided:

(a) The alien of enemy nationality shall file in writing with the United States Attorney of the district of his residence, a statement setting forth the particulars hereinafter enumerated.

(b) Such statement shall be filed, together with at least two copies (and any additional copies required by the United States Attorney) with the United States Attorney at least 7 days prior to the intended departure except that the United States Attorney may, in exceptional cases and in the exercise of his discretion, waive all or any part of such 7 days' notice.

(c) Such statement and copies shall be prepared and filed personally by the alien desiring to make such trip at the office of such United States Attorney or at such place as he shall designate, except that, because of the distance between the place of residence of the alien and the office of the United States Attorney or other good and sufficient reason, the United States Attorney may permit such statement and copies together with a self-addressed stamped envelope to be mailed to him so as to be received at least 7 days prior to the intended commencement of the trip.

(d) Such statement and copies shall be made out upon forms to be prescribed by the Attorney General or in the absence thereof by the United States Attorney and shall contain the following information: (1) The name of the alien of enemy nationality; (2) the home address of the alien of enemy nationality and the telephone number, if any, of such place of residence; (3) the business address, if any, of such alien of enemy nationality and the telephone number, if any, of such place of business; (4) the alien enemy certificate of identification number of such alien of enemy nationality after it is obtained; (5) a detailed statement of the purpose for which the trip is to be made and the persons to be visited; (6) the proposed intermediate and final destinations of the trip; (7) the intended date of departure; (8) the intended date of return; (9) the address or addresses at which the alien of enemy nationality intends to be found while he is away from his permanent address; (10) the route to be followed to and from the point of destination; and (11) the common carrier or other means of transportation which the alien of enemy nationality intends to use.

(e) The United States Attorney shall retain the original of such statements in his files and shall forward copies thereof to the local office of the Federal Bureau of Investigation, and shall inquire of the F.B.I. for any facts indicating that the particular trip proposed by the particular alien of enemy nationality would in any manner endanger the national security.

(f) If, after such inquiry to the F.B.I., and such further investigation as the United States Attorney may see fit to conduct, the United States Attorney at any time within the 7 day period shall know of no reason why the particular trip would endanger the national security, he shall stamp or write an endorsement upon the remaining copy of the said statement that it was duly filed with him and shall deliver or mail to the alien enemy such endorsed copy of the statement.

(g) The alien of enemy nationality shall, at all times while he is so traveling, have with him on his person or in his immediate physical possession the endorsed copy of such statement.

The United States Attorney shall have, however, authority in any case to prohibit any particular trip, or to cancel any permission to travel granted by him if he shall deem it dangerous to the national security.*

§ 30.5 *Frequent travel or regular business travel.* An alien of enemy nationality accustomed to frequent or regular business travel (e. g. traveling salesmen, touring theatrical performers, drivers of trucks and busses and similar cases), instead of seeking permission pursuant to § 30.4 may apply for permission to travel as hereinafter provided:

(a) The alien shall present himself in person to the United States Attorney or to an assistant designated by him, for the district of his residence and shall file in writing an original and at least two copies (and any additional copies required by the United States Attorney) of a statement containing as full detail of all facts concerning himself, his business, and the time he has been engaged therein and his proposed travel, as the United States Attorney shall in the particular case require. This statement shall contain in as great particularity as shall be practicable a description of the travel intended, including the place or places and persons to be visited, dates of the proposed trips, and the route or routes to be followed.

(b) Such permission will not be granted unless the United States Attorney is satisfied that such travel is necessary and does not endanger the public safety and that requiring the alien to seek permission to travel for each trip under § 30.4 would impose an excessive hardship.

(c) In all cases in which the United States Attorney is satisfied that the applications warrant consideration, the United States Attorney shall forward copies of such statement to the F.B.I. and request to be advised whether facts are known indicating that such permission to travel would endanger or be detrimental to the public safety or national security.

(d) In those cases in which, after investigation, the United States Attorney is satisfied that such permission may properly be granted, he shall endorse such permission in writing on a copy of the statement and may note in the alien's certificate of identification that permission has been granted in such manner and form as he shall deem best suited to the particular case, provided that the permission to travel shall in no case be more general or extensive than the necessities of the particular case require.

(e) An alien enemy who has secured such permission to travel may thereafter travel in accordance with the terms of such permission without also having complied with the requirements of § 30.4: *Provided*, That before he makes any particular trip he shall notify the United States Attorney who issued such permission in writing and by mail, of the designation, the route to be followed, the carrier to be employed, and the date of the commencement of the trip. If the intended journey will include intermediate destinations or stop-overs the full particulars as to each trip or part thereof must be included. Such information must be sufficient so that at all times the United States Attorney may know the whereabouts of such alien.*

§ 30.6 *Travel by airplane.* No alien of enemy nationality shall make any flight of any nature in an airplane or other aircraft.*

§ 30.7 *Change of place of abode, employment, or name.* (a) No alien of enemy nationality shall change his place of abode or his place of employment unless he shall have at least 7 days previously filed with the United States Attorney for the district in which he resides a statement in writing containing the full particulars of such change.

(b) Whenever the holder of a Certificate of Identification changes his name under legal authority, residence address, or place of employment, written notices thereof shall immediately be given to (1) the Alien Registration Division of the Immigration and Naturalization Service, and (2) the Federal Bureau of Investigation at the office shown in the holder's Certificate of Identification.*

§ 30.8 *Radio transmitters.* No alien enemy shall use or operate or possess, or have under his custody or control at any time or place any radio transmitter. For this purpose the words "radio transmitter" are to be construed as including any apparatus designed to be used or capable of being used for the sending or transmitting of radio signals, communications or messages of any kind or nature whatsoever.*

§ 30.9 *Short-wave radio receiving sets.* (a) No alien of enemy nationality shall use or operate or possess or have under his custody or control at any time or place any short-wave radio receiving set, except where permission to do so is received as provided in paragraph (d) of this section. For this purpose the words "short-wave radio receiving set" are to be construed as including any apparatus designed to be used or capable of being used for the purpose of receiving signals, messages, or communications of any nature whatsoever, which signals, messages, or communications are transmitted by means of amplitude modulation radio waves of a frequency of 1,750 kilocycles or greater, or of a frequency of 540 kilocycles or less.

(b) A short-wave radio receiving set as defined in paragraph (a) of this section which is also capable of receiving standard-wave radio communications is deemed to be within the class of short-wave radio receiving sets prohibited unless the set is so altered or modified that short-wave radio communications or messages cannot be received by the said set, and further, unless the set is so altered or modified that it is impossible without the addition of more parts and the substantial rebuilding of the set to modify the set so that it will be capable of receiving short-wave radio communications.

(c) It shall be the duty of any alien of enemy nationality to ascertain whether or not any radio in his possession is prohibited; and he shall be held responsible

for knowing whether or not such set is a short-wave radio receiving set.

(d) The several United States Attorneys are hereby authorized to grant permission in writing to any such alien to use, operate, possess or have in his custody or control short-wave radio receiving sets in cases where it appears to the satisfaction of the United States Attorney that the granting of the permission is needful to the applicant's regular and customary mode of earning a livelihood and it does not appear that the granting of permission will in any manner be detrimental to the national security. The alien shall make written application, stating his name, certificate of identification number after it is obtained, residence, business address, the specific equipment or, if that is impracticable the specific classes of equipment, with respect to which he desires to obtain permission, the reason for which such permission is desired, the respect in which the equipment is needed for his earning a livelihood, and the length of time during which he has earned his livelihood in such manner. Where granted, such permission shall be in writing and shall be expressly limited to fit the needs of the particular case and may, in the discretion of the United States Attorney, be further limited and restricted in any manner or respect which he shall deem to be in the interests of national security.*

§ 30.10 *Cameras.* (a) No alien of enemy nationality shall use or operate or possess or have under his custody or control at any time or place any camera except as hereinafter provided.

(b) Fixed cameras which are not readily transportable to the place of deposit designated by the local police authorities and which are customarily regarded as studio cameras and not as hand cameras may temporarily be retained, providing that any alien of enemy nationality having such camera in his possession, custody, or control shall make a written report thereof to the local police authorities. Such cameras, however, shall not be used except pursuant to permission obtained in accordance with the provisions of paragraph (c) of this section.

(c) The several United States Attorneys are hereby authorized to grant permission in writing to an alien of enemy nationality to possess or operate or have under his custody or control a camera, either fixed or otherwise, in cases where it appears to the satisfaction of the United States Attorney that the granting of the permission is needful to the applicant's regular and customary mode of earning a livelihood and it does not appear that the granting of permission will in any manner be detrimental to the national security. The alien shall make written application stating his name, certificate of identification number after it is obtained, residence, business address, the specific equipment, or if that is impracticable, the specific classes of equipment, with respect to which he desires to obtain permission (if telescopic or other special equipment is to be used such facts shall be stated in detail), the reason for which such permission is desired, the respect in which the equipment is needed for his earning a livelihood, and the length of time during which he has earned his livelihood in such manner. Where granted, such permission shall be in writing and shall be expressly limited to fit the needs of the particular case and may, in the discretion of the United States Attorney, be further limited and restricted in any manner or respect which he shall deem to be in the interests of national security.*

§ 30.11 *Firearms and other prohibited articles.* (a) No alien of enemy nationality shall use or operate or possess, or have under his custody or control at any time any firearm except as provided in paragraph (c) of this section.

(b) No alien of enemy nationality shall use or operate or possess, or have under his custody or control at any time or place any article (other than radio equipment, cameras, and firearms herein above provided for), the use, operation, or possession of which article is prohibited by paragraph 5 of the regulations of the Presidential proclamation of December 7 and 8, 1941, as except as provided in paragraph (c) of this section.

(c) The several United States Attorneys are hereby authorized in extraordinary and exceptional cases to grant permission in writing to an alien of enemy nationality to possess or to have under his custody or control firearms or other prohibited articles if the United States Attorney after thorough investigation is satisfied that the granting of such permission will in no manner be detrimental to the national security.*

§ 30.12 *Deposit of prohibited articles.* (a) It shall at all times hereafter remain the duty of every alien of enemy nationality (required by the present or prior regulations to deposit prohibited articles with the police) to deliver immediately to the local police authorities in the community in which he resides or is present all short-wave receiving sets, cameras, firearms, and other articles prohibited by the proclamations of December 7 and 8, 1941, which are at the time of the promulgation of the regulations in this part or at any time thereafter in his possession.

(b) Every alien of enemy nationality who, for any reason, has at any time or shall hereafter have failed to comply with the Presidental proclamations and regulations, shall forthwith submit to the United States Attorney for the district in which he resides or is present, a statement in writing of the facts and the reasons for such failure.*

§ 30.13 *Custody of prohibited articles.* The United States marshal in each district shall, as soon as practicable, receive from the local police authorities in such district, all prohibited articles which have been or shall hereafter be deposited with such police authorities in accordance with the Attorney General's regulations. Each local police authority who has received or who shall hereafter receive the deposit of any such prohibited article shall forthwith notify the United States marshal of his district in writing that he has accepted custody of prohibited articles. Upon receipt of such notification the United States marshal shall make suitable arrangements for the inventory, transportation, and storage of such prohibited articles, and shall deliver to the local police authorities a suitable receipt. The United States marshal shall at all times keep current an inventory of all such prohibited articles in his possession and shall forward a copy of such inventory to the United States Attorney, a copy to the special agent in charge of the field office of the F.B.I. for his district, and a copy to the Alien Enemy Control Unit, Department of Justice.*

§ 30.14 *Release of articles.* The United States Attorney may authorize release of deposited articles as follows:

(a) Articles the deposit of which was not required by the Presidential proclamations and the regulations thereunder.

(b) Radio receiving sets, capable of being modified to be a non-prohibited article if the United States Attorney is satisfied that the modification will be carried out and will in fact render the set a non-prohibited article.

(c) Articles which the United States Attorney has in writing permitted the alien to possess as provided in the regulations in this part.

(d) The United States marshal shall, upon written authority from the United States Attorney for his district, deliver prohibited or deposited articles in his possession to the person who originally deposited the same or to his agent duly designated in writing upon presentation and surrender of the original receipt given upon the deposit of such article.*

§ 30.15 *Prohibited and restricted areas.* Notwithstanding the provisions of § 30.3 the presence and conduct of an alien of enemy nationality are controlled in certain areas as follows:

(a) No alien of enemy nationality shall reside in, enter upon, remain in, or be found within any area designated heretofore or hereafter by the Attorney General of the United States as a prohibited area.

(b) No alien of enemy nationality shall reside in, enter upon, remain in, or be found within any area designated heretofore or hereafter by the Attorney General of the United States as a restricted area except that permits may be issued to such aliens to be in such restricted areas under prescribed conditions.*

§ 30.16 *Violation of regulations.* (a) Any alien of enemy nationality subject to the regulations in this part who fails to comply with these regulations or any other regulations governing the conduct of aliens of enemy nationalities, is subject to apprehension, detention, and internment for the duration of the war.

(b) Any alien of enemy nationality who shall aid, abet, counsel, command, induce, or procure any other alien of enemy nationality to fail to comply with any of the regulations in this part or any other regulations governing the conduct of aliens of enemy nationalities, is subject to apprehension, detention, and internment for the duration of the war.

(c) Any prohibited articles possessed in violation of the aforesaid Proclama-

tions of the President, or of the regulations in this part, are subject to summary seizure and forfeiture.*

Dated: February 5, 1942.

FRANCIS BIDDLE,
Attorney General.

TITLE 31—MONEY AND FINANCE: TREASURY

CHAPTER I—MONETARY OFFICES

PART 130—REGULATIONS RELATING TO TRANSACTIONS IN FOREIGN EXCHANGE, TRANSFERS OF CREDIT, PAYMENTS, AND THE EXPORT AND WITHDRAWAL OF COIN, BULLION AND CURRENCY; AND TO REPORTS OF FOREIGN PROPERTY INTERESTS IN THE UNITED STATES—APPENDIX

PUBLIC CIRCULAR NO. 4B[1] UNDER EXECUTIVE ORDER NO. 8389, APRIL 10, 1940, AS AMENDED AND REGULATIONS ISSUED PURSUANT THERETO FEBRUARY 7, 1942

Instructions for Preparation of Reports of Philippine Property

Instructions relating to reports to be filed on Form TFR-300, Series K, with respect to all property subject to the jurisdiction of the United States on the opening of business on June 1, 1940, and with respect to all property subject to the jurisdiction of the United States on the opening of business on January 1, 1942, in which, on the respective dates, any national of the Philippine Islands had any interest of any nature whatsoever, direct or indirect.

SECTION I—*Introduction*

Reports on Form TFR-300 with respect to all property subject to the jurisdiction of the United States in which any national of the Philippine Islands had any interest are required by paragraph (3) of Public Circular No. 11, issued under Executive Order No. 8389, as amended, and under section 130.4 of the Regulations of April 10, 1940, as amended. Series K of the Form has been provided for these reports. Property located in the Philippine Islands need not be reported.

Section II of this Circular contains general instructions applicable to all persons required to report on Series K. Section III consists of a classification of property, which must be followed strictly in reporting. Detailed instructions for filling out Series K are given in Section IV, and Sections V to X are devoted to additional instructions pertaining to certain particular classes of persons reporting, as outlined in the table of contents. Each of the sections of additional instructions applies solely to reports by the class of persons referred to therein. Section XI deals with exchange rates.

Before attempting to prepare a report, a person required to report should read completely Sections II, III, and IV of this Circular, and if he comes within one of the classes of persons for which additional instructions are provided, he should also read the section devoted to that class of persons.

Copies of Executive Order No. 8389, as amended, the Regulations issued pursuant thereto, this Circular and Public Circular No. 11, and Series K may be obtained from any Federal Reserve Bank, the Governor of any territory or possession of the United States, and the Secretary of the Treasury, Washington, D. C.

SEC. II—*General Instructions*

A. *Property to be reported*—(1) *Basic requirement.* Except as special provision to the contrary appears in this Circular, reports shall be made on Series K of Form TFR-300 with respect to *all property* subject to the jurisdiction of the United States on the opening of business on June 1, 1940, and with respect to *all property* subject to the jurisdiction of the United States on the opening of business on January 1, 1942, in which on the respective dates, or either of them, any national of the Philippine Islands had any interest of any nature whatsoever, direct or indirect. The reports must be made whether or not the property is or has been blocked or subjected to any restriction by or under Executive Order No. 8389, as amended. Section III of this Circular classifies property for purposes of reporting.

(2) *Property in the Philippine Islands.* In accordance with the definition of "United States" in Instruction C (3) below, property located in the Philippine Islands should not be reported with respect to either June 1, 1940, or January 1, 1942.

(3) *Property previously reported.* Reports which are required under this Circular must be made even though some or all of the property involved has already been reported on a series of Form TFR-300 other than Series K. Provision for reference to previous reports is made in Part F of Series K.

B. *Who must make report.* Except as special provision to the contrary appears in this Circular (see particularly Instruction G below), report must be made on Series K by:

(1) Every national of the Philippine Islands in the United States with respect to all property whatsoever subject to the jurisdiction of the United States on June 1, 1940, or January 1, 1942 in which on either or both dates he had any interest of any nature whatsoever, direct or indirect;

(2) Every person in the United States with respect to all property whatsoever held by him or in his custody, control, or possession, directly or indirectly, in trust or otherwise, and all debts or other obligations whatsoever owed by or asserted against him, and all contracts of any nature whatsoever to which he was a party, subject to the jurisdiction of the United States on June 1, 1940, or January 1, 1942, in which on either or both dates any national of the Philippine Islands had any interest of any nature whatsoever, direct or indirect;

(3) Every partnership, trust, association, corporation, or other organization, organized or existing under the laws of the United States or of any state, territory, or district of the United States, or having its principal place of business in the United States, with respect to any shares of its stock, including any right or claim to ownership or control or participation in ownership or control thereof or profits or income derived therefrom, or any equity in any of the foregoing, whether or not expressed by written agreement or evidenced by any instrument, and with respect to all bonds, debentures, notes, or other funded obligations or any equity therein, in any of which any national of the Philippine Islands had on either or both June 1, 1940, and January 1, 1942, any interest of any nature whatsoever, direct or indirect;

(4) Every agent or representative in the United States for any national of the Philippine Islands, having any information with respect to property subject to the jurisdiction of the United States on June 1, 1940, or January 1, 1942, in which on either or both dates the national for which he was agent or representative had any interest of any nature whatsoever, direct or indirect, but such an agent or representative who files a report in behalf of the national under paragraph (1) or reports under paragraph (2) above need not file a duplicate report under this paragraph.

C. *Definitions*—(1) *"Person" and "National"*. The terms "person" and "national" are defined as follows in section 5 of Executive Order No. 8389, as amended:

> C. The term "person" means an individual, partnership, association, corporation, or other organization.
>
> * * * * * *
>
> E. The term "national" shall include,
>
> (i) Any person who has been domiciled in, or a subject, citizen or resident of a foreign country at any time on or since the effective date of this Order,
>
> (ii) Any partnership, association, corporation or other organization, organized under the laws of, or which on or since the effective date of this Order had or has had its principal place of business in such foreign country, or which on or since such effective date was or has been controlled by, or a substantial part of the stock, shares, bonds, debentures, notes, drafts, or other securities or obligations of which, was or has been owned or controlled by, directly or indirectly, such foreign country and/or one or more nationals thereof as herein defined,
>
> (iii) Any person to the extent that such person is, or has been, since such effective date, acting or purporting to act directly or indirectly for the benefit or on behalf of any national of such foreign country, and
>
> (iv) Any other person who there is reasonable cause to believe is a "national" as herein defined.
>
> In any case in which by virtue of the foregoing definition a person is a national of more than one foreign country, such person shall be deemed to be a national of each such foreign country. In any case in which the combined interests of two or more foreign countries designated in this Order and/or nationals thereof are sufficient in the aggregate to constitute, within the meaning of the foregoing, control or 25 per centum or more of the stock,

---

[1] Sec. 5 (b), 40 Stat. 415 and 966; Sec. 2, 48 Stat. 1; 54 Stat. 179; Public No. 354, 77th Congress; E.O. 8389, April 10, 1940, as amended by E.O. 8785, June 14, 1941, E.O. 8832, July 26, 1941, E.O. 8963, Dec. 9, 1941, and E.O. 8998, Dec. 26, 1941; Regulations, April 10, 1940, as amended June 14, 1941, and July 26, 1941.

shares, bonds, debentures, notes, drafts, or other securities or obligations of a partnership, association, corporation or other organization, but such control or a substantial part of such stock, shares, bonds, debentures, notes, drafts, or other securities or obligations is not held by any one such foreign country and/or national thereof, such partnership, association, corporation or other organization shall be deemed to be a national of each of such foreign countries. The Secretary of the Treasury shall have full power to determine that any person is or shall be deemed to be a "national" within the meaning of this definition, and the foreign country of which such person is or shall be deemed to be a national. Without limitation of the foregoing, the term "national" shall also include any other person who is determined by the Secretary of the Treasury to be, or to have been, since such effective date, acting or purporting to act directly or indirectly for the benefit of or under the direction of a foreign country designated in this Order or national thereof, as herein defined.

It should be noted that the definition of "national" includes a citizen of the United States who has resided in the Philippine Islands at any time on or since January 1, 1942. However, see the exemptions provided by Instruction G (4).

(2) *"Philippine Islands."* With respect to reports on Series K, the term "Philippine Islands" shall include, but not by way of limitation:

(a) The Commonwealth of the Philippine Islands, and the Government thereof, on January 1, 1942, as well as any political subdivision, agency or instrumentality thereof, or any territory, dependency, possession, or place subject to the jurisdiction thereof;

(b) Any person to the extent that such person is or has been, or to the extent that there is reasonable cause to believe is, or has been, since such effective date, acting or purporting to act, directly or indirectly for the benefit or on behalf of any of the foregoing.

(3) *"United States."* With respect to reports on Series K, the term "United States" means the United States and any place subject to the jurisdiction thereof, except the Philippine Islands.

D. *Doubt concerning necessity of reporting.* No person who is a national of the Philippine Islands and is required to report on Series K is excused from reporting because of any doubt he may have as to his status as a national. A person required to report concerning property of another known to have had an interest in property should regard such other as a national for the purposes hereof, if he has any reasonable cause to believe that such other is or might be a national of the Philippine Islands. Similarly, a report should be made when there is reasonable cause to believe that a known national of the Philippine Islands had an interest in certain property, and also where there is reason to believe that a national had such an interest but the identity of the national is in doubt.

E. *Separation of reports for different nationals.* A separate report shall be made with respect to each national of the Philippine Islands who has any interest in any property to be reported, but all items of property of each such person shall be included in one report. For example, if the person reporting owed debts to five different nationals he will make five separate reports, listing on each report all of his debts to the particular national for whom that report is made. If he owed one debt jointly to five nationals, he will also make five separate reports, entering the whole debt on each. If it is known or there is reasonable cause to believe that a national other than the national in whose name any property is carried has an interest in or adverse claim upon the property, the property must be shown on a report for each such national interested or adverse claimant as well as for the national in whose name it is carried. Any duplication in reporting the same property or debt on several reports, or duplication by reason of several persons reporting the same property or debt, shall not excuse anyone from rendering all reports required of him.

F. *Time and place of filing report*—(1) *Time and place of filing.* Reports must must be executed and filed in quadruplicate on or before February 28, 1942, with the Federal Reserve Bank of the district or the Governor of the territory or possession of the United States in which the person filing the report resides or has a principal place of business or principal office or agency, or if such person has no legal residence or place of business or principal office or agency in a Federal Reserve district or a territory or possession of the United States, then with the Federal Reserve Bank of New York or the Federal Reserve Bank of San Francisco. Persons reporting should retain a copy of each report filed by them.

(2) *Discovery after February 28, 1942, that report is required.* If anyone fails to report concerning property of a person because he has no knowledge, notice, or other reasonable cause to believe that such person is a national of the Philippine Islands, or that such person is interested in certain property, he should file a report, with an explanation, as soon as he acquires knowledge, or receives notice, or has reasonable cause to believe that a report is required.

(3) *Change of circumstances after February 28, 1942.* If under circumstances existing on February 28, 1942, no report is required under any of the provisions of this Circular, with respect to property of a particular person, a report need not be made concerning the property of such person because of a change in his circumstances after that date, unless further provision for report is made pursuant to Executive Order No. 8389, as amended, and the Regulations issued pursuant thereto.

G. *When no report need be filed.* No report need be filed if any one of the following conditions exists:

(1) If the total value of all property of any national which any one person would otherwise be required to report was on both June 1, 1940, and January 1, 1942, less than $1,000: *Provided*, That this exemption shall not apply to the lease of a safe deposit box, to patents, trade-marks, copyrights, and franchises, to interests in partnerships, and profit-sharing agreements, nor to property the value of which cannot readily be determined: *And provided further*, That in arriving at the value of $1,000, no deduction shall be made for offsets, liens, or other deductions from gross value; or

(2) If the national concerning whose property a report would otherwise be required, is entitled to the benefits of General License No. 80, which reads in part,

> A general license is hereby granted licensing as a generally licensed national any individual who is a citizen of the Commonwealth of the Philippine Islands and residing only in the United States or in the generally licensed trade area, as defined in General License No. 53.

(3) If the national concerning whose property a report would otherwise be required is entitled to the benefits of General License No. 81, which reads,

> A general license is hereby granted licensing as generally licensed nationals:
> (a) The New York office of the Philippine National Bank; and
> (b) The offices within the United States and the generally licensed trade area, as defined in General License No. 53, of the Hong Kong and Shanghai Banking Corporation.

(4) If the national concerning whose property a report would otherwise be required is entitled to the benefits of General License No. 82, which reads in part,

> The government of the Commonwealth of the Philippine Islands, the United States High Commissioner to the Philippine Islands, and all officers of the United States Government within the Philippine Islands are hereby licensed as generally licensed nationals; and all persons to the extent that they are acting for and on behalf of the foregoing are hereby licensed as generally licensed nationals.

In addition, no report is required with respect to the property of any citizen of the United States residing in the Philippine Islands as a representative, agent, or employee of the United States Government, or as a member of the military or naval forces of the United States, who is a national of the Philippine Islands only by reason of residence in the Philippine Islands in pursuance of his duties. No report need be made with respect to the property of a citizen of the United States who is a national of the Philippine Islands only by reason of residence in the Philippine Islands as a member of the family of a person covered by the preceding sentence or General License No. 82.

Paragraph (3) of Public Circular No. 11 is hereby revoked so far as it requires reports on Form TFR–300 with

respect to property in which the Philippine Islands had an interest.

No report need be made with respect to the property of a corporation or other organization which is a national solely because of control by or an interest of a person or persons licensed under General License No. 80, General License No. 81, or General License No. 82.

H. *Penalties.* (1) Section 5 (b) of the Act of October 6, 1917 (40 Stat. 415), as amended, applicable hereto provides in part:

• • • Whoever willfully violates any of the provisions of this subdivision or of any license, order, rule or regulation issued thereunder, shall, upon conviction, be fined not more than $10,000, or, if a natural person, may be imprisoned for not more than ten years, or both; and any officer, director, or agent of any corporation who knowingly participates in such violation may be punished by a like fine, imprisonment, or both.

(2) Section 130.4 (c) (1) of the Regulations of April 10, 1940, as amended, issued under Executive Order No. 8389, as amended, provides:

All spaces in the report must be properly filled in. Reports found not to be in proper form, or lacking in essential details, shall not be deemed to have been filed in compliance with the Order.

I. *Information regarding preparation of reports.* Anyone desiring information as to whether or not he is required to make a report on Series K of Form TFR–300 may apply to any Federal Reserve Bank.

SEC. III—*Property Classes*

Before preparing any report read this section in detail. This Circular requires reports on Form TFR–300, Series K, of all property subject to the jurisdiction of the United States, in which any national of the Philippine Islands had any interest on either or both June 1, 1940, and January 1, 1942. In this Section property is classified for purposes of the reports. It is imperative that all property be entered under the correct type on Series K, which requires that the person reporting state whether or not he has reported the value of all property he is called upon to report therein.

SEC. IV—*Detailed Instructions for Filling Out Form*

1. *Purpose of form.* Series K is to be used to report property of nationals of the Philippine Islands as required under Public Circular No. 11 and this Circular. See particularly Instructions A, B, and C in Section II.

2. *Instructions applicable to entire Series*—(a) *Reading Circular.* If you have not already read carefully Sections I, II, and III of this Circular, do so before reading this Section. Persons coming within one of the classes of persons for whom additional instructions have been provided in Sections V to X of this Circular should also read the appropriate Section before attempting to prepare the reports.

(b) *Answers required.* Each question on the Series must be answered and all the specific information called for must be given. When there is nothing to report under any question or if information is lacking, state "No," "None," or "Unknown," as the case may be, with an explanation if required, except that in Part C spaces not needed for reporting should be left blank. No person is excused from furnishing any information he reasonably should have.

(c) *Number of copies required.* File each report in quadruplicate. You should retain, for yourself, an additional copy of each report.

3. *Nationality.* Enter in this space the name of each country, other than the Philippine Islands, of which the person whose property is being reported is a national, as defined in Section 5E of Executive Order No. 8389, as amended. If the person is a national of any foreign country in addition to being a national of the Philippine Islands, or if he is a national of the Philippine Islands by reason of any fact other than having been a citizen thereof, the facts determining the person's nationality must be stated in Part E. For example, Part E must be filled out in reporting the property of an American citizen resident in the Philippine Islands on or after January 1, 1942. In answering Part E, state all the facts concerning the nationality of the person whose property is reported, including those relating to his status as a national of the Philippine Islands.

4. *Part A*—(a) *Name.* If the national is an individual doing business under a trade name, give that name in addition to his actual name.

(b) *Type of organization.* With respect to individuals not engaged in business, insert a dash (—). Concerning other persons, indicate the legal nature of their organization, *e. g.*, individual proprietorship, partnership, corporation, business trust, etc.

(c) *Citizenship.* If the national is not an individual, enter the name of the country, state, district, territory, or possession under the laws of which it is incorporated, or if unincorporated, in which it has its principal place of business. When the national is a subject or citizen of more than one country state the name of each country, including the United States when that is one of the countries.

5. *Part B*—(a) *National reporting his own property.* A national reporting his own property should sign his name in this Part, exactly as he signs the affidavit of the report, and should insert the number 1 in the box in the upper right-hand corner of the Part. No other entry should be made. A national reporting his own property and also reporting property of another national or nationals should execute one affidavit for his own report and another affidavit for the reports of property of others. The reports for the other nationals should be prepared and numbered in accordance with sub-instructions (b) and (c) below and the first such report should be numbered 2.

(b) *Persons reporting property of others.* A person reporting the property of another should state in Part B, as indicated in the margin thereof, (a) its name, (b) its address, (c) its business, (d) the state or country of which it is a citizen or under the laws of which it is incorporated or, if unincorporated, in which it has its principal place of business, (e) if the person reporting is a national as defined in Section 5E of Executive Order No. 8389, as amended, the name of each country of which it is a national, and (f) its relationship to the national whose property is being reported, *e. g.*, as agent, trustee, nominee, custodian, debtor, banker, broker, etc. The statements must be *precisely* the same as the corresponding entries at the top of the affidavit under the caption "Name of person making report." The information may be given by any method producing a readily legible impression, including a rubber stamp.

(c) *Box for number.* Each report made on Series K by any one person is to be numbered consecutively in the box in the upper right-hand corner of Part B, beginning with the number 1, and the numbers so assigned are to be stated in the space provided in the affidavit of the report form. Nationals reporting for themselves must observe sub-instruction (a), above.

6. *Part C—Schedule I*—(a) *General.* This Schedule requires the valuation of all the property of the national within each property type contained in the classification set out in Section III of this Circular, which must be followed strictly, but property not falling under any of the other types of the classification must be reported under type 30. No property shall be reported under type 30 if it constitutes property reportable as any other type.

(b) *Valuation.* Enter in Column (a) the total value of the items of each type of property held on January 1, 1942, at the market price at the close of business on December 31, 1941, or, if such price is not available, at the estimated value on January 1, 1942. In estimating value, the last sale price or bid, if reasonably close to January 1, may be used as a basis. Enter in Column (b) the total value of the items of each type of property reported as being held on June 1, 1940. The January 1, 1942, unit value shall be used in both Column (a) and Column (b). In other words, if the same number of units of a particular kind of property was held on both June 1, 1940, and January 1, 1942, enter the same amount in Column (b) as in Column (a). If the number of units of a kind of property held on June 1, 1940, was different from the number held on January 1, 1942, use the same per unit value with respect to Column (b) as is used regarding Column (a), but apply the unit value to the number of units actually held on June 1, 1940. In any case where property was held only on June 1, 1940, none of it being held on January 1, 1942, the value should still be reported on the basis of the unit value on January 1, 1942, unless such value is not determinable, in which event the value of the property on June 1, 1940, should be entered in Column (b). When the June 1, 1940, value is used, an appropriate notation should be made.

All amounts reported should be given in dollars, to the nearest dollar. Do not enter fractions of a dollar on the report. However, in determining the value of a property item consisting of more than one unit, fractions of a dollar in the unit value should not be disregarded. For example, if ten shares of a particular stock are to be reported and the value of each share was $116⅜, so that the exact total value was $1,163.75, you should enter $1,164 on the report.

(c) *Value expressed in foreign currency.* Property, the value of which was expressed in a foreign currency, or which was to be paid or liquidated in a foreign currency, shall be valued at the dollar value if dollar market value existed for such property itself; if not, the foreign currency value thereof shall be converted into dollars, in accordance with the instructions relating to exchange rates given in Section XI of this Circular.

(d) *Property of indeterminable value.* In reporting property of indeterminable value, enter "Indeterminable" under the appropriate property type in Schedule I and describe the property in Schedule III, as required by Instruction 8, below. When property of determinable value and property of indeterminable value are to be reported under one property type in Schedule I, the determinable amount should be entered under the property type without indication of the property having indeterminable value, but descriptions of the items should be given in Schedule III in accordance with Instruction 8.

(e) *Inventories.* If in the regular course of its business, a national engaged in business prepared inventories of merchandise, and machinery and equipment, or either, between July 1, 1941, and January 1, 1942, and between December 31, 1939, and July 1, 1940, or during either of the foregoing periods, and if the information required to be furnished in Schedule I is not available from other existing records of the national, such inventories prepared nearest to the respective reporting dates and the values indicated thereon may be used in filling out Schedule I, with appropriate notation of such use, including the dates of the inventories.

(f) *Orders for goods.* Orders for goods and contracts for the sale of goods, including long term merchandise contracts, need not be reported.

(g) *Goods in transit.* Report is not required with respect to goods in transit, but all goods held or stored by or for a national, including goods stored by carriers, must be reported.

(h) *Agency, distributor's, and employment contracts.* Agency, distributor's, and employment contracts need not be reported, but report must be made of compensation due under such a contract.

7. *Part C—Schedule II.* This Schedule requires a statement of the indebtedness of the national payable to persons in the United States, within each indebtedness type as classified and described in the Schedule. State under each type only the total amount of indebtedness of that type being reported. Nationals reporting for themselves should enter all their indebtedness of each type. Persons reporting concerning nationals should enter only the indebtedness owed by the national to them. All amounts should be given in dollars, to the nearest dollar. Do not enter fractions of a dollar. Indebtedness payable in foreign currency should be converted into dollars in accordance with the in-

structions relating to exchange rates given in Section XI of this Circular.
